

§ 1.336-5

26 CFR Ch. I (4-1-16 Edition)

which is 100 minus 8, the percentage of Target stock, by value, determined on the disposition date, which is A's nonrecently disposed Target stock, and the denominator of which is 70, the percentage of Target stock, by value, determined on the disposition date, which is A's recently disposed stock, which is then multiplied by a fraction, the numerator of which is 8, the percentage of Target stock, by value, determined on the disposition date, attributable to A's nonrecently disposed Target stock and the denominator of which is 100 minus the numerator amount. Accordingly, A's basis amount is \$80 ($\$700 \times 92/70 \times 8/92$). A therefore recognizes gain of \$40 under the gain recognition election (\$80 basis amount minus A's \$40 basis in his nonrecently disposed stock prior to the gain recognition election). New Target's AGUB is \$1,091, the sum of \$1,011, the grossed-up basis of all recently disposed Target stock and \$80, A's basis in his nonrecently disposed Target stock pursuant to the gain recognition election.

Example 3. (i) The facts are the same as in *Example 3* of § 1.336-3(g), that is, Seller owns all 100 of the outstanding shares of the common stock of Target, the only class of Target stock outstanding. On January 1 of Year 1, Seller sells 10 shares of Target stock to A for \$6,000 (\$600 per share). On August 1 of Year 1, Seller distributes the remaining 90 shares of Target stock to its unrelated shareholders in a transaction described in section 355(d)(2) or (e)(2). The value of Target stock on August 1 is \$560 per share. Target has two assets, Asset 1, which is stock in trade of Target, a Class IV asset, with a basis of \$15,000 and a value of \$50,000, and Asset 2, which is stock in a publicly traded, unrelated corporation, a Class II asset, with a basis of \$38,000 and a value of \$16,000. Target has no liabilities other than any liabilities for Federal tax on account of the deemed asset disposition. Assume Target's Federal tax rate for any gain or income on the deemed asset disposition is 34 percent. Seller had no selling costs in connection with its sale of the 10 shares of Target stock. A section 336(e) election is made. In addition, A incurred \$100 of acquisition costs with respect to the purchase of the 10 shares of Target stock. Target's AGUB in the assets deemed acquired pursuant to § 1.336-2(b)(2)(ii)(B) is determined as follows (for purposes of this *Example 3*, GRD is the grossed-up basis of recently disposed stock, BND is the basis in nonrecently disposed stock, TotL is Target's total liabilities, including Target's tax liability, and X is the A's total acquisition costs):

$$\begin{aligned} \text{AGUB} &= \text{GRD} + \text{BND} + \text{TotL} \\ \text{GRD} &= (\$6,000 + (\$560 \times 90)) \times ((100 - 0)/100) + \\ &\quad \text{X} \\ \text{GRD} &= (\$6,000 + \$50,400) \times (100/100) + \$100 \\ \text{GRD} &= \$56,500 \\ \text{BND} &= \$0 \end{aligned}$$

TotL = .34 × (\$27,152 (Target's gain recognized on deemed disposition of Asset 1) - \$22,000 (Target's loss recognized on deemed disposition of Asset 2)) (see *Example 3* of § 1.336-3(g) for determination of Target's gain and loss recognized on deemed disposition of Assets 1 and 2)

$$\begin{aligned} \text{TotL} &= \$1,752 \\ \text{AGUB} &= \$56,500 + \$0 + \$1,752 \\ \text{AGUB} &= \$58,252 \end{aligned}$$

(ii) The AGUB allocated to Asset 2 is \$16,000, the value of Asset 2. Because the excess of the total AGUB, \$58,252, over the portion of the AGUB allocated to Asset 2, \$16,000, does not exceed the value of Asset 1, the AGUB allocated to Asset 1 is such excess, \$42,252.

[T.D. 9619, 78 FR 28474, May 15, 2013]

§ 1.336-5 Effective/applicability date.

The provisions of §§ 1.336-1 through 1.336-4 apply to any qualified stock disposition for which the disposition date is on or after May 15, 2013.

[T.D. 9619, 78 FR 28474, May 15, 2013]

EFFECTS ON CORPORATION

§ 1.337-1 Nonrecognition for property distributed to parent in complete liquidation of subsidiary.

(a) *General rule.* If sections 332(a) and 337 are applicable with respect to the receipt of a subsidiary's property in complete liquidation, no gain or loss is recognized to the liquidating subsidiary with respect to such property (including property distributed with respect to indebtedness, see section 337(b)(1) and § 1.332-7), except as provided in section 337(b)(2) (distributions to certain tax-exempt distributees), section 367(e)(2) (distributions to foreign corporations), and section 897(d) (distributions of U.S. real property interests by foreign corporations).

(b) *Applicability date.* This section applies to any taxable year beginning on or after March 28, 2016.

[T.D. 9759, 81 FR 17074, Mar. 28, 2016]

§ 1.337(d)-1 Transitional loss limitation rule.

(a) *Loss limitation rule for transitional subsidiary—(1) General rule.* No deduction is allowed for any loss recognized by a member of a consolidated group with respect to the disposition of stock of a transitional subsidiary. However, for transactions involving loss shares

of subsidiary stock occurring on or after September 17, 2008, see §1.1502-36. Further, this section does not apply to a transaction that is subject to §1.1502-36.

(2) *Allowable loss*—(i) *In general.* Paragraph (a)(1) of this section does not apply to the extent the taxpayer establishes that the loss is not attributable to the recognition of built-in gain by any transitional subsidiary on the disposition of an asset (including stock and securities) after January 6, 1987.

(ii) *Statement of allowable loss.* Paragraph (a)(2)(i) of this section applies only if a separate statement entitled “Allowable Loss Under §1.337(d)-1(a)” is filed with the taxpayer’s return for the year of the stock disposition. If the separate statement is required to be filed with a return the due date (including extensions) of which is before January 16, 1991, or with a return due (including extensions) after January 15, 1991 but filed before that date, the statement may be filed with an amended return for the year of the disposition or with the taxpayer’s first subsequent return the due date (including extensions) of which is after January 15, 1991.

(iii) *Contents of statement.* The statement required under paragraph (a)(2)(ii) of this section must contain—

(A) The name and employer identification number (E.I.N.) of the transitional subsidiary.

(B) The basis of the stock of the transitional subsidiary immediately before the disposition.

(C) The amount realized on the disposition.

(D) The amount of the deduction not disallowed under paragraph (a)(1) of this section by reason of this paragraph (a)(2).

(E) The amount of loss disallowed under paragraph (a)(1) of this section.

(3) *Coordination with loss deferral and other disallowance rules.* (i) For purposes of this section, the rules of §1.1502-20(a)(3) apply, with appropriate adjustments to reflect differences between the approach of this section and that of §1.1502-20.

(ii) *Other loss deferral rules.* If paragraph (a)(1) of this section applies to a loss subject to deferral or disallowance under any other provision of the Code

or the regulations, the other provision applies to the loss only to the extent it is not disallowed under paragraph (a)(1).

(4) *Definitions.* For purposes of this section—

(i) The definitions in §1.1502-1 apply.

(ii) *Transitional subsidiary* means any corporation that became a subsidiary of the group (whether or not the group was a consolidated group) after January 6, 1987. Notwithstanding the preceding sentence, a subsidiary is not a transitional subsidiary if the subsidiary (and each predecessor) was a member of the group at all times after the subsidiary’s (and each predecessor’s) organization.

(iii) *Built-in gain* of a transitional subsidiary means gain attributable, directly or indirectly, in whole or in part, to any excess of value over basis, determined immediately before the transitional subsidiary became a subsidiary, with respect to any asset owned directly or indirectly by the transitional subsidiary at that time.

(iv) *Disposition* means any event in which gain or loss is recognized, in whole or in part.

(v) *Value* means fair market value.

(5) *Examples.* For purposes of the examples in this section, unless otherwise stated, the group files consolidated returns on a calendar year basis, the facts set forth the only corporate activity, and all sales and purchases are with unrelated buyers or sellers. The basis of each asset is the same determining earnings and profits adjustments and taxable income. Tax liability and its effect on basis, value, and earnings and profits are disregarded. *Investment adjustment system* means the rules of §1.1502-32. The principles of this paragraph (a) are illustrated by the following examples:

Example 1. Loss attributable to recognized built-in gain. (i) P buys all the stock of T for \$100 on February 1, 1987, and T becomes a member of the P group. T has an asset with a value of \$100 and basis of \$0. T sells the asset in 1989 and recognizes \$100 of built-in gain on the sale (*i.e.*, the asset’s value exceeded its basis by \$100 at the time T became a member of the P group). Under the investment adjustment system, P’s basis in the T stock increases to \$200. P sells all the stock of T on December 31, 1989, and recognizes a loss of \$100. Under paragraph (a)(1) of this

section, no deduction is allowed to P for the \$100 loss.

(ii) Assume that, after T sells its asset but before P sells the T stock, T issues additional stock to unrelated persons and ceases to be a member of the P group. P then sells all its stock of T in 1997. Although T ceases to be a subsidiary within the meaning of § 1.1502-1, T continues to be a transitional subsidiary within the meaning of this section. Consequently, under paragraph (a)(1) of this section, no deduction is allowed to P for its \$100 loss.

Example 2. Loss attributable to post-acquisition loss. P buys all the stock of T for \$100 on February 1, 1987, and T becomes a member of the P group. T has \$50 cash and an asset with \$50 of built-in gain. During 1988, T retains the asset but loses \$40 of the cash. The P group is unable to use the loss, and the loss becomes a net operating loss carryover attributable to T. Under the investment adjustment system, P's basis in the stock of T remains \$100. P sells all the stock of T on December 31, 1988, for \$60 and recognizes a \$40 loss. Under paragraph (a)(2)(i) of this section, P establishes that it did not dispose of the built-in gain asset. None of P's loss is disallowed under paragraph (a)(1) if P satisfies the requirements of paragraph (a)(2)(ii) of this section.

Example 3. Stacking rules—postacquisition loss offsets postacquisition gain. (i) P buys all the stock of T for \$100 on February 1, 1987, and T becomes a member of the P group. T has 2 assets. Asset 1 has a basis and value of \$50, and asset 2 has a basis of \$0 and a value of \$50. During 1989, asset 1 declines in value to \$0, and T sells asset 2 for \$50, and reinvests the proceeds in asset 3. The value of asset 3 appreciates to \$90. Under the investment adjustment system, P's basis in the stock of T increases from \$100 to \$150 as a result of the gain recognized on the sale of asset 2 but is unaffected by the unrealized post-acquisition decline in the value of asset 1. On December 31, 1989, P sells all the stock of T for \$90 and recognizes a \$60 loss.

(ii) Although T incurred a \$50 post-acquisition loss of built-in gain because of the decline in the value of asset 1, T also recognized \$50 of built-in gain. Under paragraph (a)(2) of this section, any loss on the sale of stock is treated first as attributable to recognized built-in gain. Thus, for purposes of determining under paragraph (a)(2) of this section whether P's \$60 loss on the disposition of the T stock is attributable to the recognition of built-in gain on the disposition of an asset, T's unrealized post-acquisition gain of \$40 offsets \$40 of the \$50 of unrealized post-acquisition loss. Therefore, \$50 of the \$60 loss is attributable to the recognition of built-in gain on the disposition of an asset and is disallowed under paragraph (a)(1) of this section.

Example 4. Stacking rules—built-in loss offsets built-in gain. (i) P buys all the stock of T for \$50 on February 1, 1987, and T becomes a member of the P group. T has 2 assets. Asset 1 has a basis of \$50 and a value of \$0, and asset 2 has a basis of \$0 and a value of \$50. During 1989, T sells asset 1 for \$0 and asset 2 for \$50, and reinvests the \$50 proceeds in asset 3. The value of asset 3 declines to \$40. Under the investment adjustment system, P's basis in the stock of T remains \$50 as a result of the offsetting gain and loss recognized on the sale of assets 1 and 2 and is unaffected by the unrealized post-acquisition decline in the value of asset 3. On December 31, 1989, P sells all the stock of T for \$40 and recognizes a \$10 loss.

(ii) Although T recognized a \$50 built-in gain on the sale of asset 2, T also recognized a \$50 built-in loss on the sale of asset 1. For purposes of determining under paragraph (a)(2) of this section whether P's \$10 loss on the disposition of the T stock is attributable to the recognition of built-in gain on the disposition of an asset, T's recognized built-in gain is offset by its recognized built-in loss. Thus none of P's \$10 loss is attributable to the recognition of built-in gain on the disposition of an asset.

(iii) The result would be the same if, instead of a \$50 built-in loss in asset 2, T has a \$50 net operating loss carryover when P buys the T stock, and the net operating loss carryover is used to offset the built-in gain.

Example 5. Outside basis partially corresponds to inside basis. (i) Individual A owns all the stock of T, for which A has a basis of \$60. On February 1, 1987, T owns 1 asset with a basis of \$0 and a value of \$100, P acquires all the stock of T from A in an exchange to which section 351(a) applies, and T becomes a member of the P group. P has a carryover basis of \$60 in the T stock. During 1988, T sells the asset and recognizes \$100 of gain. Under the investment adjustment system, P's basis in the T stock increases from \$60 to \$160. T reinvests the \$100 proceeds in another asset, which declines in value to \$90. On January 1, 1989, P sells all the stock of T for \$90 and recognizes a loss of \$70.

(ii) Although P's basis in the T stock was increased by \$100 as a result of the recognition of built-in gain on the disposition of T's asset, only \$60 of the \$70 loss on the sale of the stock is attributable under paragraph (a)(2) of this section to the recognition of built-in gain from the disposition of the asset. (Had T's asset not declined in value to \$90, the T stock would have been sold for \$100, and a \$60 loss would have been attributable to the recognition of the built-in gain.) Therefore, \$60 of the \$70 loss is disallowed under paragraph (a)(2), and \$10 is not disallowed if P satisfies the requirements of paragraph (a)(2). If P had sold the stock of T for \$95 because T's other assets had unrealized appreciation of \$5, \$60 of the \$65 loss

would still be attributable to T's recognition of built-in gain on the disposition of assets.

Example 6. Creeping acquisition. P owns 60 percent of the stock of S on January 6, 1987. On February 1, 1987, P buys an additional 20 percent of the stock of S, and S becomes a member of the P group. P sells all the S stock on March 1, 1989 and recognizes a loss of \$100. All 80 percent of the stock of S owned by P is subject to the rules of this section and, under paragraph (a) (1) and (2) of this section, P is not allowed to deduct the \$100 loss, except to the extent P establishes the loss is not attributable to the recognition by S of built-in gain on the disposition of assets.

Example 7. Effect of post-acquisition appreciation. P buys all the stock of T for \$100, and T becomes a member of the P group. T has an asset with a basis of \$0 and a value of \$100. T sells the asset for \$100. Under the investment adjustment system, P's basis in the T stock increases to \$200. T reinvests the proceeds of the sale in an asset that appreciates in value to \$180. Five years after the sale, P sells all the stock of T for \$180 and recognizes a \$20 loss. Under paragraph (a)(1) of this section, no deduction is allowed to P for the \$20 loss.

Example 8. Deferred loss and recognized gain. (i) P is the common parent of a consolidated group, S is a wholly owned subsidiary of P, and T is a wholly owned subsidiary of S. S purchased all of the T stock on February 1, 1987 for \$100, and T has an asset with a basis of \$40 and a value of \$100. T sells the asset for \$100, recognizing \$60 of gain. Under the investment adjustment system, S's basis in the T stock increases from \$100 to \$160. S sells its T stock to P for \$100 in a deferred intercompany transaction, recognizing a \$60 loss that is deferred under section 267(f) and § 1.1502-13. P subsequently sells all the stock of T for \$100 to X, a member of the same controlled group (as defined in section 267(f)) as P but not a member of the P consolidated group.

(ii) Under paragraph (a)(3) of this section, the application of paragraph (a)(1) of this section to S's \$60 loss is deferred, because S's loss is deferred under section 267(f) and § 1.1502-13. Although P's sale of the T stock to X would cause S's deferred loss to be taken into account under § 1.1502-13, § 1.267(f)-1 provides that the loss is not taken into account because X is a member of the same controlled group as P and S. Nevertheless, under paragraph (a)(3) of this section, because the T stock ceases to be owned by a member of the P consolidated group, S's deferred loss is disallowed immediately before the sale and is never taken into account under section 267(f).

(b) *Indirect disposition of transitional subsidiary*—(1) *Loss limitation rule for transitional parent.* No deduction is allowed for any loss recognized by a

member of a consolidated group with respect to the disposition of stock of a transitional parent.

(2) *Allowable loss*—(i) *In general.* Paragraph (b)(1) of this section does not apply to the extent the taxpayer establishes that the loss exceeds the amount that would be disallowed under paragraph (a) of this section if each highest tier transitional subsidiary's stock in which the transitional parent has a direct or indirect interest had been sold immediately before the disposition of the transitional parent's stock. In applying the preceding sentence, appropriate adjustments shall be made to take into account circumstances where less than all the stock of a transitional parent owned by members of a consolidated group is disposed of in the same transaction, or the stock of a transitional subsidiary or a transitional parent is directly owned by more than 1 member.

(ii) *Statement of allowable loss.* Paragraph (b)(2)(i) of this section applies only if a separate statement entitled "Allowable Loss Under Section 1.337(d)-1(b)" is filed with the taxpayer's return for the year of the stock disposition. If the separate statement is required to be filed with a return the due date (including extensions) of which is before January 16, 1991, or with a return due (including extensions) after January 15, 1991 but filed before that date, the statement may be filed with an amended return for the year of the disposition or with the taxpayer's first subsequent return the due date (including extensions) of which is after January 15, 1991.

(iii) *Contents of statement.* The statement required under paragraph (b)(2)(ii) of this section must contain—

(A) The name and employer identification number (E.I.N.) of the transitional parent.

(B) The basis of the stock of the transitional parent immediately before the disposition.

(C) The amount realized on the disposition.

(D) The amount of the deduction not disallowed under paragraph (b)(1) of this section by reason of this paragraph (b)(2).

(E) The amount of loss disallowed under paragraph (b)(1) of this section.

(3) *Coordination with loss deferral and other disallowance rules.* (i) For purposes of this section, the rules of §1.1502-20(a)(3) apply, with appropriate adjustments to reflect differences between the approach of this section and that of §1.1502-20.

(ii) *Other loss deferral rules.* If paragraph (b)(1) of this section applies to a loss subject to deferral or disallowance under any other provision of the Code or the regulations, the other provision applies to the loss only to the extent it is not disallowed under paragraph (b)(1).

(4) *Definitions.* For purposes of this section—

(i) *Transitional parent* means any subsidiary, other than a transitional subsidiary, that owned at any time after January 6, 1987, a direct or indirect interest in the stock of a corporation that is a transitional subsidiary.

(ii) *Highest tier transitional subsidiary* means the transitional subsidiary (or subsidiaries) in which the transitional parent has a direct or indirect interest and that is the highest transitional subsidiary (or subsidiaries) in a chain of members.

(5) *Examples.* The principles of this paragraph (b) are illustrated by the following examples:

Example 1. Ownership of chain of transitional subsidiaries. (i) P forms S with \$200 on January 1, 1985, and S becomes a member of the P group. On February 1, 1987, S buys all the stock of T, and T buys all the stock of T1, and both T and T1 become members of the P group. On January 1, 1988, P sells all the stock of S and recognizes a \$90 loss on the sale.

(ii) Under paragraph (a)(4)(ii) of this section, both T and T1 are transitional subsidiaries, because they became members of the P group after January 6, 1987. Under paragraph (b)(4)(i) of this section, S is a transitional parent, because it owns a direct interest in stock of transitional subsidiaries and is not itself a transitional subsidiary.

(iii) Under paragraph (b) (1) and (2) of this section, because S is a transitional parent, no deduction is allowed to P for its \$90 loss except to the extent the loss exceeds the amount of S's loss that would have been disallowed if S had sold all the stock of T, S's highest tier transitional subsidiary, immediately before P's sale of all the S stock. Assume all the T stock would have been sold for a \$90 loss and that all the loss would be attributable to the recognition of built-in gain from the disposition of assets. Because

in that case \$90 of loss would be disallowed, all of P's loss on the sale of the S stock is disallowed under paragraph (b).

Example 2. Ownership of brother-sister transitional subsidiaries. (i) P forms S with \$200 on January 1, 1985, and S becomes a member of the P group. On February 1, 1987, S buys all the stock of both T and T1, and T and T1 become members of the P group. On January 1, 1988, P sells all the stock of S and recognizes a \$90 loss on the sale.

(ii) Under paragraph (b) (1) and (2) of this section, no deduction is allowed to P for its \$90 loss except to the extent P establishes that the loss exceeds the amount of S's stock losses that would be disallowed if S sold all the stock of T and T1, S's highest tier transitional subsidiaries, immediately before P's sale of all the S stock. Assume that all the T stock would have been sold for a \$50 loss, all the T1 stock of a \$40 loss, and that the entire amount of each loss would be attributable to the recognition of built-in gain on the disposition of assets. Because \$90 of loss would be disallowed with respect to the sale of S's T and T1 stock, P's \$90 loss on the sale of all the S stock is disallowed under paragraph (b).

(c) *Successors—(1) General rule.* This section applies, to the extent necessary to effectuate the purposes of this section, to—

(i) Any property owned by a member or former member, the basis of which is determined, directly or indirectly, in whole or in part, by reference to the basis in a subsidiary's stock, and

(ii) Any property owned by any other person whose basis in the property is determined, directly or indirectly, in whole or in part, by reference to a member's (or former member's) basis in a subsidiary's stock.

(2) *Examples.* The principles of this paragraph (c) are illustrated by the following examples:

Example 1. Merger into grandfathered subsidiary. P, the common parent of a group, owns all the stock of T, a transitional subsidiary. On January 1, 1989, T merges into S, a wholly owned subsidiary of P that is not a transitional subsidiary. Under paragraph (c)(1) of this section, all the stock of S is treated as stock of a transitional subsidiary. As a result, no deduction is allowed for any loss recognized by P on the disposition of any S stock, except to the extent the P group establishes under paragraph (a)(2) that the loss is not attributable to the recognition of built-in gain on the disposition of assets of T.

Example 2. Nonrecognition exchange of transitional stock. (i) P, the common parent of a

group, owns all the stock of T, a transitional subsidiary. On January 1, 1989, P transfers the stock of T to X, a corporation that is not a member of the P group, in exchange for 20 percent of its stock in a transaction to which section 351(a) applies. T and X file separate returns.

(i) Under paragraph (c)(1) of this section, all the stock of X owned by P is treated as stock of a transitional subsidiary because P's basis for the X stock is determined by reference to its basis for the T stock. As a result, no deduction is allowed to P for any loss recognized on the disposition of the X stock, except to the extent permitted under paragraph (a) of this section.

(ii) Under paragraph (c)(1), X is treated as a member subject to paragraph (a) of this section with respect to the T stock because X's basis for the stock is determined by reference to P's basis for the stock. Moreover, all of the T stock owned by X continues to be stock of a transitional subsidiary. As a result, no deduction is allowed to X for any loss recognized on the disposition of any T stock, except to the extent permitted under paragraph (a) of this section.

(d) *Investment adjustments and earnings and profits*—(1) *In general.* For purposes of determining investment adjustments under § 1.1502-32 and earnings and profits under § 1.1502-33(c) with respect to a member of a consolidated group that owns stock in a subsidiary, any deduction that is disallowed under this section is treated as a loss arising and absorbed by the member in the tax year in which the disallowance occurs.

(2) *Example.* (i) In 1986, P forms S with a contribution of \$100, and S becomes a member of the P group. On February 1, 1987, S buys all the stock of T for \$100. T has an asset with a basis of \$0 and a value of \$100. In 1988, T sells the asset for \$100. Under the investment adjustment system, S's basis in the T stock increases to adjustment system, S's basis in the T stock increases to \$200, P's basis in the S stock increases to \$200, and P's earnings and profits and S's earnings and profits increase by \$100. In 1989, S sells all of the T stock for \$100, and S's recognized loss of \$100 is disallowed under paragraph (a)(1) of this section.

(ii) Under paragraph (d)(1) of this section, S's earnings and profits for 1989 are reduced by \$100, the amount of the loss disallowed under paragraph (a)(1). As a result, P's basis in the S stock is reduced from \$200 to \$100 under the investment adjustment system. P's earn-

ings and profits for 1989 are correspondingly reduced by \$100.

(e) *Effective dates*—(1) *General rule.* This section applies with respect to dispositions after January 6, 1987. For dispositions on or after November 19, 1990, however, this section applies only if the stock was deconsolidated (as that term is defined in § 1.337(d)-2(b)(2)) before November 19, 1990, and only to the extent the disposition is not subject to § 1.337(d)-2 or § 1.1502-20.

(2) *Binding contract rule.* For purposes of this paragraph (e), if a corporation became a subsidiary pursuant to a binding written contract entered into before January 6, 1987, and in continuous effect until the corporation became a subsidiary, or a disposition was pursuant to a binding written contract entered into before March 9, 1990, and in continuous effect until the disposition, the date the contract became binding shall be treated as the date the corporation became a subsidiary or as the date of disposition.

(3) *Application of § 1.1502-20T to certain transactions*—(i) *In general.* If a group files the certification described in paragraph (e)(3)(ii) of this section, it may apply § 1.1502-20T (as contained in the CFR edition revised as of April 1, 1990), to all of its members with respect to all dispositions and deconsolidations by the certifying group to which § 1.1502-20T otherwise applied by its terms occurring—

(A) On or after March 9, 1990 (but only if not pursuant to a binding contract described in § 1.337(d)-1T(e)(2) (as contained in the CFR edition revised as of April 1, 1990) that was entered into before March 9, 1990); and

(B) Before November 19, 1990 (or thereafter, if pursuant to a binding contract described in § 1.1502-20T(g)(3) that was entered into on or after March 9, 1990 and before November 19, 1990).

The certification under this paragraph (e)(3)(i) with respect to the application of § 1.1502-20T to any transaction described in this paragraph (e)(3)(i) may not be withdrawn and, if the certification is filed, § 1.1502-20T must be applied to all such transactions on all returns (including amended returns) on which such transactions are included.

§ 1.337(d)-1T

26 CFR Ch. I (4-1-16 Edition)

(ii) *Time and manner of filing certification.* The certification described in paragraph (e)(3)(i) of this section must be made in a separate statement entitled “[insert name and employer identification number of common parent] hereby certifies under § 1.337(d)-1 (e)(3) that the group of which it is the common parent is applying § 1.1502-20T to all transactions to which that section otherwise applied by its terms.” The statement must be signed by the common parent and filed with the group’s income tax return for the taxable year of the first disposition or deconsolidation to which the certification applies. If the separate statement required under this paragraph (e)(3) is to be filed with a return the due date (including extensions) of which is before November 16, 1991, the statement may be filed with an amended return for the year of the disposition or deconsolidation that is filed within 180 days after September 13, 1991. Any other filings required under § 1.1502-20T, such as the statement required under § 1.1502-20T(f)(5), may be made with the amended return, regardless of whether § 1.1502-20T permits such filing by amended return.

[T.D. 8319, 55 FR 49031, Nov. 26, 1990, as amended by T.D. 8364, 56 FR 47389, Sept. 19, 1991; 57 FR 53550, Nov. 12, 1992; T.D. 8560, 59 FR 41674, 41675, Aug. 15, 1994; T.D. 8597, 60 FR 36679, July 18, 1995; T.D. 9424, 73 FR 53947, Sept. 17, 2008]

§ 1.337(d)-1T [Reserved]

§ 1.337(d)-2 Loss limitation rules.

(a) *Loss disallowance—(1) General rule.* No deduction is allowed for any loss recognized by a member of a consolidated group with respect to the disposition of stock of a subsidiary. However, for transactions involving loss shares of subsidiary stock occurring on or after September 17, 2008, see § 1.1502-36. Further, this section does not apply to a transaction that is subject to § 1.1502-36.

(2) *Definitions.* For purposes of this section:

(i) The definitions in § 1.1502-1 apply.

(ii) *Disposition* means any event in which gain or loss is recognized, in whole or in part.

(3) *Coordination with loss deferral and other disallowance rules.* For purposes of this section, the rules of § 1.1502-20(a)(3) apply, with appropriate adjustments to reflect differences between the approach of this section and that of § 1.1502-20.

(4) *Netting.* Paragraph (a)(1) of this section does not apply to loss with respect to the disposition of stock of a subsidiary, to the extent that, as a consequence of the same plan or arrangement, gain is taken into account by members with respect to stock of the same subsidiary having the same material terms. If the gain to which this paragraph applies is less than the amount of the loss with respect to the disposition of the subsidiary’s stock, the gain is applied to offset loss with respect to each share disposed of as a consequence of the same plan or arrangement in proportion to the amount of the loss deduction that would have been disallowed under paragraph (a)(1) of this section with respect to such share before the application of this paragraph (a)(4). If the same item of gain could be taken into account more than once in limiting the application of paragraphs (a)(1) and (b)(1) of this section, the item is taken into account only once.

(b) *Basis reduction on deconsolidation—(1) General rule.* If the basis of a member of a consolidated group in a share of stock of a subsidiary exceeds its value immediately before a deconsolidation of the share, the basis of the share is reduced at that time to an amount equal to its value. If both a disposition and a deconsolidation occur with respect to a share in the same transaction, paragraph (a) of this section applies and, to the extent necessary to effectuate the purposes of this section, this paragraph (b) applies following the application of paragraph (a) of this section.

(2) *Deconsolidation.* *Deconsolidation* means any event that causes a share of stock of a subsidiary that remains outstanding to be no longer owned by a member of any consolidated group of which the subsidiary is also a member.

(3) *Value.* *Value* means fair market value.

(4) *Netting.* Paragraph (b)(1) of this section does not apply to reduce the

basis of stock of a subsidiary, to the extent that, as a consequence of the same plan or arrangement, gain is taken into account by members with respect to stock of the same subsidiary having the same material terms. If the gain to which this paragraph applies is less than the amount of basis reduction with respect to shares of the subsidiary's stock, the gain is applied to offset basis reduction with respect to each share deconsolidated as a consequence of the same plan or arrangement in proportion to the amount of the reduction that would have been required under paragraph (b)(1) of this section with respect to such share before the application of this paragraph (b)(4).

(c) *Allowable loss*—(1) *Application.* This paragraph (c) applies with respect to stock of a subsidiary only if a separate statement entitled §1.337(d)-2(c) *statement* is included with the return in accordance with paragraph (c)(3) of this section.

(2) *General rule.* Loss is not disallowed under paragraph (a)(1) of this section and basis is not reduced under paragraph (b)(1) of this section to the extent the taxpayer establishes that the loss or basis is not attributable to the recognition of built-in gain, net of directly related expenses, on the disposition of an asset (including stock and securities). Loss or basis may be attributable to the recognition of built-in gain on the disposition of an asset by a prior group. For purposes of this section, gain recognized on the disposition of an asset is built-in gain to the extent attributable, directly or indirectly, in whole or in part, to any excess of value over basis that is reflected, before the disposition of the asset, in the basis of the share, directly or indirectly, in whole or in part, after applying section 1503(e) and other applicable provisions of the Internal Revenue Code and regulations. Federal income taxes may be directly related to built-in gain recognized on the disposition of an asset only to the extent of the excess (if any) of the group's income tax liability actually imposed under Subtitle A of the Internal Revenue Code for the taxable year of the disposition of the asset over the group's income tax liability for the taxable year redetermined by not tak-

ing into account the built-in gain recognized on the disposition of the asset. For this purpose, the group's income tax liability actually imposed and its redetermined income tax liability are determined without taking into account the foreign tax credit under section 27(a) of the Internal Revenue Code.

(3) *Contents of statement and time of filing.* The statement required under paragraph (c)(1) of this section must be included with or as part of the taxpayer's return for the year of the disposition or deconsolidation and must contain—

(i) The name and employer identification number (E.I.N.) of the subsidiary; and

(ii) The amount of the loss not disallowed under paragraph (a)(1) of this section by reason of this paragraph (c) and the amount of basis not reduced under paragraph (b)(1) of this section by reason of this paragraph (c).

(4) *Example.* The principles of paragraphs (a), (b), and (c) of this section are illustrated by the examples in §§1.337(d)-1(a)(5) and 1.1502-20(a)(5) (other than *Examples 3, 4, and 5*) and (b), with appropriate adjustments to reflect differences between the approach of this section and that of §1.1502-20, and by the following example. For purposes of the examples in this section, unless otherwise stated, the group files consolidated returns on a calendar year basis, the facts set forth the only corporate activity, and all sales and purchases are with unrelated buyers or sellers. The basis of each asset is the same for determining earnings and profits adjustments and taxable income. Tax liability and its effect on basis, value, and earnings and profits are disregarded. *Investment adjustment system* means the rules of §1.1502-32. The example reads as follows:

Example. Loss offsetting built-in gain in a prior group. (i) P buys all the stock of T for \$50 in Year 1, and T becomes a member of the P group. T has 2 assets. Asset 1 has a basis of \$50 and a value of \$0, and asset 2 has a basis of \$0 and a value of \$50. T sells asset 2 during Year 3 for \$50 and recognizes a \$50 gain. Under the investment adjustment system, P's basis in the T stock increased to \$100 as a result of the recognition of gain. In Year 5, all of the stock of P is acquired by the P1 group, and the former members of the

§ 1.337(d)-3T

26 CFR Ch. I (4-1-16 Edition)

P group become members of the P1 group. T then sells asset 1 for \$0, and recognizes a \$50 loss. Under the investment adjustment system, P's basis in the T stock decreases to \$50 as a result of the loss. T's assets decline in value from \$50 to \$40. P then sells all the stock of T for \$40 and recognizes a \$10 loss.

(ii) P's basis in the T stock reflects both T's unrecognized gain and unrecognized loss with respect to its assets. The gain T recognizes on the disposition of asset 2 is built-in gain with respect to both the P and P1 groups for purposes of paragraph (c)(2) of this section. In addition, the loss T recognizes on the disposition of asset 1 is built-in loss with respect to the P and P1 groups for purposes of paragraph (c)(2) of this section. T's recognition of the built-in loss while a member of the P1 group offsets the effect on T's stock basis of T's recognition of the built-in gain while a member of the P group. Thus, P's \$10 loss on the sale of the T stock is not attributable to the recognition of built-in gain, and the loss is therefore not disallowed under paragraph (c)(2) of this section.

(iii) The result would be the same if, instead of having a \$50 built-in loss in asset 1 when it becomes a member of the P group, T has a \$50 net operating loss carryover and the carryover is used by the P group.

(d) *Successors.* For purposes of this section, the rules and examples of § 1.1502-20(d) apply, with appropriate adjustments to reflect differences between the approach of this section and that of § 1.1502-20.

(e) *Anti-avoidance rules.* For purposes of this section, the rules and examples of § 1.1502-20(e) apply, with appropriate adjustments to reflect differences between the approach of this section and that of § 1.1502-20.

(f) *Investment adjustments.* For purposes of this section, the rules and examples of § 1.1502-20(f) apply, with appropriate adjustments to reflect differences between the approach of this section and that of § 1.1502-20.

(g) *Effective dates.* This section applies with respect to dispositions and deconsolidations on or after March 3, 2005. In addition, this section applies to dispositions and deconsolidations for which an election is made under § 1.1502-20(i)(2) to determine allowable loss under this section. If loss is recognized because stock of a subsidiary became worthless, the disposition with respect to the stock is treated as occurring on the date the stock became worthless. For dispositions and deconsolidations after March 6, 2002

and before March 3, 2005, see § 1.337(d)-2T as contained in the 26 CFR part 1 in effect on March 2, 2005.

[70 FR 10322, Mar. 3, 2005, as amended by T.D. 9424, 73 FR 53947, Sept. 17, 2008]

§ 1.337(d)-3T Gain recognition upon certain partnership transactions involving a partner's stock (temporary).

(a) *Purpose.* The purpose of this section is to prevent corporate taxpayers from using a partnership to circumvent gain required to be recognized under section 311(b) or section 336(a). The rules of this section, including the determination of the amount of gain, must be applied in a manner that is consistent with and that reasonably carries out this purpose.

(b) *In general.* This section applies when a partnership, either directly or indirectly, owns, acquires, or distributes Stock of the Corporate Partner (within the meaning of paragraph (c)(2) of this section). Under paragraphs (d) or (e) of this section, a Corporate Partner (within the meaning of paragraph (c)(1) of this section) is required to recognize gain when a transaction has the effect of the Corporate Partner acquiring or increasing an interest in its own stock in exchange for appreciated property in a manner that contravenes the purpose of this section as set forth in paragraph (a) of this section. Paragraph (f) of this section sets forth exceptions under which a Corporate Partner does not recognize gain.

(c) *Definitions.* The following definitions apply for purposes of this section:

(1) *Corporate Partner.* A Corporate Partner is a person that is classified as a corporation for federal income tax purposes and holds or acquires an interest in a partnership.

(2) *Stock of the Corporate Partner—(i) In general.* With respect to a Corporate Partner, Stock of the Corporate Partner includes the Corporate Partner's stock, or other equity interests, including options, warrants, and similar interests, in the Corporate Partner or a corporation that controls the Corporate Partner within the meaning of section 304(c), except that section 318(a)(1) and (3) shall not apply. Stock of the Corporate Partner also includes interests in any entity to the extent

that the value of the interest is attributable to Stock of the Corporate Partner.

(ii) *Affiliated partner exception.* Stock of the Corporate Partner does not include any stock or other equity interests held or acquired by a partnership if all interests in the partnership's capital and profits are held by members of an affiliated group as defined in section 1504(a) that includes the Corporate Partner.

(3) *Section 337(d) Transaction.* A Section 337(d) Transaction is a transaction (or series of transactions) that has the effect of an exchange by a Corporate Partner of its interest in appreciated property for an interest in Stock of the Corporate Partner owned, acquired, or distributed by a partnership. For example, a Section 337(d) Transaction may occur when—

(i) A Corporate Partner contributes appreciated property to a partnership that owns Stock of the Corporate Partner;

(ii) A partnership acquires Stock of the Corporate Partner;

(iii) A partnership that owns Stock of the Corporate Partner distributes appreciated property to a partner other than a Corporate Partner;

(iv) A partnership distributes Stock of the Corporate Partner to the Corporate Partner; or

(v) A partnership agreement is amended in a manner that increases a Corporate Partner's interest in Stock of the Corporate Partner (including in connection with a contribution to, or distribution from, a partnership).

(4) *Gain Percentage.* A Corporate Partner's Gain Percentage equals a fraction, the numerator of which is the Corporate Partner's interest (by value) in appreciated property effectively exchanged for Stock of the Corporate Partner under the test described in paragraphs (d)(1) and (2) of this section, and the denominator of which is the Corporate Partner's interest (by value) in that appreciated property immediately before the Section 337(d) Transaction. Paragraph (d) of this section requires a partnership to multiply the Gain Percentage by the Corporate Partner's aggregate gain in appreciated property to determine gain recognized under this section.

(d) *Deemed redemption rule*—(1) *In general.* A Corporate Partner in a partnership that engages in a Section 337(d) Transaction recognizes gain at the time, and to the extent, that the Corporate Partner's interest in appreciated property (other than Stock of the Corporate Partner) is reduced in exchange for an increased interest in Stock of the Corporate Partner, as determined under paragraph (d)(2) of this section. This section does not apply to the extent a transaction has the effect of an exchange by a Corporate Partner of non-appreciated property for Stock of the Corporate Partner or has the effect of an exchange by a Corporate Partner for property other than Stock of the Corporate Partner.

(2) *Corporate Partner's Interest in Partnership Property.* The Corporate Partner's interest with respect to both Stock of the Corporate Partner and the appreciated property that is the subject of the exchange is determined based on all facts and circumstances, including the allocation and distribution rights set forth in the partnership agreement. The Corporate Partner's interest in an identified share of Stock of the Corporate Partner will never be less than the Corporate Partner's largest interest (by value) in that share of Stock of the Corporate Partner that was taken into account when the partnership previously determined whether there had been a Section 337(d) Transaction with respect to such share (regardless of whether the Corporate Partner recognized gain in the earlier transaction). See *Example 6* of paragraph (h) of this section. However, this limitation will not apply if any reduction in the Corporate Partner's interest in the identified share of Stock of the Corporate Partner occurred as part of a plan or arrangement to circumvent the purpose of this section. See *Example 7* of paragraph (h) of this section.

(3) *Amount of gain recognized on the exchange.* The amount of gain the Corporate Partner recognizes under paragraph (d)(1) of this section equals the product of the Corporate Partner's Gain Percentage and the gain from the appreciated property that is the subject of the exchange that the Corporate

Partner would recognize if, immediately before the Section 337(d) Transaction, all assets of the partnership and any assets contributed to the partnership in the Section 337(d) Transaction were sold in a fully taxable transaction for cash in an amount equal to the fair market value of such property (taking into account section 7701(g)), reduced, but not below zero, by any gain the Corporate Partner is required to recognize with respect to the appreciated property in the Section 337(d) Transaction under any other provision of this chapter. This gain is computed taking into account allocations of tax items applying the principles of section 704(c), including any remedial allocations under §1.704-3(d).

(4) *Basis adjustments*—(i) *Corporate Partner's basis in the partnership interest.* The basis of the Corporate Partner's interest in the partnership is increased by the amount of gain that the Corporate Partner recognizes under this paragraph (d).

(ii) *Partnership's basis in partnership property.* The partnership's adjusted tax basis in the appreciated property that is treated as the subject of the exchange under this paragraph (d) is increased by the amount of gain recognized with respect to that property by the Corporate Partner as a result of that exchange, regardless of whether the partnership has an election in effect under section 754.

(e) *Distribution of Stock of the Corporate Partner*—(1) *In general.* This paragraph (e) applies to distributions to the Corporate Partner of Stock of the Corporate Partner to which section 732(f) does not apply and that have previously been the subject of a Section 337(d) Transaction or become the subject of a Section 337(d) Transaction as a result of the distribution. Upon the distribution of Stock of the Corporate Partner to the Corporate Partner, paragraph (d) of this section will apply as though immediately before the distribution the partners amended the partnership agreement to allocate to the Corporate Partner a 100 percent interest in that portion of the Stock of the Corporate Partner that is distributed and to allocate an appropriately reduced interest in other partnership

property away from the Corporate Partner.

(2) *Basis rules*—(i) *Basis allocation on distributions of stock and other property.* If, as part of the same transaction, a partnership distributes Stock of the Corporate Partner and other property (other than cash) to the Corporate Partner, see §1.732-1T(c)(1)(iii) for a rule allocating basis first to the Stock of the Corporate Partner before the distribution of the other property.

(ii) *Computation of Basis.* For purposes of determining the basis of property distributed to the Corporate Partner (other than the basis of the Corporate Partner in its own stock), the basis of the Corporate Partner's remaining partnership interest, and the partnership's basis in undistributed Stock of the Corporate Partner, and for purposes of computing gain under paragraph (e)(3) of this section, the partnership's basis of Stock of the Corporate Partner distributed to the Corporate Partner equals the greater of—

(A) The partnership's basis of that distributed Stock of the Corporate Partner immediately before the distribution, or

(B) The fair market value of that distributed Stock of the Corporate Partner immediately before the distribution less the Corporate Partner's allocable share of gain from all of the Stock of the Corporate Partner if the partnership sold all of its assets in a fully taxable transaction for cash in an amount equal to the fair market value of such property (taking into account section 7701(g)) immediately before the distribution.

(3) *Gain recognition.* The Corporate Partner will recognize gain on a distribution of Stock of the Corporate Partner to the Corporate Partner to the extent that the partnership's basis in the distributed Stock of the Corporate Partner (as determined under paragraph (e)(2)(ii) of this section) exceeds the Corporate Partner's basis in its partnership interest (as reduced by any cash distributed in the transaction) immediately before the distribution.

(f) *Exceptions*—(1) *De minimis rule*—(i) *In general.* This section does not apply to a Corporate Partner if at the time that the partnership acquires Stock of

the Corporate Partner or at the time of a revaluation event as described in §1.704-1(b)(2)(iv)(f) (without regard to whether or not the partnership re-values its assets)—

(A) The Corporate Partner and any persons related to the Corporate Partner under section 267(b) or section 707(b) own in the aggregate less than five percent of the partnership;

(B) The partnership holds Stock of the Corporate Partner with a value of less than two percent of the partnership's gross assets (including the Stock of the Corporate Partner); and

(C) The partnership has never, at any point in time, held in the aggregate—

(1) Stock of the Corporate Partner with a fair market value greater than \$1,000,000; or

(2) More than two percent of any particular class of Stock of the Corporate Partner.

(ii) *De minimis rule ceases to apply.* If a partnership satisfies the conditions of the de minimis rule of paragraph (f)(1) of this section upon an acquisition of Stock of the Corporate Partner or revaluation event as described in §1.704-1(b)(2)(iv)(f), but later fails to satisfy the conditions of the de minimis rule upon a subsequent acquisition or revaluation event, then solely for purposes of paragraph (d) of this section, the Corporate Partner may compute its gain on the subsequent acquisition or revaluation event as if it had already recognized gain at the previous event. Neither the Corporate Partner nor the partnership increases its basis by the gain the Corporate Partner would have recognized if the de minimis rule of paragraph (f)(1) of this section did not apply to the prior acquisition or revaluation event.

(2) *Inadvertence rule.* Unless acquired as part of a plan to circumvent the purpose of this section, this section does not apply to Stock of the Corporate Partner that—

(i) Is disposed of (by sale or distribution) by the partnership before the due date (including extensions) of its federal income tax return for the taxable year during which the Stock of the Corporate Partner is acquired (or for the taxable year in which the Corporate Partner becomes a partner, whichever is applicable); and

(ii) Is not distributed to the Corporate Partner or a corporation that controls the Corporate Partner within the meaning of section 304(c), except that section 318(a)(1) and (3) shall not apply.

(g) *Tiered partnerships.* The rules of this section shall apply to tiered partnerships in a manner that is consistent with the purpose set forth in paragraph (a) of this section.

(h) *Examples.* The following examples illustrate the principles of this section. All amounts in the following examples are reported in millions of dollars:

Example 1. Deemed redemption rule—contribution of Stock of a Corporate Partner. (i) In Year 1, X, a corporation, and A, an individual, form partnership AX as equal partners in all respects. X contributes Asset 1 with a fair market value of \$100 and a basis of \$20. A contributes X stock, which is Stock of the Corporate Partner, with a basis and fair market value of \$100.

(ii) Because A and X are equal partners in AX in all respects, the partnership formation causes X's interest in X stock to increase from \$0 to \$50 and its interest in Asset 1 to decrease from \$100 to \$50. Thus, the partnership formation is a Section 337(d) Transaction because the formation has the effect of an exchange by X of \$50 of Asset 1 for \$50 of X stock.

(iii) X must recognize gain under paragraph (d) of this section with respect to Asset 1 to prevent the circumvention of section 311(b) principles. X's gain equals the product of X's Gain Percentage and the gain from Asset 1 that X would recognize (decreased, but not below zero, by any gain that X recognized with respect to Asset 1 in the Section 337(d) Transaction under any other provision of this chapter) if, immediately before the Section 337(d) Transaction, all assets were sold in a fully taxable transaction for cash in an amount equal to the fair market value of such property. If Asset 1 had been sold in a fully taxable transaction immediately before the formation of partnership AX, X's allocable share of gain would have been \$80. X's Gain Percentage is 50% (equal to a fraction, the numerator of which is X's \$50 interest in Asset 1 effectively exchanged for X stock, and the denominator of which is X's \$100 interest in Asset 1 immediately before the Section 337(d) Transaction). Thus, X recognizes \$40 of gain (\$80 multiplied by 50%) under the deemed redemption rule in paragraph (d) of this section. Under paragraph (d)(4)(i) of this section, X's basis in its AX partnership interest increases from \$20 to \$60. Under paragraph (d)(4)(ii) of this section, AX's basis in Asset 1 increases from \$20 to \$60 because Asset 1 is

the appreciated property treated as the subject of the exchange.

Example 2. Distribution of Stock of the Corporate Partner—pro rata distribution. (i) The facts are the same as in *Example 1(i)*. AX liquidates in Year 9, when Asset 1 and the X stock each have a fair market value of \$200. X and A each receive 50% of Asset 1 and 50% of the X stock in the liquidation. At the time AX liquidates, X's basis in its AX partnership interest is \$60 and A's basis in its AX partnership interest is \$100.

(ii) When AX liquidates, X's interests in its stock and in Asset 1 do not change. Thus, the liquidation is not a Section 337(d) Transaction because it does not have the effect of an exchange by X of appreciated property for Stock of the Corporate Partner.

(iii) Paragraph (e) of this section applies because the distributed X stock was the subject of a previous Section 337(d) Transaction and because section 732(f) does not apply. Under §1.732-1T(c)(1)(iii), the distribution to X of X stock is deemed to immediately precede the distribution of 50% of Asset 1 to X for purposes of determining X's basis in the distributed property. For purposes of determining X's basis in Asset 1 and X's gain on distribution, the basis of the distributed X stock is treated as \$50, the greater of \$50 (50% of the stock's \$100 basis in the hands of the partnership), or \$50, the fair market value of that distributed X stock (\$100) less X's allocable share of gain from the distributed X stock if AX had sold all of its assets in a fully taxable transaction for cash in an amount equal to the fair market value of such property immediately before the distribution (\$50). Thus, X reduces its basis in its partnership interest by \$50 prior to the distribution of Asset 1. Accordingly, X's basis in the distributed portion of Asset 1 is \$10. Because AX's basis in the distributed X stock immediately before the distribution (\$50) does not exceed X's basis in its AX partnership interest immediately before the distribution (\$60), X recognizes no gain under paragraph (e)(3) of this section.

Example 3. Distribution of Stock of the Corporate Partner—non pro rata distribution. (i) The facts are the same as *Example 2(i)*, except that when AX liquidates, X receives 75% of the X stock and 25% of Asset 1 and A receives 25% of the X stock and 75% of Asset 1.

(ii) The liquidation of AX causes X's interest in X stock to increase from \$100 to \$150 and its interest in Asset 1 to decrease from \$100 to \$50. Thus, AX's liquidating distributions of X stock and Asset 1 to X are a Section 337(d) Transaction because the distributions have the effect of an exchange by X of \$50 of Asset 1 for \$50 of X stock.

(iii) X must recognize gain with respect to Asset 1 to prevent the circumvention of section 311(b) principles. Under paragraph (e)(1) of this section, paragraph (d) of this section is applied as if X and A amended the AX

partnership agreement to allocate to X a 100% interest in the distributed portion of the X stock. X must recognize gain equal to the product of X's Gain Percentage and the gain from Asset 1 that X would have recognized (decreased, but not below zero, by any gain X recognized with respect to Asset 1 in the Section 337(d) Transaction under any other provision of this chapter) if, immediately before the Section 337(d) Transaction, AX had sold all of its assets in a fully taxable transaction for cash in an amount equal to the fair market value of such property.

(iv) If Asset 1 had been sold in a fully taxable transaction immediately before the amendment of the AX partnership agreement, X's allocable share of gain would have been \$90, or the sum of X's \$40 remaining gain under section 704(c) and \$50 of the \$100 post-contribution appreciation. X's Gain Percentage is 50% (equal to a fraction, the numerator of which is X's \$50 interest in Asset 1 effectively exchanged for X stock, and the denominator of which is X's \$100 interest in Asset 1 immediately before the Section 337(d) Transaction). Thus, X recognizes \$45 of gain (\$90 multiplied by 50%) under the deemed redemption rule in paragraph (d) of this section. Under paragraph (d)(4)(i) of this section, X's basis in its AX partnership interest increases from \$60 to \$105. Under paragraph (d)(4)(ii) of this section, AX's basis in Asset 1 increases from \$60 to \$105 because Asset 1 is the appreciated property treated as the subject of the exchange.

(v) Paragraph (e) of this section applies because the distributed X stock was the subject of a previous Section 337(d) Transaction and because section 732(f) does not apply. Under §1.732-1T(c)(1)(iii), AX is treated as first distributing the X stock to X before the distribution of 25% of Asset 1. For purposes of determining X's basis in Asset 1 and X's gain on distribution, the basis of the distributed X stock is treated as \$100, the greater of \$75 (75% of the stock's \$100 basis in the hands of the partnership) or \$100, the fair market value of the distributed X stock (\$150) less X's allocable share of gain if the partnership had sold all of the X stock immediately before the distribution for cash in an amount equal to its fair market value (\$50). Thus, X will reduce its basis in its partnership interest by \$100 prior to the distribution of Asset 1. Accordingly, X's basis in the distributed portion of Asset 1 is \$5. Because AX's basis in the distributed X stock immediately before the distribution as computed for purposes of this section (\$100) does not exceed X's basis in its AX partnership interest immediately before the distribution (\$105), X recognizes no additional gain under paragraph (e)(3) of this section.

Example 4. Deemed redemption rule—subsequent purchase of Stock of the Corporate Partner. The facts are the same as *Example 1(i)*,

except that A contributes cash of \$100 instead of X stock. In a later year, when the value of Asset 1 has not changed, AX uses the contributed cash to purchase X stock for \$100. AX's purchase of X stock has the effect of an exchange by X of appreciated property for X stock, and thus, is a Section 337(d) Transaction. X must recognize gain at the time, and to the extent, that X's share of appreciated property (other than X stock) is reduced in exchange for X stock. Thus, the consequences of the partnership's purchase of X stock are the same as those described in *Example 1(ii)* and *(iii)*, resulting in X recognizing \$40 of gain.

Example 5. Change in allocation ratios—amendment of partnership agreement. (i) The facts are the same as *Example 2(i)*, except that in Year 9, AX does not liquidate, and the AX partnership agreement is amended to allocate to X 80% of the income, gain, loss, and deduction from the X stock and to allocate to A 80% of the income, gain, loss, and deduction from Asset 1. If AX had sold the partnership assets immediately before the change to the partnership agreement, X would have been allocated \$90 of gain from Asset 1 and \$50 of gain from the X stock.

(ii) The amendment to the AX partnership agreement causes X's interest in its stock to increase from \$100 (50% of the stock value immediately before the amendment of the agreement) to \$160 (80% of stock value immediately following amendment of agreement) and its interest in Asset 1 to decrease from \$100 to \$40. Thus, the amendment of the partnership agreement is a Section 337(d) Transaction because the amendment has the effect of an exchange by X of \$60 of Asset 1 for \$60 of its stock.

(iii) X must recognize gain equal to the product of X's Gain Percentage and the gain from Asset 1 that X would have recognized (decreased, but not below zero, by any gain X recognized with respect to Asset 1 in the Section 337(d) Transaction under any other provision of this chapter) if, immediately before the Section 337(d) Transaction, AX had sold all of its assets in a fully taxable transaction for cash in an amount equal to the fair market value of such property. If Asset 1 had been sold in a fully taxable transaction immediately before the amendment of the AX partnership agreement, X's allocable share of gain would have been \$90, or the sum of X's \$40 remaining gain under section 704(c) and 50% of the \$100 post-contribution appreciation. X's Gain Percentage is 60% (equal to a fraction, the numerator of which is X's \$60 interest in Asset 1 effectively exchanged for X stock, and the denominator of which is X's \$100 interest in Asset 1 immediately before the Section 337(d) Transaction). Thus, X recognizes \$54 of gain (\$90 multiplied by 60%) under the deemed redemption rule in paragraph (d) of this section. Under paragraph (d)(4)(i) of this section, X's basis in its AX

partnership interest increases from \$60 to \$114. Under paragraph (d)(4)(ii) of this section, AX's basis in Asset 1 increases from \$60 to \$114 because Asset 1 is the appreciated property treated as the subject of the exchange.

Example 6. Change in allocation ratios—admission and exit of a partner. (i) The facts are the same as *Example 1(i)*. In addition, in Year 2, when the values of Asset 1 and the X stock have not changed, B contributes \$100 of cash to AX in exchange for a one-third interest in the partnership. Upon the admission of B as a partner, X's interest in Asset 1 decreases from \$50 to \$33.33, and its interest in B's contributed cash increases. B's admission is not a Section 337(d) Transaction because it does not have the effect of an exchange by X of its interest in Asset 1 for X stock. Accordingly, X does not recognize gain under paragraph (d) of this section.

(ii) In Year 9, when the values of Asset 1 and the X stock have not changed, the partnership distributes \$50 of cash and 50% of Asset 1 (valued at \$50) to B in liquidation of B's interest. X and A are equal partners in all respects after the distribution. Upon the liquidation of B's interest, X's interest in Asset 1 decreases from \$33.33 to \$25, and its interest in X stock increases from \$33.33 to \$50. AX's liquidation of B's interest has the effect of an exchange by X of appreciated property for X stock, and thus, is a Section 337(d) Transaction.

(iii) Pursuant to paragraph (d)(2) of this section, X's interest in X stock and other appreciated property held by the partnership is determined based on all facts and circumstances, including allocation and distribution rights in the partnership agreement. However, paragraph (d)(2) of this section also requires that X's interest in its stock for purposes of paragraph (d) will never be less than the Corporate Partner's largest interest (by value) in those shares of Stock of the Corporate Partner taken into account when the partnership previously determined whether there had been a Section 337(d) Transaction (regardless of whether the Corporate Partner recognized gain in the earlier transaction). Although X's interest in X stock increases to \$50 upon AX's liquidation of B's interest, X's largest interest previously taken into account under paragraph (d)(1) of this section was \$50. Thus, X's interest in its stock is not considered to be increased, and X therefore recognizes no gain under paragraph (d) of this section, provided that the transactions did not occur as part of a plan or arrangement to circumvent the purpose of this section.

Example 7. Change in allocation ratios—plan to circumvent purpose of this section. (i) In Year 1, X, a corporation, and A, an individual, contribute a small amount of capital to newly-formed partnership AX, with X receiving a 99% interest in AX and A receiving

a 1% interest in AX. AX borrows \$100 from a third-party lender and uses the proceeds to purchase X stock, which is Stock of the Corporate Partner. Later, as part of a plan or arrangement to circumvent the purposes of this section, A contributes \$100 of cash, which AX uses to repay the loan, and X contributes Asset 1 with a fair market value of \$100 and basis of \$20. After these contributions, A and X are equal partners in AX in all respects.

(ii) Pursuant to paragraph (d)(2) of this section, X's interest in X stock and other appreciated property held by the partnership is determined based on all facts and circumstances, including allocation and distribution rights in the partnership agreement. Generally pursuant to paragraph (d)(2) of this section, X's interest in X stock for purposes of paragraph (d) will never be less than the Corporate Partner's largest interest (by value) in those shares of Stock of the Corporate Partner taken into account when the partnership previously determined whether there had been a Section 337(d) Transaction (regardless of whether the Corporate Partner recognized gain in the earlier transaction). This limitation does not apply, however, if the reduction in X's interest in X's stock occurred as part of a plan or arrangement to circumvent the purpose of this section. Because the transactions described in this example are part of a plan or arrangement to circumvent the purpose of this section, the limitation in paragraph (d)(2) of this section does not apply. Accordingly, the deemed redemption rule under paragraph (d) of this section applies to the transactions with the consequences described in Example 1(iii) of this section, resulting in X recognizing \$40 of gain.

Example 8. Tiered partnership. (i) In Year 1, X, a corporation, and A, an individual, form partnership UTP. X contributes Asset 1 with a fair market value of \$80 and a basis of \$0 in exchange for an 80% interest in UTP. A contributes \$20 of cash in exchange for a 20% interest in UTP. UTP and B, an individual, form partnership LTP as equal partners. UTP contributes Asset 1 and \$20 of cash. B contributes X stock, which is Stock of the Corporate Partner, with a basis and fair market value of \$100.

(ii) Pursuant to paragraph (g) of this section, the rules of this section shall apply to tiered partnerships in a manner that is consistent with the purpose set forth in paragraph (a) of this section. Pursuant to paragraph (d)(1) of this section, if X is in a partnership that engages in a Section 337(d) Transaction, X must recognize gain at the time, and to the extent, that X's share of appreciated property is reduced in exchange for X stock. The formation of LTP causes X's interest in X stock to increase from \$0 to \$40 and its interest in Asset 1 to decrease from \$64 to \$32. Thus, LTP's formation is a Sec-

tion 337(d) Transaction because the formation has the effect of an exchange by X of \$32 of Asset 1 for \$32 of X stock.

(iii) X must recognize gain with respect to Asset 1 to prevent the circumvention of section 311(b) principles. X must recognize gain equal to the product of X's Gain Percentage and the gain from Asset 1 (decreased, but not below zero, by any gain X recognized with respect to Asset 1 in the Section 337(d) Transaction under any other provision of this chapter) that X would recognize if, immediately before the Section 337(d) Transaction, all assets were sold in a fully taxable transaction for cash in an amount equal to the fair market value of such property. If Asset 1 had been sold in a fully taxable transaction immediately before LTP's formation, X's allocable share of gain would have been \$80 pursuant to section 704(c). X's Gain Percentage is 50% (equal to a fraction, the numerator of which is X's \$32 interest in Asset 1 effectively exchanged for X stock, and the denominator of which is X's \$64 interest in Asset 1 immediately before the Section 337(d) Transaction). Thus, X recognizes \$40 of gain (\$80 multiplied by 50%) under the deemed redemption rule in paragraph (d) of this section. Under paragraphs (d)(4)(i) and (d)(4)(ii) of this section, X's basis in its UTP partnership interest increases from \$0 to \$40, UTP's basis in its LTP partnership interest increases from \$20 to \$60, and LTP's basis in Asset 1 increases from \$0 to \$40 pursuant to paragraph (g) of this section.

(i) *Effective/applicability date.* This section applies to transactions occurring on or after June 12, 2015.

(j) *Expiration date.* This section expires on June 11, 2018.

[T.D. 9722, 80 FR 33408, June 12, 2015; 80 FR 38940, July 8, 2015]

§ 1.337(d)-4 Taxable to tax-exempt.

(a) *Gain or loss recognition*—(1) *General rule.* Except as provided in paragraph (b) of this section, if a taxable corporation transfers all or substantially all of its assets to one or more tax-exempt entities, the taxable corporation must recognize gain or loss immediately before the transfer as if the assets transferred were sold at their fair market values. But see section 267 and paragraph (d) of this section concerning limitations on the recognition of loss.

(2) *Change in corporation's tax status treated as asset transfer.* Except as provided in paragraphs (a)(3) and (b) of this section, a taxable corporation's change in status to a tax-exempt entity will be treated as if it transferred all

of its assets to a tax-exempt entity immediately before the change in status becomes effective in a transaction to which paragraph (a)(1) of this section applies. For example, if a State, a political subdivision thereof, or an entity any portion of whose income is excluded from gross income under section 115, acquires the stock of a taxable corporation and thereafter any of the taxable corporation's income is excluded from gross income under section 115, the taxable corporation will be treated as if it transferred all of its assets to a tax-exempt entity immediately before the stock acquisition.

(3) *Exceptions for certain changes in status*—(i) *To whom available.* Paragraph (a)(2) of this section does not apply to the following corporations—

(A) A corporation previously tax-exempt under section 501(a) which regains its tax-exempt status under section 501(a) within three years from the later of a final adverse adjudication on the corporation's tax exempt status, or the filing by the corporation, or by the Secretary or his delegate under section 6020(b), of a federal income tax return of the type filed by a taxable corporation;

(B) A corporation previously tax-exempt under section 501(a) or that applied for but did not receive recognition of exemption under section 501(a) before January 15, 1997, if such corporation is tax-exempt under section 501(a) within three years from January 28, 1999;

(C) A newly formed corporation that is tax-exempt under section 501(a) (other than an organization described in section 501(c)(7)) within three taxable years from the end of the taxable year in which it was formed;

(D) A newly formed corporation that is tax-exempt under section 501(a) as an organization described in section 501(c)(7) within seven taxable years from the end of the taxable year in which it was formed;

(E) A corporation previously tax-exempt under section 501(a) as an organization described in section 501(c)(12), which, in a given taxable year or years prior to again becoming tax-exempt, is a taxable corporation solely because less than 85 percent of its income consists of amounts collected from mem-

bers for the sole purpose of meeting losses and expenses; if, in a taxable year, such a corporation would be a taxable corporation even if 85 percent or more of its income consists of amounts collected from members for the sole purpose of meeting losses and expenses (a non-85 percent violation), paragraph (a)(3)(i)(A) of this section shall apply as if the corporation became a taxable corporation in its first taxable year that a non-85 percent violation occurred; or

(F) A corporation previously taxable that becomes tax-exempt under section 501(a) as an organization described in section 501(c)(15) if during each taxable year in which it is described in section 501(c)(15) the organization is the subject of a court supervised rehabilitation, conservatorship, liquidation, or similar state proceeding; if such a corporation continues to be described in section 501(c)(15) in a taxable year when it is no longer the subject of a court supervised rehabilitation, conservatorship, liquidation, or similar state proceeding, paragraph (a)(2) of this section shall apply as if the corporation first became tax-exempt for such taxable year.

(ii) *Application for recognition.* An organization is deemed to have or regain tax-exempt status within one of the periods described in paragraph (a)(3)(i)(A), (B), (C), or (D) of this section if it files an application for recognition of exemption with the Commissioner within the applicable period and the application either results in a determination by the Commissioner or a final adjudication that the organization is tax-exempt under section 501(a) during any part of the applicable period. The preceding sentence does not require the filing of an application for recognition of exemption by any organization not otherwise required, such as by §§ 1.501(a)-1, 1.505(c)-1T, and 1.508-1(a), to apply for recognition of exemption.

(iii) *Anti-abuse rule.* This paragraph (a)(3) does not apply to a corporation that, with a principal purpose of avoiding the application of paragraph (a)(1) or (a)(2) of this section, acquires all or substantially all of the assets of another taxable corporation and then

changes its status to that of a tax-exempt entity.

(4) *Related transactions.* This section applies to any series of related transactions having an effect similar to any of the transactions to which this section applies.

(b) *Exceptions.* Paragraph (a) of this section does not apply to—

(1) Any assets transferred to a tax-exempt entity to the extent that the assets are used in an activity the income from which is subject to tax under section 511(a) (referred to hereinafter as a “section 511(a) activity”). However, if assets used to any extent in a section 511(a) activity are disposed of by the tax-exempt entity, then, notwithstanding any other provision of law (except section 1031 or section 1033), any gain (not in excess of the amount not recognized by reason of the preceding sentence) shall be included in the tax-exempt entity’s unrelated business taxable income. To the extent that the tax-exempt entity ceases to use the assets in a section 511(a) activity, the entity will be treated for purposes of this paragraph (b)(1) as having disposed of the assets on the date of the cessation for their fair market value. For purposes of paragraph (a)(1) of this section and this paragraph (b)(1)—

(i) If during the first taxable year following the transfer of an asset or the corporation’s change to tax-exempt status the asset will be used by the tax-exempt entity partly or wholly in a section 511(a) activity, the taxable corporation will recognize an amount of gain or loss that bears the same ratio to the asset’s built-in gain or loss as 100 percent reduced by the percentage of use for such taxable year in the section 511(a) activity bears to 100 percent. For purposes of determining the gain or loss, if any, to be recognized, the taxable corporation may rely on a written representation from the tax-exempt entity estimating the percentage of the asset’s anticipated use in a section 511(a) activity for such taxable year, using a reasonable method of allocation, unless the taxable corporation has reason to believe that the tax-exempt entity’s representation is not made in good faith;

(ii) If for any taxable year the percentage of an asset’s use in a section 511(a) activity decreases from the estimate used in computing gain or loss recognized under paragraph (b)(1)(i) of this section, adjusted for any decreases taken into account under this paragraph (b)(1)(ii) in prior taxable years, the tax-exempt entity shall recognize an amount of gain or loss that bears the same ratio to the asset’s built-in gain or loss as the percentage point decrease in use in the section 511(a) activity for the taxable year bears to 100 percent;

(iii) If property on which all or a portion of the gain or loss is not recognized by reason of the first sentence of paragraph (b)(1) of this section is disposed of in a transaction that qualifies for nonrecognition treatment under section 1031 or section 1033, the tax-exempt entity must treat the replacement property as remaining subject to paragraph (b)(1) of this section to the extent that the exchanged or involuntarily converted property was so subject;

(iv) The tax-exempt entity must use the same reasonable method of allocation for determining the percentage that it uses the assets in a section 511(a) activity as it uses for other tax purposes, such as determining the amount of depreciation deductions. The tax-exempt entity also must use this same reasonable method of allocation for each taxable year that it holds the assets; and

(v) An asset’s built-in gain or loss is the amount that would be recognized under paragraph (a)(1) of this section except for this paragraph (b)(1);

(2) Any transfer of assets to the extent gain or loss otherwise is recognized by the taxable corporation on the transfer. See, for example, sections 336, 337(b)(2), 367, and 1001;

(3) Any transfer of assets to the extent the transaction qualifies for nonrecognition treatment under section 1031 or section 1033; or

(4) Any forfeiture of a taxable corporation’s assets in a criminal or civil action to the United States, the government of a possession of the United States, a state, the District of Columbia, the government of a foreign country, or a political subdivision of any of

the foregoing; or any expropriation of a taxable corporation's assets by the government of a foreign country.

(c) *Definitions.* For purposes of this section:

(1) *Taxable corporation.* A *taxable corporation* is any corporation that is not a tax-exempt entity as defined in paragraph (c)(2) of this section.

(2) *Tax-exempt entity.* A *tax-exempt entity* is—

(i) Any entity that is exempt from tax under section 501(a) or section 529;

(ii) A charitable remainder annuity trust or charitable remainder unitrust as defined in section 664(d);

(iii) The United States, the government of a possession of the United States, a state, the District of Columbia, the government of a foreign country, or a political subdivision of any of the foregoing;

(iv) An Indian Tribal Government as defined in section 7701(a)(40), a subdivision of an Indian Tribal Government determined in accordance with section 7871(d), or an agency or instrumentality of an Indian Tribal Government or subdivision thereof;

(v) An Indian Tribal Corporation organized under section 17 of the Indian Reorganization Act of 1934, 25 U.S.C. 477, or section 3 of the Oklahoma Welfare Act, 25 U.S.C. 503;

(vi) An international organization as defined in section 7701(a)(18);

(vii) An entity any portion of whose income is excluded under section 115; or

(viii) An entity that would not be taxable under the Internal Revenue Code for reasons substantially similar to those applicable to any entity listed in this paragraph (c)(2) unless otherwise explicitly made exempt from the application of this section by statute or by action of the Commissioner.

(3) *Substantially all.* The term *substantially all* has the same meaning as under section 368(a)(1)(C).

(d) *Loss limitation rule.* For purposes of determining the amount of gain or loss recognized by a taxable corporation on the transfer of its assets to a tax-exempt entity under paragraph (a) of this section, if assets are acquired by the taxable corporation in a transaction to which section 351 applied or as a contribution to capital, or assets

are distributed from the taxable corporation to a shareholder or another member of the taxable corporation's affiliated group, and in either case such acquisition or distribution is made as part of a plan a principal purpose of which is to recognize loss by the taxable corporation on the transfer of such assets to the tax-exempt entity, the losses recognized by the taxable corporation on such assets transferred to the tax-exempt entity will be disallowed. For purposes of the preceding sentence, the principles of section 336(d)(2) apply.

(e) *Effective date.* This section is applicable to transfers of assets as described in paragraph (a) of this section occurring after January 28, 1999, unless the transfer is pursuant to a written agreement which is (subject to customary conditions) binding on or before January 28, 1999.

[T.D. 8802, 63 FR 71594, Dec. 29, 1998]

§ 1.337(d)-5 Old transitional rules imposing tax on property owned by a C corporation that becomes property of a RIC or REIT

(a) *Treatment of C corporations—(1) Scope.* This section applies to the net built-in gain of C corporation assets that become assets of a RIC or REIT by—

(i) The qualification of a C corporation as a RIC or REIT; or

(ii) The transfer of assets of a C corporation to a RIC or REIT in a transaction in which the basis of such assets are determined by reference to the C corporation's basis (a carryover basis).

(2) *Net built-in gain.* Net built-in gain is the excess of aggregate gains (including items of income) over aggregate losses.

(3) *General rule.* Unless an election is made pursuant to paragraph (b) of this section, the C corporation will be treated, for all purposes including recognition of net built-in gain, as if it had sold all of its assets at their respective fair market values on the deemed liquidation date described in paragraph (a)(7) of this section and immediately liquidated.

(4) *Loss.* Paragraph (a)(3) of this section shall not apply if its application would result in the recognition of net built-in loss.

(5) *Basis adjustment.* If a corporation is subject to corporate-level tax under paragraph (a)(3) of this section, the bases of the assets in the hands of the RIC or REIT will be adjusted to reflect the recognized net built-in gain. This adjustment is made by taking the C corporation's basis in each asset, and, as appropriate, increasing it by the amount of any built-in gain attributable to that asset, or decreasing it by the amount of any built-in loss attributable to that asset.

(6) *Exception—(i) In general.* Paragraph (a)(3) of this section does not apply to any C corporation that—

(A) Immediately prior to qualifying to be taxed as a RIC was subject to tax as a C corporation for a period not exceeding one taxable year; and

(B) Immediately prior to being subject to the RIC tax provisions for a period of at least one taxable year.

(ii) *Additional requirement.* The exception described in paragraph (a)(6)(i) of this section applies only to assets acquired by the corporation during the year when it was subject to tax as a C corporation in a transaction that does not result in its basis in the asset being determined by reference to a corporate transferor's basis.

(7) *Deemed liquidation date—(i) Conversions.* In the case of a C corporation that qualifies to be taxed as a RIC or REIT, the deemed liquidation date is the last day of its last taxable year before the taxable year in which it qualifies to be taxed as a RIC or REIT.

(ii) *Carryover basis transfers.* In the case of a C corporation that transfers property to a RIC or REIT in a carryover basis transaction, the deemed liquidation date is the day before the date of the transfer.

(b) *Section 1374 treatment—(1) In general.* Paragraph (a) of this section will not apply if the transferee RIC or REIT elects (as described in paragraph (b)(3) of this section) to be subject to the rules of section 1374, and the regulations thereunder. The electing RIC or REIT will be subject to corporate-level taxation on the built-in gain recognized during the 10-year period on assets formerly held by the transferor C corporation. The built-in gains of electing RICs and REITs, and the cor-

porate-level tax imposed on such gains, are subject to rules similar to the rules relating to net income from foreclosure property of REITs. See sections 857(a)(1)(A)(ii), and 857(b)(2)(B), (D), and (E). An election made under this paragraph (b) shall be irrevocable.

(2) *Ten-year recognition period.* In the case of a C corporation that qualifies to be taxed as a RIC or REIT, the 10-year recognition period described in section 1374(d)(7) begins on the first day of the RIC's or REIT's taxable year for which the corporation qualifies to be taxed as a RIC or REIT. In the case of a C corporation that transfers property to a RIC or REIT in a carryover basis transaction, the 10-year recognition period begins on the day the assets are acquired by the RIC or REIT.

(3) *Making the election.* A RIC or REIT validly makes a section 1374 election with the following statement: “[Insert name and employer identification number of electing RIC or REIT] elects under paragraph (b) of this section to be subject to the rules of section 1374 and the regulations thereunder with respect to its assets which formerly were held by a C corporation, [insert name and employer identification number of the C corporation, if different from name and employer identification number of RIC or REIT].” This statement must be signed by an official authorized to sign the income tax return of the RIC or REIT and attached to the RIC's or REIT's Federal income tax return for the first taxable year in which the assets of the C corporation become assets of the RIC or REIT.

(c) *Special rule.* In cases where the first taxable year in which the assets of the C corporation become assets of the RIC or REIT ends after June 10, 1987 but before March 8, 2000, the section 1374 election may be filed with the first Federal income tax return filed by the RIC or REIT after March 8, 2000.

(d) *Effective date.* In the case of carryover basis transactions involving the transfer of property of a C corporation to a RIC or REIT, the regulations apply to transactions occurring on or after June 10, 1987, and before January 2, 2002. In the case of a C corporation that qualifies to be taxed as a RIC or REIT, the regulations apply to such qualifications that are effective for

taxable years beginning on or after June 10, 1987, and before January 2, 2002. However, RICs and REITs that are subject to section 1374 treatment under this section may not rely on paragraph (b)(1) of this section, but must apply paragraphs (c)(1)(i), (c)(2)(i), (c)(2)(ii), and (c)(3) of § 1.337(d)-6, with respect to built-in gains and losses recognized in taxable years beginning on or after January 2, 2002. In lieu of applying this section, taxpayers may rely on § 1.337(d)-6 to determine the tax consequences (for all taxable years) of any conversion transaction. For transactions and qualifications that occur on or after January 2, 2002, see § 1.337(d)-7.

[T.D. 8872, 65 FR 5776, Feb. 7, 2000, as amended by T.D. 8975, 67 FR 12, Jan. 2, 2002. Redesignated and amended by T.D. 9047, 68 FR 12819, Mar. 19, 2003]

§ 1.337(d)-6 New transitional rules imposing tax on property owned by a C corporation that becomes property of a RIC or REIT.

(a) *General rule*—(1) *Property owned by a C corporation that becomes property of a RIC or REIT.* If property owned by a C corporation (as defined in paragraph (a)(2)(i) of this section) becomes the property of a RIC or REIT (the converted property) in a conversion transaction (as defined in paragraph (a)(2)(ii) of this section), then deemed sale treatment will apply as described in paragraph (b) of this section, unless the RIC or REIT elects section 1374 treatment with respect to the conversion transaction as provided in paragraph (c) of this section. See paragraph (d) of this section for exceptions to this paragraph (a).

(2) *Definitions*—(i) *C corporation.* For purposes of this section, the term *C corporation* has the meaning provided in section 1361(a)(2) except that the term does not include a RIC or REIT.

(ii) *Conversion transaction.* For purposes of this section, the term *conversion transaction* means the qualification of a C corporation as a RIC or REIT or the transfer of property owned by a C corporation to a RIC or REIT.

(b) *Deemed sale treatment*—(1) *In general.* If property owned by a C corporation becomes the property of a RIC or REIT in a conversion transaction, then

the C corporation recognizes gain and loss as if it sold the converted property to an unrelated party at fair market value on the deemed sale date (as defined in paragraph (b)(3) of this section). This paragraph (b) does not apply if its application would result in the recognition of a net loss. For this purpose, *net loss* is the excess of aggregate losses over aggregate gains (including items of income), without regard to character.

(2) *Basis adjustment.* If a corporation recognizes a net gain under paragraph (b)(1) of this section, then the converted property has a basis in the hands of the RIC or REIT equal to the fair market value of such property on the deemed sale date.

(3) *Deemed sale date*—(i) *RIC or REIT qualifications.* If the conversion transaction is a qualification of a C corporation as a RIC or REIT, then the deemed sale date is the end of the last day of the C corporation's last taxable year before the first taxable year in which it qualifies to be taxed as a RIC or REIT.

(ii) *Other conversion transactions.* If the conversion transaction is a transfer of property owned by a C corporation to a RIC or REIT, then the deemed sale date is the end of the day before the day of the transfer.

(4) *Example.* The rules of this paragraph (b) are illustrated by the following example:

Example. Deemed sale treatment on merger into RIC. (i) X, a calendar-year taxpayer, has qualified as a RIC since January 1, 1991. On May 31, 1994, Y, a C corporation and calendar-year taxpayer, transfers all of its property to X in a transaction that qualifies as a reorganization under section 368(a)(1)(C). X does not elect section 1374 treatment under paragraph (c) of this section and chooses not to rely on § 1.337(d)-5. As a result of the transfer, Y is subject to deemed sale treatment under this paragraph (b) on its tax return for the short taxable year ending May 31, 1994. On May 31, 1994, Y's only assets are Capital Asset, which has a fair market value of \$100,000 and a basis of \$40,000 as of the end of May 30, 1994, and \$50,000 cash. Y also has an unrestricted net operating loss carryforward of \$12,000 and accumulated earnings and profits of \$50,000. Y has no taxable income for the short taxable year ending May 31, 1994, other than gain recognized under this paragraph (b). In 1997, X sells Capital Asset for \$110,000. Assume the applicable corporate tax rate is 35%.

(ii) Under this paragraph (b), Y is treated as if it sold the converted property (Capital Asset and \$50,000 cash) at fair market value on May 30, 1994, recognizing \$60,000 of gain (\$150,000 amount realized—\$90,000 basis). Y must report the gain on its tax return for the short taxable year ending May 31, 1994. Y may offset this gain with its \$12,000 net operating loss carryforward and will pay tax of \$16,800 (35% of \$48,000).

(iii) Under section 381, X succeeds to Y's accumulated earnings and profits. Y's accumulated earnings and profits of \$50,000 increase by \$60,000 and decrease by \$16,800 as a result of the deemed sale. Thus, the aggregate amount of subchapter C earnings and profits that must be distributed to satisfy section 852(a)(2)(B) is \$93,200 (\$50,000 + \$60,000 - \$16,800). X's basis in Capital Asset is \$100,000. On X's sale of Capital Asset in 1997, X recognizes \$10,000 of gain, which is taken into account in computing X's net capital gain for purposes of section 852(b)(3).

(c) *Election of section 1374 treatment—*
 (1) *In general—*(i) *Property owned by a C corporation that becomes property of a RIC or REIT.* Paragraph (b) of this section does not apply if the RIC or REIT that was formerly a C corporation or that acquired property from a C corporation makes the election described in paragraph (c)(4) of this section. A RIC or REIT that makes such an election will be subject to tax on the net built-in gain in the converted property under the rules of section 1374 and the regulations thereunder, as modified by this paragraph (c), as if the RIC or REIT were an S corporation.

(ii) *Property subject to the rules of section 1374 owned by a RIC, REIT, or S corporation that becomes property of a RIC or REIT.* If property subject to the rules of section 1374 owned by a RIC, a REIT, or an S corporation (the predecessor) becomes the property of a RIC or REIT (the successor) in a continuation transaction, the rules of section 1374 apply to the successor to the same extent that the predecessor was subject to the rules of section 1374 with respect to such property, and the 10-year recognition period of the successor with respect to such property is reduced by the portion of the 10-year recognition period of the predecessor that expired before the date of the continuation transaction. For this purpose, a continuation transaction means the qualification of the predecessor as a RIC or REIT or the transfer of property from

the predecessor to the successor in a transaction in which the successor's basis in the transferred property is determined, in whole or in part, by reference to the predecessor's basis in that property.

(2) *Modification of section 1374 treatment—*(i) *Net recognized built-in gain for REITs—*(A) *Prelimitation amount.* The prelimitation amount determined as provided in § 1.1374-2(a)(1) is reduced by the portion of such amount, if any, that is subject to tax under section 857(b)(4), (5), (6), or (7). For this purpose, the amount of a REIT's recognized built-in gain that is subject to tax under section 857(b)(5) is computed as follows:

(1) Where the tax under section 857(b)(5) is computed by reference to section 857(b)(5)(A), the amount of a REIT's recognized built-in gain that is subject to tax under section 857(b)(5) is the tax imposed by section 857(b)(5) multiplied by a fraction the numerator of which is the amount of recognized built-in gain (without regard to recognized built-in loss and recognized built-in gain from prohibited transactions) that is not derived from sources referred to in section 856(c)(2) and the denominator of which is the gross income (without regard to gross income from prohibited transactions) of the REIT that is not derived from sources referred to in section 856(c)(2).

(2) Where the tax under section 857(b)(5) is computed by reference to section 857(b)(5)(B), the amount of a REIT's recognized built-in gain that is subject to tax under section 857(b)(5) is the tax imposed by section 857(b)(5) multiplied by a fraction the numerator of which is the amount of recognized built-in gain (without regard to recognized built-in loss and recognized built-in gain from prohibited transactions) that is not derived from sources referred to in section 856(c)(3) and the denominator of which is the gross income (without regard to gross income from prohibited transactions) of the REIT that is not derived from sources referred to in section 856(c)(3).

(B) *Taxable income limitation.* The taxable income limitation determined as provided in § 1.1374-2(a)(2) is reduced by an amount equal to the tax imposed under sections 857(b)(5), (6), and (7).

(ii) *Loss carryforwards, credits and credit carryforwards—(A) Loss carryforwards.* Consistent with paragraph (c)(1)(i) of this section, net operating loss carryforwards and capital loss carryforwards arising in taxable years for which the corporation that generated the loss was not subject to subchapter M of chapter 1 of the Internal Revenue Code are allowed as a deduction against net recognized built-in gain to the extent allowed under section 1374 and the regulations thereunder. Such loss carryforwards must be used as a deduction against net recognized built-in gain for a taxable year to the greatest extent possible before such losses can be used to reduce other investment company taxable income for purposes of section 852(b) or other real estate investment trust taxable income for purposes of section 857(b) for that taxable year.

(B) *Credits and credit carryforwards.* Consistent with paragraph (c)(1)(i) of this section, minimum tax credits and business credit carryforwards arising in taxable years for which the corporation that generated the credit was not subject to subchapter M of chapter 1 of the Internal Revenue Code are allowed to reduce the tax imposed on net recognized built-in gain under this paragraph (c) to the extent allowed under section 1374 and the regulations thereunder. Such credits and credit carryforwards must be used to reduce the tax imposed under this paragraph (c) on net recognized built-in gain for a taxable year to the greatest extent possible before such credits and credit carryforwards can be used to reduce the tax, if any, on other investment company taxable income for purposes of section 852(b) or on other real estate investment trust taxable income for purposes of section 857(b) for that taxable year.

(iii) *10-year recognition period.* In the case of a conversion transaction that is a qualification of a C corporation as a RIC or REIT, the 10-year recognition period described in section 1374(d)(7) begins on the first day of the RIC's or REIT's first taxable year. In the case of other conversion transactions, the 10-year recognition period begins on the day the property is acquired by the RIC or REIT.

(3) *Coordination with subchapter M rules—(i) Recognized built-in gains and losses subject to subchapter M.* Recognized built-in gains and losses of a RIC or REIT are included in computing investment company taxable income for purposes of section 852(b)(2), real estate investment trust taxable income for purposes of section 857(b)(2), capital gains for purposes of sections 852(b)(3) and 857(b)(3), gross income derived from sources within any foreign country or possession of the United States for purposes of section 853, and the dividends paid deduction for purposes of sections 852(b)(2)(D), 852(b)(3)(A), 857(b)(2)(B), and 857(b)(3)(A). In computing such income and deduction items, capital loss carryforwards and net operating loss carryforwards that are used by the RIC or REIT to reduce recognized built-in gains are allowed as a deduction, but only to the extent that they are otherwise allowable as a deduction against such income under the Internal Revenue Code (including section 852(b)(2)(B)).

(ii) *Treatment of tax imposed.* The amount of tax imposed under this paragraph (c) on net recognized built-in gain for a taxable year is treated as a loss sustained by the RIC or the REIT during such taxable year. The character of the loss is determined by allocating the tax proportionately (based on recognized built-in gain) among the items of recognized built-in gain included in net recognized built-in gain. With respect to RICs, the tax imposed under this paragraph (c) on net recognized built-in gain is treated as attributable to the portion of the RIC's taxable year occurring after October 31.

(4) *Making the section 1374 election—(i) In general.* A RIC or REIT makes a section 1374 election with the following statement: “[Insert name and employer identification number of electing RIC or REIT] elects under § 1.337-6(c) to be subject to the rules of section 1374 and the regulations thereunder with respect to its property that formerly was held by a C corporation, [insert name and employer identification number of the C corporation, if different from name and employer identification number of the RIC or REIT].” However, a RIC or REIT need not file an election under this paragraph (c), but will be

deemed to have made such an election if it can demonstrate that it informed the Internal Revenue Service prior to January 2, 2002 of its intent to make a section 1374 election. An election under this paragraph (c) is irrevocable.

(ii) *Time for making the election.* An election under this paragraph (c) may be filed by the RIC or REIT with any Federal income tax return filed by the RIC or REIT on or before September 15, 2003, provided that the RIC or REIT has reported consistently with such election for all periods.

(5) *Example.* The rules of this paragraph (c) are illustrated by the following example:

Example. Section 1374 treatment on REIT election. (i) X, a C corporation that is a calendar-year taxpayer, elects to be taxed as a REIT on its 1994 tax return, which it files on March 15, 1995. As a result, X is a REIT for its 1994 taxable year and would be subject to deemed sale treatment under paragraph (b) of this section but for X's timely election of section 1374 treatment under this paragraph (c). X chooses not to rely on § 1.337(d)-5. As of the beginning of the 1994 taxable year, X's property consisted of Real Property, which is not section 1221(a)(1) property and which had a fair market value of \$100,000 and an adjusted basis of \$80,000, and \$25,000 cash. X also had accumulated earnings and profits of \$25,000, unrestricted capital loss carryforwards of \$3,000, and unrestricted business credit carryforwards of \$2,000. On July 1, 1997, X sells Real Property for \$110,000. For its 1997 taxable year, X has no other income or deduction items. Assume the highest corporate tax rate is 35%.

(ii) Upon its election to be taxed as a REIT, X retains its \$80,000 basis in Real Property and its \$25,000 accumulated earnings and profits. X retains its \$3,000 of capital loss carryforwards and its \$2,000 of business credit carryforwards. To satisfy section 857(a)(2)(B), X must distribute \$25,000, an amount equal to its earnings and profits accumulated in non-REIT years, to its shareholders by the end of its 1994 taxable year.

(iii) Upon X's sale of Real Property in 1997, X recognizes gain of \$30,000 (\$110,000—\$80,000). X's recognized built-in gain for purposes of applying section 1374 is \$20,000 (\$100,000 fair market value as of the beginning of X's first taxable year as a REIT—\$80,000 basis). Because X's \$30,000 of net income for the 1997 taxable year exceeds the net recognized built-in gain of \$20,000, the taxable income limitation does not apply. X, therefore, has \$20,000 net recognized built-in gain for the year. Assuming that X has not used its \$3,000 of capital loss carryforwards in a prior taxable year and that their use is allowed under

section 1374(b)(2) and § 1.1374-5, X is allowed a \$3,000 deduction against the \$20,000 net recognized built-in gain. X would owe tax of \$5,950 (35% of \$17,000) on its net recognized built-in gain, except that X may use its \$2,000 of business credit carryforwards to reduce this tax, assuming that X has not used the credit carryforwards in a prior taxable year and that their use is allowed under section 1374(b)(3) and § 1.1374-6. Thus, X owes tax of \$3,950 under this paragraph (c).

(iv) For purposes of subchapter M of chapter 1 of the Internal Revenue Code, X's earnings and profits for the year increase by \$26,050 (\$30,000 capital gain on the sale of Real Property—\$3,950 tax under this paragraph (c)). For purposes of section 857(b)(2) and (b)(3), X's net capital gain for the year is \$23,050 (\$30,000 capital gain reduced by \$3,000 capital loss carryforward and further reduced by \$3,950 tax).

(d) *Exceptions*—(1) *Gain otherwise recognized.* Paragraph (a) of this section does not apply to any conversion transaction to the extent that gain or loss otherwise is recognized on such conversion transaction. See, for example, sections 336, 351(b), 351(e), 356, 357(c), 367, 368(a)(2)(F), and 1001.

(2) *Re-election of RIC or REIT status*—(i) *Generally.* Except as provided in paragraphs (d)(2)(ii) and (iii) of this section, paragraph (a)(1) of this section does not apply to any corporation that—

(A) Immediately prior to qualifying to be taxed as a RIC or REIT was subject to tax as a C corporation for a period not exceeding two taxable years; and

(B) Immediately prior to being subject to tax as a C corporation was subject to tax as a RIC or REIT for a period of at least one taxable year.

(ii) *Property acquired from another corporation while a C corporation.* The exception described in paragraph (d)(2)(i) of this section does not apply to property acquired by the corporation while it was subject to tax as a C corporation from any person in a transaction that results in the acquirer's basis in the property being determined by reference to a C corporation's basis in the property.

(iii) *RICs and REITs previously subject to section 1374 treatment.* If the RIC or REIT had property subject to paragraph (c) of this section before the RIC or REIT became subject to tax as a C corporation as described in paragraph

(d)(2)(i) of this section, then paragraph (c) of this section applies to the RIC or REIT upon its requalification as a RIC or REIT, except that the 10-year recognition period with respect to such property is reduced by the portion of the 10-year recognition period that expired before the RIC or REIT became subject to tax as a C corporation and by the period of time that the corporation was subject to tax as a C corporation.

(e) *Effective date.* This section applies to conversion transactions that occur on or after June 10, 1987, and before January 2, 2002. In lieu of applying this section, taxpayers generally may apply §1.337(d)-5 to determine the tax consequences (for all taxable years) of any conversion transaction that occurs on or after June 10, 1987 and before January 2, 2002, except that RICs and REITs that are subject to section 1374 treatment with respect to a conversion transaction may not rely on §1.337(d)-5(b)(1), but must apply paragraphs (c)(1)(i), (c)(2)(i), (c)(2)(ii), and (c)(3) of this section, with respect to built-in gains and losses recognized in taxable years beginning on or after January 2, 2002. Taxpayers are not prevented from relying on §1.337(d)-5 merely because they elect section 1374 treatment in the manner described in paragraph (c)(4) of this section instead of in the manner described in §1.337(d)-5(b)(3) and (c). For conversion transactions that occur on or after January 2, 2002, see §1.337(d)-7.

[T.D. 9047, 68 FR 12820, Mar. 18, 2003]

§ 1.337(d)-7 Tax on property owned by a C corporation that becomes property of a RIC or REIT.

(a) *General rule—(1) Property owned by a C corporation that becomes property of a RIC or REIT.* If property owned by a C corporation (as defined in paragraph (a)(2)(i) of this section) becomes the property of a RIC or REIT (the converted property) in a conversion transaction (as defined in paragraph (a)(2)(ii) of this section), then section 1374 treatment will apply as described in paragraph (b) of this section, unless the C corporation elects deemed sale treatment with respect to the conversion transaction as provided in paragraph (c) of this section. See paragraph

(d) of this section for exceptions to this paragraph (a).

(2) *Definitions.* For purposes of this section:

(i) *C corporation.* The term *C corporation* has the meaning provided in section 1361(a)(2) except that the term does not include a RIC or a REIT.

(ii) *Conversion transaction.* The term *conversion transaction* means the qualification of a C corporation as a RIC or REIT or the transfer of property owned by a C corporation to a RIC or REIT.

(iii) *RIC.* The term *RIC* means a regulated investment company within the meaning of section 851(a).

(iv) *REIT.* The term *REIT* means a real estate investment trust within the meaning of section 856(a).

(v) *S corporation.* The term *S corporation* has the meaning provided in section 1361(a)(1).

(b) *Section 1374 treatment—(1) In general—(i) Property owned by a C corporation that becomes property of a RIC or REIT.* If property owned by a C corporation becomes the property of a RIC or REIT in a conversion transaction, then the RIC or REIT will be subject to tax on the net built-in gain in the converted property under the rules of section 1374 and the regulations thereunder, as modified by this paragraph (b), as if the RIC or REIT were an S corporation.

(ii) *Property subject to the rules of section 1374 owned by a RIC, REIT, or S corporation that becomes property of a RIC or REIT.* If property subject to the rules of section 1374 owned by a RIC, a REIT, or an S corporation (the predecessor) becomes the property of a RIC or REIT (the successor) in a continuation transaction, the rules of section 1374 apply to the successor to the same extent that the predecessor was subject to the rules of section 1374 with respect to such property, and the 10-year recognition period of the successor with respect to such property is reduced by the portion of the 10-year recognition period of the predecessor that expired before the date of the continuation transaction. For this purpose, a continuation transaction means the qualification of the predecessor as a RIC or REIT or the transfer of property from the predecessor to the successor in a transaction in which the successor's

basis in the transferred property is determined, in whole or in part, by reference to the predecessor's basis in that property.

(2) *Modification of section 1374 treatment—(i) Net recognized built-in gain for REITs—(A) Prelimitation amount.* The prelimitation amount determined as provided in § 1.1374-2(a)(1) is reduced by the portion of such amount, if any, that is subject to tax under section 857(b)(4), (5), (6), or (7). For this purpose, the amount of a REIT's recognized built-in gain that is subject to tax under section 857(b)(5) is computed as follows:

(1) Where the tax under section 857(b)(5) is computed by reference to section 857(b)(5)(A), the amount of a REIT's recognized built-in gain that is subject to tax under section 857(b)(5) is the tax imposed by section 857(b)(5) multiplied by a fraction the numerator of which is the amount of recognized built-in gain (without regard to recognized built-in loss and recognized built-in gain from prohibited transactions) that is not derived from sources referred to in section 856(c)(2) and the denominator of which is the gross income (without regard to gross income from prohibited transactions) of the REIT that is not derived from sources referred to in section 856(c)(2).

(2) Where the tax under section 857(b)(5) is computed by reference to section 857(b)(5)(B), the amount of a REIT's recognized built-in gain that is subject to tax under section 857(b)(5) is the tax imposed by section 857(b)(5) multiplied by a fraction the numerator of which is the amount of recognized built-in gain (without regard to recognized built-in loss and recognized built-in gain from prohibited transactions) that is not derived from sources referred to in section 856(c)(3) and the denominator of which is the gross income (without regard to gross income from prohibited transactions) of the REIT that is not derived from sources referred to in section 856(c)(3).

(B) *Taxable income limitation.* The taxable income limitation determined as provided in § 1.1374-2(a)(2) is reduced by an amount equal to the tax imposed under section 857(b)(5), (6), and (7).

(ii) *Loss carryforwards, credits and credit carryforwards—(A) Loss*

carryforwards. Consistent with paragraph (b)(1)(i) of this section, net operating loss carryforwards and capital loss carryforwards arising in taxable years for which the corporation that generated the loss was not subject to subchapter M of chapter 1 of the Internal Revenue Code are allowed as a deduction against net recognized built-in gain to the extent allowed under section 1374 and the regulations thereunder. Such loss carryforwards must be used as a deduction against net recognized built-in gain for a taxable year to the greatest extent possible before such losses can be used to reduce other investment company taxable income for purposes of section 852(b) or other real estate investment trust taxable income for purposes of section 857(b) for that taxable year.

(B) *Credits and credit carryforwards.* Consistent with paragraph (b)(1)(i) of this section, minimum tax credits and business credit carryforwards arising in taxable years for which the corporation that generated the credit was not subject to subchapter M of chapter 1 of the Internal Revenue Code are allowed to reduce the tax imposed on net recognized built-in gain under this paragraph (b) to the extent allowed under section 1374 and the regulations thereunder. Such credits and credit carryforwards must be used to reduce the tax imposed under this paragraph (b) on net recognized built-in gain for a taxable year to the greatest extent possible before such credits and credit carryforwards can be used to reduce the tax, if any, on other investment company taxable income for purposes of section 852(b) or on other real estate investment trust taxable income for purposes of section 857(b) for that taxable year.

(iii) *10-year recognition period.* In the case of a conversion transaction that is a qualification of a C corporation as a RIC or REIT, the 10-year recognition period described in section 1374(d)(7) begins on the first day of the RIC's or REIT's first taxable year. In the case of other conversion transactions, the 10-year recognition period begins on the day the property is acquired by the RIC or REIT.

(3) *Coordination with subchapter M rules—(i) Recognized built-in gains and*

losses subject to subchapter M. Recognized built-in gains and losses of a RIC or REIT are included in computing investment company taxable income for purposes of section 852(b)(2), real estate investment trust taxable income for purposes of section 857(b)(2), capital gains for purposes of sections 852(b)(3) and 857(b)(3), gross income derived from sources within any foreign country or possession of the United States for purposes of section 853, and the dividends paid deduction for purposes of sections 852(b)(2)(D), 852(b)(3)(A), 857(b)(2)(B), and 857(b)(3)(A). In computing such income and deduction items, capital loss carryforwards and net operating loss carryforwards that are used by the RIC or REIT to reduce recognized built-in gains are allowed as a deduction, but only to the extent that they are otherwise allowable as a deduction against such income under the Internal Revenue Code (including section 852(b)(2)(B)).

(ii) *Treatment of tax imposed.* The amount of tax imposed under this paragraph (b) on net recognized built-in gain for a taxable year is treated as a loss sustained by the RIC or the REIT during such taxable year. The character of the loss is determined by allocating the tax proportionately (based on recognized built-in gain) among the items of recognized built-in gain included in net recognized built-in gain. With respect to RICs, the tax imposed under this paragraph (b) on net recognized built-in gain is treated as attributable to the portion of the RIC's taxable year occurring after October 31.

(4) *Example.* The rules of this paragraph (b) are illustrated by the following example:

Example. Section 1374 treatment on REIT election. (i) X, a C corporation that is a calendar-year taxpayer, elects to be taxed as a REIT on its 2004 tax return, which it files on March 15, 2005. As a result, X is a REIT for its 2004 taxable year and is subject to section 1374 treatment under this paragraph (b). X does not elect deemed sale treatment under paragraph (c) of this section. As of the beginning of the 2004 taxable year, X's property consisted of Real Property, which is not section 1221(a)(1) property and which had a fair market value of \$100,000 and an adjusted basis of \$80,000, and \$25,000 cash. X also had accumulated earnings and profits of \$25,000, unrestricted capital loss carryforwards of \$3,000, and unrestricted business credit

carryforwards of \$2,000. On July 1, 2007, X sells Real Property for \$110,000. For its 2007 taxable year, X has no other income or deduction items. Assume the highest corporate tax rate is 35%.

(ii) Upon its election to be taxed as a REIT, X retains its \$80,000 basis in Real Property and its \$25,000 accumulated earnings and profits. X retains its \$3,000 of capital loss carryforwards and its \$2,000 of business credit carryforwards. To satisfy section 857(a)(2)(B), X must distribute \$25,000, an amount equal to its earnings and profits accumulated in non-REIT years, to its shareholders by the end of its 2004 taxable year.

(iii) Upon X's sale of Real Property in 2007, X recognizes gain of \$30,000 (\$110,000—\$80,000). X's recognized built-in gain for purposes of applying section 1374 is \$20,000 (\$100,000 fair market value as of the beginning of X's first taxable year as a REIT—\$80,000 basis). Because X's \$30,000 of net income for the 2007 taxable year exceeds the net recognized built-in gain of \$20,000, the taxable income limitation does not apply. X, therefore, has \$20,000 net recognized built-in gain for the year. Assuming that X has not used its \$3,000 of capital loss carryforwards in a prior taxable year and that their use is allowed under section 1374(b)(2) and § 1.1374-5, X is allowed a \$3,000 deduction against the \$20,000 net recognized built-in gain. X would owe tax of \$5,950 (35% of \$17,000) on its net recognized built-in gain, except that X may use its \$2,000 of business credit carryforwards to reduce the tax, assuming that X has not used the credit carryforwards in a prior taxable year and that their use is allowed under section 1374(b)(3) and § 1.1374-6. Thus, X owes tax of \$3,950 under this paragraph (b).

(iv) For purposes of subchapter M of chapter 1 of the Internal Revenue Code, X's earnings and profits for the year increase by \$26,050 (\$30,000 capital gain on the sale of Real Property—\$3,950 tax under this paragraph (b)). For purposes of section 857(b)(2) and (b)(3), X's net capital gain for the year is \$23,050 (\$30,000 capital gain reduced by \$3,000 capital loss carryforward and further reduced by \$3,950 tax).

(c) *Election of deemed sale treatment—*
(1) *In general.* Paragraph (b) of this section does not apply if the C corporation that qualifies as a RIC or REIT or transfers property to a RIC or REIT makes the election described in paragraph (c)(5) of this section. A C corporation that makes such an election recognizes gain and loss as if it sold the converted property to an unrelated party at fair market value on the deemed sale date (as defined in paragraph (c)(3) of this section). See paragraph (c)(4) of this section concerning

limitations on the use of loss in computing gain. This paragraph (c) does not apply if its application would result in the recognition of a net loss. For this purpose, *net loss* is the excess of aggregate losses over aggregate gains (including items of income), without regard to character.

(2) *Basis adjustment.* If a corporation recognizes a net gain under paragraph (c)(1) of this section, then the converted property has a basis in the hands of the RIC or REIT equal to the fair market value of such property on the deemed sale date.

(3) *Deemed sale date—(i) RIC or REIT qualifications.* If the conversion transaction is a qualification of a C corporation as a RIC or REIT, then the deemed sale date is the end of the last day of the C corporation's last taxable year before the first taxable year in which it qualifies to be taxed as a RIC or REIT.

(ii) *Other conversion transactions.* If the conversion transaction is a transfer of property owned by a C corporation to a RIC or REIT, then the deemed sale date is the end of the day before the day of the transfer.

(4) *Anti-stuffing rule.* A C corporation must disregard converted property in computing gain or loss recognized on the conversion transaction under this paragraph (c), if—

(i) The converted property was acquired by the C corporation in a transaction to which section 351 applied or as a contribution to capital;

(ii) Such converted property had an adjusted basis immediately after its acquisition by the C corporation in excess of its fair market value on the date of acquisition; and

(iii) The acquisition of such converted property by the C corporation was part of a plan a principal purpose of which was to reduce gain recognized by the C corporation in connection with the conversion transaction. For purposes of this paragraph (c)(4), the principles of section 336(d)(2) apply.

(5) *Making the deemed sale election.* A C corporation (or a partnership to which the principles of this section apply under paragraph (e) of this section) makes the deemed sale election with the following statement: “[Insert name and employer identification number of electing corporation or part-

nership] elects deemed sale treatment under § 1.337(d)-7(c) with respect to property that was converted to property of, or transferred to, a RIC or REIT, [insert name and employer identification number of the RIC or REIT, if different from the name and employer identification number of the C corporation or partnership].” This statement must be attached to the Federal income tax return of the C corporation or partnership for the taxable year in which the deemed sale occurs. An election under this paragraph (c) is irrevocable.

(6) *Examples.* The rules of this paragraph (c) are illustrated by the following examples:

Example 1. Deemed sale treatment on merger into RIC. (i) X, a calendar-year taxpayer, has qualified as a RIC since January 1, 2001. On May 31, 2004, Y, a C corporation and calendar-year taxpayer, transfers all of its property to X in a transaction that qualifies as a reorganization under section 368(a)(1)(C). As a result of the transfer, Y would be subject to section 1374 treatment under paragraph (b) of this section but for its timely election of deemed sale treatment under this paragraph (c). As a result of such election, Y is subject to deemed sale treatment on its tax return for the short taxable year ending May 31, 2004. On May 31, 2004, Y's only assets are Capital Asset, which has a fair market value of \$100,000 and a basis of \$40,000 as of the end of May 30, 2004, and \$50,000 cash. Y also has an unrestricted net operating loss carryforward of \$12,000 and accumulated earnings and profits of \$50,000. Y has no taxable income for the short taxable year ending May 31, 2004, other than gain recognized under this paragraph (c). In 2007, X sells Capital Asset for \$110,000. Assume the applicable corporate tax rate is 35%.

(ii) Under this paragraph (c), Y is treated as if it sold the converted property (Capital Asset and \$50,000 cash) at fair market value on May 30, 2004, recognizing \$60,000 of gain (\$150,000 amount realized—\$90,000 basis). Y must report the gain on its tax return for the short taxable year ending May 31, 2004. Y may offset this gain with its \$12,000 net operating loss carryforward and will pay tax of \$16,800 (35% of \$48,000).

(iii) Under section 381, X succeeds to Y's accumulated earnings and profits. Y's accumulated earnings and profits of \$50,000 increase by \$60,000 and decrease by \$16,800 as a result of the deemed sale. Thus, the aggregate amount of subchapter C earnings and profits that must be distributed to satisfy section 852(a)(2)(B) is \$93,200 (\$50,000 + \$60,000—\$16,800). X's basis in Capital Asset is \$100,000. On X's sale of Capital Asset in 2007,

X recognizes \$10,000 of gain which is taken into account in computing X's net capital gain for purposes of section 852(b)(3).

Example 2. Loss limitation. (i) Assume the facts are the same as those described in *Example 1*, but that, prior to the reorganization, a shareholder of Y contributed to Y a capital asset, Capital Asset 2, which has a fair market value of \$10,000 and a basis of \$20,000, in a section 351 transaction.

(ii) Assuming that Y's acquisition of Capital Asset 2 was made pursuant to a plan a principal purpose of which was to reduce the amount of gain that Y would recognize in connection with the conversion transaction, Capital Asset 2 would be disregarded in computing the amount of Y's net gain on the conversion transaction.

(d) *Exceptions*—(1) *Gain otherwise recognized.* Paragraph (a)(1) of this section does not apply to any conversion transaction to the extent that gain or loss otherwise is recognized on such conversion transaction by the C corporation that either qualifies as a RIC or a REIT or that transfers property to a RIC or REIT. See, for example, sections 311(b), 336(a), 351(b), 351(e), 356, 357(c), 367, 368(a)(2)(F), 1001, 1031(b), and 1033(a)(2).

(2) *Re-election of RIC or REIT status*—(i) *Generally.* Except as provided in paragraphs (d)(2)(ii) and (iii) of this section, paragraph (a)(1) of this section does not apply to any corporation that—

(A) Immediately prior to qualifying to be taxed as a RIC or REIT was subject to tax as a C corporation for a period not exceeding two taxable years; and

(B) Immediately prior to being subject to tax as a C corporation was subject to tax as a RIC or REIT for a period of at least one taxable year.

(ii) *Property acquired from another corporation while a C corporation.* The exception described in paragraph (d)(2)(i) of this section does not apply to property acquired by the corporation while it was subject to tax as a C corporation from any person in a transaction that results in the acquirer's basis in the property being determined by reference to a C corporation's basis in the property.

(iii) *RICs and REITs previously subject to section 1374 treatment.* If the RIC or REIT had property subject to paragraph (b) of this section before the RIC or REIT became subject to tax as a C corporation as described in paragraph

(d)(2)(i) of this section, then paragraph (b) of this section applies to the RIC or REIT upon its requalification as a RIC or REIT, except that the 10-year recognition period with respect to such property is reduced by the portion of the 10-year recognition period that expired before the RIC or REIT became subject to tax as a C corporation and by the period of time that the corporation was subject to tax as a C corporation.

(3) *Special rules for like-kind exchanges and involuntary conversions*—(i) *In general.* Paragraph (a)(1) of this section does not apply to a conversion transaction to the extent that a C corporation transfers property with a built-in gain to a RIC or REIT, and the C corporation's gain is not recognized by reason of either section 1031 or 1033.

(ii) *Clarification regarding exchanged property previously subject to section 1374 treatment.* Notwithstanding paragraph (d)(3)(i) of this section, if, in a transaction described in paragraph (d)(3)(i) of this section, a RIC or REIT surrenders property that was subject to section 1374 treatment immediately prior to the transaction, the rules of section 1374(d)(6) will apply to continue section 1374 treatment to the replacement property acquired by the RIC or REIT in the transaction.

(iii) *Examples.* The rules of this paragraph (d)(3) are illustrated by the following examples. In each of the examples, X is a REIT, Y is a C corporation, and X and Y are not related.

Example 1. Section 1031(a) exchange. (i) *Facts.* X owned a building that it leased for commercial use (Property A). Y owned a building leased for commercial use (Property B). On January 1, Year 3, Y transferred Property B to X in exchange for Property A in a nonrecognition transaction under section 1031(a). Immediately before the exchange, Properties A and B each had a value of \$100, X had an adjusted basis of \$60 in Property A, Y had an adjusted basis of \$70 in Property B, and X was not subject to section 1374 treatment with respect to Property A.

(ii) *Analysis.* The transfer of property (Property B) by Y (a C corporation) to X (a REIT) is a conversion transaction within the meaning of paragraph (a)(2)(ii) of this section. The conversion transaction is a nonrecognition transaction under section 1031(a) as to Y; thus, Y does not recognize any of its \$30 gain. Therefore, the conversion transaction is not subject to paragraph (a)(1) of

this section by reason of paragraph (d)(3)(i) of this section.

Example 2. Section 1031(a) exchange of section 1374 property. (i) *Facts.* The facts are the same as in *Example 1*, except that X had acquired Property A in a conversion transaction in Year 2, and immediately before the Year 3 exchange X was subject to section 1374 treatment with respect to \$25 of net built-in gain in Property A.

(ii) *Analysis.* The Year 3 transfer of Property B by Y to X is a conversion transaction within the meaning of paragraph (a)(2)(ii) of this section. The conversion transaction is a nonrecognition transaction under section 1031(a) as to Y; thus, Y does not recognize any of its \$30 gain. Therefore, the Year 3 transfer is not subject to paragraph (a)(1) of this section by reason of paragraph (d)(3)(i) of this section. However, X had been subject to section 1374 treatment with respect to \$25 of net built-in gain in Property A immediately before the Year 3 transfer, and X's basis in Property B is determined (in whole or in part) by reference to its adjusted basis in Property A. Accordingly, the rules of section 1374(d)(6) apply and X is subject to section 1374 treatment on Property B with respect to the \$25 net built-in gain. See paragraph (d)(3)(ii) of this section.

Example 3. Section 1031(b) exchange. (i) *Facts.* The facts are the same as in *Example 1*, except that immediately before the Year 3 exchange Property A had a value of \$92, and X transferred Property A and \$8 to Y in exchange for Property B in a nonrecognition transaction under section 1031(b).

(ii) *Analysis.* The transfer of Property B by Y to X is a conversion transaction within the meaning of paragraph (a)(2)(ii) of this section. Pursuant to section 1031(b), Y recognizes \$8 of its gain. Paragraph (a)(1) of this section does not apply to the transaction to the extent of the \$8 gain recognized by Y by reason of paragraph (d)(1) of this section, or to the extent of the \$22 gain realized but not recognized by Y by reason of paragraph (d)(3)(i) of this section.

Example 4. Section 1033(a) involuntary conversion of property held by a C corporation transferor. (i) *Facts.* Y owned uninsured, improved property (Property 1) that was involuntarily converted (within the meaning of section 1033(a)) in a fire. Y sold Property 1 for \$100 to X, which owned an adjacent property and wanted Property 1 for use as a parking lot. Y had a \$70 basis in Property 1 immediately before the sale. Y elected to defer gain recognition under section 1033(a)(2), and purchased qualifying replacement property (Property 2) for \$100 from an unrelated party prior to the expiration of the period described in section 1033(a)(2)(B).

(ii) *Analysis.* The transfer of Property 1 by Y to X is a conversion transaction within the meaning of paragraph (a)(2)(ii) of this section. The conversion transaction (combined

with Y's purchase of Property 2) is a nonrecognition transaction under section 1033(a) as to Y; thus, Y does not recognize any of its \$30 gain. Therefore, the conversion transaction is not subject to paragraph (a)(1) of this section by reason of paragraph (d)(3)(i) of this section.

Example 5. Section 1033(a) involuntary conversion of property held by a REIT. (i) *Facts.* X owned property (Property 1). On January 1, Year 2, Property 1 had a fair market value of \$100 and a basis of \$70, and X was not subject to section 1374 treatment with respect to Property 1. On that date, when Property 1 was under a threat of condemnation, X sold Property 1 to an unrelated party for \$100 (First Transaction). X elected to defer gain recognition under section 1033(a)(2), and purchased qualifying replacement property (Property 2) for \$100 from Y (Second Transaction) prior to the expiration of the period described in section 1033(a)(2)(B).

(ii) *Analysis.* The transfer of Property 2 by Y to X in the Second Transaction is a conversion transaction within the meaning of paragraph (a)(2)(ii) of this section. The Second Transaction (combined with the First Transaction) is a nonrecognition transaction under section 1033(a) as to X, but not as to Y. Assume no nonrecognition provision applied to Y; thus, Y recognized gain or loss on its sale of Property 2 in the Second Transaction, and the Second Transaction is not subject to paragraph (a)(1) of this section by reason of paragraph (d)(1) of this section.

(4) *Special rule if C corporation is a tax-exempt entity.* Paragraph (a)(1) of this section does not apply to a conversion transaction in which the C corporation that owned the converted property is a tax-exempt entity described in § 1.337(d)-4(c)(2) to the extent that gain (if any) would not be subject to tax under Title 26 of the United States Code if a deemed sale election under paragraph (c)(5) of this section were made.

(e) *Special rule for partnerships—(1) In general.* The principles of this section apply to property transferred by a partnership to a RIC or REIT to the extent of any gain or loss in the converted property that would be allocated directly or indirectly, through one or more partnerships, to a C corporation if the partnership sold the converted property to an unrelated party at fair market value on the deemed sale date (as defined in paragraph (c)(3) of this section). If the partnership were to elect deemed sale treatment under paragraph (c) of this

section in lieu of section 1374 treatment under paragraph (b) of this section with respect to such transfer, then any net gain recognized by the partnership on the deemed sale must be allocated to the C corporation partner, but does not increase the capital account of any partner. Any adjustment to the partnership's basis in the RIC or REIT stock as a result of deemed sale treatment under paragraph (c) of this section shall constitute an adjustment to the basis of that stock with respect to the C corporation partner only. The principles of section 743 apply to such basis adjustment.

(2) *Example; Transfer by partnership of property to REIT.* (i) *Facts.* PRS, a partnership for Federal income tax purposes, has three partners: TE, a C corporation (within the meaning of paragraph (a)(2)(i) of this section) that is also a tax-exempt entity (within the meaning of §1.337(d)-4(c)(2)), owns 50 percent of the capital and profits of PRS; A, an individual, owns 30 percent of the capital and profits of PRS; and Y, a C corporation (within the meaning of paragraph (a)(2)(i) of this section), owns the remaining 20 percent. PRS owns a building that it leases for commercial use (Property 1). On January 1, Year 2, when PRS has an adjusted basis in Property 1 of \$100 and Property 1 has a fair market value of \$500, PRS transfers Property 1 to X, a REIT, in exchange for stock of X in an exchange described in section 351. PRS does not elect deemed sale treatment under paragraph (c) of this section. TE would not be subject to tax with respect to any gain that would be allocated to it if PRS had sold Property 1 to an unrelated party at fair market value.

(ii) *Analysis.* The transfer of Property 1 by PRS to X is a conversion transaction within the meaning of paragraph (a)(2)(ii) of this section to the extent of any gain or loss that would be allocated to any C corporation partner if PRS sold Property 1 at fair market value to an unrelated party on the deemed sale date. TE and Y are C corporations, but A is not a C corporation within the meaning of paragraph (a)(2)(i) of this section. Therefore, the transfer of Property 1 by PRS to X is a conversion transaction within the meaning of paragraph (a)(2)(ii) of this

section to the extent of the gain in Property 1 that would be allocated to TE and Y. Pursuant to paragraph (d)(4) of this section, paragraph (a)(1) of this section does not apply to the extent of the gain that would be allocated to TE if PRS had sold Property 1 to an unrelated party at fair market value on the deemed sale date. If PRS were to sell Property 1 to an unrelated party at fair market value on the deemed sale date, PRS would allocate \$80 of built-in gain to Y. Thus, X is subject to section 1374 treatment on Property 1 with respect to \$80 of built-in gain.

(f) *Effective/Applicability date—(1) In general.* Except as provided in paragraph (f)(2) of this section, this section applies to conversion transactions that occur on or after January 2, 2002. For conversion transactions that occurred on or after June 10, 1987, and before January 2, 2002, see §§1.337(d)-5 and 1.337(d)-6.

(2) *Special rule.* Paragraphs (a)(2), (d)(1), (d)(3), (d)(4), and (e) of this section apply to conversion transactions that occur on or after August 2, 2013. However, taxpayers may apply paragraphs (a)(2), (d)(1), (d)(3), (d)(4), and (e) of this section to conversion transactions that occurred before August 2, 2013. For conversion transactions that occurred on or after January 2, 2002 and before August 2, 2013, see §1.337(d)-7 as contained in 26 CFR part 1 in effect on April 1, 2013.

[T.D. 9047, 68 FR 12822, Mar. 18, 2003, as amended by T.D. 9626, 78 FR 46806, Aug. 2, 2013]

§ 1.338-0 Outline of topics.

This section lists the captions contained in the regulations under section 338 as follows:

§ 1.338-1 General principles; status of old target and new target.

- (a) In general.
 - (1) Deemed transaction.
 - (2) Application of other rules of law.
 - (3) Overview.
- (b) Treatment of target under other provisions of the Internal Revenue Code.
 - (1) General rule for subtitle A.
 - (2) Exceptions for subtitle A.
 - (3) General rule for other provisions of the Internal Revenue Code.
 - (c) Anti-abuse rule.
 - (1) In general.
 - (2) Examples.

§ 1.338-0

26 CFR Ch. I (4-1-16 Edition)

- (d) Next day rule for post-closing transactions.
- (e) Effective/applicability date.

§ 1.338-2 Nomenclature and definitions; mechanics of the section 338 election.

- (a) Scope.
- (b) Nomenclature.
- (c) Definitions.
 - (1) Acquisition date.
 - (2) Acquisition date assets.
 - (3) Affiliated group.
 - (4) Common parent.
 - (5) Consistency period.
 - (6) Deemed asset sale.
 - (7) Deemed sale tax consequences.
 - (8) Deemed sale return.
 - (9) Domestic corporation.
 - (10) Old target's final return.
 - (11) Purchasing corporation.
 - (12) Qualified stock purchase.
 - (13) Related persons.
 - (14) Section 338 election.
 - (15) Section 338(h)(10) election.
 - (16) Selling group.
 - (17) Target; old target; new target.
 - (18) Target affiliate.
 - (19) 12-month acquisition period.
- (d) Time and manner of making election.
- (e) Special rules for foreign corporations or DISCs.
 - (i) Elections by certain foreign purchasing corporations.
 - (1) General rule.
 - (ii) Qualifying foreign purchasing corporation.
 - (iii) Qualifying foreign target.
 - (iv) Triggering event.
 - (v) Subject to United States tax.
 - (2) Acquisition period.
 - (3) Statement of section 338 may be filed by United States shareholders in certain cases.
 - (4) Notice requirement for U.S. persons holding stock in foreign target.
 - (i) General rule.
 - (ii) Limitation.
 - (iii) Form of notice.
 - (iv) Timing of notice.
 - (v) Consequence of failure to comply.
 - (vi) Good faith effort to comply.

§ 1.338-3 Qualification for the section 338 election.

- (a) Scope.
- (b) Rules relating to qualified stock purchases.
 - (1) Purchasing corporation requirement.
 - (2) Purchase.
 - (3) Acquisitions of stock from related corporations.
 - (i) In general.
 - (ii) Time for testing relationship.
 - (iii) Cases where section 338(h)(3)(C) applies—acquisitions treated as purchases.
 - (iv) Examples.
 - (4) Acquisition date for tiered targets.

- (i) Stock sold in deemed asset sale.
- (ii) Examples.
- (5) Effect of redemptions.
 - (i) General rule.
 - (ii) Redemptions from persons unrelated to the purchasing corporation.
 - (iii) Redemptions from the purchasing corporation or related persons during 12-month acquisition period.
 - (A) General rule.
 - (B) Exception for certain redemptions from related corporations.
 - (iv) Examples.
 - (c) Effect of post-acquisition events on eligibility for section 338 election.
 - (1) Post-acquisition elimination of target.
 - (2) Post-acquisition elimination of the purchasing corporation.
 - (d) Consequences of post-acquisition elimination of target where section 338 election not made.
 - (1) Scope.
 - (2) Continuity of interest.
 - (3) Control requirement.
 - (4) Solely for voting stock requirement.
 - (5) Example.

§ 1.338-4 Aggregate deemed sale price; various aspects of taxation of the deemed asset sale.

- (a) Scope.
- (b) Determination of ADSP.
 - (1) General rule.
 - (2) Time and amount of ADSP.
 - (i) Original determination.
 - (ii) Redetermination of ADSP.
 - (iii) Example.
 - (c) Grossed-up amount realized on the sale to the purchasing corporation of the purchasing corporation's recently purchased target stock.
 - (1) Determination of amount.
 - (2) Example.
 - (d) Liabilities of old target.
 - (1) In general.
 - (2) Time and amount of liabilities.
 - (e) Deemed sale tax consequences.
 - (f) Other rules apply in determining ADSP.
 - (g) Examples.
 - (h) Deemed sale of target affiliate stock.
 - (1) Scope.
 - (2) In general.
 - (3) Deemed sale of foreign target affiliate by a domestic target.
 - (4) Deemed sale producing effectively connected income.
 - (5) Deemed sale of insurance company target affiliate electing under section 953(d).
 - (6) Deemed sale of DISC target affiliate.
 - (7) Anti-stuffing rule.
 - (8) Examples.

§ 1.338-5 Adjusted grossed-up basis.

- (a) Scope.
- (b) Determination of AGUB.
 - (1) General rule.
 - (2) Time and amount of AGUB.

Internal Revenue Service, Treasury

§ 1.338-0

- (i) Original determination.
- (ii) Redetermination of AGUB.
- (iii) Examples.
- (c) Grossed-up basis of recently purchased stock.
- (d) Basis of nonrecently purchased stock; gain recognition election.
 - (1) No gain recognition election.
 - (2) Procedure for making gain recognition election.
 - (3) Effect of gain recognition election.
 - (i) In general.
 - (ii) Basis amount.
 - (iii) Losses not recognized.
 - (iv) Stock subject to election.
 - (e) Liabilities of new target.
 - (1) In general.
 - (2) Time and amount of liabilities.
 - (3) Interaction with deemed sale tax consequences.
 - (f) Adjustments by the Internal Revenue Service.
 - (g) Examples.
 - (h) Effective/applicability date.

§ 1.338-6 Allocation of ADSP and AGUB among target assets.

- (a) Scope.
 - (1) In general.
 - (2) Fair market value.
 - (i) In general.
 - (ii) Transaction costs.
 - (iii) Internal Revenue Service authority.
 - (b) General rule for allocating ADSP and AGUB.
 - (1) Reduction in the amount of consideration for Class I assets.
 - (2) Other assets.
 - (i) In general.
 - (ii) Class II assets.
 - (iii) Class III assets.
 - (iv) Class IV assets.
 - (v) Class V assets.
 - (vi) Class VI assets.
 - (vii) Class VII assets.
 - (3) Other items designated by the Internal Revenue Service.
 - (c) Certain limitations and other rules for allocation to an asset.
 - (1) Allocation not to exceed fair market value.
 - (2) Allocation subject to other rules.
 - (3) Special rule for allocating AGUB when purchasing corporation has nonrecently purchased stock.
 - (i) Scope.
 - (ii) Determination of hypothetical purchase price.
 - (iii) Allocation of AGUB.
 - (4) Liabilities taken into account in determining amount realized on subsequent disposition.
 - (5) Allocation to certain nuclear decommissioning funds.
 - (d) Examples.

§ 1.338-7 Allocation of redetermined ADSP and AGUB among target assets.

- (a) Scope.
- (b) Allocation of redetermined ADSP and AGUB.
- (c) Special rules for ADSP.
 - (1) Increases or decreases in deemed sale tax consequences taxable notwithstanding old target ceases to exist.
 - (2) Procedure for transactions in which section 338(h)(10) is not elected.
 - (i) Deemed sale tax consequences included in new target's return.
 - (ii) Carryovers and carrybacks.
 - (A) Loss carryovers to new target taxable years.
 - (B) Loss carrybacks to taxable years of old target.
 - (C) Credit carryovers and carrybacks.
 - (3) Procedure for transactions in which section 338(h)(10) is elected.
 - (d) Special rules for AGUB.
 - (1) Effect of disposition or depreciation of acquisition date assets.
 - (2) Section 38 property.
 - (e) Examples.

§ 1.338-8 Asset and stock consistency.

- (a) Introduction.
 - (1) Overview.
 - (2) General application.
 - (3) Extension of the general rules.
 - (4) Application where certain dividends are paid.
 - (5) Application to foreign target affiliates.
 - (6) Stock consistency.
 - (b) Consistency for direct acquisitions.
 - (1) General rule.
 - (2) Section 338(h)(10) elections.
 - (c) Gain from disposition reflected in basis of target stock.
 - (1) General rule.
 - (2) Gain not reflected if section 338 election made for target.
 - (3) Gain reflected by reason of distributions.
 - (4) Controlled foreign corporations.
 - (5) Gain recognized outside the consolidated group.
 - (d) Basis of acquired assets.
 - (1) Carryover basis rule.
 - (2) Exceptions to carryover basis rule for certain assets.
 - (3) Exception to carryover basis rule for de minimis assets.
 - (4) Mitigation rule.
 - (i) General rule.
 - (ii) Time for transfer.
 - (e) Examples.
 - (1) In general.
 - (2) Direct acquisitions.
 - (f) Extension of consistency to indirect acquisitions.
 - (1) Introduction.
 - (2) General rule.
 - (3) Basis of acquired assets.

§ 1.338-0

26 CFR Ch. I (4-1-16 Edition)

- (4) Examples.
- (g) Extension of consistency if dividends qualifying for 100 percent dividends received deduction are paid.
 - (1) General rule for direct acquisitions from target.
 - (2) Other direct acquisitions having same effect.
 - (3) Indirect acquisitions.
 - (4) Examples.
- (h) Consistency for target affiliates that are controlled foreign corporations.
 - (1) In general.
 - (2) Income or gain resulting from asset dispositions.
 - (i) General rule.
 - (ii) Basis of controlled foreign corporation stock.
 - (iii) Operating rule.
 - (iv) Increase in asset or stock basis.
 - (3) Stock issued by target affiliate that is a controlled foreign corporation.
 - (4) Certain distributions.
 - (i) General rule.
 - (ii) Basis of controlled foreign corporation stock.
 - (iii) Increase in asset or stock basis.
 - (5) Examples.
 - (i) [Reserved]
 - (j) Anti-avoidance rules.
 - (1) Extension of consistency period.
 - (2) Qualified stock purchase and 12-month acquisition period.
 - (3) Acquisitions by conduits.
 - (i) Asset ownership.
 - (A) General rule.
 - (B) Application of carryover basis rule.
 - (ii) Stock acquisitions.
 - (A) Purchase by conduit.
 - (B) Purchase of conduit by corporation.
 - (C) Purchase of conduit by conduit.
 - (4) Conduit.
 - (5) Existence of arrangement.
 - (6) Predecessor and successor.
 - (i) Persons.
 - (ii) Assets.
 - (7) Examples.

§ 1.338-9 International aspects of section 338.

§ 1.338-1

26 CFR Ch. I (4-1-16 Edition)

(ii) Time and manner of making the election for old target.

[T.D. 8940, 66 FR 9929, Feb. 13, 2001, as amended by T.D. 9158, 70 FR 55741, Sept. 16, 2004; T.D. 9257, 71 FR 17999, Apr. 10, 2006; T.D. 9264, 71 FR 30595, May 30, 2006; T.D. 9358, 72 FR 51705, Sept. 11, 2007; T.D. 9377, 73 FR 3871, Jan. 23, 2008; T.D. 9619, 78 FR 28489, May 15, 2013]

§ 1.338-1 General principles; status of old target and new target.

(a) *In general*—(1) *Deemed transaction*. Elections are available under section 338 when a purchasing corporation acquires the stock of another corporation (the target) in a qualified stock purchase. One type of election, under section 338(g), is available to the purchasing corporation. Another type of election, under section 338(h)(10), is, in more limited circumstances, available jointly to the purchasing corporation and the sellers of the stock. (Rules concerning eligibility for these elections are contained in §§ 1.338-2, 1.338-3, and 1.338(h)(10)-1.) However, if, as a result of the deemed purchase of old target's assets pursuant to a section 336(e) election, there would be both a qualified stock purchase and a qualified stock disposition (as defined in § 1.336-1(b)(6)) of the stock of a subsidiary of target, neither a section 338(g) election nor a section 338(h)(10) election may be made with respect to the qualified stock purchase of the subsidiary. Instead, a section 336(e) election may be made with respect to such purchase. See § 1.336-1(b)(6)(ii). Although target is a single corporation under corporate law, if a section 338 election is made, then two separate corporations, old target and new target, generally are considered to exist for purposes of subtitle A of the Internal Revenue Code. Old target is treated as transferring all of its assets to an unrelated person in exchange for consideration that includes the discharge of its liabilities (see § 1.1001-2(a)), and new target is treated as acquiring all of its assets from an unrelated person in exchange for consideration that includes the assumption of those liabilities. (Such transaction is, without regard to its characterization for Federal income tax purposes, referred to as the deemed asset sale and the income tax consequences thereof as the deemed sale tax consequences.) If a

section 338(h)(10) election is made, old target is deemed to liquidate following the deemed asset sale.

(2) *Application of other rules of law*. Other rules of law apply to determine the tax consequences to the parties as if they had actually engaged in the transactions deemed to occur under section 338 and the regulations thereunder except to the extent otherwise provided in those regulations. See also § 1.338-6(c)(2). Other rules of law may characterize the transaction as something other than or in addition to a sale and purchase of assets; however, the transaction between old and new target must be a taxable transaction. For example, if the target is an insurance company for which a section 338 election is made, the deemed asset sale results in an assumption reinsurance transaction for the insurance contracts deemed transferred from old target to new target. See, generally, § 1.817-4(d), and for special rules regarding the acquisition of insurance company targets, § 1.338-11. See also § 1.367(a)-8(k)(13) for a rule applicable to gain recognition agreements (filed under §§ 1.367(a)-3(b)(1)(ii) and 1.367(a)-8) and deemed asset sales as a result of an election under section 338(g).

(3) *Overview*. Definitions and special nomenclature and rules for making the section 338 election are provided in § 1.338-2. Qualification for the section 338 election is addressed in § 1.338-3. The amount for which old target is treated as selling all of its assets (the aggregate deemed sale price, or ADSP) is addressed in § 1.338-4. The amount for which new target is deemed to have purchased all its assets (the adjusted grossed-up basis, or AGUB) is addressed in § 1.338-5. Section 1.338-6 addresses allocation both of ADSP among the assets old target is deemed to have sold and of AGUB among the assets new target is deemed to have purchased. Section 1.338-7 addresses allocation of ADSP or AGUB when those amounts subsequently change. Asset and stock consistency are addressed in § 1.338-8. International aspects of section 338 are covered in § 1.338-9. Rules for the filing of returns are provided in § 1.338-10. Section 1.338-11 provides special rules for insurance company targets. Eligibility for and treatment of section

338(h)(10) elections is addressed in § 1.338(h)(10)-1.

(b) *Treatment of target under other provisions of the Internal Revenue Code*—(1) *General rule for subtitle A.* Except as provided in this section, new target is treated as a new corporation that is unrelated to old target for purposes of subtitle A of the Internal Revenue Code. Thus—

(i) New target is not considered related to old target for purposes of section 168 and may make new elections under section 168 without taking into account the elections made by old target; and

(ii) New target may adopt, without obtaining prior approval from the Commissioner, any taxable year that meets the requirements of section 441 and any method of accounting that meets the requirements of section 446. Notwithstanding § 1.441-1T(b)(2), a new target may adopt a taxable year on or before the last day for making the election under section 338 by filing its first return for the desired taxable year on or before that date.

(2) *Exceptions for subtitle A.* New target and old target are treated as the same corporation for purposes of—

(i) The rules applicable to employee benefit plans (including those plans described in sections 79, 104, 105, 106, 125, 127, 129, 132, 137, and 220), qualified pension, profit-sharing, stock bonus and annuity plans (sections 401(a) and 403(a)), simplified employee pensions (section 408(k)), tax qualified stock option plans (sections 422 and 423), welfare benefit funds (sections 419, 419A, 512(a)(3), and 4976), and voluntary employee benefit associations (section 501(c)(9) and the regulations thereunder);

(ii) Sections 1311 through 1314 (relating to the mitigation of the effect of limitations), if a section 338(h)(10) election is not made for target;

(iii) Section 108(e)(5) (relating to the reduction of purchase money debt);

(iv) Section 45A (relating to the Indian Employment Credit), section 51 (relating to the Work Opportunity Credit), section 51A (relating to the Welfare to Work Credit), and section 1396 (relating to the Empowerment Zone Act);

(v) Sections 401(h) and 420 (relating to medical benefits for retirees);

(vi) Section 414 (relating to definitions and special rules); and

(vii) Section 846(e) (relating to an election to use an insurance company's historical loss payment pattern).

(viii) Any other provision designated in the Internal Revenue Bulletin by the Internal Revenue Service. See § 601.601(d)(2)(ii) of this chapter. See, for example, § 1.1001-3(e)(4)(i)(F) providing that an election under section 338 does not result in the substitution of a new obligor on target's debt. See also, for example, § 1.1502-77(c)(8), providing that an election under section 338 does not result in a deemed termination of target's existence for purposes of the rules applicable to the agent for a consolidated group.

(3) *General rule for other provisions of the Internal Revenue Code.* Except as provided in the regulations under section 338 or in the Internal Revenue Bulletin by the Internal Revenue Service (see § 601.601(d)(2)(ii) of this chapter), new target is treated as a continuation of old target for purposes other than subtitle A of the Internal Revenue Code. For example—

(i) New target is liable for old target's Federal income tax liabilities, including the tax liability for the deemed sale tax consequences and those tax liabilities of the other members of any consolidated group that included old target that are attributable to taxable years in which those corporations and old target joined in the same consolidated return (see § 1.1502-6(a));

(ii) Wages earned by the employees of old target are considered wages earned by such employees from new target for purposes of sections 3101 and 3111 (Federal Insurance Contributions Act) and section 3301 (Federal Unemployment Tax Act); and

(iii) Old target and new target must use the same employer identification number.

(c) *Anti-abuse rule*—(1) *In general.* The rules of this paragraph (c) apply for purposes of applying the regulations under sections 336(e), 338, and 1060. The Commissioner is authorized to treat any property (including cash) transferred by old target in connection with

the transactions resulting in the application of the residual method (and not held by target at the close of the acquisition date) as, nonetheless, property of target at the close of the acquisition date if the property so transferred is, within 24 months after the deemed asset sale, owned by new target, or is owned, directly or indirectly, by a member of the affiliated group of which new target is a member and continues after the acquisition date to be held or used primarily in connection with one or more of the activities of new target. In addition, the Commissioner is authorized to treat any property (including cash) transferred to old target in connection with the transactions resulting in the application of the residual method (and held by target at the close of the acquisition date) as, nonetheless, not being property of target at the close of the acquisition date if the property so transferred is, within 24 months after the deemed asset sale, not owned by new target but owned, directly or indirectly, by a member of the affiliated group of which new target is a member, or owned by new target but held or used primarily in connection with an activity conducted, directly or indirectly, by another member of the affiliated group of which new target is a member in combination with other property retained by or acquired, directly or indirectly, from the transferor of the property (or a member of the same affiliated group) to old target. For purposes of this paragraph (c)(1), an interest in an entity is considered held or used in connection with an activity if property of the entity is so held or used. The authority of the Commissioner under this paragraph (c)(1) includes the making of any appropriate correlative adjustments (avoiding, to the extent possible, the duplication or omission of any item of income, gain, loss, deduction, or basis).

(2) *Examples.* The following examples illustrate this paragraph (c):

Example 1. Prior to a qualified stock purchase under section 338, target transfers one of its assets to a related party. The purchasing corporation then purchases the target stock and also purchases the transferred asset from the related party. After its purchase of target, the purchasing corporation and target are members of the same affil-

ated group. A section 338 election is made. Under an arrangement with the purchaser, the separately transferred asset is used primarily in connection with target's activities. Applying the anti-abuse rule of this paragraph (c), the Commissioner may consider target to own the transferred asset for purposes of applying the residual method under section 338.

Example 2. T owns all the stock of T1. T1 leases intellectual property to T, which T uses in connection with its own activities. P, a purchasing corporation, wishes to buy the T-T1 chain of corporations. P, in connection with its planned purchase of the T stock, contracts to consummate a purchase of all the stock of T1 on March 1 and of all the stock of T on March 2. Section 338 elections are thereafter made for both T and T1. Immediately after the purchases, P, T and T1 are members of the same affiliated group. T continues to lease the intellectual property from T1 and that is the primary use of the intellectual property. Thus, an asset of T, the T1 stock, was removed from T's own assets prior to the qualified stock purchase of the T stock, T1's own assets are used after the deemed asset sale in connection with T's own activities, and the T1 stock is after the deemed asset sale owned by P, a member of the same affiliated group of which T is a member. Applying the anti-abuse rule of this paragraph (c), the Commissioner may, for purposes of application of the residual method under section 338 both to T and to T1, consider P to have bought only the stock of T, with T at the time of the qualified stock purchases of both T and T1 (the qualified stock purchase of T1 being triggered by the deemed sale under section 338 of T's assets) owning T1. The Commissioner accordingly would allocate consideration to T's assets as though the T1 stock were one of those assets, and then allocate consideration within T1 based on the amount allocated to the T1 stock at the T level.

(d) *Next day rule for post-closing transactions.* If a target corporation for which an election under section 338 is made engages in a transaction outside the ordinary course of business on the acquisition date after the event resulting in the qualified stock purchase of the target or a higher tier corporation, the target and all persons related thereto (either before or after the qualified stock purchase) under section 267(b) or section 707 must treat the transaction for all Federal income tax purposes as occurring at the beginning of the day following the transaction and after the deemed purchase by new target.

(e) *Effective/applicability date.* Paragraphs (a)(1) and (c)(1) of this section are applicable to any qualified stock disposition for which the disposition date (as defined in §1.336-1(b)(8)) is on or after May 15, 2013.

[T.D. 8940, 66 FR 9929, Feb. 13, 2001, as amended by T.D. 9002, 67 FR 43540, June 28, 2002; T.D. 9257, 71 FR 18000, Apr. 10, 2006; T.D. 9377, 73 FR 3871, Jan. 23, 2008; T.D. 9446, 74 FR 6957, Feb. 11, 2009; T.D. 9619, 78 FR 28489, May 15, 2013; T.D. 9715, 80 FR 17317, Apr. 1, 2015]

§ 1.338-2 Nomenclature and definitions; mechanics of the section 338 election.

(a) *Scope.* This section prescribes rules relating to elections under section 338.

(b) *Nomenclature.* For purposes of the regulations under section 338 (except as otherwise provided):

(1) T is a domestic target corporation that has only one class of stock outstanding. Old T refers to T for periods ending on or before the close of T's acquisition date; new T refers to T for subsequent periods.

(2) P is the purchasing corporation.

(3) The P group is an affiliated group of which P is a member.

(4) P1, P2, etc., are domestic corporations that are members of the P group.

(5) T1, T2, etc., are domestic corporations that are target affiliates of T. These corporations (T1, T2, etc.) have only one class of stock outstanding and may also be targets.

(6) S is a domestic corporation (unrelated to P and B) that owns T prior to the purchase of T by P. (S is referred to in cases in which it is appropriate to consider the effects of having all of the outstanding stock of T owned by a domestic corporation.)

(7) A, a U.S. citizen or resident, is an individual (unrelated to P and B) who owns T prior to the purchase of T by P. (A is referred to in cases in which it is appropriate to consider the effects of having all of the outstanding stock of T owned by an individual who is a U.S. citizen or resident. Ownership of T by A and ownership of T by S are mutually exclusive circumstances.)

(8) B, a U.S. citizen or resident, is an individual (unrelated to T, S, and A) who owns the stock of P.

(9) F, used as a prefix with the other terms in this paragraph (b), connotes

foreign, rather than domestic, status. For example, FT is a foreign corporation (as defined in section 7701(a)(5)) and FA is an individual other than a U.S. citizen or resident.

(10) CFC, used as a prefix with the other terms in this paragraph (b) referring to a corporation, connotes a controlled foreign corporation (as defined in section 957, taking into account section 953(c)). A corporation identified with the prefix F may be a controlled foreign corporation. (The prefix CFC is used when the corporation's status as a controlled foreign corporation is significant.)

(c) *Definitions.* For purposes of the regulations under section 338 (except as otherwise provided):

(1) *Acquisition date.* The term *acquisition date* has the same meaning as in section 338(h)(2).

(2) *Acquisition date assets.* *Acquisition date assets* are the assets of the target held at the beginning of the day after the acquisition date (but see §1.338-1(d) (regarding certain transactions on the acquisition date)).

(3) *Affiliated group.* The term *affiliated group* has the same meaning as in section 338(h)(5). Corporations are affiliated on any day they are members of the same affiliated group.

(4) *Common parent.* The term *common parent* has the same meaning as in section 1504.

(5) *Consistency period.* The *consistency period* is the period described in section 338(h)(4)(A) unless extended pursuant to §1.338-8(j)(1).

(6) *Deemed asset sale.* The *deemed asset sale* is the transaction described in §1.338-1(a)(1) that is deemed to occur for purposes of subtitle A of the Internal Revenue Code if a section 338 election is made.

(7) *Deemed sale tax consequences.* *Deemed sale tax consequences* refers to, in the aggregate, the Federal income tax consequences (generally, the income, gain, deduction, and loss) of the deemed asset sale. Deemed sale tax consequences also refers to the Federal income tax consequences of the transfer of a particular asset in the deemed asset sale.

(8) *Deemed sale return.* The *deemed sale return* is the return on which target's

deemed sale tax consequences are reported that does not include any other items of target. Target files a deemed sale return when a section 338 election (but not a section 338(h)(10) election) is filed for target and target is a member of a selling group (defined in paragraph (c)(16) of this section) that files a consolidated return for the period that includes the acquisition date. See § 1.338-10. If target is an S corporation for the period that ends on the day before the acquisition date and a section 338 election (but not a section 338(h)(10) election) is filed for target, see § 1.338-10(a)(3).

(9) *Domestic corporation.* A domestic corporation is a corporation—

(i) That is domestic within the meaning of section 7701(a)(4) or that is treated as domestic for purposes of subtitle A of the Internal Revenue Code (e.g., to which an election under section 953(d) or 1504(d) applies); and

(ii) That is not a DISC, a corporation described in section 1248(e), or a corporation to which an election under section 936 applies.

(10) *Old target's final return.* Old target's final return is the income tax return of old target for the taxable year ending at the close of the acquisition date that includes the deemed sale tax consequences. However, if a deemed sale return is filed for old target, the deemed sale return is considered old target's final return.

(11) *Purchasing corporation.* The term purchasing corporation has the same meaning as in section 338(d)(1). The purchasing corporation may also be referred to as purchaser. Unless otherwise provided, any reference to the purchasing corporation is a reference to all members of the affiliated group of which the purchasing corporation is a member. See sections 338(h)(5) and (8). Also, unless otherwise provided, any reference to the purchasing corporation is, with respect to a deemed purchase of stock under section 338(a)(2), a reference to new target with respect to its own deemed purchase of stock in another target.

(12) *Qualified stock purchase.* The term qualified stock purchase has the same meaning as in section 338(d)(3).

(13) *Related persons.* Two persons are related if stock in a corporation owned

by one of the persons would be attributed under section 318(a) (other than section 318(a)(4)) to the other.

(14) *Section 338 election.* A section 338 election is an election to apply section 338(a) to target. A section 338 election is made by filing a statement of section 338 election pursuant to paragraph (d) of this section. The form on which this statement is filed is referred to in the regulations under section 338 as the Form 8023, "Elections Under Section 338 For Corporations Making Qualified Stock Purchases."

(15) *Section 338(h)(10) election.* A section 338(h)(10) election is an election to apply section 338(h)(10) to target. A section 338(h)(10) election is made by making a joint election for target under § 1.338(h)(10)-1 on Form 8023.

(16) *Selling group.* The selling group is the affiliated group (as defined in section 1504) eligible to file a consolidated return that includes target for the taxable period in which the acquisition date occurs. However, a selling group is not an affiliated group of which target is the common parent on the acquisition date.

(17) *Target; old target; new target.* Target is the target corporation as defined in section 338(d)(2). Old target refers to target for periods ending on or before the close of target's acquisition date. New target refers to target for subsequent periods.

(18) *Target affiliate.* The term target affiliate has the same meaning as in section 338(h)(6) (applied without section 338(h)(6)(B)(i)). Thus, a corporation described in section 338(h)(6)(B)(i) is considered a target affiliate for all purposes of section 338. If a target affiliate is acquired in a qualified stock purchase, it is also a target.

(19) *12-month acquisition period.* The 12-month acquisition period is the period described in section 338(h)(1), unless extended pursuant to § 1.338-8(j)(2).

(d) *Time and manner of making election.* The purchasing corporation makes a section 338 election for target by filing a statement of section 338 election on Form 8023 in accordance with the instructions to the form. The section 338 election must be made not later than the 15th day of the 9th month beginning after the month in which the acquisition date occurs. A

section 338 election is irrevocable. See § 1.338(h)(10)-1(c)(2) for section 338(h)(10) elections.

(e) *Special rules for foreign corporations or DISCs*—(1) *Elections by certain foreign purchasing corporations*—(i) *General rule.* A qualifying foreign purchasing corporation is not required to file a statement of section 338 election for a qualifying foreign target before the earlier of 3 years after the acquisition date and the 180th day after the close of the purchasing corporation's taxable year within which a triggering event occurs.

(ii) *Qualifying foreign purchasing corporation.* A purchasing corporation is a *qualifying foreign purchasing corporation* only if, during the acquisition period of a qualifying foreign target, all the corporations in the purchasing corporation's affiliated group are foreign corporations that are not subject to United States tax.

(iii) *Qualifying foreign target.* A target is a *qualifying foreign target* only if target and its target affiliates are foreign corporations that, during target's acquisition period, are not subject to United States tax (and will not become subject to United States tax during such period because of a section 338 election). A target affiliate is taken into account for purposes of the preceding sentence only if, during target's 12-month acquisition period, it is or becomes a member of the affiliated group that includes the purchasing corporation.

(iv) *Triggering event.* A *triggering event* occurs in the taxable year of the qualifying foreign purchasing corporation in which either that corporation or any corporation in its affiliated group becomes subject to United States tax.

(v) *Subject to United States tax.* For purposes of this paragraph (e)(1), a foreign corporation is considered subject to United States tax—

(A) For the taxable year for which that corporation is required under § 1.6012-2(g) (other than § 1.6012-2(g)(2)(i)(B)(2)) to file a United States income tax return; or

(B) For the period during which that corporation is a controlled foreign corporation, a passive foreign investment company for which an election under section 1295 is in effect, a foreign investment company, or a foreign cor-

poration the stock ownership of which is described in section 552(a)(2).

(2) *Acquisition period.* For purposes of this paragraph (e), the term *acquisition period* means the period beginning on the first day of the 12-month acquisition period and ending on the acquisition date.

(3) *Statement of section 338 election may be filed by United States shareholders in certain cases.* The United States shareholders (as defined in section 951(b)) of a foreign purchasing corporation that is a controlled foreign corporation (as defined in section 957 (taking into account section 953(c))) may file a statement of section 338 election on behalf of the purchasing corporation if the purchasing corporation is not required under § 1.6012-2(g) (other than § 1.6012-2(g)(2)(i)(B)(2)) to file a United States income tax return for its taxable year that includes the acquisition date. Form 8023 must be filed as described in the form and its instructions and also must be attached to the Form 5471, "Information Returns of U.S. Persons With Respect to Certain Foreign Corporations," filed with respect to the purchasing corporation by each United States shareholder for the purchasing corporation's taxable year that includes the acquisition date (or, if paragraph (e)(1)(i) of this section applies to the election, for the purchasing corporation's taxable year within which it becomes a controlled foreign corporation). The provisions of § 1.964-1(c) (including § 1.964-1(c)(7)) do not apply to an election made by the United States shareholders.

(4) *Notice requirement for U.S. persons holding stock in foreign target*—(i) *General rule.* If a target subject to a section 338 election was a controlled foreign corporation, a passive foreign investment company, or a foreign personal holding company at any time during the portion of its taxable year that ends on its acquisition date, the purchasing corporation must deliver written notice of the election (and a copy of Form 8023, its attachments and instructions) to—

(A) Each U.S. person (other than a member of the affiliated group of which the purchasing corporation is a member (the purchasing group member)) that, on the acquisition date of

the foreign target, holds stock in the foreign target; and

(B) Each U.S. person (other than a purchasing group member) that sells stock in the foreign target to a purchasing group member during the foreign target's 12-month acquisition period.

(ii) *Limitation.* The notice requirement of this paragraph (e)(4) applies only where the section 338 election for the foreign target affects income, gain, loss, deduction, or credit of the U.S. person described in paragraph (e)(4)(i) of this section under section 551, 951, 1248, or 1293.

(iii) *Form of notice.* The notice to U.S. persons must be identified prominently as a notice of section 338 election and must—

(A) Contain the name, address, and employer identification number (if any) of, and the country (and, if relevant, the lesser political subdivision) under the laws of which are organized the purchasing corporation and the relevant target (i.e., the target the stock of which the particular U.S. person held or sold under the circumstances described in paragraph (e)(4)(i) of this section);

(B) Identify those corporations as the purchasing corporation and the foreign target, respectively; and

(C) Contain the following declaration (or a substantially similar declaration):

THIS DOCUMENT SERVES AS NOTICE OF AN ELECTION UNDER SECTION 338 FOR THE ABOVE CITED FOREIGN TARGET THE STOCK OF WHICH YOU EITHER HELD OR SOLD UNDER THE CIRCUMSTANCES DESCRIBED IN TREASURY REGULATIONS SECTION 1.338-2(e)(4). FOR POSSIBLE UNITED STATES FEDERAL INCOME TAX CONSEQUENCES UNDER SECTION 551, 951, 1248, OR 1293 OF THE INTERNAL REVENUE CODE OF 1986 THAT MAY APPLY TO YOU, SEE TREASURY REGULATIONS SECTION 1.338-9(b). YOU MAY BE REQUIRED TO ATTACH THE INFORMATION ATTACHED TO THIS NOTICE TO CERTAIN RETURNS.

(iv) *Timing of notice.* The notice required by this paragraph (e)(4) must be delivered to the U.S. person on or before the later of the 120th day after the acquisition date of the particular target or the day on which Form 8023 is filed. The notice is considered delivered

on the date it is mailed to the proper address (or an address similar enough to complete delivery), unless the date it is mailed cannot be reasonably determined. The date of mailing will be determined under the rules of section 7502. For example, the date of mailing is the date of U.S. postmark or the applicable date recorded or marked by a designated delivery service.

(v) *Consequence of failure to comply.* A statement of section 338 election is not valid if timely notice is not given to one or more U.S. persons described in this paragraph (e)(4). If the form of notice fails to comply with all requirements of this paragraph (e)(4), the section 338 election is valid, but the waiver rule of § 1.338-10(b)(1) does not apply.

(vi) *Good faith effort to comply.* The purchasing corporation will be considered to have complied with this paragraph (e)(4), even though it failed to provide notice or provide timely notice to each person described in this paragraph (e)(4), if the Commissioner determines that the purchasing corporation made a good faith effort to identify and provide timely notice to those U.S. persons.

[T.D. 8940, 66 FR 9929, Feb. 13, 2001]

§ 1.338-3 Qualification for the section 338 election.

(a) *Scope.* This section provides rules on whether certain acquisitions of stock are qualified stock purchases and on other miscellaneous issues under section 338.

(b) *Rules relating to qualified stock purchases—*(1) *Purchasing corporation requirement.* An individual cannot make a qualified stock purchase of target. Section 338(d)(3) requires, as a condition of a qualified stock purchase, that a corporation purchase the stock of target. If an individual forms a corporation (new P) to acquire target stock, new P can make a qualified stock purchase of target if new P is considered for tax purposes to purchase the target stock. Facts that may indicate that new P does not purchase the target stock include new P's merging downstream into target, liquidating, or otherwise disposing of the target stock following the purported qualified stock purchase.

(2) *Purchase.* The term *purchase* has the same meaning as in section

338(h)(3). Stock in a target (or target affiliate) may be considered purchased if, under general principles of tax law, the purchasing corporation is considered to own stock of the target (or target affiliate) meeting the requirements of section 1504(a)(2), notwithstanding that no amount may be paid for (or allocated to) the stock.

(3) *Acquisitions of stock from related corporations*—(i) *In general.* Stock acquired by a purchasing corporation from a related corporation (R) is generally not considered acquired by purchase. See section 338(h)(3)(A)(iii).

(ii) *Time for testing relationship.* For purposes of section 338(h)(3)(A)(iii), a purchasing corporation is treated as related to another person if the relationship specified in section 338(h)(3)(A)(iii) exists—

(A) In the case of a single transaction, immediately after the purchase of target stock;

(B) In the case of a series of acquisitions otherwise constituting a qualified stock purchase within the meaning of section 338(d)(3), immediately after the last acquisition in such series; and

(C) In the case of a series of transactions effected pursuant to an integrated plan to dispose of target stock, immediately after the last transaction in such series.

(iii) *Cases where section 338(h)(3)(C) applies—acquisitions treated as purchases.* If section 338(h)(3)(C) applies and the purchasing corporation is treated as acquiring stock by purchase from R, solely for purposes of determining when the stock is considered acquired, target stock acquired from R is considered to have been acquired by the purchasing corporation on the day on which the purchasing corporation is first considered to own that stock under section 318(a) (other than section 318(a)(4)).

(iv) *Examples.* The following examples illustrate this paragraph (b)(3):

Example 1. (i) S is the parent of a group of corporations that are engaged in various businesses. Prior to January 1, Year 1, S decided to discontinue its involvement in one line of business. To accomplish this, S forms a new corporation, Newco, with a nominal amount of cash. Shortly thereafter, on January 1, Year 1, S transfers all the stock of the subsidiary conducting the unwanted business (T) to Newco in exchange for 100 shares of

Newco common stock and a Newco promissory note. Prior to January 1, Year 1, S and Underwriter (U) had entered into a binding agreement pursuant to which U would purchase 60 shares of Newco common stock from S and then sell those shares in an Initial Public Offering (IPO). On January 6, Year 1, the IPO closes.

(ii) Newco's acquisition of T stock is one of a series of transactions undertaken pursuant to one integrated plan. The series of transactions ends with the closing of the IPO and the transfer of all the shares of stock in accordance with the agreements. Immediately after the last transaction effected pursuant to the plan, S owns 40 percent of Newco, which does not give rise to a relationship described in section 338(h)(3)(A)(iii). See § 1.338-3(b)(3)(ii)(C). Accordingly, S and Newco are not related for purposes of section 338(h)(3)(A)(iii).

(iii) Further, because Newco's basis in the T stock is not determined by reference to S's basis in the T stock and because the transaction is not an exchange to which section 351, 354, 355, or 356 applies, Newco's acquisition of the T stock is a purchase within the meaning of section 338(h)(3).

Example 2. (i) On January 1 of Year 1, P purchases 75 percent in value of the R stock. On that date, R owns 4 of the 100 shares of T stock. On June 1 of Year 1, R acquires an additional 16 shares of T stock. On December 1 of Year 1, P purchases 70 shares of T stock from an unrelated person and 12 of the 20 shares of T stock held by R.

(ii) Of the 12 shares of T stock purchased by P from R on December 1 of Year 1, 3 of those shares are deemed to have been acquired by P on January 1 of Year 1, the date on which 3 of the 4 shares of T stock held by R on that date were first considered owned by P under section 318(a)(2)(C) (i.e., $4 \times .75$). The remaining 9 shares of T stock purchased by P from R on December 1 of Year 1 are deemed to have been acquired by P on June 1 of Year 1, the date on which an additional 12 of the 20 shares of T stock owned by R on that date were first considered owned by P under section 318(a)(2)(C) (i.e., $(20 \times .75) - 3$). Because stock acquisitions by P sufficient for a qualified stock purchase of T occur within a 12-month period (i.e., 3 shares constructively on January 1 of Year 1, 9 shares constructively on June 1 of Year 1, and 70 shares actually on December 1 of Year 1), a qualified stock purchase is made on December 1 of Year 1.

Example 3. (i) On February 1 of Year 1, P acquires 25 percent in value of the R stock from B (the sole shareholder of P). That R stock is not acquired by purchase. See section 338(h)(3)(A)(iii). On that date, R owns 4 of the 100 shares of T stock. On June 1 of Year 1, P purchases an additional 25 percent in value of the R stock, and on January 1 of Year 2, P purchases another 25 percent in

value of the R stock. On June 1 of Year 2, R acquires an additional 16 shares of the T stock. On December 1 of Year 2, P purchases 68 shares of the T stock from an unrelated person and 12 of the 20 shares of the T stock held by R.

(ii) Of the 12 shares of the T stock purchased by P from R on December 1 of Year 2, 2 of those shares are deemed to have been acquired by P on June 1 of Year 1, the date on which 2 of the 4 shares of the T stock held by R on that date were first considered owned by P under section 318(a)(2)(C) (i.e., $4 \times .5$). For purposes of this attribution, the R stock need not be acquired by P by purchase. See section 338(h)(1). (By contrast, the acquisition of the T stock by P from R does not qualify as a purchase unless P has acquired at least 50 percent in value of the R stock by purchase. Section 338(h)(3)(C)(i).) Of the remaining 10 shares of the T stock purchased by P from R on December 1 of Year 2, 1 of those shares is deemed to have been acquired by P on January 1 of Year 2, the date on which an additional 1 share of the 4 shares of the T stock held by R on that date was first considered owned by P under section 318(a)(2)(C) (i.e., $(4 \times .75) - 2$). The remaining 9 shares of the T stock purchased by P from R on December 1 of Year 2, are deemed to have been acquired by P on June 1 of Year 2, the date on which an additional 12 shares of the T stock held by R on that date were first considered owned by P under section 318(a)(2)(C) (i.e., $(20 \times .75) - 3$). Because a qualified stock purchase of T by P is made on December 1 of Year 2 only if all 12 shares of the T stock purchased by P from R on that date are considered acquired during a 12-month period ending on that date (so that, in conjunction with the 68 shares of the T stock P purchased on that date from the unrelated person, 80 of T's 100 shares are acquired by P during a 12-month period) and because 2 of those 12 shares are considered to have been acquired by P more than 12 months before December 1 of Year 2 (i.e., on June 1 of Year 1), a qualified stock purchase is not made. (Under § 1.338-8(j)(2), for purposes of applying the consistency rules, P is treated as making a qualified stock purchase of T if, pursuant to an arrangement, P purchases T stock satisfying the requirements of section 1504(a)(2) over a period of more than 12 months.)

Example 4. Assume the same facts as in *Example 3*, except that on February 1 of Year 1, P acquires 25 percent in value of the R stock by purchase. The result is the same as in *Example 3*.

(4) *Acquisition date for tiered targets—*

(i) *Stock sold in deemed asset sale.* If an election under section 338 is made for target, old target is deemed to sell target's assets and new target is deemed to acquire those assets. Under section

338(h)(3)(B), new target's deemed purchase of stock of another corporation is a purchase for purposes of section 338(d)(3) on the acquisition date of target. If new target's deemed purchase causes a qualified stock purchase of the other corporation and if a section 338 election is made for the other corporation, the acquisition date for the other corporation is the same as the acquisition date of target. However, the deemed sale and purchase of the other corporation's assets is considered to take place after the deemed sale and purchase of target's assets.

(ii) *Example.* The following example illustrates this paragraph (b)(4):

Example. A owns all of the T stock. T owns 50 of the 100 shares of X stock. The other 50 shares of X stock are owned by corporation Y, which is unrelated to A, T, or P. On January 1 of Year 1, P makes a qualified stock purchase of T from A and makes a section 338 election for T. On December 1 of Year 1, P purchases the 50 shares of X stock held by Y. A qualified stock purchase of X is made on December 1 of Year 1, because the deemed purchase of 50 shares of X stock by new T because of the section 338 election for T and the actual purchase of 50 shares of X stock by P are treated as purchases made by one corporation. Section 338(h)(8). For purposes of determining whether those purchases occur within a 12-month acquisition period as required by section 338(d)(3), T is deemed to purchase its X stock on T's acquisition date, i.e., January 1 of Year 1.

(5) *Effect of redemptions—(i) General rule.* Except as provided in this paragraph (b)(5), a qualified stock purchase is made on the first day on which the percentage ownership requirements of section 338(d)(3) are satisfied by reference to target stock that is both—

(A) Held on that day by the purchasing corporation; and

(B) Purchased by the purchasing corporation during the 12-month period ending on that day.

(ii) *Redemptions from persons unrelated to the purchasing corporation.* Target stock redemptions from persons unrelated to the purchasing corporation that occur during the 12-month acquisition period are taken into account as reductions in target's outstanding stock for purposes of determining whether target stock purchased by the purchasing corporation in the 12-month

acquisition period satisfies the percentage ownership requirements of section 338(d)(3).

(iii) *Redemptions from the purchasing corporation or related persons during 12-month acquisition period*—(A) *General rule.* For purposes of the percentage ownership requirements of section 338(d)(3), a redemption of target stock during the 12-month acquisition period from the purchasing corporation or from any person related to the purchasing corporation is not taken into account as a reduction in target's outstanding stock.

(B) *Exception for certain redemptions from related corporations.* A redemption of target stock during the 12-month acquisition period from a corporation related to the purchasing corporation is taken into account as a reduction in target's outstanding stock to the extent that the redeemed stock would have been considered purchased by the purchasing corporation (because of section 338(h)(3)(C)) during the 12-month acquisition period if the redeemed stock had been acquired by the purchasing corporation on the day of the redemption. See paragraph (b)(3) of this section.

(iv) *Examples.* The following examples illustrate this paragraph (b)(5):

Example 1. QSP on stock purchase date; redemption from unrelated person during 12-month period. A owns all 100 shares of T stock. On January 1 of Year 1, P purchases 40 shares of the T stock from A. On July 1 of Year 1, T redeems 25 shares from A. On December 1 of Year 1, P purchases 20 shares of the T stock from A. P makes a qualified stock purchase of T on December 1 of Year 1, because the 60 shares of T stock purchased by P within the 12-month period ending on that date satisfy the 80-percent ownership requirements of section 338(d)(3) (i.e., 60/75 shares), determined by taking into account the redemption of 25 shares.

Example 2. QSP on stock redemption date; redemption from unrelated person during 12-month period. The facts are the same as in *Example 1*, except that P purchases 60 shares of T stock on January 1 of Year 1 and none on December 1 of Year 1. P makes a qualified stock purchase of T on July 1 of Year 1, because that is the first day on which the T stock purchased by P within the preceding 12-month period satisfies the 80-percent ownership requirements of section 338(d)(3) (i.e., 60/75 shares), determined by taking into account the redemption of 25 shares.

Example 3. Redemption from purchasing corporation not taken into account. On December 15 of Year 1, T redeems 30 percent of its stock from P. The redeemed stock was held by P for several years and constituted P's total interest in T. On December 1 of Year 2, P purchases the remaining T stock from A. P does not make a qualified stock purchase of T on December 1 of Year 2. For purposes of the 80-percent ownership requirements of section 338(d)(3), the redemption of P's T stock on December 15 of Year 1 is not taken into account as a reduction in T's outstanding stock.

Example 4. Redemption from related person taken into account. On January 1 of Year 1, P purchases 60 of the 100 shares of X stock. On that date, X owns 40 of the 100 shares of T stock. On April 1 of Year 1, T redeems X's T stock and P purchases the remaining 60 shares of T stock from an unrelated person. For purposes of the 80-percent ownership requirements of section 338(d)(3), the redemption of the T stock from X (a person related to P) is taken into account as a reduction in T's outstanding stock. If P had purchased the 40 redeemed shares from X on April 1 of Year 1, all 40 of the shares would have been considered purchased (because of section 338(h)(3)(C)(i)) during the 12-month period ending on April 1 of Year 1 (24 of the 40 shares would have been considered purchased by P on January 1 of Year 1 and the remaining 16 shares would have been considered purchased by P on April 1 of Year 1). See paragraph (b)(3) of this section. Accordingly, P makes a qualified stock purchase of T on April 1 of Year 1, because the 60 shares of T stock purchased by P on that date satisfy the 80-percent ownership requirements of section 338(d)(3) (i.e., 60/60 shares), determined by taking into account the redemption of 40 shares.

(c) *Effect of post-acquisition events on eligibility for section 338 election*—(1) *Post-acquisition elimination of target.* (i) The purchasing corporation may make an election under section 338 for target even though target is liquidated on or after the acquisition date. If target liquidates on the acquisition date, the liquidation is considered to occur on the following day and immediately after new target's deemed purchase of assets. The purchasing corporation may also make an election under section 338 for target even though target is merged into another corporation, or otherwise disposed of by the purchasing corporation provided that, under the facts and circumstances, the purchasing corporation is considered for tax purposes as the purchaser of the target stock. See §1.338(h)(10)-1(c)(2)

for special rules concerning section 338(h)(10) elections in certain multi-step transactions.

(ii) The following examples illustrate this paragraph (c)(1):

Example 1. On January 1 of Year 1, P purchases 100 percent of the outstanding common stock of T. On June 1 of Year 1, P sells the T stock to an unrelated person. Assuming that P is considered for tax purposes as the purchaser of the T stock, P remains eligible, after June 1 of Year 1, to make a section 338 election for T that results in a deemed asset sale of T's assets on January 1 of Year 1.

Example 2. On January 1 of Year 1, P makes a qualified stock purchase of T. On that date, T owns the stock of T1. On March 1 of Year 1, T sells the T1 stock to an unrelated person. On April 1 of Year 1, P makes a section 338 election for T. Notwithstanding that the T1 stock was sold on March 1 of Year 1, the section 338 election for T on April 1 of Year 1 results in a qualified stock purchase by T of T1 on January 1 of Year 1. See paragraph (b)(4)(i) of this section.

(2) *Post-acquisition elimination of the purchasing corporation.* An election under section 338 may be made for target after the acquisition of assets of the purchasing corporation by another corporation in a transaction described in section 381(a), provided that the purchasing corporation is considered for tax purposes as the purchaser of the target stock. The acquiring corporation in the section 381(a) transaction may make an election under section 338 for target.

(d) *Consequences of post-acquisition elimination of target where section 338 election not made—(1) Scope.* The rules of this paragraph (d) apply to the transfer of target assets to the purchasing corporation (or another member of the same affiliated group as the purchasing corporation) (the transferee) following a qualified stock purchase of target stock, if the purchasing corporation does not make a section 338 election for target. Notwithstanding the rules of this paragraph (d), section 354(a) (and so much of section 356 as relates to section 354) cannot apply to any person other than the purchasing corporation or another member of the same affiliated group as the purchasing corporation unless the transfer of target assets is pursuant to a reorganization as determined without regard to this paragraph (d).

(2) *Continuity of interest.* By virtue of section 338, in determining whether the continuity of interest requirement of § 1.368-1(b) is satisfied on the transfer of assets from target to the transferee, the purchasing corporation's target stock acquired in the qualified stock purchase represents an interest on the part of a person who was an owner of the target's business enterprise prior to the transfer that can be continued in a reorganization.

(3) *Control requirement.* By virtue of section 338, the acquisition of target stock in the qualified stock purchase will not prevent the purchasing corporation from qualifying as a shareholder of the target transferor for the purpose of determining whether, immediately after the transfer of target assets, a shareholder of the transferor is in control of the corporation to which the assets are transferred within the meaning of section 368(a)(1)(D).

(4) *Solely for voting stock requirement.* By virtue of section 338, the acquisition of target stock in the qualified stock purchase for consideration other than voting stock will not prevent the subsequent transfer of target assets from satisfying the solely for voting stock requirement for purposes of determining if the transfer of target assets qualifies as a reorganization under section 368(a)(1)(C).

(5) *Example.* The following example illustrates this paragraph (d):

Example. (i) *Facts.* P, T, and X are domestic corporations. T and X each operate a trade or business. A and K, individuals unrelated to P, own 85 and 15 percent, respectively, of the stock of T. P owns all of the stock of X. The total adjusted basis of T's property exceeds the sum of T's liabilities plus the amount of liabilities to which T's property is subject. P purchases all of A's T stock for cash in a qualified stock purchase. P does not make an election under section 338(g) with respect to its acquisition of T stock. Shortly after the acquisition date, and as part of the same plan, T merges under applicable state law into X in a transaction that, but for the question of continuity of interest, satisfies all the requirements of section 368(a)(1)(A). In the merger, all of T's assets are transferred to X. P and K receive X stock in exchange for their T stock. P intends to retain the stock of X indefinitely.

(ii) *Status of transfer as a reorganization.* By virtue of section 338, for the purpose of determining whether the continuity of interest

requirement of §1.368-1(b) is satisfied, P's T stock acquired in the qualified stock purchase represents an interest on the part of a person who was an owner of T's business enterprise prior to the transfer that can be continued in a reorganization through P's continuing ownership of X. Thus, the continuity of interest requirement is satisfied and the merger of T into X is a reorganization within the meaning of section 368(a)(1)(A). Moreover, by virtue of section 338, the requirement of section 368(a)(1)(D) that a target shareholder control the transferee immediately after the transfer is satisfied because P controls X immediately after the transfer. In addition, all of T's assets are transferred to X in the merger and P and K receive the X stock exchanged therefor in pursuance of the plan of reorganization. Thus, the merger of T into X is also a reorganization within the meaning of section 368(a)(1)(D).

(iii) *Treatment of T and X.* Under section 361(a), T recognizes no gain or loss in the merger. Under section 362(b), X's basis in the assets received in the merger is the same as the basis of the assets in T's hands. X succeeds to and takes into account the items of T as provided in section 381.

(iv) *Treatment of P.* By virtue of section 338, the transfer of T assets to X is a reorganization. Pursuant to that reorganization, P exchanges its T stock solely for stock of X, a party to the reorganization. Because P is the purchasing corporation, section 354 applies to P's exchange of T stock for X stock in the merger of T into X. Thus, P recognizes no gain or loss on the exchange. Under section 358, P's basis in the X stock received in the exchange is the same as the basis of P's T stock exchanged therefor.

(v) *Treatment of K.* Because K is not the purchasing corporation (or an affiliate thereof), section 354 cannot apply to K's exchange of T stock for X stock in the merger of T into X unless the transfer of T's assets is pursuant to a reorganization as determined without regard to this paragraph (d). Under general principles of tax law applicable to reorganizations, the continuity of interest requirement is not satisfied because P's stock purchase and the merger of T into X are pursuant to an integrated transaction in which A, the owner of 85 percent of the stock of T, received solely cash in exchange for A's T stock. See, e.g., §1.368-1(e)(1)(i); *Yoc Heating v. Commissioner*, 61 T.C. 168 (1973); *Kass v. Commissioner*, 60 T.C. 218 (1973), aff'd, 491 F.2d 749 (3d Cir. 1974). Thus, the requisite continuity of interest under §1.368-1(b) is lacking and section 354 does not apply to K's exchange of T stock for X stock. K recognizes

gain or loss, if any, pursuant to section 1001(c) with respect to its T stock.

[T.D. 8940, 66 FR 9929, Feb. 13, 2001; 66 FR 17363, Mar. 30, 2001, as amended by T.D. 9071, 68 FR 40768, July 9, 2003; T.D. 9271, 71 FR 38075, July 5, 2006]

§ 1.338-4 Aggregate deemed sale price; various aspects of taxation of the deemed asset sale.

(a) *Scope.* This section provides rules under section 338(a)(1) to determine the aggregate deemed sale price (ADSP) for target. ADSP is the amount for which old target is deemed to have sold all of its assets in the deemed asset sale. ADSP is allocated among target's assets in accordance with §1.338-6 to determine the amount for which each asset is deemed to have been sold. When a subsequent increase or decrease is required under general principles of tax law with respect to an element of ADSP, the redetermined ADSP is allocated among target's assets in accordance with §1.338-7. This §1.338-4 also provides rules regarding the recognition of gain or loss on the deemed sale of target affiliate stock. Notwithstanding section 338(h)(6)(B)(ii), stock held by a target affiliate in a foreign corporation or in a corporation that is a DISC or that is described in section 1248(e) is not excluded from the operation of section 338.

(b) *Determination of ADSP—(1) General rule.* ADSP is the sum of—

(i) The grossed-up amount realized on the sale to the purchasing corporation of the purchasing corporation's recently purchased target stock (as defined in section 338(b)(6)(A)); and

(ii) The liabilities of old target.

(2) *Time and amount of ADSP—(i) Original determination.* ADSP is initially determined at the beginning of the day after the acquisition date of target. General principles of tax law apply in determining the timing and amount of the elements of ADSP.

(ii) *Redetermination of ADSP.* ADSP is redetermined at such time and in such amount as an increase or decrease would be required, under general principles of tax law, for the elements of

ADSP. For example, ADSP is redetermined because of an increase or decrease in the amount realized for recently purchased stock or because liabilities not originally taken into account in determining ADSP are subsequently taken into account. Increases or decreases with respect to the elements of ADSP result in the reallocation of ADSP among target's assets under § 1.338-7.

(iii) *Example.* The following example illustrates this paragraph (b)(2):

Example. In Year 1, T, a manufacturer, purchases a customized delivery truck from X with purchase money indebtedness having a stated principal amount of \$100,000. P acquires all of the stock of T in Year 3 for \$700,000 and makes a section 338 election for T. Assume T has no liabilities other than its purchase money indebtedness to X. In Year 4, when T is neither insolvent nor in a title 11 case, T and X agree to reduce the amount of the purchase money indebtedness to \$80,000. Assume further that the reduction would be a purchase price reduction under section 108(e)(5). T and X's agreement to reduce the amount of the purchase money indebtedness would not, under general principles of tax law that would apply if the deemed asset sale had actually occurred, change the amount of liabilities of old target taken into account in determining its amount realized. Accordingly, ADSP is not redetermined at the time of the reduction. See § 1.338-5(b)(2)(iii) *Example 1* for the effect on AGUB.

(c) *Grossed-up amount realized on the sale to the purchasing corporation of the purchasing corporation's recently purchased target stock—(1) Determination of amount.* The grossed-up amount realized on the sale to the purchasing corporation of the purchasing corporation's recently purchased target stock is an amount equal to—

(i) The amount realized on the sale to the purchasing corporation of the purchasing corporation's recently purchased target stock determined as if the selling shareholder(s) were required to use old target's accounting methods and characteristics and the installment method were not available and determined without regard to the selling costs taken into account under paragraph (c)(1)(iii) of this section;

(ii) Divided by the percentage of target stock (by value, determined on the acquisition date) attributable to that recently purchased target stock;

(iii) Less the selling costs incurred by the selling shareholders in connection with the sale to the purchasing corporation of the purchasing corporation's recently purchased target stock that reduce their amount realized on the sale of the stock (e.g., brokerage commissions and any similar costs to sell the stock).

(2) *Example.* The following example illustrates this paragraph (c):

Example. T has two classes of stock outstanding, voting common stock and preferred stock described in section 1504(a)(4). On March 1 of Year 1, P purchases 40 percent of the outstanding T stock from S1 for \$500, 20 percent of the outstanding T stock from S2 for \$225, and 20 percent of the outstanding T stock from S3 for \$275. On that date, the fair market value of all the T voting common stock is \$1,250 and the preferred stock \$750. S1, S2, and S3 incur \$40, \$35, and \$25 respectively of selling costs. S1 continues to own the remaining 20 percent of the outstanding T stock. The grossed-up amount realized on the sale to P of P's recently purchased T stock is calculated as follows: The total amount realized (without regard to selling costs) is \$1,000 (500 + 225 + 275). The percentage of T stock by value on the acquisition date attributable to the recently purchased T stock is 50% (1,000/(1,250 + 750)). The selling costs are \$100 (40 + 35 + 25). The grossed-up amount realized is \$1,900 (1,000/.5 - 100).

(d) *Liabilities of old target—(1) In general.* In general, the liabilities of old target are measured as of the beginning of the day after the acquisition date. (But see § 1.338-1(d) (regarding certain transactions on the acquisition date).) In order to be taken into account in ADSP, a liability must be a liability of target that is properly taken into account in amount realized under general principles of tax law that would apply if old target had sold its assets to an unrelated person for consideration that included the discharge of its liabilities. See § 1.1001-2(a). Such liabilities may include liabilities for the tax consequences resulting from the deemed sale.

(2) *Time and amount of liabilities.* The time for taking into account liabilities of old target in determining ADSP and the amount of the liabilities taken into account is determined as if old target had sold its assets to an unrelated person for consideration that included the

discharge of the liabilities by the unrelated person. For example, if no amount of a target liability is properly taken into account in amount realized as of the beginning of the day after the acquisition date, the liability is not initially taken into account in determining ADSP (although it may be taken into account at some later date).

(e) *Deemed sale tax consequences.* Gain or loss on each asset in the deemed sale is computed by reference to the ADSP allocated to that asset. ADSP is allocated under the rules of §1.338-6. Though deemed sale tax consequences may increase or decrease ADSP by creating or reducing a tax liability, the amount of the tax liability itself may be a function of the size of the deemed sale tax consequences. Thus, these determinations may require trial and error computations.

(f) *Other rules apply in determining ADSP.* ADSP may not be applied in such a way as to contravene other applicable rules. For example, a capital loss cannot be applied to reduce ordinary income in calculating the tax liability on the deemed sale for purposes of determining ADSP.

(g) *Examples.* The following examples illustrate this section. For purposes of the examples in this paragraph (g), unless otherwise stated, T is a calendar year taxpayer that files separate returns and that has no loss, tax credit, or other carryovers to Year 1. Depreciation for Year 1 is not taken into account. T has no liabilities other than the Federal income tax liability resulting from the deemed asset sale, and the T shareholders have no selling costs. Assume that T's tax rate for any ordinary income or net capital gain resulting from the deemed sale of assets is 34 percent and that any capital loss is offset by capital gain. On July 1 of Year 1, P purchases all of the stock of T and makes a section 338 election for T. The examples are as follows:

Example 1. One class. (i) On July 1 of Year 1, T's only asset is an item of section 1245 property with an adjusted basis to T of \$50,400, a recomputed basis of \$80,000, and a

fair market value of \$100,000. P purchases all of the T stock for \$75,000, which also equals the amount realized for the stock determined as if the selling shareholder(s) were required to use old target's accounting methods and characteristics.

(ii) ADSP is determined as follows (for purposes of this section (g), G is the grossed-up amount realized on the sale to P of P's recently purchased T stock, L is T's liabilities other than T's tax liability for the deemed sale tax consequences, T_R is the applicable tax rate, and B is the adjusted basis of the asset deemed sold):

$$\begin{aligned} \text{ADSP} &= G + L + T_R \times (\text{ADSP} - B) \\ \text{ADSP} &= (\$75,000/1) + \$0 + .34 \times (\text{ADSP} - \$50,400) \\ \text{ADSP} &= \$75,000 + .34\text{ADSP} - \$17,136.66\text{ADSP} \\ &= \$57,864 \\ \text{ADSP} &= \$87,672.72 \end{aligned}$$

(iii) Because ADSP for T (\$87,672.72) does not exceed the fair market value of T's asset (\$100,000), a Class V asset, T's entire ADSP is allocated to that asset. Thus, T's deemed sale results in \$37,272.72 of taxable income (consisting of \$29,600 of ordinary income and \$7,672.72 of capital gain).

(iv) The facts are the same as in paragraph (i) of this *Example 1*, except that on July 1 of Year 1, P purchases only 80 of the 100 shares of T stock for \$60,000. The grossed-up amount realized on the sale to P of P's recently purchased T stock (G) is \$75,000 ($\$60,000/8$). Consequently, ADSP and the deemed sale tax consequences are the same as in paragraphs (ii) and (iii) of this *Example 1*.

(v) The facts are the same as in paragraph (i) of this *Example 1*, except that T also has goodwill (a Class VII asset) with an appraised value of \$10,000. The results are the same as in paragraphs (ii) and (iii) of this *Example 1*. Because ADSP does not exceed the fair market value of the Class V asset, no amount is allocated to the Class VII asset (goodwill).

Example 2. More than one class. (i) P purchases all of the T stock for \$140,000, which also equals the amount realized for the stock determined as if the selling shareholder(s) were required to use old target's accounting methods and characteristics. On July 1 of Year 1, T has liabilities (not including the tax liability for the deemed sale tax consequences) of \$50,000, cash (a Class I asset) of \$10,000, actively traded securities (a Class II asset) with a basis of \$4,000 and a fair market value of \$10,000, goodwill (a Class VII asset) with a basis of \$3,000, and the following Class V assets:

Asset	Basis	FMV	Ratio of asset FMV to total Class V FMV
Land	\$5,000	\$35,000	.14
Building	10,000	50,000	.20
Equipment A (Recomputed basis \$80,000)	5,000	90,000	.36
Equipment B (Recomputed basis \$20,000)	10,000	75,000	.30
Totals	\$30,000	\$250,000	1.00

(ii) ADSP exceeds \$20,000. Thus, \$10,000 of ADSP is allocated to the cash and \$10,000 to the actively traded securities. The amount allocated to an asset (other than a Class VII asset) cannot exceed its fair market value (however, the fair market value of any property subject to nonrecourse indebtedness is treated as being not less than the amount of such indebtedness; see §1.338-6(a)(2)). See §1.338-6(c)(1) (relating to fair market value limitation).

(iii) The portion of ADSP allocable to the Class V assets is preliminarily determined as follows (in the formula, the amount allocated to the Class I assets is referred to as I and the amount allocated to the Class II assets as II):

$$ADSP_V = (G - (I + II)) + L + T_R \times [(II - B_{II}) + (ADSP_V - B_V)]$$

$$ADSP_V = (\$140,000 - (\$10,000 + \$10,000)) + \$50,000 + .34 \times [(\$10,000 - \$4,000) + (ADSP_V - (\$5,000 + \$10,000 + \$5,000 + \$10,000))]$$

$$ADSP_V = \$161,840 + .34ADSP_V$$

$$.66 ADSP_V = \$161,840$$

$$ADSP_V = \$245,212.12$$

(iv) Because, under the preliminary calculations of ADSP, the amount to be allocated to the Class I, II, III, IV, V, and VI assets does not exceed their aggregate fair market value, no ADSP amount is allocated to goodwill. Accordingly, the deemed sale of the goodwill results in a capital loss of \$3,000. The portion of ADSP allocable to the Class V assets is finally determined by taking into account this loss as follows:

$$ADSP_V = (G - (I + II)) + L + T_R \times [(II - B_{II}) + (ADSP_V - B_V) + (ADSP_{VII} - B_{VII})]$$

$$ADSP_V = (\$140,000 - (\$10,000 + \$10,000)) + \$50,000 + .34 \times [(\$10,000 - \$4,000) + (ADSP_V - \$30,000) + (\$0 - \$3,000)]$$

$$ADSP_V = \$160,820 + .34ADSP_V$$

$$.66 ADSP_V = \$160,820$$

$$ADSP_V = \$243,666.67$$

(v) The allocation of ADSP_V among the Class V assets is in proportion to their fair market values, as follows:

Asset	ADSP	Gain
Land	\$34,113.33	\$29,113.33 (capital gain).
Building	48,733.34	38,733.34 (capital gain).
Equipment A	87,720.00	82,720.00 (75,000 ordinary income 7,720 capital gain).
Equipment B	73,100.00	63,100.00 (10,000 ordinary income 53,100 capital gain).
Totals	243,666.67	213,666.67.

Example 3. More than one class. (i) The facts are the same as in *Example 2*, except that P purchases the T stock for \$150,000, rather than \$140,000. The amount realized for the stock determined as if the selling shareholder(s) were required to use old target's accounting methods and characteristics is also \$150,000.

(ii) As in *Example 2*, ADSP exceeds \$20,000. Thus, \$10,000 of ADSP is allocated to the cash and \$10,000 to the actively traded securities.

(iii) The portion of ADSP allocable to the Class V assets as preliminarily determined under the formula set forth in paragraph (iii) of *Example 2* is \$260,363.64. The amount allocated to the Class V assets cannot exceed

their aggregate fair market value (\$250,000). Thus, preliminarily, the ADSP amount allocated to Class V assets is \$250,000.

(iv) Based on the preliminary allocation, the ADSP is determined as follows (in the formula, the amount allocated to the Class I assets is referred to as I, the amount allocated to the Class II assets as II, and the amount allocated to the Class V assets as V):

$$ADSP = G + L + T_R \times [(II - B_{II}) + (V - B_V) + (ADSP - (I + II + V + B_{VII}))]$$

$$ADSP = \$150,000 + \$50,000 + .34 \times [(\$10,000 - \$4,000) + (\$250,000 - \$30,000) + (ADSP - (\$10,000 + \$10,000 + \$250,000 + \$3,000))]$$

$$ADSP = \$200,000 + .34ADSP - \$15,980$$

$$.66ADSP = \$184,020$$

$$ADSP = \$278,818.18$$

(v) Because ADSP as determined exceeds the aggregate fair market value of the Class I, II, III, IV, V, and VI assets, the \$250,000 amount preliminarily allocated to the Class V assets is appropriate. Thus, the amount of ADSP allocated to Class V assets equals their aggregate fair market value (\$250,000), and the allocated ADSP amount for each Class V asset is its fair market value. Further, because there are no Class VI assets, the allocable ADSP amount for the Class VII asset (goodwill) is \$8,818.18 (the excess of ADSP over the aggregate ADSP amounts for the Class I, II, III, IV, V and VI assets).

Example 4. Amount allocated to T1 stock. (i) The facts are the same as in *Example 2*, except that T owns all of the T1 stock (instead of the building), and T1's only asset is the building. The T1 stock and the building each have a fair market value of \$50,000, and the building has a basis of \$10,000. A section 338 election is made for T1 (as well as T), and T1 has no liabilities other than the tax liability for the deemed sale tax consequences. T is the common parent of a consolidated group filing a final consolidated return described in § 1.338-10(a)(1).

(ii) ADSP exceeds \$20,000. Thus, \$10,000 of ADSP is allocated to the cash and \$10,000 to the actively traded securities.

(iii) Because T does not recognize any gain on the deemed sale of the T1 stock under paragraph (h)(2) of this section, appropriate adjustments must be made to reflect accurately the fair market value of the T and T1 assets in determining the allocation of ADSP among T's Class V assets (including the T1 stock). In preliminarily calculating ADSP_V in this case, the T1 stock can be disregarded and, because T owns all of the T1 stock, the T1 asset can be treated as a T asset. Under this assumption, ADSP_V is \$243,666.67. See paragraph (iv) of *Example 2*.

(iv) Because the portion of the preliminary ADSP allocable to Class V assets (\$243,666.67) does not exceed their fair market value (\$250,000), no amount is allocated to Class VII assets for T. Further, this amount (\$243,666.67) is allocated among T's Class V assets in proportion to their fair market values. See paragraph (v) of *Example 2*. Tentatively, \$48,733.34 of this amount is allocated to the T1 stock.

(v) The amount tentatively allocated to the T1 stock, however, reflects the tax incurred on the deemed sale of the T1 asset equal to \$13,169.34 (.34 × (\$48,733.34 - \$10,000)). Thus, the ADSP allocable to the Class V assets of T, and the ADSP allocable to the T1 stock, as preliminarily calculated, each must be reduced by \$13,169.34. Consequently, these amounts, respectively, are \$230,497.33 and \$35,564.00. In determining ADSP for T1, the grossed-up amount realized on the deemed sale to new T of new T's recently purchased T1 stock is \$35,564.00.

(vi) The facts are the same as in paragraph (i) of this *Example 4*, except that the T1 building has a \$12,500 basis and a \$62,500 value, all of the outstanding T1 stock has a \$62,500 value, and T owns 80 percent of the T1 stock. In preliminarily calculating ADSP_V, the T1 stock can be disregarded but, because T owns only 80 percent of the T1 stock, only 80 percent of T1 asset basis and value should be taken into account in calculating T's ADSP. By taking into account 80 percent of these amounts, the remaining calculations and results are the same as in paragraphs (ii), (iii), (iv), and (v) of this *Example 4*, except that the grossed-up amount realized on the sale of the recently purchased T1 stock is \$44,455.00 (\$35,564.00/0.8).

(h) *Deemed sale of target affiliate stock*—(1) *Scope.* This paragraph (h) prescribes rules relating to the treatment of gain or loss realized on the deemed sale of stock of a target affiliate when a section 338 election (but not a section 338(h)(10) election) is made for the target affiliate. For purposes of this paragraph (h), the definition of domestic corporation in § 1.338-2(c)(9) is applied without the exclusion therein for DISCs, corporations described in section 1248(e), and corporations to which an election under section 936 applies.

(2) *In general.* Except as otherwise provided in this paragraph (h), if a section 338 election is made for target, target recognizes no gain or loss on the deemed sale of stock of a target affiliate having the same acquisition date and for which a section 338 election is made if—

(i) Target directly owns stock in the target affiliate satisfying the requirements of section 1504(a)(2);

(ii) Target and the target affiliate are members of a consolidated group filing a final consolidated return described in § 1.338-10(a)(1); or

(iii) Target and the target affiliate file a combined return under § 1.338-10(a)(4).

(3) *Deemed sale of foreign target affiliate by a domestic target.* A domestic target recognizes gain or loss on the deemed sale of stock of a foreign target affiliate. For the proper treatment of such gain or loss, see, e.g., sections 1246, 1248, 1291 *et seq.*, and 338(h)(16) and § 1.338-9.

(4) *Deemed sale producing effectively connected income.* A foreign target recognizes gain or loss on the deemed sale of stock of a foreign target affiliate to

the extent that such gain or loss is effectively connected (or treated as effectively connected) with the conduct of a trade or business in the United States.

(5) *Deemed sale of insurance company target affiliate electing under section 953(d).* A domestic target recognizes gain (but not loss) on the deemed sale of stock of a target affiliate that has in effect an election under section 953(d) in an amount equal to the lesser of the gain realized or the earnings and profits described in section 953(d)(4)(B).

(6) *Deemed sale of DISC target affiliate.* A foreign or domestic target recognizes gain (but not loss) on the deemed sale of stock of a target affiliate that is a DISC or a former DISC (as defined in section 992(a)) in an amount equal to the lesser of the gain realized or the amount of accumulated DISC income determined with respect to such stock under section 995(c). Such gain is included in gross income as a dividend as provided in sections 995(c)(2) and 996(g).

(7) *Anti-stuffing rule.* If an asset the adjusted basis of which exceeds its fair market value is contributed or transferred to a target affiliate as transferred basis property (within the meaning of section 7701(a)(43)) and a purpose of such transaction is to reduce the gain (or increase the loss) recognized on the deemed sale of such target affiliate's stock, the gain or loss recognized by target on the deemed sale of stock of the target affiliate is determined as if such asset had not been contributed or transferred.

(8) *Examples.* The following examples illustrate this paragraph (h):

Example 1. (i) P makes a qualified stock purchase of T and makes a section 338 election for T. T's sole asset, all of the T1 stock, has a basis of \$50 and a fair market value of \$150. T's deemed purchase of the T1 stock results in a qualified stock purchase of T1 and a section 338 election is made for T1. T1's assets have a basis of \$50 and a fair market value of \$150.

(ii) T realizes \$100 of gain on the deemed sale of the T1 stock, but the gain is not recognized because T directly owns stock in T1 satisfying the requirements of section 1504(a)(2) and a section 338 election is made for T1.

(iii) T1 recognizes gain of \$100 on the deemed sale of its assets.

Example 2. The facts are the same as in *Example 1*, except that P does not make a section 338 election for T1. Because a section 338

election is not made for T1, the \$100 gain realized by T on the deemed sale of the T1 stock is recognized.

Example 3. (i) P makes a qualified stock purchase of T and makes a section 338 election for T. T owns all of the stock of T1 and T2. T's deemed purchase of the T1 and T2 stock results in a qualified stock purchase of T1 and T2 and section 338 elections are made for T1 and T2. T1 and T2 each own 50 percent of the vote and value of T3 stock. The deemed purchases by T1 and T2 of the T3 stock result in a qualified stock purchase of T3 and a section 338 election is made for T3. T is the common parent of a consolidated group and all of the deemed asset sales are reported on the T group's final consolidated return. See § 1.338-10(a)(1).

(ii) Because T, T1, T2 and T3 are members of a consolidated group filing a final consolidated return, no gain or loss is recognized by T, T1 or T2 on their respective deemed sales of target affiliate stock.

Example 4. (i) T's sole asset, all of the FT1 stock, has a basis of \$25 and a fair market value of \$150. FT1's sole asset, all of the FT2 stock, has a basis of \$75 and a fair market value of \$150. FT1 and FT2 each have \$50 of accumulated earnings and profits for purposes of section 1248(c) and (d). FT2's assets have a basis of \$125 and a fair market value of \$150, and their sale would not generate subpart F income under section 951. The sale of the FT2 stock or assets would not generate income effectively connected with the conduct of a trade or business within the United States. FT1 does not have an election in effect under section 953(d) and neither FT1 nor FT2 is a passive foreign investment company.

(ii) P makes a qualified stock purchase of T and makes a section 338 election for T. T's deemed purchase of the FT1 stock results in a qualified stock purchase of FT1 and a section 338 election is made for FT1. Similarly, FT1's deemed purchase of the FT2 stock results in a qualified stock purchase of FT2 and a section 338 election is made for FT2.

(iii) T recognizes \$125 of gain on the deemed sale of the FT1 stock under paragraph (h)(3) of this section. FT1 does not recognize \$75 of gain on the deemed sale of the FT2 stock under paragraph (h)(2) of this section. FT2 recognizes \$25 of gain on the deemed sale of its assets. The \$125 gain T recognizes on the deemed sale of the FT1 stock is included in T's income as a dividend under section 1248, because FT1 and FT2 have sufficient earnings and profits for full re-characterization (\$50 of accumulated earnings and profits in FT1, \$50 of accumulated earnings and profits in FT2, and \$25 of deemed sale earnings and profits in FT2). Section 1.338-9(b). For purposes of sections 901 through 908, the source and foreign tax credit limitation basket of \$25 of the re-characterized gain on the deemed sale of the

FTI stock is determined under section 338(h)(16).

[T.D. 8940, 66 FR 9929, Feb. 13, 2001; 66 FR 17466, Mar. 30, 2001]

§ 1.338-5 Adjusted grossed-up basis.

(a) *Scope.* This section provides rules under section 338(b) to determine the adjusted grossed-up basis (AGUB) for target. AGUB is the amount for which new target is deemed to have purchased all of its assets in the deemed purchase under section 338(a)(2). AGUB is allocated among target's assets in accordance with § 1.338-6 to determine the price at which the assets are deemed to have been purchased. When a subsequent increase or decrease with respect to an element of AGUB is required under general principles of tax law, redetermined AGUB is allocated among target's assets in accordance with § 1.338-7.

(b) *Determination of AGUB*—(1) *General rule.* AGUB is the sum of—

(i) The grossed-up basis in the purchasing corporation's recently purchased target stock;

(ii) The purchasing corporation's basis in nonrecently purchased target stock; and

(iii) The liabilities of new target.

(2) *Time and amount of AGUB*—(i) *Original determination.* AGUB is initially determined at the beginning of the day after the acquisition date of target. General principles of tax law apply in determining the timing and amount of the elements of AGUB.

(ii) *Redetermination of AGUB.* AGUB is redetermined at such time and in such amount as an increase or decrease would be required, under general principles of tax law, with respect to an element of AGUB. For example, AGUB is redetermined because of an increase or decrease in the amount paid or incurred for recently purchased stock or nonrecently purchased stock or because liabilities not originally taken into account in determining AGUB are subsequently taken into account. An increase or decrease to one element of AGUB also may cause an increase or decrease to another element of AGUB. For example, if there is an increase in the amount paid or incurred for recently purchased stock after the acquisition date, any increase in the basis of

nonrecently purchased stock because a gain recognition election was made is also taken into account when AGUB is redetermined. Increases or decreases with respect to the elements of AGUB result in the reallocation of AGUB among target's assets under § 1.338-7.

(iii) *Examples.* The following examples illustrate this paragraph (b)(2):

Example 1. In Year 1, T, a manufacturer, purchases a customized delivery truck from X with purchase money indebtedness having a stated principal amount of \$100,000. P acquires all of the stock of T in Year 3 for \$700,000 and makes a section 338 election for T. Assume T has no liabilities other than its purchase money indebtedness to X. In Year 4, when T is neither insolvent nor in a title 11 case, T and X agree to reduce the amount of the purchase money indebtedness to \$80,000. Assume that the reduction would be a purchase price reduction under section 108(e)(5). T and X's agreement to reduce the amount of the purchase money indebtedness would, under general principles of tax law that would apply if the deemed asset sale had actually occurred, change the amount of liabilities of old target taken into account in determining its basis. Accordingly, AGUB is redetermined at the time of the reduction. See paragraph (e)(2) of this section. Thus the purchase price reduction affects the basis of the truck only indirectly, through the mechanism of §§ 1.338-6 and 1.338-7. See § 1.338-4(b)(2)(iii) *Example* for the effect on ADSP.

Example 2. T, an accrual basis taxpayer, is a chemical manufacturer. In Year 1, T is obligated to remediate environmental contamination at the site of one of its plants. Assume that all the events have occurred that establish the fact of the liability and the amount of the liability can be determined with reasonable accuracy but economic performance has not occurred with respect to the liability within the meaning of section 461(h). P acquires all of the stock of T in Year 1 and makes a section 338 election for T. Assume that, if a corporation unrelated to T had actually purchased T's assets and assumed T's obligation to remediate the contamination, the corporation would not satisfy the economic performance requirements until Year 5. Under section 461(h), the assumed liability would not be treated as incurred and taken into account in basis until that time. The incurrence of the liability in Year 5 under the economic performance rules is an increase in the amount of liabilities properly taken into account in basis and results in the redetermination of AGUB. (Respecting ADSP, compare § 1.461-4(d)(5), which provides that economic performance occurs for old T as the amount of the liability is properly taken into account in amount realized on the deemed asset sale. Thus ADSP is

not redetermined when new T satisfies the economic performance requirements.)

(c) *Grossed-up basis of recently purchased stock.* The purchasing corporation's grossed-up basis of recently purchased target stock (as defined in section 338(b)(6)(A)) is an amount equal to—

(1) The purchasing corporation's basis in recently purchased target stock at the beginning of the day after the acquisition date determined without regard to the acquisition costs taken into account in paragraph (c)(3) of this section;

(2) Multiplied by a fraction, the numerator of which is 100 minus the number that is the percentage of target stock (by value, determined on the acquisition date) attributable to the purchasing corporation's nonrecently purchased target stock, and the denominator of which is the number equal to the percentage of target stock (by value, determined on the acquisition date) attributable to the purchasing corporation's recently purchased target stock;

(3) Plus the acquisition costs the purchasing corporation incurred in connection with its purchase of the recently purchased stock that are capitalized in the basis of such stock (e.g., brokerage commissions and any similar costs incurred by the purchasing corporation to acquire the stock).

(d) *Basis of nonrecently purchased stock; gain recognition election.*—(1) *No gain recognition election.* In the absence of a gain recognition election under section 338(b)(3) and this section, the purchasing corporation retains its basis in the nonrecently purchased stock.

(2) *Procedure for making gain recognition election.* A gain recognition election may be made for nonrecently purchased stock of target (or a target affiliate) only if a section 338 election is made for target (or the target affiliate). The gain recognition election is made by attaching a gain recognition statement to a timely filed Form 8023 for target. The gain recognition statement must contain the information specified in the form and its instructions. The gain recognition election is irrevocable. If a section 338(h)(10) election is made for target, see

§ 1.338(h)(10)-1(d)(1) (providing that the purchasing corporation is automatically deemed to have made a gain recognition election for its nonrecently purchased T stock).

(3) *Effect of gain recognition election.*—

(i) *In general.* If the purchasing corporation makes a gain recognition election, then for all purposes of the Internal Revenue Code—

(A) The purchasing corporation is treated as if it sold on the acquisition date the nonrecently purchased target stock for the basis amount determined under paragraph (d)(3)(ii) of this section; and

(B) The purchasing corporation's basis on the acquisition date in nonrecently purchased target stock immediately following the deemed sale in paragraph (d)(3)(i)(A) of this section is the basis amount.

(ii) *Basis amount.* The basis amount is equal to the amount in paragraphs (c)(1) and (2) of this section (the purchasing corporation's grossed-up basis in recently purchased target stock at the beginning of the day after the acquisition date determined without regard to the acquisition costs taken into account in paragraph (c)(3) of this section) multiplied by a fraction the numerator of which is the percentage of target stock (by value, determined on the acquisition date) attributable to the purchasing corporation's nonrecently purchased target stock and the denominator of which is 100 percent minus the numerator amount. Thus, if target has a single class of outstanding stock, the purchasing corporation's basis in each share of nonrecently purchased target stock after the gain recognition election is equal to the average price per share of the purchasing corporation's recently purchased target stock.

(iii) *Losses not recognized.* Only gains (unreduced by losses) on the nonrecently purchased target stock are recognized.

(iv) *Stock subject to election.* The gain recognition election applies to—

(A) All nonrecently purchased target stock; and

(B) Any nonrecently purchased stock in a target affiliate having the same

acquisition date as target if such target affiliate stock is held by the purchasing corporation on such date.

(e) *Liabilities of new target*—(1) *In general*. The liabilities of new target are the liabilities of tax target as of the beginning of the day after the acquisition date (but see § 1.338-1(d) (regarding certain transactions on the acquisition date)). In order to be taken into account in AGUB, a liability must be a liability of target that is properly taken into account in basis under general principles of tax law that would apply if new target had acquired its assets from an unrelated person for consideration that included discharge of the liabilities of that unrelated person. Such liabilities may include liabilities for the tax consequences resulting from the deemed sale.

(2) *Time and amount of liabilities*. The time for taking into account liabilities of old target in determining AGUB and the amount of the liabilities taken into account is determined as if new target had acquired its assets from an unrelated person for consideration that included the discharge of its liabilities.

(3) *Interaction with deemed sale tax consequences*. In general, see § 1.338-4(e). Although ADSP and AGUB are not necessarily linked, if an increase in the amount realized for recently purchased stock of target is taken into account after the acquisition date, and if the tax on the deemed sale tax consequences is a liability of target, any increase in that liability is also taken into account in redetermining AGUB.

(f) *Adjustments by the Internal Revenue Service*. In connection with the examination of a return, the Commissioner may increase (or decrease) AGUB under the authority of section 338(b)(2) and allocate such amounts to target's assets under the authority of section 338(b)(5) so that AGUB and the basis of target's assets properly reflect the cost to the purchasing corporation of its interest in target's assets. Such items may include distributions from target to the purchasing corporation, capital contributions from the purchasing corporation to target during the 12-month acquisition period, or acquisitions of target stock by the purchasing corporation after the acquisition date from minority shareholders. See also

§ 1.338-1(d) (regarding certain transactions on the acquisition date).

(g) *Examples*. The following examples illustrate this section. For purposes of the examples in this paragraph (g), T has no liabilities other than the tax liability for the deemed sale tax consequences, T shareholders incur no costs in selling the T stock, and P incurs no costs in acquiring the T stock. The examples are as follows:

Example 1. (i) Before July 1 of Year 1, P purchases 10 of the 100 shares of T stock for \$5,000. On July 1 of Year 2, P purchases 80 shares of T stock for \$60,000 and makes a section 338 election for T. As of July 1 of Year 2, T's only asset is raw land with an adjusted basis to T of \$50,400 and a fair market value of \$100,000. T has no loss or tax credit carryovers to Year 2. T's marginal tax rate for any ordinary income or net capital gain resulting from the deemed asset sale is 34 percent. The 10 shares purchased before July 1 of Year 1 constitute nonrecently purchased T stock with respect to P's qualified stock purchase of T stock on July 1 of Year 2.

(ii) The ADSP formula as applied to these facts is the same as in § 1.338-4(g) *Example 1*. Accordingly, the ADSP for T is \$87,672.72. The existence of nonrecently purchased T stock is irrelevant for purposes of the ADSP formula, because that formula treats P's nonrecently purchased T stock in the same manner as T stock not held by P.

(iii) The total tax liability resulting from T's deemed asset sale, as calculated under the ADSP formula, is \$12,672.72.

(iv) If P does not make a gain recognition election, the AGUB of new T's assets is \$85,172.72, determined as follows (In the following formula below, GRP is the grossed-up basis in P's recently purchased T stock, BNP is P's basis in nonrecently purchased T stock, L is T's liabilities, and X is P's acquisition costs for the recently purchased T stock):

$$\begin{aligned} \text{AGUB} &= \text{GRP} + \text{BNP} + \text{L} + \text{X} \\ \text{AGUB} &= \$60,000 \times [(1 - .1)/.8] + \$5,000 + \\ &\quad \$12,672.72 + 0 \\ \text{AGUB} &= \$85,172.72 \end{aligned}$$

(v) If P makes a gain recognition election, the AGUB of new T's assets is \$87,672.72, determined as follows:

$$\begin{aligned} \text{AGUB} &= \$60,000 \times [(1 - .1)/.8] + \$60,000 \times [(1 - \\ &\quad .1)/.8] \times [.1/(1 - .1)] + \$12,672.72 \\ \text{AGUB} &= \$87,672.72 \end{aligned}$$

(vi) The calculation of AGUB if P makes a gain recognition election may be simplified as follows:

$$\begin{aligned} \text{AGUB} &= \$60,000/.8 + \$12,672.72 \\ \text{AGUB} &= \$87,672.72 \end{aligned}$$

(vii) As a result of the gain recognition election, P's basis in its nonrecently purchased T stock is increased from \$5,000 to \$7,500 (i.e., $\$60,000 \times [(1 - .1)/.8] \times [.1/(1 - .1)]$). Thus, P recognizes a gain in Year 2 with respect to its nonrecently purchased T stock of \$2,500 (i.e., $\$7,500 - \$5,000$).

Example 2. On January 1 of Year 1, P purchases one-third of the T stock. On March 1 of Year 1, T distributes a dividend to all of its shareholders. On April 15 of Year 1, P purchases the remaining T stock and makes a section 338 election for T. In appropriate circumstances, the Commissioner may decrease the AGUB of T to take into account the payment of the dividend and properly reflect the fair market value of T's assets deemed purchased.

Example 3. (i) T's sole asset is a building worth \$100,000. At this time, T has 100 shares of stock outstanding. On August 1 of Year 1, P purchases 10 of the 100 shares of T stock for \$8,000. On June 1 of Year 2, P purchases 50 shares of T stock for \$50,000. On June 15 of Year 2, P contributes a tract of land to the capital of T and receives 10 additional shares of T stock as a result of the contribution. Both the basis and fair market value of the land at that time are \$10,800. On June 30 of Year 2, P purchases the remaining 40 shares of T stock for \$40,000 and makes a section 338 election for T. The AGUB of T is \$108,800.

(ii) To prevent the shifting of basis from the contributed property to other assets of T, the Commissioner may allocate \$10,800 of the AGUB to the land, leaving \$98,000 to be allocated to the building. See paragraph (f) of this section. Otherwise, applying the allocation rules of § 1.338-6 would, on these facts, result in an allocation to the recently contributed land of an amount less than its value of \$10,800, with the difference being allocated to the building already held by T.

(h) *Effective/applicability date.* Paragraph (d)(3)(ii) of this section is applicable to any qualified stock purchase or qualified stock disposition (as defined in § 1.336-1(b)(6)) for which the acquisition date or disposition date (as defined in § 1.336-1(b)(8)), respectively, is on or after May 15, 2013.

[T.D. 8940, 66 FR 9929, Feb. 13, 2001, as amended by T.D. 9619, 78 FR 28489, May 15, 2013]

§ 1.338-6 Allocation of ADSP and AGUB among target assets.

(a) *Scope—(1) In general.* This section prescribes rules for allocating ADSP and AGUB among the acquisition date assets of a target for which a section 338 election is made.

(2) *Fair market value—(i) In general.* Generally, the fair market value of an asset is its gross fair market value

(i.e., fair market value determined without regard to mortgages, liens, pledges, or other liabilities). However, for purposes of determining the amount of old target's deemed sale tax consequences, the fair market value of any property subject to a nonrecourse indebtedness will be treated as being not less than the amount of such indebtedness. (For purposes of the preceding sentence, a liability that was incurred because of the acquisition of the property is disregarded to the extent that such liability was not taken into account in determining old target's basis in such property.)

(ii) *Transaction costs.* Transaction costs are not taken into account in allocating ADSP or AGUB to assets in the deemed sale (except indirectly through their effect on the total ADSP or AGUB to be allocated).

(iii) *Internal Revenue Service authority.* In connection with the examination of a return, the Internal Revenue Service may challenge the taxpayer's determination of the fair market value of any asset by any appropriate method and take into account all factors, including any lack of adverse tax interests between the parties.

(b) *General rule for allocating ADSP and AGUB—(1) Reduction in the amount of consideration for Class I assets.* Both ADSP and AGUB, in the respective allocation of each, are first reduced by the amount of Class I assets. Class I assets are cash and general deposit accounts (including savings and checking accounts) other than certificates of deposit held in banks, savings and loan associations, and other depository institutions. If the amount of Class I assets exceeds AGUB, new target will immediately realize ordinary income in an amount equal to such excess. The amount of ADSP or AGUB remaining after the reduction is to be allocated to the remaining acquisition date assets.

(2) *Other assets—(i) In general.* Subject to the limitations and other rules of paragraph (c) of this section, ADSP and AGUB (as reduced by the amount of Class I assets) are allocated among Class II acquisition date assets of target in proportion to the fair market values of such Class II assets at such time, then among Class III assets so held in such proportion, then among

Class IV assets so held in such proportion, then among Class V assets so held in such proportion, then among Class VI assets so held in such proportion, and finally to Class VII assets. If an asset is described below as includible in more than one class, then it is included in such class with the lower or lowest class number (for instance, Class III has a lower class number than Class IV).

(ii) *Class II assets.* Class II assets are actively traded personal property within the meaning of section 1092(d)(1) and § 1.1092(d)-1 (determined without regard to section 1092(d)(3)). In addition, Class II assets include certificates of deposit and foreign currency even if they are not actively traded personal property. Class II assets do not include stock of target affiliates, whether or not of a class that is actively traded, other than actively traded stock described in section 1504(a)(4). Examples of Class II assets include U.S. government securities and publicly traded stock.

(iii) *Class III assets.* Class III assets are assets that the taxpayer marks to market at least annually for Federal income tax purposes and debt instruments (including accounts receivable). However, Class III assets do not include—

(A) Debt instruments issued by persons related at the beginning of the day following the acquisition date to the target under section 267(b) or 707;

(B) Contingent debt instruments subject to § 1.1275-4, § 1.483-4, or section 988, unless the instrument is subject to the non-contingent bond method of § 1.1275-4(b) or is described in § 1.988-2(b)(2)(i)(B)(2); and

(C) Debt instruments convertible into the stock of the issuer or other property.

(iv) *Class IV assets.* Class IV assets are stock in trade of the taxpayer or other property of a kind that would properly be included in the inventory of taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business.

(v) *Class V assets.* Class V assets are all assets other than Class I, II, III, IV, VI, and VII assets.

(vi) *Class VI assets.* Class VI assets are all section 197 intangibles, as defined in section 197, except goodwill and going concern value.

(vii) *Class VII assets.* Class VII assets are goodwill and going concern value (whether or not the goodwill or going concern value qualifies as a section 197 intangible).

(3) *Other items designated by the Internal Revenue Service.* Similar items may be added to any class described in this paragraph (b) by designation in the Internal Revenue Bulletin by the Internal Revenue Service (see § 601.601(d)(2) of this chapter).

(c) *Certain limitations and other rules for allocation to an asset—*(1) *Allocation not to exceed fair market value.* The amount of ADSP or AGUB allocated to an asset (other than Class VII assets) cannot exceed the fair market value of that asset at the beginning of the day after the acquisition date.

(2) *Allocation subject to other rules.* The amount of ADSP or AGUB allocated to an asset is subject to other provisions of the Internal Revenue Code or general principles of tax law in the same manner as if such asset were transferred to or acquired from an unrelated person in a sale or exchange. For example, if the deemed asset sale is a transaction described in section 1056(a) (relating to basis limitation for player contracts transferred in connection with the sale of a franchise), the amount of AGUB allocated to a contract for the services of an athlete cannot exceed the limitation imposed by that section. As another example, section 197(f)(5) applies in determining the amount of AGUB allocated to an amortizable section 197 intangible resulting from an assumption-reinsurance transaction.

(3) *Special rule for allocating AGUB when purchasing corporation has non-recently purchased stock—*(i) *Scope.* This paragraph (c)(3) applies if at the beginning of the day after the acquisition date—

(A) The purchasing corporation holds nonrecently purchased stock for which a gain recognition election under section 338(b)(3) and § 1.338-5(d) is not made; and

(B) The hypothetical purchase price determined under paragraph (c)(3)(ii) of

this section exceeds the AGUB determined under § 1.338-5(b).

(ii) *Determination of hypothetical purchase price.* Hypothetical purchase price is the AGUB that would result if a gain recognition election were made.

(iii) *Allocation of AGUB.* Subject to the limitations in paragraphs (c)(1) and (2) of this section, the portion of AGUB (after reduction by the amount of Class I assets) to be allocated to each Class II, III, IV, V, VI, and VII asset of target held at the beginning of the day after the acquisition date is determined by multiplying—

(A) The amount that would be allocated to such asset under the general rules of this section were AGUB equal to the hypothetical purchase price; by

(B) A fraction, the numerator of which is actual AGUB (after reduction by the amount of Class I assets) and the denominator of which is the hypothetical purchase price (after reduction by the amount of Class I assets).

(4) *Liabilities taken into account in determining amount realized on subsequent disposition.* In determining the amount realized on a subsequent sale or other disposition of property deemed purchased by new target, § 1.1001-2(a)(3) shall not apply to any liability that was taken into account in AGUB.

(5) *Allocation to certain nuclear decommissioning funds—(i) General rule.* For purposes of allocating ADSP or AGUB among the acquisition date assets of a target (and for no other purpose), a taxpayer may elect to treat a nonqualified nuclear decommissioning fund (as defined in paragraph (c)(5)(ii) of this section) of the target as if—

(A) Such fund were an entity classified as a corporation;

(B) The stock of the corporation were among the acquisition date assets of the target and a Class V asset;

(C) The corporation owned the assets of the fund;

(D) The corporation bore the responsibility for decommissioning one or more nuclear power plants to the extent assets of the fund are expected to be used for that purpose; and

(E) A section 338(h)(10) election were made for the corporation (regardless of whether the requirements for a section 338(h)(10) election are otherwise satisfied).

(ii) *Definition of nonqualified nuclear decommissioning fund.* A *nonqualified nuclear decommissioning fund* means a trust, escrow account, Government fund or other type of agreement—

(A) That is established in writing by the owner or licensee of a nuclear generating unit for the exclusive purpose of funding the decommissioning of one or more nuclear power plants;

(B) That is described to the Nuclear Regulatory Commission in a report described in 10 CFR 50.75(b) as providing assurance that funds will be available for decommissioning;

(C) That is not a Nuclear Decommissioning Reserve Fund, as described in section 468A;

(D) That is maintained at all times in the United States; and

(E) The assets of which are to be used only as permitted by 10 CFR 50.82(a)(8).

(iii) *Availability of election.* P may make the election described in this paragraph (c)(5) regardless of whether the selling consolidated group (or the selling affiliate or the S corporation shareholders) also makes the election. In addition, the selling consolidated group (or the selling affiliate or the S corporation shareholders) may make the election regardless of whether P also makes the election. If T is an S corporation, all of the S corporation shareholders, including those that do not sell their stock, must consent to the election for the election to be effective as to any S corporation shareholder.

(iv) *Time and manner of making election.* The election described in this paragraph (c)(5) is made by taking a position on an original or amended tax return for the taxable year of the qualified stock purchase that is consistent with having made the election. Such tax return must be filed no later than the later of 30 days after the date on which the section 338 election is due or the day the original tax return for the taxable year of the qualified stock purchase is due (with extensions).

(v) *Irrevocability of election.* An election made pursuant to this paragraph (c)(5) is irrevocable.

(vi) *Effective/applicability date.* This paragraph (c)(5) applies to qualified stock purchases occurring on or after September 11, 2007. For qualified stock

Internal Revenue Service, Treasury

§ 1.338-6

purchases occurring before September 11, 2007 and on or after September 15, 2004, see §1.338-6T as contained in 26 CFR part 1 in effect on April 1, 2007. For qualified stock purchases occurring before September 15, 2004, see §1.338-6 as contained in 26 CFR part 1 in effect on April 1, 2004.

(d) *Examples.* The following examples illustrate §§1.338-4, 1.338-5, and this section:

Example 1. (i) T owns 90 percent of the outstanding T1 stock. P purchases 100 percent of the outstanding T stock for \$2,000. There are no acquisition costs. P makes a section 338 election for T and, as a result, T1 is considered acquired in a qualified stock purchase. A section 338 election is made for T1. The grossed-up basis of the T stock is \$2,000 (i.e., \$2,000 + 1/1).

(ii) The liabilities of T as of the beginning of the day after the acquisition date (including the tax liability for the deemed sale tax consequences) that would, under general principles of tax law, properly be taken into account at that time, are as follows:

Liabilities (nonrecourse mortgage plus unsecured liabilities)	\$700
Taxes Payable	300
Total	1,000

(iii) The AGUB of T is determined as follows:

Grossed-up basis	\$2,000
Total liabilities	1,000
AGUB	3,000

(iv) Assume that ADSP is also \$3,000.

(v) Assume that, at the beginning of the day after the acquisition date, T's cash and the fair market values of T's Class II, III, IV, and V assets are as follows:

Asset class	Asset	Fair market value
I	Cash	*\$200
II	Portfolio of actively traded securities	300
III	Accounts receivable	600
IV	Inventory	300
V	Building	800
V	Land	200
V	Investment in T1	450
Total		2,850

*Amount.

(vi) Under paragraph (b)(1) of this section, the amount of ADSP and AGUB allocable to T's Class II, III, IV, and V assets is reduced by the amount of cash to \$2,800, i.e., \$3,000—\$200. \$300 of ADSP and of AGUB is then allocated to actively traded securities. \$600 of ADSP and of AGUB is then allocated to accounts receivable. \$300 of ADSP and of AGUB is then allocated to the inventory. Since the

remaining amount of ADSP and of AGUB is \$1,600 (i.e., \$3,000—(\$200 + \$300 + \$600 + \$300)), an amount which exceeds the sum of the fair market values of T's Class V assets, the amount of ADSP and of AGUB allocated to each Class V asset is its fair market value:

Building	\$800
Land	200
Investment in T1	450
Total	1,450

(vii) T has no Class VI assets. The amount of ADSP and of AGUB allocated to T's Class VII assets (goodwill and going concern value) is \$150, i.e., \$1,600—\$1,450.

(viii) The grossed-up basis of the T1 stock is \$500, i.e., \$450 × 1/.9.

(ix) The liabilities of T1 as of the beginning of the day after the acquisition date (including the tax liability for the deemed sale tax consequences) that would, under general principles of tax law, properly be taken into account at that time, are as follows:

General Liabilities	\$100
Taxes Payable	20
Total	120

(x) The AGUB of T1 is determined as follows:

Grossed-up basis of T1 Stock	\$ 500
Liabilities	120
AGUB	620

(xi) Assume that ADSP is also \$620.

(xii) Assume that at the beginning of the day after the acquisition date, T1's cash and the fair market values of its Class IV and VI assets are as follows:

Asset class	Asset	Fair market value
I	Cash	*\$50
IV	Inventory	200
VI	Patent	350
Total		600

*Amount.

(xiii) The amount of ADSP and of AGUB allocable to T1's Class IV and VI assets is first reduced by the \$50 of cash.

(xiv) Because the remaining amount of ADSP and of AGUB (\$570) is an amount which exceeds the fair market value of T1's only Class IV asset, the inventory, the amount allocated to the inventory is its fair market value (\$200). After that, the remaining amount of ADSP and of AGUB (\$370) exceeds the fair market value of T1's only Class VI asset, the patent. Thus, the amount of ADSP and of AGUB allocated to the patent is its fair market value (\$350).

(xv) The amount of ADSP and of AGUB allocated to T1's Class VII assets (goodwill and going concern value) is \$20, i.e., \$570—\$550.

§ 1.338-7

26 CFR Ch. I (4-1-16 Edition)

Example 2. (i) Assume that the facts are the same as in *Example 1* except that P has, for five years, owned 20 percent of T's stock, which has a basis in P's hands at the beginning of the day after the acquisition date of \$100, and P purchases the remaining 80 percent of T's stock for \$1,600. P does not make a gain recognition election under section 338(b)(3).

(ii) Under § 1.338-5(c), the grossed-up basis of recently purchased T stock is \$1,600, i.e., $\$1,600 \times (1 - .2)/.8$.

(iii) The AGUB of T is determined as follows:

Grossed-up basis of recently purchased stock as determined under § 1.338-5(c) ($\$1,600 \times (1 - .2)/.8$)	\$1,600
Basis of nonrecently purchased stock	100
Liabilities	1,000
AGUB	2,700

(iv) Since P holds nonrecently purchased stock, the hypothetical purchase price of the T stock must be computed and is determined as follows:

Grossed-up basis of recently purchased stock as determined under § 1.338-5(c) ($\$1,600 \times (1 - .2)/.8$)	\$1,600
Basis of nonrecently purchased stock as if the gain recognition election under § 1.338-5(d)(2) had been made ($\$1,600 \times .2/(1 - .2)$)	400
Liabilities	1,000
Total	3,000

(v) Since the hypothetical purchase price (\$3,000) exceeds the AGUB (\$2,700) and no gain recognition election is made under section 338(b)(3), AGUB is allocated under paragraph (c)(3) of this section.

(vi) First, an AGUB amount equal to the hypothetical purchase price (\$3,000) is allocated among the assets under the general rules of this section. The allocation is set forth in the column below entitled *Original Allocation*. Next, the allocation to each asset in Class II through Class VII is multiplied by a fraction having a numerator equal to the actual AGUB reduced by the amount of Class I assets ($\$2,700 - \$200 = \$2,500$) and a denominator equal to the hypothetical purchase price reduced by the amount of Class I assets ($\$3,000 - \$200 = \$2,800$), or $2,500/2,800$. This produces the *Final Allocation*:

Class	Asset	Original allocation	Final allocation
I	Cash	\$200	\$200
II	Portfolio of actively traded securities.	300	*268
III	Accounts receivable ...	600	536
IV	Inventory	300	268
V	Building	800	714

[T.D. 8940, 66 FR 9929, Feb. 13, 2001; 66 FR 17363, Mar. 30, 2001; T.D. 9158, 69 FR 55742, Sept. 16, 2004; T.D. 9358, 72 FR 51706, Sept. 11, 2007]

§ 1.338-7 Allocation of redetermined ADSP and AGUB among target assets.

(a) *Scope.* ADSP and AGUB are redetermined at such time and in such amount as an increase or decrease would be required under general principles of tax law for the elements of ADSP or AGUB. This section provides rules for allocating redetermined ADSP or AGUB.

(b) *Allocation of redetermined ADSP and AGUB.* When ADSP or AGUB is redetermined, a new allocation of ADSP or AGUB is made by allocating the redetermined ADSP or AGUB amount under the rules of § 1.338-6. If the allocation of the redetermined ADSP or AGUB amount under § 1.338-6 to a given asset is different from the original allocation to it, the difference is added to or subtracted from the original allocation to the asset, as appropriate. (See paragraph (d) of this section for new target's treatment of the amount so allocated.) Amounts allocable to an acquisition date asset (or with respect to a disposed-of acquisition date asset) are subject to all the asset allocation rules (for example, the fair market value limitation in § 1.338-6(c)(1)) as if the redetermined ADSP or AGUB were the ADSP or AGUB on the acquisition date.

(c) *Special rules for ADSP—(1) Increases or decreases in deemed sale tax consequences taxable notwithstanding old target ceases to exist.* To the extent general principles of tax law would require a seller in an actual asset sale to account for events relating to the sale that occur after the sale date, target must make such an accounting. Target is not precluded from realizing additional deemed sale tax consequences because the target is treated as a new corporation after the acquisition date.

(2) *Procedure for transactions in which section 338(h)(10) is not elected—(i)*

Deemed sale tax consequences included in new target's return. If an election under section 338(h)(10) is not made, any additional deemed sale tax consequences of old target resulting from an increase or decrease in the ADSP are included in new target's income tax return for new target's taxable year in which the increase or decrease is taken into account. For example, if after the acquisition date there is an increase in the allocable ADSP of section 1245 property for which the recomputed basis (but not the adjusted basis) exceeds the portion of the ADSP allocable to that particular asset on the acquisition date, the additional gain is treated as ordinary income to the extent it does not exceed such excess amount. See paragraph (c)(2)(ii) of this section for the special treatment of old target's carryovers and carrybacks. Although included in new target's income tax return, the deemed sale tax consequences are separately accounted for as an item of old target and may not be offset by income, gain, deduction, loss, credit, or other amount of new target. The amount of tax on income of old target resulting from an increase or decrease in the ADSP is determined as if such deemed sale tax consequences had been recognized in old target's taxable year ending at the close of the acquisition date. However, because the income resulting from the increase or decrease in ADSP is reportable in new target's taxable year of the increase or decrease, not in old target's taxable year ending at the close of the acquisition date, there is not a resulting underpayment of tax in that past taxable year of old target for purposes of calculation of interest due.

(ii) *Carryovers and carrybacks—(A) Loss carryovers to new target taxable years.* A net operating loss or net capital loss of old target may be carried forward to a taxable year of new target, under the principles of section 172 or 1212, as applicable, but is allowed as a deduction only to the extent of any recognized income of old target for such taxable year, as described in paragraph (c)(2)(i) of this section. For this purpose, however, taxable years of new target are not taken into account in applying the limitations in section 172(b)(1) or 1212(a)(1)(B) (or other simi-

lar limitations). In applying sections 172(b) and 1212(a)(1), only income, gain, loss, deduction, credit, and other amounts of old target are taken into account. Thus, if old target has an unexpired net operating loss at the close of its taxable year in which the deemed asset sale occurred that could be carried forward to a subsequent taxable year, such loss may be carried forward until it is absorbed by old target's income.

(B) *Loss carrybacks to taxable years of old target.* An ordinary loss or capital loss accounted for as a separate item of old target under paragraph (c)(2)(i) of this section may be carried back to a taxable year of old target under the principles of section 172 or 1212, as applicable. For this purpose, taxable years of new target are not taken into account in applying the limitations in section 172(b) or 1212(a) (or other similar limitations).

(C) *Credit carryovers and carrybacks.* The principles described in paragraphs (c)(2)(ii)(A) and (B) of this section apply to carryovers and carrybacks of amounts for purposes of determining the amount of a credit allowable under part IV, subchapter A, chapter 1 of the Internal Revenue Code. Thus, for example, credit carryovers of old target may offset only income tax attributable to items described in paragraph (c)(2)(i) of this section.

(3) *Procedure for transactions in which section 338(h)(10) is elected.* If an election under section 338(h)(10) is made, any changes in the deemed sale tax consequences caused by an increase or decrease in the ADSP are accounted for in determining the taxable income (or other amount) of the member of the selling consolidated group, the selling affiliate, or the S corporation shareholders to which such income, loss, or other amount is attributable for the taxable year in which such increase or decrease is taken into account.

(d) *Special rules for AGUB—(1) Effect of disposition or depreciation of acquisition date assets.* If an acquisition date asset has been disposed of, depreciated, amortized, or depleted by new target before an amount is added to the original allocation to the asset, the increased amount otherwise allocable to such asset is taken into account under

§ 1.338-7

26 CFR Ch. I (4-1-16 Edition)

general principles of tax law that apply when part of the cost of an asset not previously taken into account in basis is paid or incurred after the asset has been disposed of, depreciated, amortized, or depleted. A similar rule applies when an amount is subtracted from the original allocation to the asset. For purposes of the preceding sentence, an asset is considered to have been disposed of to the extent that its allocable portion of the decrease in AGUB would reduce its basis below zero.

(2) *Section 38 property.* Section 1.47-2(c) applies to a reduction in basis of section 38 property under this section.

(e) *Examples.* The following examples illustrate this section. Any amount described in the following examples is exclusive of interest. For rules characterizing deferred contingent payments as principal or interest, see §§1.483-4, 1.1274-2(g), and 1.1275-4(c). The examples are as follows:

Example 1. (i)(A) T's assets other than goodwill and going concern value, and their fair market values at the beginning of the day after the acquisition date, are as follows:

Asset class	Asset	Fair market value
V	Building	\$ 100
V	Stock of X (not a target)	200
	Total	300

(B) T has no liabilities other than a contingent liability that would not be taken into account under general principles of tax law in an asset sale between unrelated parties when the buyer assumed the liability or took property subject to it.

(ii)(A) On September 1, 2000, P purchases all of the outstanding stock of T for \$270 and makes a section 338 election for T. The grossed-up basis of the T stock and T's AGUB are both \$270. The AGUB is ratably allocated among T's Class V assets in proportion to their fair market values as follows:

Asset	Basis
Building (\$270 × 100/300)	\$90
Stock (\$270 × 200/300)	180
Total	270

(B) No amount is allocated to the Class VII assets. New T is a calendar year taxpayer. Assume that the X stock is a capital asset in the hands of new T.

(iii) On January 1, 2001, new T sells the X stock and uses the proceeds to purchase inventory.

(iv) Pursuant to events on June 30, 2002, the contingent liability of old T is at that time properly taken into account under general principles of tax law. The amount of the liability is \$60.

(v) T's AGUB increases by \$60 from \$270 to \$330. This \$60 increase in AGUB is first allocated among T's acquisition date assets in accordance with the provisions of §1.338-6. Because the redetermined AGUB for T (\$330) exceeds the sum of the fair market values at the beginning of the day after the acquisition date of the Class V acquisition date assets (\$300), AGUB allocated to those assets is limited to those fair market values under §1.338-6(c)(1). As there are no Class VI assets, the remaining AGUB of \$30 is allocated to goodwill and going concern value (Class VII assets). The amount of increase in AGUB allocated to each acquisition date asset is determined as follows:

Asset	Original AGUB	Redetermined AGUB	Increase
Building	\$90	\$100	\$10
X Stock	180	200	20
Goodwill and going concern value	0	30	30
Total	270	330	60

(vi) Since the X stock was disposed of before the contingent liability was properly taken into account for tax purposes, no amount of the increase in AGUB attributable to such stock may be allocated to any T asset. Rather, such amount (\$20) is allowed as a capital loss to T for the taxable year 2002 under the principles of *Arrowsmith v. Commissioner*, 344 U.S. 6 (1952). In addition, the \$10 increase in AGUB allocated to the building and the \$30 increase in AGUB allocated to the goodwill and going concern value are treated as basis redeterminations in 2002. See paragraph (d)(1) of this section.

Example 2. (i) On January 1, 2002, P purchases all of the outstanding stock of T and makes a section 338 election for T. Assume that ADSP and AGUB of T are both \$500 and are allocated among T's acquisition date assets as follows:

Asset Class	Asset	Basis
V	Machinery	\$150
V	Land	250
VII	Goodwill and going concern value	100
	Total	500

(ii) On September 30, 2004, P filed a claim against the selling shareholders of T in a court of appropriate jurisdiction alleging fraud in the sale of the T stock.

(iii) On January 1, 2007, the former shareholders refund \$140 of the purchase price to P in a settlement of the lawsuit. Assume that, under general principles of tax law, both the seller and the buyer properly take into account such refund when paid. Assume also that the refund has no effect on the tax liability for the deemed sale tax consequences. This refund results in a decrease of T's ADSP and AGUB of \$140, from \$500 to \$360.

(iv) The redetermined ADSP and AGUB of \$360 is allocated among T's acquisition date assets. Because ADSP and AGUB do not exceed the fair market value of the Class V assets, the ADSP and AGUB amounts are allocated to the Class V assets in proportion to their fair market values at the beginning of the day after the acquisition date. Thus, \$135 ($\$150 \times (\$360/(\$150 + \$250))$) is allocated to the machinery and \$225 ($\$250 \times (\$360/(\$150 + \$250))$) is allocated to the land. Accordingly, the basis of the machinery is reduced by \$15 (150 original allocation—\$135 redetermined allocation) and the basis of the land is reduced by \$25 ($\250 original allocation—\$225 redetermined allocation). No amount is allocated to the Class VII assets. Accordingly, the basis of the goodwill and going concern value is reduced by \$100 ($\100 original allocation—\$0 redetermined allocation).

(v) Assume that, as a result of deductions under section 168, the adjusted basis of the machinery immediately before the decrease in AGUB is zero. The machinery is treated as if it were disposed of before the decrease is taken into account. In 2007, T recognizes income of \$15, the character of which is determined under the principles of *Arrousmith v. Commissioner* and the tax benefit rule. No adjustment to the basis of T's assets is made for any tax paid on this amount. Assume also that, as a result of amortization deductions, the adjusted basis of the goodwill and going concern value immediately before the decrease in AGUB is \$40. A similar adjustment to income is made in 2007 with respect to the \$60 of previously amortized goodwill and going concern value.

(vi) In summary, the basis of T's acquisition date assets, as of January 1, 2007, is as follows:

Asset	Basis
Machinery	\$0
Land	225
Goodwill and going concern value	0

Example 3. (i) Assume that the facts are the same as §1.338-6(d) *Example 2* except that the recently purchased stock is acquired for \$1,600 plus additional payments that are contingent upon T's future earnings. Assume that, under general principles of tax law, such later payments are properly taken into account when paid. Thus, T's AGUB, determined as of the beginning of the day after the acquisition date (after reduction by T's

cash of \$200), is \$2,500 and is allocated among T's acquisition date assets under §1.338-6(c)(3)(iii) as follows:

Class	Asset	Final allocation
I	Cash	\$200
II	Portfolio of actively traded securities.	*268
III	Accounts receivable	536
IV	Inventory	268
V	Building	714
V	Land	178
V	Investment in T1	402
VII	Goodwill and going concern value	134
	Total	2,700

* All numbers rounded for convenience.

(ii) At a later point in time, P pays an additional \$200 for its recently purchased T stock. Assume that the additional consideration paid would not increase T's tax liability for the deemed sale tax consequences.

(iii) T's AGUB increases by \$200, from \$2,700 to \$2,900. This \$200 increase in AGUB is accounted for in accordance with the provisions of §1.338-6(c)(3)(iii).

(iv) The hypothetical purchase price of the T stock is redetermined as follows:

Grossed-up basis of recently purchased stock as determined under §1.338-5(c) ($\$1,800 \times (1 - .2)/.8$)	\$1,800
Basis of nonrecently purchased stock as if the gain recognition election under §1.338-5(d)(2) had been made ($\$1,800 \times .2/(1 - .2)$)	450
Liabilities	1,000
Total	3,250

(v) Since the redetermined hypothetical purchase price (\$3,250) exceeds the redetermined AGUB (\$2,900) and no gain recognition election was made under section 338(b)(3), the rules of §1.338-6(c)(3)(iii) are reapplied using the redetermined hypothetical purchase price and the redetermined AGUB.

(vi) First, an AGUB amount equal to the redetermined hypothetical purchase price (\$3,250) is allocated among the assets under the general rules of §1.338-6. The allocation is set forth in the column below entitled *Hypothetical Allocation*. Next, the allocation to each asset in Class II through Class VII is multiplied by a fraction with a numerator equal to the actual redetermined AGUB reduced by the amount of Class I assets ($\$2,900 - \$200 = \$2,700$) and a denominator equal to the redetermined hypothetical purchase price reduced by the amount of Class I assets ($\$3,250 - \$200 = \$3,050$), or $2,700/3,050$. This produces the *Final Allocation*:

Class	Asset	Hypothetical allocation	Final allocation
I	Cash	\$200	\$200
II	Portfolio of actively traded securities.	300	*268
III	Accounts receivable ...	600	531

§ 1.338-7

26 CFR Ch. I (4-1-16 Edition)

Class	Asset	Hypothetical allocation	Final allocation
IV	Inventory	300	266
V	Building	800	708
V	Land	200	177
V	Investment in T1	450	398
VII	Goodwill and going concern value.	400	354
	Total	3,250	2900

* All numbers rounded for convenience.

(vii) As illustrated by this example, re-applying §1.338-6(c)(3) results in a basis increase for some assets and a basis decrease for other assets. The amount of redetermined AGUB allocated to each acquisition date asset is determined as follows:

Asset	Original (c)(3) allocation	Redetermined (c)(3) allocation	Increase (decrease)
Portfolio of actively traded securities	\$268	\$266	\$(2)
Accounts receivable	536	531	(5)
Inventory	268	266	(2)
Building	714	708	(6)
Land	178	177	(1)
Investment in T1	402	398	(4)
Goodwill and going concern value	134	354	220
Total	2,500	2,700	200

Example 4. (i) On January 1, 2001, P purchases all of the outstanding T stock and makes a section 338 election for T. P pays \$700 of cash and promises also to pay a maximum \$300 of contingent consideration at various times in the future. Assume that, under general principles of tax law, such later payments are properly taken into account by P when paid. Assume also, however, that the current fair market value of the contingent payments is reasonably ascertainable. The fair market value of T's assets (other than goodwill and going concern value) as of the beginning of the following day is as follows:

Asset class	Assets	Fair market value
V	Equipment	\$200
V	Non-actively traded securities	100
V	Building	500
	Total	800

(ii) T has no liabilities. The AGUB is \$700. In calculating ADSP, assume that, under §1.1001-1, the current amount realized attributable to the contingent consideration is \$200. ADSP is therefore \$900 (\$700 cash plus \$200).

(iii) (A) The AGUB of \$700 is ratably allocated among T's Class V acquisition date assets in proportion to their fair market values as follows:

Asset	Basis
Equipment (\$700 × 200/800)	\$175.00
Non-actively traded securities (\$700 × 100/800) ..	87.50
Building (\$700 × 500/800)	437.50

Asset	Basis
Total	700.00

(B) No amount is allocated to goodwill or going concern value.

(iv) (A) The ADSP of \$900 is ratably allocated among T's Class V acquisition date assets in proportion to their fair market values as follows:

Asset	Basis
Equipment	\$200
Non-actively traded securities	100
Building	500
Total	800

(B) The remaining ADSP, \$100, is allocated to goodwill and going concern value (Class VII).

(v) P and T file a consolidated return for 2001 and each following year with P as the common parent of the affiliated group.

(vi) In 2004, a contingent amount of \$120 is paid by P. For old T, this payment has no effect on ADSP, because the payment is accounted for as a separate transaction. We have assumed that, under general principles of tax law, the payment is properly taken into account by P at the time made. Therefore, in 2004, there is an increase in new T's AGUB of \$120. The amount of the increase allocated to each acquisition date asset is determined as follows:

Asset	Original AGUB	Redetermined AGUB	Increase
Equipment	\$175.00	\$200.00	\$25.00

Asset	Original AGUB	Redetermined AGUB	Increase
Land	87.50	100.00	12.50
Building	437.50	500.00	62.50
Goodwill and going concern value	0.00	20.00	20.00
Total	700.00	820.00	120.00

[T.D. 8940, 66 FR 9929, Feb. 13, 2001]

§ 1.338-8 Asset and stock consistency.

(a) *Introduction*—(1) *Overview*. This section implements the consistency rules of sections 338(e) and (f). Under this section, no election under section 338 is deemed made or required with respect to target or any target affiliate. Instead, the person acquiring an asset may have a carryover basis in the asset.

(2) *General application*. The consistency rules generally apply if the purchasing corporation acquires an asset directly from target during the target consistency period and target is a subsidiary in a consolidated group. In such a case, gain from the sale of the asset is reflected under the investment adjustment provisions of the consolidated return regulations in the basis of target stock and may reduce gain from the sale of the stock. See § 1.1502-32 (investment adjustment provisions). Under the consistency rules, the purchasing corporation generally takes a carryover basis in the asset, unless a section 338 election is made for target. Similar rules apply if the purchasing corporation acquires an asset directly from a lower-tier target affiliate if gain from the sale is reflected under the investment adjustment provisions in the basis of target stock.

(3) *Extensions of the general rules*. If an arrangement exists, paragraph (f) of this section generally extends the carryover basis rule to certain cases in which the purchasing corporation acquires assets indirectly from target (or a lower-tier target affiliate). To prevent avoidance of the consistency rules, paragraph (j) of this section also may extend the consistency period or the 12-month acquisition period and may disregard the presence of conduits.

(4) *Application where certain dividends are paid*. Paragraph (g) of this section extends the carryover basis rule to cer-

tain cases in which dividends are paid to a corporation that is not a member of the same consolidated group as the distributing corporation. Generally, this rule applies where a 100 percent dividends received deduction is used in conjunction with asset dispositions to achieve an effect similar to that available under the investment adjustment provisions of the consolidated return regulations.

(5) *Application to foreign target affiliates*. Paragraph (h) of this section extends the carryover basis rule to certain cases involving target affiliates that are controlled foreign corporations.

(6) *Stock consistency*. This section limits the application of the stock consistency rules to cases in which the rules are necessary to prevent avoidance of the asset consistency rules. Following the general treatment of a section 338(h)(10) election, a sale of a corporation's stock is treated as a sale of the corporation's assets if a section 338(h)(10) election is made. Because gain from this asset sale may be reflected in the basis of the stock of a higher-tier target, the carryover basis rule may apply to the assets.

(b) *Consistency for direct acquisitions*—(1) *General rule*. The basis rules of paragraph (d) of this section apply to an asset if—

(i) The asset is disposed of during the target consistency period;

(ii) The basis of target stock, as of the target acquisition date, reflects gain from the disposition of the asset (see paragraph (c) of this section); and

(iii) The asset is owned, immediately after its acquisition and on the target acquisition date, by a corporation that acquires stock of target in the qualified stock purchase (or by an affiliate of an acquiring corporation).

(2) *Section 338(h)(10) elections*. For purposes of this section, if a section 338(h)(10) election is made for a corporation acquired in a qualified stock purchase—

(i) The acquisition is treated as an acquisition of the corporation's assets (see § 1.338(h)(10)-1); and

(ii) The corporation is not treated as target.

(c) *Gain from disposition reflected in basis of target stock.* For purposes of this section:

(1) *General rule.* Gain from the disposition of an asset is reflected in the basis of a corporation's stock if the gain is taken into account under § 1.1502-32, directly or indirectly, in determining the basis of the stock, after applying section 1503(e) and other provisions of the Internal Revenue Code.

(2) *Gain not reflected if section 338 election made for target.* Gain from the disposition of an asset that is otherwise reflected in the basis of target stock as of the target acquisition date is not considered reflected in the basis of target stock if a section 338 election is made for target.

(3) *Gain reflected by reason of distributions.* Gain from the disposition of an asset is not considered reflected in the basis of target stock merely by reason of the receipt of a distribution from a target affiliate that is not a member of the same consolidated group as the distributee. See paragraph (g) of this section for the treatment of dividends eligible for a 100 percent dividends received deduction.

(4) *Controlled foreign corporations.* For a limitation applicable to gain of a target affiliate that is a controlled foreign corporation, see paragraph (h)(2) of this section.

(5) *Gain recognized outside the consolidated group.* Gain from the disposition of an asset by a person other than target or a target affiliate is not reflected in the basis of a corporation's stock unless the person is a conduit, as defined in paragraph (j)(4) of this section.

(d) *Basis of acquired assets—(1) Carryover basis rule.* If this paragraph (d) applies to an asset, the asset's basis immediately after its acquisition is, for all purposes of the Internal Revenue Code, its adjusted basis immediately before its disposition.

(2) *Exceptions to carryover basis rule for certain assets.* The carryover basis rule of paragraph (d)(1) of this section does not apply to the following assets—

(i) Any asset disposed of in the ordinary course of a trade or business (see section 338(e)(2)(A));

(ii) Any asset the basis of which is determined wholly by reference to the adjusted basis of the asset in the hands

of the person that disposed of the asset (see section 338(e)(2)(B));

(iii) Any debt or equity instrument issued by target or a target affiliate (see paragraph (h)(3) of this section for an exception relating to the stock of a target affiliate that is a controlled foreign corporation);

(iv) Any asset the basis of which immediately after its acquisition would otherwise be less than its adjusted basis immediately before its disposition; and

(v) Any asset identified by the Internal Revenue Service in a revenue ruling or revenue procedure.

(3) *Exception to carryover basis rule for de minimis assets.* The carryover basis rules of this section do not apply to an asset if the asset is not disposed of as part of the same arrangement as the acquisition of target and the aggregate amount realized for all assets otherwise subject to the carryover basis rules of this section does not exceed \$250,000.

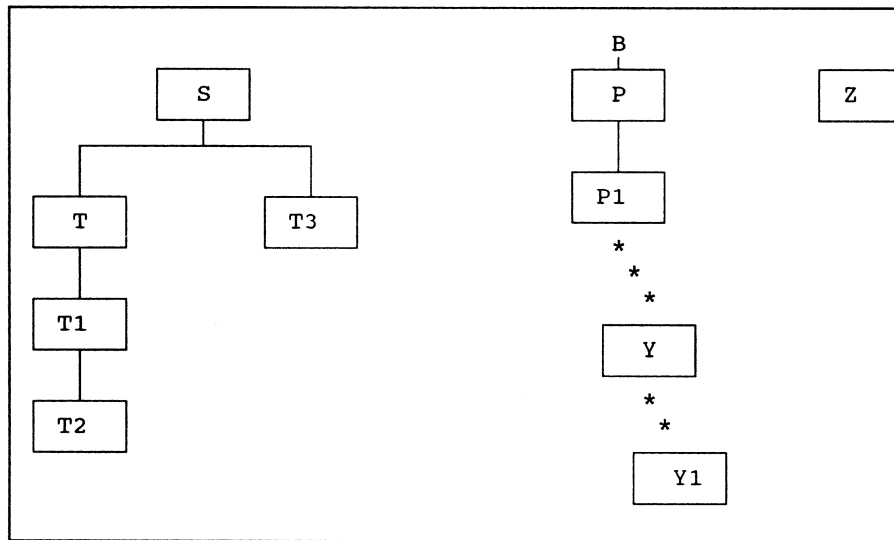

(4) *Mitigation rule—(i) General rule.* If the carryover basis rules of this section apply to an asset and the asset is transferred to a domestic corporation in a transaction to which section 351 applies or as a contribution to capital and no gain is recognized, the transferor's basis in the stock of the transferee (but not the transferee's basis in the asset) is determined without taking into account the carryover basis rules of this section.

(ii) *Time for transfer.* This paragraph (d)(4) applies only if the asset is transferred before the due date (including extensions) for the transferor's income tax return for the year that includes the last date for which a section 338 election may be made for target.

(e) *Examples—(1) In general.* For purposes of the examples in this section, unless otherwise stated, the basis of each asset is the same for determining earnings and profits and taxable income, the exceptions to paragraph (d)(1) of this section do not apply, the taxable year of all persons is the calendar year, and the following facts apply: S is the common parent of a consolidated group that includes T, T1, T2, and T3; S owns all of the stock of T and T3; and T owns all of the stock of T1, which owns all of the stock of T2. B

is unrelated to the S group and owns all of the stock of P, which owns all of the stock of P1. Y and Y1 are partnerships that are unrelated to the S group

but may be related to the P group. Z is a corporation that is not related to any of the other parties.

(2) *Direct acquisitions.* Paragraphs (b), (c), and (d) of this section may be illustrated by the following examples:

Example 1. Asset acquired from target by purchasing corporation. (a) On February 1 of Year 1, T sells an asset to P1 and recognizes gain. T's gain from the disposition of the asset is taken into account under §1.1502-32 in determining S's basis in the T stock. On January 1 of Year 2, P1 makes a qualified stock purchase of T from S. No section 338 election is made for T.

(b) T disposed of the asset during its consistency period, gain from the asset disposition is reflected in the basis of the T stock as of T's acquisition date (January 1 of Year 2), and the asset is owned both immediately after the asset disposition (February 1 of Year 1) and on T's acquisition date by P1, the corporation that acquired T stock in the qualified stock purchase. Consequently, under paragraph (b) of this section, paragraph (d)(1) of this section applies to the asset and P1's basis in the asset is T's adjusted basis in the asset immediately before the sale to P1.

Example 2. Gain from section 338(h)(10) election reflected in stock basis. (a) On February 1 of Year 1, P1 makes a qualified stock purchase of T2 from T1. A section 338(h)(10) elec-

tion is made for T2 and T2 recognizes gain on each of its assets. T2's gain is taken into account under §1.1502-32 in determining S's basis in the T stock. On January 1 of Year 2, P1 makes a qualified stock purchase of T from S. No section 338 election is made for T.

(b) Under paragraph (b)(2) of this section, the acquisition of the T2 stock is treated as an acquisition of T2's assets on February 1 of Year 1, because a section 338(h)(10) election is made for T2. The gain recognized by T2 under section 338(h)(10) is reflected in S's basis in the T stock as of T's acquisition date. Because the other requirements of paragraph (b) of this section are satisfied, paragraph (d)(1) of this section applies to the assets and new T2's basis in its assets is old T2's adjusted basis in the assets immediately before the disposition.

Example 3. Corporation owning asset ceases affiliation with corporation purchasing target before target acquisition date. (a) On February 1 of Year 1, T sells an asset to P1 and recognizes gain. On December 1 of Year 1, P disposes of all of the P1 stock while P1 still owns the asset. On January 1 of Year 2, P makes a qualified stock purchase of T from S. No section 338 election is made for T.

(b) Immediately after T's disposition of the asset, the asset is owned by P1 which is affiliated on that date with P, the corporation

that acquired T stock in the qualified stock purchase. However, the asset is owned by a corporation (P1) that is no longer affiliated with P on T's acquisition date. Although the other requirements of paragraph (b) of this section are satisfied, the requirements of paragraph (b)(1)(iii) of this section are not satisfied. Consequently, the basis rules of paragraph (d) of this section do not apply to the asset by reason of P1's acquisition.

(c) If P acquires all of the Z stock and P1 transfers the asset to Z on or before T's acquisition date (January 1 of Year 2), the asset is owned by an affiliate of P both on February 1 of Year 1 (P1) and on January 1 of Year 2 (Z). Consequently, all of the requirements of paragraph (b) of this section are satisfied and paragraph (d)(1) of this section applies to the asset and P1's basis in the asset is T's adjusted basis in the asset immediately before the sale to P1.

Example 4. Gain reflected in stock basis notwithstanding offsetting loss or distribution. (a) On April 1 of Year 1, T sells an asset to P1 and recognizes gain. In Year 1, T distributes an amount equal to the gain. On March 1 of Year 2, P makes a qualified stock purchase of T from S. No section 338 election is made for T.

(b) Although, as a result of the distribution, there is no adjustment with respect to the T stock under § 1.1502-32 for Year 1, T's gain from the disposition of the asset is considered reflected in S's basis in the T stock. The gain is considered to have been taken into account under § 1.1502-32 in determining the adjustments to S's basis in the T stock because S's basis in the T stock is different from what it would have been had there been no gain.

(c) If T distributes an amount equal to the gain on February 1 of Year 2, rather than in Year 1, the results would be the same because S's basis in the T stock is different from what it would have been had there been no gain. If the distribution in Year 2 is by reason of an election under § 1.1502-32(f)(2), the results would be the same.

(d) If, in Year 1, T does not make a distribution and the S group does not file a consolidated return, but, in Year 2, the S group does file a consolidated return and makes an election under § 1.1502-32(f)(2) for T, the results would be the same. S's basis in the T stock is different from what it would have been had there been no gain. Paragraph (c)(3) of this section (gain not considered reflected by reason of distributions) does not apply to the deemed distribution under the election because S and T are members of the same consolidated group. If T distributes an amount equal to the gain in Year 2 and no election is made under § 1.1502-32(f)(2), the results would be the same.

(e) If, in Year 1, T incurs an unrelated loss in an amount equal to the gain, rather than distributing an amount equal to the gain,

the results would be the same because the gain is taken into account under § 1.1502-32 in determining S's basis in the T stock.

Example 5. Gain of a target affiliate reflected in stock basis after corporate reorganization. (a) On February 1 of Year 1, T3 sells an asset to P1 and recognizes gain. On March 1 of Year 1, S contributes the T3 stock to T in a transaction qualifying under section 351. On January 15 of Year 2, P1 makes a qualified stock purchase of T from S. No section 338 election is made for T.

(b) T3's gain from the asset sale is taken into account under § 1.1502-32 in determining S's basis in the T3 stock. Under section 358, the gain that is taken into account under § 1.1502-32 in determining S's basis in the T3 stock is also taken into account in determining S's basis in the T stock following S's contribution of the T3 stock to T. Consequently, under paragraph (b) of this section, paragraph (d)(1) of this section applies to the asset and P1's basis in the asset is T3's adjusted basis in the asset immediately before the sale to P1.

(c) If on March 1 of Year 1, rather than S contributing the T3 stock to T, S causes T3 to merge into T in a transaction qualifying under section 368(a)(1)(D), the results would be the same.

Example 6. Gain not reflected if election under section 338 made. (a) On February 1 of Year 1, T1 sells an asset to P1 and recognizes gain. On January 1 of Year 2, P1 makes a qualified stock purchase of T1 from T. A section 338 election (but not a section 338(h)(10) election) is made for T1.

(b) Under paragraph (c)(2) of this section, because a section 338 election is made for T1, T's basis in the T1 stock is considered not to reflect gain from the disposition. Consequently, the requirement of paragraph (b)(1)(ii) of this section is not satisfied. Thus, P1's basis in the asset is not determined under paragraph (d) of this section. Although the section 338 election for T1 results in a qualified stock purchase of T2, the requirement of paragraph (b)(1)(ii) of this section is not satisfied with respect to T2, whether or not a section 338 election is made for T2.

(c) If, on January 1 of Year 2, P1 makes a qualified stock purchase of T from S and a section 338 election for T, rather than T1, S's basis in the T stock is considered not to reflect gain from T1's disposition of the asset. However, the section 338 election for T results in a qualified stock purchase of T1. Because the gain is reflected in T's basis in the T1 stock, the requirements of paragraph (b) of this section are satisfied. Consequently, P1's basis in the asset is determined under paragraph (d)(1) of this section unless a section 338 election is also made for T1.

(f) *Extension of consistency to indirect acquisitions—(1) Introduction.* If an arrangement exists (see paragraph (j)(5)

of this section), this paragraph (f) generally extends the consistency rules to indirect acquisitions that have the same effect as direct acquisitions. For example, this paragraph (f) applies if, pursuant to an arrangement, target sells an asset to an unrelated person who then sells the asset to the purchasing corporation.

(2) *General rule.* This paragraph (f) applies to an asset if, pursuant to an arrangement—

(i) The asset is disposed of during the target consistency period;

(ii) The basis of target stock as of, or at any time before, the target acquisition date reflects gain from the disposition of the asset; and

(iii) The asset ownership requirements of paragraph (b)(1)(iii) of this section are not satisfied, but the asset is owned, at any time during the portion of the target consistency period following the target acquisition date, by—

(A) A corporation—

(1) The basis of whose stock, as of, or at any time before, the target acquisition date, reflects gain from the disposition of the asset; and

(2) That is affiliated, at any time during the target consistency period, with a corporation that acquires stock of target in the qualified stock purchase; or

(B) A corporation that at the time it owns the asset is affiliated with a corporation described in paragraph (f)(2)(iii)(A) of this section.

(3) *Basis of acquired assets.* If this paragraph (f) applies to an asset, the principles of the basis rules of paragraph (d) of this section apply to the asset as of the date, following the disposition with respect to which gain is reflected in the basis of target's stock, that the asset is first owned by a corporation described in paragraph (f)(2)(iii) of this section. If the principles of the carryover basis rule of paragraph (d)(1) of this section apply to an asset, the asset's basis also is reduced (but not below zero) by the amount of any reduction in its basis occurring after the disposition with respect to which gain is reflected in the basis of target's stock.

(4) *Examples.* This paragraph (f) may be illustrated by the following examples:

Example 1. Acquisition of asset from unrelated party by purchasing corporation. (a) On February 1 of Year 1, T sells an asset to Z and recognizes gain. On February 15 of Year 1, P1 makes a qualified stock purchase of T from S. No section 338 election is made for T. P1 buys the asset from Z on March 1 of Year 1, before Z has reduced the basis of the asset through depreciation or otherwise.

(b) Paragraph (b) of this section does not apply to the asset because the asset ownership requirements of paragraph (b)(1)(iii) of this section are not satisfied. However, the asset ownership requirements of paragraph (f)(2)(iii) of this section are satisfied because, during the portion of T's consistency period following T's acquisition date, the asset is owned by P1 while it is affiliated with T. Consequently, paragraph (f) of this section applies to the asset if there is an arrangement for T to dispose of the asset during T's consistency period, for the gain to be reflected in S's basis in the T stock as of T's acquisition date, and for P1 to own the asset during the portion of T's consistency period following T's acquisition date. If the arrangement exists, under paragraph (f)(3) of this section, P1's basis in the asset is determined as of March 1 of Year 1, under the principles of paragraph (d) of this section. Consequently, P1's basis in the asset is T's adjusted basis in the asset immediately before the sale to Z.

(c) If P1 acquires the asset from Z on January 15 of Year 2 (rather than on March 1 of Year 1), and Z's basis in the asset has been reduced through depreciation at the time of the acquisition, P1's basis in the asset as of January 15 of Year 2 would be T's adjusted basis in the asset immediately before the sale to Z, reduced (but not below zero) by the amount of the depreciation. Z's basis and depreciation are determined without taking into account the basis rules of paragraph (d) of this section.

(d) If P, rather than P1, acquires the asset from Z, the results would be the same.

(e) If, on March 1 of Year 1, P1 acquires the Z stock, rather than acquiring the asset from Z, paragraph (f) of this section would apply to the asset if an arrangement exists. However, under paragraph (f)(3) of this section, Z's basis in the asset would be determined as of February 1 of Year 1, the date the asset is first owned by a corporation (Z) described in paragraph (f)(2)(iii) of this section. Consequently, Z's basis in the asset as of February 1 of Year 1, determined under the principles of paragraph (d) of this section, would be T's adjusted basis in the asset immediately before the sale to Z.

Example 2. Acquisition of asset from target by target affiliate. (a) On February 1 of Year 1, T

contributes an asset to T1 in a transaction qualifying under section 351 and in which T recognizes gain under section 351(b) that is deferred under § 1.1502-13. On March 1 of Year 1, P1 makes a qualified stock purchase of T from S and, pursuant to § 1.1502-13, the deferred gain is taken into account by T immediately before T ceases to be a member of the S group. No section 338 election is made for T.

(b) Paragraph (b) of this section does not apply to the asset because the asset ownership requirements of paragraph (b)(1)(iii) of this section are not satisfied.

(c) T1 is not described in paragraph (f)(2)(iii)(A) of this section because the basis of the T1 stock does not reflect gain from the disposition of the asset. Although, under section 358(a)(1)(B)(ii), T's basis in the T1 stock is increased by the amount of the gain, the gain is not taken into account directly or indirectly under § 1.1502-32 in determining T's basis in the T1 stock.

(d) T1 is described in paragraph (f)(2)(iii)(B) of this section because, during the portion of T's consistency period following T's acquisition date, T1 owns the asset while it is affiliated with T, a corporation described in paragraph (f)(2)(iii)(A) of this section. Consequently, paragraph (f) of this section applies to the asset if there is an arrangement. Under paragraph (j)(5) of this section, the fact that, at the time T1 acquires the asset from T, T1 is related (within the meaning of section 267(b)) to T indicates that an arrangement exists.

Example 3. Acquisition of asset from target and indirect acquisition of target stock. (a) On February 1 of Year 1, T sells an asset to P1 and recognizes gain. On March 1 of Year 1, Z makes a qualified stock purchase of T from S. No section 338 election is made for T. On January 1 of Year 2, P1 acquires the T stock from Z other than in a qualified stock purchase.

(b) The asset ownership requirements of paragraph (b)(1)(iii) of this section are not satisfied because the asset was never owned by Z, the corporation that acquired T stock in the qualified stock purchase (or by a corporation that was affiliated with Z at the time it owned the asset). However, because the asset is owned by P1 while it is affiliated with T during the portion of T's consistency period following T's acquisition date, paragraph (f) of this section applies to the asset if there is an arrangement. If there is an arrangement, the principles of the carryover basis rule of paragraph (d)(1) of this section apply to determine P1's basis in the asset unless Z makes a section 338 election for T. See paragraph (c)(2) of this section.

(c) If P1 also makes a qualified stock purchase of T from Z, the results would be the same. If there is an arrangement, the principles of the carryover basis rule of paragraph (d)(1) of this section apply to deter-

mine P1's basis in the asset unless Z makes a section 338 election for T. However, these principles apply to determine P1's basis in the asset if P1, but not Z, makes a section 338 election for T. The basis of the T stock no longer reflects, as of T's acquisition date by P1, the gain from the disposition of the asset.

(d) Assume Z purchases the T stock other than in a qualified stock purchase and P1 makes a qualified stock purchase of T from Z. Paragraph (b) of this section does not apply to the asset because gain from the disposition of the asset is not reflected in the basis of T's stock as of T's acquisition date (January 1 of Year 2). However, because the gain is reflected in S's basis in the T stock before T's acquisition date and the asset is owned by P1 while it is affiliated with T during the portion of T's consistency period following T's acquisition date, paragraph (f) of this section applies to the asset if there is an arrangement. If there is an arrangement, the principles of the carryover basis rule of paragraph (d)(1) of this section apply to determine P1's basis in the asset even if P1 makes a section 338 election for T. The basis of the T stock no longer reflects, as of T's acquisition date, the gain from the disposition of the asset.

Example 4. Asset acquired from target affiliate by corporation that becomes its affiliate. (a) On February 1 of Year 1, T1 sells an asset to P1 and recognizes gain. On February 15 of Year 1, Z makes a qualified stock purchase of T from S. No section 338 election is made for T. On June 1 of Year 1, P1 acquires the T1 stock from T, other than in a qualified stock purchase.

(b) The asset ownership requirements of paragraph (b)(1)(iii) of this section are not satisfied because the asset was never owned by Z, the corporation that acquired T stock in the qualified stock purchase (or by a corporation that was affiliated with Z at the time it owned the asset).

(c) P1 is not described in paragraph (f)(2)(iii)(A) of this section because gain from the disposition of the asset is not reflected in the basis of the P1 stock.

(d) P1 is described in paragraph (f)(2)(iii)(B) of this section because the asset is owned by P1 while P1 is affiliated with T1 during the portion of T's consistency period following T's acquisition date. T1 becomes affiliated with Z, the corporation that acquired T stock in the qualified stock purchase, during T's consistency period, and, as of T's acquisition date, the basis of T1's stock reflects gain from the disposition of the asset. Consequently, paragraph (f) of this section applies to the asset if there is an arrangement.

Example 5. De minimis rules. (a) On February 1 of Year 1, T sells an asset to P and recognizes gain. On February 15 of Year 1, T1 sells an asset to Z and recognizes gain. The aggregate amount realized by T and T1 on their

respective sales of assets is not more than \$250,000. On March 1 of Year 1, T3 sells an asset to P and recognizes gain. On April 1 of Year 1, P makes a qualified stock purchase of T from S. No section 338 election is made for T. On June 1 of Year 1, P1 buys from Z the asset sold by T1.

(b) Under paragraph (b) of this section, the basis rules of paragraph (d) of this section apply to the asset sold by T. Under paragraph (f) of this section, the principles of the basis rules of paragraph (d) of this section apply to the asset sold by T1 if there is an arrangement. Because T3's gain is not reflected in the basis of the T stock, the basis rules of this section do not apply to the asset sold by T3.

(c) The de minimis rule of paragraph (d)(3) of this section applies to an asset if the asset is not disposed of as part of the same arrangement as the acquisition of T and the aggregate amount realized for all assets otherwise subject to the carryover basis rules does not exceed \$250,000. The aggregate amount realized by T and T1 does not exceed \$250,000. (The asset sold by T3 is not taken into account for purposes of the de minimis rule.) Thus, the de minimis rule applies to the asset sold by T if the asset is not disposed of as part of the same arrangement as the acquisition of T.

(d) If, under paragraph (f) of this section, the principles of the carryover basis rules of paragraph (d)(1) of this section otherwise apply to the asset sold by T1 because of an arrangement, the de minimis rules of this section do not apply to the asset because of the arrangement.

(e) Assume on June 1 of Year 1, Z acquires the T1 stock from T, other than in a qualified stock purchase, rather than P1 buying the T1 asset, and paragraph (f) of this section applies because there is an arrangement. Because the asset was disposed of and the T1 stock was acquired as part of the arrangement, the de minimis rules of this section do not apply to the asset.

(g) *Extension of consistency if dividends qualifying for 100 percent dividends received deduction are paid*—(1) *General rule for direct acquisitions from target.* Unless a section 338 election is made for target, the basis rules of paragraph (d) of this section apply to an asset if—

(i) Target recognizes gain (whether or not deferred) on disposition of the asset during the portion of the target consistency period that ends on the target acquisition date;

(ii) The asset is owned, immediately after the asset disposition and on the target acquisition date, by a corporation that acquires stock of target in the qualified stock purchase (or by an

affiliate of an acquiring corporation); and

(iii) During the portion of the target consistency period that ends on the target acquisition date, the aggregate amount of dividends paid by target, to which section 243(a)(3) applies, exceeds the greater of—

(A) \$250,000; or

(B) 125 percent of the yearly average amount of dividends paid by target, to which section 243(a)(3) applies, during the three calendar years immediately preceding the year in which the target consistency period begins (or, if shorter, the period target was in existence).

(2) *Other direct acquisitions having same effect.* The basis rules of paragraph (d) of this section also apply to an asset if the effect of a transaction described in paragraph (g)(1) of this section is achieved through any combination of disposition of assets and payment of dividends to which section 243(a)(3) applies (or any other dividends eligible for a 100 percent dividends received deduction). See paragraph (h)(4) of this section for additional rules relating to target affiliates that are controlled foreign corporations.

(3) *Indirect acquisitions.* The principles of paragraph (f) of this section also apply for purposes of this paragraph (g).

(4) *Examples.* This paragraph (g) may be illustrated by the following examples:

Example 1. Asset acquired from target paying dividends to which section 243(a)(3) applies. (a) The S group does not file a consolidated return. In Year 1, Year 2, and Year 3, T pays dividends to S to which section 243(a)(3) applies of \$200,000, \$250,000, and \$300,000, respectively. On February 1 of Year 4, T sells an asset to P and recognizes gain. On January 1 of Year 5, P makes a qualified stock purchase of T from S. No section 338 election is made for T. During the portion of T's consistency period that ends on T's acquisition date, T pays S dividends to which section 243(a)(3) applies of \$1,000,000.

(b) Under paragraph (g)(1) of this section, paragraph (d) of this section applies to the asset. T recognizes gain on disposition of the asset during the portion of T's consistency period that ends on T's acquisition date, the asset is owned by P immediately after the disposition and on T's acquisition date, and T pays dividends described in paragraph (g)(1)(iii) of this section. Consequently, under paragraph (d)(1) of this section, P's

basis in the asset is T's adjusted basis in the asset immediately before the sale to P.

(c) If T is a controlled foreign corporation, the results would be the same if T pays dividends in the amount described in paragraph (g)(1)(iii) of this section that qualify for a 100 percent dividends received deduction. See sections 243(e) and 245.

(d) If S and T3 file a consolidated return in which T, T1, and T2 do not join, the results would be the same because the dividends paid by T are still described in paragraph (g)(1)(iii) of this section.

(e) If T, T1, and T2 file a consolidated return in which S and T3 do not join, the results would be the same because the dividends paid by T are still described in paragraph (g)(1)(iii) of this section.

Example 2. Asset disposition by target affiliate achieving same effect. (a) The S group does not file a consolidated return. On February 1 of Year 1, T2 sells an asset to P and recognizes gain. T pays dividends to S described in paragraph (g)(1)(iii) of this section. On January 1 of Year 2, P makes a qualified stock purchase of T from S. No section 338 election is made for T.

(b) Paragraph (g)(1) of this section does not apply to the asset because T did not recognize gain on the disposition of the asset. However, under paragraph (g)(2) of this section, because the asset disposition by T2 and the dividends paid by T achieve the effect of a transaction described in paragraph (g)(1) of this section, the carryover basis rule of paragraph (d)(1) of this section applies to the asset. The effect was achieved because T2 is a lower-tier affiliate of T and the dividends paid by T to S reduce the value to S of T and its lower-tier affiliates.

(c) If T2 is a controlled foreign corporation, the results would be the same because T2 is a lower-tier affiliate of T and the dividends paid by T to S reduce the value to S of T and its lower-tier affiliates.

(d) If P buys an asset from T3, rather than T2, the asset disposition and the dividends do not achieve the effect of a transaction described in paragraph (g)(1) of this section because T3 is not a lower-tier affiliate of T. Thus, the basis rules of paragraph (d) of this section do not apply to the asset. The results would be the same whether or not P also acquires the T3 stock (whether or not in a qualified stock purchase).

Example 3. Dividends by target affiliate achieving same effect. (a) The S group does not file a consolidated return. On February 1 of Year 1, T1 sells an asset to P and recognizes gain. On January 1 of Year 2, P makes a qualified stock purchase of T from S. No section 338 election is made for T. T does not pay dividends to S described in paragraph (g)(1)(iii) of this section. However, T1 pays dividends to T that would be described in paragraph (g)(1)(iii) of this section if T1 were a target.

(b) Paragraph (g)(1) of this section does not apply to the asset because T did not recognize gain on the disposition of the asset and did not pay dividends described in paragraph (g)(1)(iii) of this section. Further, paragraph (g)(2) of this section does not apply because the dividends paid by T1 to T do not reduce the value to S of T and its lower-tier affiliates.

(c) If both S and T own T1 stock and T1 pays dividends to S that would be described in paragraph (g)(1)(iii) of this section if T1 were a target, paragraph (g)(2) of this section would apply because the dividends paid by T1 to S reduce the value to S of T and its lower-tier affiliates. If T, rather than T1, sold the asset to P, the results would be the same. Further, if T and T1 pay dividends to S that, only when aggregated, would be described in paragraph (g)(1)(iii) of this section (if they were all paid by T), the results would be the same.

Example 4. Gain reflected by reason of dividends. (a) S and T file a consolidated return in which T1 and T2 do not join. On February 1 of Year 1, T1 sells an asset to P and recognizes gain. On January 1 of Year 2, P makes a qualified stock purchase of T from S. No section 338 election is made for T. T1 pays dividends to T that would be described in paragraph (g)(1)(iii) of this section if T1 were a target.

(b) The requirements of paragraph (b) of this section are not satisfied because, under paragraph (c)(3) of this section, gain from T1's sale is not reflected in S's basis in the T stock by reason of the dividends paid by T1 to T.

(c) Although the dividends paid by T1 to T do not reduce the value to S of T and its lower-tier affiliates, paragraph (g)(2) of this section applies because the dividends paid by T1 to T are taken into account under §1.1502-32 in determining S's basis in the T stock. Consequently, the carryover basis rule of paragraph (d)(1) of this section applies to the asset.

(h) *Consistency for target affiliates that are controlled foreign corporations—(1) In general.* This paragraph (h) applies only if target is a domestic corporation. For additional rules that may apply with respect to controlled foreign corporations, see paragraph (g) of this section. The definitions and nomenclature of §1.338-2(b) and (c) and paragraph (e) of this section apply for purposes of this section.

(2) *Income or gain resulting from asset dispositions—(i) General rule.* Income or gain of a target affiliate that is a controlled foreign corporation from the disposition of an asset is not reflected

in the basis of target stock under paragraph (c) of this section unless the income or gain results in an inclusion under section 951(a)(1)(A), 951(a)(1)(C), 1291 or 1293.

(ii) *Basis of controlled foreign corporation stock.* If, by reason of paragraph (h)(2)(i) of this section, the carryover basis rules of this section apply to an asset, no increase in basis in the stock of a controlled foreign corporation under section 961(a) or 1293(d)(1), or under regulations issued pursuant to section 1297(b)(5), is allowed to target or a target affiliate to the extent the increase is attributable to income or gain described in paragraph (h)(2)(i) of this section. A similar rule applies to the basis of any property by reason of which the stock of the controlled foreign corporation is considered owned under section 958(a)(2) or 1297(a).

(iii) *Operating rule.* For purposes of this paragraph (h)(2)—

(A) If there is an income inclusion under section 951 (a)(1)(A) or (C), the shareholder's income inclusion is first attributed to the income or gain of the controlled foreign corporation from the disposition of the asset to the extent of the shareholder's pro rata share of such income or gain; and

(B) Any income or gain under section 1293 is first attributed to the income or gain from the disposition of the asset to the extent of the shareholder's pro rata share of the income or gain.

(iv) *Increase in asset or stock basis—*(A) If the carryover basis rules under paragraph (h)(2)(i) of this section apply to an asset, and the purchasing corporation disposes of the asset to an unrelated party in a taxable transaction and recognizes and includes in its U.S. gross income or the U.S. gross income of its shareholders the greater of the income or gain from the disposition of the asset by the selling controlled foreign corporation that was reflected in the basis of the target stock under paragraph (c) of this section, or the gain recognized on the asset by the purchasing corporation on the disposition of the asset, then the purchasing corporation or the target or a target affiliate, as appropriate, shall increase the basis of the selling controlled foreign corporation stock subject to paragraph (h)(2)(ii) of this section, as of the

date of the disposition of the asset by the purchasing corporation, by the amount of the basis increase that was denied under paragraph (h)(2)(ii) of this section. The preceding sentence shall apply only to the extent that the controlled foreign corporation stock is owned (within the meaning of section 958(a)) by a member of the purchasing corporation's affiliated group.

(B) If the carryover basis rules under paragraph (h)(2)(i) of this section apply to an asset, and the purchasing corporation or the target or a target affiliate, as appropriate, disposes of the stock of the selling controlled foreign corporation to an unrelated party in a taxable transaction and recognizes and includes in its U.S. gross income or the U.S. gross income of its shareholders the greater of the gain equal to the basis increase that was denied under paragraph (h)(2)(ii) of this section, or the gain recognized in the stock by the purchasing corporation or by the target or a target affiliate, as appropriate, on the disposition of the stock, then the purchasing corporation shall increase the basis of the asset, as of the date of the disposition of the stock of the selling controlled foreign corporation by the purchasing corporation or by the target or a target affiliate, as appropriate, by the amount of the basis increase that was denied pursuant to paragraph (h)(2)(i) of this section. The preceding sentence shall apply only to the extent that the asset is owned (within the meaning of section 958(a)) by a member of the purchasing corporation's affiliated group.

(3) *Stock issued by target affiliate that is a controlled foreign corporation.* The exception to the carryover basis rules of this section provided in paragraph (d)(2)(iii) of this section does not apply to stock issued by a target affiliate that is a controlled foreign corporation. After applying the carryover basis rules of this section to the stock, the basis in the stock is increased by the amount treated as a dividend under section 1248 on the disposition of the stock (or that would have been so treated but for section 1291), except to the extent the basis increase is attributable to the disposition of an asset in which a carryover basis is taken under this section.

(4) *Certain distributions*—(i) *General rule.* In the case of a target affiliate that is a controlled foreign corporation, paragraph (g) of this section applies with respect to the target affiliate by treating any reference to a dividend to which section 243(a)(3) applies as a reference to any amount taken into account under § 1.1502-32 in determining the basis of target stock that is—

(A) A dividend;

(B) An amount treated as a dividend under section 1248 (or that would have been so treated but for section 1291); or

(C) An amount included in income under section 951(a)(1)(B).

(ii) *Basis of controlled foreign corporation stock.* If the carryover basis rules of this section apply to an asset, the basis in the stock of the controlled foreign corporation (or any property by reason of which the stock is considered owned under section 958(a)(2)) is reduced (but not below zero) by the sum of any amounts that are treated, solely by reason of the disposition of the asset, as a dividend, amount treated as a dividend under section 1248 (or that would have been so treated but for section 1291), or amount included in income under section 951(a)(1)(B). For this purpose, any dividend, amount treated as a dividend under section 1248 (or that would have been so treated but for section 1291), or amount included in income under section 951(a)(1)(B) is considered attributable first to earnings and profits resulting from the disposition of the asset.

(iii) *Increase in asset or stock basis*—

(A) If the carryover basis rules under paragraphs (g) and (h)(4)(i) of this section apply to an asset, and the purchasing corporation disposes of the asset to an unrelated party in a taxable transaction and recognizes and includes in its U.S. gross income or the U.S. gross income of its shareholders the greater of the gain equal to the basis increase denied in the asset pursuant to paragraphs (g) and (h)(4)(i) of this section, or the gain recognized on the asset by the purchasing corporation on the disposition of the asset, then the purchasing corporation or the target or a target affiliate, as appropriate, shall increase the basis of the selling controlled foreign corporation

stock subject to paragraph (h)(4)(ii) of this section, as of the date of the disposition of the asset by the purchasing corporation, by the amount of the basis reduction under paragraph (h)(4)(ii) of this section. The preceding sentence shall apply only to the extent that the controlled foreign corporation stock is owned (within the meaning of section 958(a)) by a member of the purchasing corporation's affiliated group.

(B) If the carryover basis rules under paragraphs (g) and (h)(4)(i) of this section apply to an asset, and the purchasing corporation or the target or a target affiliate, as appropriate, disposes of the stock of the selling controlled foreign corporation to an unrelated party in a taxable transaction and recognizes and includes in its U.S. gross income or the U.S. gross income of its shareholders the greater of the amount of the basis reduction under paragraph (h)(4)(ii) of this section, or the gain recognized in the stock by the purchasing corporation or by the target or a target affiliate, as appropriate, on the disposition of the stock, then the purchasing corporation shall increase the basis of the asset, as of the date of the disposition of the stock of the selling controlled foreign corporation by the purchasing corporation or by the target or a target affiliate, as appropriate, by the amount of the basis increase that was denied pursuant to paragraphs (g) and (h)(4)(i) of this section. The preceding sentence shall apply only to the extent that the asset is owned (within the meaning of section 958(a)) by a member of the purchasing corporation's affiliated group.

(5) *Examples.* This paragraph (h) may be illustrated by the following examples:

Example 1. Stock of target affiliate that is a CFC. (a) The S group files a consolidated return; however, T2 is a controlled foreign corporation. On December 1 of Year 1, T1 sells the T2 stock to P and recognizes gain. On January 2 of Year 2, P makes a qualified stock purchase of T from S. No section 338 election is made for T.

(b) Under paragraph (b)(1) of this section, paragraph (d) of this section applies to the T2 stock. Under paragraph (h)(3) of this section, paragraph (d)(2)(iii) of this section does not apply to the T2 stock. Consequently, paragraph (d)(1) of this section applies to the T2 stock. However, after applying paragraph

(d)(1) of this section, P's basis in the T2 stock is increased by the amount of T1's gain on the sale of the T2 stock that is treated as a dividend under section 1248. Because P has a carryover basis in the T2 stock, the T2 stock is not considered purchased within the meaning of section 338(h)(3) and no section 338 election may be made for T2.

Example 2. Stock of target affiliate CFC; inclusion under subpart F. (a) The S group files a consolidated return; however, T2 is a controlled foreign corporation. On December 1 of Year 1, T2 sells an asset to P and recognizes subpart F income that results in an inclusion in T1's gross income under section 951(a)(1)(A). On January 2 of Year 2, P makes a qualified stock purchase of T from S. No section 338 election is made for T.

(b) Because gain from the disposition of the asset results in an inclusion under section 951(a)(1)(A), the gain is reflected in the basis of the T stock as of T's acquisition date. See paragraph (h)(2)(i) of this section. Consequently, under paragraph (b)(1) of this section, paragraph (d)(1) of this section applies to the asset. In addition, under paragraph (h)(2)(ii) of this section, T1's basis in the T2 stock is not increased under section 961(a) by the amount of the inclusion that is attributable to the sale of the asset.

(c) If, in addition to making a qualified stock purchase of T, P acquires the T2 stock from T1 on January 1 of Year 2, the results are the same for the asset sold by T2. In addition, under paragraph (h)(2)(ii) of this section, T1's basis in the T2 stock is not increased by the amount of the inclusion that is attributable to the gain on the sale of the asset. Further, under paragraph (h)(3) of this section, paragraph (d)(1) of this section applies to the T2 stock. However, after applying paragraph (d)(1) of this section, P's basis in the T2 stock is increased by the amount of T1's gain on the sale of the T2 stock that is treated as a dividend under section 1248. Finally, because P has a carryover basis in the T2 stock, the T2 stock is not considered purchased within the meaning of section 338(h)(3) and no section 338 election may be made for T2.

(d) If P makes a qualified stock purchase of T2 from T1, rather than of T from S, and T1's gain on the sale of T2 is treated as a dividend under section 1248, under paragraph (h)(1) of this section, paragraphs (h)(2) and (3) of this section do not apply because there is no target that is a domestic corporation. Consequently, the carryover basis rules of paragraph (d) do not apply to the asset sold by T2 or the T2 stock.

Example 3. Gain reflected by reason of section 1248 dividend; gain from non-subpart F asset. (a) The S group files a consolidated return; however, T2 is a controlled foreign corporation. In Years 1 through 4, T2 does not pay any dividends to T1 and no amount is included in T1's income under section

951(a)(1)(B). On December 1 of Year 4, T2 sells an asset with a basis of \$400,000 to P for \$900,000. T2's gain of \$500,000 is not subpart F income. On December 15 of Year 4, T1 sells T2, in which it has a basis of \$600,000, to P for \$1,600,000. Under section 1248, \$800,000 of T1's gain of \$1,000,000 is treated as a dividend. However, in the absence of the sale of the asset by T2 to P, only \$300,000 would have been treated as a dividend under section 1248. On December 30 of Year 4, P makes a qualified stock purchase of T1 from T. No section 338 election is made for T1.

(b) Under paragraph (h)(4) of this section, paragraph (g)(2) of this section applies by reference to the amount treated as a dividend under section 1248 on the disposition of the T2 stock. Because the amount treated as a dividend is taken into account in determining T's basis in the T1 stock under §1.1502-32, the sale of the T2 stock and the deemed dividend have the effect of a transaction described in paragraph (g)(1) of this section. Consequently, paragraph (d)(1) of this section applies to the asset sold by T2 to P and P's basis in the asset is \$400,000 as of December 1 of Year 4.

(c) Under paragraph (h)(3) of this section, paragraph (d)(1) of this section applies to the T2 stock and P's basis in the T2 stock is \$600,000 as of December 15 of Year 4. Under paragraphs (h)(3) and (4)(ii) of this section, however, P's basis in the T2 stock is increased by \$300,000 (the amount of T1's gain treated as a dividend under section 1248 (\$800,000), other than the amount treated as a dividend solely as a result of the sale of the asset by T2 to P (\$500,000)) to \$900,000.

(i) [Reserved]

(j) *Anti-avoidance rules.* For purposes of this section—

(1) *Extension of consistency period.* The target consistency period is extended to include any continuous period that ends on, or begins on, any day of the consistency period during which a purchasing corporation, or any person related, within the meaning of section 267(b) or 707(b)(1), to a purchasing corporation, has an arrangement—

(i) To purchase stock of target; or

(ii) To own an asset to which the carryover basis rules of this section apply, taking into account the extension.

(2) *Qualified stock purchase and 12-month acquisition period.* The 12-month acquisition period is extended if, pursuant to an arrangement, a corporation acquires by purchase stock of another corporation satisfying the requirements of section 1504(a)(2) over a period of more than 12 months.

(3) *Acquisitions by conduits*—(i) *Asset ownership*—(A) *General rule.* A corporation is treated as owning any portion of an asset attributed to the corporation from a conduit under section 318(a) (treating any asset as stock for this purpose), for purposes of—

(1) The asset ownership requirements of this section; and

(2) Determining whether a controlled foreign corporation is a target affiliate for purposes of paragraph (h) of this section.

(B) *Application of carryover basis rule.* If the basis rules of this section apply to the asset, the basis rules of this section apply to the entire asset (not just the portion for which ownership is attributed).

(ii) *Stock acquisitions*—(A) *Purchase by conduit.* A corporation is treated as purchasing stock of another corporation attributed to the corporation from a conduit under section 318(a) on the day the stock is purchased by the conduit. The corporation is not treated as purchasing the stock, however, if the conduit purchased the stock more than two years before the date the stock is first attributed to the corporation.

(B) *Purchase of conduit by corporation.* If a corporation purchases an interest in a conduit (treating the interest as stock for this purpose), the corporation is treated as purchasing on that date any stock owned by a conduit on that date and attributed to the corporation under section 318(a) with respect to the interest in the conduit that was purchased.

(C) *Purchase of conduit by conduit.* If a conduit (the *first conduit*) purchases an interest in a second conduit (treating the interest as stock for this purpose), the first conduit is treated as purchasing on that date any stock owned by a conduit on that date and attributed to the first conduit under section 318(a) with respect to the interest in the second conduit that was purchased.

(4) *Conduit.* A person (other than a corporation) is a conduit as to a corporation if—

(i) The corporation would be treated under section 318(a)(2)(A) and (B) (attribution from partnerships, estates, and trusts) as owning any stock owned by the person; and

(ii) The corporation, together with its affiliates, would be treated as owning an aggregate of at least 50 percent of the stock owned by the person.

(5) *Existence of arrangement.* The existence of an arrangement is determined under all the facts and circumstances. For an arrangement to exist, there need not be an enforceable, written, or unconditional agreement, and all the parties to the transaction need not have participated in each step of the transaction. One factor indicating the existence of an arrangement is the participation of a related party. For this purpose, persons are related if they are related within the meaning of section 267(b) or 707(b)(1).

(6) *Predecessor and successor*—(i) *Persons.* A reference to a person (including target, target affiliate, and purchasing corporation) includes, as the context may require, a reference to a predecessor or successor. For this purpose, a predecessor is a transferor or distributor of assets to a person (the successor) in a transaction—

(A) To which section 381(a) applies; or

(B) In which the successor's basis for the assets is determined, directly or indirectly, in whole or in part, by reference to the basis of the transferor or distributor.

(ii) *Assets.* A reference to an asset (the first asset) includes, as the context may require, a reference to any asset the basis of which is determined, directly or indirectly, in whole or in part, by reference to the first asset.

(7) *Examples.* This paragraph (j) may be illustrated by the following examples:

Example 1. Asset owned by conduit treated as owned by purchaser of target stock. (a) P owns a 60-percent interest in Y. On March 1 of Year 1, T sells an asset to Y and recognizes gain. On January 1 of Year 2, P makes a qualified stock purchase of T from S. No section 338 election is made for T.

(b) Under paragraph (j)(4) of this section, Y is a conduit with respect to P. Consequently, under paragraph (j)(3)(i)(A) of this section, P is treated as owning 60% of the asset on March 1 of Year 1 and January 1 of Year 2. Because P is treated as owning part or all of the asset both immediately after the asset disposition and on T's acquisition date, paragraph (b) of this section applies to the asset. Consequently, paragraph (d)(1) of this section applies to the asset and Y's basis in the

asset is T's adjusted basis in the asset immediately before the sale to Y.

Example 2. Corporation whose stock is owned by conduit treated as affiliate. (a) P owns an 80-percent interest in Y. Y owns all of the stock of Z. On March 1 of Year 1, T sells an asset to Z and recognizes gain. On January 1 of Year 2, P makes a qualified stock purchase of T from S. No section 338 election is made for T.

(b) Under paragraph (j)(4) of this section, Y is a conduit with respect to P. Consequently, under paragraph (j)(3)(i)(A) of this section, P is treated as owning 80% of the Z stock and Z is therefore treated as an affiliate of P for purposes of applying the asset ownership requirements of paragraph (b)(1)(iii) of this section. Because Z, an affiliate of P, owns the asset both immediately after the asset disposition and on T's acquisition date, paragraph (b) of this section applies to the asset, and the asset's basis is determined under paragraph (d) of this section.

(c) If, instead of owning an 80-percent interest in Y, P owned a 79-percent interest in Y, Z would not be treated as an affiliate of P and paragraph (b) of this section would not apply to the asset.

Example 3. Qualified stock purchase by reason of stock purchase by conduit. (a) P owns a 90-percent interest in Y. Y owns a 60-percent interest in Y1. On February 1 of Year 2, T sells an asset to P and recognizes gain. On January 1 of Year 3, P purchases 70% of the T stock from S and Y1 purchases the remaining 30% of the T stock from S.

(b) Under paragraph (j)(3)(ii)(A) of this section, P is treated as purchasing on January 1 of Year 3, the 16.2% of the T stock that is attributed to P from Y and Y1 under section 318(a). Thus, for purposes of this section, P is treated as making a qualified stock purchase of T on January 1 of Year 3, paragraph (b) of this section applies to the asset, and the asset's basis is determined under paragraph (d) of this section. However, because P is not treated as having made a qualified stock purchase of T for purposes of making an election under section 338, no election can be made for T.

(c) If Y1 purchases 20% of the T stock from S on December 1 of Year 1, rather than 30% on January 1 of Year 3, P would be treated as purchasing 10.8% of the T stock on December 1 of Year 1. Thus, if paragraph (j)(2) of this section (relating to extension of the 12-month acquisition period) does not apply, P would not be treated as making a qualified stock purchase of T, because P is not treated as purchasing T stock satisfying the requirements of section 1504(a)(2) within a 12-month period.

Example 4. Successor asset. (a) On February 1 of Year 1, T sells stock of X to P1 and recognizes gain. On December 1 of Year 1, P1 exchanges its X stock for stock in new X in a reorganization qualifying under section

368(a)(1)(F). On January 1 of Year 2, P1 makes a qualified stock purchase of T from S. No section 338 election is made for T.

(b) The asset ownership requirements of paragraph (b)(1)(iii) of this section are satisfied because, under paragraph (j)(6)(ii) of this section, P1 is treated as owning the X stock on T's acquisition date. P1 is treated as owning the X stock on that date because P1 owns the new X stock and P1's basis in the new X stock is determined by reference to P1's basis in the X stock. Consequently, under paragraph (d)(1) of this section, P1's basis in the X stock on February 1 of Year 1 is T's adjusted basis in the X stock immediately before the sale to P1.

[T.D. 8515, 59 FR 2972, Jan. 20, 1994, as amended by T.D. 8597, 60 FR 36679, July 18, 1995; T.D. 8710, 62 FR 3459, Jan. 23, 1997. Redesignated by T.D. 8858, 65 FR 1246, Jan. 7, 2000, as amended by T.D. 8940, 66 FR 9929, Feb. 13, 2001; 66 FR 17466, Mar. 30, 2001]

§ 1.338-9 International aspects of section 338.

(a) *Scope.* This section provides guidance regarding international aspects of section 338. As provided in § 1.338-2(c)(18), a foreign corporation, a DISC, or a corporation for which a section 936 election has been made is considered a target affiliate for all purposes of section 338. In addition, stock described in section 338(h)(6)(B)(ii) held by a target affiliate is not excluded from the operation of section 338.

(b) *Application of section 338 to foreign targets—(1) In general.* For purposes of subtitle A, the deemed sale tax consequences, as defined in § 1.338-2(c)(7), of a foreign target for which a section 338 election is made (FT), and the corresponding earnings and profits, are taken into account in determining the taxation of FT and FT's direct and indirect shareholders. See, however, section 338(h)(16). For example, the income and earnings and profits of FT are determined, for purposes of sections 551, 951, 1248, and 1293, by taking into account the deemed sale tax sentence consequences.

(2) *Ownership of FT stock on the acquisition date.* A person who transfers FT stock to the purchasing corporation on FT's acquisition date is considered to own the transferred stock at the close of FT's acquisition date. See, e.g., § 1.951-1(f) (relating to determination of holding period for purposes of sections 951 through 964). If on the acquisition

date the purchasing corporation owns a block of FT stock that was acquired before FT's acquisition date, the purchasing corporation is considered to own such block of stock at the close of the acquisition date.

(3) *Carryover FT stock*—(i) *Definition.* FT stock is carryover FT stock if—

(A) FT was a controlled foreign corporation within the meaning of section 957 (taking into account section 953(c)) at any time during the portion of the 12-month acquisition period that ends on the acquisition date; and

(B) Such stock is owned as of the beginning of the day after FT's acquisition date by a person other than a purchasing corporation, or by a purchasing corporation if the stock is non-recently purchased and is not subject to a gain recognition election under § 1.338-5(d).

(ii) *Carryover of earnings and profits.* The earnings and profits of old FT (and associated foreign taxes) attributable to the carryover FT stock (adjusted to reflect deemed sale tax sentence consequences) carry over to new FT solely for purposes of—

(A) Characterizing an actual distribution with respect to a share of carryover FT stock as a dividend;

(B) Characterizing gain on a post-acquisition date transfer of a share of carryover FT stock as a dividend under section 1248 (if such section is otherwise applicable);

(C) Characterizing an investment of earnings in United States property as income under sections 951(a)(1)(B) and 956 (if such sections are otherwise applicable); and

(D) Determining foreign taxes deemed paid under sections 902 and 960 with respect to the amount treated as a dividend or income by virtue of this paragraph (b)(3)(ii) (subject to the operation of section 338(h)(16)).

(iii) *Cap on carryover of earnings and profits.* The amount of earnings and profits of old FT taken into account with respect to a share of carryover FT stock is limited to the amount that would have been included in gross income of the owner of such stock as a dividend under section 1248 if—

(A) The shareholder transferred that share to the purchasing corporation on FT's acquisition date for a consider-

ation equal to the fair market value of that share on that date; or

(B) In the case of nonrecently purchased FT stock treated as carryover FT stock, a gain recognition election under section 338(b)(3)(A) applied to that share. For purposes of the preceding sentence, a shareholder that is a controlled foreign corporation is considered to be a United States person, and the principle of section 1248(c)(2)(D)(ii) (concerning a United States person's indirect ownership of stock in a foreign corporation) applies in determining the correct holding period.

(iv) *Post-acquisition date distribution of old FT earnings and profits.* A post-acquisition date distribution with respect to a share of carryover FT stock is considered to be derived first from earnings and profits derived after FT's acquisition date and then from earnings and profits derived on or before FT's acquisition date.

(v) *Old FT earnings and profits unaffected by post-acquisition date deficits.* The carryover amount for a share of carryover FT stock is not reduced by deficits in earnings and profits incurred by new FT. This rule applies for purposes of determining the amount of foreign taxes deemed paid regardless of the fact that there are no accumulated earnings and profits. For example, a distribution by new FT with respect to a share of carryover FT stock is treated as a dividend by the distributee to the extent of the carryover amount for that share notwithstanding that new FT has no earnings and profits.

(vi) *Character of FT stock as carryover FT stock eliminated upon disposition.* A share of FT stock is not considered carryover FT stock after it is disposed of provided that all gain realized on the transfer is recognized at the time of the transfer, or that, if less than all of the realized gain is recognized, the recognized amount equals or exceeds the remaining carryover amount for that share.

(4) *Passive foreign investment company stock.* Stock that is owned as of the beginning of the day after FT's acquisition date by a person other than a purchasing corporation, or by a purchasing corporation if the FT stock is

nonrecently purchased stock not subject to a gain recognition election under § 1.338-5(d), is treated as passive foreign investment company stock to the extent provided in section 1297(b)(1).

(c) *Dividend treatment under section 1248(e).* The principles of this paragraph (b) apply to shareholders of a domestic corporation subject to section 1248(e).

(d) *Allocation of foreign taxes.* If a section 338 election is made for target (whether foreign or domestic), and target's taxable year under foreign law (if any) does not close at the end of the acquisition date, foreign income taxes attributable to the foreign taxable income earned by target during such foreign taxable year are allocated to old target and new target. Such allocation is made under the principles of § 1.1502-76(b).

(e) *Operation of section 338(h)(16).* [Reserved]

(f) *Examples.* (1) Except as otherwise provided, all corporations use the calendar year as the taxable year, have no earnings and profits (or deficit) accumulated for any taxable year, and have only one class of outstanding stock.

(2) This section may be illustrated by the following examples:

Example 1. Gain recognition election for carryover FT stock. (a) A has owned 90 of the 100 shares of CFCT stock since CFCT was organized on March 13, 1989. P has owned the remaining 10 shares of CFCT stock since CFCT was organized. Those 10 shares constitute nonrecently purchased stock in P's hands within the meaning of section 338(b)(6)(B). On November 1, 1994, P purchases A's 90 shares of CFCT stock for \$90,000 and makes a section 338 election for CFCT. P also makes a gain recognition election under section 338(b)(3)(A) and § 1.338-5(d).

(b) CFCT's earnings and profits for its short taxable year ending on November 1, 1994, are \$50,000, determined without taking into account the deemed asset sale. Assume A recognizes gain of \$81,000 on the sale of the CFCT stock. Further, assume that CFCT recognizes gain of \$40,000 by reason of its deemed sale of assets under section 338(a)(1).

(c) A's sale of CFCT stock to P is a transfer to which section 1248 and paragraphs (b)(1) and (2) of this section apply. For purposes of applying section 1248(a) to A, the earnings and profits of CFCT for its short taxable year ending on November 1, 1994, are \$90,000 (the earnings and profits for that taxable year as determined under § 1.1248-2(e) (\$50,000) plus earnings from the deemed sale

(\$40,000)). Thus, A's entire gain is characterized as a dividend under section 1248 (but see section 338(h)(16)).

(d) Assume that P recognizes a gain of \$9,000 with respect to the 10 shares of nonrecently purchased CFCT stock by reason of the gain recognition election. Because P is treated as selling the nonrecently purchased stock for all purposes of the Internal Revenue Code, section 1248 applies. Thus, under § 1.1248-2(e), \$9,000 of the \$90,000 of earnings and profits for 1994 are attributable to the block of 10 shares of CFCT stock deemed sold by P at the close of November 1, 1994 (\$90,000 × 10/100). Accordingly, P's entire gain on the deemed sale of 10 shares of CFCT stock is included under section 1248(a) in P's gross income as a dividend (but see section 338(h)(16)).

Example 2. No gain recognition election for carryover FT stock. (a) Assume the same facts as in *Example 1*, except that P does not make a gain recognition election.

(b) The 10 shares of nonrecently purchased CFCT stock held by P is carryover FT stock under paragraph (b)(3) of this section. Accordingly, the earnings and profits (and attributable foreign taxes) of old CFCT carry over to new CFCT solely for purposes of that block of 10 shares. The amount of old CFCT's earnings and profits taken into account with respect to that block in the event, for example, of a distribution by new CFCT with respect to that block is the amount of the section 1248 dividend that P would have recognized with respect to that block had it made a gain recognition election under section 338(b)(3)(A). Under the facts of *Example 1*, P would have recognized a gain of \$9,000 with respect to that block, all of which would have been a section 1248 dividend (\$90,000 × 10/100). Accordingly, the carryover amount for the block of 10 shares of nonrecently purchased CFCT stock is \$9,000.

Example 3. Sale of controlled foreign corporation stock prior to and on the acquisition date.

(a) X and Y, both U.S. corporations, have each owned 50% of the CFCT stock since 1986. Among CFCT's assets are assets the sale of which would generate subpart F income. On December 31, 1994, X sells its CFCT stock to P. On June 30, 1995, Y sells its CFCT stock to P. P makes a section 338 election for CFCT. In both 1994 and 1995, CFCT has subpart F income resulting from operations.

(b) For taxable year 1994, X and Y are United States shareholders on the last day of CFCT's taxable year, so pursuant to section 951(a)(1)(A) each must include in income its pro rata share of CFCT's subpart F income for 1994. Because P's holding period in the CFCT stock acquired from X does not begin until January 1, 1995, P is not a United States shareholder on the last day of 1994 for purposes of section 951(a)(1)(A) (see § 1.951-1(f)). X must then determine the extent to

§ 1.338-10

26 CFR Ch. I (4-1-16 Edition)

which section 1248 recharacterizes its gain on the sale of CFCT stock as a dividend.

(c) For the short taxable year ending June 30, 1995, Y is considered to own the CFCT stock sold to P at the close of CFCT's acquisition date. Because the acquisition date is the last day of CFCT's taxable year, Y and P are United States shareholders on the last day of CFCT's taxable year. Pursuant to section 951(a)(1)(A), each must include its pro rata share of CFCT's subpart F income for the short taxable year ending June 30, 1995. This includes any income generated on the deemed sale of CFCT's assets. Y must then determine the extent to which section 1248 recharacterizes its gain on the sale of the CFCT stock as a dividend, taking into account any increase in CFCT's earnings and profits due to the deemed sale of assets.

Example 4. Acquisition of control for purposes of section 951 prior to the acquisition date. FS owns 100% of the FT stock. On July 1, 1994, P buys 60% of the FT stock. On December 31, 1994, P buys the remaining 40% of the FT stock and makes a section 338 election for FT. For tax year 1994, FT has earnings and profits of \$1,000 (including earnings resulting from the deemed sale). The section 338 election results in \$500 of subpart F income. As a result of the section 338 election, P must include in gross income the following amount under section 951(a)(1)(A) (see § 1.951- (b)(2)):

FT's subpart F income for 1994	\$500.00
Less: reduction under section 951(a)(2)(A) for pe- riod (1-1-94 through 7-1-94) during which FT is not a controlled foreign corporation (\$500 × 182/365)	249.32
Subpart F income as limited by section 951 (a)(2)(A)	250.68
P's pro rata share of subpart F income as deter- mined under section 951(a)(2)(A) (60% × 250.68)	150.41

Example 5. Coordination with section 936. (a) T is a corporation for which a section 936 election has been made. P makes a qualified stock purchase of T and makes a section 338 election for T.

(b) T's deemed sale of assets under section 338 constitutes a sale for purposes of subtitle A of the Internal Revenue Code, including section 936(a)(1)(A)(ii). To the extent that the assets deemed sold are used in the conduct of an active trade or business in a possession for purposes of section 936(a)(1)(A)(i), and assuming all the other conditions of section 936 are satisfied, the income from the deemed sale qualifies for the credit granted by section 936(a). The source of income from the deemed sale is determined as if the assets had actually been sold and is not affected for purposes of section 936 by section 338(h)(16).

(c) Because new T is treated a new corporation for purposes of subtitle A of the Internal Revenue Code, the three year testing period

in section 936(a)(2)(A) begins again for new T on the day following T's acquisition date. Thus, if the character or source of old T's gross income disqualified it for the credit under section 936, a fresh start is allowed by a section 338 election.

[T.D. 8515, 59 FR 2978, Jan. 20, 1994. Redesignated by T.D. 8858, 65 FR 1246, Jan. 7, 2000, as amended by T.D. 8940, 66 FR 9929, Feb. 13, 2001; 66 FR 17466, Mar. 30, 2001]

§ 1.338-10 Filing of returns.

(a) *Returns including tax liability from deemed asset sale—*(1) *In general.* Except as provided in paragraphs (a)(2) and (3) of this section, any deemed sale tax consequences are reported on the final return of old target filed for old target's taxable year that ends at the close of the acquisition date. Paragraphs (a)(2), (3) and (4) of this section do not apply to elections under section 338(h)(10). If old target is the common parent of an affiliated group, the final return may be a consolidated return (any such consolidated return must also include any deemed sale tax consequences of any members of the consolidated group that are acquired by the purchasing corporation on the same acquisition date as old target).

(2) *Old target's final taxable year otherwise included in consolidated return of selling group—*(i) *General rule.* If the selling group files a consolidated return for the period that includes the acquisition date, old target is disaffiliated from that group immediately before the deemed asset sale and must file a deemed sale return separate from the group, which includes only the deemed sale tax consequences and the carryover items specified in paragraph (a)(2)(iii) of this section. The deemed asset sale occurs at the close of the acquisition date and is the last transaction of old target and the only transaction reported on the separate return. Except as provided in § 1.338-1(d) (regarding certain transactions on the acquisition date), any transactions of old target occurring on the acquisition date other than the deemed asset sale are included in the selling group's consolidated return. A deemed sale return includes a combined deemed sale return as defined in paragraph (a)(4) of this section.

(ii) *Separate taxable year.* The deemed asset sale included in the deemed sale

return under this paragraph (a)(2) occurs in a separate taxable year, except that old target's taxable year of the sale and the consolidated year of the selling group that includes the acquisition date are treated as the same year for purposes of determining the number of years in a carryover or carryback period.

(iii) *Carryover and carryback of tax attributes.* Target's attributes may be carried over to, and carried back from, the deemed sale return under the rules applicable to a corporation that ceases to be a member of a consolidated group.

(iv) *Old target is a component member of purchasing corporation's controlled group.* For purposes of its deemed sale return, target is a component member of the controlled group of corporations including the purchasing corporation unless target is treated as an excluded member under section 1563(b)(2).

(4) *Combined deemed sale return—(i) General rule.* Under section 338(h)(15), a combined deemed sale return (combined return) may be filed for all targets from a single selling consolidated group (as defined in §1.338(h)(10)-1(b)(3)) that are acquired by the purchasing corporation on the same acquisition date and that otherwise would be required to file separate deemed sale returns. The combined return must include all such targets. For example, T and T1 may be included in a combined return if—

(A) T and T1 are directly owned subsidiaries of S;

(B) S is the common parent of a consolidated group; and

(C) P makes qualified stock purchases of T and T1 on the same acquisition date.

(ii) *Gain and loss offsets.* Gains and losses recognized on the deemed asset sales by targets included in a combined return are treated as the gains and losses of a single target. In addition, loss carryovers of a target that were not subject to the separate return limitation year restrictions (SRLY restrictions) of the consolidated return regulations while that target was a member of the selling consolidated group may be applied without limitation to the gains of other targets included in the combined return. If, however, a target

has loss carryovers that were subject to the SRLY restrictions while that target was a member of the selling consolidated group, the use of those losses in the combined return continues to be subject to those restrictions, applied in the same manner as if the combined return were a consolidated return. A similar rule applies, when appropriate, to other tax attributes.

(iii) *Procedure for filing a combined return.* A combined return is made by filing a single corporation income tax return in lieu of separate deemed sale returns for all targets required to be included in the combined return. The combined return reflects the deemed asset sales of all targets required to be included in the combined return. If the targets included in the combined return constitute a single affiliated group within the meaning of section 1504(a), the income tax return is signed by an officer of the common parent of that group. Otherwise, the return must be signed by an officer of each target included in the combined return. Rules similar to the rules in §1.1502-75(j) apply for purposes of preparing the combined return. The combined return must include a statement entitled, "ELECTION TO FILE A COMBINED RETURN UNDER SECTION 338(h)(15)." The statement must include—

(A) The name, address, and employer identification number of each target required to be included in the combined return; and

(B) The following declaration: EACH TARGET IDENTIFIED IN THIS ELECTION TO FILE A COMBINED RETURN CONSENTS TO THE FILING OF A COMBINED RETURN.

(iv) *Consequences of filing a combined return.* Each target included in a combined return is severally liable for any tax associated with the combined return. See §1.338-1(b)(3).

(5) *Deemed sale excluded from purchasing corporation's consolidated return.* Old target may not be considered a member of any affiliated group that includes the purchasing corporation with respect to its deemed asset sale.

(6) *Due date for old target's final return—(i) General rule.* Old target's final return is generally due on the 15th day of the third calendar month following the month in which the acquisition

date occurs. See section 6072 (time for filing income tax returns).

(ii) *Application of § 1.1502-76(c)—(A) In general.* Section 1.1502-76(c) applies to old target's final return if old target was a member of a selling group that did not file consolidated returns for the taxable year of the common parent that precedes the year that includes old target's acquisition date. If the selling group has not filed a consolidated return that includes old target's taxable period that ends on the acquisition date, target may, on or before the final return due date (including extensions), either—

(1) File a deemed sale return on the assumption that the selling group will file the consolidated return; or

(2) File a return for so much of old target's taxable period as ends at the close of the acquisition date on the assumption that the consolidated return will not be filed.

(B) *Deemed extension.* For purposes of applying § 1.1502-76(c)(2), an extension of time to file old target's final return is considered to be in effect until the last date for making the election under section 338.

(C) *Erroneous filing of deemed sale return.* If, under this paragraph (a)(6)(ii), target files a deemed sale return but the selling group does not file a consolidated return, target must file a substituted return for old target not later than the due date (including extensions) for the return of the common parent with which old target would have been included in the consolidated return. The substituted return is for so much of old target's taxable year as ends at the close of the acquisition date. Under § 1.1502-76(c)(2), the deemed sale return is not considered a return for purposes of section 6011 (relating to the general requirement of filing a return) if a substituted return must be filed.

(D) *Erroneous filing of return for regular tax year.* If, under this paragraph (a)(6)(ii), target files a return for so much of old target's regular taxable year as ends at the close of the acquisition date but the selling group files a consolidated return, target must file an amended return for old target not later than the due date (including extensions) for the selling group's con-

solidated return. (The amended return is a deemed sale return.)

(E) *Last date for payment of tax.* If either a substituted or amended final return of old target is filed under this paragraph (a)(6)(ii), the last date prescribed for payment of tax is the final return due date (as defined in paragraph (a)(6)(i) of this section).

(7) *Examples.* The following examples illustrate this paragraph (a):

Example 1. (i) S is the common parent of a consolidated group that includes T. The S group files calendar year consolidated returns. At the close of June 30 of Year 1, P makes a qualified stock purchase of T from S. P makes a section 338 election for T, and T's deemed asset sale occurs as of the close of T's acquisition date (June 30).

(ii) T is considered disaffiliated for purposes of reporting the deemed sale tax consequences. Accordingly, T is included in the S group's consolidated return through T's acquisition date except that the tax liability for the deemed sale tax consequences is reported in a separate deemed sale return of T. Provided that T is not treated as an excluded member under section 1563(b)(2), T is a component member of P's controlled group for the taxable year of the deemed asset sale, and the taxable income bracket amounts available in calculating tax on the deemed sale return must be limited accordingly.

(iii) If P purchased the stock of T at 10 a.m. on June 30 of Year 1, the results would be the same. See paragraph (a)(2)(i) of this section.

Example 2. The facts are the same as in *Example 1*, except that the S group does not file consolidated returns. T must file a separate return for its taxable year ending on June 30 of Year 1, which return includes the deemed asset sale.

(b) *Waiver—(1) Certain additions to tax.* An addition to tax or additional amount (addition) under subchapter A of chapter 68 of the Internal Revenue Code arising on or before the last day for making the election under section 338 because of circumstances that would not exist but for an election under section 338 is waived if—

(i) Under the particular statute the addition is excusable upon a showing of reasonable cause; and

(ii) Corrective action is taken on or before the last day.

(2) *Notification.* The Internal Revenue Service should be notified at the time of correction (e.g., by attaching a statement to a return that constitutes

corrective action) that the waiver rule of this paragraph (b) is being asserted.

(3) *Elections or other actions required to be specified on a timely filed return*—(i) *In general.* If paragraph (b)(1) of this section applies or would apply if there were an underpayment, any election or other action that must be specified on a timely filed return for the taxable period covered by the late filed return described in paragraph (b)(1) of this section is considered timely if specified on a late-filed return filed on or before the last day for making the election under section 338.

(ii) *New target in purchasing corporation's consolidated return.* If new target is includible for its first taxable year in a consolidated return filed by the affiliated group of which the purchasing corporation is a member on or before the last day for making the election under section 338, any election or other action that must be specified in a timely filed return for new target's first taxable year (but which is not specified in the consolidated return) is considered timely if specified in an amended return filed on or before such last day, at the place where the consolidated return was filed.

(4) *Examples.* The following examples illustrate this paragraph (b):

Example 1. T is an unaffiliated corporation with a tax year ending March 31. At the close of September 20 of Year 1, P makes a qualified stock purchase of T. P does not join in filing a consolidated return. P makes a section 338 election for T on or before June 15 of Year 2, which causes T's taxable year to end as of the close of September 20 of Year 1. An income tax return for T's taxable period ending on September 20 of Year 1 was due on December 15 of Year 1. Additions to tax for failure to file a return and to pay tax shown on a return will not be imposed if T's return is filed and the tax paid on or before June 15 of Year 2. (This waiver applies even if the acquisition date coincides with the last day of T's former taxable year, i.e., March 31 of Year 2.) Interest on any underpayment of tax for old T's short taxable year ending September 20 of Year 1 runs from December 15 of Year 1. A statement indicating that the waiver rule of this paragraph is being asserted should be attached to T's return.

Example 2. Assume the same facts as in *Example 1.* Assume further that new T adopts the calendar year by filing, on or before June 15 of Year 2, its first return (for the period beginning on September 21 of Year 1 and ending on December 31 of Year 1) indicating that

a calendar year is chosen. See § 1.338-1(b)(1). Any additions to tax or amounts described in this paragraph (b) that arise because of the late filing of a return for the period ending on December 31 of Year 1 are waived, because they are based on circumstances that would not exist but for the section 338 election. Notwithstanding this waiver, however, the return is still considered due March 15 of Year 2, and interest on any underpayment runs from that date.

Example 3. Assume the same facts as in *Example 2*, except that T's former taxable year ends on October 31. Although prior to the election old T had a return due on January 15 of Year 2 for its year ending October 31 of Year 1, that return need not be filed because a timely election under section 338 was made. Instead, old T must file a final return for the period ending on September 20 of Year 1, which is due on December 15 of Year 1.

(c) *Effective/applicability date.* Paragraph (a)(4)(iii) of this section applies to any taxable year beginning on or after May 30, 2006. However, taxpayers may apply paragraph (a)(4)(iii) of this section to any original Federal income tax return (including any amended return filed on or before the due date (including extensions) of such original return) timely filed on or after May 30, 2006. For taxable years beginning before May 30, 2006, see § 1.338-10 as contained in 26 CFR part 1 in effect on April 1, 2006.

[T.D. 8940, 66 FR 9948, Feb. 13, 2001, as amended by T.D. 9264, 71 FR 30596, May 30, 2006; T.D. 9329, 72 FR 32798, June 14, 2007]

§ 1.338-11 Effect of section 338 election on insurance company targets.

(a) *In general.* This section provides rules that apply when an election under section 338 is made for a target that is an insurance company. The rules in this section apply in addition to those generally applicable upon the making of an election under section 338. In the case of a conflict between the provisions of this section and other provisions of the Internal Revenue Code or regulations, the rules set forth in this section determine the Federal income tax treatment of the parties and the transaction when a section 338 election is made for an insurance company target.

(b) *Computation of ADSP and AGUB*—(1) *Reserves taken into account as a liability.* Old target's tax reserves are the

reserves for Federal income tax purposes for any insurance, annuity, and reinsurance contracts deemed sold by old target to new target in the deemed asset sale. The amount of old target's tax reserves is the amount that is properly taken into account by old target for the contracts at the close of the taxable year that includes the deemed sale tax consequences (before giving effect to the deemed asset sale and assumption reinsurance transaction). Old target's tax reserves are a liability of old target taken into account in determining ADSP under § 1.338-4 and a liability of new target taken into account in determining AGUB under § 1.338-5.

(2) *Allocation of ADSP and AGUB to specific insurance contracts.* For purposes of allocating AGUB and ADSP under §§ 1.338-6 and 1.338-7, the fair market value of a specific insurance, reinsurance or annuity contract or group of insurance, reinsurance or annuity contracts (*insurance contracts*) is the amount of the ceding commission a willing reinsurer would pay a willing ceding company in an arm's length transaction for the reinsurance of the contracts if the gross reinsurance premium for the contracts were equal to old target's tax reserves for the contracts. See § 1.197-2(g)(5) for rules concerning the treatment of the amount allocable to insurance contracts acquired in the deemed asset sale.

(c) *Application of assumption reinsurance principles—(1) In general.* If a target is an insurance company, the deemed sale of insurance contracts is treated for Federal income tax purposes as an assumption reinsurance transaction between old target, as the reinsured or ceding company, and new target, as the reinsurer or acquiring company, at the close of the acquisition date. The Federal income tax treatment of the assumption reinsurance transaction is determined under the applicable provisions of subchapter L, chapter 1, subtitle A of the Internal Revenue Code, as modified by the rules set forth in this section.

(2) *Reinsurance premium.* Old target is deemed to pay a gross amount of premium in the assumption reinsurance transaction equal to the amount of old target's tax reserves for the insurance

contracts that are acquisition date assets (*acquired contracts*). New target is deemed to receive a reinsurance premium in the amount of old target's tax reserves for the acquired contracts. See paragraph (d) of this section for circumstances in which new target is deemed to receive additional premium. See § 1.817-4(d)(2) for old target's and new target's treatment of the premium.

(3) *Ceding commission.* Old target is deemed to receive a ceding commission in an amount equal to the amount of ADSP allocated to the acquired contracts, as determined under §§ 1.338-6 and 1.338-7 and paragraph (b) of this section. New target is deemed to pay a ceding commission in an amount equal to the amount of AGUB allocated to the acquired contracts, as determined under §§ 1.338-6 and 1.338-7 and paragraph (b) of this section. See § 1.817-4(d)(2) for old target's and new target's treatment of the ceding commission.

(4) *Examples.* The following examples illustrate this paragraph (c):

Example 1. (i) *Facts.* On January 1, 2003, T, an insurance company, has the following assets with the following fair market values: \$10 cash, \$30 of securities, \$10 of equipment, a life insurance contract having a value, under paragraph (b)(2) of this section, of \$17, and goodwill and going concern value. T has tax reserves of \$50 and no other liabilities. On January 1, 2003, P purchases all of the stock of T for \$16 and makes a section 338 election for T. For purposes of the capitalization requirements of section 848, assume new T has \$20 of general deductions in its first taxable year ending on December 31, 2003, and earns no other premiums during the year.

(ii) *Analysis.* (A) For Federal income tax purposes, the section 338 election results in a deemed sale of the assets of old T to new T. Old T's ADSP is \$66 (\$16 amount realized for the T stock plus \$50 liabilities). New T's AGUB also is \$66 (\$16 basis for the T stock plus \$50 liabilities). See paragraph (b)(1) of this section. Each of the AGUB and ADSP is allocated under the residual method of § 1.338-6 to determine the purchase or sale price of each asset transferred. Each of the AGUB and ADSP is allocated as follows: \$10 to cash (Class I), \$30 to the securities (Class II), \$10 to equipment (Class V), \$16 to the life insurance contract (Class VI), and \$0 to goodwill and going concern value (Class VII).

(B) Under section 1001, old T's amount realized for the securities is \$30 and for the equipment is \$10. As a result of the deemed

asset sale, there is an assumption reinsurance transaction between old T (as ceding company) and new T (as reinsurer) at the close of the acquisition date for the life insurance contract issued by old T. See paragraph (c)(1) of this section. Although the assumption reinsurance transaction results in a \$50 decrease in old T's reserves, which is taxable income to old T, the reinsurance premium paid by old T is deductible by old T. Under paragraph (c)(2) of this section, old T is deemed to pay a reinsurance premium equal to the reserve for the life insurance contract immediately before the deemed asset sale (\$50) and is deemed to receive a ceding commission from new T. Under paragraph (c)(3) of this section, the portion of the ADSP allocated to the life insurance contract is \$16; thus, the ceding commission is \$16. Old T, therefore, is deemed to pay new T a reinsurance premium of \$34 ($\$50 - \$16 = \34). Old T also has \$34 of net negative consideration for purposes of section 848. See paragraph (f) of this section for rules relating to the effect of a section 338 election on the capitalization of amounts under section 848.

(C) New T obtains an initial basis of \$30 in the securities and \$10 in the equipment. New T is deemed to receive a reinsurance premium from old T in an amount equal to the \$50 of reserves for the life insurance contract and to pay old T a \$16 ceding commission for the contract. See paragraphs (c)(2) and (3) of this section. Accordingly, new T includes \$50 of premium in income and deducts \$50 for its increase in reserves. For purposes of section 848, new T has \$34 of net positive consideration for the deemed assumption reinsurance transaction. Because the only contract involved in the deemed assumption reinsurance transaction is a life insurance contract, new T must capitalize $\$2.62$ ($\$34 \times 7.7\% = \2.62) under section 848. New T will amortize the \$2.62 as provided under section 848. New T's adjusted basis in the life insurance contract, which is an amortizable section 197 intangible, is \$13.38, the excess of the \$16 ceding commission over the \$2.62 capitalized under section 848. See section 197 and § 1.197-2(g)(5). New T deducts the \$2.62 of the ceding commission that is not amortizable under section 197 because it is reflected in the amount capitalized under section 848 and also deducts the remaining \$17.38 of its general deductions.

Example 2. (i) *Facts.* Assume the same facts as in *Example 1*, except the life insurance contract has a value of \$0 and the fair market value of T's securities are \$60. Thus, to reinsure the contract in an arm's length transaction, T would have to pay the reinsurer a reinsurance premium in excess of T's \$50 of tax reserves for the contract.

(ii) *Analysis.* (A) For Federal income tax purposes, the section 338 election results in a deemed sale of the assets of old T to new T.

Old T's ADSP is \$66 (\$16 amount realized for the T stock plus \$50 liabilities). New T's AGUB also is \$66 (\$16 basis for the T stock plus \$50 liabilities). See paragraph (b)(1) of this section. Each of the AGUB and ADSP is allocated under the residual method of § 1.338-6 to determine the purchase or sale price of each asset transferred. Each of the AGUB and ADSP is allocated as follows: \$10 to cash (Class I), \$56 to the securities (Class II), \$0 to the equipment (Class V), \$0 to the life insurance contract (Class VI), and \$0 to goodwill and going concern value (Class VII).

(B) Under section 1001, old T's amount realized for the securities is \$56 and for the equipment is \$0. As a result of the deemed asset sale, there is an assumption reinsurance transaction between old T (as ceding company) and new T (as reinsurer) at the close of the acquisition date for the life insurance contract issued by old T. See paragraph (c)(1) of this section. Although the assumption reinsurance transaction results in a \$50 decrease in old T's reserves, which is taxable income to old T, the reinsurance premium deemed paid by old T to new T is deductible by old T. Under paragraph (c)(2) of this section, old T is deemed to pay a reinsurance premium equal to the reserve for the life insurance contract immediately before the deemed asset sale (\$50), and is deemed to receive from new T a ceding commission equal to the amount of AGUB allocated to the life insurance contract (\$0), as provided in paragraph (c)(3) of this section. Old T also has \$50 of net negative consideration for purposes of section 848. See paragraph (f) of this section for rules relating to the effect of a section 338 election on capitalization amounts under section 848.

(C) New T obtains an initial basis of \$56 in the securities (with a fair market value of \$60) and \$0 in the equipment (with a fair market value of \$10). New T is deemed to receive a reinsurance premium from old T in an amount equal to the \$50 of reserves for the life insurance contract. Accordingly, new T includes \$50 of premium in income and deducts \$50 for its increase in reserves. For purposes of section 848, new T has \$50 of net positive consideration for the deemed assumption reinsurance transaction. Because the only contract involved in the assumption reinsurance transaction is a life insurance contract, new T must capitalize \$3.85 ($\$50 \times 7.7\%$) under section 848 from the transaction and deducts the remaining \$16.15 of its general deductions. Because new T allocates \$0 of the AGUB to the insurance contract, no amount is amortizable under section 197 with respect to the insurance contract. See § 1.338-11T(d) for rules on adjustments required if new T increases its reserves for, or reinsures at a loss, the acquired life insurance contract.

(d) *Reserve increases by new target after the deemed asset sale*—(1) *In general.* If in new target's first taxable year or any subsequent year, new target increases its reserves for any acquired contracts, new target is treated as receiving an additional premium, which is computed under paragraph (d)(3) of this section, in the assumption reinsurance transaction described in paragraph (c)(1) of this section. New target includes the additional premium in gross income for the taxable year in which new target increases its reserves for acquired contracts. New target's increase in reserves for the insurance contracts acquired in the deemed asset sale is a liability of new target not originally taken into account in determining AGUB that is subsequently taken into account. Thus, AGUB is increased by the amount of the additional premium included in new target's gross income. See §§ 1.338-5(b)(2)(ii) and 1.338-7. Old target has no deduction under this paragraph (d) and makes no adjustments under §§ 1.338-4(b)(2)(ii) and 1.338-7.

(2) *Exceptions.* New target is not treated as receiving additional premium under paragraph (d)(1) of this section if—

(i) It is under state receivership as of the close of the taxable year for which the increase in reserves occurs; or

(ii) It is required by section 807(f) to spread the reserve increase over the 10 succeeding taxable years.

(3) *Amount of additional premium*—(i) *In general.* The additional premium taken into account under this paragraph (d) is an amount equal to the sum of the positive amounts described in paragraphs (d)(3)(ii) and (d)(3)(iii) of this section. However, the additional premium cannot exceed the limitation described in paragraph (d)(4) of this section.

(ii) *Increases in unpaid loss reserves.* The positive amount with respect to unpaid loss reserves is computed using the formula $A/B \times (C - [D + E])$ where—

(A) A equals old target's discounted unpaid losses (determined under section 846) included in AGUB under paragraph 11(b)(1) of this section;

(B) B equals old target's undiscounted unpaid losses (deter-

mined under section 846(b)(1)) as of the close of the acquisition date;

(C) C equals new target's undiscounted unpaid losses (determined under section 846(b)(1)) at the end of the taxable year that are attributable to losses incurred by old target on or before the acquisition date;

(D) D (which may be a negative number) equals old target's undiscounted unpaid losses as of the close of the acquisition date, reduced by the cumulative amount of losses, loss adjustment expenses, and reinsurance premiums paid by new target through the end of the taxable year for losses incurred by old target on or before the acquisition date; and

(E) E equals the amount obtained by dividing the cumulative amount of reserve increases taken into account under this paragraph (d) in prior taxable years by A/B.

(iii) *Increases in other reserves.* The positive amount with respect to reserves other than discounted unpaid loss reserves is the net increase of those reserves due to changes in estimate, methodology, or other assumptions used to compute the reserves (including the adoption by new target of a methodology or assumptions different from those used by old target).

(4) *Limitation on additional premium.* The additional premium taken into account by new target under paragraph (d)(1) of this section is limited to the excess, if any, of—

(i) The fair market value of old target's assets acquired by new target in the deemed asset sale (other than Class VI and Class VII assets); over

(ii) The AGUB allocated to those assets (including increases in AGUB allocated to those assets as the result of reserve increases by new target in prior taxable years).

(5) *Treatment of additional premium under section 848.* If a portion of the positive amounts described in paragraphs (d)(3)(ii) and (iii) of this section are attributable to an increase in reserves for specified insurance contracts (as defined in section 848(e)), new target takes an allocable portion of the additional premium in determining its specified policy acquisition expenses under section 848(c) for the taxable year of the reserve increase.

(6) *Examples.* The following examples illustrate this paragraph (d):

Example 1. (i) *Facts.* On January 1, 2006, P purchases all of the stock of T, a non-life insurance company, for \$120 and makes a section 338 election for T. On the acquisition date, old T has total reserve liabilities under state law of \$725, consisting of undiscounted unpaid losses of \$625 and unearned premiums of \$100. Old T's tax reserves on the acquisition date are \$580, which consist of discounted unpaid losses (as defined in section 846) of \$500 and unearned premiums (as computed under section 832(b)(4)(B)) of \$80. Old T has Class I through Class V assets with a fair market value of \$800. Old T also has a Class VI asset with a fair market value of \$75, consisting of the future profit stream of certain insurance contracts. During 2006, new T makes loss and loss adjustment expense payments of \$200 with respect to the unpaid losses incurred by old T before the acquisition date. As of December 31, 2006, new T reports undiscounted unpaid losses of \$475 attributable to losses incurred before the acquisition date. The related amount of discounted unpaid losses (as defined in section 846) for those losses is \$390.

(ii) *Computation and allocation of AGUB.* Under §1.338-5 and paragraph (b)(1) of this section, as of the acquisition date, AGUB is \$700, reflecting the sum of the amount paid for old T's stock (\$120) and the tax reserves assumed by new T in the transaction (\$580). The fair market value of old T's Class I through V assets is \$800, whereas the AGUB available for such assets under §1.338-6 is \$700. There is no AGUB available for old T's Class VI assets, even though such assets have a fair market value of \$75 on the acquisition date.

(iii) *Adjustments for increases in reserves for unpaid losses.* Under paragraph (d) of this section, new T must determine whether there are any amounts by which it increased its unpaid loss reserves that will be treated as an additional premium and an increase in AGUB. New T applies the formula of paragraph (d)(3) of this section, where A equals \$500, B equals \$625, C equals \$475, D equals \$425 ($\$625 - \200), and E equals \$0. Under this formula, new T is treated as having increased its reserves for discounted unpaid losses attributable to losses incurred by old T by \$40 ($\$500/\$625 \times (\$475 - [\$425 + 0])$). The limitation under paragraph (d)(5) of this section based on the difference between the fair market value of old T's Class I through Class V assets and the AGUB allocated to such assets is \$100. Accordingly, new T includes an additional premium of \$40 in gross income for 2006, and increases the AGUB allocated to old T's Class I through Class V assets to reflect this additional premium.

Example 2. (i) *Facts.* Assume the same facts as in *Example 1*. Further assume that during

2007 new T deducts total loss and loss expense payments of \$375 with respect to losses incurred by old T before the acquisition date. On December 31, 2007, new T reports undiscounted unpaid losses of \$150 with respect to losses incurred before the acquisition date. The related amount of discounted unpaid losses (as defined in section 846) for those unpaid losses is \$125.

(ii) *Analysis.* New T must determine whether any amounts by which it increased its unpaid losses during 2007 will be treated as an additional premium in paragraph (d)(3) of this section. New T applies the formula under paragraph (d)(3) of this section, where A equals \$500, B equals \$625, C equals \$150, D equals \$50 ($\$625 - \575), and E equals \$50 ($\40 divided by $.8$). In paragraph (d)(3) of this section, new T is treated as increasing its reserves for discounted unpaid losses by \$40 during 2007 with respect to losses incurred by old T ($\$500/\$625 \times (\$150 - [\$50 + \$50])$). New T determines the limitation of paragraph (d)(5) of this section by comparing the \$800 fair market value of the Class I through V assets on the acquisition date to the \$740 AGUB allocated to such assets (which includes the \$40 addition to AGUB included during 2006). Thus, new T recognizes \$40 of additional premium as a result of the increase in reserves during 2007, and adjusts the AGUB allocable to the Class I through V assets acquired from old T to reflect such additional premium.

Example 3. (i) *Facts.* The facts are the same as *Example 2*, except that on January 1, 2008, new T reinsures the outstanding liability with respect to losses incurred by old T before the acquisition date through a portfolio reinsurance transaction with R, another non-life insurance company. R agrees to assume any remaining liability relating to losses incurred by old T before the acquisition date in exchange for a reinsurance premium of \$200. Accordingly, as of December 31, 2008, new T reports no undiscounted unpaid losses with respect to losses incurred by old T before the acquisition date.

(ii) *Analysis.* New T must determine whether any amount by which it increased its unpaid loss reserves will be treated as an additional premium under paragraph (d) of this section. New T applies the formula of paragraph (d)(3) of this section, where A equals \$500, B equals \$625, C equals \$0, and D equals $-\$150$ ($\$625 - (\$575 + \$200)$), and E equals \$100 ($\$80$ divided by $.8$). Thus, new T is treated as having increased its discounted unpaid losses by \$40 in 2008 with respect to losses incurred by old T before the acquisition date ($\$500/\$625 \times (0 - [-\$150 + \$100])$). New T includes this positive amount in gross income, subject to the limitation of paragraph (d)(4) of this section. The limitation of paragraph (d)(4) of this section equals \$20, which is computed by comparing the \$800 fair market value of the Class I through V assets acquired from old T

with the \$780 AGUB allocated to such assets (which includes the \$40 addition to AGUB in 2006 and the \$40 addition to AGUB in 2007). Thus, New T includes \$20 in additional premium, and increases the AGUB allocated to the Class I through V assets acquired from old T by \$20. As a result of these adjustments, the limitation under paragraph (d)(4) of this section is reduced to zero.

(7) *Effective/applicability date*—(i) *In general.* This section applies to increases to reserves made by new target after a deemed asset sale occurring on or after April 10, 2006.

(ii) *Application to pre-effective date increases to reserves.* If either new target makes an election under § 1.338(i)-1(c)(2) or old target makes an election under § 1.338(i)-1(c)(3) to apply the rules of this section, in whole, to a qualified stock purchase occurring before April 10, 2006, then the rules contained in this section shall apply in whole to the qualified stock purchase.

(e) *Effect of section 338 election on section 846(e) election*—(1) *In general.* New target and old target are treated as the same corporation for purposes of an election by old target to use its historical loss payment pattern under section 846(e). See § 1.338-1(b)(2)(vii). Therefore, if old target has a section 846(e) election in effect on the acquisition date, new target will continue to use the historical loss payment pattern of old target to discount unpaid losses incurred in accident years covered by the election, unless new target elects to revoke the section 846(e) election. In addition, new target may consider old target's historical loss payment pattern when determining whether to make the section 846(e) election for a determination year that includes or is subsequent to the acquisition date.

(2) *Revocation of existing section 846(e) election.* New target may revoke old target's section 846(e) election to use its historical loss payment pattern to discount unpaid losses. If new target elects to revoke old target's section 846(e) election, new target will use the industry-wide patterns determined by the Secretary to discount unpaid losses incurred in accident years beginning on or after the acquisition date through the subsequent determination year. New target may revoke old target's section 846(e) election by attaching a

statement to new target's original tax return for its first taxable year.

(f) *Effect of section 338 election on old target's capitalization amounts under section 848*—(1) *Determination of net consideration for specified insurance contracts.* For purposes of applying section 848 and § 1.848-2(f) to the deemed assumption reinsurance transaction, old target's net consideration (either positive or negative) for each category of specified insurance contracts is an amount equal to—

(i) The allocable portion of the ceding commission (if any) relating to contracts in that category; less

(ii) The amount by which old target's tax reserves for contracts in that category has been reduced as a result of the deemed assumption reinsurance transaction.

(2) *Determination of capitalization amount.* Except as provided in § 1.381(c)(22)-1(b)(13)—

(i) If, after the deemed asset sale, old target has an amount otherwise required to be capitalized under section 848 for the taxable year or an unamortized balance of specified policy acquisition expenses from prior taxable years, then old target deducts such remaining amount or unamortized balance as an expense incurred in the taxable year that includes the deemed sale tax consequences; and

(ii) If, after the deemed asset sale, the negative capitalization amount resulting from the reinsurance transaction exceeds the amount that old target can deduct under section 848(f)(1), then old target's capitalization amount is treated as zero at the close of the taxable year that includes the deemed sale tax consequences.

(3) *Section 381 transactions.* For transactions described in section 381, see § 1.381(c)(22)-1(b)(13).

(g) *Effect of section 338 election on policyholders surplus account.* Except as specifically provided in § 1.381(c)(22)-1(b)(7), the deemed asset sale effects a distribution of old target's policyholders surplus account to the extent the grossed-up amount realized on the sale to the purchasing corporation of the purchasing corporation's recently purchased target stock (as defined in

§1.338-4(c) exceeds old target's shareholders surplus account under section 815(c).

(h) *Effect of section 338 election on section 847 special estimated tax payments.* If old target had elected to claim an additional deduction under section 847 for the taxable year that includes the deemed sale tax consequences or any earlier years, the amount remaining in old target's special loss discount account under section 847(3) must be reduced to the extent it relates to contracts transferred to new target and the amount of such reduction must be included in old target's gross income for the taxable year that includes the deemed sale tax consequences. Old target may apply the balance of its special estimated tax account as a credit against any tax resulting from such inclusion in gross income. Any special estimated tax payments remaining after this credit are voided and, therefore, are not available for credit or refund. Under section 847(1), new target is permitted to claim a section 847 deduction for losses incurred before the deemed asset sale, subject to the general requirement that new target makes timely special estimated tax payments equal to the tax benefit resulting from this deduction. See §1.381(c)(22)-1(c)(14) regarding the carryover of the special loss discount account attributable to contracts transferred in a section 381 transaction.

[T.D. 9257, 71 FR 18000, Apr. 10, 2006, as amended by T.D. 9377, 73 FR 3872, Jan. 23, 2008]

§ 1.338(h)(10)-1 Deemed asset sale and liquidation.

(a) *Scope.* This section prescribes rules for qualification for a section 338(h)(10) election and for making a section 338(h)(10) election. This section also prescribes the consequences of such election. The rules of this section are in addition to the rules of §§1.338-1 through 1.338-10 and, in appropriate cases, apply instead of the rules of §§1.338-1 through 1.338-10.

(b) *Definitions—(1) Consolidated target.* A *consolidated target* is a target that is a member of a consolidated group within the meaning of §1.1502-1(h) on the acquisition date and is not the common parent of the group on that date.

(2) *Selling consolidated group.* A *selling consolidated group* is the consolidated group of which the consolidated target is a member on the acquisition date.

(3) *Selling affiliate; affiliated target.* A *selling affiliate* is a domestic corporation that owns on the acquisition date an amount of stock in a domestic target, which amount of stock is described in section 1504(a)(2), and does not join in filing a consolidated return with the target. In such case, the target is an *affiliated target*.

(4) *S corporation target.* An *S corporation target* is a target that is an S corporation immediately before the acquisition date.

(5) *S corporation shareholders.* *S corporation shareholders* are the S corporation target's shareholders. Unless otherwise indicated, a reference to S corporation shareholders refers both to S corporation shareholders who do and those who do not sell their target stock.

(6) *Liquidation.* Any reference in this section to a *liquidation* is treated as a reference to the transfer described in paragraph (d)(4) of this section notwithstanding its ultimate characterization for Federal income tax purposes.

(c) *Section 338(h)(10) election—(1) In general.* A section 338(h)(10) election may be made for T if P acquires stock meeting the requirements of section 1504(a)(2) from a selling consolidated group, a selling affiliate, or the S corporation shareholders in a qualified stock purchase.

(2) *Availability of section 338(h)(10) election in certain multi-step transactions.* Notwithstanding anything to the contrary in §1.338-3(c)(1)(i), a section 338(h)(10) election may be made for T where P's acquisition of T stock, viewed independently, constitutes a qualified stock purchase and, after the stock acquisition, T merges or liquidates into P (or another member of the affiliated group that includes P), whether or not, under relevant provisions of law, including the step transaction doctrine, the acquisition of the T stock and the merger or liquidation of T qualify as a reorganization described in section 368(a). If a section 338(h)(10) election is made in a case where the acquisition of T stock followed by a merger or liquidation of T

into P qualifies as a reorganization described in section 368(a), for all Federal tax purposes, P's acquisition of T stock is treated as a qualified stock purchase and is not treated as part of a reorganization described in section 368(a).

(3) *Simultaneous joint election requirement.* A section 338(h)(10) election is made jointly by P and the selling consolidated group (or the selling affiliate or the S corporation shareholders) on Form 8023 in accordance with the instructions to the form. S corporation shareholders who do not sell their stock must also consent to the election. The section 338(h)(10) election must be made not later than the 15th day of the 9th month beginning after the month in which the acquisition date occurs.

(4) *Irrevocability.* A section 338(h)(10) election is irrevocable. If a section 338(h)(10) election is made for T, a section 338 election is deemed made for T.

(5) *Effect of invalid election.* If a section 338(h)(10) election for T is not valid, the section 338 election for T is also not valid.

(d) *Certain consequences of section 338(h)(10) election.* For purposes of subtitle A of the Internal Revenue Code (except as provided in § 1.338-1(b)(2)), the consequences to the parties of making a section 338(h)(10) election for T are as follows:

(1) *P.* P is automatically deemed to have made a gain recognition election for its nonrecently purchased T stock, if any. The effect of a gain recognition election includes a taxable deemed sale by P on the acquisition date of any nonrecently purchased target stock. See § 1.338-5(d).

(2) *New T.* The AGUB for new T's assets is determined under § 1.338-5 and is allocated among the acquisition date assets under §§ 1.338-6 and 1.338-7. Notwithstanding paragraph (d)(4) of this section (deemed liquidation of old T), new T remains liable for the tax liabilities of old T (including the tax liability for the deemed sale tax consequences). For example, new T remains liable for the tax liabilities of the members of any consolidated group that are attributable to taxable years in which those corporations and old T joined in the same consolidated return. See § 1.1502-6(a).

(3) *Old T—deemed sale—(i) In general.* Old T is treated as transferring all of its assets to an unrelated person in exchange for consideration that includes the discharge of its liabilities in a single transaction at the close of the acquisition date (but before the deemed liquidation). See § 1.338-1(a) regarding the tax characterization of the deemed asset sale. Except as provided in § 1.338(h)(10)-1(d)(8) (regarding the installment method), old T recognizes all of the gain realized on the deemed transfer of its assets in consideration for the ADSP. ADSP for old T is determined under § 1.338-4 and allocated among the acquisition date assets under §§ 1.338-6 and 1.338-7. Old T realizes the deemed sale tax consequences from the deemed asset sale before the close of the acquisition date while old T is a member of the selling consolidated group (or owned by the selling affiliate or owned by the S corporation shareholders). If T is an affiliated target, or an S corporation target, the principles of §§ 1.338-2(c)(10) and 1.338-10(a)(1), (5), and (6)(i) apply to the return on which the deemed sale tax consequences are reported. When T is an S corporation target, T's S election continues in effect through the close of the acquisition date (including the time of the deemed asset sale and the deemed liquidation) notwithstanding section 1362(d)(2)(B). Also, when T is an S corporation target (but not a qualified subchapter S subsidiary), any direct and indirect subsidiaries of T which T has elected to treat as qualified subchapter S subsidiaries under section 1361(b)(3) remain qualified subchapter S subsidiaries through the close of the acquisition date.

(ii) *Tiered targets.* In the case of parent-subsidiary chains of corporations making elections under section 338(h)(10), the deemed asset sale of a parent corporation is considered to precede that of its subsidiary. See § 1.338-3(b)(4)(i).

(4) *Old T and selling consolidated group, selling affiliate, or S corporation shareholders—deemed liquidation; tax characterization—(i) In general.* Old T is treated as if, before the close of the acquisition date, after the deemed asset sale in paragraph (d)(3) of this section,

and while old T is a member of the selling consolidated group (or owned by the selling affiliate or owned by the S corporation shareholders), it transferred all of its assets to members of the selling consolidated group, the selling affiliate, or S corporation shareholders and ceased to exist. The transfer from old T is characterized for Federal income tax purposes in the same manner as if the parties had actually engaged in the transactions deemed to occur because of this section and taking into account other transactions that actually occurred or are deemed to occur. For example, the transfer may be treated as a distribution in pursuance of a plan of reorganization, a distribution in complete cancellation or redemption of all its stock, one of a series of distributions in complete cancellation or redemption of all its stock in accordance with a plan of liquidation, or part of a circular flow of cash. In most cases, the transfer will be treated as a distribution in complete liquidation to which section 336 or 337 applies.

(ii) *Tiered targets.* In the case of parent-subsidiary chains of corporations making elections under section 338(h)(10), the deemed liquidation of a subsidiary corporation is considered to precede the deemed liquidation of its parent.

(5) *Selling consolidated group, selling affiliate, or S corporation shareholders—*
(i) *In general.* If T is an S corporation target, S corporation shareholders (whether or not they sell their stock) take their pro rata share of the deemed sale tax consequences into account under section 1366 and increase or decrease their basis in T stock under section 1367. Members of the selling consolidated group, the selling affiliate, or S corporation shareholders are treated as if, after the deemed asset sale in paragraph (d)(3) of this section and before the close of the acquisition date, they received the assets transferred by old T in the transaction described in paragraph (d)(4)(i) of this section. In most cases, the transfer will be treated as a distribution in complete liquidation to which section 331 or 332 applies.

(ii) *Basis and holding period of T stock not acquired.* A member of the selling consolidated group (or the selling affil-

iate or an S corporation shareholder) retaining T stock is treated as acquiring the stock so retained on the day after the acquisition date for its fair market value. The holding period for the retained stock starts on the day after the acquisition date. For purposes of this paragraph, the fair market value of all of the T stock equals the grossed-up amount realized on the sale to P of P's recently purchased target stock. See § 1.338-4(c).

(iii) *T stock sale.* Members of the selling consolidated group (or the selling affiliate or S corporation shareholders) recognize no gain or loss on the sale or exchange of T stock included in the qualified stock purchase (although they may recognize gain or loss on the T stock in the deemed liquidation).

(6) *Nonselling minority shareholders other than nonselling S corporation shareholders—*(i) *In general.* This paragraph (d)(6) describes the treatment of shareholders of old T other than the following: Members of the selling consolidated group, the selling affiliate, S corporation shareholders (whether or not they sell their stock), and P. For a description of the treatment of S corporation shareholders, see paragraph (d)(5) of this section. A shareholder to which this paragraph (d)(6) applies is called a minority shareholder.

(ii) *T stock sale.* A minority shareholder recognizes gain or loss on the shareholder's sale or exchange of T stock included in the qualified stock purchase.

(iii) *T stock not acquired.* A minority shareholder does not recognize gain or loss under this section with respect to shares of T stock retained by the shareholder. The shareholder's basis and holding period for that T stock is not affected by the section 338(h)(10) election.

(7) *Consolidated return of selling consolidated group.* If P acquires T in a qualified stock purchase from a selling consolidated group—

(i) The selling consolidated group must file a consolidated return for the taxable period that includes the acquisition date;

(ii) A consolidated return for the selling consolidated group for that period may not be withdrawn on or after the

day that a section 338(h)(10) election is made for T; and

(iii) Permission to discontinue filing consolidated returns cannot be granted for, and cannot apply to, that period or any of the immediately preceding taxable periods during which consolidated returns continuously have been filed.

(8) *Availability of the section 453 installment method.* Solely for purposes of applying sections 453, 453A, and 453B, and the regulations thereunder (the installment method) to determine the consequences to old T in the deemed asset sale and to old T (and its shareholders, if relevant) in the deemed liquidation, the rules in paragraphs (d)(1) through (7) of this section are modified as follows:

(i) *In deemed asset sale.* Old T is treated as receiving in the deemed asset sale new T installment obligations, the terms of which are identical (except as to the obligor) to P installment obligations issued in exchange for recently purchased stock of T. Old T is treated as receiving in cash all other consideration in the deemed asset sale other than the assumption of, or taking subject to, old T liabilities. For example, old T is treated as receiving in cash any amounts attributable to the grossing-up of amount realized under § 1.338-4(c). The amount realized for recently purchased stock taken into account in determining ADSP is adjusted (and, thus, ADSP is redetermined) to reflect the amounts paid under an installment obligation for the stock when the total payments under the installment obligation are greater or less than the amount realized.

(ii) *In deemed liquidation.* Old T is treated as distributing in the deemed liquidation the new T installment obligations that it is treated as receiving in the deemed asset sale. The members of the selling consolidated group, the selling affiliate, or the S corporation shareholders are treated as receiving in the deemed liquidation the new T installment obligations that correspond to the P installment obligations they actually received individually in exchange for their recently purchased stock. The new T installment obligations may be recharacterized under other rules. See for example § 1.453-11(a)(2) which, in certain cir-

cumstances, treats the new T installment obligations deemed distributed by old T as if they were issued by new T in exchange for the stock in old T owned by members of the selling consolidated group, the selling affiliate, or the S corporation shareholders. The members of the selling consolidated group, the selling affiliate, or the S corporation shareholders are treated as receiving all other consideration in the deemed liquidation in cash.

(9) *Treatment consistent with an actual asset sale.* No provision in section 338(h)(10) or this section shall produce a Federal income tax result under subtitle A of the Internal Revenue Code that would not occur if the parties had actually engaged in the transactions deemed to occur because of this section and taking into account other transactions that actually occurred or are deemed to occur. See, however, § 1.338-1(b)(2) for certain exceptions to this rule.

(e) *Examples.* The following examples illustrate the provisions of this section:

Example 1. (i) S1 owns all of the T stock and T owns all of the stock of T1 and T2. S1 is the common parent of a consolidated group that includes T, T1, and T2. P makes a qualified stock purchase of all of the T stock from S1. S1 joins with P in making a section 338(h)(10) election for T and for the deemed purchase of T1. A section 338 election is not made for T2.

(ii) S1 does not recognize gain or loss on the sale of the T stock and T does not recognize gain or loss on the sale of the T1 stock because section 338(h)(10) elections are made for T and T1. Thus, for example, gain or loss realized on the sale of the T or T1 stock is not taken into account in earnings and profits. However, because a section 338 election is not made for T2, T must recognize any gain or loss realized on the deemed sale of the T2 stock. See § 1.338-4(h).

(iii) The results would be the same if S1, T, T1, and T2 are not members of any consolidated group, because S1 and T are selling affiliates.

Example 2. (i) S and T are solvent corporations. S owns all of the outstanding stock of T. S and P agree to undertake the following transaction: T will distribute half its assets to S, and S will assume half of T's liabilities. Then, P will purchase the stock of T from S. S and P will jointly make a section 338(h)(10) election with respect to the sale of T. The corporations then complete the transaction as agreed.

(ii) Under section 338(a), the assets present in T at the close of the acquisition date are deemed sold by old T to new T. Under paragraph (d)(4) of this section, the transactions described in paragraph (d) of this section are treated in the same manner as if they had actually occurred. Because S and P had agreed that, after T's actual distribution to S of part of its assets, S would sell T to P pursuant to an election under section 338(h)(10), and because paragraph (d)(4) of this section deems T subsequently to have transferred all its assets to its shareholder, T is deemed to have adopted a plan of complete liquidation under section 332. T's actual transfer of assets to S is treated as a distribution pursuant to that plan of complete liquidation.

Example 3. (i) S1 owns all of the outstanding stock of both T and S2. All three are corporations. S1 and P agree to undertake the following transaction. T will transfer substantially all of its assets and liabilities to S2, with S2 issuing no stock in exchange therefor, and retaining its other assets and liabilities. Then, P will purchase the stock of T from S1. S1 and P will jointly make a section 338(h)(10) election with respect to the sale of T. The corporations then complete the transaction as agreed.

(ii) Under section 338(a), the remaining assets present in T at the close of the acquisition date are deemed sold by old T to new T. Under paragraph (d)(4) of this section, the transactions described in this section are treated in the same manner as if they had actually occurred. Because old T transferred substantially all of its assets to S2, and is deemed to have distributed all its remaining assets and gone out of existence, the transfer of assets to S2, taking into account the related transfers, deemed and actual, qualifies as a reorganization under section 368(a)(1)(D). Section 361(c)(1) and not section 332 applies to T's deemed liquidation.

Example 4. (i) T owns two assets: an actively traded security (Class II) with a fair market value of \$100 and an adjusted basis of \$100, and inventory (Class IV) with a fair market value of \$100 and an adjusted basis of \$100. T has no liabilities. S is negotiating to sell all the stock in T to P for \$100 cash and contingent consideration. Assume that under generally applicable tax accounting rules, P's adjusted basis in the T stock immediately after the purchase would be \$100, because the contingent consideration is not taken into account. Thus, under the rules of § 1.338-5, AGUB would be \$100. Under the allocation rules of § 1.338-6, the entire \$100 would be allocated to the Class II asset, the actively traded security, and no amount would be allocated to the inventory. P, however, plans immediately to cause T to sell the in-

ventory, but not the actively traded security, so it requests that, prior to the stock sale, S cause T to create a new subsidiary, Newco, and contribute the actively traded security to the capital of Newco. Because the stock in Newco, which would not be actively traded, is a Class V asset, under the rules of § 1.338-6 \$100 of AGUB would be allocated to the inventory and no amount of AGUB would be allocated to the Newco stock. Newco's own AGUB, \$0 under the rules of § 1.338-5, would be allocated to the actively traded security. When P subsequently causes T to sell the inventory, T would realize no gain or loss instead of realizing gain of \$100.

(ii) Assume that, if the T stock had not itself been sold but T had instead sold both its inventory and the Newco stock to P, T would for tax purposes be deemed instead to have sold both its inventory and actively traded security directly to P, with P deemed then to have created Newco and contributed the actively traded security to the capital of Newco. Section 338, if elected, generally recharacterizes a stock sale as a deemed sale of assets. However, paragraph (d)(9) of this section states, in general, that no provision of section 338(h)(10) or the regulations thereunder shall produce a Federal income tax result under subtitle A of the Internal Revenue Code that would not occur if the parties had actually engaged in the transactions deemed to occur by virtue of the section 338(h)(10) election, taking into account other transactions that actually occurred or are deemed to occur. Hence, the deemed sale of assets under section 338(h)(10) should be treated as one of the inventory and actively traded security themselves, not of the inventory and Newco stock. The anti-abuse rule of § 1.338-1(c) does not apply, because the substance of the deemed sale of assets is a sale of the inventory and the actively traded security themselves, not of the inventory and the Newco stock. Otherwise, the anti-abuse rule might apply.

Example 5. (i) T, a member of a selling consolidated group, has only one class of stock, all of which is owned by S1. On March 1 of Year 2, S1 sells its T stock to P for \$80,000, and joins with P in making a section 338(h)(10) election for T. There are no selling costs or acquisition costs. On March 1 of Year 2, T owns land with a \$50,000 basis and \$75,000 fair market value and equipment with a \$30,000 adjusted basis, \$70,000 recomputed basis, and \$60,000 fair market value. T also has a \$40,000 liability. S1 pays old T's allocable share of the selling group's consolidated tax liability for Year 2 including the tax liability for the deemed sale tax consequences (a total of \$13,600).

(ii) ADSP of \$120,000 (\$80,000 + \$40,000 + 0) is allocated to each asset as follows:

Assets	Basis	FMV	Fraction	Allocable ADSP
Land	\$50,000	\$75,000	$\frac{5}{6}$	\$66,667
Equipment	30,000	60,000	$\frac{1}{6}$	53,333
Total	80,000	135,000	1	120,000

(iii) Under paragraph (d)(3) of this section, old T has gain on the deemed sale of \$40,000 (consisting of \$16,667 of capital gain and \$23,333 of ordinary income).

(iv) Under paragraph (d)(5)(iii) of this section, S1 recognizes no gain or loss upon its sale of the old T stock to P. S1 also recognizes no gain or loss upon the deemed liquidation of T. See paragraph (d)(4) of this section and section 332.

(v) P's basis in new T stock is P's cost for the stock, \$80,000. See section 1012.

(vi) Under § 1.338-5, the AGUB for new T is \$120,000, i.e., P's cost for the old T stock (\$80,000) plus T's liability (\$40,000). This AGUB is allocated as basis among the new T assets under §§ 1.338-6 and 1.338-7.

Example 6. (i) The facts are the same as in *Example 5*, except that S1 sells 80 percent of the old T stock to P for \$64,000, rather than 100 percent of the old T stock for \$80,000.

(ii) The consequences to P, T, and S1 are the same as in *Example 5*, except that:

(A) P's basis for its 80-percent interest in the new T stock is P's \$64,000 cost for the stock. See section 1012.

(B) Under § 1.338-5, the AGUB for new T is \$120,000 (i.e., \$64,000/8 + \$40,000 + \$0).

(C) Under paragraph (d)(4) of this section, S1 recognizes no gain or loss with respect to the retained stock in T. See section 332.

(D) Under paragraph (d)(5)(ii) of this section, the basis of the T stock retained by S1 is \$16,000 (i.e., \$120,000 - \$40,000 (the ADSP amount for the old T assets over the sum of new T's liabilities immediately after the acquisition date) × .20 (the proportion of T stock retained by S1)).

Example 7. (i) The facts are the same as in *Example 6*, except that K, a shareholder unrelated to T or P, owns the 20 percent of the T stock that is not acquired by P in the qualified stock purchase. K's basis in its T stock is \$5,000.

(ii) The consequences to P, T, and S1 are the same as in *Example 6*.

(iii) Under paragraph (d)(6)(iii) of this section, K recognizes no gain or loss, and K's basis in its T stock remains at \$5,000.

Example 8. (i) The facts are the same as in *Example 5*, except that the equipment is held by T1, a wholly-owned subsidiary of T, and a section 338(h)(10) election is also made for T1. The T1 stock has a fair market value of \$60,000. T1 has no assets other than the equipment and no liabilities. S1 pays old T's and old T1's allocable shares of the selling group's consolidated tax liability for Year 2

including the tax liability for T and T1's deemed sale tax consequences.

(ii) ADSP for T is \$120,000, allocated \$66,667 to the land and \$53,333 to the stock. Old T's deemed sale results in \$16,667 of capital gain on its deemed sale of the land. Under paragraph (d)(5)(iii) of this section, old T does not recognize gain or loss on its deemed sale of the T1 stock. See section 332.

(iii) ADSP for T1 is \$53,333 (i.e., \$53,333 + \$0 + \$0). On the deemed sale of the equipment, T1 recognizes ordinary income of \$23,333.

(iv) Under paragraph (d)(5)(iii) of this section, S1 does not recognize gain or loss upon its sale of the old T stock to P.

Example 9. (i) The facts are the same as in *Example 8*, except that P already owns 20 percent of the T stock, which is nonrecently purchased stock with a basis of \$6,000, and that P purchases the remaining 80 percent of the T stock from S1 for \$64,000.

(ii) The results are the same as in *Example 8*, except that under paragraph (d)(1) of this section and § 1.338-5(d), P is deemed to have made a gain recognition election for its nonrecently purchased T stock. As a result, P recognizes gain of \$10,000 and its basis in the nonrecently purchased T stock is increased from \$6,000 to \$16,000. P's basis in all the T stock is \$80,000 (i.e., \$64,000 + \$16,000). The computations are as follows:

(A) P's grossed-up basis for the recently purchased T stock is \$64,000 (i.e., \$64,000 (the basis of the recently purchased T stock) × (1 - .2)/(.8) (the fraction in section 338(b)(4))).

(B) P's basis amount for the nonrecently purchased T stock is \$16,000 (i.e., \$64,000 (the grossed-up basis in the recently purchased T stock) × (.2)/(1.0 - .2) (the fraction in section 338(b)(3)(B))).

(C) The gain recognized on the nonrecently purchased stock is \$10,000 (i.e., \$16,000 - \$6,000).

Example 10. (i) T is an S corporation whose sole class of stock is owned 40 percent each by A and B and 20 percent by C. T, A, B, and C all use the cash method of accounting. A and B each has an adjusted basis of \$10,000 in the stock. C has an adjusted basis of \$5,000 in the stock. A, B, and C hold no installment obligations to which section 453A applies. On March 1 of Year 1, A sells its stock to P for \$40,000 in cash and B sells its stock to P for a \$25,000 note issued by P and real estate having a fair market value of \$15,000. The \$25,000 note, due in full in Year 7, is not publicly traded and bears adequate stated interest. A and B have no selling expenses. T's sole asset is real estate, which has a value of

\$110,000 and an adjusted basis of \$35,000. Also, T's real estate is encumbered by long-outstanding purchase-money indebtedness of \$10,000. The real estate does not have built-in gain subject to section 1374. A, B, and C join with P in making a section 338(h)(10) election for T.

(i) Solely for purposes of application of sections 453, 453A, and 453B, old T is considered in its deemed asset sale to receive back from new T the \$25,000 note (considered issued by new T) and \$75,000 of cash (total consideration of \$80,000 paid for all the stock sold, which is then divided by .80 in the grossing-up, with the resulting figure of \$100,000 then reduced by the amount of the installment note). Absent an election under section 453(d), gain is reported by old T under the installment method.

(iii) In applying the installment method to old T's deemed asset sale, the contract price for old T's assets deemed sold is \$100,000, the \$110,000 selling price reduced by the indebtedness of \$10,000 to which the assets are subject. (The \$110,000 selling price is itself the sum of the \$80,000 grossed-up in paragraph (ii) above to \$100,000 and the \$10,000 liability.) Gross profit is \$75,000 (\$110,000 selling price - old T's basis of \$35,000). Old T's gross profit ratio is 0.75 (gross profit of \$75,000 ÷ \$100,000 contract price). Thus, \$56,250 (0.75 × the \$75,000 cash old T is deemed to receive in Year 1) is Year 1 gain attributable to the sale, and \$18,750 (\$75,000 - \$56,250) is recovery of basis.

(iv) In its liquidation, old T is deemed to distribute the \$25,000 note to B, since B actually sold the stock partly for that consideration. To the extent of the remaining liquidating distribution to B, it is deemed to receive, along with A and C, the balance of old T's liquidating assets in the form of cash. Under section 453(h), B, unless it makes an election under section 453(d), is not required to treat the receipt of the note as a payment for the T stock; P's payment of the \$25,000 note in Year 7 to B is a payment for the T stock. Because section 453(h) applies to B, old T's deemed liquidating distribution of the note is, under section 453B(h), not treated as a taxable disposition by old T.

(v) Under section 1366, A reports 40 percent, or \$22,500, of old T's \$56,250 gain recognized in Year 1. Under section 1367, this increases A's \$10,000 adjusted basis in the T stock to \$32,500. Next, in old T's deemed liquidation, A is considered to receive \$40,000 for its old T shares, causing it to recognize an additional \$7,500 gain in Year 1.

(vi) Under section 1366, B reports 40 percent, or \$22,500, of old T's \$56,250 gain recognized in Year 1. Under section 1367, this increases B's \$10,000 adjusted basis in its T stock to \$32,500. Next, in old T's deemed liquidation, B is considered to receive the \$25,000 note and \$15,000 of other consideration. Applying section 453, including section

453(h), to the deemed liquidation, B's selling price and contract price are both \$40,000. Gross profit is \$7,500 (\$40,000 selling price - B's basis of \$32,500). B's gross profit ratio is 0.1875 (gross profit of \$7,500 ÷ \$40,000 contract price). Thus, \$2,812.50 (0.1875 × \$15,000) is Year 1 gain attributable to the deemed liquidation. In Year 7, when the \$25,000 note is paid, B has \$4,687.50 (0.1875 × \$25,000) of additional gain.

(vii) Under section 1366, C reports 20 percent, or \$11,250, of old T's \$56,250 gain recognized in Year 1. Under section 1367, this increases C's \$5,000 adjusted basis in its T stock to \$16,250. Next, in old T's deemed liquidation, C is considered to receive \$20,000 for its old T shares, causing it to recognize an additional \$3,750 gain in Year 1. Finally, under paragraph (d)(5)(ii) of this section, C is considered to acquire its stock in T on the day after the acquisition date for \$20,000 (fair market value = grossed-up amount realized of \$100,000 × 20%). C's holding period in the stock deemed received in new T begins at that time.

Example 11. Stock acquisition followed by upstream merger—without section 338(h)(10) election. (i) P owns all the stock of Y, a newly formed subsidiary. S owns all the stock of T. Each of P, S, T and Y is a domestic corporation. P acquires all of the T stock in a statutory merger of Y into T, with T surviving. In the merger, S receives consideration consisting of 50% P voting stock and 50% cash. Viewed independently of any other step, P's acquisition of T stock constitutes a qualified stock purchase. As part of the plan that includes P's acquisition of the T stock, T subsequently merges into P. Viewed independently of any other step, T's merger into P qualifies as a liquidation described in section 332. Absent the application of paragraph (c)(2) of this section, the step transaction doctrine would apply to treat P's acquisition of the T stock and T's merger into P as an acquisition by P of T's assets in a reorganization described in section 368(a). P and S do not make a section 338(h)(10) election with respect to P's purchase of the T stock.

(ii) Because P and S do not make an election under section 338(h)(10) for T, P's acquisition of the T stock and T's merger into P is treated as part of a reorganization described in section 368(a).

Example 12. Stock acquisition followed by upstream merger—with section 338(h)(10) election. (i) The facts are the same as in *Example 11* except that P and S make a joint election under section 338(h)(10) for T.

(ii) Pursuant to paragraph (c)(2) of this section, as a result of the election under section 338(h)(10), for all Federal tax purposes, P's acquisition of the T stock is treated as a qualified stock purchase and P's acquisition of the T stock is not treated as part of a reorganization described in section 368(a).

§ 1.338(i)-1

26 CFR Ch. I (4-1-16 Edition)

Example 13. Stock acquisition followed by brother-sister merger—with section 338(h)(10) election. (i) The facts are the same as in *Example 12*, except that, following P's acquisition of the T stock, T merges into X, a domestic corporation that is a wholly owned subsidiary of P. Viewed independently of any other step, T's merger into X qualifies as a reorganization described in section 368(a). Absent the application of paragraph (c)(2) of this section, the step transaction doctrine would apply to treat P's acquisition of the T stock and T's merger into X as an acquisition by X of T's assets in a reorganization described in section 368(a).

(ii) Pursuant to paragraph (c)(2) of this section, as a result of the election under section 338(h)(10), for all Federal tax purposes, P's acquisition of T stock is treated as a qualified stock purchase and P's acquisition of T stock is not treated as part of a reorganization described in section 368(a).

Example 14. Stock acquisition that does not qualify as a qualified stock purchase followed by upstream merger. (i) The facts are the same as in *Example 11*, except that, in the statutory merger of Y into T, S receives only P voting stock.

(ii) Pursuant to § 1.338-3(c)(1)(i) and paragraph (c)(2) of this section, no election under section 338(h)(10) can be made with respect to P's acquisition of the T stock because, pursuant to relevant provisions of law, including the step transaction doctrine, that acquisition followed by T's merger into P is treated as a reorganization described in section 368(a)(1)(A), and that acquisition, viewed independently of T's merger into P, does not constitute a qualified stock purchase under section 338(d)(3). Accordingly, P's acquisition of the T stock and T's merger into P is treated as a reorganization described in section 368(a).

(f) *Inapplicability of provisions.* The provisions of section 6043, §§ 1.331-1(d) and 1.332-6 (relating to information returns and recordkeeping requirements for corporate liquidations) do not apply to the deemed liquidation of old T under paragraph (d)(4) of this section.

(g) *Required information.* The Commissioner may exercise the authority granted in section 338(h)(10)(C)(iii) to require provision of any information deemed necessary to carry out the provisions of section 338(h)(10) by requiring submission of information on any tax reporting form.

(h) *Effective date.* This section is applicable to stock acquisitions occurring on or after July 5, 2006. For stock acquisitions occurring before July 5, 2006, see § 1.338(h)(10)-1T as contained in

the edition of 26 CFR part 1, revised as of April 1, 2006.

[T.D. 8940, 66 FR 8950, Feb. 13, 2001, as amended by T.D. 9071, 68 FR 40768, July 9, 2003; T.D. 9264, 71 FR 30607, May 30, 2006; T.D. 9271, 71 FR 38075, July 5, 2006; T.D. 9329, 72 FR 32808, June 14, 2007]

§ 1.338(i)-1 Effective/applicability date.

(a) *In general.* The provisions of §§ 1.338-1 through 1.338-7, 1.338-10 and 1.338(h)(10)-1 apply to any qualified stock purchase occurring after March 15, 2001. For rules applicable to qualified stock purchases on or before March 15, 2001, see §§ 1.338-1T through 1.338-7T, 1.338-10T, 1.338(h)(10)-1T and 1.338(i)-1T in effect prior to March 16, 2001 (see 26 CFR part 1 revised April 1, 2000).

(b) *Section 338(h)(10) elections for S corporation targets.* The requirements of §§ 1.338(h)(10)-1T(c)(2) and 1.338(h)(10)-1(c)(2) that S corporation shareholders who do not sell their stock must also consent to an election under section 338(h)(10) will not invalidate an otherwise valid election made on the September 1997 revision of Form 8023, "Elections Under Section 338 For Corporations Making Qualified Stock Purchases," not signed by the nonselling shareholders, provided that the S corporation and all of its shareholders (including nonselling shareholders) report the tax consequences consistently with the results under section 338(h)(10).

(c) *Section 338 elections for insurance company targets—(1) In general.* The rules of § 1.338-11 apply to qualified stock purchases occurring on or after April 10, 2006.

(2) *New target election for retroactive application—(i) Availability of election.* New target may make an irrevocable election to apply the rules in §§ 1.338-11 (including the applicable provisions in §§ 1.197-2(g)(5), 381(c)(22)-1, and 846) in whole, but not in part, to a qualified stock purchase occurring before April 10, 2006 for which a section 338 election is made, provided that new target's first taxable year and all subsequent affected taxable years are years for which an assessment of deficiency or a refund for overpayment is not prevented by any law or rule of law. In the case of a section 338 election for which a section 338(h)(10) election is made (or

a section 338 election for a foreign target), new target may make the election to apply the regulations retroactively without regard to whether old target makes the election. In the case of a section 338 election for a domestic target for which no section 338(h)(10) election is made, new target may make the election to apply the regulations retroactively only if old target also makes the election. Paragraph (c)(2)(ii) of this section prescribes the time and manner of the election for new target.

(ii) *Time and manner of making the election for new target.* New target may make an election described in paragraph (c)(2)(i) of this section by attaching a statement to its original or amended income tax return for its first taxable year. The statement must be entitled “Election to Retroactively Apply the Rules in §§1.338-11 (including the applicable provisions in §§1.197-2(g)(5), 1.381(c)(22)-1 and 846) in whole to a transaction completed before April 10, 2006” and must include the following information—

(A) The name and E.I.N. for new target; and

(B) The following declaration (or a substantially similar declaration): New target has amended its income tax returns for its first taxable year and for all affected subsequent years to reflect the rules in §§1.338-11 (including the applicable provisions in §§1.197-2(g)(5), 1.381(c)(22)-1 and 846). All other parties whose income tax liabilities are affected by new target’s election have amended their income tax returns for all affected years to reflect the rules in §§1.338-11 (including the applicable provisions in §§1.197-2(g)(5), 1.381(c)(22)-1 and 846).

(3) *Old target election for retroactive application—(i) Availability of election.* Old target may make an irrevocable election to apply the rules in §§1.338-11 (including the applicable provisions in §§1.197-2(g)(5), 1.381(c)(22)-1 and 846) in whole, but not in part, to a qualified stock purchase occurring before April 10, 2006 for which a section 338 election is made, provided that old target’s taxable year that includes the deemed sale tax consequences and all subsequent affected taxable years are years for which an assessment of deficiency or a refund for overpayment is not pre-

vented by any law or rule of law. In the case of a section 338 election for which a section 338(h)(10) election is made (or a section 338 election for a foreign target), old target may make the election to apply the regulations retroactively without regard to whether new target makes the election. In the case of a section 338 election for a domestic target for which no section 338(h)(10) election is made, old target may make the election to apply the regulations retroactively only if new target also makes the election. Paragraph (c)(3)(ii) of this section prescribes the time and manner of the election for old target.

(ii) *Time and manner of making the election for old target.* Old target may make an election described in paragraph (c)(3)(i) of this section by attaching a statement to each affected party’s original or amended income tax return for the taxable year that includes the deemed sale tax consequences. The statement must be entitled “Election to Retroactively Apply the Rules in §§1.338-11 (including the applicable provisions in §§1.197-2(g)(5), 1.381(c)(22)-1 and 846) to a transaction completed before April 10, 2006” and must include the following information—

(A) The name and E.I.N. for old target; and

(B) The following declaration (or a substantially similar declaration): Old target has amended its income tax returns for the taxable year that includes the deemed sale tax consequences and for all affected subsequent years to reflect the rules in §§1.338-11 (including the applicable provisions in §§1.197-2(g)(5), 1.381(c)(22)-1 and 846). All other parties whose income tax liabilities are affected by old target’s election have amended their income tax returns for all affected years to reflect the rules in §§1.338-11 (including the applicable provisions in §§1.197-2(g)(5), 1.381(c)(22)-1 and 846).

[T.D. 8940, 66 FR 9954, Feb. 13, 2001, as amended by T.D. 9257, 71 FR 18003, Apr. 10, 2006; T.D. 9377, 73 FR 3873, 3874, Jan. 23, 2008]

§ 1.341-1

26 CFR Ch. I (4-1-16 Edition)

COLLAPSIBLE CORPORATIONS; FOREIGN
PERSONAL HOLDING COMPANIES

§ 1.341-1 Collapsible corporations; in general.

Subject to the limitations contained in § 1.341-4 and the exceptions contained in § 1.341-6 and § 1.341-7(a), the entire gain from the actual sale or exchange of stock of a collapsible corporation, (b) amounts distributed in complete or partial liquidation of a collapsible corporation which are treated, under section 331, as payment in exchange for stock, and (c) a distribution made by a collapsible corporation which, under section 301(c)(3), is treated, to the extent it exceeds the basis of the stock, in the same manner as a gain from the sale or exchange of property, shall be considered as ordinary income.

[T.D. 7655, 44 FR 68459, Nov. 29, 1979]

§ 1.341-2 Definitions.

(a) *Determination of collapsible corporation.* (1) A collapsible corporation is defined by section 341(b)(1) to be a corporation formed or availed of principally (i) for the manufacture, construction, or production of property, (ii) for the purchase of property which (in the hands of the corporation) is property described in section 341(b)(3), or (iii) for the holding of stock in a corporation so formed or availed of, with a view to (a) the sale or exchange of stock by its shareholders (whether in liquidation or otherwise), or a distribution to its shareholders, prior to the realization by the corporation manufacturing, constructing, producing, or purchasing the property of a substantial part of the taxable income to be derived from such property, and (b) the realization by such shareholders of gain attributable to such property. See § 1.341-5 for a description of the facts which will ordinarily be considered sufficient to establish whether or not a corporation is a collapsible corporation under the rules of this section. See paragraph (d) of § 1.341-5 for examples of the application of section 341.

(2) Under section 341(b)(1) the corporation must be formed or availed of with a view to the action therein described, that is, the sale or exchange of its stock by its shareholders, or a dis-

tribution to them prior to the realization by the corporation manufacturing, constructing, producing, or purchasing the property of a substantial part of the taxable income to be derived from such property, and the realization by the shareholders of gain attributable to such property. This requirement is satisfied in any case in which such action was contemplated by those persons in a position to determine the policies of the corporation, whether by reason of their owning a majority of the voting stock of the corporation or otherwise. The requirement is satisfied whether such action was contemplated, unconditionally, conditionally, or as a recognized possibility. If the corporation was so formed or availed of, it is immaterial that a particular shareholder was not a shareholder at the time of the manufacture, construction, production, or purchase of the property, or if a shareholder at such time, did not share in such view. Any gain of such a shareholder on his stock in the corporation shall be treated in the same manner as gain of a shareholder who did share in such view. The existence of a bona fide business reason for doing business in the corporate form does not, by itself, negate the fact that the corporation may also have been formed or availed of with a view to the action described in section 341(b).

(3) A corporation is formed or availed of with a view to the action described in section 341(b) if the requisite view existed at any time during the manufacture, production, construction, or purchase referred to in that section. Thus, if the sale, exchange, or distribution is attributable solely to circumstances which arose after the manufacture, construction, production, or purchase (other than circumstances which reasonably could be anticipated at the time of such manufacture, construction, production, or purchase), the corporation shall, in the absence of compelling facts to the contrary, be considered not to have been so formed or availed of. However, if the sale, exchange or distribution is attributable to circumstances present at the time of the manufacture, construction, production, or purchase, the corporation shall, in the absence of compelling
