(6) *Reverse flow programs.* Consistent with §§ 205.8 and 205.13, with respect to programs for which the Federal Government makes payments on behalf of a State, a Treasury-State Agreement must indicate the methods a Federal agency will use to calculate and document interest liabilities and to develop and maintain clearance patterns pursuant to this subpart.

§ 205.10 Funding of indirect costs and administrative cost grants.

(a) A State and the FMS may agree, in a Treasury-State Agreement, to the following funding conventions for indirect costs and administrative cost grants:

(1) The State will draw down a pro-rated amount of an administrative cost grant on the date of the State payday. For example, the State would draw one-third of a quarterly administrative cost grant if payroll is monthly, or one-sixth of a quarterly administrative cost grant if payroll is semi-monthly.

(2) If an indirect cost rate is applied to a program, the State will include a proportionate share of the indirect cost allowance in each drawdown by applying the indirect cost rate to the appropriate direct costs of each drawdown.

(3) If costs must be allocated to various programs pursuant to a labor distribution or other system under an approved cost allocation plan, the State will draw down funds to meet cash outlay requirements based on the most recent, certified cost allocations, with subsequent adjustments pursuant to the actual allocation of costs.

(b) A State and the FMS may agree, in a Treasury-State Agreement, that no interest liabilities will be incurred or calculated for indirect costs and administrative cost grants, notwithstanding any other provision of this subpart.

(c) *Lack of obligational authority other than occurring through late appropriations.* If a State pays out its own funds for program purposes without obligational authority, the Federal Government will incur an interest liability if the lack of obligational authority is not the result of limitation, reduction, or termination of the program and where obligational authority is subsequently established to permit payment for the State's expenditure.

(d) *Federal Highway Trust Fund.* The following applies to programs and projects funded out of the Federal Highway Trust Fund, notwithstanding any other provision of this section:

(2) If a State pays out its own funds in the absence of a project agreement or in excess of the Federal obligation in a project agreement, the Federal Government will not incur an interest liability.

(e) *Discretionary grant project approval.* If a State pays out its own funds prior to the earlier of:

(1) The day a Federal agency officially notifies the State in writing that a discretionary grant project has been approved, or

(2) The date that a Federal agency is otherwise obligated in law to pay the discretionary grant project to the State, the Federal Government will not incur an interest liability, notwithstanding any other provision of this section.

(f) *Authorizations and appropriations for future years.* If a State pays out its own funds prior to the availability of Federal funds that have been authorized or appropriated for a future Federal fiscal year, the Federal Government will not incur an interest liability, notwithstanding any other provision of this section.

A State interest liability will accrue from the day Federal funds are credited to a State account to the day the State pays out the Federal funds for program purposes.

(b) *Refunds.* A State will incur an interest liability to the Federal Government on a refund transaction of Federal funds. A State interest liability will accrue from the day the refund is credited to a State account to the day the refund is either paid out for program purposes or credited to a Federal Government account. However, a State may adopt a transaction threshold not exceeding \$10,000, below which the State will not incur an interest liability on a refund transaction.

(c) *Reverse flow programs.* With respect to programs for which the Federal Government makes payments on behalf of a State, such as Supplemental Security Income, a State will incur an interest liability to the Federal Government if a Federal agency pays out Federal funds for program purposes on behalf of the State.
