Subpart A—Federal Matching and General Administration Provisions

§ 433.8 [Reserved]

§ 433.10 Rates of FFP for program services.

(a) *Basis.* Sections 1903(a)(1), 1903(g), 1905(b), 1905(y), and 1905(z) provide for payments to States, on the basis of a Federal medical assistance percentage, for part of their expenditures for services under an approved State plan.

(b) *Federal medical assistance percentage (FMAP)—Computations.* The FMAP is determined by the formula described in section 1905(b) of the Act. Under the formula, if a State's per capita income is equal to the national average per capita income, the Federal share is 55 percent. If a State's per capita income exceeds the national average, the Federal share is lower, with a statutory minimum of 50 percent. If a State's per capita income is lower than the national average, the Federal share is increased, with a statutory maximum of 83 percent. The formula used in determining the State and Federal share is as follows:

State Share = [(State per capita income)^2/(National per capita income)^2] × 45 percent

Federal share = 100 percent minus the State share (with a minimum of 50 percent and a maximum of 83 percent)

The formula provides for squaring both the State and national average per capita incomes; this procedure magnifies any difference between the State's income and the national average. Consequently, Federal matching to lower income States is increased, and Federal matching to higher income States is decreased, within the statutory 50–83 percent limits. The FMAP for Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa is set by statute at 50 percent and is subject to dollar limitations specified in section 1108 of the Act.

(c) *Special provisions.* (1) Under section 1903(a)(5) of the Act, the Federal share of State expenditures for family planning services is 90 percent.

(2) Under section 1905(b), the Federal share of State expenditures for services provided through Indian Health Service facilities is 100 percent.

(3) Under section 1903(g), the FMAP is reduced if the State does not have an effective program to control use of institutional services.

(4) Under section 1905(b) of the Social Security Act, the Federal share of State expenditures described in § 433.11(a) for services provided to children, is the enhanced FMAP rate determined in accordance with § 457.622(b) of this chapter, subject to the conditions explained in § 433.11(b).

(5)(i) Under section 1933(d) of the Act, the Federal share of State expenditures for Medicare Part B premiums described in section 1905(p)(3)(A)(ii) of the Act on behalf of Qualifying Individuals described in section 1902(a)(10)(E)(iv) of the Act, is 100 percent, to the extent that the assistance does not exceed the State's allocation under paragraph (c)(5)(ii) of this section. To the extent that the assistance exceeds that allocation, the Federal share is 0 percent.

(ii) Under section 1933(c)(2) of the Act and subject to paragraph (c)(5)(iii) of this section, the allocation to each State is equal to the total allocation specified in section 1933(g) of the Act multiplied by the Secretary's estimate of the ratio of the total number of individuals described in section 1902(a)(10)(E)(iv) of the Act in the State to the total number of individuals described in section 1902(a)(10)(E)(iv) of the Act for all eligible States. In estimating that ratio, the Secretary will use data from the U.S. Census Bureau.

(iii) If, based on projected expenditures for a fiscal year, or for a shorter period for which funding is available under section 1933 of the Act, the Secretary determines that the expenditures described in paragraph (c)(5)(i) of this section for one or more States are projected to exceed the allocation made to the State, the Secretary may adjust each State's fiscal year allocation, as follows:

(A) The Secretary will compare each State's projected total expenditures for the expenses described in paragraph (c)(5)(i) of this section to the State's initial allocation determined under paragraph (c)(5)(ii) of this section, to determine the extent of each State's projected surplus or deficit.

(B) The surplus of each State with a projected surplus, as determined in accordance with paragraph (c)(5)(iii)(A) of this section will be added together to arrive at the Total Projected Surplus.

(C) The deficit of each State with a projected deficit, as determined in accordance with paragraph (c)(5)(iii)(A) of this section will be added together to arrive at the Total Projected Deficit.

(D) Each State with a projected deficit will receive an additional allocation equal to the amount of its projected deficit, or a prorated amount of such deficit, if the Total Projected Deficit is greater than the Total Projected Surplus. Except as described in paragraph (c)(5)(iii)(E) of this section, the amount to be reallocated from each State with a projected surplus will be equal to A × B, where A equals the Total Projected Deficit and B equals the amount of the State's projected surplus as a percentage of the Total Projected Surplus.

(E) If the Total Projected Deficit determined under paragraph (c)(5)(iii)(C) of this section is greater than the Total Projected Surplus determined under paragraph (c)(5)(iii)(B) of this section, each State with a projected deficit will receive an additional allocation amount equal to the amount of the Total Projected Surplus multiplied by the amount of the projected deficit for such State as a percentage of the Total Projected Deficit. The amount to be reallocated from each State with a projected surplus will be equal to the amount of the projected surplus.

(iv) CMS will notify States of any changes in allotments resulting from any reallocations.

(v) The provisions in paragraph (c)(5) of this section will be in effect through the end of the period for which funding authority is available under section 1933 of the Act.

(6)(i) *Newly eligible FMAP.* Beginning January 1, 2014, under section 1905(y) of the Act, the FMAP for a State that is one of the 50 States or the District of Columbia, including a State that meets the definition of expansion State in § 433.204(b), for amounts expended by such State for medical assistance for newly eligible individuals, as defined in § 433.204(a)(1), will be an increased FMAP equal to:

(A) 100 percent, for calendar quarters in calendar years (CYs) 2014 through 2016;

(B) 95 percent, for calendar quarters in CY 2017;

(C) 94 percent, for calendar quarters in CY 2018;

(D) 93 percent, for calendar quarters in CY 2019;

(E) 90 percent, for calendar quarters in CY 2020 and all subsequent calendar years.

(ii) The FMAP specified in paragraph (c)(6)(i) of this section will apply to amounts expended by a State for medical assistance for newly eligible individuals in accordance with the requirements of the methodology applied by the State under § 433.206.

(7)(i) *Temporary FMAP increase.* During the period January 1, 2014, through December 31, 2015, under section 1905(z)(1) of the Act for a State described in paragraph (c)(7)(ii) of this section, the FMAP determined under paragraph (b) of this section will be increased by 2.2 percentage points.

(ii) A State qualifies for the targeted increase in the FMAP under paragraph (c)(7)(i) of this section, if the State:

(A) Is an expansion State, as described in § 433.204(b) of this section;

(B) Does not qualify for any payments on the basis of the increased FMAP under paragraph (c)(6) of this section, as determined by the Secretary; and

(C) Has not been approved by the Secretary to divert a portion of the disproportionate share hospital allotment for the State under section 1923(f) of the Act to the costs of providing medical assistance or other health benefits coverage under a demonstration that is in effect on July 1, 2009.

(iii) The increased FMAP under paragraph (c)(7)(i) of this section is available for amounts expended by the State for medical assistance for individuals that are not newly eligible as defined in § 433.204(a)(1).

(8) *Expansion State FMAP.* Beginning January 1, 2014, under section 1905(z)(2) of the Act, the FMAP for an expansion State defined in § 433.204(b), for amounts expended by such State for

medical assistance for individuals described in §435.119 of this chapter who are not newly eligible as defined in §433.204(a)(1), and who are nonpregnant childless adults with respect to whom the State may require enrollment in benchmark coverage under section 1937 of the Act, will be determined in accordance with the expansion State FMAP formula in paragraph (c)(8)(i).

$$F + (T \times (N - F))$$

F = The base FMAP for the State determined under paragraph (b) of this section, subject to paragraph (c)(7) of this section.

T = The transition percentage specified in paragraph (c)(8)(ii) of this section.

N = The Newly Eligible FMAP determined under paragraph (c)(6) of this section.

(i) *Expansion State FMAP*.

(ii) *Transition percentage*. For purposes of paragraph (c)(8)(i) of this section, the transition percentage is equal to:

(A) 50 percent, for calendar quarters in CY 2014;

(B) 60 percent, for calendar quarters in CY 2015;

(C) 70 percent, for calendar quarters in CY 2016;

(D) 80 percent, for calendar quarters in CY 2017;

(E) 90 percent, for calendar quarters in CY 2018; and

(F) 100 percent, for calendar quarters in CY 2019 and all subsequent calendar years.

(1) Services provided to optional targeted low-income children described in §435.4 or §436.3 of this chapter; and

(2) Services provided to children born before October 1, 1983, with or without group health coverage or other health insurance coverage, who would be described in section 1902(l)(1)(D) of the Act (poverty-level-related children's groups) if—

§ 433.36 Liens and recoveries.

(a) *Basis and purpose.* This section implements sections 1902(a)(18) and 1917(a) and (b) of the Act, which describe the conditions under which an agency may impose a lien against a beneficiary's property, and when an agency may make an adjustment or recover funds in satisfaction of the claim against the individual's estate or real property.

(b) *Definition of property.* For purposes of this section, ''property'' includes the homestead and all other personal and real property in which the beneficiary has a legal interest.

(c) *State plan requirement.* If a State chooses to impose a lien against an individual's real property (or as provided in paragraph (g)(1) of this section, personal property), the State plan must provide that the provisions of paragraphs (d) through (i) of this section are met.

(d) *Procedures.* The State plan must specify the process by which the State will determine that an institutionalized individual cannot reasonably be expected to be discharged from the medical institution and return home as provided in paragraph (g)(2)(ii) of this section. The description of the process must include the type of notice to be given the individual, the process by which the individual will be given the opportunity for a hearing, the hearing procedures, and by whom and on what basis the determination that the individual cannot reasonably be expected to be discharged from the institution will be made. The notice to the individual must explain what is meant by the term lien, and that imposing a lien does not mean that the individual will lose ownership of the home.

(e) *Definitions.* The State plan must define the following terms used in this section:

(1) Individual's home.

(2) Equity interest in home.

(3) Residing in the home for at least 1 (or 2) year(s).

(4) On a continuing basis.

(5) Discharge from the medical institution and return home.

(6) Lawfully residing.

(f) *Exception.* The State plan must specify the criteria by which a son or daughter can establish to the agency's satisfaction that he or she has been providing care which permitted the individual to reside at home rather than in an institution, as provided in paragraph (h)(2)(iii)(B) of this section.

(g) *Lien provisions*—(1) *Incorrect payments.* The agency may place a lien against an individual's property, both personal and real, before his or her death because of Medicaid claims paid or to be paid on behalf of that individual following a court judgement which determined that benefits were incorrectly paid for that individual.

(2) *Correct payments.* Except as provided in paragraph (g)(3) of this section, the agency may place a lien against the real property of an individual at any age before his or her death because of Medicaid claims paid or to be paid for that individual when—

(i) An individual is an inpatient of a medical institution and must, as a condition of receiving services in the institution under the State plan, apply his or her income to the cost of care as provided in §§ 435.725, 435.832 and 436.832; and

(ii) The agency determines that he or she cannot reasonably be expected to be discharged and return home. The agency must notify the individual of its intention to make that determination and provide an opportunity for a hearing in accordance with State established procedures before the determination is made. The notice to an individual must include an explanation of liens and the effect on an individual's ownership of property.

(3) *Restrictions on placing liens.* The agency may not place a lien on an individual's home under paragraph (g)(2) of

this section if any of the following individuals is lawfully residing in the home:

(i) The spouse;

(ii) The individual's child who is under age 21 or blind or disabled as defined in the State plan; or

(iii) The individual's sibling (who has an equity interest in the home, and who was residing in the individual's home for at least one year immediately before the date the individual was admitted to the medical institution).

(4) *Termination of lien.* Any lien imposed on an individual's real property under paragraph (g)(2) of this section will dissolve when that individual is discharged from the medical institution and returns home.

(h) *Adjustments and recoveries.* (1) The agency may make an adjustment or recover funds for Medicaid claims correctly paid for an individual as follows:

(i) From the estate of any individual who was 65 years of age or older when he or she received Medicaid; and

(ii) From the estate or upon sale of the property subject to a lien when the individual is institutionalized as described in paragraph (g)(2) of this section.

(2) The agency may make an adjustment or recovery under paragraph (h)(1) of this section only:

(i) After the death of the individual's surviving spouse; and

(ii) When the individual has no surviving child under age 21 or blind or disabled as defined in the State plan; and

(iii) In the case of liens placed on an individual's home under paragraph (g)(2) of this section, when there is no—

(A) Sibling of the individual residing in the home, who has resided there for at least one year immediately before the date of the individual's admission to the institution, and has resided there on a continuous basis since that time; or

(B) Son or daughter of the individual residing in the home, who has resided there for at least two years immediately before the date of the individual's admission to the institution, has resided there on a continuous basis since that time, and can establish to the agency's satisfaction that he or she has been providing care which permitted the individual to reside at home rather than in an institution.

(i) *Prohibition of reduction of money payments.* No money payment under another program may be reduced as a means of recovering Medicaid claims incorrectly paid.

[43 FR 45201, Sept. 29, 1978, as amended at 47 FR 43647, Oct. 1, 1982; 47 FR 49847, Nov. 3, 1982]

§ 433.37 Reporting provider payments to Internal Revenue Service.

(a) *Basis and purpose.* This section, based on section 1902(a)(4) of the Act, prescribes requirements concerning—

(1) Identification of providers; and

(2) Compliance with the information reporting requirements of the Internal Revenue Code.

(b) *Identification of providers.* A State plan must provide for the identification of providers by—

(1) Social security number if—

(i) The provider is in solo practice; or

(ii) The provider is not in solo practice but billing is by the individual practitioner; or

(2) Employer identification number for all other providers.

(c) *Compliance with section 6041 of the Internal Revenue Code.* The plan must provide that the Medicaid agency complies with the information reporting requirements of section 6041 of the Internal Revenue Code (26 U.S.C. 6041). Section 6041 requires the filing of annual information returns showing amounts paid to providers, who are identified by name, address, and social security number or employer identification number.

§ 433.38 Interest charge on disallowed claims for FFP.

(a) *Basis and scope.* This section is based on section 1903(d)(5) of the Act, which requires that the Secretary charge a State interest on the Federal share of claims that have been disallowed but have been retained by the State during the administrative appeals process under section 1116(e) of the Act and the Secretary later recovers after the administrative appeals process has been completed. This section does not apply to—

(1) Claims that have been deferred by the Secretary and disallowed within

the time limits of § 430.40 of this chapter. Deferral of claims for FFP; or

(2) Claims for expenditures that have never been paid on a grant award; or

(3) Disallowances of any claims for services furnished before October 1, 1980, regardless of the date of the claim submitted to CMS.

(b) *General principles.* (1) CMS will charge the State interest on FFP when—

(i) CMS has notified the Medicaid agency under § 430.42 of this subpart that a State's claim for FFP is not allowable;

(ii) The agency has requested a reconsideration of the disallowance to the Administrator under § 430.42 of this chapter and has chosen to retain the FFP during the administrative reconsideration process in accordance with paragraph (c)(2) of this section;

(iii)(A) CMS has made a final determination upholding part or all of the disallowance;

(B) The agency has withdrawn its request for administrative reconsideration on all or part of the disallowance; or

(C) The agency has reversed its decision to retain the funds without withdrawing its request for administrative reconsideration and CMS upholds all or part of the disallowance.

(iv) The agency has appealed the disallowance to the Departmental Appeals Board under 45 CFR part 16 and has chosen to retain the FFP during the administrative appeals process in accordance with paragraph (c)(2) of this section.

(v)(A)The Board has made a final determination upholding part or all of the disallowance;

(B) The agency has withdrawn its appeal on all or part of the disallowance; or

(C) The agency has reversed its decision to retain the funds without withdrawing its appeal and the Board upholds all or part of the disallowance.

(2) If the courts overturn, in whole or in part, a Board decision that has sustained a disallowance, CMS will return the principal and the interest collected on the funds that were disallowed, upon the completion of all judicial appeals.

(3) Unless an agency decides to withdraw its request for administrative reconsideration or appeal on part of the disallowance and therefore returns only that part of the funds on which it has withdrawn its request for administrative reconsideration or appeal, any decision to retain or return disallowed funds must apply to the entire amount in dispute.

(4) If the agency elects to have CMS recover the disputed amount, it may not reverse that election.

(c) *State procedures.* (1) If the Medicaid agency has requested administrative reconsideration to CMS or appeal of a disallowance to the Board and wishes to retain the disallowed funds until CMS or the Board issues a final determination, the agency must notify the CMS Regional Office in writing of its decision to do so.

(2) The agency must mail its notice to the CMS Regional Office within 60 days of the date of receipt of the notice of the disallowance, as established by the certified mail receipt accompanying the notice.

(3) If the agency withdraws its decision to retain the FFP or its request for administrative reconsideration or appeal on all or part of the FFP, the agency must notify CMS in writing.

(d) *Amount of interest charged.* (1) If the agency retains funds that later become subject to an interest charge under paragraph (b) of this section, CMS will offset from the next Medicaid grant award to the State the amount of the funds subject to the interest charge, plus interest on that amount.

(2) The interest charge is at the rate CMS determines to be the average of the bond equivalent of the weekly 90-day Treasury bill auction rates during the period for which interest will be charged.

(e) *Duration of interest.* (1) The interest charge on the amount of disallowed FFP retained by the agency will begin on the date of the disallowance notice and end—

(i) On the date of the final determination by CMS of the administrative reconsideration if the State elects not to appeal to the Board, or final determination by the Board;

(ii) On the date CMS receives written notice from the State that it is withdrawing its request for administrative reconsideration and elects not to appeal to the Board, or withdraws its appeal to the Board on all of the disallowed funds; or

(iii) If the agency withdraws its request for administrative reconsideration on part of the funds on—

(A) The date CMS receives written notice from the agency that it is withdrawing its request for administrative reconsideration on a specified part of the disallowed funds for the part on which the agency withdraws its request for administrative reconsideration; and

(B) The date of the final determination by CMS on the part for which the agency pursues its administrative reconsideration; or

(iv) If the agency withdraws its appeal on part of the funds, on—

(A) The date CMS receives written notice from the agency that it is withdrawing its appeal on a specified part of the disallowed funds for the part on which the agency withdraws its appeal; and

(B) The date of the final determination by the Board on the part for which the agency pursues its appeal; or

(v) If the agency has given CMS written notice of its intent to repay by installment, in the quarter in which the final installment is paid. Interest during the repayment of Federal funds by installments will be at the Current Value of Funds Rate (CVFR); or

(vi) The date CMS receives written notice from the agency that it no longer chooses to retain the funds.

(2) CMS will not charge interest on FFP retained by an agency for more than 12 months for disallowances of FFP made between October 1, 1980 and August 13, 1981.

[48 FR 29485, June 27, 1983, as amended at 77 FR 31510, May 29, 2012]

§ 433.40 Treatment of uncashed or cancelled (voided) Medicaid checks.

(a) *Purpose.* This section provides the rules to ensure that States refund the Federal portion of uncashed or cancelled (voided) checks under title XIX.

(b) *Definitions.* As used in this section—

Cancelled (voided) check means a Medicaid check issued by a State or fiscal agent which prior to its being cashed is cancelled (voided) by the State or fiscal agent, thus preventing disbursement of funds.

Check means a check or warrant that a State or local agency uses to make a payment.

Fiscal agent means an entity that processes or pays vendor claims for the Medicaid State agency.

Uncashed check means a Medicaid check issued by a State or fiscal agent which has not been cashed by the payee.

Warrant means an order by which the State agency or local agency without the authority to issue checks recognizes a claim. Presentation of a warrant by the payee to a State officer with authority to issue checks will result in release of funds due.

(c) *Refund of Federal financial participation (FFP) for uncashed checks*—(1) *General provisions.* If a check remains uncashed beyond a period of 180 days from the date it was issued; i.e., the date of the check, it will no longer be regarded as an allowable program expenditure. If the State has claimed and received FFP for the amount of the uncashed check, it must refund the amount of FFP received.

(2) *Report of refund.* At the end of each calendar quarter, the State must identify those checks which remain uncashed beyond a period of 180 days after issuance. The State agency must refund all FFP that it received for uncashed checks by adjusting the Quarterly Statement of Expenditures for that quarter. If an uncashed check is cashed after the refund is made, the State may file a claim. The claim will be considered to be an adjustment to the costs for the quarter in which the check was originally claimed. This claim will be paid if otherwise allowed by the Act and the regulations issued pursuant to the Act.
