

116TH CONGRESS
1ST SESSION

H. R. 4305

To direct the Secretary of Veterans Affairs to carry out a pilot program on dog training therapy.

IN THE HOUSE OF REPRESENTATIVES

SEPTEMBER 12, 2019

Mr. STIVERS (for himself, Miss RICE of New York, Mr. RUTHERFORD, Ms. SHERRILL, Mr. DUNN, Mr. CISNEROS, Mr. WALTZ, Ms. SLOTKIN, Mr. ROY, and Mr. JOYCE of Ohio) introduced the following bill; which was referred to the Committee on Veterans' Affairs

A BILL

To direct the Secretary of Veterans Affairs to carry out a pilot program on dog training therapy.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Puppies Assisting
5 Wounded Servicemembers for Veterans Therapy Act” or
6 the “PAWS for Veterans Therapy Act”.

7 **SEC. 2. FINDINGS.**

8 Congress makes the following findings:

1 (1) According to the analyses of veteran suicide
2 published by the Department of Veterans Affairs in
3 August 2016 and titled “Suicide Among Veterans
4 and Other Americans”, and in June 2018, titled
5 “VA National Suicide Data Report”—

6 (A) an average of 20 veterans died by sui-
7 cide each day in 2014;

8 (B) mental health disorders, including
9 major depression and other mood disorders,
10 have been associated with increased risk for sui-
11 cide;

12 (C) since 2001, the proportion of users of
13 the Veterans Health Administration with men-
14 tal health conditions or substance use disorders
15 has increased from approximately 27 percent in
16 2001 to more than 40 percent in 2014; and

17 (D) overall, suicide rates are highest
18 among patients with mental health and sub-
19 stance use disorder diagnoses who are in treat-
20 ment and lower among those who received a
21 mental health diagnosis but were not at risk
22 enough to require enhanced care from a mental
23 health provider.

24 (2) The Department of Veterans Affairs must
25 be more effective in its approach to reducing the

1 burden of veteran suicide connected to mental health
2 disorders, including post-traumatic stress disorder
3 (in this section referred to as “PTSD”), and new,
4 rigorous scientific research provides persuasive
5 weight to the growing anecdotal evidence that serv-
6 ice dogs ameliorate the symptoms associated with
7 PTSD, and in particular, help prevent veteran sui-
8 cide.

9 (3) Several organizations have proven track
10 records of training service dogs for veterans with se-
11 vere PTSD and dramatically improving those vet-
12 erans’ quality of life, ability to re-enter society, and,
13 most importantly, their chances of survival.

14 **SEC. 3. DEPARTMENT OF VETERANS AFFAIRS PILOT PRO-**
15 **GRAM ON DOG TRAINING THERAPY.**

21 of assessing the effectiveness of addressing post-deploy-
