§ 176.100 Timely determination concerning the inapplicability of section 1605 of the Recovery Act.

(a) The head of the Federal department or agency involved may make a determination regarding inapplicability of section 1605 to a particular case or to a category of cases.

(b) Before Recovery Act funds are awarded by the Federal agency or obligated by the recipient for a project for the construction, alteration, maintenance, or repair of a public building or public work, an applicant or recipient may request from the award official a determination concerning the inapplicability of section 1605 of the Recovery Act for specifically identified items.

(c) The time for submitting the request and the information and supporting data that must be included in the request are to be specified in the agency's and recipient's request for applications and/or proposals, and as appropriate, in other written communications. The content of those communications should be consistent with the notice in § 176.150 or § 176.170, whichever applies.

(d) The award official must evaluate all requests based on the information provided and may supplement this information with other readily available information.

(e) In making a determination based on the increased cost to the project of using domestic iron, steel, and/or manufactured goods, the award official must compare the total estimated cost of the project using foreign iron, steel and/or relevant manufactured goods to the estimated cost if all domestic iron, steel, and/or relevant manufactured goods were used. If use of domestic iron, steel, and/or relevant manufactured goods would increase the cost of the overall project by more than 25 percent, then the award official shall determine that the cost of the domestic iron, steel, and/or relevant manufactured goods is unreasonable.

§ 176.110 Evaluating proposals of foreign iron, steel, and/or manufactured goods.

(a) If the award official receives a request for an exception based on the cost of certain domestic iron, steel,

and/or manufactured goods being unreasonable, in accordance with §176.80, then the award official shall apply evaluation factors to the proposal to use such foreign iron, steel, and/or manufactured goods as follows:

(1) Use an evaluation factor of 25 percent, applied to the total estimated cost of the project, if the foreign iron, steel, and/or manufactured goods are to be used in the project based on an exception for unreasonable cost requested by the applicant.

(2) Total evaluated cost = project cost estimate + (.25 × project cost estimate, if paragraph (a)(1) of this section applies).

(b) Applicants or recipients also may submit alternate proposals based on use of equivalent domestic iron, steel, and/or manufactured goods to avoid possible denial of Recovery Act funding for the proposal if the Federal Government determines that an exception permitting use of the foreign item(s) does not apply.

(c) If the award official makes an award to an applicant that proposed foreign iron, steel, and/or manufactured goods not listed in the applicable notice in the request for applications or proposals, then the award official must add the excepted materials to the list in the award term.

§ 176.120 Determinations on late requests.

(a) If a recipient requests a determination regarding the inapplicability of section 1605 of the Recovery Act after obligating Recovery Act funds for a project for construction, alteration, maintenance, or repair (late request), the recipient must explain why it could not request the determination before making the obligation or why the need for such determination otherwise was not reasonably foreseeable. If the award official concludes that the recipient should have made the request before making the obligation, the award official may deny the request.

(b) The award official must base evaluation of any late request for a determination regarding the inapplicability of section 1605 of the Recovery Act on information required by §176.150(c) and (d) or §176.170(c) and (d) and/or other readily available information.

(c) If a determination, under §176.80 is made after Recovery Act funds were obligated for a project for construction, alteration, maintenance, or repair that an exception to section 1605 of the Recovery Act applies, the award official must amend the award to allow use of the foreign iron, steel, and/or relevant manufactured goods. When the basis of the exception is nonavailability or public interest, the amended award shall reflect adjustment of the award amount, redistribution of budgeted funds, and/or other appropriate actions taken to cover costs associated with acquiring or using the foreign iron, steel, and/or manufactured goods. When the basis for the exception is the unreasonable cost of domestic iron, steel, and/or manufactured goods the award official shall adjust the award amount or the budget, as appropriate, by at least the differential established in §176.110(a).

§ 176.130 Noncompliance.

The award official must—

(a) Review allegations of violations of section 1605 of the Recovery Act;

(b) Unless fraud is suspected, notify the recipient of the apparent unauthorized use of foreign iron, steel, and/or manufactured goods and request a reply, to include proposed corrective action; and

(c) If the review reveals that a recipient or subrecipient has used foreign iron, steel, and/or manufactured goods without authorization, take appropriate action, including one or more of the following:

(1) Process a determination concerning the inapplicability of section 1605 of the Recovery Act in accordance with §176.120.

(2) Consider requiring the removal and replacement of the unauthorized foreign iron, steel, and/or manufactured goods.

(3) If removal and replacement of foreign iron, steel, and/or manufactured goods used in a public building or a public work would be impracticable, cause undue delay, or otherwise be detrimental to the interests of the Federal Government, the award official may determine in writing that the foreign iron, steel, and/or manufactured goods need not be removed and replaced.
