

§ 382.101

(e) The agreement must ensure that all lifts and other accessibility equipment are maintained in proper working condition.

(f) All carriers and airport operators involved are jointly and severally responsible for the timely and complete implementation of the agreement.

(g) You must make a copy of this agreement available, on request, to representatives of the Department of Transportation.

[Docket OST-2004-19482, 73 FR 27665, May 13, 2008, as amended at 74 FR 11471, Mar. 18, 2009]

§ 382.101 What other boarding and deplaning assistance must carriers provide?

When level-entry boarding and deplaning assistance is not required to be provided under this subpart, you must, as a carrier, provide or ensure the provision of boarding and deplaning assistance by any available means to which the passenger consents. However, you must never use hand-carrying (*i.e.*, directly picking up the passenger's body in the arms of one or more carrier personnel to effect a level change the passenger needs to enter or leave the aircraft), even if the passenger consents, unless this is the only way of evacuating the individual in the event of an emergency. The situations in which level-entry boarding is not required but in which you must provide this boarding and deplaning assistance include, but are not limited to, the following:

(a) The boarding or deplaning process occurs at a U.S. airport that is not a commercial service airport that has 10,000 or more enplanements per year;

(b) The boarding or deplaning process occurs at a foreign airport;

(c) You are using an aircraft subject to an exception from the lift boarding and deplaning assistance requirements under § 382.97 (a)–(c) of this subpart;

(d) The deadlines established in § 382.99(c) have not yet passed; and

(e) Circumstances beyond your control (*e.g.*, unusually severe weather; unexpected mechanical problems) prevent the use of a lift.

14 CFR Ch. II (1–1–12 Edition)

§ 382.103 May a carrier leave a passenger unattended in a wheelchair or other device?

As a carrier, you must not leave a passenger who has requested assistance required by this subpart unattended by the personnel responsible for enplaning, deplaning, or connecting assistance in a ground wheelchair, boarding wheelchair, or other device, in which the passenger is not independently mobile, for more than 30 minutes. This requirement applies even if another person (*e.g.*, family member, personal care attendant) is accompanying the passenger, unless the passenger explicitly waives the obligation.

§ 382.105 What is the responsibility of carriers at foreign airports at which airport operators have responsibility for enplaning, deplaning, and connecting assistance?

At a foreign airport at which enplaning, deplaning, or connecting assistance is provided by the airport operator, rather than by carriers, as a carrier you may rely on the services provided by the airport operator to meet the requirements of this subpart. If the services provided by the airport operator are not sufficient to meet the requirements of this subpart, you must supplement the airport operator's services to ensure that these requirements are met. If you believe you are precluded by law from supplementing the airport operator's services, you may apply for a conflict of laws waiver under § 382.9 of this part.

Subpart H—Services on Aircraft

§ 382.111 What services must carriers provide to passengers with a disability on board the aircraft?

As a carrier, you must provide services within the aircraft cabin as requested by or on behalf of passengers with a disability, or when offered by carrier personnel and accepted by passengers with a disability, as follows:

(a) Assistance in moving to and from seats, as part of the enplaning and deplaning processes;

(b) Assistance in preparation for eating, such as opening packages and identifying food;
