CLERK'S NOTE

This committee print provides a compilation of the enacted text and applicable explanatory material for the Consolidated Appropriations Act, 2016 (H.R. 2029; P.L. 114–113).

This Act consists of 12 divisions related to appropriations matters (divisions A through L). The Act also includes five additional divisions unrelated to appropriations (divisions M through Q). This compilation includes only the divisions related to appropriations matters. It also includes the front section of the Act, which contains provisions applicable to the entire Act.

The legislative text for this Act was submitted by Chairman Harold Rogers of the House Committee on Appropriations as a House amendment to the Senate amendment on H.R. 2029, the Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2016. Both the House and the Senate agreed to the measure on December 18, 2015.¹ The President signed the legislation on December 18, and it became Public Law 114–113.

Because an “amendments-between-the-House” process was used instead of a conference committee, there is no conference report and no “joint explanatory statement of the managers” for H.R. 2029. An Explanatory Statement relating to the House amendment to H.R. 2029 was filed by Chairman Rogers in the *Congressional Record* of December 17, 2015.² Section 4 of the Act provides that this Explanatory Statement “shall have the same effect with respect to the allocation of funds and implementation of divisions A through L of this Act as if it were a joint explanatory statement of a committee of conference.”

For the convenience of users of this Committee Print, the legislative text of each appropriations division is paired with the applicable section of the Explanatory Statement.

¹ The House agreed to the amendment by a vote of 316 yeas–113 nays (Roll no. 705). The Senate agreed to the amendment by a vote of 65 yeas–33 nays (Record Vote No. 339).

² The Explanatory Statement appears on pages H9693–H10471 in Books II and III of the December 17, 2015 *Congressional Record*.

¹The Explanatory Statement was submitted for printing in the *Congressional Record* on December 17, 2015 by Mr. Rogers of Kentucky, Chairman of the House Committee on Appropriations. The Statement appears on pages H9693–H10471 of Books II and III.

Section 3 of the Act states that, unless expressly provided otherwise, any reference to “this Act” contained in any division shall be treated as referring only to the provisions of that division.

Section 4 of the Act specifies that this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this legislation as if it were a joint explanatory statement of a committee of conference.

Section 5 of the Act provides a statement of appropriations.

Section 6 of the Act states that each amount designated by Congress as being for Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) is contingent on the President so designating all such OCO/GWOT amounts and transmitting such designations to Congress. The provision is consistent with the requirements in the Budget Control Act of 2011 for Overseas Contingency Operations/Global War on Terrorism designations by the President.

Section 7 of the Act addresses possible technical scorekeeping differences for fiscal year 2016 between the Office of Management and Budget and the Congressional Budget Office.

Section 8 of the Act makes technical corrections to the Continuing Appropriations Act, 2016.

Section 9 of the Act prohibits cost-of-living adjustments for Members of Congress under the Legislative Reorganization Act during fiscal year 2016.

The Act does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined by clause 9 of rule XXI of the Rules of the House of Representatives.

**DIVISION A—AGRICULTURE, RURAL DEVELOPMENT,
FOOD AND DRUG ADMINISTRATION, AND RELATED
AGENCIES APPROPRIATIONS ACT, 2016**

CONGRESSIONAL DIRECTIVES

The explanatory statement is silent on provisions that were in both the House Report (H. Rpt. 114–205) and Senate Report (S. Rpt. 114–82) that remain unchanged by this agreement, except as noted in this explanatory statement.

The agreement restates that executive branch wishes cannot substitute for Congress's own statements as to the best evidence of congressional intentions, which are the official reports of the Congress. The agreement further points out that funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: "Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law."

The House and Senate report language that is not changed by the explanatory statement is approved and indicates congressional intentions. The explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations no later than 60 days after enactment of this Act, unless otherwise directed.

Hereafter, in division A of this statement, the term 'the Committees' refers to the Committees on Appropriations of the House of Representatives and the Senate.

For the appropriations provided by this Act and previous Acts, the departments and agencies funded by this agreement are reminded that the Committees use the definitions for transfer, reprogramming, and program, project, and activity as defined by the Government Accountability Office (GAO) in GAO–04–261SP Appropriations Law—Vol. I and GAO–05–734SP Budget Glossary.

A transfer is the shifting of funds between appropriations. It applies to (1) transfers from one agency to another, (2) transfers from one account to another within the same agency, and (3) transfers

¹The Explanatory Statement was submitted for printing in the *Congressional Record* on December 17, 2015 by Mr. Rogers of Kentucky, Chairman of the House Committee on Appropriations. The Statement appears on pages H9693–H10471 of Books II and III.

to an interagency or intra-agency working fund. In each instance, statutory authority is required.

Reprogramming is the utilization of funds in an appropriation account for purposes other than those contemplated at the time of appropriation. It is the shifting of funds from one object to another within an appropriation.

A program, project, or activity (PPA) is an element within a budget account. PPAs are identified by reference to include the most specific level of budget items identified in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Act, 2016, accompanying Committee reports, explanatory statements, the Statement of Managers, and budget justifications. Program activity structures are intended to provide a meaningful representation of the operations financed by a specific budget account by project, activity, or organization.

For fiscal year 2016, the Committees continue to include bill language requiring advanced notification of certain agency actions. Notification will be required at least 15 days in advance of any action if (1) a major capital investment is modified; (2) an office is realigned or reorganized; and (3) activities are carried out that were not described in the budget request.

The agreement directs the Office of Budget and Program Analysis of the U.S. Department of Agriculture (USDA) to provide an organizational chart for each agency funded by this Act to the division and subdivision level, as appropriate, by January 30, 2016. The agreement also directs the Food and Drug Administration (FDA), Commodity Futures Trading Commission (CFTC), and the Farm Credit Administration (FCA) to provide an organizational chart of each agency respectively to the division and subdivision level, as appropriate, by January 30, 2016.

TITLE I—AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING, AND MARKETING

OFFICE OF THE SECRETARY

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$45,555,000 for the Office of the Secretary.

Congress continues to be concerned about the quality of scientific evidence and extraneous factors that were included in the 2015 Dietary Guidelines Advisory Committee's Scientific Report. Such concerns have been conveyed to the Secretary of Agriculture and Secretary of Health and Human Services in public hearings. To ensure the guidelines adhere to the nutritional and dietary scope of the law and are based upon sound science, bill language has been included clearly stating that the final guidelines cannot be released or implemented unless they are based upon significant scientific agreement and adhere to the statutory mandate.

Questions have been raised about the scientific integrity of the process in developing the dietary guidelines and whether balanced nutritional information is reaching the public. The entire process used to formulate and establish the guidelines needs to be reviewed

before future guidelines are issued. It is imperative that the guidelines be based upon strong, balanced science and focus on providing consumers with dietary and nutritional information that will assist them in eating a healthy and balanced diet. At a minimum, the process should include: full transparency, a lack of bias, and the inclusion and consideration of all of the latest available research and scientific evidence, even that which challenges current dietary recommendations. The agreement provides \$1,000,000 to review the dietary guideline process.

As the panel is selected to conduct the study, the agreement expects members of the 2015 Dietary Guidelines Advisory Committee to recuse themselves from this process to ensure objectivity. The agreement encourages that stakeholders representing a wide range of viewpoints be engaged for input before the study begins in order to hear the various concerns surrounding the current process. The agreement directs the National Academy of Medicine to provide quarterly reports informing the Committees on the status of the study.

The agreement recognizes USDA's diligent work regarding the outbreak of highly pathogenic avian influenza in the commercial poultry industry. The agreement supports the Secretary's use of all available resources necessary in its continued work with stakeholders and trading partners to eradicate the disease. The agreement directs the Secretary to keep the Committees apprised of new developments. The agreement directs the Secretary to provide a report on the amount of emergency funds transferred from the Commodity Credit Corporation (CCC) to poultry owners and contract growers respectively under the Animal Health Protection Act during fiscal year 2015.

The agreement directs the Secretary to notify in writing the Committees 15 days prior to the expenditure of any emergency funds from the CCC.

The agreement seeks to bring more transparency and coordination of nutrition research and evaluation projects conducted by the Department. The Secretary is directed to ensure both the Research, Education, and Economics and the Food, Nutrition, and Consumer Services mission areas coordinate and finalize the FNS Research and Evaluation Plan submitted in fiscal year 2016 to prevent duplication of efforts and resources. The plan submitted for fiscal year 2016 shall include a brief description of the projects FNS expects to pursue and whether or not it was mandated by law.

Section 737 states that FNS shall not receive any funding for new research and evaluation projects in fiscal year 2016 until the Committees receive the fiscal year 2016 Research and Evaluation Plan that has been developed in coordination with the Research, Education, and Economics mission area. In submitting the fiscal year 2017 budget justification, FNS is directed to provide its Research and Evaluation Plan simultaneously with its budget request. There is an expectation that this process will be followed in the future.

It has been more than 300 days since the publication in the New York Times of the article entitled 'U.S. Research Lab Lets Livestock Suffer in Quest for Profit' about the Agricultural Research Service's Meat Animal Research Center (MARC) in Clay Center,

Nebraska. Despite having nearly a year to address this matter, the Department has provided a wholly inadequate public response to the allegations of animal mistreatment at MARC and it has been delinquent in providing necessary information and updates to the Committees. This agreement re-affirms the directives and requirements on this issue included in H. Rpt. 114–205 and S. Rpt. 114–82. If the Department fails to comply fully with these directives and requirements, the Committees will pursue further action to ensure they are met.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

The agreement provides \$1,143,825,000 for the Agricultural Research Service (ARS), Salaries and Expenses.

The agreement does not accept the President's budget request regarding the termination of research programs, redirections of research programs, or closure of research locations. The agreement expects extramural research to be funded at no less than the fiscal year 2015 levels. The agreement provides funding increases for forest product, pollinator, aquatic animal health, leafy green vegetables, long-term agroecosystem research, crop improvement and protection, avian health, cranberry, wheat and sorghum, agricultural genomic, methyl bromide alternatives research to combat macrophomina and fusarium, and horticultural research and education.

The agreement reiterates concerns regarding the ongoing depletion of the regional Alluvial Aquifer in the Lower Mississippi River Basin. Over 7 million acres in the region represent irrigated cropland and 90 percent of those acres rely on the groundwater supply. Increased water withdrawals and stagnant recharging jeopardize the long-term availability of the aquifer and place irrigation agriculture in the region on an unsustainable path. The agreement encourages ARS, in collaboration with university research and extension scientists and local stakeholders, to identify gaps in water management research and focus efforts on the development of conservation and irrigation techniques to reduce water usage in agriculture production while maintaining crop quality and yield.

BUILDINGS AND FACILITIES

For ARS Buildings and Facilities, the agreement provides an appropriation of \$212,101,000 for priorities identified in the USDA ARS Capital Investment Strategy, April 2012.

FARM SERVICE AGENCY
SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$1,200,180,000 for the Farm Service Agency (FSA).

FSA has submitted consecutive proposals for significant annual budget savings through “operational efficiencies” with little to no detail for achieving these goals. Despite these proposals, the agreement recognizes the important services that FSA provides across the country and maintains level funding for FSA, and specifically does not accept the proposed savings for non-Federal workers or other personnel savings. The agreement also supports full staffing levels for non-Federal workers. Furthermore, FSA is directed to provide substantial detailed documentation and data when proposing future budget requests.

The agreement directs the Farm Service Agency to complete the directive related to international food aid commodity reports in H. Rpt. 114–205.

FSA’s management of certain information technology projects over the past several years has resulted in cost overruns and poor performance. FSA has failed to deliver a modernized and integrated IT solution for farm program delivery that was promised to Congress and the agricultural community. The agreement includes statutory language that requires the Government Accountability Office to review, and the Committees to approve a plan for expenditure for IT projects. FSA is directed to continue quarterly briefings in writing on all IT projects related to farm program delivery.

The increasing number of Section 515 multi-family housing loans that are reaching maturity and being paid off is a significant threat to very low income rural households needing affordable housing. As these developments result in projects leaving the program, very low income households face untenable rent increases and possible eviction. The Secretary is directed to: provide every assistance possible to the Government Accountability Office in their analysis of this issue; review and evaluate all authorities available under Section 510 of the Housing Act of 1949; and, in conjunction with program partners and other interested parties, develop innovative options to retain projects in USDA's affordable housing program.

The agreement also directs the Secretary to provide the Committees quarterly reports on the number of renewal agreements approved, the amount of rental assistance available, and the anticipated need for rental assistance for the remainder of the fiscal year. In addition, the agreement expects that the Rural Housing Service will continue to take steps to use to the maximum extent possible rental assistance from expired agreements to address shortfalls. RURAL WATER AND WASTE DISPOSAL PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$522,365,000 for the Rural Water and Waste Disposal Program Account.

The agreement supports the Department's underlying adherence to free and open competition on water and waste projects as contained in 7 CFR 1780.70(b) and (d). However, there continues to be confusion with some vendors and contractors as to the procurement policies of specific materials. The agreement encourages USDA's Rural Utility Service to issue a memorandum as necessary to clarify that the agency does not advocate one specific material over another and reinforces that applicants take careful consideration of all materials suitable for each individual project including, but not be limited to, material service life and durability, ease of installation, and contractor familiarity with suitable materials. Moreover, deference to local authorities is encouraged on project design and material utilization insomuch as it adheres to nationally recognized standards to ensure the best option for their respective communities are incorporated.

TITLE IV—DOMESTIC FOOD PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION, AND CONSUMER SERVICES

The agreement provides \$811,000 for the Office of the Under Secretary for Food, Nutrition, and Consumer Services.

An OIG report issued in September 2015 reviewed the FNS quality control process for SNAP error rates and found vulnerabilities in the methods used to determine the error rates and concluded FNS' quality control process understated SNAP's error rates. The OIG also completed an audit report in May 2015 to evaluate how FNS has attempted to lower the error rates for the National School Lunch Program and School Breakfast Program, which were about 15 percent and 26 percent, respectively, in fiscal year 2014. Within 90 days from the date of enactment of this Act, the Department is directed to provide a report on how FNS will address these two reports.

The Committees expect timely and sufficient notification of proposed FNS policy actions before such actions are implemented to

allow the Committees to exercise their respective oversight responsibilities. FNS is directed to keep the Committees promptly informed of activities and issues that arise. FNS is reminded that the Committees reserve the right to call before them any agency to determine whether laws, programs and policy decisions are being implemented in accordance with the intent of Congress.

The agreement expects FNS to ensure that all parties that enter into a contract fulfill all required obligations. If requirements are not met, FNS should consider renegotiating contracts to ensure full cooperation on behalf of awardees.

FOOD AND NUTRITION SERVICE

CHILD NUTRITION PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$22,149,746,000 for Child Nutrition Programs. Included in the total is an appropriated amount of \$13,280,101,000 and a transfer from Section 32 of \$8,869,645,000.

Section 741 provides an additional one-time increase of \$5,000,000 for school meals equipment grants and \$7,000,000 for summer EBT demonstration projects, bringing the total program levels for fiscal year 2016 to \$30,000,000 and \$23,000,000, respectively.

Concerns remain about the challenges and costs that local schools face in implementing the Healthy, Hunger-Free Kids Act of 2010. Some schools are continuing to have difficulty complying with the whole grain requirements that went into effect on July 1, 2014, and there continues to be concern with further reductions in the sodium requirements for school meals. The Secretary provided guidance to States so that exemptions could be offered to school food authorities demonstrating a hardship from the current whole grain standards, as required by the fiscal year 2015 appropriations Act. This flexibility is extended for the 2016–17 school year. The agreement also continues a provision that sodium standards cannot be reduced below Target 1 until the latest scientific research establishes the reduction is beneficial for children.

The agreement provides the following for Child Nutrition Programs:

The agreement provides \$6,350,000,000 for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC).

Based upon revised USDA estimates, the agreement fully funds all eligible WIC participants in fiscal year 2016, and includes \$60,000,000 for breastfeeding support initiatives and \$13,600,000 for infrastructure. The agreement ensures that States can continue transitioning from paper checks and vouchers to an Electronic Benefit Transfer (EBT) system by providing the necessary funding for EBT from within the fiscal year 2015 recovery and carryover funds. EBT is a proven, effective tool in combatting waste, fraud, and abuse, and all WIC state agencies are mandated to have an EBT system in place by October 1, 2020.

SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM

The agreement provides \$80,849,383,000 for the Supplemental Nutrition Assistance Program (SNAP). The agreement includes \$3,000,000,000 to be made available for a contingency reserve. The agreement provides a funding level for SNAP benefits as reflected in OMB's mid-session review of the budget.

The agreement includes the following increases in budget authority: \$104,500,000 for food safety related activities; \$5,000,000 for FDASIA implementation; \$8,732,000 for the Combating Antibiotic Resistant Bacteria (CARB) initiative; \$5,000,000 for foreign high-risk inspections; \$2,392,000 for the precision medicine initiative; \$2,500,000 for the Orphan Product Development Grants Program, and \$716,000 for sunscreen activities. The agreement accepts \$7,516,000 in proposed administrative savings, and expects FDA to continue all projects, activities, laboratories, and programs as included in fiscal year 2015 unless otherwise specified.

As part of the increases, the agreement provides the resources to fully fund the President's budget request for implementation of the Food Safety Modernization Act (FSMA). The agreement notes that FSMA implementation places additional requirements on state governments and private stakeholders, and therefore urges the FDA to focus resources on addressing these needs. Given the complexity of FSMA implementation, the agreement directs the FDA to provide quarterly reports to the Committees with a breakdown on how funding has been allocated, as well as projections for future needs. The agreement also directs the FDA to provide a detailed accounting of its food safety resources in the fiscal year 2017 budget request, including which pre-2011 base resources are now repurposed for activities in support of FSMA and which resources are the result of appropriated increases from fiscal years 2011 to 2016, a detailed explanation of what the FDA has accomplished with increased food safety resources since fiscal year 2011, and how the aggregate total of these base resources for food safety will be utilized in fiscal year 2017.

The agreement provides an increase of \$10,608,000 for medical product safety initiatives including efforts to combat antibiotic re-

sistant bacteria as part of the National Strategy for CARB, the Precision Medicine initiative, and to evaluate over-the-counter sun-screen products. In addition, the agreement provides increases for orphan drug development grants given that the number of requests for orphan designation has more than tripled since 2000.

The \$5,000,000 increase provided in the agreement for foreign high-risk inspections will allow FDA's Office of the Global Regulatory Operations Policy to continue efforts to develop and utilize a targeted, risk-based, and efficient inspection model that incorporates commercially available information on high-risk establishments for onsite verifications.

The agreement includes \$5,000,000 for FDA to complete a feasibility study to update and issue a revised Master Plan for land inside and contiguous to the White Oak campus in order to address its expanded workforce and the facilities needed to accommodate them. The agreement directs FDA to report on this effort by January 1, 2016.

The agreement acknowledges some progress in FDA's effort to address issues with products that are biosimilar to and interchangeable with FDA-licensed biological drug products. In August of this year, the FDA issued draft guidance and a proposed rule regarding naming of these products. However, the agreement remains concerned that FDA needs to provide the public with a greater opportunity to review and comment on all regulatory standards for the approval and oversight of biosimilar drugs. Therefore, FDA is directed to provide the Committees with an estimated timeline by which the agency will finalize all pending draft biosimilars guidance documents and regulations. The Committees expect to receive this report no later than 60 days after enactment.

There continue to be shortages of critical drugs following the enactment of the Food and Drug Safety and Innovation Act, including national shortages of drugs to test for and treat tuberculosis (TB). The Commissioner is directed to continue to prioritize the public reporting of manufacturing shortages, and to work with industry to prevent conditions that might lead to drug shortages. Additionally, the Commissioner is directed to report on the work of the FDA's intra-agency Drug Shortages Task Force, including how it works with other government agencies and outside stakeholders to address drug shortages. The report should specify what activities the Task Force has undertaken to prevent drug shortages affecting pediatric patients, including working with outside experts on this issue. The Commissioner is further directed to report on steps the FDA can take to prevent TB drug shortages and help maintain an adequate supply.

The agreement provides bill language pertaining to the use of partially hydrogenated oils (PHO) in food products. The language declares that foods with PHOs are neither unsafe nor adulterated during FDA's three year compliance period and provides businesses legal protection while they phase out the use of PHOs. Simultaneously, FDA is encouraged to provide a timely review of the Food Additive Petition which addresses minor uses of PHOs for certain baking and processing needs.

The agreement provides \$1,000,000 for the Center for Tobacco Products to enter into a contract with the Institute of Medicine to

conduct an in-depth evaluation of available evidence of health effects from e-cigarettes and recommendations for future federally funded research.

The agreement directs that the FDA ensure that pregnant women receive final guidance on nutrition advice for what seafood is safe and healthy to consume that is consistent, understandable, and based on the FDA's latest scientific review of the net effects of seafood consumption.

The agreement is concerned about the safety issues raised at the Obstetrics and Gynecology Devices Panel of the Medical Devices Advisory Committee meeting on September 24, 2015, and directs the FDA to issue recommendations on how to address these concerns by March 1, 2016.

The agreement remains concerned about the FDA's reliance on the use of draft guidance to make substantive policy decisions. The agreement requests a report documenting the agency's review and solicitation of scientific data impacting bioequivalence standards and patients suffering from ophthalmologic conditions.

BUILDINGS AND FACILITIES

The agreement provides \$8,788,000 for the Food and Drug Administration Buildings and Facilities.

INDEPENDENT AGENCIES

COMMODITY FUTURES TRADING COMMISSION

For the Commodity Futures Trading Commission, the agreement provides an appropriation of \$250,000,000, of which \$50,000,000 is for the purchase of IT. The agreement includes \$2,620,000 for the Office of Inspector General. Of this amount, not more than \$330,000 shall be for overhead expenses.

The agreement directs the Commission to comply with the directive regarding swap dealer de minimis in H. Rpt. 114–205.

During collective bargaining agreement negotiations, the Commission is directed to make commitments based upon its current funding situation rather than its proposed budget requests. Consistent with House Report 114–205 and Senate Report 114–97, the agreement directs the Commission to not increase personnel costs, either through excessive hiring, budgetary mismanagement, or collective bargaining agreement negotiations, that would risk any furloughs or reductions-in-force.

The agreement directs the Commission, in accordance with the President's "Reduce the Federal Footprint" initiative, to find ways to decrease space and renegotiate leasing agreements. The agreement directs the CFTC to report to the Committee within 90 days of enactment of this act on steps the agency is taking to dispose of excess space and reduce rental costs in each building currently leased by the Commission.

Consistent with Section 618 of Division E of Public Law 113–235, the Commission is directed to consult with the General Services Administration in fiscal year 2016 prior to issuing a solicitation for offers of new leases or construction contracts and prior to entering into negotiations for succeeding leases.

The agreement includes bill language allowing the Commission to make accounting adjustments through reopening of closed Treasury accounts for the sole purpose of properly recording prior year leasing payment obligations.

The agreement directs the CFTC to submit, within 30 days of enactment, a detailed spending plan for the allocation of the funds made available, displayed by discrete program, project, and activity, including staffing projections, specifying both FTEs and contractors, and planned investments in information technology.

Foreign Trade Zones (FTZ).—Of the amounts provided for ITA in this Act, \$5,000,000 shall not be available until 15 days following the delivery of a report and certification from the FTZ Board to the Committees on Appropriations. The report shall include: (1) a survey of all current and past business models utilized by FTZ grantees for zone management and administration activities; (2) specific impacts 15 CFR 400.43 has or may have on these various business models; (3) the specific activities and components of current and past business models that are allowed under partial and full waivers granted by the FTZ Board, as of the date of enactment of this Act pursuant to this regulation; and (4) the specific steps the FTZ Board will take to ensure that all FTZ grantees are in compliance with the regulation. The FTZ Board shall simultaneously provide a certified list of the specific business practices and business models that a FTZ grantee would need to achieve in order to qualify for a waiver under the regulation.

Trade enforcement.—The Act provides up to \$10,000,000 for the Interagency Trade Enforcement Center (ITEC), provided that the Department of Commerce shall lead ITEC, with the Office of the United States Trade Representative (USTR) providing an advisory and assistance role. Within funds provided, ITA shall oversee and support the full salary of the ITEC director and no funds shall be

transferred to any other agency but shall remain within ITA’s Enforcement and Compliance Unit, except that FTEs included under this account may be housed outside of the Department through an interagency agreement. The agreement strongly supports the continued interagency partnership that has been developed through ITEC to advance our nation’s business and trade interests. Not later than June 30, 2016, ITA, in coordination with USTR, shall submit an action plan to the Committees detailing any changes necessary to meet this directive. The action plan shall be submitted for approval by the Committees, and subject to that approval, the transition of ITEC leadership shall be completed no later than November 15, 2016.

Hatchery genetic management plans.—The agreement adopts the House language requiring a comprehensive plan to address the backlog of Hatchery Genetic Management plans and directs NOAA to increase funding for the review of these plans above the fiscal year 2015 level.

Gulf of Mexico reef fish stock assessments.—The agreement adopts House and Senate language regarding reef fish in the Gulf of Mexico. The agreement provides \$5,000,000 within the amount provided for Fisheries Data Collections, Surveys, and Assessments, and \$5,000,000 within the amount provided for Sea Grant for the purposes stated in the House and Senate reports. The Committees direct NOAA to, in addition to current surveys and assessments, use fishery independent data that includes surveying and assessing red snapper populations on and aggregated near marine structures including offshore oil and gas platforms, artificial reefs, and structures created in the Gulf of Mexico and naturally occurring reefs and rock structures. NOAA shall ensure the research supported by this funding is complementary between respective line offices and not duplicative. Additionally, NOAA shall provide the Committees with a plan for these research efforts, and how they will be coordinated, not later than 45 days after enactment of this Act. The Committees strongly encourage NOAA to incorporate data from all external assessments carried out under this paragraph at the earliest possible date, but not later than fiscal year 2017, for the purposes of determining reef fish quotas and Annual Catch Limits in the Gulf of Mexico. NOAA shall report to the Committees, within 45 days of enactment, any impediments to incorporating these data for such purposes.

The Committees remain gravely concerned with red snapper management in the Gulf of Mexico and the unacceptably short recreational fishing season. NOAA is directed to consider the impacts of sector separation created by amendments to any fishery management plan for the Gulf of Mexico, particularly negative impacts on

private anglers. The agreement adopts Senate language urging NOAA to consider increasing the recreational fishery allocation. While all sectors have faced challenges in the Gulf red snapper fishery, the private boat recreational sector has been especially impacted. NOAA shall brief the Committees on Appropriations on its efforts to address this matter no later than 30 days after enactment of this Act, at which time NOAA shall provide a comprehensive plan to address the concerns of recreational anglers.

Fishery cooperatives.—The agreement adopts the House language on fishery cooperatives, and directs the submission of the required report no later than 30 days after enactment of this Act.

Tribal support.—The agreement modifies House language and encourages NOAA to support the coastal impacts mitigation efforts of coastal tribal communities through NOAA’s ongoing efforts at storm surge and coastal inundation modeling, sea level prediction, and related information services. Such information is essential to understanding severe weather-related risks facing such communities, and could prove valuable in the efforts of these communities to secure mitigation and relocation assistance from Federal and state agencies.

Marine Recreational Information Program (MRIP).—The agreement clarifies the Senate language regarding MRIP. No funding is provided in this Act for the full operational transition to a new MRIP methodology. Funding may be used to continue testing, development, and side-by-side comparison of the new methodology with the current MRIP model, including activities planned for fiscal year 2016 in the May 5, 2015 report entitled “Transition Plan for the Fishing Effort Survey.” No funds shall be available for the full operational transition to a new MRIP methodology until NMFS also improves its stock assessments and surveys to account for fish inhabiting areas of artificial reefs and fixed offshore energy infrastructure.

Non-releasable marine mammals.—Not later than 45 days following enactment of this Act, NMFS shall provide a report to the Committees on Appropriations detailing the process used to prioritize qualified facilities for the placement of live, non-releasable, stranded marine mammals. The report shall include specific factors used for such placements, including the weight given to a facility’s geographic proximity to the stranding location and past experience of caring for non-releasable marine mammals. Furthermore, the report shall provide a comprehensive list of each U.S. facility that received a non-releasable marine mammal since 2010, including the number and type of marine mammals and associated costs incurred for each by NMFS.

Non-native predators.—The Committees are encouraged by the steps that NOAA has taken, in consultation with the United States Fish and Wildlife Service, the Bureau of Reclamation, States, and other stakeholders, to evaluate and implement projects that could improve protection and recovery of endangered salmon. The Committees encourage NOAA to continue consultations with Federal, State, and local agencies to develop additional activities that could aid in mitigating or removing non-native predators that prey on endangered salmon.

Electronic monitoring.—The Committees are concerned with NMFS’s failure to account for significant factors in its June 10, 2015, report entitled, “A Preliminary Cost Comparison of At Sea Monitoring and Electronic Monitoring for a Hypothetical Ground-fish Sector.” The Committees have strongly supported NMFS’s research of electronic monitoring programs to streamline processes, reduce costs, and strengthen management of our nation’s commercial fisheries. Not later than 120 days following enactment of this Act, NMFS shall provide a new report to the Committees detailing cost estimates for an electronic monitoring program for the same hypothetical sector that uses cost-savings suggested but not included in estimates in the June 10, 2015, report. Furthermore, NMFS is directed to apply other applicable, practical cost-saving measures not mentioned in the previous report in the new estimates.

Coastal Ecosystem Resiliency Grants.—The Act provides \$10,000,000 within Habitat Conservation and Restoration to continue the coastal ecosystems resiliency grants program established in fiscal year 2015.

tion (PAC), of which \$2,400,416,000 is appropriated from the general fund and \$13,000,000 is derived from recoveries of prior year obligations. The following narrative and table identify the specific activities and funding levels included in this Act:

Polar Follow-on.—The Act provides \$370,000,000 for NOAA’s Polar Follow-on mission, but does not include funding for the proposed and experimental Earth Observing Nanosatellite-Microwave component. NOAA’s mission for polar orbiting weather satellites continues on a tenuous path. NOAA shall focus on procuring the next series of satellites for the JPSS constellation, using proven sensors and platforms, to achieve the program’s budgetary estimates and launch schedule.

Space Weather Follow-On.—The agreement includes \$1,200,000 for the activities identified in the Senate report and non-Federal awards for a study or studies to evaluate low-cost alternatives for a space weather constellation to support operational forecasting needs. The study or studies shall examine the feasibility of improving forecast warning times and geographic precision in those forecasts.

Senate language regarding a report on initial findings is adopted by reference and shall be submitted to the Committees no more than one year after enactment of this Act. This report shall include an inventory of all existing and planned space weather assets held by NOAA and NOAA’s partners, to include each asset’s function, operation and maintenance expenses, and lifetime cost estimates, and shall identify any potential gaps in data needed for space weather forecasting.

New Vessel Construction.—The agreement provides \$80,050,000 for new vessel construction for NOAA’s fleet, contingent upon delivery of the latest fleet modernization and recapitalization plan to the Committees on Appropriations. Such funds shall be competitively awarded and target replacing one of NOAA’s oldest vessels currently in operation, per the request. Funding for vessel outfitting and sensor development is expected to be requested in subsequent fiscal years. The agreement supports the Senate’s direction that NOAA shall work with the United States Navy in providing program management and contract award support.

Commercial Weather Data Pilot.—NOAA shall, through an open competitive process, seek to enter into at least one pilot contract to assess the potential viability of commercial weather data in its weather modeling and forecasting. This funding shall be used to purchase, evaluate, and calibrate available data, which meets the standards and specifications set by NOAA in its Commercial Data Policy. NOAA shall provide the Committees a report on how it plans to implement the commercial weather data pilot program not later than 60 days after the enactment of this Act.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

This Act includes \$19,285,000,000 for the National Aeronautics and Space Administration (NASA).

In lieu of House language regarding submission of reports on certain NASA missions, the agreement requires NASA to provide semiannual briefings on the Asteroid Redirect Mission; Europa; the James Webb Space Telescope; Orion and the Space Launch System; and programs listed by NASA in its Management and Performance, Cost and Schedule Performance Summary from its fiscal year 2016 budget submission. NASA shall notify the Committees on Appropriations at any point during the fiscal year, should circumstances warrant, regarding any significant changes to the progress of these programs.

In lieu of House language regarding a termination liability policy, the agreement directs NASA to vigorously pursue a termination liability policy that maximizes the use of appropriated funds and directs NASA to submit such a termination liability policy to the Committees no later than 180 days after enactment of this Act.

SCIENCE

This Act includes \$5,589,400,000 for Science.

Earth Science.—This Act includes \$1,921,000,000 for Earth Science. In lieu of House and Senate matter regarding Landsat, this agreement provides \$100,000,000 for Landsat–9, of which up to \$58,000,000 may be derived from prior year balances. NASA shall develop Landsat–9 as a copy of Landsat–8 and shall maintain a target launch date of calendar year 2020. The agreement reiterates House and Senate language regarding the Thermal Infrared Free-Flyer. NASA is encouraged to continue technology development activities that will reduce the cost of Landsat–10. The agreement includes Senate direction on Pre-Aerosol, Clouds, and Oceans Ecosystem (PACE). NASA shall not count carryover from fiscal year 2015 toward the \$75,000,000 included for PACE in the agreement.

Planetary Science.—This Act includes \$1,631,000,000 for Planetary Science. Of this amount, \$261,000,000 is for Outer Planets, of which \$175,000,000 is for the Jupiter Europa clipper mission and clarifies that this mission shall include an orbiter with a lander that will include competitively selected instruments and that

The agreement adopts Senate direction with regard to WFIRST, a mission being developed to meet decadal survey goals in observation of dark energy and exoplanets. The agreement provides \$85,200,000 for the Stratospheric Observatory for Infrared Astronomy (SOFIA) and acknowledges that NASA has determined that it will not include SOFIA in its 2016 Astrophysics Senior Review since SOFIA has not yet met established requirements for inclusion in a Senior Review. The Committees support this decision and do not provide any funds in this Act for the inclusion of SOFIA in such a review.

Education and Public Outreach (EPO).—This Act includes \$37,000,000 for EPO, as an independent line within the Science Mission Directorate, to be administered by the Astrophysics Division.

AERONAUTICS

This Act includes \$640,000,000 for Aeronautics.

SPACE TECHNOLOGY

This Act includes \$686,500,000 for Space Technology. Within these amounts, \$133,000,000 is for satellite servicing/RESTORE-L activities as described in the Senate report. This funding is in addition to any funding within Space Operations to continue International Space Station (ISS)-unique satellite servicing activities. The Space Technology funding for satellite servicing shall not support any activities needed solely for the Asteroid Redirect Mission but may support activities that support both projects such as manipulators or software development. Along with the spending plan required under section 534 and any subsequent updates, NASA shall identify any shared technologies, along with the funding resources required to support that technology development and how those technologies are required by RESTORE-L. In lieu of House language on nuclear propulsion technologies, the agreement provides up to \$20,000,000 for these activities. No funds are recommended for icy satellites surface technology in this account as proposed by the House; instead, \$25,000,000 is provided for these activities within the Planetary Science program. In lieu of Senate

language on Flight Opportunities, the recommendation includes \$15,000,000 for these activities.

NASA shall not expend funds human rating the interim cryogenic propulsion stage. In lieu of Senate language on Advanced Exploration Systems, no less than \$55,000,000 is provided for a habitation augmentation module to maximize the potential of the SLS/Orion architecture in deep space. NASA shall develop a prototype deep space habitation module within the advanced exploration systems program no later than 2018 and provide a report within 180 days after enactment, and annually thereafter, regarding the status and obligation of funding for the program. The first such report shall include an analysis to determine the appropriate management structure for this program. The agreement adopts House and Senate language regarding funding to human rate all systems prior to EM–2 and notes that additional funds above the request have been provided to address this untenable gap presented by NASA in its budget request. The agreement modifies House reporting requirements for integrated launch readiness and exploration goals and directs that NASA submit a comprehensive report within one year of enactment, utilizing the 130 metric ton SLS, that addresses items as directed by the House.

SPACE OPERATIONS

Space Operations.—This Act provides \$5,029,200,000 for Space Operations, including resources for the ISS which is the proving ground for technologies that will support human exploration farther into space while also testing technologies for improving life on Earth. Not less than \$15,000,000 is to continue satellite servicing

activities; additional funds for satellite servicing activities are included within the Space Technology Account. The recommendation includes \$30,300,000 as directed by the Senate for the 21st Century Space Launch Complex program. The agreement acknowledges that recoveries of prior year obligations are available in this account.

Commercial Crew.—This Act provides up to \$1,243,800,000 for NASA’s Commercial Crew Transportation Capability to safely send the Nation’s astronauts to and from the ISS by 2017. The Committees note that NASA notified Congress in an August 2015 letter of its decision to modify an existing contract with the Russian government for crew transportation services beyond 2017. That decision was made prior to any final action by Congress on NASA’s Commercial Crew Transportation Capability funding for fiscal year 2016. The funds provided in this Act enable NASA to follow the fastest path to independence from Russia by providing for continuing development of a domestic crew launching capability. If necessary, NASA may derive resources for milestone payments from funds set aside for Russia by NASA for ISS crew launches scheduled to occur after U.S. providers will be operational in 2017. NASA shall reevaluate its need to procure additional seats from Russia in consideration of the funding level being provided within the Space Operations account.

The agreement adopts Senate language providing for the availability of funds related to Space Shuttle Program closeout activities. NASA shall use prior year unobligated balances or recoveries within Space Operations to pay administrative expenses associated with these activities.

DIVISION C—DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2016

The agreement on the Department of Defense Appropriations Act, 2016 incorporates some of the provisions of both the House-passed and the Senate-reported versions of the bill. The language and allocations set forth in House Report 114–139 and Senate Report 114–63 shall be complied with unless specifically addressed to the contrary in the accompanying bill and explanatory statement.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

The agreement delineates that, for the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99–177), as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100–119), and by the Budget Enforcement Act of 1990 (Public Law 101–508), the terms “program, project, and activity” for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2016, the related classified annexes and explanatory statements, and the P–1 and R–1 budget justification documents as subsequently modified by congressional action. The following exception to the above definition shall apply: the military personnel and the operation and maintenance accounts, for which the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget request for fiscal year 2017, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the “M–1” and “O–1” which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2017.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

¹The Explanatory Statement was submitted for printing in the Congressional Record on December 17, 2015 by Mr. Rogers of Kentucky, Chairman of the House Committee on Appropriations. The Statement appears on pages H9693–H10471 of Books II and III.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or items for which funding is specifically reduced as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

REPROGRAMMING GUIDANCE

The Secretary of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110–279). For operation and maintenance accounts, the Secretary of Defense shall continue to follow the reprogramming guidelines specified in the conference report accompanying H.R. 3222, the Department of Defense Appropriations Act, 2008. The dollar threshold for reprogramming funds shall remain at \$10,000,000 for military personnel; \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees annual DD Form 1416 reports for titles I and II and quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a military personnel (M–1), an operation and maintenance (O–1), a procurement (P–1), or a research, development, test and evaluation (R–1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING ADJUSTMENTS

The funding increases outlined in the project level tables for each appropriation account shall be provided only for the specific purposes indicated in the tables, and are to be competitively awarded or provided to programs that have received competitive awards in the past. Programs for which the funding provided is less than the requested amount shall be reduced for the purposes specified in the project level tables and may be considered congressional special interest items as defined in titles I, II, III, and IV of this statement.

The reductions to special interest items shall be restored only using the prior approval reprogramming process. The Under Secretary of Defense (Comptroller) shall ensure appropriate distribution of this guidance.

APPROPRIATION MATTERS LIAISON OFFICERS

The agreement continues to support appropriations liaison officers for the Department of Defense and the Services. These appropriations liaison officers provide critical and relevant budget-related information to the House and Senate Appropriations Committees in a timely manner and with the authority to communicate directly with their Service Secretaries. It is imperative to maintain this liaison structure to achieve the highest level of communication and trust between the Department of Defense and the House and Senate Appropriations Committees. Therefore, the agreement retains a provision, carried in previous years, that prohibits the use of funds to plan or implement the consolidation of a budget or appropriations liaison office of the Office of the Secretary of Defense, the office of the Secretary of a military department, or the Service headquarters of one of the armed forces into a legislative affairs or legislative liaison office.

OVERSEAS CONTINGENCY OPERATIONS/GLOBAL WAR ON TERRORISM

After more than a decade of war, the United States military and Intelligence Community remain engaged in responding to crises, conflicts, and instability across the globe. The rise of the Islamic State of Iraq and the Levant (ISIL), the recent attacks in Paris, continued operations in Afghanistan, the presence of terrorist groups like al-Shabaab and Boko Haram in North and Central Africa, the continued presence of al-Qaeda in the Middle East and northern Africa, ongoing destabilizing actions by Iran, the recent crisis and instability in Yemen, Libya, and the Levant, and Russian aggression in Ukraine are just some of the stark reminders that it is more important than ever to provide the funding and resources necessary to ensure that the military and Intelligence Community are able to detect and disrupt developing threats and are ready to respond to an unknown and unforeseen future event. For these reasons, the agreement provides the military and Intelligence Community sufficient resources to support ongoing operations and the flexibility to respond to future unknown crises.

To further address the Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) requirements, the agreement provides increased funding over fiscal year 2015 levels for the military and Intelligence Community. The recommendation provides an additional \$1,277,915,000 for Operation Freedom's Sentinel in Afghanistan and additional special transfer authority to maintain the current troop level of 9,800 through the end of fiscal year 2016. Further, as proposed by the Secretary of Defense to meet increased OCO/GWOT requirements, the agreement moves funding from the base appropriation to the OCO/GWOT appropriation to provide additional funding for the Army, Navy, Marine Corps, and Air Force to conduct counter-ISIL operations, to support operations in Afghanistan, to increase theater security missions, and to maintain a steady-state presence throughout the globe.

In addition, the agreement provides additional funding to restore readiness for the Services and to maintain capabilities of the Intelligence Community to ensure that they are ready to address current and emerging global challenges, both foreseen and unforeseen, at a moment's notice. These investments will continue the process of restoring and enhancing military readiness and Intelligence Community capabilities.

ISRAELI MISSILE DEFENSE PROGRAMS

The agreement recommends an additional \$329,800,000 for Israeli missile defense programs, as requested by the Government of Israel. It is directed that not more than \$90,000,000 may be obligated or expended for long lead items in support of David's Sling production activities until the Secretary of Defense provides to the congressional defense committees a joint United States-Israeli production agreement that addresses, at a minimum, Israeli requirements, production plans, the role of United States and Israeli industry partners, and the proposed use of United States funding. Further, it is directed that not more than \$15,000,000 may be obligated or expended for long lead items in support of Arrow upper tier production activities until the Secretary of Defense provides to the congressional defense committees a joint United States-Israeli production agreement that addresses, at a minimum, Israeli requirements, production plans, the role of United States and Israeli industry partners, and the proposed use of United States funding. It is noted that the Department of Defense has processes in place to transfer funding for long lead items for missile defense programs through an exchange of letters that ensure appropriate oversight over subject funds prior to conclusion of production agreements.

TITLE I—MILITARY PERSONNEL

The agreement provides \$129,228,658,000 in Title I, Military Personnel. The agreement on items addressed by either the House or the Senate is as follows:

REPROGRAMMING GUIDANCE FOR MILITARY PERSONNEL ACCOUNTS

The Secretary of Defense is directed to submit the Base for Re-programming (DD Form 1414) for each of the fiscal year 2016 appropriations accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' military personnel accounts between budget activities in excess of \$10,000,000.

MILITARY PERSONNEL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement. Below Threshold Reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

NOTIFICATION OF RESERVE COMPONENTS

The reserve components provide an operational capability and strategic depth in support of the national defense strategy. Decisions to utilize these forces must adhere to judicious and prudent criteria. As such, the agreement directs the Secretary of Defense to continue following the Department's longstanding policy to instruct the Services to adequately notify, in writing, members of the reserve components who are called or ordered to active duty, under section 12302(a) of title 10, United States Code. The notification must include the expected period during which the member will be mobilized, including the authorization of an alert notification up to 24 months prior to the mobilization date, and a minimum of 30 days notification prior to involuntary mobilization to support emergent requirements.

SEXUAL ASSAULT PREVENTION AND RESPONSE PROGRAM

The agreement fully funds the budget request of \$263,325,000 for Sexual Assault Prevention and Response programs at the Service level and provides an additional \$25,000,000 for the Defense Human Resources Activity in the Operation and Maintenance, Defense-Wide appropriation for the Sexual Assault Special Victims' Counsel Program across the Services.

BASIC ALLOWANCE FOR HOUSING

The practice of using annual housing market surveys to calculate basic allowance for housing (BAH) rates neglects the specific challenges of rural states and regions, where housing areas adjacent to military facilities may not reflect the average cost of housing in more populous nearby communities, making it more difficult for servicemembers to find affordable housing within the BAH rate. Therefore, the Secretary of Defense is directed to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the analytics and factors that are considered in determining BAH rates for installations in rural states and regions.

REMOTELY PILOTED AIRCRAFT

Language in House Report 114–139 directed the Secretary of the Air Force to submit a report to the congressional defense committees which would assess the feasibility of training enlisted personnel as remotely piloted aircraft (RPA) pilots, include an updated list of any pay and incentives that these pilots are eligible to receive, and provide a breakdown of how the pilots have populated the community. In July 2015, the Air Force presented an RPA Get-Well Plan. In lieu of the reporting requirement in House Report 114–139, the Secretary of the Air Force is directed to brief the congressional defense committees not later than 90 days after the enactment of this Act on the steps the Air Force has taken to increase RPA training throughput, utilize reserve component RPA capabilities, contract elements of the RPA program, and implement RPA-related incentive pays.

AND MAINTENANCE ACCOUNTS

The Secretary of Defense is directed to submit the Base for Re-programming (DD Form 1414) for each of the fiscal year 2016 appropriation accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities in excess of \$15,000,000. In addition, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget sub-activities:

Army:

- Maneuver units
- Modular support brigades
- Land forces operations support
- Force readiness operations support
- Land forces depot maintenance
- Base operations support
- Facilities sustainment, restoration, and modernization

Navy:

- Aircraft depot maintenance
- Ship depot maintenance
- Facilities sustainment, restoration, and modernization

Air Force:

- Primary combat forces

Additionally, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 into the following budget sub-activity:

Operation and Maintenance, Army National Guard:

- Other personnel support/recruiting and advertising

With respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures.

During fiscal year 2016, the Service Secretaries are directed to submit written notification and justification to the congressional defense committees not later than 15 days prior to implementing

transfers in excess of \$15,000,000 out of the following budget sub-activities:

Navy:

Mission and other flight operations

Mission and other ship operations

OPERATION AND MAINTENANCE SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement. Below Threshold Reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

OPERATION AND MAINTENANCE MILITARY INTELLIGENCE PROGRAM

BUDGET JUSTIFICATION MATERIAL

The agreement notes that the current budget justification material submitted for the operation and maintenance portion of the Military Intelligence Program (MIP) and the exhibits for the Security Programs sub-activity groups (SAGs) in the Operation and Maintenance Army, Navy, Marine Corps, and Air Force accounts do not provide full visibility into requested funding which limits congressional oversight. Therefore, the Secretary of Defense is directed to include a new exhibit in the MIP justification books for each Service, the Special Operations Command, and the defense agencies under the "Resources Exhibit" tab. The exhibit shall be titled "Operation and Maintenance Resources by Project"; be broken out into six separate tables: the prior year base actual, the current year base estimate, the budget year base request, the prior year Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) actual, the current year OCO/GWOT estimate, and the budget year OCO/GWOT request; include each MIP project on a separate row; include each budget line item (SAG for the Service appropriation and defense agency for the defense-wide appropriation) in a separate column; show dollars in thousands in each appropriate cell of the table (lining up projects with SAGs); and include totals for each row and column to allow analysis of the totals by appropriation, project, and SAG.

Each Service operation and maintenance account includes a SAG titled "Security Programs" which funds both MIP and National Intelligence Programs (NIP) as well as other non-MIP and non-NIP

programs. Since the funding requested is largely for classified programs, the budget justification materials do not provide a level of detail in the OP-5 exhibit as is normally required by the Financial Management Regulation (FMR). Thus, the Secretary of Defense is directed to provide classified OP-5 and OP-32 budget exhibits at the time of the budget submission for each of the Security Program SAGs. This OP-5 will provide the non-NIP funding amount requested in the SAG and a summary and justification for changes in the level of resources required for each SAG as required by the FMR in the Volume 2, Chapter 3 Exhibit OP-5 Instructions and Detail by SAG. This material should be submitted for both the base budget request and the OCO/GWOT request.

The new tables and budget exhibits shall be included as a part of the budget submission for fiscal year 2018. For fiscal year 2017, the Services and defense agencies are directed to work with the House and Senate Appropriations Committees to provide this information during the budget review process. This language replaces the language included under this heading in House Report 114-139.

SIZE OF THE CIVILIAN WORKFORCE

The Department of Defense is taking steps to right-size the military, civilian, and contractor workforces. While the agreement supports a strong civilian workforce and recognizes that much of this workforce performs critical national security and readiness functions, concern remains regarding the size and cost of headquarters and administrative functions and the corresponding size of the civilian staff, particularly at the Pentagon.

As required by Section 905 of the National Defense Authorization Act for Fiscal Year 2015, the Secretary of Defense is currently conducting a systematic determination of the personnel requirements for headquarters organizations, including at the Pentagon, and the support organizations that perform headquarters-related functions, and is implementing a periodic review and analysis of personnel requirements. Further, as part of its annual budget documentation, the Secretary of Defense provides a report addressing the size of the three workforces. The Secretary of Defense is directed to provide a briefing to the House and Senate Appropriations Committees on the findings of the personnel requirements review referenced above, as well as the annual report on the size of the workforce, not later than 30 days after each report's release.

Section 904 of the National Defense Authorization Act for Fiscal Year 2014, as amended, requires the Secretary of Defense to submit an annual report detailing the streamlining of Department of Defense headquarters. The agreement recognizes that future reports will include an updated baseline number for military, civilian, and contractor workforces for headquarters level of detail, including support organizations, as well as results of the review and further implemented and proposed reductions. The Secretary of Defense is directed to provide an annual briefing to the House and Senate Appropriations Committees on the findings of the report not later than 30 days after the report's release.

CIVILIAN PERSONNEL AND PAY MANAGEMENT

Accurate visibility and budgeting is critical to making fiscally sound decisions regarding the size and compensation of the civilian personnel workforce. The Services consistently overestimate the number of civilians that will be employed during a fiscal year while underestimating the civilian personnel funding requirement. Therefore, the agreement includes reductions for overestimating civilian full time equivalent (FTE) levels and streamlining management headquarters for fiscal year 2016.

Additionally, the agreement directs the Department of Defense Inspector General (DOD IG) to provide a report to the congressional defense committees not later than 180 days after the enactment of this Act that issues recommendations to improve the management of the civilian compensation program and civilian FTE levels. As part of the analysis, the agreement directs the DOD IG to explore the factors influencing average salary and provide suggestions for how to better control its volatility. Also, the DOD IG shall examine how to standardize the types of growth included in pay rates versus program growth across the Services. Finally, the report shall examine steps the Department of Defense should take to formulate a civilian compensation budget to more accurately capture the true cost of the civilian workforce. This language replaces the reporting requirement included under the heading "Civilian Personnel and Pay Management" in House Report 114-139 and under the heading "Civilian Compensation" in Senate Report 114-63.

CIVILIAN FURLONGHS

In fiscal year 2013, the Secretary of Defense furloughed most Department of Defense civilian employees for up to six days due to budgetary shortfalls primarily caused by sequestration. The negative impact on productivity, morale, and readiness substantially outweighed the savings generated from civilian furloughs. No furloughs were implemented in either fiscal year 2014 or fiscal year 2015, and it is assumed that the enactment of this Act will eliminate any need to furlough civilian employees in fiscal year 2016.

MAINTENANCE OF REAL PROPERTY

The agreement directs the Secretary of Defense to conduct no maintenance or improvements to Department of Defense real property with a zero percent utilization rate according to the Department's real property inventory database, except in the case of maintenance of an historic property, as required by the National Historic Preservation Act (16 U.S.C. 470 et seq.), maintenance to prevent a negative environmental impact as required by the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), or to address health and safety requirements.

AUDITABILITY

The Secretary of Defense is working to achieve auditability by the end of fiscal year 2017. The Secretary of Defense is directed to provide a briefing to the House and Senate Appropriations Committees on the Financial Improvement and Audit Readiness Plan

Status Report not later than 30 days after the report's next publication.

PHYSICAL SECURITY ENHANCEMENTS AT MILITARY FACILITIES

Recent domestic and international incidents underscore the need to remain vigilant regarding security at military facilities and installations. After the July 2015 shootings in Chattanooga, Tennessee, the Secretary of Defense issued a directive that emphasized improving physical and procedural security and improving mass warning and alert notification capabilities. The Mission Assurance Coordination Board (MACB) is tasked with coordinating these activities across the Services, the National Guard Bureau, and the combatant commands to ensure the safety of Department of Defense personnel. To keep apprised of progress concerning these efforts, the Secretary of Defense is directed to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act describing the completed and planned actions overseen by the MACB and identifying associated funding requirements.

The recommendation also includes \$80,300,000 for security upgrades to military Service recruiting centers following the Chattanooga attacks. The requirements range from improving closed circuit camera monitoring to increasing ballistic internal protection. The Army is the executive agent for recruiting centers and will oversee the necessary security upgrades for all recruiting centers. Therefore, the agreement transfers funding from the Services' operation and maintenance accounts to the Operation and Maintenance, Army account for this purpose.

ENERGY INDEPENDENCE AND SECURITY ACT

The agreement does not include a provision included in the House-passed version of H.R. 2685 that referenced the Energy Independence and Security Act of 2007. It is noted that the enforcement of section 526 of the Energy Independence and Security Act of 2007 may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Secretary of Defense and the Service Secretaries should work to ensure that costs associated with fuel purchases necessary to carry out their respective missions should be minimized to the greatest extent possible.

AIR FORCE DEPOT MAINTENANCE AND CONTRACTOR LOGISTICS
SUPPORT

While the Air Force has improved its depot maintenance budget documentation, concerns remain that requesting funding for contractor logistics support (CLS) in the depot maintenance sub-activity group (SAG) limits visibility into the execution of this funding. Separating CLS and Performance Based Logistics (PBL) funding from depot maintenance funding would provide better congressional oversight and visibility. Therefore, the Secretary of the Air Force is directed to create new and separate SAGs specifically for CLS and PBL funding.

NET-CENTRIC ENTERPRISE SERVICES

Language in House Report 114–139 directed the Director of the Defense Information Systems Agency to submit a report describing and justifying the total costs associated with implementing an interim collaboration service until the Unified Capabilities collaboration services program commences in fiscal year 2017. However, the Department of Defense has already completed the transition to a new system of collaboration services. Therefore, the reporting requirement directed by House Report 114–139 is rescinded.

ENERGY EFFICIENCY FOR DEPARTMENT OF DEFENSE FACILITIES

Language in House Report 114–139 directed the Secretary of Defense to report to the congressional defense committees on the energy use and energy efficiency projects at the Pentagon and the ten largest Department of Defense facilities. In lieu of this reporting requirement, the agreement directs the Secretary of Defense to brief the House and Senate Appropriations Committees not later than 180 days after the enactment of this Act on energy use at the Pentagon Reservation and the ten largest Department of Defense facilities. The briefing should include an accounting of the dates when energy audits and energy efficiency projects were conducted at these facilities and any potential savings associated with the installation of efficient lighting systems, including tubular Light-Emitting Diode (T-LED) lighting, at these facilities. Further, the Secretary of Defense is encouraged to revise the current specifications to permit T-LED lighting as an option within the Department's Unified Facilities Criteria.

MILITARY CHILD OUTREACH PROGRAMS

The agreement recognizes the importance of youth outreach programs that provide military children opportunities and mentorships as they cope with the turbulence that often accompanies military service. The Secretary of Defense and the Service Secretaries are encouraged to continue funding memberships for military children at installation-sponsored Boys and Girls Clubs of America and to expand these efforts to support memberships for military children who reside off-base and wish to join off-installation Boys and Girls Clubs of America.

MILITARY ONESOURCE

Military OneSource provides comprehensive information on military life to servicemembers and their families. However, the duplicative nature of the Department of Defense and the Department of Veterans Affairs efforts in this area is concerning. The Secretary of Defense, in consultation with the Secretary of Veterans Affairs, is directed to submit a report detailing the potential benefits of creating a joint program modeled after Military OneSource to the congressional defense committees not later than 120 days after the enactment of this Act.

PROCUREMENT SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110–279). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P–1) or research, development, test and evaluation (R–1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

COMBAT AIR PATROL REVIEW

The agreement directs the Secretary of Defense to conduct a complete review of the required Combat Air Patrols deemed necessary to meet combatant commanders’ requirements and to identify the necessary mix of intelligence, surveillance, and reconnaissance aircraft across the Air Force, Navy, Army, and Special Operations Command to meet such requirements. The Secretary of Defense is directed to provide a report on this review to the congressional defense committees not later than 180 days after the enactment of this Act.

If certification is not made in the report, the Secretary is further directed to submit a new report to the congressional defense committees not later than five days following the new projected date for delivery which includes the certification previously described. If such certification cannot be made, the report shall include an explanation for the failure to deliver the necessary equipment and an assessment of the potential impact to the Air Force declaration of IOC.

The Secretary of Defense is further directed to ensure that the fiscal year 2017 budget exhibits for the F-35 program clearly delineate the specific costs of ALIS procurement and research, development, test and evaluation in all applicable accounts.

MK-19 GRENADE MACHINE GUN MODIFICATIONS

The fiscal year 2016 budget request includes \$2,777,000 to improve the lethality and accuracy of MK-19 40mm grenade machine gun launchers. The MK-19 has been a reliable and effective weapon for many years, including extensive operational use in Iraq and Afghanistan. There remains concern with the Army plan to upgrade the weapon. The agreement directs the Secretary of the Army to submit a report to the congressional defense committees not later than the end of fiscal year 2016 or following the completion of the MOD 5 kit testing, whichever is earlier, that addresses the ability of the MOD 5 kit to meet requirements. In addition, the report shall address the Army plan to utilize commercial off-the-shelf technologies to upgrade and enhance the MK-19 in the future.

NAVY RESERVE COMBAT AIRCRAFT

The tactical aviation squadrons of the Navy Reserve fulfill the strategic reserve mission for the Navy and provide adversary support to active duty forces. The aging F/A-18A+ aircraft are projected to begin exceeding their service lives in the next five years. The Secretary of the Navy, in coordination with the Chief of Navy Reserve, is directed to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on the plan to recapitalize and modernize the Navy Reserve tactical aviation squadrons, specifically the F/A-18A+ models in the Navy Reserve Combat air fleet.

UH-1N REPLACEMENT

The agreement includes \$2,456,000, the same as the budget request, for the UH-1N helicopter replacement program. However, the lack of a settled acquisition strategy remains a concern. The agreement provides the funds requested in order to facilitate the development of a new acquisition strategy. It is recommended that the Secretary of the Air Force consider an acquisition strategy that separates nuclear convoy escort and missile field mission support from other missions performed by the existing UH-1N fleet, which may be satisfied by a less robust and more affordable solution.

SPACE PROCUREMENT, AIR FORCE

The agreement supports the President's request to create a new Space Procurement, Air Force appropriation account but establishes the period of availability of funds for obligation at three years. Further, the agreement transfers all space-related items requested in the Other Procurement, Air Force appropriation account into the Space Procurement, Air Force appropriation account.

DEFENSE METEOROLOGICAL SATELLITE PROGRAM

The agreement denies the request of the Secretary of the Air Force for relief from direction provided in the explanatory statement accompanying the Department of Defense Appropriations Act, 2015, which required that the Defense Meteorological Satellite Program (DMSP) be brought to an orderly close during calendar year 2015. Therefore, the recommendation reduces the fiscal year 2016 budget request by \$89,351,000 for the DMSP and by \$120,000,000 for the corresponding Evolved Expendable Launch Vehicle. Further, the recommendation rescinds \$50,000,000 from fiscal year 2015 Missile Procurement, Air Force funds for the DMSP. The agreement recommends that the Secretary of the Air Force focus resources on ensuring that the next generation of weather satellites meets the full spectrum of warfighter and intelligence requirements and work with civil stakeholders to ensure that any other weather coverage gaps are met using appropriate civil or international weather assets.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION SPECIAL INTEREST
ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

F-16 RADAR UPGRADES

The long-term health of the active electronically scanned array radar industrial base remains a concern. Competition among multiple suppliers is important to reduce costs and improve performance. The Air Force is finalizing a competitive acquisition strategy to address phase one of the North American Aerospace Defense Command/United States Northern Command Joint Urgent Operational Need (JUON) NC-0008. The agreement provides \$40,000,000 to support the phase one competition. The agreement directs the Secretary of Defense, in coordination with the Secretary of the Air Force and the Commander of United States Northern Command, to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that details a competitive acquisition strategy for phase one of the JUON,

the plan to address phase two, and the Air Force's radar modernization plan for the entire F-16 fleet.

E-8 JOINT SURVEILLANCE TARGET ATTACK RADAR SYSTEM

The agreement directs the Secretary of the Air Force to submit a report on modifications to the E-8 Joint Surveillance Target Attack Radar System (JSTARS) fleet to the congressional defense committees not later than 30 days after the submission of the fiscal year 2017 budget request. This report shall detail how the Air Force will address global air traffic management mandates, as well as other modifications required to meet warfighter requirements and avoid mission performance degradation due to diminishing manufacturing sources, until the E-8 is replaced by the Next Generation JSTARS system. The report shall include schedules and annual funding requirements for each modification effort. This language replaces the reporting requirements regarding the legacy E-8 fleet under the headings "E-8 JSTARS" in House Report 114-139 and "Joint Surveillance and Target Attack Radar System (JSTARS)" in Senate Report 114-63.

NEXT GENERATION JOINT SURVEILLANCE TARGET ATTACK RADAR SYSTEM

Delays by the Department of Defense in reaching a Milestone A decision on the Next Generation Joint Surveillance Target Attack Radar System (JSTARS) program remain a source of concern. The Secretary of Defense and the Secretary of the Air Force are directed to reassess the acquisition strategy with the goal of shortening the development phase and accelerating the production and delivery of a new system. The Secretary of the Air Force is further directed to brief the congressional defense committees not later than 60 days after the enactment of this Act on the status of requirements definition, technology risk and the strategy for reducing such risk, the acquisition strategy and funding for all phases, and options to accelerate the program relative to the schedule presented with the fiscal year 2016 budget request. This language replaces the direction regarding the Next Generation JSTARS system under the headings "Next Generation JSTARS" in House Report 114-139 and "Joint Surveillance and Target Attack Radar System (JSTARS)" in Senate Report 114-63.

GLOBAL POSITIONING SYSTEM III OPERATIONAL CONTROL SEGMENT

In light of significant delays to the Global Positioning System (GPS) III Operational Control Segment, the Air Force plan to accelerate GPS III satellite launches would put approximately fourteen satellites on orbit before the ground system is available to operate and integrate the satellites into the positioning, timing, and navigation architecture. Therefore, the Constellation Sustainment Assessment Team is directed to conduct a review, with validation by the Commander of the United States Strategic Command, to determine if the current GPS III satellite launch plan should be adjusted to ensure necessary operational testing on early vehicles has been completed and potential satellite deficiencies have been discovered before more satellites are launched. This review should be provided to the congressional defense committees not later than 60 days after the enactment of this Act.

SPACE BASED INFRARED SYSTEM SPACE MODERNIZATION INITIATIVE

The agreement directs the Under Secretary of Defense (Acquisition, Technology, and Logistics) to provide an analysis of alternatives for the next generation of the Space Based Infrared System to the congressional defense committees not later than 60 days after the enactment of this Act. Further, the Under Secretary of Defense (Acquisition, Technology, and Logistics) and the Commander of the United States Strategic Command are directed to brief the congressional defense committees on the findings and recommendations of the analysis of alternatives, including the cost evaluation, not later than 30 days after the submission of the analysis of alternatives.

ADVANCED EXTREMELY HIGH FREQUENCY SATELLITE SPACE
MODERNIZATION INITIATIVE

The agreement restricts obligation or expenditure of more than \$90,000,000 of Research, Development, Test and Evaluation, Air Force funds for the Advanced Extremely High Frequency Military Satellite Communications Space Modernization Initiative until 30 days after the Under Secretary of Defense (Acquisition, Technology, and Logistics) provides the congressional defense committees with its analysis of alternatives for protected tactical satellite communications services. Further, the Under Secretary of Defense (Acquisition, Technology, and Logistics) and the Commander of the United States Strategic Command are directed to brief the congressional defense committees on the findings and recommendations of the analysis of alternatives, including the cost evaluation, not later than 30 days after the submission of the analysis of alternatives.

TRUSTED FOUNDRIES

Maintaining a United States-based foundry that supplies trusted microprocessors for the Department of Defense and the Intelligence Community is a concern. It is noted that near-term and long-term plans are being developed by the Department of Defense to address access to microprocessors from trusted sources. The Secretary of Defense is directed to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that includes a list of Department of Defense weapon systems that require trusted microprocessors, a description on how the loss of a United States-based trusted foundry impacts these systems, an identification of costs associated with maintaining an equivalent level of security for the existing systems, a list of the challenges associated with maintaining and/or creating adequate United States-based trusted foundries versus relying on foreign-based trusted foundries, and the Department's plan to provide secure microprocessors for future weapon systems. This report may be submitted in a classified form if necessary.

MISSILE DEFENSE AGENCY—DIVERT AND ATTITUDE CONTROL SYSTEM
AND MULTI-OBJECT KILL VEHICLE

The fiscal year 2016 budget request includes \$11,482,000 for the competitive development of next generation divert and attitude control system (DACS) technology, a reduction of 42 percent from fiscal year 2015. In addition, the fiscal year 2016 budget request initiates funding for the multi-object kill vehicle (MOKV), a program that will likely require next generation DACS technology. It is understood that the Missile Defense Agency (MDA) shares previously expressed concerns regarding the need to ensure access to a competitive DACS industrial base and views the DACS component as critical to making precise trajectory adjustments to position missile defense kill vehicles for a target intercept. Therefore, the agreement recommends an additional \$10,000,000 for competitive DACS technology to support MOKV development, and an additional \$20,000,000 for MOKV technology. It is understood that MDA will support the competitive DACS industrial base in future budget submissions.

MISSILE DEFENSE AGENCY—SM-3 BLOCK IIA INTERCEPTOR AND
PROGRAMS INVOLVING INTERNATIONAL PARTNERS

It is recognized that the United States and Japan are cooperatively developing the SM-3 Block IIA missile and are preparing for an initial flight test. The fiscal year 2016 budget request continues to incrementally fund 17 SM-3 Block IIA flight test rounds, at a cost of over \$500,000,000. In an effort to better recognize the role of international partners in Department-wide technology programs, the Under Secretary of Defense (Acquisition, Technology, and Logistics) is directed to provide a briefing to the congressional defense committees on Department of Defense programs involving international partners.

DEFENSE COMMISSARY AGENCY

The agreement affirms the significant and lasting benefits that commissaries provide in support of servicemembers and their families. Commissaries help promote healthy base communities by guaranteeing access to fresh foods, including fruits and vegetables, at low prices to military families. Better nutrition and food choices are the first steps toward improved health outcomes and lower health care costs. Commissaries also help military families stretch their budgets and provide stable employment for servicemembers' families and veterans.

It is understood that the Department of Defense would like to make commissaries more self-sustaining. The agreement supports finding efficiencies to lower the operational cost of commissaries. The House and Senate Appropriations Committees are willing to review and consider new ways to administrate the commissaries; however, the agreement does not support the proposed funding reduction. The agreement affirms that commissaries must be kept open, affordable, and accessible to military families.

Language in House Report 114–139 directed the Secretary of Defense to defer any changes to the Defense Commissary Agency's (DeCA) second destination transportation funding policy that would increase commissary retail prices until 30 days after the Secretary has submitted a report to the congressional defense committees regarding commissary costs, including the potential efficiencies that can be realized in air transportation contracts. However, prior to House passage of H.R. 2685, the Department of Defense began the transition to a new fresh fruits and vegetables contract throughout the DeCA Pacific Area commissaries. Therefore, in lieu of the direction in House Report 114–139, the Secretary of Defense is directed to submit a report to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act outlining the current delivery system of commissary benefits in the Pacific Area commissary system, including the anticipated costs related to the transition to a new fresh fruits and vegetables contract throughout the DeCA Pacific Area commissaries; a description of any modifications to the Pacific Area commissary system the Secretary considers appropriate to achieve savings in the delivery of

commissary benefits, while still upholding high levels of customer satisfaction and access, providing high quality products, and sustaining discount savings; and the potential efficiencies that can be realized in air transportation contracts and the effect that these efficiencies may have on second destination transportation funding requirements.

NATIONAL DEFENSE SEALIFT FUND

The agreement provides \$474,164,000 for the National Defense Sealift Fund.

REPROGRAMMING GUIDANCE FOR THE DEFENSE HEALTH PROGRAM

Concerns remain regarding the transfer of funds from the In-House Care budget sub-activity to pay for contractor-provided medical care. To limit such transfers and improve oversight within the Defense Health Program operation and maintenance account, the agreement includes a provision which caps the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The provision and accompanying explanatory statement language should not be interpreted as limiting the amount of funds that may be transferred to the In-House Care budget sub-activity from other budget sub-activities within the Defense Health Program. In addition, funding for the In-House Care budget sub-activity continues to be designated as a congressional special interest item. Any transfer of funds from the In-House Care budget sub-activity into the Private Sector Care budget sub-activity or any other budget sub-activity requires the Secretary of Defense to follow prior approval reprogramming procedures for operation and maintenance funds.

The Secretary of Defense is directed to provide written notification to the congressional defense committees of cumulative transfers in excess of \$10,000,000 out of the Private Sector Care budget sub-activity not later than fifteen days after such a transfer. Furthermore, the Secretary of Defense is directed to provide a report to the congressional defense committees not later than 30 days after the enactment of this Act that delineates transfers of funds in excess of \$10,000,000, and the dates any transfers occurred, from the Private Sector Care budget sub-activity to any other budget sub-activity groups for fiscal year 2015.

The Assistant Secretary of Defense (Health Affairs) is directed to provide quarterly reports to the congressional defense committees on budget execution data for all of the Defense Health Program budget activities and to adequately reflect changes to the budget activities requested by the Services in future budget submissions.

CARRYOVER

For fiscal year 2016, the agreement recommends one percent carryover authority for the operation and maintenance account of the Defense Health Program. The Assistant Secretary of Defense (Health Affairs) is directed to submit a detailed spending plan for any fiscal year 2015 designated carryover funds to the congressional defense committees not less than 30 days prior to executing the carryover funds.

PEER-REVIEWED CANCER RESEARCH PROGRAM

The agreement provides \$50,000,000 for the peer-reviewed cancer research program to research cancers not addressed in the breast, prostate, ovarian, and lung cancer research programs currently executed by the Department of Defense.

The funds provided in the peer-reviewed cancer research program are directed to be used to conduct research in the following areas: bladder cancer, colorectal cancer, immunotherapy, kidney cancer, listeria vaccine for cancer, liver cancer, lymphoma, mela-

noma and other skin cancers, mesothelioma, neuroblastoma, pancreatic cancer, pediatric brain tumors, and stomach cancer.

The reports directed under this heading in House Report 114-139 and Senate Report 114-63 are still required.

PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The agreement provides \$278,700,000 for a peer-reviewed medical research program. The Secretary of Defense, in conjunction with the Service Surgeons General, is directed to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to the following areas: acute lung injury, antimicrobial resistance, chronic migraine and post-traumatic headache, congenital heart disease, constrictive bronchiolitis, diabetes, dystonia, emerging infectious diseases, focal segmental glomerulosclerosis, Fragile X syndrome, hepatitis B, hereditary angioedema, hydrocephalus, inflammatory bowel disease, influenza, integrative medicine, interstitial cystitis, lupus, malaria, metals toxicology, mitochondrial disease, nanomaterials for bone regeneration, non-opioid pain management, pancreatitis, pathogen-inactivated dried plasma, polycystic kidney disease, post-traumatic osteoarthritis, psychotropic medications, pulmonary fibrosis, respiratory health, Rett syndrome, rheumatoid arthritis, scleroderma, sleep disorders, tinnitus, tuberculosis, vaccine development for infectious disease, vascular malformations, and women's heart disease. The additional funding provided under the peer-reviewed medical research program shall be devoted only to the purposes listed above.

ELECTRONIC HEALTH RECORD SYSTEM

Concerns remain with the progress being made by the Departments of Defense and Veterans Affairs to develop fully interoperable electronic health record systems. The ultimate goal of the efforts of both Departments is to have systems that can exchange data in a meaningful way and be used in a dynamic environment to improve patient care and facilitate smoother transitions for servicemembers from military service to veteran status.

It is noted that the Department of Defense has provided required information regarding resource requirements for prior years and the fiscal year 2016 budget request in a timely, concise, and complete manner. However, for the necessary oversight of this important program, the Program Executive Officer (PEO) for the Defense Healthcare Management Systems Modernization (DHMSM) is directed to provide quarterly reports to the congressional defense committees and the Government Accountability Office on the cost and schedule of the program, to include milestones, knowledge points, and acquisition timelines, as well as quarterly obligation reports. These reports should also include any changes to the deployment timeline, including benchmarks, for full operating capability; any refinements to the cost estimate for full operating capability and the total lifecycle cost of the program; an assurance that the acquisition strategy will comply with the acquisition rules, requirements, guidelines, and systems acquisition management practices of the federal government; the status of the effort to achieve interoperability between the electronic health record systems of the De-

partment of Defense and the Department of Veterans Affairs, including the scope, cost, schedule, mapping to health data standards, and performance benchmarks of the interoperable record; and the progress toward developing, implementing, and fielding the interoperable electronic health record throughout the two Departments' medical facilities. The PEO DHMSM is directed to continue briefing the House and Senate Appropriations Committees on a quarterly basis, coinciding with the report submission. Given that full deployment of the new electronic health record is not scheduled until fiscal year 2022, the Department of Defense is expected to continue working on interim modifications and enhancements to the current system to improve interoperability in the near-term. Additionally, the PEO DHMSM is directed to provide written notification to the House and Senate Appropriations Committees prior to obligating any contract, or combination of contracts, for electronic health record systems in excess of \$5,000,000.

Additionally, the Director of the Interagency Program Office is directed to continue to provide quarterly briefings on standards development, how those standards are being incorporated by the two Departments, and the progress of interoperability to the House and Senate Appropriations Subcommittees for Defense and Military Construction, Veterans Affairs, and Related Agencies. In an effort to ensure government-wide accountability, the PEO DHMSM, in coordination with the appropriate personnel of the Department of Veterans Affairs, is directed to provide the Federal Chief Information Officer of the United States with monthly updates on progress made by the two Departments to reach interoperability and modernize their respective electronic health records.

TITLE IX—OVERSEAS CONTINGENCY OPERATIONS/GLOBAL WAR ON TERRORISM

The agreement provides \$58,638,000,000 in Title IX, Overseas Contingency Operations/Global War on Terrorism.

REPORTING REQUIREMENTS

The Secretary of Defense is directed to continue to report incremental contingency operations costs for all named operations in the Central Command Area of Responsibility on a monthly basis in the Cost of War Execution report as required by the Department of Defense Financial Management Regulation, Chapter 23, Volume 12. The Secretary of Defense is directed to continue providing Cost of War reports to the congressional defense committees that include the following information by appropriation account: funding appropriated, funding allocated, monthly obligations, monthly disbursements, cumulative fiscal year obligations, and cumulative fiscal year disbursements.

In order to meet unanticipated requirements, the Secretary of Defense may need to transfer funds within these appropriation accounts for purposes other than those specified in the explanatory statement. The Secretary of Defense is directed to follow normal prior approval reprogramming procedures should it be necessary to transfer funding between different appropriation accounts in this title using authority provided in section 9002 of this Act.

OVERSEAS CONTINGENCY OPERATIONS/GLOBAL WAR ON TERRORISM FUNDS EXECUTION REPORTS

The Secretary of Defense is directed to submit a monthly report to the congressional defense committees not later than 30 days after the last day of each month that details commitment, obligation, and expenditure data by sub-activity group for the Afghani-

stan Security Forces Fund, the Counterterrorism Partnerships Fund, and the Iraq Train and Equip Fund.

SYRIA TRAIN AND EQUIP FUND

The House and the Senate included the Syria Train and Equip Fund in title IX. The Syria Train and Equip Fund was designed to provide assistance, training, equipment, supplies, stipends, construction of training and associated facilities, and sustainment to appropriately vetted elements of the Syrian opposition and other appropriately vetted Syrian groups. Recently, the Secretary of Defense announced the suspension of elements of the Syria Train and Equip program due to significant challenges with its implementation and an inability to meet program goals. Clear expectations for the future of the program, including how requested funding would be spent and how the program aligns with the shifting strategy on the ground in Syria, have yet to be provided. Therefore, the agreement does not recommend funding for the Syria Train and Equip Fund, but it allows the Secretary of Defense to use funds from the Counterterrorism Partnerships Fund for efforts to assist appropriately vetted elements of the Syrian opposition, if the Secretary outlines a detailed and clear plan for the use of such funds and provides such justification to the congressional defense committees in a reprogramming request.

AUTHORIZATION TO USE MILITARY FORCE AGAINST THE ISLAMIC STATE OF IRAQ AND THE LEVANT

The House included a general provision, Section 10001, regarding an authorization to use military force pertaining to the Islamic State of Iraq and the Levant (ISIL). This provision was included as a congressional finding stating that Congress has a constitutional duty to debate and determine whether or not to authorize the use of military force against ISIL. The Senate included a similar provision, Section 9017.

AZOV BATTALION IN UKRAINE

The House included a general provision, Section 10009, prohibiting arms, training, and other assistance to the Azov Battalion in Ukraine. This provision was included due to concerns regarding the Azov Battalion commander's ties to extremism. It is understood that established codified human rights vetting requirements for beneficiaries of assistance from both the Departments of State and Defense would prohibit funding the Azov Battalion from either source if it violates human rights. This language replaces the general provision included in H.R. 2685.

OPERATION FREEDOM'S SENTINEL

The mission of Operation Freedom's Sentinel is to cooperate with allies and partners on the Resolute Support mission and to continue counterterrorism operations against the remnants of al-Qaeda in Afghanistan. The President recently announced that the current troop level of 9,800 will remain in Afghanistan through most of 2016 instead of the budgeted end strength of approximately 5,500 troops, thereby creating a funding shortfall.

The agreement provides an additional \$1,277,915,000 in Operation and Maintenance, Army; Military Personnel, Army; and Operation and Maintenance, Defense-Wide for the Special Operations Command to be used only for Operation Freedom's Sentinel. The Office of Management and Budget did not submit a formal budget amendment to Congress and informal recommendations provided by the Under Secretary of Defense (Comptroller) were provided too late to fully fund the requirement within budget caps. Further, many of the recommended funding offsets had already been applied to meet the reduced funding levels legislated by the Bipartisan Budget Agreement of 2015 or they were untenable, such as reducing funding for Department of Defense schools. The agreement provides sufficient funding to cover the higher level of effort for the Army and Special Operations Command for the first six months of fiscal year 2016. It also provides additional transfer authority with the recognition that the Secretary of Defense will expeditiously submit a reprogramming action to the congressional defense committees to provide funding for the remainder of the fiscal year.

This funding is a congressional special interest item. The Secretary of Defense is directed to provide a spending plan by sub-activity group to the House and Senate Appropriations Committees not later than 15 days prior to any obligation of funds. This funding may be implemented 15 days after congressional notification unless an objection is received from either the House or the Senate Appropriations Committee.

GENERAL PROVISIONS—INDEPENDENT AGENCIES

SEC. 401. The Nuclear Regulatory Commission shall comply with the July 5, 2011, version of Chapter VI of its Internal Commission Procedures when responding to Congressional requests for information.

SEC. 402. (a) The amounts made available by this title for the Nuclear Regulatory Commission may be reprogrammed for any program, project, or activity, and the Commission shall notify the Committees on Appropriations of both Houses of Congress at least 30 days prior to the use of any proposed reprogramming that would

cause any program funding level to increase or decrease by more than \$500,000 or 10 percent, whichever is less, during the time period covered by this Act.

(b)(1) The Nuclear Regulatory Commission may waive the notification requirement in (a) if compliance with such requirement would pose a substantial risk to human health, the environment, welfare, or national security.

(2) The Nuclear Regulatory Commission shall notify the Committees on Appropriations of both Houses of Congress of any waiver under paragraph (1) as soon as practicable, but not later than 3 days after the date of the activity to which a requirement or restriction would otherwise have applied. Such notice shall include an explanation of the substantial risk under paragraph (1) that permitted such waiver and shall provide a detailed report to the Committees of such waiver and changes to funding levels to programs, projects, or activities.

(c) Except as provided in subsections (a), (b), and (d), the amounts made available by this title for "Nuclear Regulatory Commission—Salaries and Expenses" shall be expended as directed in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act).

(d) None of the funds provided for the Nuclear Regulatory Commission shall be available for obligation or expenditure through a reprogramming of funds that increases funds or personnel for any program, project, or activity for which funds are denied or restricted by this Act.

(e) The Commission shall provide a monthly report to the Committees on Appropriations of both Houses of Congress, which includes the following for each program, project, or activity, including any prior year appropriations—

- (1) total budget authority;
- (2) total unobligated balances; and
- (3) total unliquidated obligations.

SEC. 403. Public Law 105-277, division A, section 101(g) (title III, section 329(a), (b)) is amended by inserting, in subsection (b), after "State law" and before the period the following: "or for the construction and repair of barge mooring points and barge landing sites to facilitate pumping fuel from fuel transport barges into bulk fuel storage tanks."

TITLE V

SEC. 502. (a) None of the funds made available in title III of this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by or transfer authority provided in this Act or any other appropriations Act for any fiscal year, transfer authority referenced in the explanatory statement described in section 4 (in the matter

preceding division A of this consolidated Act), or any authority whereby a department, agency, or instrumentality of the United States Government may provide goods or services to another department, agency, or instrumentality.

(b) None of the funds made available for any department, agency, or instrumentality of the United States Government may be transferred to accounts funded in title III of this Act, except pursuant to a transfer made by or transfer authority provided in this Act or any other appropriations Act for any fiscal year, transfer authority referenced in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act), or any authority whereby a department, agency, or instrumentality of the United States Government may provide goods or services to another department, agency, or instrumentality.

DIVISION D—ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2016

The following statement to the House of Representatives and the Senate is submitted in explanation of the agreed upon Act making appropriations for energy and water development for the fiscal year ending September 30, 2016, and for other purposes.

The language and allocations set forth in House Report 114–91 and Senate Report 114–54 carry the same emphasis as the language included in this explanatory statement and should be complied with unless specifically addressed to the contrary herein. Report language included by the House that is not changed by the report of the Senate or this explanatory statement and Senate report language that is not changed by this explanatory language is approved. This explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to the Committees on Appropriations of both Houses of Congress. House or Senate reporting requirements with deadlines prior to or within 15 days of the enactment of this Act shall be submitted no later than 60 days after the enactment of this Act. All other reporting deadlines not changed by this explanatory statement are to be met.

Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

In fiscal year 2016, for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99–177), the following information provides the definition of the term “program, project, or activity” for departments and agencies under the jurisdiction of the Energy and Water Development Appropriations Act. The term “program, project, or activity” shall include the most specific level of budget items identified in the Energy and Water Development Appropriations Act, 2016 and the explanatory statement accompanying the Act.

National Ocean Policy.—The agreement does not include section 505 of the House bill regarding the National Ocean Policy. No specific funding was provided in fiscal year 2015 and none was re-

quested by any agencies funded in this Act in fiscal year 2016 to implement the National Ocean Policy. Consequently, no specific funds for National Ocean Policy activities are included for any agency funded in this Act.

TITLE I—CORPS OF ENGINEERS—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The summary tables included in this title set forth the dispositions with respect to the individual appropriations, projects, and activities of the Corps of Engineers. Additional items of the Act are discussed below.

Concerns persist that the effort to update the Water Resources Principles and Guidelines did not proceed consistent with the language or intent of section 2031 of the Water Resources Development Act of 2007. No funds provided to the Corps of Engineers shall be used to develop or implement rules or guidance to support implementation of the final Principles and Requirements for Federal Investments in Water Resources released in March 2013 or the final Interagency Guidelines released in December 2014. The Corps shall continue to use the document dated March 10, 1983, and entitled “Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies” during the fiscal year period covered by the Energy and Water Development Appropriations Act for 2016.

Recent statutory changes regarding the Inland Waterways Trust Fund (IWTF) have resulted in an increase to the size of the capital improvement program that can be supported by the IWTF. The agreement reflects congressional interest in supporting this larger program. The Corps is directed to take the preparatory steps necessary to ensure that new construction projects can be initiated as soon as can be supported under the larger capital program (i.e., as ongoing projects approach completion).

The agreement does not include Senate report direction regarding program coordination and execution.

Asian carp.—The Corps is directed to expedite authorized actions related to addressing the threat Asian carp pose to the Great Lakes basin, including the Brandon Road Study. Given the promise Brandon Road Lock and Dam holds as a single point to control upstream transfer of invasive species, delays to this study would pose an unnecessary threat to the Great Lakes. Upon completion of the study, the Corps is directed to expeditiously pursue authorization of any proposed modification to Brandon Road Lock and Dam through the appropriate congressional committees.

The Corps is further directed to establish formal emergency procedures under the authorities provided under Section 1039 of the Water Resources Reform and Development Act of 2014 (P.L. 113–121), including rapid response protocols, monitoring, and other countermeasures, that are appropriate to prevent Asian Carp from passing beyond the Brandon Road Lock and Dam while still complying with the Lock’s existing authorized purposes and the River and Harbor Act of 1899 (33 U.S.C. 401 et seq.). These procedures

shall be established in coordination with the U.S. Fish and Wildlife Service and in consultation with the Asian Carp Regional Coordinating Committee.

Economic Impact Study.—The Comptroller General is directed to study the cumulative economic impact of all shallow draft ports on the Mississippi River between St. Louis, Missouri, and Baton Rouge, Louisiana. The study shall include an assessment of the following: current freight flows of barge traffic on the middle and lower Mississippi River; how industry stakeholders and experts describe the contribution of inland ports to the local and national economy; how factors such as the Panama Canal expansion are expected to contribute to future trends in barge traffic on the middle and lower Mississippi River; how dredging of the middle and lower Mississippi River and its inland ports is funded; and other options that are available to fund dredging in the middle and lower Mississippi River.

ADDITIONAL FUNDING

The fiscal year 2016 budget request significantly underfunds the Civil Works program of the Corps of Engineers. The agreement, however, includes funding in addition to the budget request to ensure continued improvements to our national economy, public safety, and environmental health that result from water resources projects. This funding is for additional work that either was not included in the Administration's request or was inadequately budgeted. The bill contains a provision requiring the Corps to allocate funds in accordance with only the direction in this agreement.

The Corps again is directed to develop rating systems for use in evaluating studies and projects for allocation of the additional funding provided in this title. These evaluation systems may be, but are not required to be, individualized for each account, category, or subcategory. Each study and project eligible for funding shall be evaluated under the applicable ratings system. A study or project may not be excluded from evaluation for being "inconsistent with Administration policy." The Corps retains complete control over the methodology of these ratings systems. The executive branch retains complete discretion over project-specific allocation decisions within the additional funds provided, subject to only the direction here and under the heading "Additional Funding" or "Additional Funding for Ongoing Work" within each of the Investigations, Construction, Mississippi River and Tributaries, and Operation and Maintenance accounts.

The Administration is reminded that these funds are in addition to its budget request, and Administration budget metrics shall not be a reason to disqualify a study or project from being funded. It is expected that all of the additional funding provided will be allocated to specific programs, projects, or activities. The focus of the allocation process shall favor the obligation, rather than expenditure, of funds for work in fiscal year 2016. With the significant backlog of work in the Corps' inventory, there is no reason for funds provided above the budget request to remain unallocated.

A project or study shall be eligible for additional funding within the Investigations, Construction, and Mississippi River and Tributaries accounts if: (1) it has received funding, other than through

a reprogramming, in at least one of the previous three fiscal years; (2) it was previously funded and could reach a significant milestone, complete a discrete element of work, or produce significant outputs in fiscal year 2016; or (3) as appropriate, it is selected as one of the new starts allowed in accordance with this Act and the additional direction provided below. None of the additional funding in any account may be used for any item where funding was specifically denied or for projects in the Continuing Authorities Program. Funds shall be allocated consistent with statutory cost share requirements.

Funding associated with each category may be allocated to any eligible study or project, as appropriate, within that category; funding associated with each subcategory may be allocated only to eligible studies or projects, as appropriate, within that subcategory. The list of subcategories is not meant to be exhaustive.

Work plan.—Not later than 60 days after the enactment of this Act, the Corps shall provide to the Committees on Appropriations of both Houses of Congress a work plan including the following information: (1) a detailed description of the ratings system(s) developed and used to evaluate studies and projects; (2) delineation of how these funds are to be allocated; (3) a summary of the work to be accomplished with each allocation, including phase of work; and (4) a list of all studies and projects that were considered eligible for funding but did not receive funding, including an explanation of whether the study or project could have used funds in fiscal year 2016 and the specific reasons each study or project was considered as being less competitive for an allocation of funds.

New Starts.—The agreement includes the direction regarding the definition of a new start included in the House report. The agreement includes up to ten new study starts and six new construction starts to be distributed across the three main mission areas of the Corps. Of the new study starts, three shall be for navigation studies, three shall be for flood and storm damage reduction studies, one shall be for an additional navigation or flood and storm damage reduction study, and three shall be for environmental restoration studies. Of the new construction starts, one shall be for a navigation project, one shall be for a flood and storm damage reduction project, three shall be for additional navigation or flood and storm damage reduction projects, and one shall be for an environmental restoration project. No funding shall be used to initiate new studies, programs, projects, or activities in the Mississippi River and Tributaries or Operation and Maintenance accounts.

The Corps is directed to propose a single group of new starts as a part of the work plan. The Corps may not change or substitute the new starts selected once the work plan has been provided to the Committees on Appropriations of both Houses of Congress. Each new start shall be funded from the appropriate additional funding line item. Any project for which the new start requirements are not met by the end of fiscal year 2016, or by the earlier date as specified, shall be treated as if the project had not been selected as a new start; such a project shall be required to compete again for new start funding in future years. Consideration of studies and projects for selection as new starts shall not be limited to only those proposed in the Administration's budget request. As all

new starts are to be chosen by the Corps, all shall be considered of equal importance, and the expectation is that future budget submissions will include appropriate funding for all new starts selected. A new construction start shall not be required for work undertaken to correct a design deficiency on an existing federal project; it shall be considered ongoing work.

In addition to the priority factors used to allocate all additional funding provided in the Investigations account, the Corps should give careful consideration to the out-year budget impacts of the studies selected and to whether there appears to be an identifiable local sponsor that will be ready and able to provide, in a timely manner, the necessary cost share for the feasibility and preconstruction engineering and design (PED) phases. No new start or new investment decision shall be required when moving from feasibility to PED.

In addition to the priority factors used to allocate all additional funding provided in the Construction account, the Corps also shall consider the out-year budget impacts of the selected new starts and the cost sharing sponsor's ability and willingness to promptly provide the cash contribution (if any), as well as required lands, easements, rights-of-way, relocations, and disposal areas. When considering new construction starts, only those that can execute a project cost sharing agreement not later than August 31, 2016, shall be chosen.

To ensure that the new construction starts are affordable and will not unduly delay completion of any ongoing projects, the Secretary is required to submit to the Committees on Appropriations of both Houses of Congress a realistic out-year budget scenario prior to issuing a work allowance for a new start. It is understood that specific budget decisions are made on an annual basis and that this scenario is neither a request for nor a guarantee of future funding for any project. Nonetheless, this scenario shall include an estimate of annual funding for each new start utilizing a realistic funding scenario through completion of the project, as well as the specific impacts of that estimated funding on the ability of the Corps to make continued progress on each previously funded construction project (including impacts to the optimum timeline and funding requirements of the ongoing projects) and on the ability to consider initiating new projects in the future. The scenario shall assume a Construction account funding level at the average of the past three budget requests.

INVESTIGATIONS

The agreement includes \$121,000,000 for Investigations. The agreement includes legislative language regarding parameters for new study starts.

The allocation for projects and activities within the Investigations account is shown in the following table:

Updated Capability.—The agreement adjusts some project-specific allocations downward from the budget request based on updated information regarding the amount of work that could be accomplished in fiscal year 2016.

Mobile Harbor, Alabama, Limited Reevaluation Report.—The Assistant Secretary of the Army for Civil Works is directed to budget for this project at the rate indicated in Section 110 of the Energy and Water Development and Related Agencies Appropriations Act, 2015. In future budget submissions, the Secretary shall adhere to congressional direction included in statute regarding this project.

North Atlantic Coast Comprehensive Study Focus Areas.—The agreement includes funding for the three focus areas as separate and individual feasibility studies. The Corps is directed to maintain this characterization (individual, ongoing activities) when making future funding decisions for study activities for these three focus areas, as well as the other six focus areas identified in the Comprehensive Study.

Additional Funding.—When allocating the additional funding provided in this account, the Corps shall consider giving priority to completing or accelerating ongoing studies or to initiating new studies that will enhance the nation's economic development, job growth, and international competitiveness; are for projects located in areas that have suffered recent natural disasters; or are for projects to address legal requirements. While the additional funding is shown in the feasibility column, the Corps shall use these funds for additional work in both the feasibility and PED phases. The agreement includes sufficient additional funding to undertake a significant amount of feasibility and PED work. The Administration is reminded that a project study is not complete until the PED phase is complete.

Upper Mississippi River Comprehensive Plan.—In lieu of Senate report direction for the Upper Mississippi River Comprehensive Plan, the agreement encourages the Corps of Engineers to provide, not later than 60 days after the enactment of this Act, a comprehensive survey of the authorization and funding requirements necessary for the Corps to continue work on the Upper Mississippi River Comprehensive Plan, including work on alternative scenarios for the 500 year flood (included in the current plan, Plan H). The Corps is encouraged to outline the perceived challenges to, and recommendations for, working toward the creation of an overall flood risk management plan for the entire main stem of the Mississippi River as part of the report.

Upper Mississippi River-Illinois Waterway System.—Unfortunately, the bipartisan support for the Navigation and Ecosystem Sustainability Program (NESP), spanning almost a decade, has not resulted in NESP's implementation. In fact, the program has been idle since fiscal year 2011, when it last received funding for ongoing PED activities. Recently, the Administration signaled its intent to take the unusual step of conducting a new economic analysis. While an update of the benefits and costs of the program, similar to updates for other projects, may be warranted, a complete reanalysis is not. The program was recommended in a Chief's Report and authorized in statute; the next appropriate step is to complete PED. Consequently, the Corps is directed to provide to the Com-

mittees on Appropriations of both Houses of Congress, not later than 30 days after the enactment of this Act, a report detailing the scope, schedule, and budget for completing any update or reanalysis to be undertaken. Additionally, the Corps shall provide the Committees on Appropriations of both Houses of Congress with monthly briefings on the status of any update or reanalysis until such work is completed.

Updated Capability.—The agreement adjusts some project-specific allocations downward from the budget request based on updated information regarding the amount of work that could be accomplished in fiscal year 2016.

Additional Funding.—The agreement includes additional funds for projects and activities to enhance the nation's economic growth and international competitiveness. Of the additional funds provided in this account, the Corps shall allocate not less than \$12,450,000 to projects with riverfront development components. Of the additional funding provided in this account for flood and storm damage reduction and flood control, the Corps shall allocate not less than \$18,000,000 to additional nonstructural flood control projects. Of the additional funds provided in this account for other authorized project purposes and environmental restoration or compliance, the Corps shall allocate not less than \$5,000,000 to authorized reimbursements for projects with executed project cooperation agreements and that have completed construction or where non-federal sponsors intend to use the funds for additional water resources development activities.

When allocating the additional funding provided in this account, the Corps shall consider giving priority to the following:

1. the benefits of the funded work to the national economy;
2. extent to which the work will enhance national, regional, or local economic development;
3. number of jobs created directly by the funded activity;
4. ability to obligate the funds allocated within the fiscal year, including consideration of the ability of the non-federal sponsor to provide any required cost share;
5. ability to complete the project, separable element, or project phase with the funds allocated;
6. for flood and storm damage reduction projects (including authorized nonstructural measures and periodic beach renourishments),
 - a. population, economic activity, or public infrastructure at risk, as appropriate; and
 - b. the severity of risk of flooding or the frequency with which an area has experienced flooding;
7. for navigation projects, the number of jobs or level of economic activity to be supported by completion of the project, separable element, or project phase;
8. for projects cost shared with the Inland Waterways Trust Fund (IWTF), the economic impact on the local, regional, and national economy if the project is not funded, as well as discrete elements of work that can be completed within the funding provided in this line item;
9. for other authorized project purposes and environmental restoration or compliance projects, to include the beneficial use of dredged material; and
10. for environmental infrastructure, projects with the greater economic impact, projects in rural communities, and projects in counties or parishes with high poverty rates.

The agreement provides funds making use of all estimated annual revenues in the IWTF. The Corps shall allocate all funds provided in the IWTF Revenues line item along with the statutory cost

share from funds provided in the Navigation line item prior to allocating the remainder of funds in the Navigation line item. Current fiscal year 2016 capability estimates for all ongoing construction projects cost shared with the IWTF total \$171,200,000 above the budget request. Any report prepared pursuant to section 2002(d) of the Water Resources Reform and Development Act (WRRDA) of 2014 will need to be reviewed by the Congress prior to the Corps incorporating any part of the report into funding decisions. Therefore, when allocating the additional funding provided for projects cost shared with the IWTF, the Corps shall continue to use, as appropriate, the Inland Marine Transportation System (IMTS) Capital Projects Business Model, Final Report published on April 13, 2010, as the applicable 20-year plan.

Aquatic Plant Control Program.—Of the funding provided for the Aquatic Plant Control Program, \$4,000,000 shall be for nationwide research and development to address invasive aquatic plants; within this funding, the Corps is encouraged to support cost shared aquatic plant management programs. Of the funding provided for the Aquatic Plant Control Program, \$4,000,000 shall be for watercraft inspection stations, as authorized by section 1039 of the WRRDA.

Continuing Authorities Program (CAP).—The agreement includes a total of \$29,500,000 for eight CAP sections. The management of the program shall continue consistent with the guidelines outlined in the explanatory statement accompanying the fiscal year 2015 Act.

Updated Capability.—The agreement adjusts some project-specific allocations downward from the budget request based on updated information regarding the amount of work that could be accomplished in fiscal year 2016.

Lowell Creek Tunnel, Alaska.—Currently, there are problems with the existing Lowell Creek Tunnel. The Corps is encouraged to include in future budget requests a study for an alternative method of flood diversion for Lowell Canyon. The Water Resources Development Act of 2007 transferred responsibility for long-term maintenance and repair to the Corps until a new alternative was built, or for 15 years, whichever was earlier. The Corps has not progressed towards developing an alternative, and the City of Seward cannot afford the estimated \$1,500,000 per year in operation and maintenance costs of the tunnel.

Additional Funding for Ongoing Work.—When allocating the additional funding provided in this account, the Corps shall consider giving priority to the following:

1. ability to complete ongoing work maintaining authorized depths and widths of harbors and shipping channels, including where contaminated sediments are present;
2. ability to address critical maintenance backlog;
3. presence of the U.S. Coast Guard or other water safety or police force presence;
4. extent to which the work will enhance national, regional, or local economic development, including domestic manufacturing capacity;
5. extent to which the work will promote job growth or international competitiveness;
6. number of jobs created directly by the funded activity;
7. ability to obligate the funds allocated within the fiscal year;
8. ability to complete the project, separable element, project phase, or useful increment of work within the funds allocated;
9. the risk of imminent failure or closure of the facility; and
10. for harbor maintenance activities,
 - a. total tonnage handled;
 - b. total exports;
 - c. total imports;
 - d. dollar value of cargo handled;
 - e. energy infrastructure and national security needs served;
 - f. designation as strategic seaports;
 - g. lack of alternative means of freight movement; and
 - h. savings over alternative means of freight movement.

Additional funding provided for donor ports and energy transfer ports shall be allocated in accordance with section 2106 of the WRRDA. Of the funds made available for donor ports, 50 percent of such funds shall be allocated equally among eligible donor ports and 50 percent shall be allocated based on each eligible donor port's percentage of the total Harbor Maintenance Tax revenues generated at such ports.

Monitoring of Completed Navigation Projects.—Of the funding provided, \$2,000,000 shall be for research described in the Senate report under the heading "Operations and Maintenance—Fisheries."

Water Operations Technical Support.—Funding in addition to the budget request is included for research into atmospheric rivers first funded in fiscal year 2015.

Emerging Harbor Projects.—The agreement includes funding for individual projects defined as emerging harbor projects in section 210(f)(2) of the Water Resources Development Act (WRDA) of 1986 that exceeds the funding levels envisioned in section 210(c)(3) and 210(d)(1)(B)(ii) of WRDA 1986.

Great Lakes Navigation System.—The agreement includes funding for individual projects within this System that exceeds the funding level envisioned in section 210(d)(1)(B)(ii) of WRDA 1986.

WRRDA Section 1039.—In lieu of Senate report direction, the agreement includes funding in the Construction account.

WRRDA Section 4001.—The Congress has made clear its intent that the Susquehanna, Delaware, and Potomac River Basin Commissions be supported, and the Corps is encouraged to budget accordingly.

Western Drought Contingency Plans.—The Corps of Engineers carries out water control management activities for Corps of Engineers and non-Corps of Engineers projects as required by federal laws and directives. These activities are governed by the establishment of water control plans. Many of these plans and manuals were developed decades ago and are required to be revised as necessary to conform to changing requirements. Continuous examination of regulation schedules and possible need for storage reallocation within existing authority and constraints would be beneficial, with emphasis placed on evaluating current or anticipated conditions that could require deviation from normal release schedules as part of drought contingency plans.

Not later than 90 days after the enactment of this Act, the Secretary shall provide to the Committees on Appropriations of both Houses of Congress a report including the following information for any western State under a gubernatorial drought declaration during water year 2015: (1) a list of Corps of Engineers and non-Corps of Engineers (section 7 of the 1944 Flood Control Act) projects that have a Corps of Engineers developed water control plan; (2) the year the original water control manual was approved; (3) the year for any subsequent revisions to the project's water control plan and manual; (4) a list of projects where operational deviations for drought contingency have been requested and the status of the request; (5) how water conservation and water quality improvements were addressed; (6) a list of projects where permanent changes to storage allocations have been requested and the status of the request.

Dredged Material Disposal.—In lieu of direction included in the House report, the agreement includes direction on dredged material disposal policy in the Expenses account.

Disposal of Dredged Material.—In lieu of direction included in the Senate report, the agreement includes legislative language regarding certain dredged material activities.

Monitoring Requirement.—The agreement does not include Senate report direction regarding a monitoring requirement.

REGULATORY PROGRAM

The agreement includes \$200,000,000 for the Regulatory Program.

FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The agreement includes \$112,000,000 for the Formerly Utilized Sites Remedial Action Program.

FLOOD CONTROL AND COASTAL EMERGENCIES

The agreement includes \$28,000,000 for Flood Control and Coastal Emergencies.

EXPENSES

The agreement includes \$179,000,000 for Expenses.

Dredged Material Disposal.—The Corps of Engineers Headquarters, in conjunction with the Office of the Assistant Secretary of the Army for Civil Works, are responsible for promulgating national policy. As directed in the House report under Operation and Maintenance, the Corps and the Secretary shall undertake a review of existing policies related to dredged material disposal given changing circumstances. This review is not intended to be a study, rather a review of existing policy to determine if it continues to serve the national interest.

Public-Private Partnership Program.—There is strong support in Congress for the public-private partnership (P3) program authorized in section 5014 of WRRDA 2014. As part of its Civil Works Transformation initiative, the Corps has been discussing for several years the idea of public-private partnerships as a project delivery tool to help sustain the performance of existing infrastructure and construct new infrastructure more quickly. Water resource projects are different from more traditional P3 projects in key ways, however, and these issues need to be addressed before a P3 program could be viable. The Corps is directed to submit to the Committees on Appropriations of both Houses of Congress not later than 45 days after the enactment of this Act a report detailing any work to date on developing public-private partnerships generally (including public-public-private partnerships or P4s) and on implementing section 5014 specifically (including a schedule for issuing implementation guidance). The report also shall include a list of any P3 or P4 demonstration projects being evaluated and a detailed description of the goals, advances, and remaining challenges for each such demonstration project. The Corps of Engineers should demonstrate the value of projects that use a Partnership model and should select at least one project identified in the report required above as a new construction start.

In addition to the report required above, the Secretary is directed to develop a policy on how proposals for public-private partnerships will be considered by the Corps and how these partnerships will be incorporated into the budget policy.

OFFICE OF THE ASSISTANT SECRETARY OF THE ARMY FOR CIVIL WORKS

The agreement includes \$4,750,000 for the Office of the Assistant Secretary of the Army for Civil Works. The agreement includes leg-

islative language that restricts the availability of funding until the Secretary submits a work plan that allocates at least 95 percent of the additional funding provided in each account (i.e., 95 percent of additional funding provided in Investigations, 95 percent of additional funding provided in Construction, etc.). This restriction shall not affect the roles and responsibilities established in previous fiscal years of the Office of the Assistant Secretary of the Army for Civil Works, the Corps headquarters, the Corps field operating agencies, or any other executive branch agency.

Water Supply Storage.—The Water Resources Development Act (WRDA) of 1986 changed the method of pricing water supply storage at Corps of Engineers projects for only those contracts signed after enactment. Pre-existing contracts remained under the terms of the Water Supply Act of 1958, as amended in 1961. The Secretary is directed to provide to the Committees on Appropriations of both Houses of Congress not later than 180 days after the enactment of this Act a recommendation on whether the terms of the WRDA 1986 should be extended to all water supply storage contracts. The recommendation shall be accompanied by an assessment of a representative sample of pre-WRDA 1986 water supply storage contracts, including impacts to water users and to the federal treasury.

GENERAL PROVISIONS—CORPS OF ENGINEERS—CIVIL

(INCLUDING TRANSFER OF FUNDS)

The agreement includes a provision relating to reprogramming.

Central Valley Project, Friant Division, San Joaquin River Restoration.—The agreement does not include a separate account for this item. Funding is included in the Water and Related Resources account as a separate line item under the Friant Division of the Central Valley Project.

Safety of Dams Act of 1978.—The agreement does not include Senate report language regarding the Safety of Dams Act of 1978.

Additional Funding for Water and Related Resources Work.—The agreement includes funds in addition to the budget request for Water and Related Resources studies, projects, and activities. Priority in allocating these funds should be given to advance and complete ongoing work, including preconstruction activities and where environmental compliance has been completed; improve water supply reliability; improve water deliveries; enhance national, regional, or local economic development; promote job growth; advance tribal and nontribal water settlement studies and activities; or address critical backlog maintenance and rehabilitation activities. Funding provided under the heading “Western Drought Response” may be allocated to any authorized purpose, but shall be allocated to those activities that will have the most direct, most immediate, and largest impact on extending limited water supplies during current drought conditions. Reclamation is encouraged to use all available authorities to provide for additional water supplies through conservation, minor changes to the operations of existing projects, drilling emergency wells, or other means authorized under current law. This additional funding may be used alone or in combination with any other funding provided in a program, project, or activity. Not later than 45 days after the enactment of this Act, Reclamation shall provide to the Committees on Appropriations of both Houses of Congress a report delineating how these funds are to be distributed, in which phase the work is to be accomplished, and an explanation of the criteria and rankings used to justify each allocation.

Indian Water Rights Settlements.—The agreement includes funds for these activities in the Water and Related Resources account, instead of in a separate account as proposed in the budget request. To maintain the visibility of these projects, the agreement includes the four projects under the Regional Programs heading with a sub-heading called Indian Water Rights Settlements.

WaterSMART Program.—The agreement recommends that grants funded under the WaterSMART Program have a near-term impact on water conservation and improved water management. Reclamation is urged to prioritize funding for projects in regions most stricken by drought.

Rural Water.—Voluntary funding in excess of legally required cost shares for rural water projects is acceptable, but shall not be used by Reclamation as a criterion for allocating additional funding provided in this agreement or for budgeting in future years.

Buried Metallic Water Pipe.—The agreement includes Senate report direction on buried metallic water pipe.

CENTRAL VALLEY PROJECT RESTORATION FUND

The agreement provides \$49,528,000 for the Central Valley Project Restoration Fund.

CALIFORNIA BAY-DELTA RESTORATION
(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$37,000,000 for the California Bay-Delta Restoration Program.

POLICY AND ADMINISTRATION

The agreement provides \$59,500,000 for Policy and Administration. The agreement includes \$1,000,000 for Reclamation to contract with one of the Department of Energy's national laboratories with expertise in materials and corrosion disciplines to develop performance data for zinc-coated ductile iron pipe applications in highly- or severely-corrosive soils. The laboratory shall then evaluate and recommend, based on such performance data and any other relevant data or information the laboratory may obtain—and without the input, involvement, or oversight by the Bureau of Reclamation—whether the material meets the corrosion protection requirements in the Bureau of Reclamation's Technical Memorandum 8140-CC-2004-1 "Corrosion Considerations for Buried Metallic Water Pipe". Not later than September 30, 2016, the laboratory shall report its findings and recommendations directly to the Committees on Appropriations of both Houses of Congress without prior review by the Bureau of Reclamation. The laboratory shall ensure all business-sensitive data is protected as part of this evaluation.

ADMINISTRATIVE PROVISION

The agreement includes a provision limiting the Bureau of Reclamation to purchase not more than five passenger vehicles for replacement only.

GENERAL PROVISIONS—DEPARTMENT OF THE INTERIOR

The agreement includes a provision outlining the circumstances under which the Bureau of Reclamation may reprogram funds.

The agreement includes a provision regarding the San Luis Unit and Kesterson Reservoir in California.

The agreement includes a provision regarding the Reclamation Safety of Dams Act of 1978.

The agreement includes a provision regarding the Reclamation Safety of Dams Act of 1978.

In lieu of the Senate report, the agreement includes a provision regarding completion of certain feasibility studies.

The agreement includes a provision regarding an authorization of appropriations under the Secure Water Act of 2009.

The agreement includes a provision extending authorization of the Calfed Bay-Delta Authorization Act.

TITLE III—DEPARTMENT OF ENERGY

The agreement provides \$29,717,278,000 for the Department of Energy to fund programs in its primary mission areas of science, energy, environment, and national security.

Technology Transfer.—The Office of Technology Transitions is encouraged to treat the applied research offices equitably when utilizing funds to assist the transfer of federally funded research into

the commercial sector. The Department is directed to submit to the Committees on Appropriations of both Houses of Congress not later than 180 days after the enactment of this Act a report on the activities of the Office of Technology Transitions and provide a table tracking the usage of the Energy Technology Commercialization Fund to specific technology transfer and partnership activities.

Educational Activities.—The Department is prohibited from funding fellowship and scholarship programs in fiscal year 2016 unless the programs were explicitly included in the budget justification or funded within this agreement.

Residential Furnaces.—The Department is urged to take into account different climate zones and consider impacts to rural communities in its continued talks with key stakeholders as it amends energy conservation standards for residential furnaces.

Consolidated Emergency Operations Center.—The agreement provides no funding for planning or construction of the Consolidated Emergency Operations Center. The Department shall assign responsibility for a Consolidated Emergency Operations Center to the Office of the Undersecretary for Management and Performance and is directed to submit proposed funding requirements and any authorizations needed to move forward with planning and construction of the Consolidated Emergency Operations Center as part of its fiscal year 2017 budget request.

REPROGRAMMING REQUIREMENTS

The agreement carries the Department's reprogramming authority in statute to ensure that the Department carries out its programs consistent with congressional direction. The Department should, when possible, submit consolidated, cumulative notifications to the Committees on Appropriations of both Houses of Congress.

Definition.—A reprogramming includes the reallocation of funds from one program, project, or activity to another within an appropriation. For construction projects, a reprogramming constitutes the reallocation of funds from one construction project to another project or a change of \$2,000,000 or 10 percent, whichever is less, in the scope of an approved project.

ENERGY PROGRAMS

ENERGY EFFICIENCY AND RENEWABLE ENERGY

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$2,073,000,000 for Energy Efficiency and Renewable Energy (EERE). The agreement includes a provision that authorizes the transfer of up to \$45,000,000 to the Defense Production Act Fund.

The Department is encouraged to examine the feasibility of implementing high throughput combinatorial experimentation (HTCE), to advance materials and device development in hydrogen and fuel cells, vehicle lightweighting, solar and building technologies and other areas of the EERE office portfolio that may benefit from acceleration or breadth of exploration afforded by HTCE.

The Department is directed to end the practice of taking a small fraction of annual funding within EERE technology offices to fund incubator programs.

SUSTAINABLE TRANSPORTATION

Vehicle Technologies.—Within available funds, the agreement provides \$20,000,000 for the SuperTruck II program to further improve the efficiency of heavy-duty class 8 long- and regional-haul vehicles. The Department is directed to make up to four awards using the multi-year allocation process that was used successfully by the SuperTruck I program. Within available funds, the agreement provides \$10,000,000 for continued funding of section 131 of the Energy Independence and Security Act of 2007 for transportation electrification. The agreement provides no direction for funding to support competitive demonstrations of energy storage using electric vehicle batteries. Small Refinery Exemption.—Under section 211(o)(9)(B) of the Clean Air Act, a small refinery may petition the Environmental Protection Agency (EPA) Administrator for an exemption from the Renewable Fuel Standard (RFS) on the basis that the refinery experiences a disproportionate economic hardship under the RFS. When evaluating a petition, the Administrator consults with the Secretary of Energy to determine whether disproportionate economic hardship exists. According to the Department's March 2011 Small Refinery Exemption Study, disproportionate economic hard-

ship must encompass two broad components: a high cost of compliance relative to the industry average disproportionate impacts and an effect sufficient to cause a significant impairment of the refinery operations viability.

If the Secretary finds that either of these two components exists, the Secretary is directed to recommend to the EPA Administrator a 50 percent waiver of RFS requirements for the petitioner. The Secretary is also directed to seek small refinery comment before making changes to its scoring metrics for small refinery petitions for RFS waivers and to notify the Committees on Appropriations of both Houses of Congress prior to making any final changes to scoring metrics.

The conference report accompanying the Energy and Water Development and Related Agencies Appropriations Act, 2010, addressed similar issues and directed the Secretary to redo an earlier study done to evaluate whether the RFS program imposes a disproportionate economic hardship on small refineries. In calling for the Secretary to redo the study, the conference report cited the lack of small refinery input into the earlier study, concerns about regional RFS compliance cost disparities, small refinery dependence on the purchase of renewable fuel credits (RINs), and increasing RIN costs. Since then, the dramatic rise in RIN prices has amplified RFS compliance and competitive disparities, especially where unique regional factors exist, including high diesel demand, no export access, and limited biodiesel infrastructure and production. In response to recent petitions, the Secretary determined that the RFS program would impose a disproportionate economic and structural impact on several small refineries. Despite this determination, the Secretary did not recommend, and EPA did not provide, any RFS relief because it determined the refineries were profitable enough to afford the cost of RFS compliance without substantially impacting their viability. The Secretary is reminded that the RFS program may impose a disproportionate economic hardship on a small refinery even if the refinery makes enough profit to cover the cost of complying with the program. Small refinery profitability does not justify a disproportionate regulatory burden where Congress has explicitly given EPA authority, in consultation with the Secretary, to reduce or eliminate this burden.

TITLE IV—INDEPENDENT AGENCIES

APPALACHIAN REGIONAL COMMISSION

The agreement provides \$146,000,000 for the Appalachian Regional Commission (ARC). To diversify and enhance regional business development, \$10,000,000 is provided to continue the program of high-speed broadband deployment in distressed counties within the Central Appalachian region that have been most negatively impacted by the downturn in the coal industry. This funding shall be in addition to the 30 percent directed to distressed counties.

Within available funds, \$16,000,000 is recommended for the workforce development program in Southern Appalachia focused primarily on the automotive supplier sector and the aviation sector in South Central Appalachia, with up to \$13,500,000 of that amount to be available for work in Southern Appalachia. The funds shall be distributed according to ARC's Distressed Counties Formula, which includes land area, population estimates, and the number of distressed counties.

Within available funds, \$50,000,000 is provided for the POWER Plus Plan.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD

SALARIES AND EXPENSES

The agreement provides \$29,150,000 for the Defense Nuclear Facilities Safety Board. The agreement does not include additional funding for an evaluation of radioactive liquid waste infrastructure and includes no reporting requirement as in the House report.

DELTA REGIONAL AUTHORITY

SALARIES AND EXPENSES

The agreement provides \$25,000,000 for the Delta Regional Authority. Within available funds, not less than \$10,000,000 shall be used for flood control, basic infrastructure development, and transportation improvements and shall be in addition to the State formula funding allocations. The Federal co-chairman, in consultation with State Governors, shall distribute funding to States and public and nonprofit entities for projects that will benefit rural communities with the greatest infrastructure needs.

DENALI COMMISSION

The agreement provides \$11,000,000 for the Denali Commission.

NORTHERN BORDER REGIONAL COMMISSION

The agreement provides \$7,500,000 for the Northern Border Regional Commission.

SOUTHEAST CRESCENT REGIONAL COMMISSION

The agreement provides \$250,000 for the Southeast Crescent Regional Commission.

NUCLEAR REGULATORY COMMISSION

SALARIES AND EXPENSES

The agreement provides \$990,000,000 for Nuclear Regulatory Commission (NRC) salaries and expenses. This amount is offset by estimated revenues of \$872,864,000, resulting in a net appropriation of \$117,136,000. The Commission's mission is to ensure the safety and security of the nation's use of nuclear power and nuclear materials and protect the workers and public who use and benefit from these materials and facilities. Within the changes to the Commission's staffing and budget proposed by Project Aim, the safety and security of the reactor fleet must remain at the forefront. The Commission is expected to explain such staffing and budgeting changes within the context of protecting public health and ensuring the safety of facilities over the long term.

The agreement includes four new control points to provide additional transparency to the Commission's budget execution process: Nuclear Reactor Safety; Integrated University Program; Nuclear Materials and Waste Safety; and Decommissioning and Low-Level Waste. Section 402 provides new reprogramming authority to the Commission between the accounts, subject to prior congressional approval, with a provision made for emergency circumstances. This reprogramming authority supersedes the Commission's existing guidance on internal reprogrammings.

The agreement includes the following direction in lieu of all direction included in the House and Senate reports:

Nuclear Reactor Safety.—The agreement includes \$760,021,000 for Nuclear Reactor Safety, including not more than \$258,319,000 for corporate support. This account includes the Commission's Operating Reactors and New Reactors business lines. The agreement provides \$30,119,000 less than the budget request in order to accelerate the "right-sizing" proposed by the Project Aim report. Within available funds, the Commission shall continue to address and resolve safety significant issues and ensure that the operating reactor licensing backlog is eliminated by the NRC goal of fiscal year 2017. The bill fully funds licensing activities associated with awards made under the Department of Energy's Small Modular Reactor Licensing Technical Support program. The Commission is directed to report any transfer of more than \$500,000 across business lines, as identified in the budget request to the Committees on Appropriations of both Houses of Congress, as soon as practicable but not later than two weeks after the transfer is made.

Integrated University Program.—The agreement includes \$15,000,000 for the Integrated University Program. Not less than \$5,000,000 of this amount is to be used for grants to support research projects that do not align with programmatic missions but are critical to maintaining the discipline of nuclear science and engineering.

Nuclear Materials and Waste Safety.—The agreement includes \$172,018,000 for Nuclear Materials and Waste Safety, including not more than \$58,360,000 for corporate support. Included within this control point are the Fuel Facilities, Nuclear Material Users, and Spent Fuel Storage and Transportation business lines.

Decommissioning and Low-Level Waste.—The agreement includes \$42,961,000 for Decommissioning and Low-Level Waste, including not more than \$14,557,000 for corporate support.

Rulemaking.—The authority to compel and bind private entities and individuals to certain actions is a significant authority under the law. In light of this, the Commission itself shall decide whether to initiate rulemaking or the development of regulatory analyses to advance new regulatory requirements in all cases involving the commitment of resources. The Commission's decisions regarding whether to initiate rulemaking should be informed, in each instance, by a rulemaking plan that allows the Commission to assess the existing regulatory framework, assess the cumulative effects of regulation, and ensure that the benefits of the rulemaking outweigh the costs. In light of those goals, rulemaking shall be informed by a rulemaking plan that includes at a minimum the following components: the regulatory issue; the existing regulatory framework; an explanation of why rulemaking is the preferred solution to include a review of the options and alternatives; and a description of the rulemaking that includes the scope, preliminary backfit analysis, an estimated schedule, a preliminary recommendation on priority, and an estimate of resources.

The Commission shall submit to the Committees on Appropriations of both Houses of Congress a plan for instituting this approach not later than March 1, 2016. The plan shall include a discussion of the roles of the Advisory Committee on Reactor Safeguards and the Committee to Review Generic Requirements. The Commission may exempt rulemakings that are routine in nature or do not raise a question of policy from the requirement of a rulemaking plan, and shall provide, as part of its report, a clear description of how those exemptions will be determined. The report shall also include a description of how the Commission will annually review the prioritization of all rulemaking as part of the budget process.

The Commission is further directed to provide to the Committees on Appropriations of both Houses of Congress, not later than 30 days after the enactment of this Act, a report that includes a general description and status of each proposed rule that is currently pending before the Commission, including the date on which the proposed rule was docketed. The Commission shall list all rulemaking activities planned, to include their priority and schedule, in the annual budget request and the semi-annual report to Congress on licensing and regulatory activities.

Reporting.—To monitor the Commission's progress against its licensing goals and right-sizing commitments, a report shall be submitted to the Committees on Appropriations of both Houses of Congress by March 1, 2016, and quarterly thereafter for fiscal year 2016 that includes:

- the on-board strength of full-time equivalent employees, including any identified areas of critical skill shortages and targeted hiring strategies against these shortage areas;
- the actions taken to right-size the NRC in accordance with the recommendations of the Project Aim report, to include rebaselining assumptions and projection of FTEs and required budget authority;

- the progress to eliminate the backlog of pending licensing actions in the Office of Nuclear Reactor Regulation by 2017; and
- the progress to complete the licensing reviews of pending reactor license renewal applications (power and research reactors), combined license applications, early site permit applications, design certification applications, and uranium recovery applications (initial and renewal) against currently projected schedules.

Project Aim.—The NRC must be able to effectively and efficiently forecast its future workforce and resource needs and adapt its workforce and resource allocations accordingly so that the agency has the right number of staff with the right skills at the right time in the context of ensuring the safety and security of nuclear power facilities and nuclear materials. Although Project Aim intends to move the agency in the right direction, the Committees are not satisfied with the NRC’s explanation of the basis for those projections nor with its plan for execution. Accordingly, not later than one year after the enactment of this Act, the Comptroller General shall report to the Committees on Appropriations of both Houses of Congress on the following issues: (1) how did NRC determine its workload forecast and to what extent was NRC’s process for developing its workload forecast consistent with best practices; (2) how does NRC’s current workforce and resource allocation compare with its forecasts; (3) what are the challenges NRC faces in adapting its current workforce and resource allocation to meet its forecasts, and what actions has NRC taken to address those challenges; (4) what actions has NRC taken or does it plan to take to implement the recommendations of the Project Aim report; and (5) to what extent are NRC’s actions and plans consistent with best practices for agency transformation. The Comptroller General may address any additional questions as appropriate to ensure adequate coverage of the issues related to NRC’s Project Aim and related efforts.

Budget Justification.—The NRC shall continue to include a breakout and explanation of the Commission’s salaries and expenses in its annual budget request. The Commission may change the composition of the funds through a reprogramming. The Commission shall provide previous fiscal year data at the enacted level and identify separately, and by control point, any carryover balances that were obligated. The Commission shall carry over unobligated balances at the minimum amount necessary for efficient mission execution and ensure that any rule or other requirement for collection of revenue or fees is calculated accordingly.

The NRC’s budget presentation lacks transparency and some key information needed for the Committees on Appropriations. Improvements in NRC’s budget allocation and presentation process are needed and can lead to better budget justifications to the Congress. Therefore, the Comptroller General is directed to also examine key issues related to NRC’s budget allocation process and strategy for undertaking its work: (1) what information does NRC use in its budget formulation process and what are the implications of the process; (2) to what extent are the NRC’s budget justification materials presented so that agency priorities are clear and the proposed use of funds transparent; and (3) what changes could be made to improve the NRC’s budget presentation.

Subsequent License Renewal.—The Commission’s development of the necessary detailed regulatory guidance to address anticipated applications for subsequent license renewal of nuclear power reactors, the earliest of which may be submitted in 2018, is proceeding at a disappointingly slow rate. The Commission affirmed the adequacy of its current regulations for this task nearly two years ago. In light of larger uncertainties regarding planning for the electricity generating portfolio of this nation, the need for the Commission to finish and publish the requisite regulatory guidance documents is more urgent than ever. The Commission shall submit to the Committees on Appropriations of both Houses of Congress by March 15, 2016, a plan and timetable for completing the remaining activities necessary to accept, docket, and support the review of the first application for subsequent license review.

OFFICE OF INSPECTOR GENERAL

The agreement includes \$12,136,000 for the Office of Inspector General in the Nuclear Regulatory Commission. This amount is offset by revenues of \$10,060,000, for a net appropriation of \$2,076,000.

The agreement includes \$958,000 to provide Inspector General services for the Defense Nuclear Facilities Safety Board.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

SALARIES AND EXPENSES

The agreement provides \$3,600,000 for the Nuclear Waste Technical Review Board.

GENERAL PROVISIONS—INDEPENDENT AGENCIES

The agreement includes a provision instructing the Nuclear Regulatory Commission on responding to congressional requests for information.

The agreement includes a provision relating to reprogramming.

The agreement includes a provision relating to authorities provided within division A of section 101(g) of Public Law 105–277.

TITLE V—GENERAL PROVISIONS

The agreement includes a provision relating to lobbying restrictions.

The agreement includes a provision relating to transfer authority. No additional transfer authority is implied or conveyed by this provision. For the purposes of this provision, the term “transfer” shall mean the shifting of all or part of the budget authority in one account to another. In addition to transfers provided in this Act or other appropriations Acts, and existing authorities, such as the Economy Act (31 U.S.C. 1535), by which one part of the United States Government may provide goods or services to another part, the Act allows transfers using Section 4705 of the Atomic Energy Defense Act (50 U.S.C. 2745) and 15 U.S.C. 638 regarding SBIR/STTR.

The agreement includes a provision prohibiting funds to be used in contravention of the executive order entitled “Federal Actions to

Address Environmental Justice in Minority Populations and Low-Income Populations.”

Budget Briefing.—Given the need for transparency and accountability in the Federal budgeting process, and that the Bureau of Consumer Financial Protection's budget is funded independently of the annual appropriations spending bills, the Bureau is directed to provide an informal, nonpublic full briefing at least annually before the relevant subcommittee of the Committees on Appropriations of the House and Senate on the Bureau's finances and expenditures. On January 30, 2015, the President issued Executive Order 13690 establishing a new Federal Flood Risk Management Standard and amending Executive Order 11988 (Floodplain Management). The Committees have heard numerous concerns about the new standard from many potentially affected stakeholders. These concerns include the process by which the standard was developed, the lack of clarity as to which specific programs and activities will be affected, and the uncertainty related to how each agency will implement the new standard. Further, the Committees remain frustrated with the quality of the responses from the executive branch on this issue. Therefore, the agreement includes language to clarify which specific programs will be affected and to reduce the uncertainty related to how each agency will implement the new standard. The Committees continue to encourage the executive branch to demonstrate to the Committees that stakeholder concerns have been addressed.

Section 751 declares references to "this Act" contained in any title other than title IV or VIII shall not apply to such titles IV or VIII.

DIVISION F—DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2016

Funding provided in this Act not only sustains existing programs that protect the nation from all manner of threats, it ensures the ability of the Department of Homeland Security (DHS) to address evolving challenges like those witnessed in recent events around the world. IMMEDIATE OFFICE OF THE SECRETARY

EXCESSIVE USE OF ADMINISTRATIVE LEAVE

In October 2014, GAO issued report GAO–15–79, which highlighted federal agencies’ excessive use of paid administrative leave related to personnel matters such as discipline, fitness for duty, and security clearances. Following that report, DHS released statistics showing 109 employees had been on paid administrative leave for more than one year during the period of fiscal years 2011 through 2015. Since the report, DHS issued a new policy to address the problem, including requiring reporting and executive approval at certain thresholds. The Department shall update the Committees monthly on its statistics regarding the use of paid administrative leave for all periods beyond one month. DHS is expected to ensure that due process required by law is provided to all employees, including timely investigation and resolution of allegations and issues.

JOINT REQUIREMENTS COUNCIL

With regard to direction in the House and Senate reports, the Department shall provide quarterly briefings, beginning not later than January 30, 2016, on results achieved through the Joint Re-

quirements Council (JRC) to improve and leverage joint requirements across DHS components.

INTEGRATED PRODUCT TEAMS AND TECHNOLOGY ASSESSMENTS

The Department lacks a mechanism for capturing and understanding research and development (R&D) activities conducted across DHS, as well as coordinating R&D to reflect departmental priorities. As part of the Unity of Effort initiative and in order to address the above concerns, DHS is establishing Integrated Product Teams (IPTs) to assist the Science and Technology Directorate (S&T) with requirements gathering, validation, and alignment of budgetary resources. IPTs, comprised of personnel from across DHS, will be tasked with identifying and prioritizing technological capability gaps and coordinating departmental R&D to close those gaps. The overall IPT effort will be led by the Under Secretary for S&T, but individual IPTs will be led by senior representatives from the operational components, and will have representation from the JRC Portfolio Teams and S&T.

S&T will also play a critical role in helping DHS-wide acquisition programs by conducting independent technical assessments of acquisitions, including participation in developmental test and evaluation activities, to ensure DHS acquisitions effectively fill identified capability gaps. S&T is directed to brief the Committees not later than January 15, 2016, on the results of the first IPTs and technology assessments.

SOUTHERN BORDER AND APPROACHES CAMPAIGN

The Southern Border and Approaches Campaign is the first concerted effort at DHS to leverage the Department's assets and capabilities in a unified manner to achieve specific goals through the creation of Joint Task Forces (JTFs). At the same time, the campaign is still in its nascent phase, and has yet to document significant results from the JTFs. The Department shall brief the Committees quarterly on campaign metrics, the activities of the JTFs, and the cost, including personnel, of operating them.

WILDLIFE TRAFFICKING

Not later than 120 days after the date of enactment of this Act, the Secretary is directed to update the report required by Senate Report 113-198 regarding DHS activities related to wildlife trafficking and the illegal natural resources trade.

UNIVERSAL COMPLAINT SYSTEM

In lieu of the Senate reporting requirement, DHS is reminded of the fiscal year 2015 reporting requirement on a universal complaint system and shall brief the Committees expeditiously on this overdue report.

SUPPORT OF STATE POLICE CRIME LABS

The Department of Homeland Security's enforcement, investigation, and security agencies lead many of the federal government's counter-narcotics and law enforcement efforts. The collective work of U.S. Customs and Border Protection (CBP), U.S. Immigration

and Customs Enforcement (ICE), the Coast Guard, and the United States Secret Service includes investigations and operations in communities large and small across our nation. As a result, the Department often works closely with and shares capabilities among state, local, tribal, and foreign law enforcement agencies, including state police crime labs. These labs provide the Department with a number of critical capabilities, including fingerprint, drug, and cell phone analysis. Likewise, agencies of the Department provide many of the same services to state, local, tribal, and foreign law enforcement agencies.

Coordination among federal and state law enforcement agencies not only ensures efficient use of resources, it also improves public safety outcomes. To that end, the Department should continue to work with state crime labs where available, particularly in areas not served by DHS labs or other similar federal facilities. The Department should also continue to provide whatever assistance appropriate to state police crime labs to ensure federal requirements do not burden state resources. Moreover, for areas where the Department frequently relies on state crime labs, additional support may be appropriate to prevent the accumulation of backlogs that can slow federal and state investigations. DHS shall report annually on its use of and partnerships with state crime labs, including the funds associated with such partnerships, and should fully reimburse state crime labs it uses.

RESPONDING TO EMERGENT THREATS FROM VIOLENT EXTREMISM

A general provision in title V of this Act provides \$50,000,000 for emergent threats from violent extremism and from complex, coordinated terrorist attacks, and allows the Secretary to transfer such funds between appropriations after notifying the Committees 15 days in advance. Within these funds, not more than \$10,000,000 is for a countering violent extremism (CVE) initiative to help states and local communities prepare for, prevent, and respond to emergent threats from violent extremism; not less than \$39,000,000 is for an initiative to help states and local governments prepare for, prevent, and respond to complex, coordinated terrorist attacks with the potential for mass casualties and infrastructure damage; and not less than \$1,000,000 shall be for expanding or enhancing the Joint Counterterrorism Awareness Workshop Series, which brings together federal, state, and local governments, and the private sector to help regions improve their counterterrorism preparedness posture, including the ability to address the threat of complex terrorist attacks.

All funds under the CVE initiative shall be provided on a competitive basis directly to states, local governments, tribal governments, nonprofit organizations, or institutions of higher education. Eligible activities for the CVE initiative shall include, but not be limited to, planning, developing, implementing, or expanding educational outreach, community engagement, social service programs, training, and exercises, as well as other activities as the Secretary determines appropriate. Existing programs should be utilized wherever practical. Eligible activities for the initiative related to complex coordinated terrorist attacks shall include, but not be limited to, planning, training and exercises to support plans, and other ac-

tivities the Secretary determines appropriate, consistent with this statement.

Not later than 45 days after the date of enactment of this Act, the Department shall brief the Committees on plans for execution of the initiatives, to include timelines, goals, metrics, and how the Whole of Community will be included.

OFFICE OF POLICY

POLITICAL TRAVEL

The House directive to report on travel by political employees is no longer required.

IMMIGRATION STATISTICS

The Office of Policy is directed to continue developing and overseeing the implementation of a plan to collect, analyze, and report appropriate data on the Department's immigration enforcement activities. The plan should include steps to ensure the completeness and accuracy of data on the full scope of immigration enforcement activities, from encounter to final disposition, including the use of prosecutorial discretion. All data necessary to support a better picture of this lifecycle and the Department's effectiveness in enforcing immigration laws shall be considered and prioritized, including appropriate data collected by the Executive Office for Immigration Review at the Department of Justice and the Office of Refugee Resettlement at the Department of Health and Human Services. The plan should result in a consistent set of outcome-based metrics related to immigration enforcement, beyond only apprehensions and removals, which can be regularly and publicly released. Not later than 90 days after the date of enactment of this Act, the Office of Policy, with all the relevant components, is directed to brief the Committees on this plan and a schedule for implementation. The Department is also directed to brief the Committees quarterly on progress in implementing the plan.

BORDER SECURITY METRICS

The Office of Policy is directed to coordinate with relevant components to finalize metrics that inform an outcome-based approach to border security performance management and domain awareness. These metrics shall contribute to more analytically-sound decision making across the Department, including decisions on resource allocations and mission management; measuring the flow and level of illegal entry of people and goods, delineated by threat level; and utilizing all situational awareness capabilities to form a measured operational picture. Specific metrics shall include but not be limited to those detailed in the House report, as well as survey and historical data, and be assessed against operations and strategic requirements for improving border and pathway awareness. DHS shall brief the Committees on this initiative not later than 90 days after the date of enactment of this Act.

REAL ID

As stated in the Senate report, the Department should continue efforts to implement the REAL ID program, and to use the law's

extension provision, which gives the Secretary discretion to grant states additional time to meet the required minimum standards if the state provides adequate justification for noncompliance and plans for implementing unmet requirements. States should have the opportunity to consider and debate methods of compliance consistent with their individual values and traditions, without sanction.

OFFICE OF PARTNERSHIP AND ENGAGEMENT

A total of \$13,074,000 is provided for the Office of Partnership and Engagement, which includes an increase of \$3,108,000 for the Office for Community Partnerships (OCP). OCP, created to support the mission of countering violent extremism and to build community partnerships necessary to support CVE efforts, is directed to provide a detailed description of department-wide CVE programs and initiatives not later than 60 days after the date of enactment of this Act, as detailed in the House report.

OFFICE OF THE UNDER SECRETARY FOR MANAGEMENT

A total of \$196,810,000 is provided for the Office of the Under Secretary for Management (USM). Of this amount, \$2,000 is for official reception and representation expenses, and \$7,778,000 is for the Human Resources Information Technology program. The bill includes \$215,679,000 for the Department’s headquarters consolidation at St. Elizabeths, including funds for reconfiguring space in the Munro Building to accommodate other DHS components. As directed in the bill, DHS is to submit a plan of expenditure for these funds to the Committees not later than 90 days after the date of enactment of this Act.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Immediate Office of the Under Secretary for Management	\$3,411,000	\$3,393,000

COMPREHENSIVE ACQUISITION STATUS REPORT

As directed by the Senate, the Comprehensive Acquisition Status Report (CASR) shall be submitted with justification documents accompanying the President’s budget proposal for fiscal year 2017, and shall meet the requirements delineated in House Report 112–331. In accordance with the House report, programs shall be dis-

played by appropriation and PPA. Guidance in the House report requiring the USM, who also serves as the DHS Chief Acquisition Officer, to brief the Committees on Level 1, 2, and 3 programs is modified to require briefings on only Level 1, Level 2, and special interest projects within 30 days of delivery of the CASR. Component Acquisition Executives are directed to brief the Committees on Level 3 projects within 30 days of delivery of the CASR.

OFFICE OF PROGRAM ACCOUNTABILITY AND RISK MANAGEMENT

In lieu of direction in the House report, the Executive Director of the Office of Program Accountability and Risk Management (PARM) shall brief the Committees on every major acquisition program by component on a quarterly basis, beginning not later than April 15, 2016.

INTEROPERABLE COMMUNICATIONS

For years, the Department has known of serious gaps in its interoperable communications capabilities as a result of OIG reports in November 2012 and May 2015, as well as its own internal assessments and direction from Congress. However, DHS has made little progress in addressing those concerns, allowing proposed changes to policies, plans, and governance to languish in bureaucratic review processes. Therefore, the USM is directed to brief the Committees within 90 days after the date of enactment of this Act on the plan and timeline to remedy the operational communications shortfalls with existing communications capabilities. The briefing shall also specifically address how the Department will manage joint communications requirements and procurements to ensure interoperability across the components is sustained.

WEAPONS AND AMMUNITION

The Department shall adhere to statutory weapons and ammunition reporting requirements made permanent in Public Laws 113–76 and 114–4.

PERSONNEL AND HIRING CHALLENGES

The Department continues to struggle to achieve hiring targets and manage attrition, particularly for law enforcement positions. Consistent with direction in both the House and Senate reports, the USM shall complete an analysis of the root causes for DHS's lengthy hiring processes, and utilize its results to develop a corrective action plan to reduce the number of days it takes to hire personnel at each component. Concurrent with this effort, each DHS component, in coordination with the USM, shall develop hiring metrics. In lieu of reporting requirements in the House report, the USM shall provide an update on the corrective action plan and initial hiring metrics to the Committees beginning on January 15, 2016, and provide updated metrics on a monthly basis thereafter until further notice. This requirement is in addition to quarterly execution data discussed under the heading of Office of the Chief Financial Officer (OCFO). Further, as directed in the House report, the Chief Financial Officer (CFO) shall conduct a department-wide force structure analysis to inform component-level staffing and

budget requirements not later than the fiscal year 2019 budget request.

OFFICE OF THE CHIEF SECURITY OFFICER

A total of \$69,120,000 is provided for the Office of the Chief Security Officer. The amount includes an increase of \$2,000,000 for Continuous Evaluation, which monitors an individual's continued eligibility to access classified information or to hold a sensitive position, and \$4,456,000 to address security enhancements at the Nebraska Avenue Complex. In lieu of funds included in the House and Senate bills for security at the St. Elizabeths campus, \$3,376,000 is moved to the Headquarters Consolidation appropriation in title V for mission support related to security services performed by the Federal Protective Service.

OFFICE OF THE CHIEF PROCUREMENT OFFICER

A total of \$60,630,000 is made available for the Office of the Chief Procurement Officer, including an increase of \$2,000,000 for critical personnel needed by PARM.

OFFICE OF THE CHIEF HUMAN CAPITAL OFFICER

A total of \$31,976,000 is provided for the Office of the Chief Human Capital Officer (OCHCO). Of the funds provided, \$2,500,000 is for the CyberSkills Initiative, and \$2,500,000 is to increase assistance to DHS components in managing and improving their hiring processes, including not more than \$350,000 for the DHS Leader Development Program.

OFFICE OF THE CHIEF FINANCIAL OFFICER

A total of \$56,420,000 is provided for OCFO, of which \$3,000,000 shall be used to improve financial management processes and cost estimation capabilities. A general provision included in title V of this Act appropriates \$52,977,000 for Financial Systems Modernization (FSM) activities, enabling the Secretary to allocate resources across the Department according to the FSM program execution plan. By not later than the fiscal year 2018 budget submission, OCFO is directed to deploy across the Department a cost estimating tool that enables each component to accurately calculate the costs of its employees.

COMMON APPROPRIATIONS STRUCTURE

Currently, DHS receives funding through nearly 70 appropriations organized into more than 100 PPAs. The Department has asserted that its Unity of Effort initiative could be strengthened with a more congruent budget structure based on common appropriations categories across components and a reduced overall number of appropriations and PPAs. A general provision proposed in the House bill authorizing DHS to submit the fiscal year 2017 budget request using a common appropriations account structure is included but modified in title V of this Act.

Pursuant to this general provision and in lieu of direction in the House report requiring a Financial Management Regulation, OCFO is directed to enhance the existing Financial Management Policy

Manual to reflect the new appropriations structure, and to strengthen department-wide rules for and oversight of financial management policies, procedures, internal controls, financial systems, and activities necessary to develop budget requests and prepare for audits. Although a thorough and complete update to the manual will take time, OCFO is encouraged to complete the effort by February 2017, so that the fiscal year 2019 budget process is shaped by its rules and its improved planning, programming, budgeting, and execution processes. In addition, OCFO is strongly encouraged to establish a professional development program for DHS-wide financial management and budget formulation staff. Such a program should provide training on financial management policies and processes as well as support the Department in maintaining capable budget analysts and financial managers. OCFO shall provide periodic progress updates on both of these efforts at the request of the Committees.

ANNUAL BUDGET JUSTIFICATION MATERIALS

DHS materials and exhibits that justify the President's budget request are woefully inadequate and undermine the ability of the Committees to conduct routine analysis and oversight of the cost drivers and assumptions underlying the budget request. For fiscal year 2017 and future budget submissions, the CFO shall present budget justification material in a format that adheres to the directives in the Senate report. Justification tables shall compare prior year actual appropriations and obligations, estimates of current year appropriations and obligations, and the projected budget year appropriations and obligations for all PPAs, subprograms, and FTE, as directed in the House report. Justification material for investment items shall be presented in the format directed in the House report.

Any significant new activity that has not been explicitly justified to Congress or for which funds have not been provided in appropriations Acts requires the submission of a reprogramming or transfer request during a fiscal year.

COMPONENT OBLIGATION PLANS

Obligation plans from each DHS component shall be provided to the Committees within 45 days of the date of enactment of this Act, with updates provided not later than 30 days after the end of each quarter. The CFO shall develop a template for these plans that utilizes comparisons of actual prior year obligations with actual current year-to-date and planned current year obligations by PPA. Using this format, the data in the plans shall include: 1) below-threshold reprogrammings, above-threshold reprogrammings, transfers, and any proposed allocation of undistributed appropriations made available in title V of this Act; 2) carryover from the prior year and planned carryover into future years; 3) the actual number of FTE compared to enacted levels by month or pay period along with end of year projections; 4) the actual amount obligated for FTE compared to enacted levels by month or pay period along with end of year projections; 5) the actual number of FTP compared to budget assumptions by month or pay period, along with end of year projections; 6) a summary chart by PPA showing hiring and

payroll projections for the fiscal year, to include both numbers of FTE and associated salary and benefit amounts, as well as planned contract conversions, hiring surges, or other factors that may contribute to uncertainty and lead to revised estimates; and 7) program schedules and major milestones for all major expenditures, including specific technologies and contract service support.

For multi-year appropriations, the template shall also include the status of each appropriation by source year, including anticipated unobligated balances at the close of the fiscal year and the planned obligation of carryover in future years, by quarter, until all funds are obligated. Although this requirement is intended to cover all components and accounts in a standard manner, the Coast Guard, CBP, and other components may have additional requirements related to investment activities as specified by component in this statement. For fiscal year 2017 and future years, obligation plans should be connected to the budget justification materials, indicating all changes from requested amounts to enacted appropriations to actual obligations.

OFFICE OF THE CHIEF INFORMATION OFFICER

A total of \$309,976,000 is provided for the Office of the Chief Information Officer (OCIO), of which \$200,019,000 is available until September 30, 2017.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Salaries and Expenses	\$105,307,000	\$109,957,000
Information Technology Services	106,270,000	91,000,000
Infrastructure and Security Activities	54,087,000	54,087,000
Homeland Secure Data Network	54,932,000	54,932,000
Total, Office of the Chief Information Officer	\$320,596,000	\$309,976,000

In lieu of House and Senate report language, up to \$10,000,000 of the amount for Salaries and Expenses may be used for Digital Services. The amount provided for Information Technology Services shall be used to support requested initiatives, including the DHS Data Framework, Single Sign-on, security initiatives, the Federal Risk and Authorization Management Program, the Trusted Tester Program, and the Infrastructure Transformation Program.

DHS CYBERSECURITY POSTURE

A general provision in title V of this Act provides \$100,000,000 to safeguard and enhance DHS IT systems and improve cybersecurity capabilities. This funding is in addition to base funding made available to the CIO and the components, and is intended to help the Department more quickly address known vulnerabilities and technology gaps through enhancements to the DHS network and perimeter security, better access controls, stronger authentication, equipment upgrades, data loss and theft prevention, and incident response and assessments, among other cybersecurity priorities. Given the Department's role through the National Protection and Programs Directorate (NPPD) for protection of the ".gov" environment, DHS must lead government agencies in protecting its own data and systems. Therefore, the CIO shall utilize a risk-based ap-

proach, using threat intelligence, to optimize the Department's cybersecurity investments and operations. The CIO shall brief the Committees not later than 45 days after the date of enactment of this Act on cybersecurity spending across the Department, the obligation plan associated with this appropriation, and the metrics by which the Department's progress in improving its cybersecurity posture will be measured.

ANALYSIS AND OPERATIONS

A total of \$264,714,000 is provided for Analysis and Operations, of which \$111,021,000 shall remain available until September 30, 2017. The funds provided reflect the realignment of \$135,000 to the Office for Community Partnerships under OSEM. Other funding details are included within the classified annex to this explanatory statement.

OFFICE OF INSPECTOR GENERAL

A total of \$161,488,000 is provided for the OIG, including \$137,488,000 in direct appropriations and \$24,000,000 transferred from the Federal Emergency Management Agency (FEMA) Disaster Relief Fund (DRF) for audits and investigations related to the DRF. Recognizing that the OIG has failed to hire the enacted workforce level over the past few years, the increase provided in this Act above the fiscal year 2015 appropriation level is sufficient to support a robust and capable workforce and provide resources for the requested initiatives outlined in the fiscal year 2016 request.

BIG DATA

The Department, led by the CIO, is developing a strategy for big data to help guide the efforts components have undertaken to more effectively utilize data in support of analytic activities and decision-making. The OIG is directed to review the strategy, inventory component investments in this area, develop recommendations to ensure these investments are coordinated and effective, and update the Committees on its findings not later than 270 days after the date of enactment of this Act.

PROTECTIVE MISSION PANEL

Within 30 days after the date of enactment of this Act, the OIG is directed to conduct a review of the status of the Secret Service's response to the United States Secret Service Protective Mission Panel recommendations, including but not limited to: concurrence with Panel recommendations and subsequent action or implementation; non-concurrence with Panel recommendations and the associated rationale; and any related organizational changes executed after the Panel released its findings.

TITLE II—SECURITY, ENFORCEMENT, AND
INVESTIGATIONS

U.S. CUSTOMS AND BORDER PROTECTION

SALARIES AND EXPENSES

A total of \$8,628,902,000 is provided for Salaries and Expenses. For the last several years, CBP has failed to hire to the enacted workforce level, resulting in tens of millions of dollars appropriated for personnel compensation and benefits being diverted to unbudgeted activities. Therefore, the President's budget request is decreased by \$298,969,000 to fund a realistic and achievable number of FTE. Of the total, \$30,000,000 is made available as two-year funds to provide the flexibility necessary to improve retention and hiring of law enforcement officers and Border Patrol agents. Further, \$30,000,000 carried over from fiscal year 2015 should be used for the same activities.

The amount provided for this appropriation by PPA is as follows:

HEADQUARTERS, MANAGEMENT, AND ADMINISTRATION

A total of \$1,442,014,000 is provided for Headquarters, Management, and Administration. In addition to reductions for a realistic hiring profile and prior year carryover that remains available, a reduction of \$17,455,000 is due to unused separation pay, and an increase of \$5,000,000 is included for the Office of Administration to

accelerate the hiring process. To address personnel shortfalls and hiring, CBP shall work with the Department to complete a root cause analysis and develop a corrective action plan, consistent with direction under title I of this statement. With respect to CBP, this plan shall identify and utilize incentives, working with the Office of Personnel Management (OPM), to improve retention and recruitment in locations along the northern and southern borders that are challenging to staff, as well as incentivize personnel to choose those locations. Moreover, CBP is directed to increase its efforts to recruit veterans, and to work with the Department of Defense (DoD) and OPM to facilitate the onboarding of veterans as they leave military service.

In addition to the briefing and metrics requirements outlined in title I of this statement, CBP shall brief the Committees on actions taken and progress made in reducing hiring timelines and provide staffing numbers, including gains and losses by pay period, as detailed in the House and Senate reports, not later than five days after the end of each fiscal quarter. Additionally, CBP shall brief the Committees, not later than 180 days after the date of enactment of this Act, on the Border Patrol staffing allocation model and how it is utilized to inform resource allocation decisions at the headquarters and sector levels. CBP shall continue to work on outcome-based border metrics, as directed in title I of this statement.

As specified in the House report, CBP is expected to ensure that ports of entry (POEs) and short-term custody facilities holding unaccompanied alien children have appropriately trained staff, and follow all legal requirements and policy directives for conveying information to unaccompanied alien children regarding their legal rights. Also as described in the House report, CBP is directed to provide a briefing to the Committees on its policies related to compliance with the Trafficking Victims Protection Reauthorization Act (Public Law 110-457) and regarding the Juvenile Referral Process. The briefing should specifically address the status of CBP's response to the recommendations in GAO-15-421.

CBP and the USM are directed to review the CBP acquisition process, procedures, and organizational structure and brief the Committees on the findings not later than 120 days after the date of enactment of this Act.

CBP is also directed to brief the Committees, within 90 days of the date of enactment of this Act, on a plan to address staffing needs identified by the Agriculture Resource Allocation Model.

Within 120 days of the date of enactment of this Act, CBP is directed to brief the Committees on its efforts to work with the Texas State Soil and Water Conservation Board; other federal, state, and local stakeholders; and the Government of Mexico on efforts to control carrizo cane and other invasive species along the Rio Grande River that impede CBP's border security mission. The briefing shall include a description of related resource requirements and any efforts pertaining to the approval of new biological control agents.

As directed in both the House and Senate reports, CBP shall improve its automated measurement and public posting of wait times at land border crossings, and also incorporate trade facilitation measures into its public-facing performance metrics. CBP shall brief the Committees quarterly on these efforts until an automated

wait time solution benefitting both travelers and commercial traffic is fully deployed.

As directed in both the House and Senate reports, CBP is expected to continue to improve land border integration by procuring and implementing the latest, most effective technologies available to monitor vehicles crossing our borders.

CBP must ensure that appropriate precautions and processes are in place to prevent smuggling and ensure officer safety at the new West Rail Bypass International Bridge between Brownsville, Texas, and Matamoros, Tamaulipas. Within 90 days of the date of enactment of this Act, CBP shall brief the Committees on its screening and inspection procedures at the West Rail facility; data related to the seizure of contraband and human smuggling; a plan to improve security, effectiveness, and efficiency of inspections; and officer safety measures, including appropriate lighting along railcar inspection areas.

Counter-network operations activities are funded at the request level, although some of the information system improvements included in the request have been subsequently funded through a July 2015 reprogramming of funds approved by the Committees. Within 90 days of the date of enactment of this Act, CBP is directed to brief the Committees on its implementation of the counter-network strategy, a revised plan for the use of the funding provided, and its collaboration with ICE in these efforts. As CBP continues to hire, it is directed to move open positions previously dedicated to current targeting activities to positions dedicated to counter-network operations, as appropriate.

CBP is directed to ensure that independent Capabilities Gap Analysis Processes and staffing requirement modeling carried out by individual CBP components are coordinated and leveraged in a manner that will benefit both the agency's and the Department's analyses of border security and performance management, as detailed in title I of this statement.

A provision from the Senate bill is not included related to Continued Dumping and Subsidy Offset Act (CDSOA) payments. However, the issue remains a concern because CBP continues to disburse the majority of proceeds from antidumping claims in the form of interest to the Treasury, rather than making payments to injured domestic producers, as prescribed in the CDSOA. CBP shall work to issue the rulemaking changes outlined in the Senate report and brief the Committees on its progress every 60 days until the rulemaking is completed. In addition, CBP shall make available to the Committees and the public a reasonably detailed inventory, including disposition, of single-entry customs bonds received by CBP as security on entries subject to any antidumping duty orders on imports of honey, fresh garlic, crawfish tail meat, and certain preserved mushrooms from October 1, 1998, through September 30, 2007. The inventory shall include details on each bond for which summary materials were previously provided to Congress, including the date of the bond, the orders against which the bonds were posted, and whether it is in litigation, pending collection, or not collectible.

According to a recent report from the Centers for Disease Control and Prevention and the Food and Drug Administration, heroin

overdose deaths nearly doubled between 2011 and 2013, and continue to climb. Although no single entity or solution can fully address this complex problem, CBP is instrumental in stopping the flow of heroin from transnational criminal organizations before it crosses our borders. CBP is also playing a role in more directly protecting the public from drug overdoses through a pilot program at seven POEs through which naloxone—a medication that can reverse the effects of heroin overdose and help restore breathing—is administered to individuals presenting themselves for entry at POEs who have symptoms of a heroin overdose. Many lives have been saved by local law enforcement agencies carrying and administering this important medication, and CBP is encouraged to continue this pilot program and, based on the results, to consider expanding it to other POEs.

CBP is directed to provide quarterly briefings for its major acquisitions using the same format and providing the same level of information required for Coast Guard major acquisitions, as described in the House and Senate reports. The briefings shall be provided concurrently with the briefings on obligation plans directed in title I of this statement.

BORDER SECURITY INSPECTIONS AND TRADE FACILITATION

A total of \$3,435,501,000 is provided for Border Security Inspections and Trade Facilitation. In addition to reductions for a realistic hiring profile and prior year carryover that remains available, this amount reflects a reduction of \$10,000,000 for unjustified program growth and a reduction reflecting CBP's full access to Colombia Free Trade Agreement fee revenue, as authorized by a general provision in title V of this Act.

The bill provides \$19,445,000 for the Electronic Visa Information Update System, a reduction of \$6,200,000 below the request. This reduction is equivalent to the amount made available for this system through a reprogramming of funds approved by the Committees in July 2015.

An additional \$86,462,000 is provided for recapitalization of Non-Intrusive Inspection (NII) equipment, as requested. CBP is expected to use contracts negotiated by the General Services Administration (GSA) when possible to accelerate procurements of NII equipment. CBP shall submit to the Committees, with the fiscal year 2017 budget request, a multi-year investment and management plan for inspection and detection technology that: (1) inventories such equipment by location, type, age, and date of deployment; (2) outlines existing equipment acquisition plans by type, number, schedule, and total cost of operations and maintenance; and (3) forecasts a recapitalization plan supported by a current acquisition program baseline (APB). The APB shall: (a) align the acquisition of each technology to mission requirements; (b) define the life-cycle costs for each technology; (c) detail an equipment decommissioning schedule; and (d) compare actual versus planned obligations. A version of the multi-year investment and management plan shall be made available to the public at the same time.

The Senate report contained guidance on efforts to improve trade enforcement related to single transaction bonds and collection processes, as well as on timely posting of information pertaining to

antidumping and countervailing duties. The Senate report also directed CBP, in coordination with other federal agencies, to advance methods to better investigate foreign imports suspected of evading or circumventing antidumping and countervailing duty orders including, but not limited to, lightweight thermal paper and seafood. CBP shall adhere to these directives.

In addition to the direction provided in the Senate report, CBP is urged to levy penalties, as appropriate, for previously documented violations of the Jones Act; establish specific timeframes for internal review and actions; continue working with the Offshore Marine Service Association to investigate potential violations; and dedicate adequate resources to vigorously enforce the Jones Act on the Outer Continental Shelf.

BORDER SECURITY AND CONTROL BETWEEN PORTS OF ENTRY

A total of \$3,751,387,000 is provided for Border Security and Control between POEs. Base resources dedicated to caring for and transporting unaccompanied alien children have increased and should be sufficient to meet anticipated needs. Should there be a surge during fiscal year 2016 requiring resources beyond those necessary for the family units and the 58,000 unaccompanied alien children assumed in the base budget request and provided in this Act, CBP shall notify the Committees and seek a reprogramming or transfer of funds to address that need.

Per direction in the House report, CBP shall ensure that its holding facilities are in full compliance with the Department's Standards to Prevent, Detect, and Respond to Sexual Abuse and Assault in Confinement Facilities; include funding estimates for such compliance activities in the fiscal year 2017 budget justification; report to the Committees regarding the death of any individual in CBP custody or following CBP use of force; and report annually on investigations related to such deaths. Also as described in the House report, CBP shall brief the Committees, within 60 days of the date of enactment of this Act, on its search and rescue efforts during the prior fiscal year and, within 30 days after the date of enactment of this Act, on the use of roving patrol stops and tactical and permanent checkpoints for immigration enforcement near the border. Lastly, the Department is expected to repatriate removable individuals in a manner that ensures their safety, as detailed in the House report.

AUTOMATION MODERNIZATION

A total of \$829,460,000 is provided for Automation Modernization, including \$10,000,000 for revenue modernization enhancements. For the last several years, CBP has failed to hire to the enacted workforce level, resulting in tens of millions of dollars appropriated for personnel compensation and benefits being diverted to unbudgeted activities. Therefore, the President's budget request is decreased by \$33,799,000 to fund a realistic and achievable number of FTE. CBP is expected to continue to dedicate current base resources, including carryover funding, to efforts to eliminate the need for cash transactions at POEs by 2020.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Information Technology	\$399,027,000	\$363,728,000
Automated Targeting Systems	122,669,000	122,669,000
Automated Commercial Environment/International Trade Data System (ITDS)	153,736,000	151,184,000
Current Operations Protection and Processing Support (COPPS)	191,879,000	191,879,000
Total	\$867,311,000	\$829,460,000

BORDER SECURITY FENCING, INFRASTRUCTURE, AND TECHNOLOGY

A total of \$447,461,000 is provided for Border Security Fencing, Infrastructure, and Technology (BSFIT). The amount includes an additional \$19,000,000 for Development and Deployment for one additional Integrated Fixed Tower (IFT) location; \$25,000,000 for necessary repairs to border fencing and border roads; \$10,000,000 for additional maritime radars; and \$20,000,000 for relocatable tower surveillance systems. CBP plans to fully fund one additional IFT and fully fund the cost for continued DoD-repurposed aerostat coverage in the Rio Grande Valley and areas of Arizona during fiscal year 2016 using prior year unobligated funds, reducing the need for the House bill's proposed increases for these activities. In lieu of the weekly notifications required in the House report, CBP shall provide monthly notifications to the Committees on procurement actions related to all BSFIT technology investments until all initial contract awards have been completed.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Operations and Maintenance	\$273,931,000	\$273,931,000
Development and Deployment	99,530,000	173,530,000
Total	\$373,461,000	\$447,461,000

DOD REUSE

As directed in the Senate report, CBP shall continue to analyze the application of unused DoD equipment to its border security mission and deploy available equipment to the extent practicable.

AIR AND MARINE OPERATIONS

A total of \$802,298,000 is provided for Air and Marine Operations. The President's budget request for Salaries and Expenses is decreased by \$5,824,000 to fund a realistic and achievable number of FTE.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Salaries and Expenses	\$306,253,000	\$300,429,000
Operations and Maintenance	395,169,000	409,969,000
Procurement	46,000,000	91,900,000
Total	\$747,422,000	\$802,298,000

The amount provided for the Operations and Maintenance PPA is increased by \$1,800,000 for enhancements to the Air and Marine Operations Center (AMOC) and for continuity of operations re-

quirements; \$2,000,000 for Vehicle and Dismount Exploitation Radar operations; \$2,500,000 for P-3 aircraft maintenance; \$4,500,000 for patrol aircraft mission upgrades; and \$4,000,000 for unmanned aerial system (UAS) ground control stations and power systems. In addition, the Procurement PPA is increased by \$10,300,000 for aircraft sensors; \$11,000,000 for a replacement UAS; \$5,000,000 for mission systems software and computers; \$8,000,000 for UAS radars; \$2,300,000 for fixed-wing and rotary-wing radars; \$6,000,000 for AMOC building upgrades; and \$5,600,000 for improved communications capabilities. As requested, \$44,000,000 is provided for procurement of two Multirole-Enforcement Aircraft.

EFFECTIVE USE OF AIR ASSETS

Congress has consistently supported air and marine operations essential to border security, and has routinely appropriated above the requested amount for procurement and operation of airframes, sensors, and cameras. These assets are critical to enhancing situational awareness and communications capabilities necessary to transmit data collected for both strategic planning and operational response. Making the most efficient use of these resources, however, requires more than relating resource hours to interdictions, which has historically been used as a measure for success.

The Office of Air and Marine (OAM) reports that it is working to develop agency-wide performance measures to more optimally integrate air assets and sensors in a way that improves both operational and strategic awareness. This process must be based on identifying relevant key measures to inform future acquisition decisions and operational tasking and must be determined in coordination with the JTFs and OAM's customers. Such measures should include, at a minimum: operational cost per resource hour; resource hours per mission type; and resource availability rate. These key measures identify performance gaps and help leaders steer resource hours to meet the agency's targeted performance outcomes.

Once relevant performance measures are found to be valid and reliable, OAM must effectively measure its resource performance, compare this performance to baseline targets, and then explain how resources were managed to satisfy mission needs, including minimizing fuel costs and maximizing mission availability. These measurements should inform strategic planning at OAM, and the resulting plan shall be briefed to the Committees within 90 days of the date of enactment of this Act.

UAS PILOTS

The bill provides the additional funding requested for UAS pilots, crew, and training. Within 60 days of the date of enactment of this Act, CBP shall provide the Committees a report on UAS pilots and training requirements, as detailed in the Senate report.

CONSTRUCTION AND FACILITIES MANAGEMENT

A total of \$340,128,000 is provided for Construction and Facilities Management. For the last several years, CBP has failed to hire to the enacted workforce level, resulting in tens of millions of dol-

lars appropriated for personnel compensation and benefits being diverted to unbudgeted activities. Therefore, the President's budget request for Program Oversight and Management is decreased by \$1,415,000 to fund a realistic and achievable number of FTE.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Facilities Construction and Sustainment	\$255,378,000	\$255,378,000
Program Oversight and Management	86,165,000	84,750,000
Total	\$341,543,000	\$340,128,000

U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT

SALARIES AND EXPENSES

A total of \$5,779,041,000 is provided for Salaries and Expenses. For the last several years, ICE has failed to manage attrition and new hiring to meet its targeted workforce level, resulting in tens of millions of dollars appropriated for personnel compensation and benefits being diverted to unbudgeted activities elsewhere in the Department. Based on updated estimates from ICE, this agreement appropriates funding for a realistic and achievable number of FTE. Of the total amount provided, \$100,000,000 is withheld pending a mid-year review of the agency's hiring progress. ICE is directed to brief the Committees on its obligation plans, as specified under title I of this statement.

The amount provided for this appropriation by PPA is as follows:

IMMIGRATION ENFORCEMENT DATA

ICE's inability to provide basic, accurate data on immigration enforcement, including the number of aliens released from custody, is unacceptable. As directed in title I of this statement, the Office of Policy shall develop and implement a plan that results in the complete and accurate collection and reporting of immigration enforcement data from encounter through final disposition and including data on the use of prosecutorial discretion. ICE is directed to improve its collection of data and coordination with the Office of Immigration Statistics in support of this requirement.

As ICE has not requested resources to improve its systems, despite its inability to meet reporting requirements, the bill includes an additional \$3,000,000 for ICE to operationalize data architecture improvements, including those recommended as a result of the Immigration Enterprise Data Management review. Per the Senate report, ICE shall brief the Committees quarterly on its progress and publish non-law enforcement sensitive statistics on its website.

LEGAL PROCEEDINGS

A total of \$239,894,000 is provided for Legal Proceedings, including funds to hire additional attorneys in field offices. The Department is directed to allocate these new attorneys to field offices in a manner that will expedite the immigration court docket, and to brief the Committees on the methodology used to allocate the new staff within 90 days after the date of enactment of this Act.

DOMESTIC INVESTIGATIONS

A total of \$1,761,829,000 is provided for Domestic Investigations to support investigations in high-priority mission areas, to include: human trafficking and smuggling; child exploitation, including the Child Exploitation Unit at the Cyber Crime Center and Operation Angel Watch; commercial fraud and intellectual property rights enforcement; proliferation; gangs; cybercrimes; and terrorism. ICE is directed to maintain its relationship with the National Center for Missing and Exploited Children (NCMEC) in regard to its ongoing support for investigations and other activities to counter child exploitation.

Of the total amount provided, \$10,000,000 is for expanding overstay enforcement investigations and investigative support. ICE is expected to target such investigations on individuals who pose a risk to the community, and shall brief the Committees on the proposed use of these funds within 60 days after the date of enactment of this Act.

In addition, not less than \$10,000,000 is for expanding investigations into severe forms of human trafficking and against suspected human traffickers, and \$5,000,000 is for expanding investigations against child exploitation. Finally, \$1,000,000 in dedicated program funding and 1 permanent FTE are provided for the Human Exploitation Rescue Operative (HERO) Child-Rescue Corps program. ICE is directed to train at least two classes of veterans during fiscal year 2016 through the HERO program to support child exploitation investigations, and to continue efforts to hire HERO graduates or

to help place them with other federal, state, or local agencies with related missions.

INTERNATIONAL INVESTIGATIONS

A total of \$139,771,000 is provided for International Investigations. Within the total, an additional \$2,000,000 is provided to annualize the costs of the previously funded expansion of the Visa Security Program. ICE is directed to use the risk-based methodologies and enforcement metrics outlined in the Senate report to continue to plan and budget for Visa Security Program expansion to at least two high-threat locations per year in future budget requests.

WAR CRIMES INVESTIGATIONS

Of the amount provided for Salaries and Expenses, not less than \$5,300,000 is for ICE's investigative and legal efforts to combat crimes against humanity, human rights abuses, and war crimes.

INTELLIGENCE

A total of \$79,768,000 is provided for Intelligence. Within the total, not less than \$5,000,000 is included to enhance investigations of human smuggling and trafficking.

ENFORCEMENT AND REMOVAL OPERATIONS

A total of \$3,217,942,000 is provided for Enforcement and Removal Operations. Base resources dedicated to caring for and transporting unaccompanied alien children and family units should be sufficient to meet anticipated needs. Should there be a surge during fiscal year 2016 requiring resources beyond those necessary for the family units and the 58,000 unaccompanied alien children included in the base budget request and provided in this agreement, ICE shall notify the Committees and seek a reprogramming or transfer of funds to address that need.

CUSTODY OPERATIONS

A total of \$2,316,744,000 is provided for Custody Operations, including funding necessary to maintain the requested number of detention beds. ICE is directed to brief the Committees semi-annually on savings realized as a result of the multi-year funding provided in this and prior appropriations Acts.

ICE is expected to strengthen its engagement with local law enforcement officials to detain criminal aliens prior to their release from local law enforcement custody. To further that effort, the bill includes a proviso withholding \$5,000,000 from obligation until the Director of ICE briefs the Committees on the details of ICE's outreach through the Priority Enforcement Program and the level of participation in the Program. ICE should particularly focus on criminal aliens: (1) engaged in or suspected of terrorism or espionage, or who otherwise pose a danger to national security; (2) convicted of an offense for which an element was active participation in a criminal street gang, as defined in section 521(a) of title 18, United States Code, or aliens not younger than 16 years of age who intentionally participated in an organized criminal gang to further the illegal activity of that gang; or (3) convicted of an aggravated

felony, as defined in section 101(a)(43) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(43)) at the time of conviction, and detain them in accordance with the law and due process until they can be removed.

FUGITIVE OPERATIONS

A total of \$156,572,000 is provided for Fugitive Operations, of which \$10,000,000 is for new Mobile Criminal Alien Teams (MCAT) that will target individuals who pose a threat to the community, as described in the Senate report. ICE shall include information on the MCAT program in future obligation plan briefings.

CRIMINAL ALIEN PROGRAM

A total of \$317,177,000 is provided for the Criminal Alien Program, including full funding to support all 287(g) memoranda of agreement and \$34,500,000 for resources and full-time law enforcement personnel at the Law Enforcement Support Center.

ALTERNATIVES TO DETENTION

A total of \$114,275,000 is provided for the Alternatives to Detention (ATD) program. This funding, when coupled with \$12,393,000 the agency used to forward fund ATD contracts with fiscal year 2015 funds, fully addresses the Administration’s plan for 53,000 average daily participants in ATD in 2016.

AUTOMATION MODERNIZATION

A total of \$53,000,000 is provided for Automation Modernization. ICE shall brief the Committees on the progress of the Consolidated ICE Financial Solution, as described in the Senate report, and shall brief the Committees on tactical communications, as described in the House report.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Automation Modernization	\$73,500,000	---
Consolidated ICE Financial Solution	---	\$5,000,000
TECS Modernization	---	21,500,000

Tactical Communications	---	18,500,000
ICE Operational Data Store	---	4,000,000
Total, Automation Modernization	\$73,500,000	\$53,000,000

TRANSPORTATION SECURITY ADMINISTRATION

AVIATION SECURITY

A total of \$5,719,437,000 is provided for Aviation Security. In addition to this discretionary appropriation for Aviation Security, a mandatory appropriation totaling \$250,000,000 is available through the Aviation Security Capital Fund and \$2,130,000,000 from aviation security fees are credited to this appropriation as off-setting collections, as authorized. For several years, TSA has been reducing funding for FTE as it further leverages various expedited screening programs. Unfortunately, some of those programs did not

provide a commensurate security gain and were consequently scaled back in the wake of multiple OIG reports and troublesome findings from covert testing. TSA has also struggled in recent years to hire to enacted levels outside the screener workforce. While the overall level for Aviation Security is above the President's budget request, the bill includes targeted reductions totaling \$16,296,000 to reflect this reality.

The table below fully funds TSA's needs to enhance aviation security, including revised FTE requirements, support for additional training and revised standard operating procedures, and additional funding to explore technology solutions and resolution measures at the checkpoint.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Screening Partnership Program	\$166,928,000	\$166,928,000
Screener Personnel, Compensation, and Benefits	2,872,070,000	2,973,839,000
Screener Training and Other	226,551,000	239,025,000
Checkpoint Support	97,265,000	111,201,000
EDS Procurement/Installation	83,380,000	82,168,000
Screening Technology Maintenance	280,509,000	280,509,000
Aviation Regulation and Other Enforcement	349,013,000	337,345,000
Airport Management and Support	596,233,000	597,899,000
Federal Flight Deck Officer and Flight Crew Training	20,095,000	20,758,000
Air Cargo	105,978,000	104,689,000
Federal Air Marshals	816,745,000	805,076,000
Aviation Security Capital Fund (Mandatory)	(250,000,000)	(250,000,000)
Total, Aviation Security	\$5,614,767,000	\$5,719,437,000

TIGER TEAM RECOMMENDATIONS

In June 2015, information was leaked concerning the classified results of covert testing conducted by the OIG at TSA checkpoints. While this specific report was focused on checkpoint security, it was the latest in a string of reports calling into question the agency's capabilities and effectiveness related to the use of risk assessment rules, known traveler programs, checked baggage screening, access controls, and workforce vetting. The findings not only renewed concerns regarding TSA's screening procedures and equipment, but also underscored the need for a comprehensive assessment of the way TSA performs its aviation security mission.

The covert testing identified a number of deficiencies in checkpoint security centered on personnel, processes, and technology. In response, the Department developed and began implementation of a 10-point plan to address these findings. To date, this has included briefing test results to TSA's Federal Security Directors, retraining the screener workforce, and reassessing the policies and procedures that guide that workforce. Checkpoint technology is also being reexamined not only to study additional solutions and resolution measures, but to understand how technology efficacy may change from the controlled laboratory to the stressful environment of an airport checkpoint.

Given the actions taken by DHS to date and the acknowledgement by the IG that TSA has begun the process of critical self-evaluation, the bill provides funding requested by the Department to address certain gaps, including:

—The retention of 602 FTE to staff checkpoints. These personnel will support the increased workload resulting from changes made to TSA screening procedures in response to the covert testing, and help to keep airport wait times short. The President's budget proposed to eliminate these FTE.

—The centralized and consistent training of a professional workforce through the Federal Law Enforcement Training Center (FLETC). The Administrator has stated that a consistently trained core curriculum conducted at a centralized location is critical to a high-performing workforce.

—Platform modifications, IT testing and validation, and initial operating costs in support of the TSA PreCheck Application Expansion initiative whereby TSA will leverage private sector expertise to grow the population of travelers enrolled in special vetting programs.

—Exploration of new technologies and resolution methods that may fill gaps identified by the covert testing, as well as make improvements to existing technology and associated processes and procedures to better utilize what is currently available.

TSA is to provide quarterly Tiger Team updates to the Committees, beginning not later than 30 days after the date of enactment of this Act. In addition, as a part of the fiscal year 2016 obligation plan directed in title I of this statement, TSA shall include specific details on the increased funding provided to address the covert testing results.

SCREENER PERSONNEL, COMPENSATION, AND BENEFITS

A total of \$2,973,839,000 is provided for Screener Personnel, Compensation, and Benefits. This amount supports the 42,525 FTE requirement identified by TSA to address OIG findings on aviation security vulnerabilities while maintaining reasonable wait times.

SCREENER TRAINING AND OTHER

A total of \$239,025,000 is provided for Screener Training and Other. Within the total, an additional \$12,500,000 above the request is included to begin implementation of improved, standardized training for Transportation Security Officers, developed in response to the OIG covert testing findings.

CHECKPOINT SUPPORT

A total of \$111,201,000 is provided for Checkpoint Support. Within the total is an increase of \$15,000,000 for technology initiatives to improve detection capabilities and enhance passenger screening processes.

REIMBURSEMENT CLAIMS FOR IN-LINE BAGGAGE SCREENING SYSTEMS

As described in the House and Senate reports, TSA is directed to develop a process to review and validate reimbursement claims from airports for in-line baggage screening systems installed prior to 2008, and to submit a plan, not later than 60 days after the date of enactment of this Act, for reimbursement of validated claims.

AVIATION REGULATION AND OTHER ENFORCEMENT

A total of \$337,345,000 is provided for Aviation Regulation and Other Enforcement, including sufficient funds to enable TSA to continue to certify, train, and equip the additional canine teams funded in fiscal year 2015.

FEDERAL FLIGHT DECK OFFICER AND FLIGHT CREW TRAINING

A total of \$20,758,000 is provided for the Federal Flight Deck Officer (FFDO) and Flight Crew Training Program. Within the total is an increase of \$1,700,000 to expand FLETC training capacity for FFDOs, as recommended by the House.

FEDERAL AIR MARSHAL SERVICE

A total of \$805,076,000 is provided for the Federal Air Marshal Service (FAMS). While the threats to aviation security have evolved since 9/11, it is unclear whether FAMS has adapted to appropriately address these emerging threats. TSA should conduct an analysis of FAMS staffing needs and resource requirements in light of evolving threats and TSA's risk mitigation strategy to ensure the funds requested for FAMS match the need.

SURFACE TRANSPORTATION SECURITY

A total of \$110,798,000 is provided for Surface Transportation Security. Within the total is a reduction of \$13,030,000 below the President's budget request to reflect a realistic and achievable number of FTE.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Staffing and Operations	\$28,510,000	\$28,148,000
Surface Inspectors and VIPR	95,318,000	82,650,000
Total, Surface Transportation Security	\$123,828,000	\$110,798,000

INTELLIGENCE AND VETTING

A total of \$236,693,000 is provided for Intelligence and Vetting. While the overall level for Intelligence and Vetting is above the President's budget request, the bill includes targeted reductions within that amount totaling \$10,345,000 to reflect a realistic and achievable number of FTE.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Direct Appropriations:		
Intelligence	\$51,977,000	\$52,003,000
Secure Flight	105,637,000	105,651,000
Other Vetting Programs	70,084,000	79,039,000
Subtotal, Direct Appropriations	227,698,000	236,693,000
Fee Collections:		
TWIC Fee	82,267,000	82,267,000
Hazardous Material Fee	21,083,000	21,083,000
General Aviation at DCA Fee	400,000	400,000
Commercial Aviation and Airport Fee	6,500,000	6,500,000

	Budget Estimate	Final Bill
Air Cargo/Certified Cargo Screening Program Fee	3,500,000	3,500,000
TSA Pre-Check Application Program Fee	80,153,000	80,153,000
Alien Flight School Fees	5,200,000	5,200,000
Subtotal, Fee Collections	199,153,000	199,153,000
Total, Intelligence and Vetting	\$426,851,000	\$435,846,000

INTELLIGENCE

A total of \$52,003,000 is provided for Intelligence, including an increase of \$1,140,000 to accelerate TSA's plans to increase intelligence sharing with the field organization by expanding the Field Intelligence Officer program.

OTHER VETTING PROGRAMS

A total of \$79,039,000 is provided for Other Vetting Programs, including an increase of \$11,700,000 for the TSA PreCheck Application Expansion initiative to broaden enrollment opportunities and increase the population of passengers enrolled in special vetting programs. As a part of the fiscal year 2016 obligation plan directed in title I of this statement, TSA shall include specific details on the use of this increase for TSA PreCheck expansion activities.

As described in the House report and in lieu of language in the Senate bill, TSA is directed to provide semiannual updates on its expedited passenger screening efforts, including a strategy to increase the population of passengers enrolled in special vetting programs and the associated resource implications.

Due to the continued delays in the Technology Infrastructure Modernization (TIM) program and projected personnel under execution, Other Vetting Programs is reduced by an additional \$500,000 below the President's budget request. As directed in the House and Senate reports, TSA shall brief the Committees on TIM not later than 15 days after its review by the DHS Acquisition Review Board.

TRANSPORTATION SECURITY SUPPORT

A total of \$924,015,000 is provided for Transportation Security Support. Within the total is a reduction of \$7,464,000 below the President's budget request to reflect a realistic and achievable number of FTE.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Headquarters Administration	\$276,930,000	\$273,259,000
Information Technology	452,385,000	449,160,000
Human Capital Services	202,164,000	201,596,000
Total, Transportation Security Support	\$931,479,000	\$924,015,000

COVERT TESTING

As directed in the Senate report, TSA shall provide quarterly briefings on covert testing activities.

COAST GUARD

OPERATING EXPENSES

A total of \$7,061,490,000 is provided for Operating Expenses, including \$500,002,000 for defense activities, of which \$160,002,000 is designated for overseas contingency operations (OCO) and the global war on terrorism (GWOT). Funds provided in support of OCO/GWOT under this heading may be allocated without regard to section 503 in title V of this Act. Pending submission of the Capital Investment Plan (CIP) with the President's fiscal year 2017 budget, the agreement withholds from obligation \$85,000,000 of the appropriation. Not more than \$23,000 is for official reception and representation expenses.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Military Pay and Allowances	\$3,466,088,000	\$3,488,617,000
Civilian Pay and Benefits	799,816,000	792,229,000

Tricare (leg. proposal)	1,000,000	---
Total, Operating Expenses	\$6,822,503,000	\$7,061,490,000

OVERSEAS CONTINGENCY OPERATIONS/GLOBAL WAR ON TERRORISM
FUNDING

Funding for Coast Guard OCO/GWOT activities is provided directly through the Operating Expenses appropriation instead of through a DoD account. The Coast Guard is directed to brief the Committees not later than 30 days after the date of enactment of this Act on any changes expected in the funding requirement for OCO/GWOT activities during fiscal year 2016. Further, the Coast Guard is directed to include details of its current and future support to Central Command in the classified annex of the fiscal year 2017 budget request.

OPERATIONAL READINESS

The fiscal year 2016 budget request insufficiently addressed, once again, the critical needs of the Coast Guard. The final agreement provides funding above the request to improve readiness and meet operational needs. The appropriated amount includes the following increases to the budget request: \$41,795,000 to reduce the backlog in critical depot level maintenance; \$8,406,000 to restore operational hours; \$14,000,000 to restore unjustified cuts to military special pays and bonuses; \$2,200,000 to restore a "Bravo-O" response capability; and \$899,000 to ensure proper personnel levels at Aids to Navigation sites. The Coast Guard, as part of the fiscal year 2016 obligation plan directed in title I of this statement, shall provide the Committees an expenditure plan for these funds.

AIR FACILITIES

Within the total amount, \$12,172,000 is provided to meet the obligations specified in section 225 of the Howard Coble Coast Guard and Maritime Transportation Act of 2014 throughout fiscal year 2016.

BERING SEA COVERAGE

Not later than 60 days after the date of enactment of this Act, the Commandant is required to submit to Congress a report on the plans of the Coast Guard to ensure at least one mission-capable cutter maintains a presence in the Bering Sea and Arctic Region at all times during the 10-year period beginning on the date of such submittal, as described in the Senate report.

SMALL BOATS

Within the total for Operating Expenses, \$20,458,000 is provided for the procurement of small response boats in fiscal year 2016, an increase of \$7,100,000 above the amount requested. The bill also includes long-standing language to allow funds from the Operating Expenses appropriation to be used for the limited purchase or lease of small boats for contingent and emergent requirements and end-of-service-life replacements.

Unlike funding for major procurements requested through the Acquisition, Construction, and Improvements (AC&I) appropriation, the Coast Guard's annual request for the Operating Expenses appropriation includes minimal information about the budget for small boat activities. In order to gain more clarity on these matters, the Coast Guard shall provide a briefing to the Committees not later than 30 days after the date of enactment of this Act detailing planned small boat purchases, leases, repairs, and service life replacements for fiscal year 2016. For fiscal year 2017, such information shall be included in the congressional budget justification material.

COAST GUARD YARD

The Coast Guard Yard located at Curtis Bay, Maryland, has been a vital part of the Coast Guard's readiness and infrastructure for more than 100 years and is recognized as a critical component of the Coast Guard's core logistics capability that directly supports fleet readiness. Sufficient industrial work should be assigned to the Yard to maintain this capability.

ENVIRONMENTAL COMPLIANCE AND RESTORATION

A total of \$13,221,000 is provided for Environmental Compliance and Restoration.

RESERVE TRAINING

A total of \$110,614,000 is provided for Reserve Training.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

A total of \$1,945,169,000 is provided for AC&I, a significant increase above the request that reflects the pressing need for recap-

talization of the Coast Guard's shore infrastructure and its fleets of aircraft and vessels. Although the Coast Guard continues to communicate publicly that its fleets are in desperate need of recapitalization, and many vessels are decades beyond their expected service life, the budget request failed to adequately address that requirement. The Department and the Administration are expected to provide more realistic AC&I budget requests in the future.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Vessels:		
Survey and Design—Vessel and Boats	\$9,000,000	\$15,000,000
In-Service Vessel Sustainment	68,000,000	68,000,000
National Security Cutter	91,400,000	743,400,000

SURVEY AND DESIGN

As detailed in the Senate report, an additional \$6,000,000 is included above the request for survey and design work associated with reactivation of the Polar Sea.

NATIONAL SECURITY CUTTER

A total of \$743,400,000 is provided for the National Security Cutter (NSC) program. The total includes \$640,000,000 for award and production costs associated with a ninth National Security Cutter, notwithstanding future costs for post-delivery activities. In addition, \$12,000,000 is included for the necessary top-side engineering design work to support the deployment of small UAS equipment on NSCs.

OFFSHORE PATROL CUTTER

A total of \$89,000,000 is provided for the Offshore Patrol Cutter (OPC) program. Within that amount, \$70,500,000 is included to exercise the option for Detail Design and commence Phase II of the OPC acquisition.

FAST RESPONSE CUTTER

A total of \$340,000,000 is provided for the Fast Response Cutter program. This amount is for the acquisition of six cutters.

POLAR ICEBREAKER

The growth of global commerce, scientific research, tourism, and other activity in the Arctic region requires a multi-mission icebreaker to sustain a U.S. presence, maintain domain awareness, and furnish critical search and rescue capabilities. Unfortunately, the Coast Guard's current fleet of heavy icebreakers is not adequate to meet this expanding mission. Although the Administration has now proposed accelerating the acquisition of the first replacement heavy icebreaker, the funding proposed for the Coast Guard's icebreaker program in fiscal year 2016 inadequately supports this plan. In addition, the Capital Investment Plan, which informs Congress about planned future asset acquisitions, projected funding levels, and program timelines, is devoid of any useful detail. In order for the Coast Guard to address this requirement in the coming year and preclude falling further behind, an additional \$3,200,000 above the request is provided to accelerate the acquisition of the next icebreaker.

FULL FUNDING POLICY

The Administration policy requiring the Coast Guard to attain appropriations for the total acquisition cost for a vessel, including long lead time materials, production costs, and post-production costs, before a production contract can be awarded has the potential to create shipbuilding inefficiencies, force delays in the obligation of production funds, and require post-production funds far in advance of when they will be used. The Administration is expected to give the Coast Guard the flexibility to acquire vessels, including the OPC, in the most efficient manner within the guidelines of strict governance measures.

HC-130J AIRCRAFT

An additional \$95,000,000 above the request is provided for one fully missionized HC-130J aircraft.

RESCUE 21

Within the total for AC&I, not more than \$1,500,000 is available under Program Oversight Management for the management of Rescue 21, the Coast Guard's advanced command, control, and direction-finding communications system, which locates mariners in distress and saves lives and property at sea and on navigable rivers. This funding may be used for project oversight and management, travel, activities associated with the transition from acquisition to

operations, activities associated with program closeout, and other activities related to the management of the program. Details on the planned and actual use of this funding, including amounts obligated, shall be included in the Coast Guard's quarterly acquisition briefings.

SHORE FACILITIES

Within the AC&I total, \$181,600,000 is for construction of shore facilities, including \$31,000,000 for the relocation of aviation facilities and \$26,000,000 for activities at the Coast Guard Yard associated with demolition of the floating dry-dock Oakridge and construction of additional ship capacity at the Yard. The Coast Guard, as a part of the fiscal year 2016 obligation plan directed in title I of this statement, shall provide the Committees an expenditure plan for these funds.

MILITARY HOUSING

A total of \$21,000,000 is provided for the recapitalization, improvement, and acquisition of housing to support military families. The Coast Guard, as a part of the fiscal year 2016 obligation plan directed in title I of this statement, shall provide to the Committees an expenditure plan for these funds.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

A total of \$18,019,000 is provided for Research, Development, Test, and Evaluation.

RETIRED PAY

A total of \$1,604,000,000 is provided for Retired Pay. The Coast Guard's Retired Pay appropriation is a mandatory budget activity.

UNITED STATES SECRET SERVICE

SALARIES AND EXPENSES

A total of \$1,854,526,000 is provided for Salaries and Expenses. For the last several years, the Secret Service has failed to hire to the enacted workforce level, resulting in tens of millions of dollars appropriated for personnel compensation and benefits being diverted to unbudgeted activities. Therefore, based on updated estimates from the Secret Service, the agreement realigns funds among PPAs to fund FTE in the appropriate PPAs and decreases the President's budget request by \$49,394,000 to fund a realistic and achievable number of FTE. Increases above the request are included for the following: \$4,500,000 for operational training; \$15,300,000 for classified programs; \$4,000,000 for the increased requirement for overtime due to the under execution in hiring personnel; \$3,000,000 for reassignment costs; \$12,000,000 for electronic crimes special agent training program; and \$1,600,000 for electronic security clearance needs.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Protection:		
Protection of Persons and Facilities	\$1,009,246,000	\$911,480,000
Protective Intelligence Activities	72,806,000	70,967,000
National Special Security Event Fund	4,500,000	4,500,000
Presidential Candidate Nominee Protection	203,687,000	203,687,000

NATIONAL SPECIAL SECURITY EVENTS

As requested, \$4,500,000 is provided to defray costs specific to Secret Service execution of its statutory responsibilities to direct the planning and coordination of National Special Security Events (NSSE). A general provision is included in title V of the Act prohibiting the use of funds to reimburse any federal department or agency for its participation in an NSSE. As described in the House report, the Secret Service is directed to provide periodic updates on NSSE planned for fiscal year 2016 prior to and following each event.

STRATEGIC HUMAN CAPITAL PLAN AND WORKFORCE STAFFING MODEL

In lieu of direction in the House and Senate reports, the Secret Service shall provide relevant hiring, attrition, and force structure analysis figures as required in title I of this statement.

IMPLEMENTATION OF THE PROTECTIVE MISSION PANEL FINDINGS

The bill provides \$84,500,000 for enhancements associated with findings of the United States Secret Service Protective Mission Panel, including \$4,400,000 for the Uniformed Division retention bonus and not less than \$8,200,000, available for two years, for the Crown fence replacement. Given this large increase in funding, as well as the complexity and critical nature of these enhancements, the Secret Service is directed to report on the use of these funds in its quarterly obligation plans as directed in title I of this statement.

ACQUISITION, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

A total of \$79,019,000 is provided for Acquisition, Construction, Improvements, and Related Expenses, including \$24,282,000 for facilities and \$43,737,000 for investments in Information Integration and Technology Transformation programs. A total of \$11,000,000 is provided for the next generation limousine.

FACILITIES

Not later than 60 days after the date of enactment of this Act, the Secret Service shall provide to the Committees a revised master plan for the James J. Rowley Training Center, as described in the Senate report, and a capital infrastructure investment plan for fiscal year 2016 through fiscal year 2020, as described in the House report. Unobligated prior year funding is available to defray the costs of deferred maintenance.

WHITE HOUSE TRAINING FACILITY

A total of \$750,000 is provided to complete a feasibility study and design plan for the proposed White House Training Facility. Future funding will be considered after completion of a full cost estimate by the agency and an independent cost estimate to be completed by the DHS CFO or a third party.

TITLE III—PROTECTION, PREPAREDNESS, RESPONSE, AND RECOVERY

NATIONAL PROTECTION AND PROGRAMS DIRECTORATE

MANAGEMENT AND ADMINISTRATION

A total of \$62,132,000 is provided for Management and Administration of the National Protection and Programs Directorate (NPPD), which includes funding for current hiring projections. NPPD is directed to target new hiring to activities that support its core mission and provide hiring updates and obligation plans as outlined in title I of this statement. The total does not include \$4,000,000 for support of the DHS OCHCO CyberSkills Support Initiative as described in the Senate report, as this requirement is addressed in title I of this statement.

INFRASTRUCTURE PROTECTION

A total of \$273,409,000 is provided for Infrastructure Protection. No funding is provided for the requested climate change assessments.

Of the total provided, \$75,010,000 is for Infrastructure Analysis and Planning (IAP), which includes \$18,650,000 for the National Infrastructure Simulation and Analysis Center (NISAC) and is available for two years. The \$5,657,000 provided above the request for NISAC is for research on high-risk infrastructure vulnerabilities.

As described in the Senate report, \$1,500,000 is provided above the request for the Office of Infrastructure Protection and the Office of Cyber Infrastructure and Analysis to develop and submit a three-year strategic plan to guide vulnerability assessments, analytic assessments, and the Regional Resiliency Assessment Program. The plan will guide this suite of programs with a focus on comprehensive assessments of critical lifeline infrastructure dependencies and interdependencies, assisting FEMA in risk assessments that support grant allocation decisions, and enhancing state and local preparedness and resiliency. Included shall be a set of performance metrics against which effectiveness can be measured and reported to Congress on an annual basis.

Of the total provided, \$70,848,000 is for Sector Management and Governance, including \$2,000,000 to define agency needs, identify requirements for community-level critical infrastructure protection and resiliency, and rapidly develop, test, and transition to use technologies that address needs and requirements. An additional \$4,219,000 above the request is provided to expedite development of the IP Gateway, a comprehensive critical infrastructure information database.

Of the total provided, \$49,151,000 is for Regional Field Operations, including full funding for the National Infrastructure Coordinating Center.

Of the total provided, \$78,400,000 is for Infrastructure Security Compliance. Due to continued delays in implementing the final rule on ammonium nitrate, no funds are included for implementation but \$4,500,000 is provided to allow NPPD to employ additional measures to secure ammonium nitrate and other IED precursors while continuing the rulemaking process.

CYBERSECURITY

A total of \$818,749,000 is provided for Cybersecurity of which \$94,485,000 is for US-CERT operations. Network Security Deployment is funded at \$475,822,000. NPPD is directed to brief the Committees within 30 days of the date of enactment of this Act on its plans to address the recommendations in GAO's comprehensive review of the National Cybersecurity Protection System (GAO-16-43SU).

A total of \$26,702,000 is provided for Global Cybersecurity Management, of which \$1,679,000 is to fund the software assurance program and \$15,810,000 is for cybersecurity education.

NOTIFICATION OF CYBERSECURITY INCIDENTS

As stated in the Senate report, NPPD must improve the process by which it notifies the Committees of cyber-incidents. NPPD shall develop a systematic process, in coordination with other potentially impacted departments and agencies, to notify the Committees of major cybersecurity incidents, including any event involving another federal agency.

CYBERSECURITY INFORMATION COORDINATION

Within 180 days after the date of enactment of this Act, NPPD is directed to brief the Committees on efforts to include metrics in the National Cybersecurity and Communications Integration Center's (NCCIC) programs, as directed in the Senate report. As part of its fiscal year 2016 obligation plan and fiscal year 2017 budget justification, NPPD shall provide the actual funding levels for each PPA for all NCCIC activities.

STATE AND LOCAL CYBERSECURITY SUPPORT

The fiscal year 2016 request proposed to reduce funding for the Multi-State Information Sharing and Analysis Center (MS-ISAC). Although the proposed reduction was premised on an expectation that MS-ISAC's customers would begin sharing costs of services they receive, the budget request provided almost no information to justify the proposed reduction. An additional \$500,000 is made available in the Critical Infrastructure Cyber Protection and Awareness PPA to help ensure the continuation of current levels of state and local cybersecurity services and information sharing. As part of its fiscal year 2016 obligation plan, NPPD shall report the actual funding level for MS-ISAC including a detailed justification for that amount. NPPD should also ensure that budget materials clearly justify the amount being proposed to support MS-ISAC. NPPD is expected to coordinate with MS-ISAC and its cus-

tomers on the rationale and timeline for establishing the cost-sharing plan.

CYBERSECURITY STRATEGY AND PLANNING

As detailed in the Senate report, NPPD is directed to brief the Committees upon the release of the National Cybersecurity Review and to utilize the review in developing a strategic plan on how best to work with state and local leaders on cybersecurity. The strategic plan should address how federal, state, and local partners work together, as well as include an assessment of the role of other stakeholders such as the National Guard. In addition, NPPD shall brief the Committees within 90 days after the date of enactment of this Act on the timeline for updating the National Cyber Incident Response Plan. The briefing shall include a plan for engaging with state and local governments and private sector stakeholders in the development of the framework. In developing both the strategic plan and the update to the National Cyber Incident Response Plan, NPPD should consider the role of the MS-ISAC with regard to outreach to and engagement with state and local governments.

COMMUNICATIONS

A total of \$198,842,000 is provided for Communications. Of the total provided, \$34,205,000 is for the Office of Emergency Communications (OEC), of which \$2,000,000 is to establish a demonstration project to aid in developing the National Emergency Communications Plan. The demonstration project shall leverage existing technologies and engage non-medical professionals to help establish or sustain statewide medical communications systems and utilize existing infrastructures to improve the delivery of rural medical care. OEC shall submit a plan for establishing this demonstration project to the Committees within 90 days of the date of enactment of this Act.

In addition, \$80,384,000 is provided for Next Generation Networks, including \$26,668,000 to implement priority Voice over Internet Protocol communication capability.

FEDERAL PROTECTIVE SERVICE

A total of \$1,443,449,000 is made available for the Federal Protective Service (FPS), as requested. This funding is generated by collections of security fees from federal agencies based on security services provided by FPS. A provision is included requiring that a strategic human capital plan be submitted with the President's fiscal year 2017 budget proposal.

OFFICE OF BIOMETRIC IDENTITY MANAGEMENT

A total of \$282,473,000 is provided for the Office of Biometric Identity Management (OBIM), of which not less than \$65,800,000 is for Increment 1 of the successor system to the IDENT automated biometric identification system. This funding is provided with the understanding that current estimates for follow-on increments include \$52,800,000 for Increment 2, \$40,000,000 for Increment 3, and \$46,700,000 for Increment 4. OBIM is directed to find cost sav-

ings wherever possible and brief the Committees on any anticipated cost changes.

The Department has again been entertaining proposals to transfer OBIM out of NPPD. Discussion of such proposals, which would require authorization to implement, should not be allowed to detract from OBIM’s focus on carrying out its important departmental mission.

OFFICE OF HEALTH AFFAIRS

A total of \$125,369,000 is provided for the Office of Health Affairs (OHA). Of the total amount, \$82,078,000 is for BioWatch; \$10,500,000 is for the National Biosurveillance Integration Center; \$824,000 is for the Chemical Defense Program; \$4,957,000 is for Planning and Coordination; and \$27,010,000 is for Salaries and Expenses.

BIOSURVEILLANCE ACTIVITIES

Of the total provided, \$1,000,000 is for replacement and recapitalization of current BioWatch equipment. OHA is directed to brief the Committees not later than 30 days after the date of enactment of this Act on its response to the recent GAO report (GAO–16–99) on the BioWatch program, which found that DHS lacks reliable information about the current system’s technical capabilities to detect a biological attack.

FEDERAL EMERGENCY MANAGEMENT AGENCY

DRS BUDGETING

The House report directs FEMA to implement reforms to budgeting for Disaster Readiness Support (DRS). In lieu of the direction that the reforms be implemented in the fiscal year 2017 budget

proposal, FEMA shall incorporate as many of the outlined reforms as possible within the fiscal year 2017 budget proposal and fully implement the reforms with the submission of the fiscal year 2018 budget proposal. Further, FEMA is directed to present future budget proposals and obligation reports, as applicable, in the following PPA and sub-activity structure for the DRS:

PPA: Cadre Operational Readiness and Deployability

- Disaster Employee Staffing

All projects shall be completed in consultation with the DHS CIO. Furthermore, details on modernization, security, and resiliency projects shall be reported to the Committees consistent with the obligation guidance in title I, and FEMA shall continue to provide updates on the IT Resiliency Review, as directed in the Senate report.

MOUNT WEATHER EMERGENCY OPERATIONS CENTER

Of the total provided for Salaries and Expenses, \$27,500,000 is for capital improvements to the Mount Weather Emergency Operations Center. In lieu of direction in the House report, FEMA shall address the use of these and any other funds available for Mount Weather Emergency Operations Center capital projects when FEMA briefs the Committees on its obligation plans as directed in title I of this statement.

CAPITAL INFRASTRUCTURE INVESTMENT PLAN

As directed in the House report, FEMA shall provide a capital infrastructure investment plan for fiscal year 2016 through fiscal year 2020.

ENSURING RAIL SECURITY

As outlined in the Senate report, NPPD and FEMA shall brief the Committees on the management of crude oil movements, including those actions being taken to address gaps in capabilities at the state and local levels (including through grant awards), any unmet needs in coordinating with other departments and agencies, and the unique needs of first responders.

¹ Funds for these programs are appropriated in separate accounts.

Provisions are included specifying timeframes for grant awards, limiting grantee administrative costs to five percent of the total amount of each grant, permitting the construction of communication towers under certain conditions, requiring reports from grantees as necessary, and permitting the use of certain funds for security buffer zones at FEMA facilities.

In addition to the items included in the House and Senate reports related to uses of grant funding, FEMA is encouraged to consider applications which will enhance physical security at large venues and for early warning systems, such as for severe weather, earthquakes, and siren alerts. FEMA is directed to review eligible grant activities, in conjunction with the Department of Justice and its grant programs, to determine how emergent and cross-cutting national security challenges, such as the heroin epidemic, international smuggling, and public health threats, can be better addressed at state and local levels.

Within 180 days after the date of enactment of this Act, and after consultation with stakeholders, FEMA shall brief the Committees on the feasibility of expanding eligibility for non-profit security grants, based on risk, to organizations located outside of urban areas receiving Urban Area Security Initiative (UASI) grants.

URBAN AREA SECURITY INITIATIVE

Consistent with the 9/11 Act, FEMA shall conduct risk assessments for the 100 most populous metropolitan statistical areas prior to making UASI grant awards. Because most of the cumu-

lative national terrorism risk to urban areas is focused on a relatively small number of cities, it is expected that UASI funding will be limited to urban areas representing up to 85 percent of such risk and that resources will continue to be allocated in proportion to risk.

EDUCATION, TRAINING, AND EXERCISES

A total of \$233,000,000 is provided for Education, Training, and Exercises. Within the total, \$29,521,000 is for Continuing Training, including \$3,500,000 for rural first responder training, not less than \$2,000,000 for hazardous materials training, and \$18,000,000 for the Center for Homeland Defense and Security.

A provision is included transferring \$24,000,000 to the OIG for audits and investigations related to all disasters.

A general provision is included in title V of this Act rescinding amounts provided for non-major disaster response in prior years due to the significant balances carried over from fiscal year 2015 and amounts recovered from previous disasters during project closeouts. The remaining balances, combined with the amount appropriated in this bill, fully fund all known requirements, to include recovery from Hurricane Sandy, the Colorado wildfires, the Oklahoma tornadoes, the South Carolina flooding, and other previous disasters, as well as estimated costs of response and relief efforts for future disasters.

As directed in title I of this statement, FEMA shall include with the fiscal year 2017 budget justification materials a detailed justification for all categories funded with base discretionary funding,

including a detailed obligation plan for the DRS program. Additionally, as directed in title I, FEMA shall provide briefings on the obligation of DRS funding.

EMERGENCY FOOD AND SHELTER

A total of \$120,000,000 is provided for the Emergency Food and Shelter Program (EFSP), of which administrative costs shall not exceed 3.5 percent. A provision authorizing the FEMA Administrator to transfer the funding and administrative responsibility for EFSP to the Department of Housing and Urban Development (HUD) is not included. While the proposal to transfer EFSP to HUD has merits, any proposal to transfer the program in a future budget request must be directly proposed as part of the HUD budget. Further, in order to ensure a successful transition, any future transfer proposal should be premised on outreach to appropriate stakeholders, including congressional committees of jurisdiction. It is expected that FEMA and HUD will include a comprehensive outreach strategy, as well as a full transition plan, as part of any such proposal in the future.

Not later than 60 days after GAO issues the report, the Department is directed to brief the Committees on actions taken to implement each of GAO's recommendations. The Department shall provide progress updates every 60 days thereafter until all of the recommendations have been implemented for all types of benefits. In addition, GAO is directed to perform a similarly scoped review of fraud in the refugee screening process.

USCIS is directed to brief the Committees within 120 days of the date of enactment of this Act on compliance with this address change notification requirement, including: how the requirement is communicated to the affected population; how many change of address notifications have been submitted each of the last three fiscal years broken down by visa categories or status; what actions USCIS or other agencies take in validating or making use of the address change submissions; and

the number of non-United States citizens since fiscal year 2012 who have been penalized for failing to update their address.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

SALARIES AND EXPENSES

A total of \$217,485,000 is provided for Salaries and Expenses. The amount available for official reception and representation expenses, \$7,180, reflects historic expenditures for this purpose. FLETC is directed to brief the Committees quarterly on a plan for the obligation of funds, as specified under title I of this statement. Within the funds provided for Law Enforcement Training, \$1,303,000 shall be for the FLETC Accreditation Board, of which \$300,000 may be distributed to federal law enforcement agencies for expenses incurred participating in training and accreditation.

Because the fiscal year 2015 DHS Appropriations Act did not fund a proposed 2,000 new CBP officers, the bill includes a reduction to the fiscal year 2016 request of \$26,406,000 associated with the training of those officers. However, an increase of \$4,750,000 is included to fund an additional 38 FTE for other training requirements.

FLETC shall conduct a review of its workforce benefits, per direction in the House report, and make any appropriate legislative recommendations to the Committees, the House Committee on Oversight and Government Reform, and the Senate Committee on Homeland Security and Governmental Affairs.

TITLE V—GENERAL PROVISIONS

Section 501. A provision proposed by the House and Senate is continued that no part of any appropriation shall remain available for obligation beyond the current year unless expressly provided.

Section 502. A provision proposed by the House and Senate is continued that unexpended balances of prior appropriations may be merged with new appropriation accounts and used for the same purpose, subject to reprogramming guidelines.

Section 503. A provision proposed by the House and Senate is continued and modified that requires 15-day advance notification for the reprogramming and transfer of funds; limits authority to reprogram funds within an appropriations account; and provides authority to transfer up to five percent out of appropriations accounts. In order to give the Department flexibility in addressing emerging threats and challenges, language from prior years limiting the amount of funds that could be transferred into an appropriation is not included.

For purposes of reprogramming notifications, “program, project, or activity” is defined as an amount identified in the detailed funding table located at the end of this statement or an amount directed for a specific purpose in this statement. Also for purposes of reprogramming notifications, the creation of a new program, project, or activity is defined as any significant new activity that has not been explicitly justified to the Congress in budget justification material and for which funds have not been appropriated by the Congress. For further guidance when determining which movements of funds are subject to section 503, the Department is reminded to follow GAO’s definition of “program, project, or activity” as detailed in GAO’s A Glossary of Terms Used in the Federal Budget Process. Within 30 days of the date of enactment of this Act, the Department shall submit to the Committees a table delineating PPAs subject to section 503 notification requirements, as defined in this paragraph.

These reprogramming guidelines shall be complied with by all agencies funded by this Act. The Department shall submit reprogramming requests on a timely basis and provide complete explanations of the reallocations proposed, including detailed justifications of the increases and offsets, and any specific impact the proposed changes will have on the budget request for the following fiscal year and future-year appropriations requirements. Each request submitted to the Committees should include a detailed table showing the proposed revisions at the account, program, project, and activity level to the funding and staffing (full-time equivalent position) levels for the current fiscal year and to the levels requested in the President’s budget for the following fiscal year.

The Department shall manage its programs, projects, and activities within the levels appropriated. The Department should only submit reprogramming or transfer requests in the case of an unforeseeable emergency or situation that could not have been predicted when formulating the budget request for the current fiscal year. When the Department submits a reprogramming or transfer request to the Committees and does not receive identical responses from the House and Senate, it is the responsibility of the Department to reconcile the House and Senate differences before proceeding and, if reconciliation is not possible, to consider the reprogramming or transfer request not approved.

Unless an initial notification has already been provided, the Department is not to submit a reprogramming or transfer request after June 30 except in extraordinary circumstances that imminently threaten the safety of human life or the protection of property. If a reprogramming or transfer is needed after June 30, the submittal should contain sufficient documentation as to why it meets this statutory exception.

Section 504. A provision proposed by the House and Senate is continued and modified that prohibits funds appropriated or otherwise made available to the Department to make payment to the Working Capital Fund (WCF), except for activities and amounts allowed in the President’s fiscal year 2016 budget request. Funds provided to the WCF are available until expended. The Department can only charge components for direct usage of the WCF and these funds may be used only for the purposes consistent with the con-

tributing component. Any funds paid in advance or reimbursed must reflect the full cost of each service. The Department shall submit a notification for the addition or removal of any activity to the fund and shall submit quarterly execution reports with activity level detail. A new proviso is included requiring the Department to identify the source of funds by PPA.

Section 505. A provision proposed by the House and Senate is continued that not to exceed 50 percent of unobligated balances remaining at the end of fiscal year 2016 from appropriations made for salaries and expenses shall remain available through fiscal year 2017 subject to section 503 reprogramming guidelines.

Section 506. A provision proposed by the House and Senate is continued that funds for intelligence activities are deemed to be specifically authorized during fiscal year 2016 until the enactment of an Act authorizing intelligence activities for fiscal year 2016.

Section 507. A provision proposed by the House and Senate is continued requiring notification of the Committees three days before grant allocations, grant awards, contract awards, other transactional agreements, letters of intent, a task or delivery order on a multiple contract award totaling \$1,000,000 or more, a task or delivery order greater than \$10,000,000 from multi-year funds, or sole-source grant awards, are announced by the Department, including contracts covered by the Federal Acquisition Regulation. The Department is required to brief the Committees five full business days prior to announcing the intention to make a grant under State and Local Programs. Notification shall include a description of the project or projects to be funded, including city, county, and state.

Section 508. A provision proposed by the House and Senate is continued and modified that no agency shall purchase, construct, or lease additional facilities for Federal law enforcement training without advance notification to the Committees.

Section 509. A provision proposed by the House and Senate is continued that none of the funds may be used for any construction, repair, alteration, or acquisition project for which a prospectus, if required under chapter 33 of title 40, United States Code, has not been approved.

Section 510. A provision proposed by the House and Senate is continued and modified that includes and consolidates by reference prior year statutory provisions related to contracting officer's technical representative training; sensitive security information; and the use of funds in conformance with section 303 of the Energy Policy Act of 1992. A modified provision is included to permanently discontinue certain prior reporting requirements.

This prohibition is not intended to prevent the Department from carrying out routine or small reallocations of personnel or functions within components, subject to section 503 of this Act. This language prevents large-scale reorganization of the Department, which should be acted on legislatively by the relevant congressional committees of jurisdiction. While the Department has developed plans for a large-scale reorganization of NPPD, such reorganization has not yet been authorized by Congress and would be precluded by this language. The Department may propose minor changes under section 503 of this Act to the Committees on Appropriations.
