## IN THE HOUSE OF REPRESENTATIVES

## RESOLUTION

Encouraging the Department of State and civil society to further the Abraham Accords by encouraging peace and tolerance in education.

Whereas the Abraham Accords shattered barriers, improved ties between Israel and neighboring countries, and advanced the cause of achieving lasting peace in the Middle East, including through a negotiated solution to the Israeli-Palestinian conflict that ensures mutual recognition and guarantees that Israelis and Palestinians live side by side with freedom, security, and prosperity, and this negotiated solution must include recognition of the State of Israel's right to exist;

Whereas it is the policy of the United States to develop and implement a regional security strategy that recognizes

the shared threat posed by Iran and violent extremist organizations, ensures sufficient United States deterrence in the region, builds partner capacity to address shared threats, and explores multilateral security arrangements built around like-minded partners;

Whereas the Abraham Accords created formal diplomatic ties between Israel and the United Arab Emirates, Bahrain, and Morocco, deepening understanding, cooperation, and friendship among the countries;

Whereas the leadership and success of prior accords between Egypt and Israel paved the way for creating formal diplomatic ties with other Arab and Muslim-majority countries;

Whereas Congress supports the expansion of the Abraham Accords across the world, in particular to Saudi Arabia and Indonesia;

Whereas Congress is committed to fostering education abroad with the values of peace and tolerance while encouraging other countries to do the same;

Whereas peace and tolerance in national curricula and education is critical to mitigate extremist influences to create a peaceful world and tolerant societies of the future;

Whereas the Israel Relations Normalization Act of 2021 maintains that antisemitism education is a critical component of a peace and tolerance curriculum;

Whereas Egypt, the United Arab Emirates, Bahrain, and Morocco have made transformative and positive changes in their national curriculum, and these changes include the reduction or removal of antisemitic content, the elimination of hate speech, and the insertion of new edu-

cational material promoting respect, tolerance, and peace with others;

Whereas there have been similar positive changes in the national curriculum of Saudi Arabia and Indonesia, who are actively implementing educational reforms that foster inclusivity, respect, and understanding; and

Whereas civil society reports on reforms of national curriculum in the region, which apply methodological standards on education for peace and tolerance, have been instrumental in encouraging positive change throughout the Arab and Muslim world: Now, therefore, be it

1       *Resolved*, That the House of Representatives—

6       Relations Normalization Act of 2021, to press for  
7       curricula reform in bilateral dialogues as a key agen-  
8       da item to help facilitate the implementation of posi-  
9       tive changes that promote regional stability, peace,  
10      and tolerance based on international standards; and

11          (5) encourages civil society and partners across  
12      the United States to continue working together with  
13      governments across the world to make sure the next  
14      generation of children receives a quality, comprehen-
