House of Representatives

TUESDAY, OCTOBER 25, 2022

The House met at 11 a.m. and was called to order by the Speaker pro tempore (Mr. RASKIN).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
October 25, 2022.

I hereby appoint the Honorable JAMIE RASKIN to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

PRAYER

The Chaplain, the Reverend Margaret Grun Kibben, offered the following prayer:

Holy and eternal God, shine Your light into our darkness. In this time of the year when nightfall is quickly upon us, when harsh words and controversy dim any glimmer of peace and concord in our country, when angry attitudes and intransigent posturing attempt to extinguish the light of Your truth, allow Your spirit to illumine the shadows that are cast over our lives. Awaken our hearts to the light of Your love.

Even as Hindus and Sikhs throughout the United States and around the world light their lamps in the season of Diwali, we each pray for protection from the spiritual darkness that surrounds us. Defeat again the powers that threaten to obscure the hope that is found only in You.

Rouse in us the desire to please and purify our lives, and grant us Your promise for a better tomorrow.

Shine Your light into our lives and keep our lamps burning that we may reflect the joy and righteousness You offer us each day.

By the power of Your name, we ask that You would receive our prayers.

Amen.

The SPEAKER pro tempore. Pursuant to section 5 of House Resolution 1396, the Journal of the last day's proceedings is approved.

HONORING THE 2022 IKE ZERINGUE
ENGINEER OF THE YEAR CHRIS
SAUCIER

HON. DIANA HARSHBARGER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mrs. HARSHBARGER. Madam Speaker, I rise to recognize The Tennessee Valley Authority's Chris Saucier, a Resources Management and Operations Services engineer with 12 years of service, who will receive the utility's highest engineering honor—the Ike Zeringue Engineer of the Year award.

Chris serves as the technical director for the budgeted \$450 million Boone Dam remediation project. Chris leads a team of 60 engineers, geologists, and geographic information specialists. His team is responsible for design, construction oversight, dam safety performance monitoring, and quality assurance for the largest dam safety modification project in TVA history. With Chris's leadership, the Boone Dam project is scheduled to be completed on-time and under budget.

Each day, Chris helps ensure TVA's network of 49 dams operates at the highest levels of reliability to protect public safety and generate electricity to power the region's growing economy—while keeping TVA's power rates among the lowest in the nation.

Chris is also one of the top 10 finalists for the Federal Engineer of the Year Award, which will be presented February 24 at a ceremony in Washington, D.C.

Chris is a graduate of Mississippi State University and holds Master of Engineering degrees from Johns Hopkins University and Mississippi State University. Chris has also published papers in multiple engineering journals.

RECOGNIZING COLORADO EQUITY
COMPASS

HON. JASON CROW

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mr. CROW. Madam Speaker, I rise today to recognize Colorado Equity Compass for receiving the Redefining American Healthcare Award from the Healthcare Leadership Council for their efforts in tackling healthcare inequities in the community.

Founded in 2019, Colorado Equity Compass was piloted in four locations across Colorado: Denver, Larimer County, Pitkin County, and East Colorado Springs. The goal of this initial pilot program was to assess the needs of the community and examine the resources and data that would prompt communities and organizations to take action and work towards a more equitable and healthy community.

The knowledge and data gained from the pilot program helped form Colorado Equity Compass and guides the work they have done ever since. Colorado Equity Compass is driven by the belief that everyone deserves the opportunity to live a healthy life and have access to resources to make this possible. They quickly discovered through their research that this wish was not a reality for many Coloradans. Colorado Equity Compass developed a data tool called the Equity Data Navigator to identify the top social determinants of health (SDOH) down to specific communities across Colorado. Utilizing the data in the Equity Data Navigator, they show how the identified SDOH affects the people of Colorado—guiding storytelling and changemaking efforts.

Colorado Equity Compass is the first recipient in Colorado to receive the Redefining American Healthcare Award from the Healthcare Leadership Council. This award recognizes best practices, programs, and organizations in communities across the nation that work to effectively address and improve health inequities. Colorado Equity Compass works in collaboration with Change Matrix, the Colorado Health Institute, Colorado Trust, and Consume & Create to provide stories, data, and resources to organizations in the community who can use this information to improve the lives of Coloradans.

It goes without saying that our community benefits greatly from the tireless work Colorado Equity Compass does to improve health equity and outcomes across the state. I am proud to recognize and congratulate Colorado Equity Compass for receiving this well-deserved award and thank them for their continued efforts tackling historic inequities faced by long-disadvantaged communities across Colorado.

IN RECOGNITION OF HANAC, INC.

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mrs. CAROLYN B. MALONEY of New York. Madam Speaker, I rise to pay tribute to HANAC, Inc., a not-for-profit organization, on the occasion of its 50th anniversary celebration. For half a century, HANAC has been working to empower and serve the needs of New York City's most vulnerable residents.

Founded in 1972 by Evangeline Douris and her late husband George T. Douris as the Hellenic American Neighborhood Action Committee, HANAC has a long history of improving our community through a variety of public services designed to help seniors, immigrants, families, youth, and those fighting alcohol and substance abuse.

HANAC continues its mission by developing, implementing, and administering the operation of service programs for the betterment of the community; providing these services to any and all who are in need without discrimination as to race, creed, national origin or other defining characteristic; and working closely with other providers, the city, state and federal governments for the betterment of the community.

Through education programming, employment training, counseling, and senior and family housing, HANAC directly helps to improve the lives of over 35,000 people and their families annually. HANAC has grown into one of the city's largest providers of social services and continues to demonstrate its loyalty to a principle that is the bedrock of our nation: a community is strongest when those who live in it look out for one another.

HANAC currently operates—either independently or in partnership with other entities—several hundred units of low-income senior housing with plans to expand this number by hundreds of additional units. As the city continues to face an affordability crisis in housing, HANAC has provided a critical resource allowing New Yorkers to spend their golden years in the communities in which they have long lived.

In addition to its affordable housing, HANAC operates four senior centers which provide senior specific programming to thousands of Queens residents including New York City Housing Authority residents in western Queens.

Madam Speaker, I ask my colleagues to join me in recognizing the amazing work done by HANAC and in expressing my gratitude for the immense dedication of all the employees, board members, and supporters that have allowed HANAC to improve the lives of so many in our city.

CELEBRATING SPINA BIFIDA
MONTH

HON. LUCILLE ROYBAL-ALLARD

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Ms. ROYBAL-ALLARD. Madam Speaker, I rise today to commemorate October as National Spina Bifida Awareness Month, to honor the 166,000 Americans living with this condition, and to draw attention to the critical challenges we must address to ensure that each and every one of these individuals can achieve their full human potential and have the quality of life they deserve.

According to the Spina Bifida Association of America, Spina Bifida is the most common permanently disabling birth defect compatible with life in the U.S. Literally translated as "split spine," it is a condition that occurs when a baby's neural tube fails to develop or close properly. Typically occurring within the first 28 days of pregnancy while the neural tube is forming, Spina Bifida often develops before a woman even knows she is pregnant.

Before 1960, the survival rate for all forms of Spina Bifida was 10 percent to 12 percent. But over the last 6 decades, advances in research and medicine, along with policies supportive of children with disabilities, have ensured that nearly two-thirds of Americans currently living with Spina Bifida have made it to adulthood. And while these strides are certainly worth celebrating, people with Spina Bifida—particularly adults—continue to face a crisis of care that could be largely prevented with the right resources and policies.

Spina Bifida is commonly referred to as the "snowflake condition" of birth defects because no two cases are the same. Children born with this condition typically undergo dozens of surgeries before they reach the age of 18. And

during their lifetime, someone with Spina Bifida will face at least a \$1 million in medical expenses, including surgeries continuing throughout adulthood, and most can expect to spend much of their lives in a wheelchair or walking with braces.

One significant challenge facing this population is that, while we have a coordinated system of care designed to treat children with Spina Bifida in the U.S., there is no equivalent for adults. Spina Bifida is still largely taught in medical schools as a pediatric condition and education has failed to keep pace with the rapid rise in the adult Spina Bifida population. The result is that adults face a “care cliff” and enter a very fractured medical system where they are unable to find physicians willing or even knowledgeable enough to provide treatment. Thousands of adults are left with few options other than to seek care in the emergency room or continue to see their pediatric care team until insurance will no longer cover their care because of their age.

To make matters worse, many of these adults rely on Medicaid as their insurance provider, so even if they have the means to travel to an adult specialist who may be located in another state—as is often the case—their coverage is denied. Across the country, there are more than 100 pediatric clinics devoted to caring for children with Spina Bifida. There are less than 30 whose focus is on adults.

There are a number of concrete steps at the federal level we could take that would make dramatic improvements in the ability of adults with Spina Bifida to access quality care. One is to increase funding of the CDC’s National Spina Bifida Program—the sole federal program tasked with improving the care and outcomes for people with Spina Bifida. In 2008, the Spina Bifida Program created a National Spina Bifida Patient Registry to collect the scientific data needed to evaluate existing medical services for Spina Bifida patients, and to provide clinicians, researchers, patients, and families a window into what care models are effective and what treatments are not making a measurable difference. Building on this in 2014, the Spina Bifida Program funded the development of a Spina Bifida Collaborative Care Network to identify and to disseminate best practices for the care of people with Spina Bifida at all ages. However, with only \$7.5 million in annual funding, there are only 11,000 patients in the national registry, limiting the ability of medical professionals to glean knowledge that would advance research in areas critical to improving quality of life. Even modest increases to this funding would make an enormous difference.

Another important step would be to reform Medicaid policies to require coverage or treatment received across state lines for rare disorders, as there simply aren’t enough specialists in each state to provide the care that people with Spina Bifida desperately need and deserve.

And finally, we must continue to allow patients to receive insurance coverage for telehealth services once the COVID-19 emergency declaration expires. Telehealth is a critical tool in improving health outcomes for everyone, particularly those with unique conditions where care isn’t easily accessible geographically.

We are so fortunate today that our country is benefiting from the talent and contributions of the first generation of adults living with

Spina Bifida. Today, I honor and celebrate all of them, along with their care partners, and also remember those we have lost to this condition. I urge my colleagues to not only increase funding for the National Spina Bifida Program, but to work together to reform insurance policies so that these Americans receive the care and treatment all of us want for our families and loved ones.

HONORING CONGRESSIONAL LIAISON FROM INDIANA LOIS J. WAGONER

HON. JAMES R. BAIRD

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mr. BAIRD. Madam Speaker, today I rise to honor Congressional Liaison Lois J. Wagoner on her sixty years of government service.

Ms. Lois J. Wagoner began working as a civilian clerk typist at Fort Sill, Oklahoma in 1961. Ten years later, she came to the U.S. Department of Veterans Affairs to work in the Finance Division of the Indianapolis Regional Office as a program support clerk.

Further on in her career, she became a Veterans Benefits Counselor and eventually was named the Congressional Liaison in 1990. This position required Ms. Wagoner to work and communicate regularly with Veterans and the offices of D.C. government officials.

I am pleased to add that Ms. Wagoner was recognized with many awards including the Indianapolis Regional Office’s Employee of the Year award in 2009 and two awards from the Disabled American Veterans titled the National Commanders’ Award for the Veterans Benefits Administration in 2020 and the Award of Excellence in 2021 at their annual convention.

Ms. Wagoner has been a valuable resource for countless American heroes by directly supporting Veterans and providing families with the knowledge they need to care for their loved ones. Her passion for public service is unparalleled, and I believe her journey will act as inspiration for those who wish to follow in her footsteps.

While Ms. Wagoner has traveled all across the country to serve, it is within The Hoosier State where she has made a distinctive impact. I, along with other Veterans in Indiana’s 4th Congressional District, am proud of all she has done for those who fearlessly defended freedom and democracy.

On behalf of all Hoosiers, I want to congratulate Ms. Lois J. Wagoner, we truly value her six decades of dedicated public service.

IN RECOGNITION OF JOE VAN WYE AND HIS SERVICE TO THE HOUSE JUDICIARY COMMITTEE

HON. JERROLD NADLER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mr. NADLER. Madam Speaker, I rise, along with DAVID CICILLINE, Chair of the Subcommittee on Antitrust, Commercial, and Administrative Law to thank Joe Van Wye for his service to the Committee on the Judiciary.

Joe received his bachelor’s degree from Brown University and began his career in pub-

lic policy as a Staff Assistant and then Legislative Correspondent for Representative DAVID CICILLINE. Joe first joined the Judiciary Committee as a Professional Staff Member, Legislative Aide, and Clerk in February 2019 for the Subcommittee on Antitrust, Commercial, and Administrative Law.

Joe’s work was essential to the success of many of the Subcommittee’s activities. For three years, Joe served as clerk for all the Subcommittee’s business, including Subcommittee hearing preparation and markups, as well as coordination of briefings, press conferences, and events for congressional staff and advocacy groups.

Joe also worked on legislation to end forced arbitration so that survivors of sexual assault or harassment could bring their stories out of the shadows and pursue justice in our courts. He helped lead the Subcommittee’s efforts to pass the Forced Arbitration Justice Repeal Act, the Justice for Servicemembers Act, and the Ending Forced Arbitration of Sexual Harassment Act—the last of which became law in March 2022, codifying one of the most important workplace reforms in our nation’s history.

Joe was also instrumental to the Subcommittee’s investigation of competition in digital markets in the 116th Congress. He was essential to the Subcommittee’s collecting of more than 1.2 million documents as part of the investigation, and helped prepare the Subcommittee’s 2020 report entitled “Investigation of Competition in Digital Markets: Majority Staff Report and Recommendations.” This report released findings and recommendations following a 16-month bipartisan investigation into the state of competition in the digital economy, with a focus on the challenges presented by the dominance of Amazon, Apple, Facebook, and Google. The Committee on the Judiciary held a markup and formally adopted the Report in April 2021.

Throughout all of his work, Joe brought his passion for public policy, commitment to justice and equity, and good humor. Our Committee, Congress, and the American people greatly benefited from his service.

While we are sad to see Joe go and he will certainly be missed, we are happy that he will continue to serve the public interest in his new non-profit role advocating for a fair, inclusive, and competitive food and agriculture system.

We thank Joe Van Wye for his service to the Committee and wish him the best of luck with this new chapter.

RECOGNIZING SPINA BIFIDA AWARENESS MONTH

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mr. SMITH of New Jersey. Madam Speaker, each October we recognize National Spina Bifida Month and pay tribute to the nearly 166,000 Americans living with Spina Bifida—the most common permanently disabling birth defect compatible with life.

Literally translated as “split spine,” Spina Bifida is a condition that occurs when a baby’s neural tube fails to develop or close properly. Typically occurring within the first 28 days of pregnancy while the neural tube is forming, Spina Bifida often develops before a woman even knows she is pregnant.

Sponsored by the Spina Bifida Association (SBA), National Spina Bifida Awareness Month is a time to highlight the needs of the community and recognize the importance of the work done year-round to advance research, programs, and policies aimed at meeting those needs.

As co-chair of the Congressional Spina Bifida Caucus, I've had the honor to work alongside SBA to advance Spina Bifida awareness, research, and public health efforts in Congress. Founded in 1973, SBA is the Nation's only organization solely dedicated to advocating for and assisting those living with and affected by this debilitating birth defect.

Through its nearly 60 chapters in more than 125 communities, the SBA brings expectant parents together with those who have a child with Spina Bifida. This interaction helps to answer questions and concerns, but most importantly it lends much needed support, solidarity, inspiration, and hope.

Madam Speaker, Spina Bifida is a birth defect that can happen to anyone. Every day, an average of eight babies are affected by Spina Bifida and approximately 3,000 pregnancies are affected by this birth defect each year.

We do not know the exact cause of this condition, but research has found that if a woman takes 400 mcg of folic acid every day before she becomes pregnant, she reduces her risk of having a baby with Spina Bifida or another neural tube defect by as much as 70 percent.

No two cases of Spina Bifida are ever the same and so this birth defect is commonly referred to as the "snowflake condition." Children born with Spina Bifida typically undergo dozens of surgeries before they reach the age of 18. And during their lifetime, someone with Spina Bifida will face at least \$1 million in medical expenses, including multiple surgeries, and most can expect to spend much of their lives in a wheelchair or walking with braces.

Despite these challenges—and thanks to advances in research and medicine, along with policies supportive of children with disabilities—nearly two-thirds of Americans currently living with Spina Bifida have made it to adulthood. And while these strides are certainly worth celebrating, people with Spina Bifida—particularly adults—continue to face a crisis of care that could be largely prevented with the right resources and policies.

There are number of concrete steps we could take that would make dramatic improvements in the ability of adults with Spina Bifida to access quality care. One is to increase funding of the CDC's National Spina Bifida Program—the sole federal program tasked with improving the care and outcomes for people with Spina Bifida.

In 2008, the Spina Bifida Program created a National Spina Bifida Patient Registry to collect the scientific data needed to evaluate existing medical services for Spina Bifida patients, and to provide clinicians, researchers, patients, and families a window into what care models are effective and what treatments are not making a measurable difference.

Building on this in 2014, the Spina Bifida Program funded the development of a Spina Bifida Collaborative Care Network to identify and to disseminate best practices for the care of people with Spina Bifida at all ages. However, with only \$7.5 million in annual funding, there are only 11,000 patients in the national

registry, limiting the ability of medical professionals to glean knowledge that would advance research in areas critical to improving quality of life.

Even modest increases to this funding would make an enormous difference. Spina Bifida research needs dedicated funding to ensure a better future for Americans with Spina Bifida.

This past summer, Christopher Rosati—a young man living with Spina Bifida—worked as an intern in my Washington, D.C. office.

I originally met Chris during an advocacy day nearly 18 years ago when he was just 4 years old. After those early days, Chris and I met again when he worked as an intern in my NJ office. Based on his good works, we offered him an internship in my office on Capitol Hill. At each location, during each internship, Chris proved to be a smart, hardworking, reliable member of the team.

Undeterred by physical challenges inherent in a commute and in some workspaces, Chris has set his sights on public policy and making a difference. This fall he returned to school as a senior at The College of New Jersey. My entire staff and I have been truly inspired by Chris' determination, dedication, good nature, and success. I am grateful for his contributions in my office, and we all look forward with enthusiasm and anticipation to the positive impact he will bring and the advances he will help achieve—for himself and the populations he will act on behalf of—in any career he pursues.

Madam Speaker, with added federal support, more people living with Spina Bifida could receive assistance they need along their life's journey. I invite my colleagues to join me in this mission and join me in the Spina Bifida Caucus to broaden our efforts and advance the goal of a better future for people living with Spina Bifida.

HONORING TURNER MORGAN AS
IOWAN OF THE WEEK

HON. CYNTHIA AXNE

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mrs. AXNE. Madam Speaker, I rise today to honor Turner Morgan as Iowan of the Week. Turner was born in Council Bluffs, attended Lewis Central High School, and currently lives in Council Bluffs with his wife Abby and his son JJ Murphy. Turner serves the public as the Neighborhood Coordinator for the non-profit The 712 Initiative by bringing people together and strengthening the Council Bluffs community in creative and innovative ways.

After graduating from Creighton University, Turner began working for Habitat for Humanity in Omaha. With Habitat for Humanity, he helped coordinate thousands of volunteers building affordable housing for low-income individuals. Turner remains grateful for the opportunity to help those in need, while gaining a greater understanding of the challenges involved with affordable housing.

Turner came to The 712 Initiative in Council Bluffs three years ago, serving as their Neighborhood Coordinator. Turner took the initiative to go door to door to meet people where they are and identify the needs of the Council Bluffs community. Increased social connectivity and neighborhood development were two common themes that persisted in these conversations, and so Turner began working to help improve these areas. Turner, alongside fellow 712 Initiative staff, crafted popular social engagement programming to increase community connectivity. High in popularity is their Block Party Trailer, which The 712 Initiative provides freely so that neighborhoods can put on a block party to get people out of their homes and connect with their neighbors. By removing some of the logistical barriers to community organizing, Turner and The 712 Initiative have helped people know one another better and facilitate more collaborative neighborhoods.

Turner plans to continue working with The 712 Initiative to improve housing development as well. The organization has renovated a number of properties in the Council Bluffs area in need of substantial improvements. These renovations not only directly improve the quality of those homes but also indirectly improves the quality of the homes surrounding it.

ADDITIONAL INFORMATION
REGARDING DANIEL KANDALAFI

HON. MICHAEL F. DOYLE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mr. MICHAEL F. DOYLE of Pennsylvania. Madam Speaker, I seek to correct an injustice to Mr. Daniel Kandalafi, a Lebanese citizen with three American children. At a hearing examining Hezbollah's financial network before the Committee on Foreign Affairs on June 8, 2017, a private citizen provided a prepared statement—now printed in the Hearing Record—that identifies certain individuals as arrested in France for financing terrorism under Operation Cedar, a January 2016 coordinated, multinational law enforcement action undertaken by authorities in France and other European countries. U.S. law enforcement, including the U.S. Drug Enforcement Agency (DEA), assisted French authorities.

The statement entered into the Hearing Record incorrectly includes Mr. Kandalafi as having been arrested in France. A detailed examination of the complete and official French Operation Cedar case file reveals that Mr. Kandalafi was not investigated, charged, or even asked to serve as a witness. Indeed, there is no mention of Daniel Kandalafi in the law enforcement investigative reports or court filings for Operation Cedar in France. The DEA, having no authority in France, could not (and had no reason to) arrest Daniel Kandalafi and confirmed that it "does not have authority to perform arrests or detainments" in France.

It is incumbent upon this great institution, the U.S. House of Representatives, to correct the false statement in a Congressional hearing from so many years ago which has unfairly and unjustly tarnished Mr. Kandalafi's good name and reputation.

I include in the RECORD the sworn affidavit of William Julié—a licensed attorney at law in France (*avocat à la cour*) who has reviewed the entire Operation Cedar case file (registered in France under prosecution number 15037000675), and who obtained authorization from French authorities to release information contained in the case file—as part of my statement and insertion in the CONGRESSIONAL RECORD. Names other than Mr. Kandalaft and the affiant (Mr. Julié)—including any agent of the DEA or Hezbollah—are redacted from the below Affidavit for privacy reasons (and marked as “[REDACTED]”), as are the exhibits to the Affidavit and any internal references to same (which are simply deleted).

AFFIDAVIT OF WILLIAM JULIÉ

I, William Julié, subscribe and swear as follows:

1. I am a dual national and hold passports issued by both France and the United Kingdom.

2. I am bilingual and speak fluent French and English.

3. I am a resident of Paris, France.

10. I represented [REDACTED] as his defense counsel from my appointment during the investigation stage in September 2016 through trial and ultimately the rendering of judgement by the Paris correctional court on November 28, 2018. In this role, I was provided and remain in possession of a complete copy of the case file, as required by French law, which is registered under the prosecution number 15037000675. 11. Operation Cedar was a coordinated, multinational law enforcement action in January 2016 undertaken by authorities in France and other European countries targeting criminal operations in Europe related to the organization known as Hezbollah (also known as—or “aka”—Hizballah). United States law enforcement, including the U.S. Drug Enforcement Agency (DEA), assisted French authorities in executing Operation Cedar.

12. On January 24, 2016, following telephone interceptions revealing the planned arrival

in France of Operation Cedar targets [REDACTED] and [REDACTED], French police confirmed the targets were on the passenger list for flight ME 205 from Beirut to Paris, which was scheduled to land that day at Roissy Charles de Gaulle Airport, Paris. After the arrival of the flight, [REDACTED] and [REDACTED] were arrested (“*interpellé*”), placed in custody (“*en garde à vue*”) and questioned by French authorities. 17. On January 28, 2016, after four days in custody, [REDACTED], [REDACTED], [REDACTED], [REDACTED], and [REDACTED] were brought before the investigating magistrate (a judge). The minutes of the examination by the investigating magistrate do not mention Daniel KANDALAFT.

18. On January 20, 2016, the French investigating magistrate issued an international arrest warrant against [REDACTED]. On January 22, 2016, the French public prosecutor issued an European arrest warrant against him. On May 15, 2016, he was arrested in Belgium and jailed until April 1, 2016, when he was surrendered to France. On April 1, 2016, following his transfer from authorities in Belgium at the Hensies/Saint-Aybert border, French police officers arrested [REDACTED], placed him in custody, and brought him before the judge of liberties and detention, who ordered his detention until his first appearance before the investigating magistrate. On April 4, 2016, he was brought before the investigating magistrate and interrogated. The same day—April 4, 2016—the judge of liberties and detention placed him under French judicial supervision and control (“*sous contrôle judiciaire*”) and imposed, among other obligations, a requirement not to leave French territory without prior authorization from the investigating magistrate, to surrender his passport to the Tribunal, and to visit a police station in Paris weekly. On May 25, 2016, the investigating magistrate issued an order authorizing the return of [REDACTED]’s passport and granting permission to live in Belgium, subject to

continued weekly visits to a police station in Paris. The investigating magistrate interrogated [REDACTED] on May 3, 2016, and again on December 14, 2016. The investigating magistrate’s order does not mention Daniel KANDALAFT.

20. On November 28, 2018, the Paris correctional court rendered its judgement against the 15 accused individuals. Except for [REDACTED], who was acquitted of all charges, all others were convicted of one or more of the charges against them. The judgement does not mention Daniel KANDALAFT.

21. In France, any arrest or official interrogation must be recorded in a written document and presented ultimately to defense counsel as part of the complete case file. If Mr. Kandalaft was arrested or interrogated in relation to Operation Cedar, his name should have appeared in the case file. It did not. In this case, Daniel KANDALAFT was not investigated, charged, or asked to serve as a witness, and there is no mention of him at all in the case file.

22. I declare under penalty of perjury under the laws of France and the United States of America that the foregoing is true and correct. Executed in Paris, France on October 15, 2020.

IN MEMORY OF GARRY WADE OWENS, INTERNATIONAL CIVIL RIGHTS ADVOCATE AND PUBLIC SERVANT

HON. ADAM SMITH

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mr. SMITH of Washington. Madam Speaker, I rise to recognize Garry Wade Owens for his many years of service as a civil rights advocate and public servant.

Garry Owens is a Seattleite from birth. During his senior year at Franklin High School, he was part of the Seattle chapter of the Congress of Racial Equality, playing a pivotal role for African Americans in the civil rights movement. After his military service, he worked toward resolving discrimination and equity for

marginalized communities. He was a founding member of the University of Washington's Black Student Union and Seattle Chapter of the Black Panther Party in 1968, focusing on providing necessities and education to African American families and workers. He also worked for the City of Seattle's Department of Neighborhoods for 24 years as one of the first community organizers who helped the city with their outreach to underrepresented regions. He later became the manager for the Neighborhood Matching Fund, providing support to specific community projects.

In addition, he joined the Legacy of Equality Leadership and Organizing board in 1991 and traveled to serve as an agent of solidarity in Cuba, Canada, Brazil, Mexico, South Africa, and throughout the United States. He focused on community organizing, popular political education, and international networking to empower workers of color to have a voice and speak for themselves.

My office and I were pleased to have worked with Garry through his advocacy and are saddened to hear of his passing. He and his contributions to our community will be sorely missed.

Madam Speaker, it is my privilege and honor to remember Garry Owens for the achievements he made during his lifetime.

RECOGNIZING COCOA POLICE DEPARTMENT'S K-9 BEAR FOR HIS YEARS OF BRAVE SERVICE TO RESIDENTS OF COCOA, FLORIDA

HON. BILL POSEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mr. POSEY. Madam Speaker, I rise today to recognize the retirement and brave service of K-9 Bear to the Cocoa Police Department and to our Congressional District. K-9 Bear, the 9-year-old German Shepherd, not only fulfilled his duty to protect his partner, K-9 Officer Dan Rhoades, but protected his community for more than eight years.

K-9 Bear started in 2014 working as a dual-certified patrol K-9 at the Cocoa Police Department. There he underwent comprehensive trainings in everything from tracking fleeing suspects to locating missing persons, as well as finding illegal drugs and other evidence in criminal cases. K-9 Bear also served alongside the elite Cocoa Police Department's SWAT team.

During his career, K-9 Bear worked to recover illegal drugs, taking them off the streets, keeping our families and neighborhoods safe. Many say fleeing suspects gave up the fight at just the sound of K-9 Bear's ferocious bawl. K-9 Bear and K-9 Officer Dan Rhoades' close relationship produced results, and K-9 Bear's exemplary skills and dedication proved to be a valuable asset to the department and the community.

America's Top Dog, on A&E Network, a show where the most elite police K-9 teams compete, even highlighted K-9 Bear and Officer Rhoades' special partnership. Team Bear, demonstrating their most excellent skills, won the competition and brought home a \$10,000 prize to donate to the Cocoa High Athletics Department for an improvement project. Because of K-9 Bear's efforts, America's Top

Dog made an additional \$5,000 donation to the charity of their choice, the Space Coast K-9 Competition, presented by the Cocoa Police Department in partnership with Space Coast Police K-9 Foundation.

K-9 Bear was not just a tool to help his human police officer. K-9 Bear was, and will always be, a loyal friend. Today we celebrate K-9 Bear's tenure at the Cocoa Police Department and commend him for always doing his duty to protect our community. I urge my colleagues to join me as we wish K-9 Bear well in retirement.

HONORING CHASE MOORE

HON. FREDERICA S. WILSON

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Ms. WILSON of Florida. Madam Speaker, I rise to honor the service of Chase Moore, my fellow who dedicated his time to the people of Florida's 24th Congressional District. Chase has proven to be a very capable and adaptable young man. He shows great promise for his future endeavors.

Chase provided support for my education, labor, transportation, and infrastructure portfolios. He has shown a great understanding of the legislative process and his ability to quickly grasp new concepts.

The son of Calynn Moore, Chase attended the University of Texas as a player for the Texas Longhorns. He received his bachelor's degree in Sociology and his Master's degree in Educational Policy and Planning. During his time at the University of Texas, he founded a mentorship program for inner-city youth and took part in various study abroad programs. He is motivated to ensuring equity amongst Black men and boys, eradicating the school-to-prison pipeline, and improving education policy directly affecting inner city and marginalized youth.

On behalf of Florida's 24th Congressional District, I ask my colleagues to join me in honoring Chase Moore for his present and future accomplishments.

IN RECOGNITION OF THE FLOATING HOSPITAL

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mrs. CAROLYN B. MALONEY of New York. Madam Speaker, I rise to recognize The Floating Hospital for its incredible work to provide healthcare services to medically underserved people living in New York City's Twelfth Congressional District, which I have the privilege to represent.

Founded in 1866, The Floating Hospital was one of the first healthcare charities in New York City and was originally dedicated to caring for the sick children of families living in tenement homes. Today, The Floating Hospital remains committed to the mission of providing healthcare to those in need and provides primary medical, dental, specialty, behavioral health, infectious disease, and reproductive health services to families living in

shelters and domestic violence safe houses throughout the city, as well as the medically underserved community of Northwest Queens.

Throughout my time in Congress, I have worked with The Floating Hospital to ensure that the public housing communities of Astoria, Ravenswood, and Queensbridge Houses in Northwest Queens have access to the healthcare that they need. Thanks to the Affordable Care Act, in 2012, The Floating Hospital received a \$920,833 federal grant to operate a community health center at Queensbridge Houses, which is the largest public housing development in the nation. Since then, The Floating Hospital has provided lifesaving care to the residents of Queensbridge Houses, including tests for COVID-19.

Earlier this year, I also partnered with The Floating Hospital to bring a temporary medical care unit to public housing residents living at Astoria Houses. Since April, staff from The Floating Hospital have provided COVID-19 tests and vaccines to hundreds of residents, which were greatly needed given how few COVID-19 testing and vaccine sites were located within a walkable distance of Astoria Houses.

Healthcare is and should always be a human right, and The Floating Hospital is helping to make that a reality for so many New Yorkers. I commend The Floating Hospital for its work in my district, under the leadership of the great Sean Granahan, and look forward to following their work to provide this critical resource those who need it.

Madam Speaker, I ask my colleagues to join me in recognizing the amazing work being done by The Floating Hospital and to wish them all the best success as they continue to expand health care options to the most underserved New Yorkers.

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mr. CROW. Madam Speaker, I rise today to recognize DIRT Coffee in Littleton, Colorado for creating an inclusive work environment for neurodiverse Coloradans and those with Intellectual and Developmental Disabilities (IDDs).

DIRT, which stands for Divergent, Inclusive, Representation, Transform, is committed to disability justice and transforming hiring practices to include more equitable opportunities in the workplace for neurodivergent individuals. Currently, DIRT Coffee works to hire, train, and empower neurodivergent individuals through their Inclusive Workforce Employer Program.

They quickly became a leader in providing inclusive employment opportunities for neurodivergent Coloradans, and in 2018, DIRT opened its first location in Littleton—providing internships and long-term employment for neurodivergent individuals.

In 2021, DIRT provided more than 1,000 hours of job training to over 30 neurodivergent

individuals, bringing the total people helped to over 140 across the community. DIRT doesn't stop there, they have also provided more than \$50,000 in scholarships to families who need it the most. In 2022, DIRT opened its second location in Denver to try to expand its reach and community impact.

DIRT Coffee aims to create a more equitable and inclusive workforce. It goes without saying that they've had not only a tremendous impact on the lives of neurodivergent individuals who they have employed, but also our community as a whole. DIRT works tirelessly to cultivate a culture of acceptance, and I am proud to recognize and thank them for being an inspiration to us all.

SPINA BIFIDA AWARENESS MONTH

HON. KEVIN HERN

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mr. HERN. Madam Speaker, I recognize today as National Spina Bifida and Hydrocephalus Day, and additionally October as National Spina Bifida Month. Spina Bifida impacts families across our great nation, including my own; many in my family have suffered with Spina Bifida.

Spina Bifida is a birth defect which forms from a hole in the spiral cord where it fails to close properly, allowing nerves and fluid to form a sac outside the body. To correct this, the child must undergo dozens of surgeries before they become adults, and even then, they face a myriad of physical and mental health issues. No two children will be affected the same way, as each condition is unique.

In a testament to the innovation and research of our American scientific ingenuity, we currently have the first generation of adults to live with Spina Bifida. Still, there is much work to do. It is our responsibility to ensure proper funding for Spina Bifida care and research so that both treatment and quality of life improve for all Americans with the condition.

Tuesday, October 25, 2022

Mr. HIGGINS of Louisiana. Madam Speaker, I rise today to honor Rita Jeanne Hebert Domingue of Lafayette, Louisiana, on 100 years of life. Jeanne, as she is known to loved ones, is a hardworking wife, mother, grandmother, and great-grandmother.

Jeanne was born in Parks, Louisiana on October 22, 1922. Her family moved to Lafayette in the late 1920s, where she attended Mount Carmel High School. After graduation, Jeanne continued her education at Southern Louisiana Institute and earned a degree in secretarial science in 1944.

After graduating, Jeanne went on to work for Lafayette Power Utilities for three years until Robert Louis Domingue returned from overseas duty during World War II. She and Robert were married in 1946 and went on to have five children: Ron, Rita, Michael, Garry, and Clare.

30TH ANNIVERSARY OF THE ESTÉE LAUDER COMPANIES' BREAST CANCER CAMPAIGN

HON. KATHLEEN M. RICE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Miss RICE of New York. Madam Speaker, I rise today to recognize October as Breast Cancer Awareness Month and to celebrate the 30th Anniversary of The Estée Lauder Compa-

nies' critical Breast Cancer Campaign. I am proud to join my colleagues in Congress and individuals around the world in recognizing those fighting breast cancer.

Breast cancer is the most common form of cancer for women in the United States, with an estimated 280,000 women, as well as thousands of men, diagnosed with the disease each year according to the National Cancer Institute. With so many people around the world at risk for breast cancer, it is crucial to raise awareness so that the disease can be diagnosed and treated as early as possible.

Through its Breast Cancer Campaign, The Estée Lauder Companies have made great progress towards this goal. Whether it is in funding lifesaving research, improving healthcare access for disadvantaged people, supporting patients and their families through difficult diagnoses, or raising the public's awareness with the pink ribbon, the campaign is closer to realizing a world without breast cancer.

However, despite the significant progress over the past thirty years, we cannot rest until we are rid of breast cancer. That is why I am proud to support the ongoing work done by the Estée Lauder Companies' Breast Cancer Campaign. Please join me in recognizing October as Breast Cancer Awareness Month to further spread awareness of this disease and sustain those affected by it.

RECOGNIZING THE CONTRIBUTION OF THE HOLSTON ARMY AMMUNITION PLANT

HON. DIANA HARSHBARGER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mrs. HARSHBARGER. Madam Speaker, I rise today to recognize the 80th anniversary of the Holston Army Ammunition Plant.

For the last eight decades, The Holston Army Ammunition Plant (HSAAP) and the great patriots of the Tri-Cities area have played a significant role in defending our homeland. The HSAAP was established in 1942 after Tennessee Eastman revolutionized the production of RDX at the Wexler Bend Pilot Plant. Due to their success, the US government would assign Holston the mammoth mission of mass producing Composition B.

As the Battle of the Atlantic was raging, The US military and its allies needed as much Composition B as they could get their hands on. This new war compound was needed due to previous munitions being too weak to penetrate U-Boat armor. No time could be wasted, as German U-boats were sinking the American merchant ships at the rate of five to six per day. Without hesitation, Holston operated 24 hours a day, seven days a week to meet its mission. Before mid-1943, one U-boat was lost for every 100,000 tons of shipping sunk; afterward, one U-boat was lost to 10,000 tons of shipping. This massive shift could not have occurred without the large-scale use of Torpex munitions.

The HSAAP's contribution to World War II is incalculable. Holston's mass production of Composition B saved countless American lives and helped end the war much sooner.

Except for a four-year standby period immediately following V-J Day, HSAAP has been in

continuous production since its initial construction in 1942 through 1944. From the Korean War to the campaign against ISIS, Holston has been relied on to supply the war effort.

Madam Speaker, The Holston Army Munitions Plant has dutifully served the American War effort. Without the blood, sweat, and tears of Holston workers, many of our battles could have ended differently.

IN RECOGNITION OF GABRIEL BARNETT AND HIS SERVICE TO THE HOUSE JUDICIARY COMMITTEE

HON. JERROLD NADLER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mr. NADLER. Madam Speaker, I rise to thank Gabriel Barnett for his service to the Committee on the Judiciary.

Gabriel received his bachelor's degree from the University of Pennsylvania and began his career in public policy and advocacy on the Biden for President campaign as the Deputy Director for National Jewish Engagement. Gabriel first joined the Judiciary Committee as a Staff Assistant in June 2021, and in April 2022 was named Professional Staff Member to the full committee.

As Staff Assistant, Gabriel supported the full committee's senior staff and myself directly. A core part of my administrative team, Gabriel acted as assistant clerk for over 40 hearings

and 12 markups and oversaw the committee's internship program. When two full committee staff left their positions, Gabriel seamlessly assumed their duties in addition to his own and worked diligently to support the Staff Director and two Deputy Staff Directors for all of their research and administrative needs.

Recognized for his dedicated service, Gabriel was promoted to Professional Staff Member for the full committee. He prepared weekly memoranda for me for House committee leadership meetings and worked with our Member Services, Communications, and Digital Directors on highlighting committee accomplishments for the 117th Congress. In addition, because of his keen expertise in Israeli foreign policy and Jewish issues, Gabriel worked closely with my staff director to make policy recommendations and meet with key stakeholders in these issue areas. Gabriel was also a founding member of the committee's first diversity, equity, and inclusion working group to facilitate trainings, plan initiatives, enhance our recruitment, and be a resource to other staff on diversity, equity, and inclusion.

Throughout all of his work, Gabriel brought his commitment to public policy, a tireless work ethic, and a devoted dedication to justice for all. Our Committee, Congress, and the American people greatly benefited from his service.

While we are sad to see Gabriel go and he will certainly be missed, we are happy that he will continue to serve the public interest in his new role at the White House.

We thank Gabriel Barnett for his service to the Committee and wish him the best of luck with this new chapter.

HONORING OFFICER JUAN
ALTAMIRANO

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mr. THOMPSON of California. Madam Speaker, I rise today to honor Juan Altamirano, an officer with the Lakeport Police Department. I have named Mr. Altamirano a Public Safety Hero of the Year for Lake County in California's 5th District as a result of his extraordinary selflessness, dedication and service to others.

Mr. Altamirano was born in Phoenix, Arizona and raised in Yuma. In addition to his service as a patrol officer at LPD, Mr. Altamirano has also served as their driving instructor and School Resource Officer.

In February 2021, Mr. Altamirano responded to a suspicious vehicle call after a pickup truck was found broken down on a busy roadway. When officers arrived on scene, they encountered a family that had all their possessions in the vehicle and no resources to fix or move it. Demonstrating incredible generosity, Mr. Altamirano used his own resources to have the vehicle towed to a safe location so that it would not be taken from the family. This remarkable act of kindness was not unprecedented for Mr. Altamirano, who had purchased food and water for a stranded elderly motorist just a few months prior. He has also helped raise funds for and performed in a recent Lake Family Resource Center play.

Madam Speaker, there is no doubt that Mr. Altamirano is an exemplary civil servant whose repeated acts of compassion are emblematic of his commitment to community. Therefore, it is fitting and proper that we honor him here today.

HONORING ROSE CECCHI

HON. FREDERICA S. WILSON

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Ms. WILSON of Florida. Madam Speaker, I rise to honor the service of Rose Cecchi, my intern who has completed her spring 2022 semester serving the people of Florida's 24th Congressional District. Rose has proven to be adaptable, quick witted, and dedicated.

Rose Cecchi is a rising senior at The Madeira School. She will attend college next year with the intention to study environmental science. During her time in this office, she spoke to constituents on a daily basis, corresponded with all democratic congressional offices, and attended briefings on various subjects. She has displayed a great work ethic and professionalism.

The daughter of Antonio Cecchi and Bobbi Jo Cecchi, Rose is from McLean, Virginia. She is the head of her school's Astronomy Club and will continue to lead it in her senior year. In her time as the head of the Astronomy Club, she organized events to stargaze and

learn about astronomy. She also completed an internship at Garfield Elementary School. In this internship, she was a teacher's aide for a third-grade class.

Upon transitioning from her internship, Rose will complete a hiking trip in Alaska to learn about nature restoration. She hopes to use the knowledge she gains on her trip when studying environmental science in college.

On behalf of Florida's 24th Congressional District, I ask my colleagues to join me in honoring Rose Cecchi for her present and future accomplishments.

IN RECOGNITION OF THE
KNICKERBOCKER GREYS

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 25, 2022

Mrs. CAROLYN B. MALONEY of New York. Madam Speaker, I rise to pay tribute to The Knickerbocker Greys ("The Greys") for their commitment in supporting children across New York City. Through their afterschool program, The Greys have instilled our nation's youth with the values of leadership, responsibility, and citizenship.

The Greys are a 501(c)(3) charity and the oldest after-school program in the history of the United States. The organization is an institution within New York City, serving children ages 6 to 16. Cadets are afforded opportunities over the years to develop their character, confidence, perseverance, social skills, and problem solving in a fun and unique way.

The Greys were founded in 1881 and incorporated in 1897 in the State of New York by Mrs. Augusta Curtis, who began the organization in response to a lack of after-school programming. Mrs. Curtis wanted to encourage activity for her son and his peers. A year into the program, Mrs. Curtis formed the Board of Knickerbocker Greys, composed originally of fourteen mothers. To this day, the Greys are run by a board of parents who are responsible for everything concerning the program outside of the weekly classes and events. The current board members are Adrienne C. Rogatnick (President), Oscar Ancajima (Vice President), Charles Giovanni Vanzan Coutinho (Secretary), John G. Philips (Treasurer), and Stephanie Tomlin (President Emeritus).

Today, along with the Board, the Corps of Cadets' daily operations are run by Colonel David J. Menegon Commandant USAR (ret.) and Colonel Thomas F. Pike, Jr. USA Assistant Commandant, and the current Cadet Colonel. The organization is run entirely by volunteers who are dedicated to enriching the lives of New York school children.

The group's name was derived from the original uniform's knee-length pants that were known as "knickerbockers," and the color of the dress uniform, "Cadet Grey." Over 4,500 New Yorkers have been members of the Knickerbocker Greys Cadet Corps over the past 141 years, including Nelson and David Rockefeller; Douglas Fairbanks, Jr.; Pierpont Morgan Hamilton; Cornelius Vanderbilt Jr.; John Lindsay; Averell Harriman; and Lowell Thomas.

The Greys have shown their commitment to New York City's children from all backgrounds, and pride themselves on being representative

of the city's BIPOC communities, inclusive of children with disabilities, and accommodating of those with financial need. Cadets today receive leadership training and are given leadership opportunities as squad leaders, company commanders, and staff officers. Cadets develop skills to motivate others, practice empathy and patience, supervise junior cadets, and command a group of peers.

Cadets undergo a series of experiences over the years that foster confidence, character, etiquette and social skills, perseverance, enthusiasm, public speaking, and leadership. The focus of each weekly meeting is to instill in each child a sense of self-discipline, compassion, and orderliness. Members of the Greys also engage in a variety of activities including field trips to historical sites, color guards, veteran parades, and community events.

Today, the Greys are a part of living history and still proudly drill at the landmarked Park Avenue Seventh Regiment Armory ("The Park Avenue Armory"), as they have since 1902. Boys and girls from a diverse list of independent, magnet, parochial, and public schools located in Manhattan, Brooklyn, the Bronx and even Westchester County have been strengthened by their participation in the Grey's programming for decades and have emerged as young leaders throughout our nation.

Madam Speaker, I ask my colleagues to join me in recognizing The Knickerbocker Greys for its 141 years of service to New York City's most cherished, our children.
