

assessed, as described in § 404.1520(e)), age, education, and work experience.

[56 FR 36954, Aug. 1, 1991, as amended at 65 FR 11875, Mar. 7, 2000; 65 FR 34957, June 1, 2000; 68 FR 51161, Aug. 26, 2003; 71 FR 16444, Mar. 31, 2006; 75 FR 62680, Oct. 13, 2010; 76 FR 24806, May 3, 2011; 77 FR 10655, Feb. 23, 2012]

§ 404.1513 Medical and other evidence of your impairment(s).

(a) *Sources who can provide evidence to establish an impairment.* We need evidence from acceptable medical sources to establish whether you have a medically determinable impairment(s). See § 404.1508. Acceptable medical sources are—

(1) Licensed physicians (medical or osteopathic doctors);

(2) Licensed or certified psychologists. Included are school psychologists, or other licensed or certified individuals with other titles who perform the same function as a school psychologist in a school setting, for purposes of establishing mental retardation, learning disabilities, and borderline intellectual functioning only;

(3) Licensed optometrists, for purposes of establishing visual disorders only (except, in the U.S. Virgin Islands, licensed optometrists, for the measurement of visual acuity and visual fields only);

(4) Licensed podiatrists, for purposes of establishing impairments of the foot, or foot and ankle only, depending on whether the State in which the podiatrist practices permits the practice of podiatry on the foot only, or the foot and ankle; and

(5) Qualified speech-language pathologists, for purposes of establishing speech or language impairments only. For this source, “qualified” means that the speech-language pathologist must be licensed by the State professional licensing agency, or be fully certified by the State education agency in the State in which he or she practices, or hold a Certificate of Clinical Competence from the American Speech-Language-Hearing Association.

(b) *Medical reports.* Medical reports should include—

(1) Medical history;

(2) Clinical findings (such as the results of physical or mental status examinations);

(3) Laboratory findings (such as blood pressure, x-rays);

(4) Diagnosis (statement of disease or injury based on its signs and symptoms);

(5) Treatment prescribed with response, and prognosis; and

(6) A statement about what you can still do despite your impairment(s) based on the acceptable medical source’s findings on the factors under paragraphs (b)(1) through (b)(5) of this section (except in statutory blindness claims). Although we will request a medical source statement about what you can still do despite your impairment(s), the lack of the medical source statement will not make the report incomplete. See § 404.1527.

(c) *Statements about what you can still do.* At the administrative law judge and Appeals Council levels, we will consider residual functional capacity assessments made by State agency medical and psychological consultants, and other program physicians and psychologists to be “statements about what you can still do” made by non-examining physicians and psychologists based on their review of the evidence in the case record. Statements about what you can still do (based on the acceptable medical source’s findings on the factors under paragraphs (b)(1) through (b)(5) of this section) should describe, but are not limited to, the kinds of physical and mental capabilities listed as follows (See §§ 404.1527 and 404.1545(c)):

(1) The acceptable medical source’s opinion about your ability, despite your impairment(s), to do work-related activities such as sitting, standing, walking, lifting, carrying, handling objects, hearing, speaking, and traveling; and

(2) In cases of mental impairment(s), the acceptable medical source’s opinion about your ability to understand, to carry out and remember instructions, and to respond appropriately to supervision, coworkers, and work pressures in a work setting.

(d) *Other sources.* In addition to evidence from the acceptable medical sources listed in paragraph (a) of this section, we may also use evidence from other sources to show the severity of your impairment(s) and how it affects

§ 404.1514

your ability to work. Other sources include, but are not limited to—

(1) Medical sources not listed in paragraph (a) of this section (for example, nurse-practitioners, physicians' assistants, naturopaths, chiropractors, audiologists, and therapists);

(2) Educational personnel (for example, school teachers, counselors, early intervention team members, developmental center workers, and daycare center workers);

(3) Public and private social welfare agency personnel; and

(4) Other non-medical sources (for example, spouses, parents and other caregivers, siblings, other relatives, friends, neighbors, and clergy).

(e) *Completeness.* The evidence in your case record, including the medical evidence from acceptable medical sources (containing the clinical and laboratory findings) and other medical sources not listed in paragraph (a) of this section, information you give us about your medical condition(s) and how it affects you, and other evidence from other sources, must be complete and detailed enough to allow us to make a determination or decision about whether you are disabled or blind. It must allow us to determine—

(1) The nature and severity of your impairment(s) for any period in question;

(2) Whether the duration requirement described in § 404.1509 is met; and

(3) Your residual functional capacity to do work-related physical and mental activities, when the evaluation steps described in § 404.1520(e) or (f)(1) apply.

[45 FR 55584, Aug. 20, 1980, as amended at 56 FR 36955, Aug. 1, 1991; 65 FR 11875, Mar. 7, 2000; 65 FR 34957, June 1, 2000; 71 FR 16444, Mar. 31, 2006; 72 FR 9242, Mar. 1, 2007; 76 FR 24806, May 3, 2011]

§ 404.1514 When we will purchase existing evidence.

We need specific medical evidence to determine whether you are disabled or blind. You are responsible for providing that evidence. However, we will pay physicians not employed by the Federal government and other non-Federal providers of medical services for the reasonable cost of providing us with ex-

20 CFR Ch. III (4–1–12 Edition)

isting medical evidence that we need and ask for after November 30, 1980.

[46 FR 45757, Sept. 15, 1981]

§ 404.1515 Where and how to submit evidence.

You may give us evidence about your impairment at any of our offices or at the office of any State agency authorized to make disability determinations. You may also give evidence to one of our employees authorized to accept evidence at another place. For more information about this, see subpart H of this part.

§ 404.1516 If you fail to submit medical and other evidence.

If you do not give us the medical and other evidence that we need and request, we will have to make a decision based on information available in your case. We will not excuse you from giving us evidence because you have religious or personal reasons against medical examinations, tests, or treatment.

§ 404.1517 Consultative examination at our expense.

If your medical sources cannot or will not give us sufficient medical evidence about your impairment for us to determine whether you are disabled or blind, we may ask you to have one or more physical or mental examinations or tests. We will pay for these examinations. However, we will not pay for any medical examination arranged by you or your representative without our advance approval. If we arrange for the examination or test, we will give you reasonable notice of the date, time, and place the examination or test will be given, and the name of the person or facility who will do it. We will also give the examiner any necessary background information about your condition.

[56 FR 36956, Aug. 1, 1991]

§ 404.1518 If you do not appear at a consultative examination.

(a) *General.* If you are applying for benefits and do not have a good reason for failing or refusing to take part in a consultative examination or test which we arrange for you to get information we need to determine your disability or
