§122.25 Exemption from special landing requirements.

- (a) Request. Any company or individual that has operational control over an aircraft required to give advance notice of arrival under §122.23 may request an exemption from the landing requirements in §122.24. Single overflight exemptions may be granted to entities involved in air ambulance type operations when emergency situations arise and in cases involving the non-emergency transport of persons seeking medical treatment in the U.S. All approvals of requests for overflight exemptions and the granting of authority to be exempted from the landing requirements are at the discretion of the port director. Exemptions may allow aircraft to land at any airport in the U.S. staffed by Customs. Aircraft traveling under an exemption shall continue to follow advance notice and general landing rights requirements.
- (b) Procedure. An exemption request shall be made to the port director at the airport at which the majority of Customs overflight processing is desired by the applicant. Except for air ambulance operations and other flights involving the non-emergency transport of persons seeking medical treatment in the U.S., the requests shall be signed by an officer of the company or by the requesting individual and be notarized or witnessed by a Customs officer. The requests shall be submitted:
- (1) At least 30 days before the anticipated first arrival, if the request is for an exemption covering a number of flights over a period of one year, or
- (2) At least 15 days before the anticipated arrival, if the request is for a single flight, or
- (3) In cases involving air ambulance operations when emergency situations arise and other flights involving the non-emergency transport of persons seeking medical treatment in the U.S., if time permits, at least 24 hours prior to departure. If this cannot be accomplished, Customs will allow receipt of the overflight exemption application up to departure time. In cases of extreme medical emergency, Customs will accept overflight exemption requests in flight through a Federal Aviation Administration Flight Service Station.
