

ending 30 June 2024. Likewise, the population for the 2025 SED consists of all individuals receiving a research doctorate in the 12-month period beginning 1 July 2024 and ending 30 June 2025. A research doctorate is a doctoral degree that (1) requires completion of an original intellectual contribution in the form of a dissertation or an equivalent culminating project (e.g., musical composition) and (2) is not primarily intended as a degree for the practice of a profession. The most common research doctorate degree is the Ph.D. Recipients of professional doctoral degrees, such as MD, DDS, JD, DPharm, and PsyD, are not included in the SED. The 2024 and 2025 SED are expected to include about 620 separately reporting schools with eligible research doctoral programs from among about 460 doctorate-granting institutions. Based on the historical trend, NCSES expects that approximately 57,000 individuals will receive a research doctorate from U.S. institutions in 2024, and approximately 58,000 in 2025.

In addition to the questionnaire for individuals receiving their research doctorates, the SED requires the collection of administrative data such as graduation lists from participating academic institutions. The Institutional Coordinator at the institution helps distribute the Web survey link, track survey completions, and submit information to the SED survey contractor.

Estimate of Burden: An average overall response rate of 92% of the persons who earned a research doctorate from a U.S. institution was obtained in the academic years 2019, 2020, and 2021. Using the past response rate, the number of SED respondents in 2024 is estimated to be 52,440 (57,000 doctorate recipients \times 0.92 response rate). Similarly, the number of respondents in 2025 is estimated to be 53,360 (58,000 \times 0.92).

Based on the average Web survey completion time for the 2021 SED (19 minutes), NCSES estimates that, on average, 20 minutes per respondent, with a few potential new questions, will be required to complete the 2024 or 2025 SED Web survey. The annual respondent burden for completing the SED is therefore estimated at 17,480 hours in 2024 (52,440 respondents \times 20 minutes) and 17,787 hours in 2025 (based on 53,360 respondents).

Based on focus groups conducted with Institutional Coordinators, it is estimated that the SED demands no more than 1% of the Institutional Coordinator's time over the course of a year, which computes to 20 hours per

year per Institutional Coordinator (40 hours per week \times 50 weeks per year \times .01). With about 620 schools expected to participate in the SED in 2024 and 2025, the estimated annual burden to Institutional Coordinators of administering the SED is 12,400 hours per survey cycle.

Therefore, the total information burden for the SED is estimated to be 29,880 (17,480 + 12,400) hours in the 2024 survey cycle and 30,187 (17,787 + 12,400) hours in the 2025 survey cycle. NCSES estimates that the average annual burden for the 2024 and 2025 survey cycles over the course of the three-year OMB clearance period will be no more than 20,022 hours [(29,880 hours + 30,187 hours)/3 years].

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the NSF, including whether the information shall have practical utility; (b) the accuracy of the NSF's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION: OSC is a permanent independent federal investigative and prosecutorial agency. OSC’s basic authorities come from four federal statutes: The Civil Service Reform Act, the Whistleblower Protection Act, the Hatch Act, and the Uniformed Services Employment & Reemployment Rights Act (USERRA). OSC’s primary mission is to safeguard the merit system by protecting federal employees and applicants from prohibited personnel practices, especially reprisal for whistleblowing, and to serve as a safe channel for allegations of wrongdoing.

Title of Collection: Updated Form OSC–14: Electronic Submission of Allegations and Disclosures.

The updated electronic form is available on the OSC website at <http://www.osc.gov>.

Type of Information Collection Request: Approval of a collection of information from individuals who choose to file complaints or disclosures with OSC. The proposed collection is the same as the collection that was approved on February 3, 2020 and replaces three separate forms OSC previously used to collect the information.

Affected Public: Current and former Federal employees, applicants for

Federal employment, state and local government employees, and their representatives, and the general public.

Respondent’s Obligation: Voluntary.
Estimated Annual Number of Form OSC–14 Respondents: 6,000 (estimate based on a review of recent OSC Annual Reports and Congressional Budget Justifications, and trends).

Frequency of Use of Updated Form OSC–14: Daily.

Estimated Average Amount of Time for a Person to Respond Using Form OSC–14: For prohibited personnel practice and other prohibited activities allegations, one hour and 15 minutes; for whistleblower disclosures, one hour; and for Hatch Act allegations, 30 minutes to complete the form. OSC based these estimates on testing completed by OSC employees during the development of the collection form.

Estimated Annual Burden for Filing Form OSC–14: 6917.5 hours.

Abstract: The electronic form must be used to submit allegations of possible prohibited personnel practices or other prohibited activity for investigation and possible prosecution by OSC and is recommended for filing disclosures of covered wrongdoing for review and possible referral to heads of agencies. The form may also be used by individuals to file complaints under the Hatch Act.
