

standard lug box or a No. 32 standard box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 88 nectarines in the box; or

(ii) Such nectarines, when packed other than as specified in paragraph (a)(8)(i) of this section, are of a size that a 16-pound sample, representative of the nectarines in the package or container, contains not more than 84 nectarines.

(9) During the period July 1 through October 31 of each fiscal period, no handler shall handle any package or container of any variety of nectarines not specifically named in paragraphs (a)(2), (a)(3), (a)(4), (a)(5), or (a)(6) of this section unless:

(i) Such nectarines, when packed in molded forms (tray packs) in a No. 22D standard lug box or a No. 32 standard box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 80 nectarines in the box or, if the nectarines are “well matured,” not more than 84 nectarines in the box; or

(ii) Such nectarines, when packed other than as specified in paragraph (a)(9)(i) of this section, are of a size that a 16-pound sample, representative of the nectarines in the package or container, contains not more than 72 nectarines or if the nectarines are “well matured” not more than 76 nectarines.

(b) The following procedure shall be used in determining whether nectarines meet the minimum size requirements specified for each size category in this section applying a 16-pound sample. A sample consisting of one-half of the number of fruit specified for a 16-pound sample for a particular size category shall be used, provided such sample weighs at least eight pounds. When one-half the specified number of fruit in a sample results in a number ending with one-half a fruit, the smaller full number of fruit shall be used to determine the sample weight. If a sample fails with respect to minimum size requirements on the basis of an 8-pound sample, a 16-pound sample shall be used to determine if the fruit meets the minimum size requirements.

(c) *Container tolerances.* The contents of individual packages in the lot are subject to the following limitations, provided the averages for the entire lot are within the tolerances specified in this part:

(1) For packages which contain more than 10 pounds, and a tolerance of 10 percent or more is provided, individual packages shall have not more than one and one-half times the tolerance specified. For packages which contain more than 10 pounds and a tolerance of less than 10 percent is provided, individual packages shall have not more than double the tolerance specified.

(2) For packages which contain 10 pounds or less, individual packages are not restricted as to the percentages of defects.

(d) As used herein, *U.S. No. 1, mature*, and *standard pack*, mean the same as defined in the United States Standards for Grades of Nectarines [7 CFR 51.3145 through 51.3160]; and *No. 22D standard lug box* means the same as defined in section 1380.19 (17) of the “Regulations of the California Department of Food and Agriculture”. *Well matured* means a condition distinctly more advanced than *mature*.

(a) With regard to the respective fruit for which it was established, to establish production research and marketing research and development projects as authorized under §917.39, to recommend to the Secretary regulation of shipments pursuant to the provisions of this part, and to possess such other powers and exercise such other duties as will properly effectuate the purpose of this part: *Provided, however,* That the Peach and Pear Commodity Committee shall each approve actions under §917.39 and make said recommendations pursuant to §§917.40 through 917.43 only upon the affirmative vote of not less than nine members of each said committee.

(b) To make such rules and regulations with respect to fruit for which it was established as may be necessary to effectuate the terms and provisions of this part.

(c) To forward to the Control Committee and to the Secretary a record of the minutes of each meeting of the commodity committee.

(d) To establish such other committees to aid the commodity committee in the performance of its duties under this part as may be deemed advisable.

(e) Each season prior to any recommendation to the Secretary for a regulation of shipments pursuant to §§917.40 through 917.43 to determine the marketing policy to be followed for the respective commodity during the ensuing fiscal period and to submit such policy to the Secretary, said policy report to contain, among other provisions, information relative to the estimated total production and shipments of the fruit by districts, information as to the expected general quality and size of fruit, possible or expected demand conditions of different market outlets, supplies of competitive commodities, such analysis of the foregoing factors and conditions as the committee deems appropriate, and the type of regulations of shipments expected to be recommended for the respective fruit.

[41 FR 17528, Apr. 27, 1976, as amended at 56 FR 46369, Sept. 12, 1991]

EFFECTIVE DATE NOTE: At 59 FR 10056, Mar. 3, 1994, in §917.35, in paragraph (a), the words "and Pear" and "each" were suspended everywhere they appear, effective April 4, 1994.

EXPENSES AND ASSESSMENTS

§ 917.36 Expenses.

Each commodity committee is authorized to incur such expenses as the Secretary finds are reasonable and are likely to be incurred by the said commodity committee during each fiscal period for the maintenance and functioning of such committee, including its proportionate share of the expenses of the Control Committee; and for such research and service activities relating to handling of the fruit for which the commodity committee was established as the Secretary may determine to be appropriate. The funds to cover such expenses shall be acquired by the levying of assessments as provided in §917.37.

§ 917.37 Assessments.

(a) As his pro rata share of the expenses which the Secretary finds are

reasonable and are likely to be incurred by the commodity committees during a fiscal period, each handler shall pay to the Control Committee, upon demand, assessments on all fruit handled by him. The payment of assessments for the maintenance and functioning of the committees may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the respective rate of assessment which handlers shall pay with respect to each fruit during each fiscal period in an amount designed to secure sufficient funds to cover the respective expenses which may be incurred during such period. At any time during or after the fiscal period, the Secretary may increase the rates of assessment in order to secure funds to cover any later findings by the Secretary relative to such expenses, and such increase shall apply to all fruit shipped during the fiscal period.

(c) In order to provide funds to carry out the functions of the commodity committee prior to commencement of shipments in any season, shippers may make advance payments of assessments, which advance payments shall be credited to such shippers and the assessments of such shippers shall be adjusted so that such assessments are based upon the quantity of fruit shipped by such shippers during such season. Any shipper who ships fruit for the account of a grower may deduct, from the account of sale covering such shipment or shipments, the amount of assessments levied on said fruit shipped for the account of such grower.

§ 917.38 Accounting.

If, at the end of a fiscal period the assessments collected are in excess of expenses incurred, each commodity committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: *Provided,* That funds already in the reserve do not exceed approximately one fiscal period's expenses. Such reserve funds may be used (1) to cover any expenses authorized by this part and (2) to cover necessary expenses of liquidation in the event of termination of this

part. If any such excess is not retained in a reserve, each handler entitled to a proportionate refund shall be credited with such refund against the operations of the following fiscal period or be paid such refund. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: *Provided*, That, to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

RESEARCH

§917.39 Production research, market research and development.

The committees, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research, and development projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fruit. Such projects may provide for any form of marketing promotion including paid advertising. The expenses of such projects shall be paid from funds collected pursuant to §917.37.

REGULATIONS

§917.40 Recommendations for regulations.

(a) Whenever a commodity committee deems it advisable to regulate the handling of any variety or varieties of fruit in the manner provided in §917.41, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the commodity committee shall give consideration to current information with respect to the factors affecting the supply and demand for such fruit during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the commodity committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§917.41 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of any variety or varieties of fruit whenever he finds, from the recommendations and information submitted by the commodity committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Limit, during any period or periods, the total quantity of any grade, size, quality, maturity, or pack, or any combination thereof, of any variety or varieties of fruit;

(2) Limit the shipment of any variety or varieties of fruit by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;

(3) Fix the size, capacity, weight, dimensions, markings, or pack of the container, or containers, which may be used in the packaging or handling of any fruit.

(b) The commodity committee shall be informed immediately of any such regulation issued by the Secretary, and the commodity committee shall promptly give notice thereof to handlers.

§917.42 Modification, suspension, or termination of regulations.

(a) In the event the commodity committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §917.41 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the commodity committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of fruit in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner

Agricultural Marketing Service, USDA

the Secretary may terminate any such modification or suspension.

§ 917.43 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§ 917.37, 917.41, and 917.42, and the regulations issued thereunder, handle fruit (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the commodity committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to § 917.41, § 917.42, § 917.45, or § 917.37, the handling of fruit; (1) To designated market areas outside the continental United States; (2) for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to § 917.39); or (3) in such minimum quantities or types of shipments, as may be prescribed.

(c) The commodity committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent fruit handled under the provisions of this section from entering the channels of trade for other than the specified purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the commodity committee for authorization to handle fruit pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the fruit will not be used for any purpose not authorized by this section.

§ 917.45 Inspection and certification.

(a) Whenever the handling of any variety of a particular fruit is regulated pursuant to § 917.41 or § 917.42, each handler who handles such fruit shall, prior thereto, cause such fruit to be inspected by the Federal or Federal-State Inspection Service: *Provided*, That inspection and certification shall not be required if such fruit has pre-

viously been so inspected and certified. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the commodity committee a copy of the certificate of inspection issued with respect to such fruit. The commodity committees may, with the approval of the Secretary, prescribe rules and regulations waiving the inspection requirements of this section where it is determined that inspection is not available: *Provided*, That all shipments made under such waiver shall comply with all regulations in effect.

(b) The Control Committee may enter into an agreement with the Federal and Federal-State Inspection Services with respect to the costs of the inspection required by paragraph (a) of this section, for any or all fruits, and may collect from handlers their respective pro rata shares of such costs.

REPORTS

§ 917.50 Reports.

(a) Each handler shall furnish to the Manager of the Control Committee, at such times and for such periods as the Control Committee or the commodity committees may designate, certified reports covering, to the extent necessary for the committees to perform their functions, each shipment of fruits as follows:

(2) The car or truck license number (or name of the trucker), and identification of the carrier;

(c) Each handler shall maintain for at least two succeeding fiscal years, such records of the fruits received and disposed of by him as may be necessary to verify the reports he submits to the committee pursuant to this section.

(d) All reports and records submitted by handlers pursuant to the provisions of this section shall be received by, and at all times be in custody of, one or more designated employees of the Control Committee. No such employee shall disclose to any person, other than the Secretary upon request therefor, data or information obtained or extracted from such reports and records which might affect the trade position, financial condition, or business operation of the particular handler from whom received: *Provided*, That such data and information may be combined, and made available to any person, in the form of general reports in which the identities of the individual handlers furnishing the information are not disclosed and may be revealed to any extent necessary to effect compliance with the provisions of this part and the regulations issued thereunder.

Such termination shall become effective on the first day of March subsequent to the announcement thereof by the Secretary.

(e) The Secretary shall conduct a referendum within the period beginning December 1, 1974, and ending February 15, 1975, to ascertain whether continuance of this part as to any fruit included in this part is favored by the growers. The Secretary shall conduct such a referendum within the same period of every fourth fiscal period thereafter.

(f) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§917.62 Proceedings after termination.

Prior to any such shipment or handling, there shall first have been submitted to the committee proof satisfactory to the committee that the pears will not be handled contrary to the requirements of the marketing agreement and order. Such proof shall include a written certificate, executed by both the handler and the intended receiver, stating that the pears will not be used for any purpose not authorized by this section.

Subpart—Container and Pack Regulation

§917.442 California Peach Container and Pack Regulation.

(a) During the period beginning April 1 and ending November 23, no handler shall ship any package or container of any variety of peaches except in accordance with the following terms and conditions:

(1) Such peaches, when packed in any closed package or container, except master containers of consumer packages, individual consumer packages, and five down Euro containers, shall conform to the requirements of standard pack: *Provided*, That peaches in any such volume-filled container need only be filled to within one-inch of the top of the container.

(2) Each package or container of peaches shall bear, on one outside end in plain sight and in plain letters, the word "peaches" and, except for consumer packages in master containers and consumer packages mailed directly to consumers, the name of the variety, if known, or, when the variety is not known, the words "unknown variety." A marketing name, trademark, or brand name may be associated with the variety name, but cannot be substituted for the variety name.

(3) Each package or container of peaches, except for consumer packages in master containers and consumer packages mailed directly to consumers, shall bear on one outside end clearly and legibly in plain sight and in plain letters the words "U.S. Mature" or "US MAT" if such peaches are mature as defined in the United States Standards for Grades of Peaches (7 CFR 51.1210 through 51.1223); or may instead bear on one outside end clearly and legibly in plain sight and in plain letters the words "California Well Matured" or "CA WELL MAT" if such peaches are well matured as defined in §917.459.

(4) Each package or container of peaches shall bear, on one outside end in plain sight and in plain letters, the name and address of the shipper.

(5) Each package or container of peaches, except consumer packages mailed directly to consumers, shall bear on one outside end in plain sight and in plain letters, the following

count and/or size description of the peaches as applicable:

(i) The size of peaches packed in molded forms (tray-packs) in the No. 22D and No. 32 standard boxes, cartons, or consumer packages; No. 22G standard lug boxes or experimental containers; or No. 12B fruit (peach) boxes or flats; and the size of wrapped peaches packed in rows in No. 12B fruit (peach) boxes shall be indicated in accordance with the number of peaches in each container, such as "80 count," "88 count," etc.

(ii) The size of peaches in molded forms (tray-packs) in experimental containers, and in the No. 22G standard lug boxes, shall be indicated according to the number of such peaches when packed in molded forms in the No. 22D standard lug box or the No. 32 standard box, in accordance with the requirements of standard pack, such as "80 size," "88 size," etc., along with count requirements in paragraph (a)(5)(i) of this section.

(iii) The size of peaches loose-filled or tight-filled in any container shall be indicated according to the number of such peaches when packed in molded forms in No. 22D or No. 32 standard boxes, in accordance with the requirements of standard pack, such as "80 size," "88 size," etc.

(iv) The size of peaches, when packed in loose-filled or tight-filled containers, shall be marked in accordance with the following table 1 and table 2 which specify the tray-pack size designation in Column A with the corresponding maximum number of peaches in a 16-pound sample of each size of the fruit in Column B: *Provided*, That the following procedure shall be used in determining whether peaches meet the minimum size requirements specified for each size category in this section applying the 16-pound sample. A sample consisting of one-half of the specified number of fruit for a particular size category shall be used, provided such sample weighs at least eight pounds. When one-half the specified number of fruit in a sample results in a number ending with one-half a fruit, the smaller full number of fruit shall be used to determine the sample weight. If a sample fails with respect to minimum size requirements on the

basis of an 8-pound sample, a 16-pound sample shall be used to determine if the fruit meets the minimum size requirements.

(11) Each master container when filled with peaches packed in consumer packages shall bear on one outside end in plain sight and in plain letters the following information:

(i) The number of individual consumer packages, the net weight of each consumer package, and the size description of the contents: *Provided*, That when consumer packages of different sizes of peaches are contained in a master container, the size description of the contents shall indicate the minimum size contained therein, using the terms “Minimum size 60 and larger,” or “Minimum size 70 and larger,” etc., as applicable.

(ii) The name and address (including zip code) of the shipper.

(12) Each individual consumer package shall bear the name and address, including the zip code, of the shipper and the net weight. When a consumer package is not in a master container, it must also bear the number of peaches contained in the package, the name of the variety, if known, or if the variety is not known, the words *Unknown Variety*, and be marked as specified paragraph (a)(3) of this section.

(b) As used in this section, “standard pack” and “fairly uniform in size” shall have the same meaning as set forth in the U.S. Standards for Grade of Peaches (Secs. 51.1210 to 51.1223) and all other terms shall have the same meaning as when used in the amended marketing agreement and order. Subpart—Grade and Size Regulation

§ 917.459 California Peach Grade and Size Regulation.

(a) During the period beginning April 1 and ending November 23, no handler shall ship:

(1) Any lot or package or container of any variety of peaches unless such peaches meet the requirements of U.S. No. 1 grade: *Provided*, That an additional 25 percent tolerance shall be permitted for fruit with open sutures which are damaged, but not seriously damaged: *Provided further*, That peaches of the Peento type shall be permitted blossom end cracking that is well healed and does not exceed the aggregate area of a circle $\frac{3}{8}$ inch in diameter, and/or does not exceed a depth that exposes the pit: *Provided further*, That during the period April 1 through November 23, 2005, any handler may handle peaches if such peaches meet "CA Utility" quality requirements. The term "CA Utility" means that not more than 40 percent of the peaches in any container meet or exceed the requirement of the U.S. No. 1 grade, except that when more than 30 percent of the peaches in any container meet or exceed the requirements of the U.S. No. 1 grade, the additional 10 percent shall have non-scoreable blemishes as determined when applying the U.S. Standards for Grades of Peaches; and that such peaches are mature and are:

(i) Free from insect injury which has penetrated or damaged the flesh; split pits which cause an unhealed crack or one or more healed cracks which, either singly or in the aggregate, are more than $\frac{1}{2}$ inch in length; and mold, brown rot, and decay; and

(ii) Free from serious damage due to cuts, skin breaks, growth cracks, bruises, scab, rust, blight, disease, hail or other causes. Damage to any peach is serious when it causes a waste of 10 percent or more, by volume, of the individual peach.

(iii) *Tolerances*. Not more than 10 percent, by count, of the peaches in any container may be below the requirements prescribed by this paragraph. Not more than one-half of this tolerance shall be allowed for any one cause. Individual containers in any lot

§917.459

may contain not more than one and one-half times the tolerances specified if the percentage of defects of the entire lot averages within the tolerances.

(iv) The Federal or Federal-State Inspection Service shall make the final determinations on maturity through the use of color chips or other tests as determined appropriate by the inspection agency. The Federal or Federal-State Inspection Service will use the maturity guides listed in Table 1 in making maturity determinations for the specified varieties when inspecting to the "well matured" level of maturity. For these varieties, not less than 90 percent of any lot shall meet the color guide established for the variety, and an aggregate area of not less than 90 percent of the fruit surface shall meet the color guide established for the variety, except that for the Joanna Sweet variety of peaches, any of the fruit surface that is not red shall meet the color guide established for the variety, including any color noted in the stem cavity. For varieties not listed, the Federal or Federal-State Inspection Service will use such tests as it deems proper. A variance for any variety from the application of the maturity guides specified in Table 1 may be granted during the season to reflect changes in crop, weather, or other conditions that would make the specified guides an inappropriate measure of "well matured."

NOTE: Consult with the Federal or Federal-State Inspection Service Supervisor for the maturity guides applicable to the varieties not listed above. On varieties with less than 10 percent surface ground color required to determine California Well-Matured, the stem cavity color will be utilized to make the determination. As a guide, stem cavities for most varieties should be at least yellowish-green as defined by the H maturity guide. Confirmation may be further established by using other California well matured characteristics.

(v) If a grower or handler believes his/her fruit is meeting the appropriatematurity level but the fruit has not been so graded by the inspector, he/she may appeal the inspection by calling the officer-in-charge of the local Federal-State Inspection Service office to arrange for an on-site examination of the fruit.

(1) For packages which contain more than 10 pounds, and a tolerance of 10 percent or more is provided, individual packages shall have not more than one and one-half times the tolerance speci-
