

§917.461

7 CFR Ch. IX (1-1-10 Edition)

more than 96 peaches, except for Peento type peaches.

(c) During July 1 through October 31 of each fiscal period, no handler shall handle any package or container of any variety of peaches not specifically named in paragraphs (a)(2), (a)(3), (a)(4), (a)(5), or (a)(6) of this section unless:

(1) Such peaches when packed in molded forms (tray packs) in a No. 22D standard lug box or a No. 32 standard box are of a size that will pack, in accordance with the requirements of standard pack, not more than 80 peaches in the box; or

(2) Such peaches when packed in a No. 12B standard fruit (peach) box are of a size that will pack in accordance with the requirements of standard pack, not more than 65 peaches in the box; or

(3) Such peaches in any container when packed other than as specified in paragraphs (c)(1) and (c)(2) of this section are of a size that a 16-pound sample, representative of the peaches in the package or container, contains not more than 73 peaches, except for Peento type peaches.

(d) The following procedure shall be used in determining whether peaches meet the minimum size requirements specified for each size category in this section applying a 16-pound sample. A sample consisting of one-half of the number of fruit specified for a 16-pound sample for a particular size category shall be used, provided such sample weighs at least eight pounds. When one-half the specified number of fruit in a sample results in a number ending with one-half a fruit, the smaller full number of fruit shall be used to determine the sample weight. If a sample fails with respect to minimum size requirements on the basis of an 8-pound sample, a 16-pound sample shall be used to determine if the fruit meets the minimum size requirements.

(e) *Container tolerances.* The contents of individual packages in the lot are subject to the following limitations, provided the averages for the entire lot are within the tolerances specified in this part:

(1) For packages which contain more than 10 pounds, and a tolerance of 10 percent or more is provided, individual

packages shall have not more than one and one-half times the tolerance specified. For packages which contain more than 10 pounds and a tolerance of less than 10 percent is provided, individual packages shall have not more than double the tolerance specified.

(2) For packages which contain 10 pounds or less, individual packages are not restricted as to the percentage of defects.

(f) As used herein, *U.S. No. 1, mature*, and *standard pack*, mean the same as defined in the United States Standards for Grades of Peaches (7 CFR 51.1210 through 51.1223); and *No. 22D standard lug box* and *No. 12B standard fruit (peach) box* mean the same as defined in section 1380.19 (18) of the "Regulations of the California Department of Food and Agriculture". *Well matured* means a condition distinctly more advanced than *mature*.
