Overview

OVERVIEW

The FY 2001 Supplemental Budget Request totals \$94.7 million. The request proposes to use \$92.5 million of the \$109.5 million in additional local revenues certified by the Financial Authority on February 14, 2001. The \$92.5 million in additional revenues will be used to support budget authority needed to address budget pressures in FY 2001. The other \$2.2 million is for the Water and Sewer Authority (WASA), an enterprise fund. WASA's requested budget authority will be supported by its own revenue, which was also certified by the Financial Authority.

This supplemental request is necessitated by, among other things, increased enrollment in the Medicaid program, the need to invest in support services for children, youth, and their families, and unforeseen increases in natural gas prices. These and other programs contributing to the budget pressures are the cornerstones of the Mayor's priorities: building and sustaining healthy neighborhoods, and strengthening children, youth, and families.

The District is addressing other budget pressures approximating \$190 million. The other pressures will be resolved through the use of: \$90 million from the FY 2001 budgeted reserve to fund the restructuring of the Public Benefit Corporation; \$75 million from the FY 2000 unspent reserve carryover to address critical program needs; and \$25 million from the general fund pursuant to Section 103 of the FY 2001 D.C. Appropriations Act, to fund settlements and judgments.

The major factors contributing to the pressures requiring supplemental appropriations are presented in the table and narratives below. Further discussions of these pressures are included in the agency detail section. The additional revenue supporting the supplemental budget request follows the discussion on pressures.

General Fund

- Utility Cost (Natural Gas Increase) (\$5.4 million).** The District has experienced an 84 percent increase in the price of natural gas between September 2000 and February 2001. Based largely on the federal Department of Energy's cost estimates, the District currently projects a cost overrun of \$5.4 million in natural gas.
- New E-Conomy Transformation Act of 2000 (\$1 million).** To implement the provisions of the District of Columbia New E-Conomy Transformation Act of 2000, \$1 million in supplemental funding is needed. The purpose of the Act is to attract and foster the growth of businesses involved in the development, production, distribution, and sale of Internet-based and other communications technologies. To this end, the Act enables the District to help lower the cost of facilities by allowing the District to enter into master lease agreements for the benefit of eligible companies.
- Fraternal Order of Police Arbitration Award (\$2 million).** To help pay an arbitration award made to the members of the Fraternal Order of Police (FOP) on April 11, 2000, the supplemental budget request includes \$2 million for the Metropolitan Police Department

FY 2001 SUPPLEMENTAL BUDGET REQUEST

(MPD). The award pertains to a grievance filed by the FOP against the MPD in January 1999. The grievance alleged that the MPD violated the terms of the current collective bargaining agreement and predecessor agreement by curtailing payments of overtime pay to employees covered by the agreements. The MPD paid overtime in accordance with the regulations of the Fair Labor Standards Act rather than the more beneficial system of overtime payments provided in the collective bargaining agreements.

4. **Photo Radar Program (\$0.8 million).** To cover the start-up costs of implementing the photo radar contract program in the MPD, \$0.8 million in supplemental funding is needed. The photo radar contract program, which is similar to the red light program, will automatically photograph the license plates of speeders. The MPD expects revenue generated from the program to be at least double the implementation costs.
5. **Hack Inspector Transfer from the Police Department (-\$0.1 million).** In FY 1997, the District transferred three full-time equivalent (FTE) positions and associated funding for hack inspectors from the Taxicab Commission to the Metropolitan Police Department. The hack inspectors investigate potential taxi violations. The District now proposes transferring the remaining 3 FTEs and the associated funding back to the Taxicab Commission.
6. **Pre-Tax Health/Life Insurance Premiums (\$5.5 million).** Due to delays in implementing programs allowing firefighters to make pre-tax payments for pension and health and life insurance benefits, Local 36 (International Association of Firefighters) filed grievances against the Fire and Emergency Medical Services (FEMS) Department. In June 1999, Local 36 and FEMS agreed to a Memorandum of Understanding (MOU) to resolve outstanding issues. The MOU requires the agency to make back payments and accrued interest compounded daily at 4 percent per annum if the District failed to pay by July 18, 1999. Aon Consulting has calculated the back payments including accrued interest to total \$5.5 million through June 30, 2001.
7. **Fifth Firefighter on Trucks (\$0.4 million).** The Fire and Emergency Medical Services Department currently has \$4.8 million in budget pressures due to the use of overtime to accelerate the implementation of program initiatives -- the fifth firefighter on trucks, Battalion Chief Aides, and the engine paramedic pilot program. The FY 2001 budget provided for the phased-in implementation of these initiatives. As recruits completed their training, they would be assigned to the fire companies. The District is addressing \$4.4 million of the budget pressures through \$3.3 million in agency gap-closing actions and a \$1.1 million allocation from the FY 2000 unspent reserve carryover. The remaining \$0.4 million in pressures is related to the fifth firefighter initiative, which will be addressed via the supplemental budget request.
8. **Child Fatality Review Committee (\$0.2 million).** The District Council is proposing to pass legislation to establish on an emergency basis the Child Fatality Review Committee. The Committee will examine the past events and circumstances leading to or causing the death of a child or youth, committed ward of child welfare, or person with mental retardation and developmental disabilities. The Committee will operate as a distinct entity within the Office of the Chief Medical Examiner. To conduct the investigation activity, additional staff (nurse,

FY 2001 SUPPLEMENTAL BUDGET REQUEST

- program coordinator, social services representative, etc.) and office supplies, equipment, and contractual services will be needed. The personal services and nonpersonal services costs are estimated at \$161,000 in FY 2001. The Committee is funded in the FY 2002 Proposed Budget and Financial Plan.
9. **Student Census (\$1 million).** District laws require independent audits of public school enrollment counts and residency verifications in the D.C. Public Schools and the D.C. Public Charter Schools. The District estimates the costs of entering into contracts with firms to perform the student census audits to be approximately \$1 million.
10. **Medicaid Expansion and DSH Payment (\$19 million).** Due largely to an increase in the number of clients receiving inpatient and specialty hospital services and increased enrollment in the managed care program, the Medicaid program requires additional funding of \$15 million. In addition, the disproportionate share to hospitals (DSH) for uncompensated care has increased as a result of modifications to the funding formula. The DSH increase requires a local match of approximately \$4 million.
11. **Disability Compensation Fund (\$3 million).** The Department of Employment Services, which manages the Disability Compensation Fund, projects that medical and benefit payments will exceed the FY 2001 budget by \$3 million in FY 2001. The projections are based on prior-year expenditures.
12. **Latino Community Education Programs (\$1 million).** To deliver much-needed educational programs to 6,000 families in the Latino community, the Mayor plans to provide funding to community-based organizations. The funds will be allocated as grants of up to \$50,000. The Office on Latino Affairs will monitor the grant programs to ensure that the Mayor's goals are achieved.
13. **Children Investment Trust (\$5 million).** To coordinate the services provided to the District's youth at the community level, funds will be disbursed to community organizations serving children. The Children Investment Trust will transfer its entire budget to the Investment Youth Corporation. Funds will not be used to support any District government employees or administrative costs.
14. **Hack Inspector Transfer to the Taxicab Commission (\$0.1 million).** As discussed above, the District proposes transferring 3 FTEs for hack inspectors and the associated funding from the MPD back to the Taxicab Commission.
15. **Workforce Investments (\$40.5 million).** The District is currently renegotiating labor contracts with its collective bargaining units. The contracts expired on September 30, 2000. Depending on the outcome of labor compensation issues, the labor costs could approximate \$40.5 million. The FY 2001 budget did not provide for labor cost increases.
16. **Wilson Building (\$7.1 million).** In FY 2000, various agencies were scheduled to relocate to the John A. Wilson Building. The relocation was delayed until FY 2001. The total cost of the relocation is \$10.1 million: \$3 million for furniture, fixtures, and equipment will be

FY 2001 SUPPLEMENTAL BUDGET REQUEST

funded through a request to transfer funds from the FY 2000 unspent reserve; and \$7.1 million for the moving and operating costs will be funded from the supplemental budget request.

- 17. Abatement and Condemnation of Nuisance Properties (\$0.6 million).** To help fund abatement and condemnation efforts of nuisance properties, \$0.6 million in supplemental funding will be provided to the "5-513" (D.C. Code) revolving fund in the Department of Consumer and Regulatory Affairs (DCRA). This revolving fund is included in DCRA's "Other" type revenue budget. Revenue collections of liens and fines imposed on property owners who have not abated housing violations they have incurred are deposited into the revolving fund.

The supplemental request also provides that the vacancy savings in DCRA's local budget caused by the transfer of DCRA employees into the neighborhood stabilization officer (NSO) positions will be transferred to the revolving fund. NSOs advise community groups on the planning of neighborhood improvement activities. The vacancy savings will be used to implement the provisions in the Abatement and Condemnation of Nuisance Properties Omnibus Amendment Act of 2000 (Bill 13-646), which provides for the registration of vacant buildings, establishes penalties for failure to register, sets maintenance standards, preserves tenant's rights and where an unsafe building is an historic landmark or within an historic district, provides for an appropriate review and prohibits demolition by neglect. Additionally, rental accommodations revenue is to be deposited into the revolving fund, and up to \$500,000 deposited into the revolving fund will be used to implement Bill 13-646. Finally, DCRA is required to hire a professional human resources manager to design a plan to fill vacant positions in the agency.

Water and Sewer Authority (Enterprise Fund)

The Water and Sewer Authority (WASA) needs \$2.2 million in additional budget authority to cover unanticipated costs associated with two developments. First, in November 2000, the District's Department of Public Works proposed implementing a public right-of-way fee, which would result in \$5.4 million in additional costs to WASA. Second, in December 2000, WASA reached agreement on a Memorandum of Understanding on stormwater administration and compliance efforts, which will cost WASA \$1 million annually. The resultant \$6.4 million in additional costs will be partly offset by \$4.2 million in cost savings in other areas of WASA's budget.

Capital Program

To optimize its use of capital funds, the District proposes reallocating \$4.9 million from inactive projects to renovation and preservation of building projects with historical significance. These inactive projects are included in the Office of Property Management's capital budget. These projects have not had any implementation activity since FY 1999.

 FY 2001 SUPPLEMENTAL BUDGET REQUEST

The reallocation will address the need to dedicate resources to prevent further deterioration and destruction of properties having historical, cultural and architectural value to the District. The construction and renovation of government facilities will be emphasized in the program.

The specific projects that will be funded in the reallocation are presented in the table below.

FY 2001 Revised Revenue Estimates

General Fund

On February 14, 2001, the Financial Authority certified the District's revised local revenue estimates for the General Fund for FY 2001 and the original estimates for FY 2002. The FY 2001 revised estimates total \$3.373 billion, reflecting an increase of \$109.5 million, or 3.4 percent, over the original estimates. The original estimates were developed in December 1999, and they totaled \$3.263 billion.

The table below shows the major factors contributing to the \$109.5 million increase.

The increase results from stronger-than-expected revenue growth in income, sales, and property taxes.

Income Taxes

In the individual income tax category, the District expects to collect \$58.3 million more from this source during FY 2001 than originally planned. This is due to an unexpected increase in capital gains tax revenue. The federal government and other municipalities have also enjoyed windfalls from the capital gains tax because of strong investment activity. However, the District expects

FY 2001 SUPPLEMENTAL BUDGET REQUEST

such a level of activity to slow down, as the financial markets become less robust. An additional \$13.4 million is expected in the unincorporated business franchise tax, due largely to strength in the property management and construction markets.

Offsetting these increases is a decrease in the corporate franchise tax due to softening corporate profits nationally. This tax is expected to yield \$20 million less than originally expected for FY 2001. Overall, revenue in the income tax category is expected to be \$51.7 million higher than originally forecast.

Sales Taxes

Revenue collections have been running higher than anticipated in the general sales taxes category. Because of continuing improvements in the local economy, the District expects an additional \$32.5 million in FY 2001 from this revenue source. The specialized sales taxes (alcohol, cigarette, and motor vehicle excise tax) are also expected to yield \$3.2 million more than originally forecast. Overall revenue in the sales tax category is expected to be \$35.7 million higher than originally forecast.

Property Taxes

The District has settled most of the claims for refunds in the real property tax category, thereby reducing the amount of refunds to a sustainable level. The relief of this downward pressure on the real property tax revenue is expected to increase revenue by \$33 million over earlier projections for FY 2001.

Revenue from the public space rental is expected to increase by \$1.5 million over earlier estimates. Weakness in the personal property tax, due to declining business investment, will reduce revenue in this source by \$7.6 million. Overall, revenue in the property tax category is expected to be \$27.1 million higher than originally forecast.

Other Taxes

Changes in other minor taxes are expected to yield approximately \$9.4 million more than originally expected. The changes were the result of various factors including higher estate tax collections and continued strength in deed taxes.

Non-Tax and Federal Revenues

Non-tax revenue is expected to be \$6.2 million lower than originally projected because of lower-than-expected proceeds from traffic fines and the red light camera program. Federal revenue is also projected to be \$8.2 million lower due to changes Congress made in the District's appropriation during the budget approval process.

The congressional changes include: disapproval of the District's \$5 million request for the Incentives for Adoption program and instead extension of the FY 2000 appropriation

FY 2001 SUPPLEMENTAL BUDGET REQUEST

to September 30, 2002; and a \$6.5 million reduction for the Brownfield Remediation program. These reductions were partially offset by increases of \$1.5 million for the commercial revitalization program and \$1.3 million for the Office of the Chief Financial Officer for pass-through programs.

Water and Sewer Authority (Enterprise Fund)

In February 2001, the Financial Authority also certified revenues for the Water and Sewer Authority (WASA) totaling \$238.9 million for FY 2001, a decrease of \$5 million from the original estimate of \$243.9 million. The decrease is primarily due to the potential repeal by the District Council of WASA's ability to bill for groundwater and metering changes undertaken by the D.C. Housing Authority.

WASA's expenditures are projected to total \$232.8 million, reflecting the \$2.2 million in additional costs requiring supplemental appropriations. This results in a net surplus of \$6.1 million between revenues and expenditures.

Agency Budget Detail and Justification

Government of the District of Columbia
FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Office of Finance and Resource Management (AS0)
FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the Office of Finance and Resource Management (OFRM) is \$7,603,000, an increase of \$5,450,000 over the approved budget of \$2,153,000. The increase reflects an allocation of \$50,000 for the management supervisory program and a request of \$5,400,000 for supplemental budget authority to fund higher-than-budgeted natural gas costs for District agencies. The supplemental funds will be included in OFRM's budget to ensure the maximum level of accounting and reporting for the use of these emergency funds.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$5,400,000

Between September 2000 and February 2001, the price of natural gas has risen significantly throughout the nation. The District has experienced an 84 percent increase, while neighboring Fairfax County in Virginia has experienced a 147 percent increase. An unusually cold winter, coupled with limited supplies of this critical energy source, has led to the spikes in this commodity.

The District's Office of Property Management developed the original expenditure projection for natural gas totaling \$10.9

million for FY 2001. The District is now projecting expenditures for natural gas to total approximately \$16.3 million, which is an increase of \$5.4 million, or 49.5 percent, over the original projections. The revised projections are based on the actual prices for natural gas during the last four months of FY 2000 and the federal Department of Energy's projections. In addition, the District assumes that it will be able to purchase natural gas at the "spot rate", the price on the open market. If the District is unable to do so, the cost overrun will be even larger than that reflected in the supplemental request.

Government of the District of Columbia

FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Business Services and Economic Development (EB0)

FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the Office of Business Services and Economic Development (BSED) is \$11,840,000, an increase of \$1,487,000 over the approved budget of \$10,353,000. The increase reflects a decrease of \$1,369,000 due to savings initiatives, an increase of \$60,000 for the management supervisory service program, a reprogramming of \$1,796,000 from the FY 2000 unspent reserve carryover to fund the Mayor's Neighborhood Action program, and a request of \$1,000,000 in supplemental budget authority to implement the "District of Columbia New E-Conomy Transformation Act of 2000".

The \$1,000,000 in supplemental budget authority will be allocated to the Office of the Deputy Mayor for Planning and Economic Development within BSED. The legislation was approved by the District Council in November 2000 and reviewed by the Financial Authority. Provisions of the legislation are effective January 1, 2001.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$1,000,000

"The District of Columbia New E-Conomy Transformation Act of 2000" is an important component of the Mayor's strategy to attract and foster growth of businesses involved in the development, production, distribution and sale of Internet-based and other communications technologies--an increasing important sector of the District's economy. The law, among other things, authorizes the Mayor to help lower the cost of facilities available to selected qualified technology companies by entering into one or more master lease agreements for the benefit of eligible companies, and by participating, directly or indirectly, in the funding of certain leasehold security deposits. The Mayor anticipates that \$1,000,000 is needed to meet the FY 2001 implementation requirements.

Government of the District of Columbia

FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Department of Consumer and Regulatory Affairs (CRO)

FUND: Other (0600)

AGENCY REQUEST SUMMARY

The revised FY 2001 "Other" (O) type revenue budget for the Department of Consumer and Regulatory Affairs (DCRA) is \$1,834,820, an increase of \$624,820 over the FY 2001 approved budget of \$1,210,000. The increase reflects supplemental funding for the "5-513" (D.C. Code) revolving fund. The District established this fund to help finance nuisance abatement and condemnation activity.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$624,820

The revolving fund's revenue comes from collections of liens and fines imposed on property owners who have not abated housing violations caused by them. In public hearings on the FY 2001 budget process, the District Council found that the revolving fund was not sufficiently funded to handle the District's volume of abatement efforts. Fines and liens either were never collected or, if recovered, were not deposited into the revolving fund. Of the \$1,210,000 included in the FY 2001 approved "O" type revenue budget, only \$210,000 is for the revolving fund. The requested supplemental funding of \$624,820 would enable DCRA to enter into contracts for the demolition of unsafe structures, the barricading of openings, and other nuisance abatement activities.

In addition, the supplemental request requires DCRA to comply with several provisions pertaining to nuisance abatement and condemnation activity. FY 2001 vacancy savings in DCRA's local budget caused by the transfer of DCRA employees into the neighborhood stabilization officer (NSO) positions will be transferred to the revolving fund. NSOs advise community groups on the planning of neighborhood improvement activities. The vacancy savings will be used to implement the provisions in the Abatement and Condemnation of Nuisance Properties Omnibus Amendment Act of 2000 (Bill 13-646).

The bill provides for the registration of vacant buildings, establishes penalties for failure to register, sets maintenance standards, preserves tenant's rights and where an unsafe building is an historic landmark or within an historic district, provides for an appropriate review and prohibits demolition by neglect. Also, rental accommodations revenue is to be deposited into the revolving fund and 18 percent of the funds in the revolving fund, up to \$500,000 deposited into the fund annually, will be used to implement the provisions of Bill 13-646.

Finally, the supplemental request requires DCRA to use some of the vacancy savings to hire a professional human resources manager to design a plan to fill vacant positions in the agency. The plan will include the reclassification of positions and the augmentation of pay scales. The human resources manager is to be hired by June 1, 2001, and the plan is to be submitted to the District Council by July 1, 2001.

Government of the District of Columbia
FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Metropolitan Police Department (FA0)
FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the Metropolitan Police Department (MPD) is \$295,892,000, a net increase of \$11,188,000 over the approved budget of \$284,704,000. The net increase reflects: the allocation of \$612,000 for the management supervisory service program and a decrease of \$2,093,000 due to savings initiatives; the transfer of \$10,000,000 from the FY 2000 unspent reserve carryover to the MPD; a request for \$2,000,000 in supplemental budget authority to help pay the Fraternal Order of Police arbitration award related to overtime pay; a request for \$800,000 in supplemental budget authority to help fund the photo radar contract; and a rescission of \$131,000 to reflect a requested transfer of three back inspectors to the Taxi Cab Commission.

The agency projects budget pressures totaling approximately \$15.6 million in FY 2001. The pressures reflect higher-than-budgeted personal services (PS) costs of \$11.4 million and higher-than-budgeted nonpersonal services (NPS) costs of \$4.2 million. The higher PS costs include excess overtime largely as a result of greater than anticipated attrition rates, positions that were not fully funded in accordance with the agency's personnel schedule, the accelerated hiring of police officers to reach the agency's full complement, and the Fraternal Order of Police arbitration award. The higher NPS costs include fixed costs, equipment for special operations,

uniforms for new officers, and the start-up costs for the photo radar program.

The MPD expects to resolve its budget pressures, except for the \$2 million shortfall for the arbitration award and the \$0.8 million funding shortfall for the photo radar contract. The agency's \$12.8 million gap-closing plan consists of transferring \$10 million from the FY 2000 unspent reserve carryover, reducing nonpersonal services and other local expenditures to save \$1 million, and attrition savings of \$1.8 million.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$2,800,000

Fraternal Order of Police Arbitration Award (\$2 million). In January 1999, the Fraternal Order of Police (FOP) filed a grievance claiming that the MPD violated the terms of the collective bargaining agreements in the MPD's payment of overtime to police officers. The MPD paid overtime in accordance with the Control Board's order that reduced overtime pay to the minimum amount authorized in the Fair Labor Standards Act (FLSA). FLSA provides that an individual worker must work more than 40 hours in a workweek in order to receive overtime pay. The collective bargaining agreements, however, provided that "for purposes

of determining entitlement to compensatory time and overtime pay, all hours of work performed outside the basic workweek and the basic work day shall be deemed overtime hours".

On April 11, 2000, the Federal Mediation and Conciliation Service (FMCS) ruled in favor of the FOP. According to FMCS, the Control Board did not have the authority to abrogate the terms of the collective bargaining agreements in force.

Photo Radar Program (\$800,000). The photo radar contract program, which is similar to the red light program, will help enforce traffic laws and reduce violations by automatically photographing the license plates of speeders. The agency expects revenue generated from the program to be at least double the implementation costs.

Lockheed Martin, the contractor, estimates a revenue conversion cycle of approximately 30 days for this program. Between the time that the program is started and before revenues are collected, start-up costs of approximately \$0.8 million will be incurred. The start-up costs include film development, processing violations, and setting up and maintaining the fixed and mobile units. These start-up costs were not provided for in the FY 2001 budget.

Decrease: (\$131,000)

Rescission for the transfer to the Taxicab Commission (\$131,000). In FY 1997, six back inspector positions and the associated funding were transferred from the Taxicab Commission to the MPD. Hack inspectors investigate potential taxi violations. The District now proposes transferring the current three positions and the \$131,000 in associated funding back to the Taxicab Commission, where a higher priority will be placed on taxicab enforcement.

FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Fire and Emergency Medical Services Department (FB0)

FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the Fire and Emergency Medical Services Department (FEMS) is \$122,263,000, an increase of \$5,676,000 over the FY 2001 approved budget of \$116,587,000. The increase reflects: a decrease of \$1,536,000 due to savings initiatives; the allocation of \$172,000 for the management supervisory service program; the allocation of \$1,100,000 from the FY 2000 unspent reserve to help alleviate budget pressures; and a request for \$5,940,000 in supplemental budget authority to fund a negotiated labor-management settlement which resolved prior arbitration awards and the accelerated implementation of the fifth firefighter on trucks.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$5,940,000

Pre-Tax Payments (\$5,540,000). In May 1993, the District Council approved implementing the "Pension Pick-Up" or Section 414(b)(2) program and Section 125 programs as provided for in the collective bargaining agreement with the Local 36, International Association of Firefighters (IAFF). Under the agreement, firefighters would be able to make payments for certain benefits out of pre-tax income rather than taxable income: a program applicable to retirement benefits (the "Pension Pick-Up" or "Section 414(b)(2)") program, and a

program applicable to health and life insurance premiums (the "Section 125" program).

After delays in implementing the pre-tax conversions, IAFF Local 36 filed a grievance due to FEMS' failure to make payments for the Section 414(h)(2) and the Section 125 programs. Two arbitration awards were issued in favor of Local 36 on November 15, 1996 and January 28, 1997. The awards provided back pay to the firefighters in amounts equal to the value of the benefits they would have received from May 14, 1993. Because of the District's failure to fund back pay as a result of the arbitration awards, Local 36 filed an Unfair Labor Practice Charge.

On June 14, 1999, Local 36 and FEMS resolved the outstanding issues via a Memorandum of Understanding (MOU). The MOU requires the District to make back payments by July 18, 1999 and accrued interest compounded daily at 4 per cent per annum if the District failed to pay by July 18, 1999.

The District contracted with Aon Consulting to calculate the back payments, which total \$5,540,000, including accrued interest, through June 30, 2001. IAFF Local 36 concurred with this amount, based on an outside consultant's verification of Aon Consulting's calculations. To reduce the District's continuing liability for compound interest and contribute to an improved relationship between the District and bargaining unit

members in current contract negotiations, the back payments should be funded as early as possible in FY 2001.

Fifth Firefighter on Trucks (\$400,000). FEMS has been facing \$4.8 million in budget pressures stemming from the accelerated implementation of the fifth firefighter on trucks, Battalion Chief Aides, and the engine paramedic pilot program. Instead of phasing in these initiatives as provided for the FY 2001 budget, the agency has been using unbudgeted overtime to accelerate the implementation.

On February 21, 2001, the District allocated \$1.1 million from the FY 2000 unspent reserve to help address these pressures. Another \$3.3 million in pressures will be addressed through the implementation of the agency's gap-closing plan, which includes reducing the academy time from 22 weeks to 18 weeks, decreasing nonpersonal services expenditures, and eliminating overtime in the Fire Prevention Division. The remaining \$0.4 million is related to the fifth firefighter on trucks initiative, which is included in the supplemental budget request.

Government of the District of Columbia
FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Office of the Chief Medical Examiner (FX0)
Child Fatality Review Committee

FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the Office of the Chief Medical Examiner (OCME) is \$4,432,000, an increase of \$561,000 over the FY 2000 approved budget of \$3,871,000. The increase reflects: the reprogramming of \$400,000 from the FY 2000 unspent reserve carryover and a request for \$161,000 in supplemental budget authority to fund the Child Fatality Review Committee for the remainder of FY 2001. The proposed FY 2002 budget funds the annualized cost of operating the Committee.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$161,000

The District Council is proposing to pass the "Child Fatality Review Committee Establishment Temporary Act of 2001" to investigate the deaths of children in an effort to prevent the number of child fatalities. Specifically, the Act requires the Committee to examine past events and circumstances leading to, or causing the death of a child or youth, committed ward of child welfare, or person with mental retardation and developmental disabilities. The Committee will give special attention to child deaths that may have been caused by abuse, negligence, or other forms of maltreatment.

The Act also provides that the Mayor will appoint representatives from District, federal, judicial, and private agencies to the Committee. Because of the Committee's focus on deaths of children, the Committee will operate as a distinct entity (separate control center) within OCME.

OCME estimates that the Committee needs \$161,000 to conduct its mandated investigation activity beginning in the third quarter of FY 2001. The funds will primarily be used to hire staff including a nurse, program coordinator, and program specialists. In addition, nonpersonal services including office supplies, equipment, and contractual services will be needed.

AGENCY: State Education Office (GDO)

FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the State Education Office (SEO) is \$3,399,000, an increase of \$1,720,000 over the approved budget of \$1,679,000. The increase represents: a transfer of \$720,000 from the D.C. Public Schools to SEO as a result of the of the School Nutrition and Commodities Program pursuant to the State Education Office Establishment Act; and a request for \$1,000,000 in supplemental budget authority to cover the costs of undertaking a mandated census audit of the D.C. Public Schools and the D.C. Public Charter Schools.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$1,000,000

The District Council enacted legislation mandating independent audits of public school enrollment counts. Specifically:

- The Enrollment Census Act of 1998 requires a census type enrollment audit; and
- The Uniform Per Student Funding Formula for Public Schools and Public Charter Schools of 1998, as amended in June 2000, provides for a census type audit of the student enrollment of each District public school and public charter school.

To implement the provisions of the above legislation, the State Education Office needs to enter into contracts with firms to conduct the mandated audits.

FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Department of Health (HC0)

FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the Department of Health (DOH) is \$334,207,000, an increase of \$19,301,000 over the approved budget of \$314,906,000. The increase reflects the allocation of \$557,000 for the management supervisory service program, \$4,501,000 for savings initiatives, \$4,245,000 from the FY 2000 unspent reserve carryover, and a request for \$19,000,000 in supplemental budget authority to address spending pressures.

The agency is facing budget pressures totaling \$24.7 million due to expansion in the District's Medicaid program (\$15 million), increase in the local share for Disproportionate Share to Hospital (DSH) payments (\$4 million), need to implement the federally mandated Storm Water project and expand the health inspectors program (\$4.2 million), and the lack of funding to support DOH's computer systems (\$1.5 million).

The \$19 million in supplemental budget authority will resolve the pressures stemming from expansion of the Medicaid program and increased DSH payments. The District provided \$4.2 million from the FY 2000 unspent reserve carryover to fund the Storm Water project and the health inspectors program. The agency will use projected vacancy savings to fund its computer system needs.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$19,000,000

The factors contributing to the increased costs in the Medicaid and DSH programs are discussed below.

Medicaid Program Expansion (\$15,000,000)

The agency anticipates that the number of Medicaid clients receiving inpatient general acute and specialty hospital services will increase by 6,163 in FY 2001. This will result in increased costs of approximately \$16 million.

In addition, DOH projects increased costs of \$3 million for its managed care program. The higher-than-budgeted costs reflect an enrollment increase of approximately 1,655, or 2 percent, over the number assumed in the FY 2001 approved budget, revised actuarial analysis, and the inclusion of mental health services in the capitation rates. The increased enrollment includes immigrant children. The capitation rate is the fixed dollar amount paid to managed care organizations (MCO) per Medicaid enrollee. Capitation rates are negotiated between Medicaid and individual MCOs and are updated annually. The rates are based on actuarial projections that take into account Medicaid's historical health care utilization patterns and the type of services to be covered.

Partly offsetting the above increases is \$4 million in savings as a result of decreased spending for long-term care services to the Medicaid population. Long-term care services include skilled nursing facilities and the mental retardation program. These savings result in a net pressure of \$15 million.

DSH Payments (\$4,000,000)

The DSH formula used to determine the District's funding allocation for hospital services to the uninsured was revised. The revision resulted in an increase in federal funding of \$9 million. The \$9 million federal funding requires a local funding match of approximately \$4 million.

FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Disability Compensation Fund (BG0)
FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the Disability Compensation Fund is \$28,836,000, an increase of \$3,000,000 over the FY 2001 approved budget of \$25,836,000. The increase represents a \$3,000,000 request for supplemental budget authority to fund higher-than-planned expenditures.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$3,000,000

In FY 1999 and FY 2000, \$4.5 million and \$2.7 million, respectively, were reprogrammed from the Unemployment Compensation Fund to the Disability Compensation Fund to address higher-than-planned expenditures in those fiscal years. Even with the \$2.7 million in reprogrammed funds, the Disability Compensation Fund ended FY 2000 with a deficit of \$0.8 million. A table showing budget versus actual for FY 1999 and FY 2000 and the forecast for FY 2001 is attached.

In FY 2001, funds will not be available for reprogramming from the Unemployment Compensation Fund. The FY 2001 approved budget represents reductions of \$4.5 million and \$1.0 million from the FY 1999 and FY 2000 budgets, respectively. Additionally, the Department of Employment Services, which currently manages both the Unemployment and Disability

Compensation Funds, has indicated that the Unemployment Compensation Fund must provide funds for the employees who will be terminated as part of the restructuring of the Public Benefit Corporation in FY 2001.

The Department of Employment Services projects an additional \$3 million in expenditures for the Disability Compensation Fund due to the following factors:

- \$1,000,000 for medical payments to cover claims. Forecast expenditures for medical cost are based on prior-year expenditures.
- \$2,000,000 for increases in compensation payroll and benefits covering payment to recipients. The payroll projections are based on current rate expenditures.

FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Office on Latino Affairs (BZ0)

FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the Office on Latino Affairs (OLA) is \$2,382,295, an increase of \$1,500,000 over the FY 2001 approved budget of \$882,295. The increase reflects a \$500,000 allocation from the FY 2000 unspent reserve to fund the Latin American Youth Center and a \$1,000,000 request for supplemental budget authority to fund the Latino Community Education program.

On February 21, 2001, the District provided a \$500,000 allocation from the FY 2000 unspent reserve to the agency to address the social needs of 3,000 youths at the Latin American Youth Center. The funds will be used to provide the Latino youth population with employment education and training, enriching cultural activities, and after school and Saturday programs.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$1,000,000

The supplemental request of \$1,000,000 will be for Latino Community Education grants proposed by the Mayor. These funds will be made available to community-based organizations providing educational programs to 6,000 families in the Latino community. The Office of Grants Management, through the Competitive Services Division, will assist OLA in awarding these grants.

These funds will be allocated as grants of up to \$50,000 to support educational programs within the Latino community in accordance with the Mayor's strategic plan for the District based on the specific priorities for the Latino community. OLA will monitor all grant programs to ensure that the Mayor's goals are achieved.

FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Children Investment Trust (JY0)

FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the Children Investment Trust is \$5,000,000. The approved FY 2001 budget did not provide funding for this program. The District is seeking \$5,000,000 in supplemental budget authority to fund this program.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$5,000,000

Funding for the Children Investment Trust will be used to support a non-profit entity referred to as the Children and Youth Investment Trust Corporation, which will coordinate the services provided to youth at the community level. The Trust Corporation will disburse these funds to community-based organizations that serve children and youth. The Children Investment Trust will transfer its entire budget to the Trust Corporation. As such, the Children Investment Trust will not support any District government employees or administrative costs.

The Children and Youth Initiative Establishment Act (Act) of 1999 created the D.C. Children and Youth Investment Trust Corporation (Corporation) to receive funding under the Act. The Board of the Corporation consists of members appointed by

the Mayor and the District Council, as well as four government officials who serve as advisory members of the Board. The Corporation was established to provide grants to support services for children, youth, and their families. These services include early childhood development opportunities, safe and enriching centers for learning in and out of school, and other training, recreational, and educational services.

FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Taxicab Commission (TC0)

FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the Taxicab Commission is \$1,131,000, an increase of \$890,000 over the FY 2001 approved budget of \$241,000. The increase reflects: \$759,000 for the allocation of funds from the FY 2000 unspent reserve carryover; and \$131,000 for the transfer of three full-time equivalent (FTE) positions for hack inspectors from the Metropolitan Police Department (MPD).

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$131,000

In 1997, six FTEs for hack inspectors and the associated local funding were transferred from the Taxicab Commission to the MPD. The hack inspectors investigate potential taxi violations. Over time, the six FTE positions were reduced to three. The Taxicab Commission will reclaim these three positions and the local funding associated with them.

In public hearings, the District Council found that taxicab enforcement under the MPD has not curbed taxicab complaints. The MPD has not placed a high priority on taxicab enforcement. The District Council expects the Taxicab Commission to place a higher priority on taxicab enforcement and a reduction in complaints.

AGENCY: Workforce Investments (UP0)

FUND: Local (0100)

AGENCY REQUEST and JUSTIFICATION

The revised FY 2001 local budget for Workforce Investments is \$40,500,000. The FY 2001 approved budget did not provide funding for this program. The increase reflects a request of \$40,500,000 in supplemental appropriation to fund anticipated compensation increases based on current labor negotiations.

The District's major bargaining units, including those for police officers and firefighters, are renegotiating contracts that expired on September 30, 2000. The actual costs may be higher or lower than the \$40,500,000 estimate depending on the decisions made on labor compensation issues.

FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Wilson Building (ZZ0)
FUND: Local (0100)

AGENCY REQUEST SUMMARY

The revised FY 2001 local budget for the Wilson Building is \$18,509,000, an increase of \$10,100,000 over the FY 2001 approved local budget of \$8,409,000. The increase reflects a transfer of \$3,000,000 from the FY 2000 unspent reserve carryover and a request for \$7,100,000 in supplemental budget authority to make up a shortfall in funding needed for the relocation of various District agencies to the John A. Wilson Building.

In FY 2000, various agencies, including the Executive Offices of the Mayor, the Council of the District of Columbia, and the Chief Financial Officer, were expected to move to the Wilson Building. The relocation was delayed until FY 2001.

Of the \$10.1 million in funding needed for the relocation, \$3 million was provided through the approved transfer noted above. The \$3 million will cover the costs of furniture, fixtures, and equipment. The remaining \$7.1 million will be funded by the requested supplemental budget authority.

.JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$7,100,000

The \$7.1 million represents moving and operating costs for the relocation.

FY 2001 SUPPLEMENTAL BUDGET

AGENCY: Water and Sewer Authority (LA0)
FUND: Other Funds (0600)

AGENCY REQUEST SUMMARY

The revised FY 2001 other funds budget for the District of Columbia Water and Sewer Authority (WASA) is \$232,765,000, an increase of \$2,151,000 over the approved budget of \$230,614,000. The increase represents a request for \$2,151,000 in supplemental budget authority to cover the additional costs associated with two unforeseen developments.

JUSTIFICATION BY ITEM OF ADJUSTMENT:

Increase: \$2,151,000

These unforeseen developments include:

- A net increase of \$5,400,000 due to the imposition of the Public Space Occupancy Permit Rental Fee ("right-of-way" fee) on WASA.
- An increase of \$1,000,000 for WASA's share of costs for compliance activities related to the District's stormwater permit. The District Council enacted legislation in January 2001. This increase will be funded by the new stormwater fee and/or the District's Departments of Health and Public Works. An appropriation is needed in order to obligate funds for these expenditures.

The above increases total \$6,400,000; however, \$4,249,000 in savings previously identified by WASA as part of its FY 2001 budget process will partly offset the increased expenditures. Thus, \$2,151,000 in supplemental appropriations is needed.

RESOLUTION AND ORDER

WHEREAS, Section 202 of the District of Columbia Financial Responsibility and Management Assistance Authority Act of 1995, P.L. 104-8 (the "Act"), provides for review by the Authority of any revisions to the financial plan and budget for a control year to determine whether the revised financial plan and budget meets the requirements and standards of Section 201 of the Act;

WHEREAS, fiscal year 2001 is a control year, and the District government has been operating under a financial plan and budget for fiscal year 2001 approved by the Authority;

WHEREAS, the Council on April 20, 2001, transmitted a supplemental budget request for fiscal 2001 in the form of "Fiscal Year 2001 Supplemental Budget Request Act of 2001" ("Supplemental Budget Request Act") to the Mayor for his review;

WHEREAS, the Mayor vetoed the provisions of the Supplemental Budget Request Act (1) providing for funding, "Notwithstanding any other provisions of the District of Columbia Appropriations Act, 2001", in the amount of \$21,500,000 "from local funds for the District of Columbia Health and Hospitals Public Benefit Corporation to continue uninterrupted services for D.C. General and the community clinics," and (2) purporting to rescind \$3,854,000 appropriated by the Congress in the FY 2001 District of Columbia Appropriations Act for the Management Supervisory Service;

WHEREAS, the Council of the District of Columbia re-passed the above-cited provisions over the Mayor's veto on April 27, 2001.

WHEREAS, the Supplemental Budget Request Act, as it stood after the Mayor's veto of these two provisions and before the Council's override of his veto has now been transmitted by the Council to the Authority for its review as required by law; the Council has also transmitted separately the two provisions of the Supplemental Budget Request Act enacted over the Mayor's veto.

WHEREAS, the Mayor, the Council and the Authority certify that the Supplemental Budget Request Act (as set forth in Exhibit A) reflects a consensus among them, pursuant to Section 202 (i) of the Act;

WHEREAS, the two provisions enacted over the Mayor's veto (Exhibit B hereto) are inconsistent with the requirements and standards of Public Law 104-8, as well as with the financial plan and budget for fiscal year 2001, the District of Columbia Appropriations Act 2001, and other provisions of law;

NOW, THEREFORE, BE IT RESOLVED BY THE AUTHORITY THAT:

1. The Authority, in compliance with the requirements and standards of Sections 201 and 202 of the Act, approves the Council's supplemental budget request in the form of Fiscal Year 2001 Supplemental Budget Request Act of 2001 (Exhibit A hereto), certifies that it represents a consensus of the Mayor, the Council and Authority, and transmits Exhibit A to the Mayor for transmission to the President and Congress.
2. The Authority disapproves the two provisions enacted over the Mayor's veto and separately submitted to the Authority for review. The statement of reasons for disapproval is attached hereto.

IT IS HEREBY ORDERED THAT:

The Mayor shall transmit the supplemental budget request for 2001 in the form of Fiscal Year 2001 Supplemental Budget Request Act of 2001 (Exhibit A hereto) to the President and Congress pursuant to Section 202 (i) of the Act.

This Resolution and Order shall be effective immediately and shall be provided to the Mayor, the Council, the President, and Congress together with the statement of reasons referred to in paragraph 2.

Adopted this 9th day of May, 2001.

Alice M. Rivlin
Chair

**STATEMENT OF REASONS FOR DISAPPROVAL OF
TWO PROVISIONS ENACTED BY COUNCIL OVER MAYOR'S VETO**

Two provisions enacted over the Mayor's veto and separately transmitted to the Authority by the Council propose to add \$21,500,000 from local funds for the District of Columbia Health and Hospitals Public Benefit Corporation ("PBC") "to continue uninterrupted services for D.C. General and the community clinics" and to rescind \$3,854,000 appropriated by Congress in the FY 2001 D.C. Appropriations Act for the Management Supervisory Service.

These provisions contravene and are inconsistent with the standards of Section 201 (c)(1)(E) of Public Law 104-8, which provides:

"The financial plan and budget shall assure the continuing long-term stability of the District government, as indicated by factors including access to short term and long-term capital markets, the efficient management of the District government's workforce, and the effective provision of services by the District government."

There is no way in which the Council's provision for \$21,500,000 additional funding of the PBC, which was abolished by the Authority's Resolution and Order Concerning the Public Benefit Corporation of April 30, 2001, can help "to assure the continuing long-term financial stability of the District government" or promote "the effective provision of services by the District government." Indeed, if adopted, the Council's provision would do just the opposite. It would undermine "the continuing long term financial stability of the District government" and would prevent "the effective provision of services by the District government", specifically the provision of vital health-care services to the District's approximately 65,000 residents who lack any form of health insurance, private or governmental.

In its Sense-of-the-Council Resolution of March 6, 2001, the Council agreed that the PBC "cannot continue to function as it has in the past." (Resolution, § 2(1)(C)).

The reasons for this conclusion were comprehensively laid out by the Authority on December 4, 2000, in its Resolution, Recommendations and Orders Concerning the Public Benefit Corporation. The Authority found as follows:

WHEREAS, the mission of the District of Columbia Health and Hospitals Public Benefit Corporation (the "PBC"), including D.C. General Hospital ("D.C. General"), is to provide comprehensive community-centered health care to residents of the District of Columbia;

WHEREAS, the PBC and D.C. General are operating in a manner inconsistent with the multiyear financial plan and budget of the District of Columbia in that the PBC and DC General are generating, and are projected to continue to generate, operating deficits in excess of \$64 million in Fiscal Year ("FY") 2001;

WHEREAS, the Chief Financial Officer of the District of Columbia (the "CFO") found that:

At its current rate of spending, PBC will exhaust its \$45.3 million FY 2001 subsidy by the middle of March 2001. If money is set aside to maintain PBC's clinics throughout the fiscal year, D.C. General Hospital will be forced to close even sooner, perhaps by as early as two months from today. In either case, [the CFO] will be unable to redirect funds from any source to continue PBC operations unless a plan to restructure PBC is approved by Congress."

WHEREAS, the CFO also projected that the PBC was currently deficit spending in excess of \$6 million per month over its authorized appropriation and at this rate of spending would require in excess of \$64 million in FY 2001 and in subsequent years may well require subsidies in excess of its legally appropriated funding level;

WHEREAS, there is now agreement by all concerned parties that the continued expenditure of funds at this rate by the PBC and D.C. General will necessitate the closure of the PBC and D.C. General and loss of the health care services provided by them to the residents of the District of Columbia;

WHEREAS, a delay in addressing these spending pressures could affect the ability of the District government to adhere to the overall FY 2001 District of Columbia Budget and Financial Plan;

On the basis of these findings, the Authority recommended reforms in the health care delivery system, including repeal of the PBC Act and the establishment by the Mayor and Council of:

an alternative publicly-financed health care delivery system in the District of Columbia that a) is consistent with the current multi-year financial plan and budget for the District of Columbia, b) provides for equivalent volumes and types of services as currently provided by the PBC to uninsured District residents, and c) ensures that the services meet standards of quality and accessibility.

The Authority further recommended to the Council, pursuant to Section 207 of Public Law 104-8, that the Council:

approve and/or enact legislation, regulations, and reprogrammings, and take any and all other actions necessary to authorize and implement an alternative publicly-financed health care delivery system.

The two provisions separately submitted by the Council to the Authority are squarely contrary to the Authority's findings and recommendations of December 4, 2000.

Moreover, on December 15, 2000, the District government, in a document signed by the Chair of the Authority, the Mayor, the Chair of the Council of the District of Columbia, and the Chair of the PBC Board of Directors, submitted to Congress a Restructuring Plan for the PBC, stating that they would "jointly pursue a private sector alternative to the delivery of comprehensive health services currently provided by the PBC as an independent governmental agency." The Plan called for the contracting out of services provided by the PBC to a private contractor selected according to conditions laid down in the Plan.

The two provisions separately submitted by the Council to the Authority violate the undertaking given to Congress in the Restructuring Plan.

Furthermore, the FY 2001 D.C. Appropriations Act, enacted in November 2000, barred any appropriated funds for the PBC until a restructuring plan for D.C. General had been approved by the relevant officials and further provided that no further funds should be transferred to the PBC, except for the purpose of restructuring the delivery of health services in the District pursuant to an approved restructuring plan. Since the two provisions separately submitted by the Council to the Authority are inconsistent with the Restructuring Plan submitted to Congress, they also violate both the letter and the spirit of the FY 2001 D.C. Appropriations Act passed by Congress.

As predicted by the Chief Financial Officer of the District of Columbia in November 2000, the FY 2001 appropriation to the PBC was exhausted by the end of March of this year. Given the restrictions in the FY 2001 D.C. Appropriations Act and the lack of justification for continuing to expend further public funds in the manner contemplated by the two provisions separately submitted by the Council to the Authority, they cannot be approved. They would merely put off the day of reckoning when an

alternative health care system must be put in place to assure “the effective provision of services by the District government,” as Section 202(c)(1)(E) requires.

We also note that one of the two provisions separately submitted by the Council to the Authority purports to “rescind” \$3,854,000 already appropriated by Congress for the Management Supervisory Service. In other words, part of the money for the unjustified continuance of funding for the now abolished PBC would come out of another program, designed to improve “the efficient management of the District government’s workforce”—a factor identified in Section 201 (c)(1)(E) and a program specifically approved by Congress in the FY 2001 D.C. Appropriations Act.

Finally, the two provisions separately submitted by the Council to the Authority are flatly inconsistent with the Authority’s actions of April 30, 2001, including the Resolution and Order Concerning the Public Benefit Corporation, the Resolution and Order Concerning the Transition Period to New Health Care System, and the contract executed between the Authority and Greater Southeast Community Hospital Corporation I.

For all these reasons, we determine that the two provisions separately submitted by the Council to the Authority are significantly inconsistent with: the requirements and standards of Section 201 and 202 of Public Law 104-8; the financial plan and budget for FY 2001; the FY 2001 District of Columbia Appropriations Act; the Restructuring Plan heretofore submitted to Congress; the Authority’s actions of April 30, 2001; and the best interests of the people of the District of Columbia, including the residents who lack insurance for health care services.
