## RESOLUTION

Designating the week of September 23 through September  
27, 2024, as “National Clean Energy Week”.

Whereas, across the United States, clean and readily abundant forms of energy are powering more homes and businesses than ever before;

Whereas clean energy generation is readily available from zero- and low-emissions sources;

Whereas the clean energy sector is a growing part of the economy and has been a key driver of economic growth in the United States in recent years;

Whereas technological innovation can further reduce costs, enhance reliability, and increase deployment of clean energy sources;

Whereas the report of the Department of Energy entitled “United States Energy & Employment Report 2024” found that, in 2023, the energy and energy efficiency sectors in the United States employed approximately 8,350,000 individuals;

Whereas the scaling of affordable and exportable clean energy is essential to reducing global emissions;

Whereas clean energy jobs contribute to the growth of local economies; and

Whereas innovative clean energy solutions and clean energy jobs are part of the energy future of the United States:  
Now, therefore, be it

1       *Resolved*, That the Senate—
