## CLERK'S NOTE

This committee print provides a compilation of the enacted text and applicable explanatory material for the Further Consolidated Appropriations Act, 2024 (H.R. 2882, P.L. 118–47).

The Act consists of 6 divisions related to regular annual appropriations Acts for fiscal year 2024 (divisions A through F). The Act also includes 1 additional division largely unrelated to appropriations matters (division G). This compilation includes only the 6 divisions related to regular appropriations matters (A–F). It also includes the front matter of the Act, which contains provisions applicable to the entire Act.

Divisions A through F are the products of negotiations between the House and Senate Appropriations Committees on final fiscal year 2024 appropriations for 6 of the 12 annual appropriations bills. For purposes of final passage, the 12 regular annual appropriations bills were enacted using two vehicles: H.R. 4366 and H.R. 2882.

The legislative text of the Act was submitted by Representative Kay Granger, Chair of the House Committee on Appropriations, as an amendment (as contained in H. Res. 1102, 118th Congress) to the Senate amendment to an unrelated bill pending in the House, H.R. 2882. The House agreed to that amendment on March 22, 2024. The Senate agreed to the measure on March 23, 2024. The President signed the legislation on March 23, 2024, and it became Public Law 118–47.

Because an “amendments-between-the-Houses” process was used instead of a conference committee, there is no conference report and no “Joint Explanatory Statement of the Managers” for H.R. 2882. An explanatory statement relating to the House amendment (as contained in H. Res. 1102, 118th Congress) was inserted by Representative Granger, Chair of the House Committee on Appropriations, in the Congressional Record on March 22, 2024.<sup>1</sup> Section 4 of the front matter of the Act provides that this explanatory statement “shall have the same effect with respect to the allocation of funds and implementation of divisions A through F of this Act as if it were a joint explanatory statement of a committee of conference.”

For the convenience of users, the legislative text of each appropriations division is paired with the applicable division of the explanatory statement.

<sup>1</sup>The explanatory statement appears in Book II, of the March 22, 2024, Congressional Record. (See pages H1501–H2116.)

[CLERK'S NOTE.—Reproduced below is the material relating to division A contained in the Explanatory Statement regarding H.R. 2882, the Consolidated Appropriations Act, 2024.<sup>1</sup>]

**DIVISION A—DEPARTMENT OF DEFENSE  
APPROPRIATIONS ACT, 2024**

The following is an explanation of the effects of this Act, which makes appropriations for the Department of Defense for fiscal year 2024. The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 118–121 and Senate Report 118–81 carry the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99–177), as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100–119), and by the Budget Enforcement Act of 1990 (Public Law 101–508), the terms “program, project, and activity” for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2024, the related classified annexes and Committee reports, and the P–1 and R–1 budget justification documents as subsequently modified by congressional action.

The following exception to the above definition shall apply: the military personnel and the operation and maintenance accounts, for which the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

The agreement notes the transmission of the budget justification documents known as the M–1 and O–1 to the congressional defense committees, which identify, at the budget activity, activity group, and subactivity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance for fiscal year 2025. The Secretary of Defense is directed to provide such budget justification for any subsequent budget request or amended request.

## REPROGRAMMING GUIDANCE

The Secretary of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). The dollar threshold for reprogramming funds shall be \$15,000,000 for military personnel; operation and maintenance; procurement; and research, development, test and evaluation.

Additionally, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees annual DD Form 1416 reports for titles I and II and quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogramming actions are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a military personnel (M-1); an operation and maintenance (O-1); a procurement (P-1); or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

## FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables. It is directed that funding increases shall be competitively awarded, or provided to programs that have received competitive awards in the past.

## CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or items for which funding is specifically reduced as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the Committee report.

## CLASSIFIED ANNEX

Adjustments to the classified programs are addressed in the classified annex accompanying this statement.

## MULTI-YEAR PROCUREMENT CONTRACTS FOR CRITICAL MUNITIONS

The agreement supports greater use of multi-year procurement contracts for critical munitions to increase the Department of De-

fense's stocks of such munitions, improve warfighting readiness, stabilize the defense supply base with predictable production opportunities, and increase defense industrial capacity. As a result, the agreement provides multi-year procurement authority for six munitions programs requested in the fiscal year 2024 President's budget request: Advanced Medium Range Air-to-Air Missile, Naval Strike Missile, Guided Multiple Launch Rocket System, PATRIOT Advanced Capability-3 Missile Segment Enhancement, Long Range Anti-Ship Missile, and Joint Air-to-Surface Standoff Missile. This authority, and any associated funding, will provide the Department with the ability to procure more munitions at a lower cost through fiscal year 2028 as compared to single year procurements. The agreement directs the Secretary of Defense to negotiate multi-year procurement contracts which yield unit cost savings and industry commitments in facilitization with a particular focus on subcontractors in line with best practices including the ongoing approach to the VIRGINIA- and COLUMBIA-class, and other shipbuilding programs.

The agreement further directs the Secretary of Defense to provide reports on each munitions multi-year procurement award on a semi-annual basis until all such munitions have been delivered, to include projected and realized cost savings; impact of government and industry investment on capacity and associated supply chain, identification of potential risks and weaknesses; and analysis of the extent to which such multi-year procurement has created stability in the supply chain.

#### INNOVATION

The Department of Defense continues to identify innovation and expediting capability development as top priorities. The agreement supports these priorities and takes steps to better enable innovation efforts to expeditiously translate into fielded capabilities.

The ultimate objective of the capability development process must remain to field relevant and advanced systems at scale. The pursuit of innovation should enhance, not undermine, sound financial, acquisition, technical, and management best practices essential to delivering capabilities to warfighters on time and on budget.

To meet this challenge, the Department must harmonize innovation activities across various organizations within the Office of the Secretary of Defense and the Services. This requires efficient collaboration between requirements owners, acquisition officials, comptroller organizations, and other stakeholders. Moreover, vertical delegation of capability development decision-making down to these principals and their designees ensures that innovation efforts can fully leverage the existing capability development processes, authorities, and connection to the end users in the Services.

The agreement notes several changes within the Department's innovation ecosystem, including the organizational realignment of the Defense Innovation Unit (DIU) and creation of the Defense Innovation Steering Group, which introduce opportunities for optimizing innovation activities in the Office of the Secretary of Defense and the Services. However, the relative success of these organizational changes will be predicated on the Department's ability to ensure that innovation activities are rooted in clear statutory au-

thorities, adequately resourced, and conducted with a unity of purpose.

To that end, the agreement directs the Service Secretaries to separately submit reports to the congressional defense committees, not later than 60 days after the enactment of this Act, that:

(1) identify a lead innovation fielding organization with proven competence in partnering with commercial entities;

(2) provide a plan to ensure proper leadership, multi-disciplinary and high performing staff, funding, reporting, and consolidated structures are available to advance innovation initiatives; and

(3) detail processes and authorities used to “pull” innovation from the various defense-wide innovation entities as well as those within their respective military departments, to include an analysis of procedural or budgetary obstacles that inhibit the fielding of relevant and advanced systems at scale.

Furthermore, the agreement directs the DIU Director to submit a report to the congressional defense committees, not later than 120 days after the enactment of this Act, that:

(1) details the support for DIU, to include staffing, hiring speed, physical and digital infrastructure, functional support, authorities, security, and budgeting processes;

(2) identifies new start projects in fiscal year 2024 including project descriptions; milestones; risks; obligations and expenditures; planned acquisition and transition strategy; Services, Joint Staff, combatant command, and interagency involvement; program estimated annual and total cost; current and future cost sharing options with other government organizations, investors, or industry; opportunities for building international partner capacity; and intended impact to United States and adversary operations plans with supporting operations analysis; and

(3) evaluates the efficacy of Service participation in Defense Innovation Working Group activities, to include formal comment on reports submitted by the Service Secretaries pursuant to the above direction.

Finally, the agreement directs the Deputy Secretary of Defense, Vice Chairman of the Joint Chiefs of Staff and DIU Director, not later than 30 days after the enactment of this Act, to provide a briefing to the House and Senate Defense Appropriations Subcommittees that:

(1) incorporates interim findings and progress on the reporting requirements herein; and

(2) details how the Department intends to ensure continued advocacy for innovation fielding organizations and support for commercial entities.

Noting the importance of these changes, the agreement provides an additional \$841,774,000 in the DIU accounts including an additional \$131,874,000 for DIU prototyping and an additional \$589,400,000 for DIU fielding.

This language replaces the language under this heading in Senate Report 118–81 as well as the language under the headings “People: the Non-Traditional Innovation Fielding Enterprise”, “Portfolio: Defining and Resourcing a Hedge”, “Processes: Speed, Nexus, and Agile Requirements”, and “Practices: Flexibility and Accountability” in House Report 118–121.

## REPLICATOR

The agreement includes more than \$200,000,000 in support of the Department of Defense's Replicator initiative, which aims to field thousands of autonomous, attritable systems over the next two years. Inclusion of funding in this Act demonstrates that existing authorities, when used purposefully and judiciously, are responsive to emerging needs. To facilitate continued oversight, the agreement directs the Deputy Secretary of Defense to provide a briefing to the House and Senate Defense Appropriations Subcommittees not later than 60 days after the enactment of this Act. The briefing shall include:

- (1) updated spending profiles and requirements for sustaining each system identified to receive Replicator funding, by fiscal year and by Service through fiscal year 2029;
- (2) security classification guidance; and
- (3) the concept of operations for the employment of each such system and relevant threat assessments.

Additionally, it is understood that there is a growing ecosystem of technologies from commercial entities capable of contributing to Replicator's identified objectives. Therefore, the agreement directs the Deputy Secretary of Defense to provide a report to the congressional defense committees, not later than 90 days after the enactment of this Act, which identifies:

- (1) the total amount of Small Business Innovation Research (SBIR) funds that have been obligated against projects with technologies consistent with the Replicator initiative (such as autonomous, attritable systems);
- (2) to the extent available, no less than five examples from each Service of commercial entities that have demonstrated autonomous, attritable systems; and
- (3) instances of commercial entities demonstrating autonomous, attritable systems that transitioned from SBIR projects to programs of record.

The reports required herein shall be submitted in unclassified form and may include a classified annex. The Department shall review additional direction on funding in this Act in the classified annex.

## JUNIOR ENLISTED PAY

The Military Services are in the midst of one of the greatest recruiting crises since the creation of the all-volunteer force. For fiscal year 2023, the Department of Defense missed its recruiting goal by 41,000 recruits, with the Army, Navy, and Air Force each missing their recruiting goals. Since retention of enlisted servicemembers remains strong, those who continue to serve will promote to more senior grades, leaving a distressing shortfall in junior enlisted servicemembers, who account for 40 percent of the total active U.S. military force. The Nation needs America's youth to strongly consider uniformed service. Exquisite weaponry and strategic concepts are of limited value unless they are operated by a fully manned, ready, and motivated force.

While there is no apparent single cause for this recruiting crisis, the combination of a diminishing pool of qualified applicants and

persistently low propensity to serve in our Armed Forces are leading contributors. To address the former, the Army and Navy are using preparatory courses to assist motivated recruits to meet enlistment standards, which have shown notable success to date. To address the latter, the agreement strongly believes that the Department of Defense must work with Congress, during fiscal year 2025, to provide legislative options for addressing this crisis to include, but not limited to, increases to junior enlisted basic military pay, as well as other ways to incentivize new recruits and prepare them for duty. Therefore, the agreement includes an additional \$43,000,000 to resource authorities provided in section 614 and section 621 of Public Law 118–131, which allows for monthly incentive bonuses for junior enlisted personnel through calendar year 2024 and expanded eligibility for the basic needs allowance. Further, the agreement includes an additional \$80,000,000 for enlistment bonuses to address identified unfunded requirements from the military services to help address the recruiting crisis. The agreement notes that section 532 of Public Law 117–263 provides authority for non-standard recruitment incentives and expects the Secretary to consider non-standard incentives along with cash compensation.

Finally, it is noted that the Department is currently conducting the 14th Quadrennial Review of Military Compensation (QRMC) to assess and offer recommendations to adjust military pay and benefits. The final QRMC report is expected by December 31, 2024. However, to more rapidly review and consider any proposed changes to compensation, the Secretary of Defense is directed to provide an interim briefing to the congressional defense committees, not later than 30 days after enactment of this Act, on proposals to increase junior enlisted basic pay as early as fiscal year 2025 (including associated cost estimates); how the Department of Defense will comply with sections 614 and 621 of Public Law 118–31; and the reporting requirements on the review of rates of military basic pay included in House Report 118–301. Further, the Secretary of Defense shall provide a comprehensive briefing on these topics to the congressional defense committees by July 1, 2024.

#### CIVILIAN WORKFORCE

The agreement retains the language under the heading “Civilian Workforce Optimization” in House Report 118–121 with the exception of the fence of the Department of Defense Civilian Workforce Incentive Fund related to the deliverables directed in the reporting requirements.

Further, the Senate carried a provision stipulating that Department of Defense civilian personnel may not be managed on the basis of any constraint or limitation in terms of man years, end strength, full-time equivalent positions, or maximum number of employees. The agreement does not include this provision since this matter is addressed in the total force management policies and procedures established under section 129 and 129a of title 10, United States Code.

#### PLANNING, PROGRAMMING, BUDGETING AND EXECUTION REFORM

The House and Senate Defense Appropriations Subcommittees have no higher priority than providing needed resources to the

warfighter. A return to near-peer competition, coupled with an increasingly unstable geopolitical environment, necessitate robust investments in our national defense and an appropriations process that meets the moment.

The agreement notes proposals that seek to modify the Department of Defense's Planning, Programming, Budgeting and Execution (PPBE) process that include relaxing financial controls and oversight mechanisms that were put in place as the result of previous instances of financial mismanagement, unacceptable cost growth, or the expenditure of resources that, if applied more prudently, would have likely fielded capabilities sooner than the unrealistic timeframes set for many of these programs. At a time when the Department's financial statement audits continue to largely result in disclaimers of opinion, caution is paramount when considering the relaxation of financial controls put in place to address past systemic failures. This includes the process governing the realignment of appropriated funds in accordance with section 8005 of this Act.

Section 8005 of this Act allows the Secretary of Defense to transfer enacted appropriations in the year of execution for higher priority items, based on unforeseen military requirements, than those for which originally appropriated. In addition to submitting prior approval reprogramming actions for congressional review on a near-monthly basis pursuant to this section, the Department submits a large, mid-year omnibus reprogramming action each year that proposes to realign billions of dollars across dozens of programs. Typically, the initial congressional adjudication by the Committees on Appropriations of that mid-year omnibus reprogramming action does not exceed 35 days, which allows the Department to move forward well in advance of the end of the fiscal year. With respect to end-of-fiscal year reprogramming requests that the Department of Defense routinely submits in the last month of the fiscal year, there were 13 such reprogramming actions submitted to the Congress between fiscal year 2020 and 2023. 12 of those 13 reprogramming actions were adjudicated within two weeks, and all responses were adjudicated prior to the end of the fiscal year. In fiscal year 2023, the congressional defense committees received a reprogramming for urgent military personnel requirements on the 28th of September and all approved the request within one day. Factors that impact approval times of reprogramming actions include the timeliness and quality of amplifying information provided by the Department, either in advance or in response to congressional requests for information, as well as internal processing timelines at the Office of Management and Budget and the Department of Defense.

The agreement notes the desire of senior Department leaders to establish new starts in the middle of a fiscal year through reprogramming actions, and notes that typically, most new starts requested by the Department in the middle of the budget cycle are approved by the congressional defense committees. In fiscal years 2020 through 2023, the Department requested 61 new start programs via reprogramming during the ongoing fiscal year. Of those, 43 were approved in full by all four congressional defense committees. Only 10 were not explicitly approved by the House and Senate

Defense Appropriations Subcommittees. Granting the Department blanket authority to establish new starts outside of the traditional budget review cycle would undermine the constitutional authority of the Congress regarding the expenditure of taxpayer funds. Congress' track record with respect to these requests demonstrates that the congressional defense committees have used this authority judiciously and, when used effectively, reprogramming actions serve as both a necessary part of congressional oversight and a budgetary tool for innovation and flexible employment by the Department. In recent years, several major changes and new start programs have been approved via reprogramming actions, including the establishment of the Army Futures Command and several of its cornerstone programs, and the initiation of the Air Force's E-7 Wedgetail program. This year, the agreement continues its track record of supporting emergent and priority new starts outside of the PPBE cycle by accelerating the Department's Replicator effort through targeted increases.

Further, it is noted that the Department has not fully exercised the reprogramming authority available to it. The Department of Defense Appropriations Act, 2021 (Public Law 116-260) directed a report from the Comptroller General on the use of general transfer authority (GTA) and special transfer authority provided annually in the appropriations bills. The report indicates that from fiscal year 2011 through 2021, in only one year—fiscal year 2012—did the Department utilize 100 percent of the allotted GTA, at a total of \$3,750,000,000. Over a four-year period from fiscal year 2014 through fiscal year 2017, the Department utilized no more than 52 percent of its GTA. As of May 2023, the Department had used \$2,028,000,000 in fiscal year 2022 GTA or 34 percent of the \$6,000,000,000 allotment.

However, recognizing that long-established reprogramming thresholds have not kept pace with the growing cost of doing business, and to further address concerns about funding flexibility, the agreement increases the prior approval reprogramming thresholds for military personnel, operation and maintenance activities and the acquisition accounts, as detailed elsewhere in this explanatory statement.

In addition to processing reprogramming actions in an expeditious manner, the House and Senate Defense Appropriations Subcommittees have also demonstrated a willingness to work with the Department to improve the executability of appropriations, address out of cycle fact-of-life changes, or enact changes to budget structures in response to specific problems. This includes, the establishment of a pilot program for a portion of ship maintenance, repair, and modernization, which has shifted more than \$1,000,000,000 annually in funding from 1-year Operation and Maintenance, Navy funding to 3-year Other Procurement, Navy funding. The pilot program is a proven success, providing the Department of the Navy with a solution to the challenges associated with dynamic timing of ship maintenance availabilities by extending the fiscal period of availability to address a specific problem. Further, in support of the Department of the Army's Modernization Strategy, the enactment accelerated several budget line item consolidations. This consolidation supported or fully funded 31 modernization programs, elimi-

nated 93 programs, and truncated 93 programs. As addressed elsewhere in this statement, the agreement directs the Secretary of the Army to study proposals for further budget line consolidation within the Other Procurement, Army account. Finally, in the last two budget cycles alone, the Air Force has requested 64 zero-sum budget changes following submission of the budget request, affecting 144 budget lines across multiple appropriations totaling over \$6,000,000,000. Many of these requested realignments have been addressed, allowing the Air Force to properly phase funding for critical programs.

Ongoing, consistent, out-of-cycle dialogue between the Department of Defense and the House and Senate Defense Appropriations Subcommittees also addresses the most urgent needs of the Department throughout the fiscal year. For example, the Department of Defense Appropriations Act, 2023 (Public Law 117-328), accelerated the Navy's Goalkeeper program with an additional \$140,000,000 following close collaboration with the Navy on out-of-cycle program objectives and funding needs, provided additional resources to address recruiting shortfalls, and addressed inflationary impacts on the Department. This year, the agreement recommends additional resources to implement the recommendations of the suicide prevention commission, address continued recruiting shortfalls, and shore up the acquisition workforce. The agreement also includes multiple realignments to extend development programs, source program shortfalls, and repurpose procurement funding for immature systems. This includes, but is not limited to, the Army and Navy hypersonic programs, LRASM C-3 development, Sensor Fusion Weapon, Sentinel, C-130J Diminishing Manufacturing Sources, Integrated Visual Augmentation System, Maneuver Support Vessel, Abrams, and other programs. The agreement notes that none of these items were included in the budget request, or on unfunded priority lists submitted to the Congress, but are based on needs identified through consistent interaction between the House and Senate Defense Appropriations Subcommittees and the Services.

The agreement notes that the Department's PPBE process was reviewed by an independent Commission established by Congress and that the Commission's final report was released in March 2024. Additionally, it is noted that after the Commission released its interim report in August 2023 with 23 recommendations in total, the Deputy Secretary of Defense issued guidance to implement the 13 near-term recommendations across the Department. The House and Senate Defense Appropriations Subcommittees look forward to reviewing the recommendations of the Commission backed by clear, measurable outcomes or quantitative data, and continuing partnership with the Department of Defense, the defense industrial base, and other stakeholders to strike the proper balance of flexibility, accountability, and oversight in resourcing our National defense. The agreement directs that, unless specified elsewhere in this statement, no changes shall be made to the appropriations structure without prior consultation of the House and Senate Defense Appropriations Subcommittees.

## AIR FORCE REOPTIMIZATION FOR GREAT POWER COMPETITION

On February 12, 2024, the Secretary of the Air Force announced an effort to reoptimize the Department of the Air Force to meet the challenges of Great Power Competition. The agreement notes that, to date, the Department of the Air Force has not provided thorough justification for this reorganization, a comprehensive implementation plan, or detailed budgetary information necessary for the Subcommittees to assess this plan.

Therefore, any fiscal year 2024 funding that is utilized for this reorganization is designated a congressional special interest item for the purpose of the Base for Reprogramming (DD Form 1414). The Secretary of the Air Force is directed to provide to the congressional defense committees, 30 days prior to executing any organizational changes related to this reorganization, a notification describing how the current organizational construct differs from the proposed construct; a proposed phasing of this reorganization along with cost estimates to implement each phase; a proposed laydown of new offices, commands, or centers and whether the strategic basing process is required for their establishment; a description of impacts to military and civilians positions by location; and the programmatic impacts of such decisions.

The Comptroller General is directed to submit a report to the House and Senate Defense Appropriations Subcommittees on the proposed reorganization of the Air and Space Forces, not later than 180 days after enactment of this Act, on the factors that were considered in the proposed reorganization; feedback from the geographic and functional combatant commanders; a description of the analysis conducted to determine the key decision areas; validation that a business case analysis was conducted to determine return on investment; estimated costs involved; estimated time to implement the plan; criteria to define success, including interim operational capability and full operational capability; how the Commission on Planning, Programming, Budgeting, and Execution Reform recommendations were considered and taken into account; and the potential impact of this reoptimization on joint and coalition forces.

## ARTIFICIAL INTELLIGENCE

Not later than 60 days after the enactment of this Act, the Chief Digital and Artificial Intelligence Officer shall provide a report to the congressional defense committees identifying collaborative objectives for fiscal year 2024 for each Service, combatant command, and defense agency participating in Alpha-1. Further, the report shall include each implementing partner's funding profile, by project, for initiatives associated with Alpha-1 in fiscal year 2024. This language replaces the directives under this heading in Senate Report 118-81.

## JOINT ALL DOMAIN COMMAND AND CONTROL

The agreement notes the Department of Defense's progress in identifying a single acquisition executive accountable for the development and implementation of Joint All Domain Command and Control (JADC2). Not later than 45 days after the enactment of this Act, the Undersecretary of Defense for Acquisition and

Sustainment shall provide a spend plan for JADC2 resources in the defense-wide accounts, as well as a resourcing and programming strategy for investment in JADC2 fires and common enterprise-level capabilities, by fiscal year, across the fiscal year 2025 future years defense program. This language replaces the directives under this heading in Senate Report 118–81.

FOREIGN OWNERSHIP OF LAND NEAR INSTALLATIONS OF THE  
DEPARTMENT OF DEFENSE

IN THE UNITED STATES

The agreement directs the Secretary of Defense to, not later than 180 days after the enactment of this Act, submit a report to the congressional defense committees that contains a review of ownership or leasing by foreign persons or governments of land near Department of Defense installations in the United States, particularly involving countries of concern; an assessment of the threat that such ownership poses to United States national security; and a description of steps taken or planned to mitigate these threats and prevent them in the future. The agreement directs the Secretary of Defense to coordinate with the heads of other federal agencies, to include the Secretary of Agriculture and the Secretary of the Treasury as Chair of the Committee on Foreign Investment in the United States on the findings of this report. This directive replaces the directives under this heading in Senate Report 118–81 and under the heading “Report on National Security Risks from Certain Land Purchases” in House Report 118–121.

DEFENSE OF GUAM

The agreement directs the Secretary of Defense to provide an update not later than 90 days after enactment of this Act, and quarterly updates thereafter, to the congressional defense committees on the status of the mission to support the defense of Guam, to include the status of environmental impact statements and site surveys required to support placement of weapon systems supporting the defense of Guam; the upgrades to Guam’s infrastructure required to support the mission; development and acquisition schedules of anticipated weapons systems and corresponding deployment schedules of such systems; manning requirements for the defense of Guam mission; and obligation and expenditure data on all funding related to the defense of Guam. These updates shall be provided at an unclassified and classified level, as required. This language replaces the similar reporting requirement under this heading in Senate Report 118–81, and the similar reporting requirement under this heading in the joint explanatory statement accompanying the Department of Defense Appropriations Act, 2023 (Public Law 117–328).

CONFUCIUS INSTITUTES

The agreement notes that existing law limits Department of Defense funding, other than direct student aid, to institutes of higher education that host Confucius Institutes. The agreement directs the Secretary of Defense to provide a report to the congressional defense committees, not later than 90 days after the enactment of

this Act, identifying all institutions of higher education that host a Confucius Institute, as defined by section 1044 of the National Defense Authorization Act for Fiscal Year 2024 (Public Law 118–31), and are recipients of funding from the Department as of the date of enactment of this Act. The report shall identify the criteria by which waivers pursuant to section 1062 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283) are granted, the number of waiver applications submitted, if any, and the number of waiver applications approved, if any.

#### HYPERSONIC WEAPONS

The agreement supports the nation's hypersonic weapon programs and provides a total of \$2,131,975,000 for the Army's Long-Range Hypersonic Weapon and the Navy's Conventional Prompt Strike hypersonic weapon system. In light of additional required testing and development efforts following the most recent Joint Flight Campaign 2 test event, the agreement shifts funds from procurement accounts to development accounts, as requested by the services, in order to mitigate risk, expand testing, and further design maturity. This includes a transfer of \$200,000,000 to the Research, Development, Test and Evaluation, Navy account from the Weapons Procurement, Navy account and a transfer of \$23,713,000 to the Research, Development, Test and Evaluation, Army account (RDT&E,A) from the Missile Procurement, Army account. The agreement also includes an additional transfer of \$130,630,000 between RDT&E,A program elements to properly align hypersonic resources within the account.

#### PROHIBITION OF OBLIGATIONS AGAINST RESCISSIONS

The agreement notes that the Department obligated appropriated funding within the Procurement, Defense-Wide for Special Operations Command, and Missile Procurement, Army accounts after rescissions were proposed for the same funding in Committee-passed appropriations bills for fiscal year 2024.

The Undersecretary of Defense (Comptroller) is directed, in coordination with the Assistant Secretaries for Financial Management and Comptroller of the Army, Navy, and Air Force, to address this concern.

#### SPACE FORCE MISSION AREA BUDGET REPORT

The agreement directs the Secretary of the Air Force to prepare a report for Space Force programs that compiles and traces all existing budget lines for programs, projects, and activities into mission areas, such as missile warning, satellite communications, and position, navigation, and timing. The report shall also include separate mission areas for enterprise management, enterprise information technology, and facilities and logistics. Each mission area shall include a clear statement of the mission goals and plans, a detailed and compelling justification for the requested budget, personnel requirements, and identification of all the relevant funding by individual budget line items across appropriations. The Secretary of

the Air Force is directed to submit the fully completed report with the submission of the fiscal year 2025 President's budget request.

MEMORIAL FOR SERVICEMEMBERS KILLED IN ATTACK ON HAMID  
KARZAI INTERNATIONAL AIRPORT

The agreement encourages the Secretary of Defense to establish a commemorative work to honor the 13 servicemembers who died in the bombing attack on Hamid Karzai International Airport, Kabul, Afghanistan, on August 26, 2021, as directed in section 1084 of the James M. Inhofe National Defense Authorization Act for Fiscal Year 2023 (Public Law 117–263).

JOINT SAFETY COUNCIL

The agreement supports changes made by section 363 of the National Defense Authorization Act for Fiscal Year 2024 (Public Law 118–31) that improve the Joint Safety Council's ability to analyze and address nonconformities found during aircraft mishap investigations. Each of the Service Secretaries is directed, in the instances of a mishap leading to a fatality, and upon completion of the mishap investigation, to share all relevant and releasable information with the next of kin in accordance with section 1072 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102–484).

FIELD OPERATING AGENCIES

Consistent with prior years, the agreement retains a general provision restricting the establishment of new Field Operating Agencies (FOA) in section 8044 of title VIII of this Act. In recent years, the Space Force has sought to establish three new FOAs, including the Space Warfighting Analysis Center, National Space Intelligence Center, and the Enterprise Talent Management Office. The agreement notes that the FOA provision carries an exception for activities funded within the National Intelligence Program. The National Space Intelligence Center meets the criteria for establishment as a FOA under this exception. In addition, the general provision provides a waiver process through the Secretary of Defense that allows the establishment of FOAs. It should be noted that other Services have similar organizations that already operate as FOAs.

Further, the Secretary of the Air Force, in coordination with the Chief of Space Operations, is directed to submit a report to the congressional defense committees, not later than 90 days after the enactment of this Act, that details any organizational inefficiencies that may exist under the Space Force's current organizational structure, and the impacts that this general provision has on the Space Force's organizational structure.

RED CROSS SUPPORT

The agreement includes a \$25,000,000 grant to the Red Cross to continue its longstanding support of servicemembers and their families. The Secretary of Defense, in coordination with the Red Cross, is directed to submit a detailed spend plan to the House and Senate Defense Appropriations Subcommittees not less than 60 days prior to the obligation of these funds. Additionally, the report shall

detail the use of grant funding provided to the Red Cross for fiscal years 2020 through 2023.

#### TELEWORK AND REMOTE WORK

The agreement notes the recent update to the Department of Defense (DOD) Instruction 1035.01 *Telework and Remote Work* which establishes policy, assigns responsibilities, and prescribes procedures for telework and remote work in the DOD.

The Comptroller General is directed to submit a report to the congressional defense committees, not later than 180 days after enactment of this Act, that assesses the Department's adherence to internal telework and remote work instructions and policies; the scope of regular and recurring telework and remote work, to include the number of Department employees, by grade and occupational series; the cost and efficacy of regular and recurring telework and remote work when compared to traditional in-person arrangements; the impact of regular and recurring telework and remote work on the training and development of new and existing employees; the access and effectiveness of personnel supporting classified programs via regular and recurring telework and remote work; and impact of regular and recurring telework and remote work on organizational cohesion.

#### REPORT ON RESTRICTIONS WITH TAIWAN

The agreement directs the Secretary of Defense to, not later than 90 days after the enactment of this Act, submit a report to the House and Senate Appropriations Committees on the impacts of current restrictions on interacting with Taiwan, including the restrictions in the Department of State's June 29, 2021, Memorandum for All Department and Agency Executive Secretaries entitled "Revised Guidelines on Interacting with Taiwan."

#### TITLE I—MILITARY PERSONNEL

## MILITARY PERSONNEL OVERVIEW

The agreement provides the resources required for 1,284,500 active forces and 763,600 selected reserve forces in order to meet operational needs for fiscal year 2024. The agreement also provides the funding necessary to support a 5.2 percent pay raise for all military personnel, effective January 1, 2024.

## REPROGRAMMING GUIDANCE FOR MILITARY PERSONNEL ACCOUNTS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2024 appropriations accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Defense Appropriations Subcommittees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' military personnel accounts between budget activities in excess of \$15,000,000.

## MILITARY PERSONNEL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the joint explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). This includes the program increases for basic allowance for subsistence, basic allowance for housing, dislocation allowance, basic needs allowance and temporary lodging expense. Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the joint explanatory statement. Below threshold reprogrammings may not be used to either restore or reduce fund-

ing from congressional special interest items as identified on the DD Form 1414.

#### IMPROPER RELEASE OF PERSONALLY IDENTIFIABLE INFORMATION

The Air Force has acknowledged the improper release of Personally Identifiable Information (PII) between January 2021 and January 2023. Therefore, the agreement directs the Secretary of Defense to submit a report to the congressional defense committees on the steps being taken across the Services to prevent a future breach of PII not later than 90 days after the enactment of this Act. Further, the agreement directs the Secretary of the Air Force to submit to the congressional defense committees an update on the investigation into the release of this information. This update shall be provided not later than 30 days after the enactment of this Act, and quarterly thereafter, until the conclusion of the investigation.

#### ENHANCED PRIVACY PROTECTIONS FOR SERVICEMEMBERS

The agreement directs the Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency to conduct a review of the Department of Defense privacy policy contained in paragraph C4.2.2.5.2 of regulation DoD 5400.11-R to ensure appropriate consideration of the privacy interests of current and former servicemembers, and to provide a report to the congressional defense committees not later than 180 days after the enactment of this Act.

#### SPACE FORCE PERSONNEL MANAGEMENT

The agreement directs the Secretary of the Air Force to keep the congressional defense committees apprised of plans to implement title 17 of the National Defense Authorization Act for Fiscal Year 2024 (Public Law 118-31). Further, should a realignment of funds be required to implement these authorities, the agreement directs the Under Secretary of Defense (Comptroller) to use normal prior approval reprogramming procedures in accordance with section 8005.

#### OVERSEAS COST-OF-LIVING ALLOWANCE ADJUSTMENTS

The agreement directs the Secretary of Defense to provide a briefing to the House and Senate Defense Appropriations Subcommittees, not later than 45 days after enactment of this Act, on the process for determining Overseas Cost-of-Living Allowances (OCOLA) for members of the uniformed services at locations in which the annual OCOLA adjustment will result in a reduction of ten index points or more. The briefing shall also include a holistic assessment of how this process accounts for any unique living requirements and other challenges faced by members in those locations.

Additionally, the agreement directs the Secretary of Defense to submit a report to the House and Senate Defense Appropriations Subcommittees regarding reductions and increases to OCOLA during the previous calendar year consistent with the requirement established under section 627 of the National Defense Authorization Act for Fiscal Year 2024 (Public Law 118-31).

## AIR NATIONAL GUARD FULL-TIME MANPOWER INITIATIVES

The Air National Guard (ANG) plans to implement force structure changes to full-time positions, beginning in fiscal year 2025, in an effort to standardize personnel levels among units performing similar missions. However, it is unclear how this proposal accounts for unique missions performed by individual Guard units in support of other military commands or whether the National Guard Bureau's (NGB) proposed plan does account for such missions, including certain search and rescue missions and tanker airlift planning and support. Therefore, the agreement directs the Secretary of Defense to provide to the congressional defense committees, not later than 60 days after enactment of this act, a report that includes the following elements: (1) a description of the coordination and consultation with any global combatant command or Air Force major command that has missions affected by the ANG's plan that took place prior to and subsequent to the ANG's notification of its force structure realignments, and (2) a description from each of the relevant combatant commands or Air Force major commands, including at a minimum U.S. Northern Command and Air Mobility Command, as to whether the implementation of this NGB proposal would have an adverse effect on the ability of ANG units to continue to conduct missions in support of other military commands, including those necessary to support homeland defense, the protection of life, and national security.

REPROGRAMMING GUIDANCE FOR OPERATION AND MAINTENANCE  
ACCOUNTS

The Secretary of Defense is directed to submit the Base for Re-programming (DD Form 1414) for each of the fiscal year 2024 appropriations accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Defense Appropriations Subcommittees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between budget activities, or between subactivity groups in the case of Operation and Maintenance, Defense-Wide, in excess of \$15,000,000. In addition, the Secretary of Defense shall follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following readiness activity groups or sub-activity groups listed below.

The agreement updates the prior approval reprogramming procedures for the operation and maintenance accounts established in Department of Defense Appropriations Act, 2023 (Public Law 117-328) by redefining readiness groups and subactivity groups starting in fiscal year 2024. Since these updates involve budget line item guidance, the agreement directs that unless specified elsewhere in this report, no changes shall be made to the appropriations structure without prior consultation of the House and Senate Defense Appropriations Subcommittees.

OPERATION AND MAINTENANCE SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement. Below threshold reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

OPERATION AND MAINTENANCE BUDGET EXECUTION DATA

The Secretary of Defense and Service Secretaries are directed to provide the congressional defense committees with quarterly budget execution data. Such data should be provided not later than 45 days after the close of each quarter of the fiscal year and should be provided for each O-l budget activity, activity group, and subactivity group for each of the active, defense-wide, reserve, and National Guard components. For each O-l budget activity, activity group, and subactivity group, these reports should include the budget request and actual obligations amount, the distribution of unallocated congressional adjustments to the budget request, all adjustments made by the Department in establishing the Base for Reprogramming (DD Form 1414) report, all adjustments resulting from below threshold reprogrammings, and all adjustments resulting from prior approval reprogramming requests.

## REPROGRAMMING GUIDANCE FOR SPECIAL OPERATIONS COMMAND

The agreement directs the Secretary of Defense to submit a baseline report that shows the Special Operations Command's operation and maintenance funding by subactivity group for the fiscal year 2024 appropriation not later than 60 days after the enactment of this Act. The Secretary of Defense is further directed to submit quarterly execution reports to the congressional defense committees not later than 45 days after the end of each fiscal quarter that addresses the rationale for the realignment of any funds within and between budget subactivities. Finally, the Secretary of Defense is directed to notify the congressional defense committees 30 days prior to the realignment of funds in excess of \$15,000,000 between subactivity groups.

## QUARTERLY OPERATION AND MAINTENANCE UPDATES

The agreement notes the successful quarterly meetings with each of the Services and directs the Director of each of the Services' Operations Divisions (Financial Management and Budget) to continue to provide quarterly briefings to the House and Senate Defense Appropriations Subcommittees on their respective operation and maintenance execution data in fiscal year 2024. These meetings shall take place the third full week of the month following the end of each fiscal quarter to the greatest extent possible.

Additionally, the agreement directs the following: (1) the quarterly updates shall include civilian personnel funding and United States Direct Hire Full Time Equivalent (USDH FTE) actual data by month; (2) the Director of each of the Service's Operations Divisions (Financial Management and Budget) shall collaborate with the House and Senate Defense Appropriations Subcommittees to develop a display showing transfers between subactivity groups to be discussed at each quarterly update; and (3) the Under Secretary of Defense (Comptroller) shall provide civilian personnel funding and USDH FTE actual data by defense agency, by month, to the House and Senate Defense Appropriations Subcommittees within 30 days of the end of the fiscal quarter. This language enhances the directive requirements included under the heading "Department of Defense Workforce" in Senate Report 118-81.

## RECORDS MANAGEMENT

The agreement is encouraged by the information included in the December 2022 "Department of Defense Records Strategy" which directs the methodologies used to maintain records within the Department. The agreement expects the Secretary of Defense to consider assessing existing commercially available enterprise records management software solutions to conform with the recommendations included in the strategy. In the spirit of these goals to make data linked, trustworthy, interoperable, and secure, and recognizing the reality of persistent data leaks, the agreement further encourages the Secretary to prioritize software that complies with M-22-09 Federal zero trust architecture, includes an open application programming interface, and meets the document generation and retention requirements. Consideration should be given to the widest range of suitable commercially viable solutions practical, to

include software solutions emerging from the SBIR/STTR programs. The agreement directs the Secretary of Defense to provide a briefing to the congressional defense committees on recommendations for implementation of its record strategy not later than 120 days after the date of enactment of this Act.

#### ADDRESSING FOOD INSECURITY AND MILITARY FAMILIES

The agreement notes with concern the enduring issue of food insecurity that affects certain servicemembers and their families. The agreement includes additional funds to implement modifications to the calculation of the basic needs allowance as directed by section 621 of the National Defense Authorization Act for Fiscal Year 2024 (Public Law 118–31). In addition, the agreement provides an additional \$10,000,000 for a pilot program to address food insecurity of military families through collaboration with community partners to improve access to food and enhance family readiness.

## ULTRA-LIGHTWEIGHT CAMOUFLAGE NET SYSTEMS

There is concern about the Army's pace of divestiture of legacy Ultra-Lightweight Camouflage Net Systems (ULCANS). Next generation ULCANS offer unparalleled protection for the warfighter and greatly enhance survivability against the latest sensor threats. Aside from concerns about degradation of readiness, the slow pace of divestiture sends negative demand signals to a fragile industrial base. Therefore, the agreement strongly encourages the Secretary of the Army to divest all legacy ULCANS by the end of fiscal year 2024 and directs the Secretary to provide a plan for ULCANS system replacement to the House and Senate Defense Appropriations Subcommittees not later than 120 days after the enactment of this Act.

## RQ-7 SHADOW

The agreement designates funds appropriated under Operation and Maintenance, Army for the RQ-7 as a congressional special interest item for the purposes of the Base for Reprogramming (DD Form 1414). Further, the Secretary of the Army is directed to provide a briefing to the House and Senate Defense Appropriations Subcommittees on any plan to divest the RQ-7, to include mitigation of capability gaps and transition to future unmanned capabilities such as the Future Tactical Unmanned Aircraft System.

## SHIP DEPOT MAINTENANCE EXECUTION

The agreement recognizes the challenge in accurately programming and budgeting for ship depot maintenance availabilities. Unforeseen maintenance requirements and a lack of critical materials negatively impact cost and schedule. Dynamic operational tempo and a finite number of dry docks further complicate execution of availabilities as requested in the President's budget request. The agreement supports the Navy's efforts to reduce cost and schedule overruns through the purchase of VIRGINIA-class sustainment materials, delegation of authority to the program manager to accept new work, and the continued practice of awarding private availabilities 120 days in advance. The agreement expects the Secretary of the Navy to maximize the execution of availabilities within the funds requested and to improve budget estimates for availabilities in future requests.

## COMMUNITY NOISE MITIGATION PROGRAM

The agreement acknowledges the challenges faced by residential communities bordering aviation units and notes that Congress appropriated funding to make grants to communities impacted by military aviation noise in the Department of Defense Appropriations Act, 2022 (Public Law 117–103). The Secretary of Defense is directed to move as expeditiously as possible to execute these previously appropriated funds during the 2024 calendar year.

## GOLDEN SENTRY END-USE MONITORING

The agreement directs the Secretary of Defense to, not later than 90 days after the enactment of this Act, provide a report to the House and Senate Defense Appropriations Subcommittees on the activities of the Golden Sentry End-Use Monitoring program, including a review of program processes before, during, and after arms transfers, an accounting of program costs and personnel, and data on inspections and inspection findings for defense article transfers under the program. The report should also describe all alleged incidents of misuse of U.S.-government provided equipment in the preceding year as well as actions taken to investigate and mitigate against misuse incidents.

## INTEGRATED SECURITY COOPERATION STRATEGY

The agreement does not include the directive in House report 118–121 regarding an integrated security cooperation strategy for certain partner countries.

## REGIONAL CENTERS

The agreement directs the Director of the Defense Security Cooperation Agency to, not later than 60 days after the enactment of this Act, provide the congressional defense committees with a briefing on the status of the programs, objectives, milestones, execution plans, an assessment of current reimbursement waiver authority, any legislative proposals under consideration, and other quantitative and qualitative data for each of the six current regional centers.

## COALITION SUPPORT FUNDS

The agreement directs the Secretary of Defense to prioritize Coalition Support Funds for Jordan for support for operations to counter the Islamic State of Iraq and Syria.

## OFFICE OF SECURITY COOPERATION—IRAQ

The agreement is concerned with the lack of progress in transitioning the Office of Security Cooperation—Iraq and associated funding to a standard security cooperation office model. The agreement directs the Secretary of Defense, in coordination with the Secretary of State, to complete such transition and brief the House and Senate Defense Appropriations Subcommittees not later than 90 days after the enactment of this Act.

AQUEOUS FILM FORMING FOAM REMOVAL DESTRUCTION PILOT

The agreement provides \$20,000,000 for the Department of Defense to execute an Aqueous Film Forming Foam destruction pilot rather than the Defense Logistics Agency as directed in House Report 118–121 and Senate Report 118–81.

The Secretary of Defense is directed to, not later than 60 days after the enactment of this Act, submit a report to the House and Senate Defense Appropriations Subcommittees on any such equipment that has not yet been transferred, the reasons therefor, and a plan to either treat this equipment as stocks or transfer this equipment during fiscal year 2024, consistent with congressional notification requirements. In addition, the agreement directs the Secretary of Defense to complete any remaining transfers using this authority by the end of fiscal year 2024.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report.

## FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables. Additional guidance is provided in the overview of this explanatory statement.

## PROCUREMENT SPECIAL INTEREST ITEMS

Items for which additional funds have been recommended or items for which funding is specifically reduced as shown in the project level tables detailing recommended adjustments or in paragraphs using the phrase "only for" or "only to" in the joint explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed elsewhere in the joint explanatory statement.

## CRYSTALS FOR OPTICAL COMPONENTS

The agreement directs the Secretary of Defense to conduct a review of the amount of silicon and germanium optical components in U.S. defense systems that are being sourced from China and submit a report to the congressional defense committees not later than 180 days after the enactment of this Act. The Secretary is encouraged to develop specific plans to phase out the procurement of such components and support domestic growth and component manufacturing including through the use of defense production authorities in chapter 55 of title 50, United States Code, as appro-

appropriate. This language replaces the directives under this heading in House Report 118–121 as well as directives under the heading “Silicon and Germanium Crystals for Optical Components” in Senate Report 118–81.

#### AEROSPACE BEARING REPAIR AND REFURBISHMENT

The agreement directs the Secretary of Defense to submit a report to the congressional defense committees, not later than 180 days after the enactment of this Act, that examines the participation rates of domestic independent service providers for aerospace bearing repair and refurbishment solicitations. The report shall identify any potential cost, schedule, and performance benefits and include comparative data from previous awards relative to past performance. This includes cost overruns or schedule delays, the ability and capacity to provide ongoing life cycle product support, and the ability to meet technical requirements of the request for proposal for such services. Further, the report shall detail actions that the Department of Defense has taken to support domestic independent bearing repair service providers. This language replaces the directives under this heading in Senate Report 118–81 as well as directives under the heading “Repaired and Refurbished Aerospace Bearings” in House Report 118–121.

#### MUNITIONS STOCK

The agreement directs the Secretary of Defense and Chairman of the Joint Chiefs of Staff to jointly submit a report to the congressional defense committees, not later than 120 days after the enactment of this Act, that identifies current and future munitions shortfalls. The report shall include the following: areas of greatest operational risk in the most pressing theaters; novel munitions employment approaches to create platform optionality and reduce integration cost; munitions that are currently being produced by non-traditional suppliers; potential sources of low-cost components through non-traditional suppliers; viable paths for system integration through non-traditional suppliers or relationships with traditional suppliers; a strategy for leveraging a broader industrial base for expanding munitions capability and capacity; and an assessment of the extent to which the fiscal year 2025 President’s budget request will meet munitions requirements, including total munition requirements and global floor requirements, with estimated procurement costs, quantities, and projected inventory for such munitions identified for each year of the future years defense program. The report shall be submitted in an unclassified form and may include a classified annex.

#### COUNTER-SMALL UNMANNED AIRCRAFT SYSTEMS

Defeating small, unmanned aircraft systems, which pose significant risks to U.S. military personnel, is a national imperative that deserves concerted focus from the Department of Defense. Therefore, the agreement includes \$100,000,000 for the purpose of accelerating procurement of Counter-Small Unmanned Aircraft Systems (C-sUAS) to address emergent sUAS threats within the Service and Special Operations Command procurement appropriation ac-

counts rather than within the Office of the Secretary of Defense as proposed in the budget request. The agreement directs the Undersecretary of Defense for Acquisition and Sustainment, in coordination with the service acquisition executives for each respective Service and Special Operations Command, to provide quarterly reports to the congressional defense committees beginning on the first day of the fiscal quarter after the date of enactment of this Act until the first day of the fiscal quarter after all such funds have been obligated. Each report shall include current spend plans, current obligation actuals, and an assessment of how this funding is being used to address operational capability gaps. The agreement retains the directive under the heading “Counter-Small Unmanned Aircraft Systems” in Senate Report 118–81.

## SUBMARINE CONSTRUCTION PERFORMANCE

Concerns remain about the VIRGINIA Class Submarine (VCS) construction cost and schedule performance, which impact not only the construction and delivery to the fleet of VCS, but also affect the COLUMBIA Class Submarine (COL) construction schedule. It is noted that the fiscal year 2024 President's budget request includes funds for cost overruns of VCSs procured in fiscal years 2015, 2016, and 2017, and that cost overruns on additional ongoing new VCS construction programs are expected to exceed \$3,000,000,000 in future years. The Secretary of the Navy is directed to submit to the congressional defense committees the most current cost and schedule estimates, by VCS and COL, with the submission of each annual President's budget request until delivery of the twelfth and final COLUMBIA hull. The report shall identify changes from the previous year, and include detailed explanations for all submarines not fully resourced to the Navy's cost estimate, as well as all projected cost-to-complete requirements for previously appropriated submarines.

Additionally, it is noted that in directing a comprehensive Navy shipbuilding review in January, the Secretary of the Navy stated, "I remain concerned with the lingering effects of post-pandemic conditions on our shipbuilders and their suppliers that continue to affect our shipbuilding programs, particularly our COLUMBIA Class Ballistic Missile Submarines. . . ." The Secretary is directed to brief the congressional defense committees on the findings of this review within 30 days of completion. As part of this briefing, the Secretary is directed to identify the Department of the Navy's proposed near-term actions to prevent further SSBN-826 schedule delays, mid-term actions to stabilize production and enable on-time delivery of SSBN-827, and long-term actions to enable the on-time and on-budget delivery of SSBN-828 through SSBN-837.

Further, concerns remain with the technology maturity of certain COL subsystems, which could affect the construction and delivery timelines. Accordingly, the Senior Technical Authority for COL, as designated under section 8669b of title 10, United States Code, is directed to provide directly to the congressional defense committees quarterly updates on the technology readiness of key COL subsystems and components until SSBN-826 completes its first strategic deterrent patrol. These updates shall include, at a minimum, technology maturation metrics and identification of technical, schedule, or other significant issues for the following subsystems: stern area system, advanced carbon dioxide removal unit, integrated power system (including turbine generators), torpedo tubes, strategic weapons system, and such other subsystems or components as the Senior Technical Authority may designate.

Finally, the Comptroller General is directed to conduct a comprehensive review of the VCS program, including: (1) the current status of Block V construction relative to cost, schedule, quality and performance expectations as well as risks to successfully constructing future submarines; (2) the Navy's approach to contracting and funding for Block VI, including expected savings from a multiyear procurement strategy; (3) the Navy's ability to efficiently manage VCS construction during concurrent COL construction; (4)

the Navy's strategy for providing VCS to Australia; and (5) the Navy's plans for SSN(X) development. The Comptroller General is directed to provide an update briefing on this comprehensive review to the congressional defense committees not later than October 1, 2024, to be followed with quarterly updates and the final report.

## AIR FORCE DIVESTMENTS

It is understood that the Air Force intends to replace fighter air wings selected for legacy divestitures with a flying mission when possible. However, it is further understood that in some instances, a non-flying replacement mission has been identified to replace legacy divestitures, and that resources must be budgeted effectively to ensure the success of such follow-on missions.

Therefore, the Secretary of the Air Force is directed to submit a report to the congressional defense committees, not later than 60 days after the enactment of this Act, identifying the resources requested in the fiscal year 2025 President's budget request and the associated future years defense program that support the stand-up of new capabilities at air wings slated for divestiture of legacy platforms.

## C-130J RECAPITALIZATION

The agreement includes an increase of \$840,000,000 for eight additional C-130J aircraft for the Air National Guard, to replace existing C-130H aircraft. There is concern that if air wings are directed to operate a mixed fleet of C-130Hs and C-130Js, that could increase local maintenance burdens and decrease the overall readiness of the force. Therefore, the Secretary of the Air Force is directed to, through the existing Strategic Basing Process, prioritize upgrading existing C-130H squadrons with C-130J aircraft at a one-to-one ratio.

**DEFENSE PRODUCTION ACT EXECUTABILITY AND OVERSIGHT**

The agreement notes that unobligated balances for the Defense Production Act have significantly increased in the past four fiscal years, which results in delayed industrial capacity expansion and uncertainty to the defense industrial base regarding the Department’s plans. It is expected that funding appropriated to the Defense Production Act Purchases account continue to conform to the purposes communicated to the House and Senate Defense Appropriations Subcommittees during review of the fiscal year 2024 President’s budget request, and that any changes to the Department’s plans be communicated to the same Subcommittees not less than 30 days prior to execution of funds.

**PRINTED CIRCUIT BOARDS**

It is noted that printed circuit boards are key components of advanced defense technologies and that a strong domestic defense industrial base includes the ability to fabricate printed circuit boards. It is understood that the Department of Defense intends to use the Defense Production Act Purchases account to address domestic industrial base shortfalls for printed circuit boards in fiscal year 2024. The Secretary of Defense is encouraged to prioritize Defense Production Act investments in support of domestic printed circuit board fabrication.

## REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110–279). Specifically, the dollar threshold for reprogramming funds shall be \$15,000,000 for procurement and research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P–1) or research, development, test and evaluation (R–1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

## FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables. Additional guidance is provided in the overview of this explanatory statement.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION SPECIAL INTEREST ITEMS

Items for which additional funds have been recommended or items for which funding is specifically reduced as shown in the project level tables detailing recommended adjustments or in paragraphs using the phrase “only for” or “only to” in the joint explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed elsewhere in the joint explanatory statement.

## RAPID ACQUISITION AUTHORITY

Section 229 of the National Defense Authorization Act for Fiscal Year 2024 (Public Law 118–31) provided new rapid acquisition authorities to the Secretaries of the military departments. Section 8139 of this Act restates the applicable funding limitations from section 3601 of title 10, United States Code. The agreement notes that, over the past fiscal year, Rapid Acquisition Authority notifications required by law have not been timely or comprehensive. The Secretary of Defense is directed to provide a briefing to the House

and Senate Defense Appropriations Subcommittees, not later than 30 days after the enactment of this Act, that describes how the utilization of Rapid Acquisition Authority will be communicated in a more complete and timely fashion in fiscal year 2024 and thereafter.

**RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY**

The agreement provides \$17,115,037,000 for Research, Development, Test and Evaluation, Army, as follows:

## SOLDIER ENHANCEMENT PROGRAM

The agreement supports the Army's Soldier Enhancement Program (SEP) and understands the SEP provides soldiers with modernized individual equipment using a rapid acquisition approach that has resulted in proven cost savings and accelerated fielding of needed capability. Additionally, the agreement encourages the Secretary of the Army to resource the SEP across the future years defense program and notes with concern that prior year President's budget requests did not fully support SEP requirements. Further, the agreement directs the Secretary of the Army to provide a briefing to the House and Senate Defense Appropriations Subcommittees, not later than 30 days after enactment of this Act, on the plan to address SEP funding requirements in future President's budget requests.

## OPEN AUTONOMOUS UNDERWATER VEHICLE SOFTWARE ARCHITECTURE

The agreement directs the Secretary of the Navy to assess the feasibility and advisability of: (1) establishing one or more government-reference open-system architecture standards, such as the OpenAUV and PCX architectures, and/or commercial open-system architecture standards as the Navy standard or standards for Unmanned Underwater Vehicles (UUVs) and Unmanned Surface Vessels (USVs); (2) accelerating such standard or standards on Razorback and Snakehead UUVs; (3) maximizing full-and-open competition on UUV and USV solicitations with such standard or standards prescribed; and (4) requiring USV and UUV program managers to review Navy's OpenAUV lessons learned, incorporate best practices, and engage in technical exchanges with the performers. The Secretary is directed to submit this assessment to the congressional defense committees not later than 120 days after the enactment of this Act.

## AUTOMATED TEST AND RE-TEST

The agreement provides \$120,000,000 to accelerate implementation of the Navy's Automated Test and Re-Test (ATRT) Commercialization Plan submitted in October 2022. This activity shall support all Navy Program Executive Offices, System Commands, and Warfare Centers including Navy rapid capability offices. Funding provided under the newly created ATRT Enterprise Rapid Capability line shall be executed by Program Executive Office Integrated Warfare Support to perfect and scale virtualized systems of systems, automated test and analysis, automated certification, rapid integration, deployment of integrated warfare systems with edge analytics, and data collection as described in Navy's ATRT Commercialization Plan. The Secretary of the Navy is directed to submit to the House and Senate Defense Appropriations Subcommittees, not later than 60 days after the enactment of this Act, a detailed plan for implementation and resourcing of this capability consistent with the ATRT Commercialization Plan and in adherence to Small Business Innovation Research program regulations and requirements.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

The agreement provides \$47,340,416,000 for Research, Development, Test and Evaluation, Air Force, as follows:

## SENTINEL MANPOWER

The agreement recognizes that the Sentinel program has experienced delays and that the Air Force is updating program cost estimates and schedule information. The agreement includes the directive under this heading in Senate Report 118–81 and further directs the Secretary of the Air Force to update the congressional defense committees on the current status of cost and schedule of the program on a quarterly basis and any changes that impact Interim Operational Capability and Full Operational Capability whenever such change occurs.

## SENTINEL INDUSTRIAL BASE

The agreement provides \$100,000,000 for prototyping to reduce schedule and cost risk, and stabilize the supply base. This funding may also be used for commissioning industrial base studies, developing radiation-hardened components for strategic applications, and certifying metal-oxide-semiconductor field-effect transistors. The agreement also provides \$100,000,000 to strengthen Sentinel program key suppliers, particularly in areas with identified gaps, and to improve supplier efficiency. This funding may also be used for workforce development and collaboration with trade schools. The agreement retains the directives under the heading “Sentinel Industrial Base” in Senate Report 118–81.

## ADVANCED ENGINE DEVELOPMENT—ENGINE TECHNOLOGIES

The agreement recognizes the importance of engine development for fighter aircraft, and investments in the skilled engineering and manufacturing workforce to support the domestic fighter aircraft engine industrial base. Therefore, the agreement includes \$280,000,000 only to develop advanced engine technologies for integration into future engine development programs. This can include investments in adaptive cycle engine technologies, improved manufacturing techniques for engine components, development of novel materials, and the integration of enhanced digital design capabilities into the engine development process.

The Assistant Secretary of the Air Force for Acquisition, Technology and Logistics is directed to provide to the congressional defense committees, not later than 90 days after enactment of this Act, a spend plan for the additional resources provided by this agreement. The Assistant Secretary of the Air Force for Acquisition, Technology and Logistics is also directed to provide to the congressional defense committees, not later than 90 days after enactment of this Act, a briefing describing how the Air Force intends to ensure there is a sufficient level of engine design work in order to maintain a robust domestic aircraft engine industrial base.

The agreement does not support the integration of an alternative engine on the F–35, and includes a new general provision that prohibits the use of funds to integrate an alternative engine on any F–35 aircraft.

This language replaces the language under the heading “Fighter Aircraft Engine Development” in House Report 118–121 and the language under the heading “Future Engine Technologies” in Senate Report 118–81.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION,  
SPACE FORCE

The agreement provides \$18,669,844,000 for Research, Development, Test and Evaluation, Space Force, as follows:

## TACTICALLY RESPONSIVE SPACE AND THE INDUSTRIAL BASE

The agreement directs the Assistant Secretary of the Air Force for Space Acquisition and Integration to provide a report to the congressional defense committees, not later than 120 days after enactment of this Act, that defines the mission sets to be pursued under the tactically responsive space umbrella within the future years defense program and longer term prospective mission sets, along with a market analysis of the resident and emerging capabilities within the space industrial base to perform these missions. The report shall include an assessment of the relative technical maturity of each capability and an assessment of the industrial base capacity to support these mission sets, including but not limited to, responsive launch, on-orbit servicing, on-orbit pre-positioning, and on-orbit refueling.

## CISLUNAR SPACE

Developing capabilities and operating within cislunar space is imperative for the Nation to obtain national security, science and technology, and economic advantages. Congressionally directed increases accounted for 80 percent of all resources invested in cislunar activities over the last two fiscal years. The agreement again encourages the Secretary of the Air Force to increase its investments in cislunar propulsion technologies, space domain awareness, and other related activities.

## IN-SPACE ASSEMBLY AND MANUFACTURING

The agreement notes the promise of in-space assembly and manufacturing (ISAM) to support a range of civil and national security missions and is aware that the Space Force is exploring a mission to resurrect the NASA Spitzer Space Telescope using such capabilities. The agreement encourages the Secretary of the Air Force to increase investment for ISAM and pursue avenues to collaborate with the civil space sector and industry on a near-term mission.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION,  
DEFENSE-WIDE

The agreement provides \$36,892,886,000 for Research, Development, Test and Evaluation, Defense-Wide, as follows:

Any transfer of funds in excess of \$10,000,000 into or out of these sub-activities requires the Secretary of Defense to follow prior approval reprogramming procedures. The Secretary of Defense is further directed to provide a report to the congressional defense committees not later than 30 days after the enactment of this Act that delineates transfers of funds, and the dates any transfers occurred, from the Private Sector Care budget sub-activity to any other budget sub-activity in fiscal year 2023.

The Comptroller General shall submit a report to the congressional defense committees not later than 90 days after the enactment of this Act.

UNITED STATES POSTAL SERVICE  
PAYMENT TO THE POSTAL SERVICE FUND

The agreement provides \$49,750,000 for a payment to the Postal Service Fund.

*Location of Cluster Box Units.*—In lieu of House report language, the agreement expresses concern about mail theft at external, residential Cluster Box Units (CBUs) and the vandalizing of these units. The USPS is encouraged to update its handbooks and guidance to ensure external CBUs in all newly developed residential neighborhoods are located within the residential area they serve in a manner that reduces mail theft and vandalism while ensuring CBUs remain visible and accessible to the residents. The USPS is directed to brief the Committees on implementation of this directive no later than 90 days after the enactment of this Act.

*Mail Theft.*—In lieu of House report language, the agreement expresses concern about mail theft in the United States and the adverse impact it is having on postal customers, including extended disruptions of regular service and theft of personally identifiable information. The agreement also recognizes that the current process for victims of mail theft in some localities places an undue burden on customers. The USPS is directed to brief the Committees no later than 60 days after the enactment of this Act, detailing actions it has taken to combat this rise in mail theft from fiscal years 2020 through 2023. The briefing should include the USPS' plan to prevent mail theft.

*Postal Service Processing Facilities.*—As part of the Postal Service's Delivering for America plan, the USPS will be investing \$40 billion to upgrade and improve its processing, transportation, and delivery networks. As the USPS makes these investments, it should consider the needs of its employees and customers, as well as its commitment to provide prompt and reliable postal services to the nation.

For the purposes of this reporting requirement, the Department shall use the definitions provided in 6 U.S.C. 223. U.S. Customs and Border Protection (CBP) is also directed to ensure a review by third party statistical experts on the current process, assumptions, and formulas used to derive the “got away” estimates and any proposed changes to improve such estimates, including proposed changes to statutory definitions, if applicable.

Additionally, the Department shall provide to the Committees and shall post on a publicly accessible website by the 15th of each month the following, delineating requests received and granted by entity, including U.S. Customs and Border Protection (CBP), U.S. Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services (USCIS):

(4) how such standards compare to the standards employed for criminal detention by other Federal partners including, but not limited to, the Bureau of Prisons and the U.S. Marshals Service; and

(5) the effectiveness of such oversight inspections.

GAO shall confer with the Committees prior to initiating the assessment. GAO shall provide a briefing to the Committees on its interim results not later than 180 days after the date of enactment of this Act and shall provide a final report to the Committees not later than one year after the date of enactment of this Act.

*Joint Requirements Council (JRC).*—By not later than September 30, 2024, the Department shall dissolve the JRC. *TSDS Encounters.*—Individuals on the FBI TSDS encountered at or between ports of entry may include family members or associates of a known or suspected terrorist, or individuals incorrectly identified as TSDS matches, who the Department determines, after evaluation in coordination with the FBI, do not pose a homeland security threat. Within 90 days of the date of enactment of this Act, and quarterly thereafter, the Department shall provide a report to the Committees detailing what actions, if any, the Department has taken or plans to take to determine whether each individual on the TSDS encountered at or between ports of entry poses a homeland security threat that needs to be mitigated and the total number of individuals determined to pose such a threat. This report shall also include the location of each encounter, the individual's nationality, the individual's post-apprehension outcome, and any other available information. This report shall be submitted in unclassified form but may contain a classified annex.

*Volunteer Force.*—Prior to approving a DHS volunteer deployment, the Department shall ensure that the operational impacts of the volunteer's support outweigh any impacts to the volunteer's employing organization and core mission duties. To meet this requirement, not later than 120 days after the date of enactment of this Act, the Secretary, or a designee, shall implement a review process, which should include the number of volunteers being deployed from an organization; the funding implications; the length of deployment; the ability to maintain core mission functions; any contributions to a processing backlog the deployment would produce; and any other operational impacts. The process should be simple, streamlined, standardized, and once established, is required in advance of approval of volunteers. Not later than 180 days after the date of enactment of this Act, the Department shall brief the Committees on the initial results of this assessment.

Decreases below the request include: \$30,000,000 for electric vehicle procurement; \$7,914,000 for the 2024 pay raise; \$4,702,000 for the Chief Diversity and Inclusion Officer; \$3,000,000 for the Office of the Chief Information Officer Customer Experience initiative; and \$1,394,000 for the Acquisition Data Analytics Platform Tool.

*Biometric Identity Capability Development.*—In 2018, Congress authorized the transfer of the Office of Biometric Identity Management (OBIM) from what was then the National Protection and Programs Directorate to the Management Directorate to provide biometric identity capabilities across the DHS enterprise. Despite finalizing a contract award six years ago to replace the Automated Biometric Identification System (IDENT), the Department has been unable to deliver initial operating capability for the follow-on capability called Homeland Advanced Recognition Technology System (HART). GAO report GAO-24-106573 found that “since approval of HART’s initial acquisition program baseline in April 2016, the program has primarily been in breach status.” Further, GAO reported that “delays in delivering planned capabilities and continued reliance on IDENT represent a significant challenge to meeting user needs for DHS and its partner agencies, which include other Federal agencies, state and local law enforcement agencies, and the international community.” And that “continued reliance on an over-extended IDENT system represents an ongoing risk as the legacy system risks failure and additional investments are necessary to keep the system operational.” This program continued to suffer several program breaches and cost and schedule overruns. To date, Congress has provided over \$218,000,000 in development funding.

The Department's current cost estimates to complete the development of this system now exceed \$454,000,000. In GAO's latest review, these cost estimates are still considered unreliable.

Not later than 30 days after the date of enactment of this Act and monthly thereafter, until full operational capability of HART is achieved, the Department shall brief the Committees on system development progress, associated costs, and schedule. Such briefings shall also provide the Committees with similar updates regarding IDENT.

Within one year of the date of enactment of this Act, GAO shall initiate a review on HART, addressing how relevant stakeholders have implemented previous GAO recommendations, are ensuring compliance with privacy standards, and are ensuring coordination amongst all user groups.

*Enterprise-Wide Maritime Domain Platform.*—The agreement provides \$6,000,000 above the request to provide an enterprise-wide applied artificial intelligence maritime domain capability to identify, enable, and target maritime activities, utilizing dark activity and other deceptive shipping practices, to counter fentanyl and precursor chemicals, enforce sanction violations, and enhance law enforcement missions across the Department.

*IDENT Sustainment Operations.*—The agreement includes an increase of \$33,500,000 for the continued operation of IDENT.

*Obligation Plans.*—The Department shall continue to submit obligation plans on a quarterly basis consistent with direction provided in the explanatory statement accompanying Public Law 114–113. Additionally, the Office of the Chief Financial Officer (OCFO) shall require the use of a uniform obligation plan template connected to activity-level details in the budget justification materials to ensure consistency across components, which shall include quarterly spending targets for each account and PPA. OCFO shall be responsible for ensuring that components with major acquisition programs include the breakout of these programs within their quarterly plans and provide additional context to describe and justify any changes from the prior submission.

#### PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

The agreement provides \$260,433,000 for Procurement, Construction, and Improvements, a decrease of \$449,799,000 below the request. Reductions include: \$165,000,000 for a third Joint Processing Center; \$96,088,000 for financial systems modernization; \$93,493,000 for building 2 and \$46,085,000 for building 3 on the St. Elizabeths campus; and \$48,641,000 for facilities transformation and lease efficiencies.

The agreement includes reductions from the request, including: \$3,326,000 for civilian pay raise and \$688,000 for Intelligence Data Environment for Analytics (IDEA).

*Intelligence Expenditure Plan.*—The Department’s Chief Intelligence Officer is directed to brief the Committees on the fiscal year 2024 expenditure plan for the Office of Intelligence and Analysis within 30 days of the date of enactment of this Act.

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

The agreement does not provide funding for the IDEA acquisition.

OFFICE OF INSPECTOR GENERAL

OPERATIONS AND SUPPORT

The agreement provides \$220,127,000 for OIG, a decrease of \$8,244,000 below the request including reductions of \$2,814,000 to the 2024 pay raise and \$5,430,000 to Zero Trust Architecture.

*Custody Operations Reporting.*—OIG shall continue its program of unannounced inspections of immigration detention facilities and publish the results of the inspections and other reports and notifications related to custody operations activities on a publicly available website. OIG shall regularly consult with congressional oversight committees when developing and updating its strategy for conducting these inspections.

*Denial of OIG Access to Records and Information.*—OIG shall provide a quarterly report to the Committees concerning any component efforts to prevent or impede OIG access to records, documents, or other materials. Within 90 days of the completion of the review, the Inspector General shall provide a report to the Committees on the results of the review, including a detailed accounting of if, when, and why the decision was made to withhold information regarding the investigation from Congress, the Coast Guard personnel involved in any such decision, and their respective roles in any such decision. Further, OIG shall, where appropriate and in accordance with the provisions of the Inspector General Act of 1978 (5 U.S.C. App.), investigate uninvestigated allegations of sexual assault and sexual violence within the Coast Guard from 1992 to the date of enactment of this Act, and review the results of previous investigations of sexual assault and sexual violence over the same time period to determine whether they were appropriately handled. The Inspector General shall provide quarterly briefings to the Committees on any such completed investigations of previously uninvestigated allegations and completed reviews of previous investigations.

In preparing the information required to be released to Congress under this heading, the Inspector General shall not disclose person-

ally identifiable information if disclosure is not otherwise lawful. In addition, the Inspector General shall protect the privacy of individuals with respect to the information required in the quarterly briefings, to include redacting all Personal Identifiable Information. Nothing under this heading shall require OIG to investigate a restricted sexual assault report.

*Quarterly Budget and Staffing Briefings.*—OIG shall provide the Committees quarterly budget and staffing briefings which shall include all available funding sources, contracts, and contract staffing. The briefings shall reflect budget and staffing profiles by the types of audits, investigations, and inspections planned and executed. Section 402. The agreement continues a provision limiting the use of A-76 competitions by USCIS.

Section 403. The agreement continues a provision related to the collection and use of biometrics.

Section 404. The agreement continues a provision authorizing the Director of FLETC to distribute funds for expenses incurred in training accreditation.

Section 405. The agreement continues a provision directing the FLETC Accreditation Board to lead the Federal law enforcement training accreditation process to measure and assess Federal law enforcement training programs, facilities, and instructors.

Section 406. The agreement continues a provision allowing the acceptance of transfers from government agencies into “Federal Law Enforcement Training Centers—Procurement, Construction, and Improvements”.

Section 407. The agreement continues a provision classifying FLETC instructor staff as inherently governmental for certain considerations.

#### TITLE V—GENERAL PROVISIONS

##### (INCLUDING TRANSFERS AND RESCISSIONS OF FUNDS)

Section 501. The agreement continues a provision directing that no part of any appropriation shall remain available for obligation beyond the current year unless expressly provided.

Section 502. The agreement continues a provision providing authority to merge unexpended balances of prior appropriations with new appropriation accounts, to be used for the same purpose, subject to reprogramming guidelines.

Section 503. The agreement continues and modifies a provision related to reprogramming limitations and transfer authority.

The Department must notify the Committees on Appropriations at least 30 days in advance of each reprogramming of funds that would: (1) reduce programs, projects, and activities, or personnel, by ten percent or more; or (2) increase a program, project, or activity by more than \$5,000,000 or ten percent, whichever is less.

The term “program, project, and activity” (PPA) is defined as each functional category listed under an account heading in the

funding table at the back of this explanatory statement, along with each funding amount designated for a particular purpose within the statement narrative, exclusive of simple references to increases or reductions below the budget request. Funding for each PPA should not be used for the purposes of any other PPA. Within 30 days of the date of enactment of this Act, the Department shall submit to the Committees a table delineating PPAs subject to section 503 notification requirements.

For purposes of reprogramming notifications, the creation of a new program, project, or activity is defined as any significant new activity that has not been explicitly justified to the Congress in budget justification material and for which funds have not been appropriated by the Congress.

Limited transfer authority is provided to give the Department flexibility in responding to emerging requirements and significant changes in circumstances, but is not intended to facilitate the implementation of new programs, projects, or activities that were not proposed in a formal budget submission. Transfers may not reduce accounts by more than five percent or augment appropriations by more than ten percent. The Department must notify the Committees on Appropriations not fewer than 30 days in advance of any transfer.

To avoid violations of the Anti-Deficiency Act, the Secretary shall ensure that any transfer of funds is carried out in compliance with the limitations and requirements of section 503(c). In particular, the Secretary should ensure that any such transfers adhere to the opinion of the Comptroller General's decision in *the Matter of: John D. Webster, Director, Financial Services, Library of Congress, dated November 7, 1997*, with regard to the definition of an appropriation subject to transfer limitations.

Notifications should provide complete explanations of proposed funding reallocations, including detailed justifications for increases and offsets; any specific impact the proposed changes are expected to have on future-year appropriations requirements; a table showing the proposed revisions to funding and full-time equivalents (FTE)—at the account and PPA levels—for the current fiscal year; and any expected funding and FTE impacts during the budget year.

The Department shall manage its PPAs within the levels appropriated and should only submit reprogramming or transfer notifications in cases of unforeseeable and compelling circumstances that could not have been predicted when formulating the budget request for the current fiscal year. When the Department becomes aware of an emerging requirement after the President's budget has been submitted to Congress but prior to the enactment of a full-year funding Act for the budget year, it is incumbent on the Office of the Chief Financial Officer to timely notify the Committees. When the Department submits a reprogramming or transfer notification and does not receive identical responses from the House and Senate Committees, it is expected to work with the Committees to reconcile the differences before proceeding.

Section 504. The agreement continues a provision, by reference, prohibiting funds appropriated or otherwise made available to the Department to make payment to the Working Capital Fund (WCF),

except for activities and amounts allowed in the President's fiscal year 2024 budget request.

Section 505. The agreement continues a provision providing that not to exceed 50 percent of unobligated balances from prior-year appropriations for each Operations and Support appropriation shall remain available through fiscal year 2025, subject to section 503 re-programming requirements.

Section 506. The agreement continues a provision that deems intelligence activities to be specifically authorized during fiscal year 2024 until the enactment of an Act authorizing intelligence activities for fiscal year 2024. When such an authorization is enacted after the enactment of this Act, amounts appropriated for "Intelligence, Analysis, and Situational Awareness—Operations and Support" in excess of the authorized amounts shall be transferred to "Management Directorate—Operations and Support".

Section 507. The agreement continues and modifies a provision requiring notification to the Committees at least three days before DHS executes or announces grant allocations or grant awards totaling \$1,000,000 or more; an award or contract, other transaction agreement, or task order on a multiple award agreement, or to issue a letter of intent of greater than \$4,000,000; task or delivery orders greater than \$10,000,000 from DHS multi-year funds; or sole-source grant awards. Notifications shall include a description of the projects or activities to be funded and the location, including city, county, and state.

Section 508. The agreement continues a provision prohibiting all agencies from purchasing, constructing, or leasing additional facilities for Federal law enforcement training without advance notification to the Committees.

Section 509. The agreement continues a provision prohibiting the use of funds for any construction, repair, alteration, or acquisition project for which a prospectus, if required under chapter 33 of title 40, United States Code, has not been approved.

Section 510. The agreement continues a provision that includes and consolidates by reference prior-year statutory provisions related to sensitive security information and the use of funds in conformance with section 303 of the Energy Policy Act of 1992.

Section 511. The agreement continues a provision prohibiting the use of funds in contravention of the Buy American Act.

Section 512. The agreement continues a provision regarding the oath of allegiance required by section 337 of the Immigration and Nationality Act.

Section 513. The agreement continues a provision that precludes DHS from using funds in this Act to use reorganization authority. This prohibition is not intended to prevent the Department from carrying out routine or small reallocations of personnel or functions within components, subject to section 503 of this Act. This section prevents large-scale reorganization of the Department, which should be acted on legislatively by the relevant congressional committees of jurisdiction. Any DHS proposal to reorganize components that is included as part of a budget request will be considered by the Committees.

Section 514. The agreement continues a provision prohibiting funds for planning, testing, piloting, or developing a national identification card.

Section 515. The agreement continues a provision directing that any official required by this Act to report or certify to the Committees on Appropriations may not delegate such authority unless expressly authorized to do so in this Act.

Section 516. The agreement continues a provision prohibiting funds in this Act to be used for first-class travel.

Section 517. The agreement continues a provision prohibiting the use of funds to employ illegal workers as described in section 274A(h)(3) of the Immigration and Nationality Act.

Section 518. The agreement continues a provision prohibiting funds appropriated or otherwise made available by this Act to pay for award or incentive fees for contractors with below satisfactory performance or performance that fails to meet the basic requirements of the contract.

Section 519. The agreement continues a provision requiring DHS computer systems to block electronic access to pornography, except for law enforcement purposes.

Section 520. The agreement continues a provision regarding the transfer of firearms by Federal law enforcement personnel.

Section 521. The agreement continues a provision regarding funding restrictions and reporting requirements related to conferences occurring outside of the United States.

Section 522. The agreement continues a provision prohibiting funds to reimburse any Federal department or agency for its participation in a National Special Security Event.

Section 523. The agreement continues a provision requiring a notification, including justification materials, prior to implementing any structural pay reform or instituting a new position classification that affects more than 100 full-time positions or costs more than \$5,000,000.

Section 524. The agreement continues a provision directing the Department to post on a public website reports required by the Committees on Appropriations unless public posting compromises homeland or national security or contains proprietary information.

Section 525. The agreement continues a provision authorizing minor procurement, construction, and improvements under "Operations and Support" appropriations, as specified.

Section 526. The agreement continues by reference a provision authorizing DHS to use discretionary appropriations for the primary and secondary schooling of eligible dependents of DHS personnel stationed in areas of U.S. territories that meet certain criteria.

Section 527. The agreement continues a provision regarding access to detention facilities by members of Congress or their designated staff.

Section 528. The agreement continues a provision prohibiting the use of funds to use restraints on pregnant detainees in DHS custody, except in certain circumstances.

*Chronic Absenteeism.*—The agreement notes the Department's intention to conduct additional monitoring of States' implementation of school improvement requirements in the Elementary and Secondary Education Act (ESEA), including in States that have adopted chronic absenteeism as the statewide school quality and student success indicator. However, in response to the alarming 31 percent nationwide rate of chronic absenteeism in the 2021–2022 school year and recent GAO reports on implementation of school improvement requirements of ESEA, the agreement believes the Department must also improve the quality and rigor of such monitoring.

Within 60 days of enactment of this Act, the agreement directs the Department to submit a plan and brief the Committees on how its additional monitoring will assess applicable States' effectiveness in using chronic absenteeism as an indicator in identifying schools in need of support and improvement. Further, the plan and a second briefing provided not later than 90 days after enactment must also explain how the Department will monitor and support, through coordinated technical assistance and available program funding, States' and districts' effectiveness in monitoring and sup-

porting implementation of evidence-based interventions intended to improve student attendance and engagement in identified schools. In addition, the Department must consider steps it can take to support State and local efforts to raise public awareness about the need to lower student absenteeism.

*School Improvement.*—The Department is directed to conduct performance reviews to assess compliance with Title I–A of the ESEA for at least 5 State Educational Agency (SEAs) in 2024 and report how it will conduct and complete this monitoring and its plans for increased future monitoring to the committees of jurisdiction. Further, the Department must be prepared to discuss how the notice and Department's monitoring and evaluation activities of the Comprehensive Centers program will strengthen SEA and LEA technical assistance and support for and SEA, LEA, and school implementation of all the school improvement requirements of ESEA. Particularly, technical assistance should focus on how to consistently and effectively meet requirements for SEAs and LEAs to ensure schools identified for comprehensive and additional targeted support and improvement identify school resource inequities to be addressed through implementation of their improvement plans and for SEAs to periodically review resource allocation within LEAs with significant numbers of identified schools and how the education resources of those LEAs compare to education resources of other LEAs in the State.

## DEPARTMENTAL MANAGEMENT

## PROGRAM ADMINISTRATION

*Consultation and Briefing Requirement.*—The Department is directed to consult with the Committees on any Department action expected to significantly increase or decrease current or future costs of programs it administers. In addition, the Department is directed to consult with the Committees on any execution action related to any program or activity for which a directive is included in Senate Report 118–84 or this explanatory statement not later than 4 weeks prior to a public announcement related to such action. Further, the Department is directed to brief the Committees on any action covered by this consultation requirement, including consideration and incorporation of feedback during such initial consultation, not later than 1 week prior to a public announcement related to such action. This paragraph does not replace a more specific directive to a program or activity included in this explanatory statement.

*Discretionary Grant Program Management.*—There is concern that the Department’s late publication of notices inviting applications and awarding of discretionary grant program funds late in the fiscal year limits the use of Federal funds toward timely and maximal achievement of grantee performance and program objectives. The agreement directs the Department to develop and implement a plan to execute its discretionary grant programs in a timely way, through publication of notices inviting applications and obligation of grant funds earlier in the fiscal year. The agreement further directs the Department to provide the Committees with an update on accelerated execution timelines for its discretionary grant programs within 120 days of enactment of this Act, as well as in the Forecast of Funding Opportunities under the Department of Education Grant Programs for fiscal year 2025.

*Implementation of ESEA Provisions Regarding English Learners.*—Within 90 days of the enactment of this Act, the Department is directed to brief the Committees on the overall state of State educational agency and local educational agency English Learners (EL) data collection at the Department and any barriers that persist in collecting systematized EL subgroup data.

*Investments in Impoverished Areas.*—The agreement directs the Department to update the report provided to the Committees in response to the directive under this heading in House Report 117–403, within 90 days of fiscal year 2023 data being available.

*Office of Communications and Outreach.*—The Department is directed to provide a letter to the Committees on Appropriations within 30 days after enactment of this Act detailing how it complies with statutory requirements regarding influencing legislation and what training employees receive on such statutory requirements.

*Program Administration.*—The agreement notes new bill language prohibiting funds from being used on or after August 15, 2024, to support a number of non-career employees that is above the number of non-career employees as of December 31, 2022. The Department failed to comply with the direction to achieve this level in last year’s explanatory statement and should take immediate ac-

tion necessary to comply with this directive and new bill language requirement as soon as practicable. The agreement further notes monthly staffing reports directed by Senate Report 118–84 will be closely scrutinized and should demonstrate the Department’s progress in coming into compliance with this directive and new bill requirement.

#### OFFICE FOR CIVIL RIGHTS

*Section 8546 Prohibition on Aiding and Abetting Sexual Abuse.*—The Department is directed to brief the Committees on key actions completed and plans to ensure State and local compliance with the requirements of section 8546 of the ESEA not later than 90 days after enactment of this Act. Such briefing shall include a discussion of actions taken on recommendations from the Department-funded “Study of State Policies to Prohibit Aiding and Abetting Sexual Misconduct in Schools”, and other technical assistance and support, enforcement and accountability actions, implementation challenges, and the metrics the agency is using to measure improved State and local compliance with this section of the law. Not later than 240 days after enactment, the Department is directed to publicly post a status report on State and local compliance and its plans to ensure State and local compliance with such section.

[CLERK’S NOTE.—Reproduced below is the material relating to division E contained in the Explanatory Statement regarding H.R. 2882, the Consolidated Appropriations Act, 2024.<sup>1</sup>]

### **DIVISION E—LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2024**

The following is an explanation of the effects of Division E, which makes appropriations for the legislative branch for fiscal year 2024. The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 118–120 and Senate Report 118–60 carries the same weight as language included in this joint explanatory statement and shall be complied with unless specifically addressed to the contrary in this joint explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

All legislative branch departments and agencies are directed to follow prior year directives adopted in Public Law 117–328 and Division I—Legislative Branch Appropriations Act, 2023 on “Reprogramming Guidelines”, “Full-time equivalent (FTE)”, “Science and Technology Assistance for Congress”, “Implementation of Recommendations Issued by Oversight Entities”, “Use of Government Vehicles”, and “Zero-based Budgeting”.

*Offices of Inspectors General (OIG) Budgets.*—Ensuring independence between legislative branch OIGs and their respective reporting agencies is important. Agencies are expected to include a separate section reflecting a detailed budget request for their OIGs within their fiscal year 2025 budget justifications. Each OIG is directed to keep the Committees fully apprised of its funding needs. In addition, each agency is directed to avoid interference with or require approval for such communications between the OIG and the Committees.

*Good Accounting Obligation in Government Act.*—The Good Accounting Obligation in Government Act, or GAO–IG Act (Public Law 115–414) requires that each Federal agency, including the agencies of the legislative branch, include an accounting of any public recommendations by the GAO or the agency’s OIG that have not yet been implemented, and the timeframe for implementation. It is expected that each agency in this bill include such a report in its fiscal year 2025 congressional budget justification.

All reports are required to be completed in the timeframe noted in each respective directive. Moreover, the agreement expects that the conditions associated with funding appropriated by this Act

<sup>1</sup>This Explanatory Statement was submitted for printing in the Congressional Record on March 22, 2024, by Ms. Granger of Texas, Chair of the House Committee on Appropriations. The statement appears on page H2071 of Book II.

shall be accomplished in the manner as directed in the report, consistent with congressional intent.

Each legislative branch agency shall provide within 30 days of enactment of this Act a detailed spend plan for the execution of funds appropriated this fiscal year for its programs and quarterly execution reports thereafter that provide execution data against the spend plan.

All legislative branch agencies shall provide quarterly briefings to the Committees on Appropriations on the status of its cybersecurity program, to include milestones, significant activities, challenges, and the status of the execution of funding provided for this purpose.

*Extension of Personnel Benefits.*—Childcare benefits are often a recruiting, retention, and workforce satisfaction tool that employers offer employees as a way to help manage the demands of primary caregivers. Each legislative branch agency is instructed to provide, within 120 days of enactment of this Act, a report detailing the ways in which the agency would conduct such a program, assuming authority similar to that provided in Section 590(g) of title 40, United States Code. The report must address the nature and structure of the benefit, including tax implications; size and scope of the benefit; recommendations regarding eligibility requirements for employees; and costs associated with such a program for one, five, and ten years after implementation. Further, the agreement notes each legislative branch agency may request such authority in its fiscal year 2025 budget request.

## TITLE I

### SENATE

The agreement includes \$1,254,543,000 for Senate operations. This relates solely to the Senate and is in accordance with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention. The language included in Senate Report 118–60 should be complied with and carry the same emphasis as the language included in the explanatory statement, unless specifically addressed to the contrary in this explanatory statement. Any change from the allocation of funds in the subaccounts within this appropriation is subject to the approval of the Senate Committee.

*Enhanced Member Protection.*—The agreement provides funding for the residential security system program, which shall be made available to Senators based on the risks and vulnerabilities determined by a residential security assessment.

Any change from the allocation of funds in the subaccounts within this appropriation is subject to the approval of the House Committee.

*Chief Administrative Office Reorganization.*—The Committee encourages, to the extent possible and on the merits, that the CAO leverage existing FTEs and avoid undue involuntary terminations when staffing the Office of Talent and Development consistent with the CAO's reorganization plan.

*Congressional Staff Directory.*—The agreement encourages all agencies across the Legislative Branch to collaborate with the CAO's Legislative-Branch-Wide Staff Directory project, including sharing staff data in as modern a format and as real-time as feasible. Agencies should share as many fields and sources as would be useful to include in an online staff directory.

1000

OFFICE OF CONGRESSIONAL ACCESSIBILITY SERVICES

SALARIES AND EXPENSES

The agreement includes \$1,766,000 for salaries and expenses.

CAPITOL POLICE

SALARIES

The agreement includes \$588,627,000 for salaries of the United States Capitol Police (USCP or the Department) of which overtime shall not exceed \$74,976,000 unless the Committees on Appropriations of the House and Senate are notified. Within the amounts provided, \$3,167,000 shall be available for overtime to support mission requirements associated with the national political conventions and pre-inauguration preparedness.

*Resources for Recruitment and Retention.*—The agreement includes no less than \$15,000,000 for tuition reimbursement, student loan repayment, recruitment and retention bonuses, and other retention focused salary related items to support the Department's recruitment and retention of sworn officers and civilian personnel.

*USCP Overtime and Maximum Annual Pay Rate.*—The Department has repeatedly requested a waiver of the maximum annual pay rate for officers due to the excessive amount of overtime being worked, indicating potential impacts on officer effectiveness, morale, and work life balance. To ensure the Department's efforts to better track, manage, and keep overtime costs to a minimum, the USCP is directed to provide a detailed report to the Committees on the Department's efforts to manage the use of overtime on a quarterly basis.

The agreement does not include funds for USCP overtime for requirements associated with major construction projects undertaken by the Architect of the Capitol (AOC), as those funds are provided to the AOC as part of the overall project costs and are paid to the USCP on a reimbursable basis. The USCP is expected to operate within the designated funding level for requirements associated with each project or the USCP is directed to provide for any additional requirement costs beyond that allocation.

*Concept of Operations.*—The USCP is encouraged to continue to focus on the Department's critical mission requirements and associated resource levels to accomplish the USCP's mission. To best inform the Committees' future resource decisions within a limited fiscal allocation, the USCP shall provide a report to the Committees on the Department's multi-fiscal year implementation plan for the recently developed Concept of Operations within 90 days of enactment of this Act. Further, the plan should incorporate the Department's continued use of mutual aid with state and local law enforcement, the use of contracted security officers, and the efforts to maximize the use of its field offices and joint task force operations into its implementation report.

*Pay Classification.*—Additionally, the Department is directed to carefully evaluate the operational and resource allocation impacts of alternative asset utilization, position classification changes, alternate personnel management practices, and enhanced staffing strategies to ensure that these comport with and are integrated

into the Concept of Operations. The evaluation should include a cost-benefit analysis for the increased onboarding of full-time staff to meet mission requirements versus the use of overtime, contractors, or technology.

Because this report will contain security related information, it should be treated as law enforcement sensitive information when transmitted to the Committees on Appropriations.

*Risk-Based Protections for Members of Congress.*—The agreement provides \$2,000,000 in Salaries for the Department to provide Member security outside of the Capitol campus in the National Capital Region (NCR), as warranted by risk-based analyses. The USCP is expected to continue working closely with the House and Senate Sergeant at Arms and law enforcement partners in the NCR, as well as educating Member offices, on USCP's strategy for Members' protection within the NCR while off the Capitol Grounds, per the December 2018 report detailing the Department's plans to enhance off-campus Member security in the NCR.

*Oversight Activities.*—The agreement expects the Department to work with the United State Capitol Police Board (CPB) and provide appropriate information for all CPB oversight purposes.

*Contract Security Officers (CSO).*—The agreement continues the directive contained in Senate Report 118–60. Further, the Department is directed to include in the report the number of posts and shifts that were previously covered by sworn officers and are now assigned to CSOs, the number of annual labor hours covered by CSOs that were previously covered by sworn officers, and the total covered hours since program inception.

*USCP Office of Inspector General.*—The agreement includes no less than \$474,000 to support no fewer than 12 FTE within the USCP OIG.

#### GENERAL EXPENSES

The agreement includes \$202,846,000 for general expenses of the Capitol Police, of which \$3,200,000 shall be available to support mission requirements associated with the national political conventions and pre-inauguration preparedness.

*Drone Technologies.*—The agreement includes a provision prohibiting USCP from purchasing a drone manufactured in the People's Republic of China or by a business affiliated with the People's Republic of China. The USCP is required to regularly report to the Committees on its use of drone technologies.

*Wellness Programs for Law Enforcement.*—The Department is directed to survey the force to help shape updates to the wellness program and its accessibility to the USCP workforce and submit a report to the Committees not later than 180 days after enactment of this Act that includes the results of the survey, a prioritization of updates to be considered, and their associated cost projections.

#### OFFICE OF CONGRESSIONAL WORKPLACE RIGHTS

##### SALARIES AND EXPENSES

The agreement includes \$8,150,000 for salaries and expenses, of which \$2,500,000 shall remain available until September 30, 2025.

## CONGRESSIONAL BUDGET OFFICE

## SALARIES AND EXPENSES

The agreement includes \$70,000,000 for salaries and expenses.

*Agency Requests.*—To the greatest extent practicable under existing legal requirements, Executive Branch agencies should prioritize requests from the Congressional Budget Office (CBO) for data and other information and ensure agency procedures and permissions are in place to expedite responses to CBO requests.

## ARCHITECT OF THE CAPITOL

The agreement includes \$947,313,000 for the activities of the Architect of the Capitol.

*Minor Construction.*—The agreement directs the AOC to provide detailed quarterly reports on Minor Construction projects, including a description and cost of each project, the status of total funding set aside for each purpose, the total amount of remaining funds for the fiscal year in each area, and a description of all deviations from fiscal year projected Minor Construction projects including any reprogramming needs.

*Physical Accessibility Barriers.*—In lieu of the accessibility reports requested in House Report 118–120 and Senate Report 118–60, the AOC is directed to provide a briefing to the Committees on Appropriations within 60 days of enactment of this Act on the status and associated costs of addressing the remaining potential physical accessibility barriers on the Capitol Complex.

*Visitor Experience Master Plan.*—The Committees are displeased with the escalation in cost requirements associated with the design and construction of the Visitor Experience Master Plan (VEMP). The VEMP is intended to transform how visitors engage with the Library of Congress (the Library or LOC). The master plan presented to Congress was framed as a \$60,000,000 Public-Private Partnership. Accordingly, Congress provided \$40 million of public funding and the Library successfully raised the required private donations.

The VEMP consists of multiple sub-projects, which are planned to include AOC design and construction support. In the fall of 2022, the centerpiece of the VEMP project, an oculus visually connecting a new ground floor orientation area with the grand reading room above, was removed from the project scope because the associated costs were prohibitive. Even with this significant descoping, further cost overruns were anticipated due to design delays, significant construction contingencies, and deteriorating economic conditions. In fiscal year 2023, the LOC and AOC were directed to provide the Committees with a bi-weekly report detailing the designs, cost estimates, and anticipated timelines for construction and installation. This collaboration identified considerable disconnects between design expectations and construction realities and, regrettably, the necessity for additional funding for the plan to proceed.

In order to successfully realize the original vision of a transformed physical experience, including an Orientation Gallery, Treasures Exhibition, and Youth Center, along with associated egress requirements, the agreement includes funding for the

VEMP. The AOC is directed to use any available balances associated with the project toward the furtherance of the VEMP. The Committees strongly believe the additional descoping of this project to these three core features and necessary life safety requirements provides ample resources for completion of these elements consistent with the agreed upon timeline. Further, the AOC and LOC are directed to continue the bi-weekly reports to ensure the project is moving forward in a timely and cost-effective manner. The Committees fully expect completion of the above referenced elements being funded on time and within budget.

*AOC Office of Inspector General.*—The agreement includes no less than \$6,110,000 to support no fewer than 25 FTE within the AOC OIG.

CAPITAL CONSTRUCTION AND OPERATIONS

The agreement includes \$152,507,000 for Capital Construction and Operations, of such amount, \$3,100,000 shall remain available until September 30, 2028. Within these amounts, the agreement provides \$1,000,000 to retrofit certain nursing mothers' locations across the Capitol complex.

*Succession Planning.*—In lieu of the briefing requested in House Report 118–120, the agreement acknowledges the passage of H.R. 2670, National Defense Authorization Act for Fiscal Year 2024, which included the Architect of the Capitol Appointment Act of 2023. **DIVISION F—DEPARTMENT OF STATE, FOREIGN OPERATIONS, AND RELATED PROGRAMS APPROPRIATIONS ACT, 2024**

In implementing this agreement, Federal agencies, commissions, and other entities are directed to comply with the directives, reporting requirements, and instructions contained in H. Rept. 118–146 (House report) accompanying H.R. 4665 (House bill) and S. Rept. 118–71 (Senate report) accompanying S. 2438 (Senate bill) as though stated in this explanatory statement, unless specifically directed to the contrary.

This explanatory statement, while repeating some House report and Senate report language for emphasis or clarification, does not negate language in such reports unless expressly provided in. Language expressing an opinion or making an observation in the House report or Senate report represents the view of the respective Committee unless specifically endorsed in this explanatory statement.

Reports required to be submitted pursuant to the Act, including reports required by this explanatory statement, the House report, or the Senate report, may not be consolidated to include responses to multiple requirements in a single report, except following consultation with the Committees on Appropriations.

For purposes of this explanatory statement, the term “the Act” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2024, and the term “prior Acts” means prior Acts making appropriations for the Department of State, foreign operations, and related programs. In addition, “division K of Public Law 117–328” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2023 and “division K of Public Law 116–260” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2021.

For purposes of the Act, the term “regular notification procedures of the Committees on Appropriations” shall mean such Committees must be notified not less than 15 days in advance of the initial obligation of funds, and the term “reporting procedures of the Committees on Appropriations” shall mean a report must be provided to such Committees not more than 90 days after the conclusion of fiscal year 2024.

<sup>1</sup>This Explanatory Statement was submitted for printing in the Congressional Record on March 22, 2024, by Ms. Granger of Texas, Chair of the House Committee on Appropriations. The statement appears on page H2087 of Book II.

For purposes of the Act and this explanatory statement, the term “prior consultation” means a pre-decisional engagement between a relevant Federal agency and the Committees on Appropriations during which such Committees are given a meaningful opportunity to provide facts and opinions, in advance of any public announcement, to inform: (1) the use of funds; (2) the development, content, or conduct of a program or activity; or (3) a decision to be taken.

Federal agencies funded by the Act shall notify the Committees on Appropriations of any reprogramming, as required by section 7015 of the Act, at the most detailed level of the Congressional Budget Justification (CBJ), the Act, or this explanatory statement.

Section 7015(c) of the Act requires that any notification submitted pursuant to subsection (f) of such section include information on the use of notwithstanding authority, if known on the date of transmittal of such notification. The Secretary of State and Administrator of the United States Agency for International Development (USAID), as appropriate, shall include in such notifications detailed information on the provisions of law being notwithstanding and a justification for the use of such authority.

Congressional notifications submitted by the heads of the Federal agencies funded in the Act for funds that are being reallocated prior to initial obligation or reprogrammed shall, to the maximum extent practicable, contain detailed information about the sources of the funds and why such funds are no longer needed or intended to be used as previously justified.

The Secretary of State and USAID Administrator are directed to submit notifications for the obligation of funds made available by the Act and prior Acts not later than 60 days prior to the expiration of such funds.

Section 7019 of the Act requires that amounts designated in the respective tables included in this explanatory statement for funds appropriated in titles III through V, including tables in title VII, shall be made available in the amounts designated, unless otherwise provided for in the Act, and shall be the basis of the report required by section 653(a) of the Foreign Assistance Act of 1961 (FAA) (653(a) report), w applicable. In lieu of the funding tables and allocations of funding contained in the House and Senate reports, the tables and allocations contained in this explanatory statement shall guide agencies, commissions, and other entities when allocating funds. The Act provides that the amounts designated in the tables shall be made available notwithstanding the date of the transmission of the 653(a) report. The authority of section 7019(b) to deviate by more than 10 percent shall not be used to deviate to zero unless such funds cannot be legally obligated or conditions are such that such deviation is directly related to the national security interest of the United States.

Proposed deviations from tables in titles I and II in this explanatory statement are subject to the regular notification procedures of the Committees on Appropriations unless an exception or deviation authority is specifically provided in the Act or this explanatory statement.

The Secretary of State and USAID Administrator shall continue to provide the Committees on Appropriations electronic copies of all reports, notifications, spend plans, and any other documents re-

quired by the Act, prior Acts, this and prior explanatory statements and statements of managers, the House report, the Senate report, and prior House and Senate reports.

Notwithstanding authority included in any provision of the Act shall not be construed to exclude the requirements of such provision.

Pursuant to section 7016(b) of the Act, any Federal agency receiving funds made available by the Act shall post on its publicly available website, in a central location and in a readily accessible manner, any report required by the Act not later than 45 days following the receipt of such report by Congress. This requirement does not apply if the head of the applicable agency determines and reports to the Committees on Appropriations in a transmittal letter accompanying such report that: (1) the public posting of the report would compromise national security, including the conduct of diplomacy; (2) the report contains proprietary or other privileged information; or (3) the public posting of the report is specifically exempted in the House report, Senate report, or this explanatory statement.

For purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), with respect to appropriations contained in the Act, the term "program, project, and activity" (PPA) means any item for which a dollar amount is specified in the Act or this explanatory statement. In addition, the definition of PPA in section 7023 of the Act shall apply to the accounts listed in that section. In carrying out any Presidential sequestration, Federal agencies funded by the Act shall conform to the definition of PPA described in this paragraph.

In submitting annual CBJs, each Federal agency funded by the Act shall include detailed information on all available resources, including estimated prior fiscal year unobligated balances and recoveries, reimbursable agreements, funds transferred pursuant to section 632(a) and (b) of the FAA and significant uses of the Economy Act (31 U.S.C. 1535). Agencies that use a Working Capital Fund (WCF) shall include in CBJs the total budgetary resources for each office that receives funds from a WCF, and include a table on WCF resources that will serve as a baseline for reprogramming and transfer purposes. CBJs shall also include estimated savings from any proposed office or mission closure or reorganization, elimination of special envoys and other senior-level special representatives, and actual prior fiscal year representation and entertainment expenses for each agency w such expenses are authorized.

Spend plans submitted pursuant to section 7062(b) of the Act shall: (1) include all intended sources of funds made available by the Act and any other resources, as applicable, for such program; and (2) conform to the definition of such plan under section 7034(s)(5) of the Act.

Consistent with prior fiscal years, none of the funds made available by the Act may be used to send or otherwise pay for the attendance of more than 50 employees of Federal agencies who are stationed in the United States at any single international conference occurring outside the United States, unless the Secretary of State reports to the appropriate congressional committees at least 5 days in advance that such attendance is important to the

national interest. For purposes of this restriction, the term “international conference” means a conference attended by representatives of the United States Government and of foreign governments, international organizations, or nongovernmental organizations (NGOs).

The agreement does not endorse the directive under Senate report heading *Non-Discrimination Policies* (under Operating Expenses).
