Vol. 169

WASHINGTON, TUESDAY, SEPTEMBER 5, 2023

No. 142

Senate

The Senate met at 3:01 p.m. and was called to order by the Honorable PETER WELCH, a Senator from the State of Vermont.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal God, who rules the raging of the sea, You reign over the nations of our turbulent world. You alone subdue the winds and the rain with a word from Your mouth. As we return from recess and open this session with prayer, we are reminded that life on Earth is a gift that allows us to live for Your glory.

Lord, we are humbled by Your generosity, for You have blessed this Nation in the best and worst of times. Speak Your dreams into our hearts, uniting us by the power of Your spirit. Lord, give our Senators the wisdom to believe that You are able to do for them more than they can ask or imagine, according to Your power working in and through them.

We pray in Your merciful Name. Amen.

The Presiding Officer led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

BUSINESS BEFORE THE SENATE

Mr. SCHUMER. Mr. President, welcome back to you and our great staff, and it is good to be back.

Leader McCONNELL will speak after me here on the floor, and I am glad to see him back and doing well.

Mr. President, let me begin by welcoming back all of our Senators from the August work period. August was a busy month for all of us back home, a time to listen to constituents about what is on their minds, like lowering costs and increasing paychecks.

It was also a time for ribbon cuttings and groundbreaking as the historic investments that Democrats made come to fruition; and, of course, it was a time to prepare for the very busy month in front of us.

On the implementation side, August was a month of action, of groundbreaking, celebrating new factories and new good-paying jobs that will stick around for a long, long time. When a parent sees his or her son or daughter get these jobs, they know they are going to be around for a long time; they are not going to be gone in 2 or 3 years. It is a great thing for optimism and the future of America.

And it was even nice to see Speaker MCCARTHY in my home State of New York, celebrating the new jobs secured by Democrats, when he visited JMA Wireless last month. I have been there many times too. In fact, it was from my own visits there and to other companies across New York that I saw firsthand the opportunity to invest in companies like JMA by buy-in-America provisions that we added to the legislation, and it helped us shape the Inflation Reduction Act.

As the Speaker saw with his own eyes, Democrats' investments are already bearing fruit. In just one year alone, the Inflation Reduction Act alone has resulted in over 200 new clean energy jobs and created 170,000 new good-paying jobs, and it is projected to create another 1.5 million jobs over the next decade. Pick any region of the country, and you will have no trouble seeing Democrats' agenda in action.

One of the amazing visits I went to was in Allegany County in Upstate New York. It is in Appalachia. By income levels, it is one of the poorest counties

in our State. And there, the Inflation Reduction Act is blowing new life into Ljungstrom. This is a company that used to make coal technology equipment and has transitioned to making parts for wind turbines and is hiring 150 new workers, all in a place where people thought they didn't have much of a history, because they knew the coal industry was declining.

It has happened all over America. In Georgia, Hyundai and LG announced they are increasing their multibillion dollar investment towards a major EV and battery manufacturing plant, one that will be the State's largest project ever, creating thousands of good-paying jobs in years to come. And in New Mexico, Arcosa broke ground on a new wind tower production facility expected to create 250 new jobs. These jobs will help fill the over \$1 billion worth of wind tower orders they have received since President Biden signed the IRA into law. These investments, and many others, are supporting the whole of America, red and blue States, rural and urban, everyone, everywhere. And you can be sure the best is yet to come.

Last month, we saw other examples of implementation, too. Over the past few weeks, President Biden made groundbreaking announcements on lowering the cost of prescription drugs, on prevailing wage, and more. Many of these are a direct result of the work that we have done in the Congress.

So Democrats are very proud of the agenda now taking hold across America, and we intend to keep going.

Now the Senate gavel back into session with a lot to do, but there is one clear place to begin: Keep the government open. As we all know, government funding is set to expire on September 30. By the end of this month, the House and Senate—Democrats and Republicans—all must get on the same page about keeping the government open and avoiding a pointless shutdown—a shutdown that will hurt just about every single American; a shutdown that, of course, shouldn't happen.

To accomplish that, the answer is very simple: All sides must work together in good faith, without engaging in extremism or all-or-nothing tactics.

Look no further than the example we have set here in a bipartisan way in the Senate: Democrats working with Republicans on a bipartisan basis; chairs, Democratic chairs, engaging fruitfully with Republican vice chairs and ranking members. All 12 appropriations bills have been reported out of committee with bipartisan support, some of them unanimously—unanimously. Both sides avoided dragging the process down with unseemly tactics. It sets a very good template for how things should work in Congress.

I want to thank all my colleagues, but especially Appropriations Chair PATTY MURRAY and Vice Chair SUSAN COLLINS, for their tremendous work thus far on the appropriations process. They truly deserve a lot of credit.

When the House returns next week, I hope House Republicans—I implore House Republicans to recognize that time is short to keep the government open and that the only way—the only way—we will finish the appropriations process is through bipartisanship, the idea of both parties working together, not one party, particularly if it is a party governed by an extreme 30 or 40 Members filling out a wish list that they know can't pass. They can't do that.

So let me repeat. Let me say it again. The only way to avoid a shutdown is through bipartisanship. So I urge—I plead—with House Republican leadership to follow the Senate's lead and pass bipartisan Democrat and Republican appropriations bills supported by both parties.

As we work to fund the government, there are plenty of other things we must do, too, both on and off the floor. We will, for one, continue laying a foundation for bipartisan congressional action on AI. Next Wednesday, along with Senators ROUNDS, HEINRICH, and YOUNG, I will host the Senate's inaugural AI Insight Forum, a first-ever convening of the top minds in AI here in the Congress. Voices from business and the civil rights community, researchers, worker advocates, and many more, all in one room having an open discussion about how Congress can act on AI: where to start, what questions to ask, and how to build a foundation for safe AI innovation.

These AI forums are vital. Artificial intelligence is unlike any topic we have undertaken in Congress. It moves faster; it is more complex; and there is little precedent for this kind of work.

This is not going to be easy. In fact, it will be one of the most difficult things we undertake, but in the 21st century, as technology moves forward with or without us, we can't behave like ostriches with heads in the sand when it comes to AI. We must treat AI with the same level of seriousness as national security, job creation, and our civil liberties.

Now, ultimately, of course, the real legislative work will come in committees, but the AI forums will give us the nutrient agar, the facts and the challenges, that we need to understand in order to reach this goal.

Of course, next week's forum is just the start. The Senate will continue hosting AI forums throughout the fall on a variety of topics, including finding ways to promote AI innovation, IP issues, workforce issues, privacy, security, alignment, and many more.

We will also move the ball forward on other items on our agenda wherever we can, but of course they will need Republican help to reach the necessary 60 votes to move forward, like lowering the cost of insulin and prescription drugs, something Members on both sides of the aisle are hard at work on. We did it in the IRA for insulin for Medicare for people over 65. We should do it for everybody else. Insulin is too

vital and becoming too expensive for too many Americans. And making progress on cannabis through the SAFE Banking Act, as well as commonsense rail safety, which I said in July would be a big priority.

We also must build on the work we did during the NDAA to outcompete the Chinese Government, to keep the American people safe, to protect American businesses, and ensure that American innovation and technology leads the way this century.

We also must continue standing with our friends in Ukraine, now more than ever, as the counteroffensive against Putin's forces is in full swing.

And we must stand with our fellow Americans in places like Hawaii, Florida, Vermont, and other regions battered by storms and fires and flooding.

The topics continue: from advancing a farm bill to kids' online privacy, to reauthorizing the FAA, and to holding bank executives accountable for irresponsible behavior.

Our committees have done excellent work to move all of these issues along, but we are under no illusion that we can make progress on the Senate floor unless we get bipartisan cooperation. None of this will be easy either. The bills will require a lot of work and compromise, but if we can progress on these items, we will greatly improve the lives of average Americans.

Finding bipartisan compromise on issues like these is never easy, but that is what it will take to get things done, and our efforts to do precisely that have already led to significant accomplishments under this majority. As we gavel back in, we will keep going to reward the trust the American people have placed in us.

NOMINATION OF JACOB J. LEW

Mr. President, finally, on Jack Lew, earlier today, President Biden announced that he has nominated Jack Lew to be the next Ambassador to Israel. Israel is one of America's most important allies and will remain an essential partner in the years ahead on security, tech innovation, and cultural ties, so it is vital we have a strong American Ambassador in Jerusalem.

Mr. Lew is precisely the person for the job of Ambassador to Israel whom we need. As former Treasury Secretary and Chief of Staff under President Obama, he will bring a wealth of experience and diplomatic skill that will ensure the partnership between the United States and Israel remains strong.

And do you know why else I know Jack Lew will do a great job? He is a proud Queens boy and a graduate of Forest Hills High School, which I used to represent in Congress.

I commend President Biden for nominating Mr. Lew, and I look forward to his nomination in the Senate.

I yield the floor.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. McCONNELL. I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

KENTUCKY STATE WORK PERIOD

Mr. McCONNELL. Well, Mr. President, I am glad to welcome our colleagues back from the August work period. Spending time back in our States with the folks we represent isn't just part of our job; more than anything else, it is what allows us to be effective here in Washington.

Now, one particular moment of my time back home has received its fair share of attention in the press over the past week, but I assure you, August was a busy and productive month for me and my staff back in the Commonwealth.

I kicked off the month in West Kentucky and then in my hometown of Louisville, where I met with small businesses and community leaders. We had a candid conversation on the critical issues facing our State, from relentless inflation straining families and business owners to the challenge of finding workers in a lagging labor market.

I also had a chance to travel to the eastern part of Kentucky, where I met with healthcare and recovery workers in Manchester. Tragically, the substance abuse crisis has become even deadlier in recent years, especially in my home State. So we discussed what we are doing to combat it and find ways the Federal Government can fill the gaps.

I also welcomed Dr. Rahul Gupta, the national drug czar, back to the Commonwealth to hear more about what we are doing to fight back against addiction. I look forward to continue working with Dr. Gupta to make Kentucky a safe and healthier place.

Throughout the month, I was pleased to see over \$6 million go toward addressing the opioid crisis at home. This Federal funding will go a long way in supporting programs that offer a lifeline to countless Kentuckians who struggle with substance abuse.

In Bowling Green, I met with community bankers to discuss what Senate Republicans are doing to put a check on the Biden administration's reckless spending and regulatory overreach.

At the Kentucky State Fair I had a chance to indulge in some of the best that the Bluegrass has to offer, like the Farm Bureau's famous Ham Breakfast. This event is a highlight of mine every August, and this year was no exception.

I met with farmers from across the State to discuss their priorities and concerns as Congress takes up the all-important farm bill. This input will be vital to our work here in the Senate in the months ahead.

In Northern Kentucky, I wrapped up the month with local business leaders to talk about some of our landmark infrastructure investments underway in the State, like overhauling the Brent Spence Bridge and revitalizing our riverports and railroads.

From rural farm families to businesses of all sizes, every Kentuckian I met voiced the same message: There is too much government and too little being done to boost the economy and help everyday people.

So as the Senate gets back to work in Washington, I will keep these conversations and concerns in the forefront of my mind.

GOVERNMENT FUNDING

Mr. President, this month, of course, Congress needs to address our Nation's most pressing needs with timely appropriations, and we need to keep the lights on come October 1.

Back in January, I pointed out to Washington Democrats the new normal they faced. The American people have elected a divided government and demanded that we work together on our most basic governing responsibilities.

Well, as I have reminded our colleagues regularly since then, that has meant funding the government through regular order. It has been encouraging to see Senator COLLINS, Senator MURRAY, and our colleagues on the Appropriations Committee make serious headway in that direction, and next week, we will aim to pass the first batch of their work out here on the floor.

I have also made clear that the Senate's top priority must be keeping the American people safe; and this month, we will have a chance to do that with supplemental appropriations for urgent national security and disaster relief priorities.

We need to continue to invest in America's defense industrial base, both to support our partners in today's fight and to help our own forces deter tomorrow's threats. And as our colleagues from Florida and Hawaii know all too well, emergency personnel are working overtime to help communities shattered by natural disasters over the summer.

So the Senate reconvenes with our work cut out for us and a deadline fast approaching. I hope each of our colleagues has returned ready to do their part.

The ACTING PRESIDENT pro tempore. The Senator from Illinois.

WELCOMING MITCH McCONNELL

Mr. DURBIN. Mr. President, I was here for the presentation by the Republican leader, and I am happy that he has returned. I told him it was great to see him back and that I couldn't wait to disagree with him; and I am sure I will have an opportunity in the near future.

RURAL HEALTH

Mr. President, I spent the August recess in my crisscrossing the State of Illinois, which was a pretty big oper-

ation. One tip to the other is about 350 miles and a couple hundred miles across. I tried to make a point of not only visiting the population center—Chicago and the suburbs around it—but to go Downstate too. My focus Downstate was to visit small towns and rural areas and to go to the hospitals and sit down with the administrator and ask him what was going on with that local hospital.

The Acting President pro tempore knows this from the State he represents. These small-town hospitals are really the lifelines for these communities. They are great sources of pride. They are great sources of employment. They are there for critical medical care, and God forbid you lose one, it really is devastating to a community.

I found, as I went around the State and sat down with hospital leaders and public health officials and other healthcare providers, that several messages came through loud and clear. We spoke about the struggling rural hospitals, and it applies to the hospitals in the urban areas as well. Not only are they lifelines for emergency medical care but they are the backbones of the local economies of these communities. Nationwide, rural hospitals, in particular, are really struggling. Half operate in the red. They are losing money, and more than 300 across the Nation are at immediate risk of closure.

I had a memorable visit to Iroquois County, IL—that is south of Chicago, south Kankakee—and I went to the hospital that has been there for decades and is a great source of pride. They were really worried when they contacted our office that they wouldn't be able to keep the lights on in that hospital. So we worked to help them obtain something called "critical access hospital" status under Medicare. Several of the community leaders, when I went there to make the announcement that they had been approved, said that we saved the hospital with that common effort.

I have a bipartisan bill with Senator JAMES LANKFORD. Senator LANKFORD and I are as opposite politically as they come in this Chamber. He is a Republican from Oklahoma and is very conservative, but he has joined me in extending the lifeline to additional rural hospitals that are facing closure. Our bill would create some flexibility around the strict Federal definitions that a hospital must be literally 35 miles or more away from others to qualify for payment designation. Senator LANKFORD and I believe that characteristics of the hospital and its role in the community should also be factors in determining eligibility.

I hope the Finance Committee will take this up now and take it seriously. We can save dozens of hospitals nationwide by preserving vital access to healthcare for patients in rural areas.

But my No. 1 takeaway from hospitals in the city of Chicago, in the suburbs, and in Downstate was very

simple. We are facing a dramatic shortage of healthcare providers—doctors, nurses, dentists, mental health providers, EMTs, and lab techs. Across the country, we will face a shortfall of 120,000 doctors over the next 10 years. A recent survey found that 100,000 doctors left the field during the pandemic and that another 800,000—800,000—are planning to retire soon. This is particularly dire in rural communities.

I do want to give a shout-out to Illinois State University, located in Bloomington-Normal. They just opened a nursing school in my hometown of Springfield, IL. It is called the Menonite College of Nursing. It has a great reputation, and it is going to be a success, I am sure, because we need them desperately. They anticipate graduating over 90 nurses a year. We need them in Central Illinois.

In every single Illinois rural county—in every one—we face a shortage of medical professionals; for example, mental health providers and recovery experts. And while there are 90 doctors per 100,000 residents in the urban parts of my State, in the rural counties, we have only 45 physicians for every 100,000. That is 50 percent.

What is the consequence of this shortage of medical professionals? It is very real, and it is very personal.

We have a new mayor in Carbondale, IL. Her name is Carolin Harvey. She worked for Southern Illinois University at Carbondale for her working life. She retired there and then went to work on the city council and became the mayor.

I sat down with Mayor Harvey, and I said to her: OK. You have a U.S. Senator sitting in your mayor's office in Carbondale, IL. What is your ask? Everybody has one.

She shocked me. Her ask was not for money, and it wasn't for anything particular to the community infrastructure. She said one thing: We need dentists for children, pediatric dentistry.

I heard from Shawnee Health, which is the community health clinic in her hometown of Carbondale. They treat nearly 50,000 low-income patients each year. Just for the record, those are 1,000 a month they are treating in this clinic. They recently, after the pandemic, lost 15 oral health professionals. They have a waiting list of 120 children for access to dental care, most of whom are under the age of 8.

This means that a 3-year-old girl in southern Illinois who has trouble sleeping because of severe tooth decay has to wait more than 1 year for treatment. What does treatment consist of at the end of waiting for a year for a little kid? It consists of going into an operating room in a hospital, under general anesthesia, and finding a medical professional to extract a bad tooth. Think of the complications and the drama that are a part of regular oral care in that region.

Here is another story they shared with me about a 4-year-old boy who had an abscessed

tooth. Have you ever had a toothache and needed a dentist? Have you had a kid at home who couldn't sleep because of a toothache? You won't forget it, Mom and Pop. I don't. It is the part of life that you hate to go through. You have as much pain as they do in just watching them suffer.

Now imagine this issue if you will. He is 4 years old. His mother tried for months to get him in to a dentist who could relieve his pain, but he was unable to see someone. The family was from outside the general service area of Carbondale, so they had to travel several hours for every appointment. Plus, the mother just couldn't take time off work to take her son to all of the appointments. The little boy was visibly nervous and afraid, as most 4-year-olds would be, but he was in pain, and he knew he needed help.

After the procedure was completed, the young boy began to cry, and the dentist asked him what was wrong. All the little boy could say was "thank you." Not only was his pain gone but the stressful journeys back and forth for the appointments were ending as well. He was 4 years old.

How is this suffering possible in my State of Illinois and in this great Nation? Well, first, the United States ranks 43rd in the world in the number of dentists per capita—43rd in the world. It is particularly outrageous in rural areas. In Illinois, 10 of our 102 counties have one dentist. In Lawrence County, IL, there is only one dentist for 15,000 people—15,000. That is 11 times worse than the national average.

These statistics should ring alarm bells in Washington. Now, I have been in the Senate for a few years and was in the Congress for a few years before that, and I have said many times that I have to be careful when I say I am going to do something about this, but I am sure as hell going to try. When I think about that little boy who was waiting for a year for dental care, it is unimaginable to me as a father and as a grandfather.

So I am challenging myself, the Illinois delegation, our Federal Government, the Illinois State Dental Society, and all of the elected officials at this end of my State to come together, to put politics over here, and to do something about dental services.

Mayor Harvey of Carbondale, IL, is right. This is beneath the dignity of a great nation to have this sort of thing within our borders.

Thankfully, there is a Federal program that might help. It is called the National Health Service Corps. It provides scholarships and loan repayments to doctors, nurses, dentists, and mental health providers who work in areas of need. It is the primary Federal program that is intended to build a pipeline of healthcare providers and address shortages.

I recently met Dr. Dana Ray, a first-generation college graduate and the chief medical officer of Crossing Healthcare in Decatur. She told me

that the only reason she was able to pursue her career was with the loan repayment offered by the National Health Service Corps.

You see, it costs a fortune to go to medical school or to dental school. They literally graduate with debts of \$100,000, \$200,000 and up. Then they have to take a job to pay off their loans. It is obvious. Can they go to the areas of great need? They can't get paid as much there. The National Health Service Corps makes loan forgiveness part of the program. If you will go to a community that needs a dentist, that needs a doctor, they will forgive your loan.

I will make another mention while we are on the subject here. Senator MARSHA BLACKBURN of Tennessee and I have a bill. The current National Health Service Corps program provides up to \$50,000 loan forgiveness if you will sign up for 2 years. Well, she and I want to add to that and create an incentive for those who do 5 years in a community—and they would have up to \$200,000 of debt forgiven.

Why 5 years? We happen to believe that the dentists and doctors who will practice in that area for a period of time will develop an attachment to it and will start to think in terms of their families and their futures there as well so that they will be likely to stay after the 5 years is over.

It is another bipartisan bill. Senator BLACKBURN is a Republican, a conservative from Tennessee, but we see eye to eye on this.

The National Health Service Corps is the strongest program we have in America to tackle the shortages of dentists, doctors, and nurses. The Senate HELP Committee is negotiating on this program now. I urge my Republican colleagues to join Democrats in doing something.

Let me add, while we are at it, that there are many health professionals around the world who desperately want to come to the United States. You know who they are. You see them in the hospitals. They are foreign-born physicians, they are medical professionals and nurses who come here, and they are there in our moment of need. We have a program to do that, but the program is too small, and it doesn't allow as many to come to this country who are qualified and ready to serve, as it should.

What does it mean to a hospital in a rural area to lose nurses? Here is an example I was given when I visited one of these hospitals.

They had four critical care nurses. Two of them announced they were leaving. Why were they leaving? Because they were going to become traveling nurses. They would go to hospitals around the country and be paid two or three times as much as they were at this hospital.

The hospital stepped back and took a look at it and said: If they leave, it is going to threaten the future of our emergency room and the future of

many of our departments—these critical care nurses. They offered them a generous, generous financial incentive to stay, and they stayed.

The hospital said it was an easy calculation to make: how much more we need to pay in bonuses versus shutting down critical services in our hospital for a year because of lack of nurses.

That is the reality of what hospitals are facing all over the United States, not just nurses but many other medical professions.

While we are at it, I also want to put in a word for the rural EMS agencies, the first responders that we all depend on.

A few years ago, I had a visit from Mark Kennedy. He is an emergency medical technician from Nauvoo, IL. In his county, Hancock County, his ambulance service is critical. It is life and death to get people to their nearby hospital, which is 40 or 50 miles away. He told me about challenges that they had with their volunteers, by and large, running this agency—this ambulance agency—and keeping up with the equipment that is needed to make sure that they could save lives. So I joined with then Senator Pat Roberts of Kansas, who was the ranking Republican in the Senate Ag Committee that was writing the farm bill.

I convinced Pat Roberts to look the other way on the question of jurisdiction and to put this bill, which we called the SIREN Act, into the bill—into the farm bill—as a possible way of helping rural communities.

We have now enacted it into law through Senator Roberts' efforts and my own, and we have sent \$38 million to emergency medical services agencies across America, including many in my State but all across the United States. This is an equally important part of medical care and our future.

Now that Senator Roberts is retired, Senator SUSAN COLLINS and I are doing the bill together, again on a bipartisan basis, to reauthorize this program. I ask any Senator who has a question as to whether this is money well spent to contact that ambulance service in your own State and ask them what it means to have up-to-date equipment to save the lives of people that they are called on to help. I hope we can pass it out of the Senate this month.

The solutions to many of our pressing healthcare challenges are at hand. The question is whether we can find a bipartisan commitment to move them forward. After the month of August, in which I journeyed around my State, I sincerely hope that we can.

I yield the floor.

I suggest the absence of a quorum.

TEXAS

Mr. CORNYN. Mr. President, following a busy summer in the Senate, it was great to spend a little bit of time back home in Texas and, for at least a couple of days, in the great State of Vermont courtesy of the Presiding Officer's recommendation.

I always look forward to the Washington break here in Washington because it gives me time to travel across my State and to hear from many of the 30 million Texans I am honored to represent. I enjoy getting an update from them on what is happening, to hear their concerns, and to talk to them about what I am working on.

One example of that is the Carla Walker Act. This bill carries the name of a 17-year-old Texan who was tragically murdered in 1974 and whose case went unsolved for many decades—nearly five decades. It wasn't until September of 2020 when Carla's family finally received the answers they had been searching for. DNA evidence that was collected at the crime scene was sent to the State DNA testing facility in the The Woodlands, TX, called Othram.

Now, just a little bit of detail. Traditional DNA testing frequently will not tell you everything you need to know about who this is a sample from, but thanks to forensic genetic genealogy, or FGG, enhanced DNA testing was able to identify Carla's killer, and justice was served.

FGG—this enhanced DNA testing analysis—has the potential to provide answers for countless victims and their families, and I am working on legislation to make it more widely available when needed, especially for criminal investigations.

As this legislation is being worked on, it is great to hear about the usefulness of this DNA testing technology from law enforcement as well as forensic DNA experts.

I also had the pleasure of meeting Carla's family, who finally received closure after decades because of this enhanced DNA testing process.

But it is not just the bills that are in the works; I also appreciate the chance to hear firsthand about how the laws that we passed recently are actually being implemented. One great example of this is the CHIPS Act.

Last week, I visited the University of Texas at Austin for its first annual Semiconductor Day. The University of Texas has built strong partnerships with companies and other academic institutions across the State and Nation and is eager to do its part to help revitalize America's semiconductor industry.

Just a refresher: We used to produce about a third of the advanced semiconductors in the world, but now that is down to about 10 percent. Ninety percent of the world's advanced semiconductors are manufactured in Asia. We all can imagine what would happen if, because of natural disaster—Heaven forbid, another pandemic—or an inva-

sion by the PRC of Taiwan—what that would mean to our access to advanced semiconductors, things that power everything from your mobile phone to the Joint Strike Fighter, the fifth-generation Joint Strike Fighter. Everything these days requires semiconductors, these microcircuits.

Well, the university launched the Texas Institute for Electronics, or TIE, as it is called, which will support the future of semiconductor manufacturing through education, training, and collaboration with industry leaders. The Department of Commerce staff who are responsible for actually implementing the CHIPS Act were there to learn about the incredible public-private partnerships that are driving the chip industry already forward in Texas.

This is exactly the kind of collaboration I think we envisioned when I first introduced the CHIPS Act more than 3 years ago, together with our colleague Senator WARNER from Virginia. It is gratifying to see this vision becoming a reality in the Lone Star State, as I am sure it is in other parts of the country.

Over the last several weeks, I have also heard from my constituents about the many challenges that families and businesses are facing, starting with high prices on everything from food to housing, exacerbated by what President Biden calls Bidenomics. Like Texas Governor Ann Richards said in the summer of 1992 at the Democratic National Convention—she said: “Well, you can put lipstick on a hog and call it Monique, but it's still a pig.”

Nevertheless, I have come back to the Senate refreshed and ready to get back to work. So I listened to what the majority leader has said and written about his agenda for this period between now and the end of the month. We face a number of deadlines to fund the government and reauthorize critical Federal programs.

This year, four major deadlines arrive on September 30, just 25 days from now or 16 legislative days—16 days. Of course, none of these deadlines popped up out of nowhere. We have had plenty of warning and plenty of time to advance each of these bills. But the Senate majority leader—the one responsible for the Senate agenda and who is the only person in the Senate who can actually schedule floor action—has created this mash-up and dysfunction.

As it turns out, some of the biggest legislative achievements of the year have actually been led by this side of the aisle, by Republicans, who fought to overturn damaging Biden administration rules.

The Senate did pass legislation to raise the debt ceiling and place caps on discretionary spending, but it is important to remember that this was a deal cut between the Speaker, Speaker MCCARTHY, and President Biden. The Senate was essentially a bystander.

The biggest accomplishment of the year so far has been passing the annual Defense bill—not a small thing—but it is still a long way from reaching the President's desk.

I would say that considering the number of must-pass bills still on our agenda for the year, that is an embarrassingly short list of accomplishments. So now we have a lot that needs to be done in the next 4 weeks, but really I think you would have to acknowledge that this schedule is designed to fail—designed to fail.

One of the biggest tasks we have to complete in that time is to fund the government, and it looks like we are in for a bumpy few weeks. But I would hasten to point out that this is not a bug but a feature of the majority leader's plan. In other words, it didn't have to be this way. This is all according to Senate Majority Leader SCHUMER's plan.

Why? Well, it maximizes his leverage on the final product to the detriment of every other Senator on our side and on yours. Why, Senator SCHUMER might ask, would I let 99 other Senators participate in the appropriations process when I can hold it hostage for my demands?

And, to be clear, the Senate Appropriations Committee has done its job, passing 12 bipartisan appropriations bills out of committee, and they did that before the August recess.

You know, when you look at the schedule and what it is that hasn't been done and needs to be done in such a short period of time, it is incredible to me that the Senate majority leader decided that the Senate would be out of session for 40 days—40 days; that is how long it has been since we were here last—especially with all this work to do. And we have not been in session on most Mondays recently, starting on Tuesday and then wrapping up 2 days later on Thursday afternoon. So I think the picture of the majority leader's plan is becoming very clear.

Party-line disagreements over funding levels are nothing new, but the path to success is especially muddy this year. Several months ago, Speaker MCCARTHY and President Biden reached a deal that raised the debt ceiling in exchange for deeply needed spending cuts. The national debt has ballooned to more than \$32.8 trillion, and the American people are unhappy with Washington's out-of-control spending. Well, that is exactly what the Speaker sought to address during the debt ceiling negotiations with the White House this spring, and it is no question that he made substantial progress toward that goal. He negotiated across-the-board spending cuts, marking a small but significant step to curb Democrats' reckless spending habits.

Now, with the funding deadline just 3½ weeks away, Republicans on both sides of the aisle are eager to make good on our promise to return to responsible government spending bills. House Members are knee deep in discussions over the best way to pursue those spending cuts, and I expect we will hear more when the House returns to Washington next week.

But still, that hasn't stopped the majority leader from criticizing them. Just last week, he referred to the Republicans in the House and their spending cuts discussions as political games. Well, if this isn't a game, I don't know what is—planning for the failure of the appropriations process and trying to jam through a spending bill with 16 legislative days left. I suggest the majority leader look in the mirror for the identity of the person who has brought us to this point, the one who has been playing the games.

As I said, he is already trying to blame Republicans in the House for a potential shutdown, and, right on cue, the press has started the drumbeat driving that narrative. That is all you are going to hear between now and the end of the fiscal year—is there going to be a shut down or is there not going to be a shut down?—all of which is absolutely unnecessary if the majority leader had used the authority he has to schedule a vote on 12 appropriations bills that we could take up and pass out of the Senate. The House could do the same. We could reconcile the differences and avoid all of this drama.

Well, thank goodness our Democratic colleagues no longer control all levers of government. Senator SCHUMER and the President now only have some say, not total say, over legislation. With divided government, Democrats no longer have the power to jam spending bills through both Chambers of the Congress, like they did last year. The American people elected a Republican majority in the House, which has pledged to rein in reckless Federal spending. Well, I hope that Speaker MCCARTHY and our other Republican colleagues in the House will succeed in their efforts this time on appropriations bills.

It is nothing unusual for the House and the Senate to have a different approach when it comes to spending money, what those priorities are, and what the top line should be. It is entirely within their authority and their responsibility. But they have to have a dance partner. Senator SCHUMER has to be willing to engage in a negotiation in good faith, not play these kinds of games and threaten another government shutdown.

If Senator SCHUMER wants to avoid a shutdown, he needs to drop the preemptive blame game and actually listen to the concerns of House Republicans on the Federal government's out-of-control spending and then negotiate a compromise. He needs to accept his responsibility.

Funding is only one major item on the to-do list. Congress also needs to pass a farm bill, as you can see on the list.

My State is home to nearly a quarter of a million farms and ranches, more than any other State in the country. One out of every seven working Texans has an ag-related job. I had a chance to sit down with some of these constituents in Lubbock last month and hear

how their lives and livelihoods are affected by the farm bill. It is important to them, which means it is important to me.

This legislation is critical to America's supply of food and fiber, as well as to the livelihoods of the hard-working men and women who grow and produce it. We simply can't let this legislation continue to shift and be delayed. I know Senator BOOZMAN and, I suspect, Senator STABENOW are committed to passing a strong bill that will meet the growing needs of our ag industry. That is on this list, and that is not going to happen either between now and the end of the month.

Then there is another item on the list: reauthorize the Federal Aviation Administration. We all heard news of some of the near misses or collisions of some of the aircraft at our airports, which is harrowing to listen to, especially for those of us who do a lot of flying. It is important that we update and reauthorize the Federal Aviation Administration in the reauthorization bill.

Over the last couple of years, travelers—millions of travelers—have dealt with widespread flight cancellations, paralyzing staffing shortages, and rising prices. As I said, we witnessed or read about some jarring safety issues, including these near collisions on runways in Austin, where I live, and in Minneapolis and New York. The Agency is clearly lacking when it comes to safety, efficiency, and reliability. I hope we can address these and other issues with the FAA reauthorization.

But it ain't going to happen between now and the end of September, when the current authorization expires. Again, this is part of a design—a design to fail—to meet our responsibilities to do things like pass the FAA reauthorization.

I know Senator CRUZ and Senator MORAN are leading the effort on our side of the aisle on the FAA reauthorization, and I know they are committed to helping the Agency meet the challenges of today and the future. I am sure Chairman CANTWELL feels exactly the same way.

But last and, certainly, not least, the two Chambers need to resolve the differences between the two bills that we passed—our respective versions of the National Defense Authorization Act—so we can send the final bill to President Biden. Thanks to the hard work of Senator REED and Senator WICKER and the bipartisan effort in the Armed Services Committee, the Senate bill received an overwhelming vote of support, 86 to 11. It invests in our military bases, our defense stockpiles, our modernization efforts, and, of course, American servicemembers.

The NDAA is vital to our military readiness, and there is no reason it couldn't be completed before the end of the month. But under Senate Majority Leader SCHUMER's leadership, the Senate has developed a major legislative pileup. If these were cars, this would be

a major pileup. The majority leader has procrastinated when it comes to the Senate's most important duties.

In the next few weeks, we need to pass government funding, the farm bill, FAA reauthorization, and the final version of the NDAA. These are some of the most fundamental responsibilities of Congress, each of which comes with a clear deadline, which we are preparing to blow through.

I am disappointed that we are now rushing to complete an impossible task of completing all of these bills before September 30. It is impossible. It is not going to happen.

As I said, it didn't have to be this way. There is only one person with the authority and the responsibility to avoid this situation: the senior Senator from New York, the Senate majority leader. He is the only one who can set the Senate agenda and move a bill across the floor. The Presiding Officer and I can't do it as rank-and-file members, but the majority leader can, and he simply has failed to do so.

There is a lot riding on the Senate's productivity this month, and we owe it to the American people to do our best to get the job done with the cards that the majority leader has dealt us.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Tennessee.

OPIOID EPIDEMIC

Mrs. BLACKBURN. Mr. President, over the last few years, we have all witnessed a devastating rise in fentanyl overdoses. While I have been around Tennessee this month and visiting with so many citizens and local elected officials, I have heard a lot about this and about how Tennessee has really not escaped this threat.

In 2021, the latest year for which we have stats, there were over 4,000 Tennesseans that lost their lives to fentanyl overdose. Equally as concerning is the amount of fentanyl that local law enforcement is finding. This is something that they see coming up in routine investigations.

They are trying to protect their citizens. They are doing all they can. They are distributing and using Narcan, trying to save precious lives, and they feel like the fentanyl just keeps coming.

There have been several significant seizures in Tennessee this year. Just last week, police were chasing down a stolen out-of-State car in Dyersburg, TN. While they were trying to locate the fleeing suspect from that stolen car, they discovered a lunch box that he had dropped. When they looked in the lunch box, they found 750 suspected fentanyl pills. The street value is over \$14,000. That is in rural West Tennessee, in Dyersburg, TN.

Law enforcement officials in Knoxville found thousands of grams of fentanyl in one man's possession. They found it in his car, and they found it in his house.

In Bledsoe County, the drug task force recovered a thousand pills that were disguised, made to look like

oxycodone—again, in rural Tennessee. These pills that were manufactured to look like oxycodone each contained lethal doses of fentanyl.

We hear these stories popping up all across the country, but we continue to see these massive amounts that are in seizures. Last year, the DEA seized more than 58.3 million fentanyl-laced pills and more than 13,000 pounds of fentanyl. This constitutes 388 million lethal doses of fentanyl.

This year, border agents intercepted over 22,000 pounds of fentanyl, more than double what they seized during the same time period last year. That was just what they managed to catch. Think about what is coming in with the "got-aways." These are the people the border agents can see on surveillance video, but they cannot get to them. The stats I have just given you are what they are seizing. But think about what they don't apprehend and what is coming in with these cartels and coming in with the "got-aways."

We have to realize that fentanyl is so deadly. The equivalent of four grains of sand can kill you. That is how deadly it is.

And as a mom, as a grandmom, to hear these stories, it is just absolutely heartbreaking of lives which are lost. Fentanyl is now the No. 1 killer of Americans age 18 to 45. This is something that needs our attention.

When I was over in Chattanooga, they were telling me the story about a 2-year-old who died, and when the medical examiner was doing the report, the autopsy, a lethal amount of fentanyl is what he found in this baby's system.

These parents were charged with murder, and the prosecutor suggested the parents knowingly exposed their kids to large amounts of drugs in their home—a 2-year-old.

In August, I had the opportunity to meet with local leaders in Fayette County, and they told me another heartbreaking story of a mother and her 4-month-old child. This is another rural Tennessee county, and when they did the test, the mother and the baby tested positive for fentanyl.

At the Fayette County roundtable, I also learned about new measures that the school superintendent and the sheriff's department have implemented following the tragic deaths of two teenage girls. They were aged 16 and 17, and they were found dead in the school parking lot in Somerville, after overdosing from a drug combination believed to include fentanyl. Now, there was a third teenager involved in this incident. That teen survived. She was found unconscious, and law enforcement charged her with both second-degree murder and possession of a controlled substance.

So we see what is happening. We know how this is coming across that border, and people are saying we have got to do something about this.

Now, in Tennessee, local law enforcement agencies, local elected officials are stepping up, and Fayette County

that I just mentioned, Mayor Skip Taylor is starting a new program, Drug Free Fayette, and he has based this on a successful model that another county mayor, Mayor Huffman over in Tipton County, has started because they have decided if that border is going to be left wide open and this is coming in here, steps have to be taken to protect their citizens.

Now, what they are doing is establishing programs that are going into the schools, going into elementary school grades, high school, middle school, and educating about the dangers of drugs like fentanyl and like xylazine. A good example of this was when the new school semester began last year, Sheriff Bobby Riles, the Fayette County Sheriff's Department, and the Somerville Police Department worked with the Fayette County schools, and what they did was to implement a new DARE Program so that you have got somebody there in those schools, with those kids, establishing that relationship, helping to educate them and pushing back on what these kids are seeing on social media, what they are hearing from gangs and different individuals, trying to tempt them.

Now, local law enforcement officers are receiving training that is necessary to work with kids and teens in the schools. They are pushing forward with that to get their officers trained. And the officers I heard from report that kids are beginning to bring some drugs to school from the community and from their home.

This is why the training is important. This is why these programs like they are implementing in Fayette and Tipton County are so important: educate the kids, make certain the community is aware, make certain the officers have the education that is necessary so that we are all doing everything we can to save these lives.

Now, we have talked a good bit about these cartels over the last several months, and it was so interesting to me, as I was across the State, to hear local law enforcement talk about the cartels and how active they are in our State. It is why every State is a border State, every town is a border town now.

And what we see happening is that the cartels have linked up with some of the scientists in the labs in China where they create these precursor chemicals. Then they are sending it into Mexico. The cartels have labs, and this is where you are getting the fentanyl-laced gummies, you are getting the pills that are pressed to look like oxycodone. All the manufacturing is there.

I had one sheriff tell me he just assumed everything was laced with fentanyl because, he said, you will get marijuana, you will get gummies, you will get pills, you will get all these different things, but what they really are is laced with fentanyl. All of this is ending up in our backyard, but it is also ending up on social media.

Now, I found it so interesting, as I was doing some work with our counties and focusing on this issue, we found out that as high as 36 percent of fentanyl cases—think about this number when you think about across our country—36 percent of the fentanyl cases are linked to social media. This is where kids have met a drug dealer. Maybe it was Snapchat or Facebook Messenger or Instagram or TikTok, 36 percent.

These stats have made a few things very clear: The fentanyl crisis is real; it is killing Americans; it is killing Tennesseans; and it is our duty, as sworn representatives, to do something about this.

Here in the Senate, we have already begun this work, and I want to encourage my colleagues who have not signed on to a few bills to get on board and let's give this crisis the attention that it deserves.

Now, TIM SCOTT had a bill—I joined him last June when he introduced this—the FEND Off Fentanyl Act, and recently the Senate passed that as part of our Defense Authorization Act. This bill takes a very important step because it would declare the international fentanyl trafficking cartels and the trafficking of fentanyl a national emergency.

And it also would direct the Treasury Department to target, sanction, and block the financial assets of these transnational criminal organizations, like those in China and Mexico, that are pushing this product forward.

I also joined Senator RUBIO in introducing the Felony Murder for Deadly Fentanyl Distribution Act, which would add the distribution of fentanyl resulting in death to the list of crimes that are eligible to be charged as felony murder.

But given the significant role that illegal immigration has played in the fentanyl epidemic, it is clear that we also need to go right to the source. The Fentanyl Public Health Emergency and Overdose Prevention Act, a good bill that is just plain common sense, gives the Department of Homeland Security authority similar to that under title 42 to expedite the removal of illegal immigrants in response to the public health emergency that fentanyl poses to our country. If you are going to carry this, distribute it, push it, then you are not going to come in this country.

Now, all of these are pieces of legislation that make a difference. What we see happening in counties in Tennessee is that local law enforcement, local elected officials, local school superintendents, and directors of schools are coming together and saying: We have got to get to work on this issue. They are all steps.

What we have to do is have this administration, the Biden administration, stop burying their head in the sand on this issue. They can no longer ignore the influx of drugs coming into this country over that open southern border.

We have to make certain that the border is secured and the resources are there to address the fentanyl crisis.

I yield the floor.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. CASSIDY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

STUDENT LOANS

Mr. CASSIDY. Mr. President, today I introduced the Congressional Review Act, a resolution of disapproval to overturn the Biden administration's newest student loan scheme: income-driven repayment. Just like President Biden's student loan cancellation scheme that was overturned by the Supreme Court, this policy does not forgive debt, it transfers the burden of almost \$560 billion in Federal student loans from those who willingly took out the loans for college to make more money when they graduated to Americans who never attended college or who have already fulfilled their commitment to pay off their loans.

Under this rule, a majority of bachelor's degree student loan borrowers will not be expected to even pay back the principal. We have moved beyond forgiving the interest, and we are now not even asking them to pay back the principal.

Additionally, 91 percent of new student loan debt would be eligible for reduced payments subsidized by taxpayers. These policies are as unfair as they are irresponsible. Where is the forgiveness for the guy who didn't go to college but is working to pay off the loan on the truck that he takes to work?

What about the woman who paid off her student loans but now struggles to pay her utilities or her mortgage? Is the administration providing her relief? Of course not. Instead, the administration would have them not only pay their bills but the bills of those who decided to go to college in order to get a degree to make more money.

The resolution prevents average Americans, 80 percent of whom have no student loans, from being stuck with a policy that the administration is pushing not to be fair to all but rather to favor a few. The Supreme Court has already established the President does not have the authority to cancel hundreds of billions in student loans without direct consent from Congress. It is clear President Biden is trying to deflect the political fallout of the false promises that he never had the legal authority to make.

President Biden's plan did nothing to address the problems that created the debt in the first place. It doesn't hold colleges or universities accountable for rising costs. According to the College Board, in the last 30 years, tuitions and

fees have jumped in private nonprofit colleges by 80 percent. At public 4-year institutions, they jumped 124 percent. The Biden administration has refused to propose any solution that actually addresses the underlying problems that created the debt crisis in the first place.

We cannot spend our way out of the problem of the ever-increasing costs of higher education. We need real solutions. That is why my colleagues and I introduced the Lowering Education Costs and Debt Act, a package of five bills aimed at directly addressing the issues driving skyrocketing costs of higher education and the increasing amounts of debt students take on to attend school.

Our legislation puts downward pressure on tuition, empowering students to make the educational decisions that put them on track to academically and financially succeed. It also simplifies the student loan borrowing and repayment process so students don't take out more loans than they need and can navigate the student loan process without confusion. Unlike President Biden's student loan schemes, these are commonsense solutions that actually address root causes of the student loan crisis. In fact, some of the bills included in the package already have strong bipartisan support.

President Biden's student loan scheme is not a fix; it is merely a band-aid forcing taxpayers to shoulder the responsibility of paying off someone else's debt. We need strong leadership.

President Biden's failure to address rising tuition costs won't hurt the rich; only the middle- and lower-income Americans who will continue to be punished, forced to take out more and more loans just to get an education.

I will close by urging all my colleagues to support my Congressional Review Act resolution to prevent President Biden's reckless student loan scheme and to work together on real solutions to tackle the rising cost and debt of students. If we don't act, students will continue to drown in debt without a path for success.

(Mr. MARKEY assumed the Chair.)

NOMINATION OF JULIE A. SU

Mr. President, today marks 175 days since Julie Su's nomination for Secretary of Labor was officially transmitted to the Senate. This is the longest a Cabinet-level nominee has waited for a floor vote when the same party controls the White House and the Senate.

Under the Federal Vacancies Reform Act, an individual can only perform the role of a Cabinet-level position without Senate confirmation for 210 days. The law was created to prevent the President from appointing unelected bureaucrats to roles that require the advice and consent of the Senate.

Now, the White House has acknowledged that Ms. Su is unable to reach the 51 votes needed for confirmation. Instead of allowing the Senate to do its constitutional duty and reject the

nomination, the Biden administration is attempting to circumvent Congress and the Constitution to invoke the Department of Labor Succession Act, which they claim allows them to have Ms. Su serve as Acting Secretary of Labor indefinitely, even though lacking the votes for confirmation.

This is unacceptable. Not only is this use of the Department of Labor's succession statute a violation of the advice and consent provision of the Constitution—which should offend both Democrats and Republicans as the Executive attempts to usurp the role of the legislature—but it will open up any action taken under her leadership to legal challenges. In fact, major business groups have indicated they are prepared to bring legal action against the Department of Labor if a rule on independent contractors is finalized while Ms. Su remains Acting Secretary. That is why I am introducing legislation that will prevent Ms. Su from serving as Acting Secretary of Labor beyond 210 days. This bill aligns the Department of Labor succession clause with the Vacancies Act to prevent further abuses of the Constitution, ensuring the Senate's role in providing advice and consent is preserved.

It is not surprising that Ms. Su's nomination has received such widespread bipartisan opposition. A qualified Secretary of Labor needs to be able to do three things: act impartially, effectively manage a large organization, and successfully handle labor negotiations. Unfortunately, we have not seen much evidence of Ms. Su's ability to do any of these three.

Ms. Su has a decades-long record of partisan activism and promoting policies that undermine workers to the benefit of politically connected labor unions.

As secretary for the California Labor and Workforce Development Agency, Ms. Su was the chief enforcer of AB 5, a controversial law dismantling the gig economy that is used by companies such as Uber, DoorDash and Lyft, removing the flexibility of individuals to work as independent contractors.

Even in California, AB 5 was unpopular. The Governor and State legislature had to pass over 100 exemptions after its implementation. In fact, the statutory exemptions are longer than the text of the bill itself; and 59 percent of Californians voted to further erode the bill, which, naturally, labor unions challenged that 59 percent in court.

As Acting and Deputy Secretary of Labor, Ms. Su would oversee the Biden administration's new regulation stripping 21 million individuals of their ability to be independent contractors and enjoy the inherent flexibility. As I said before, a law rejected in California is not a policy to spread across the Nation.

There are also serious concerns about Ms. Su's ability to manage an agency. The only large agency she has run, the California Labor and Workforce Development Agency, lost at least \$31 bil-

lion—billion with a “b”—\$31 billion to unemployment fraud under her watch. Despite repeated warnings, she chose to waive crucial verification safeguards recommended by the U.S. Department of Labor. This was confirmed by the California Office of the Inspector General.

Lastly, there are 150 labor contracts expiring this year. When labor disputes are not handled properly, there can be massive supply chain implications and economic impacts, worsening the inflation that is already too bad.

President Biden has sidelined Ms. Su in the United Auto Workers labor dispute, suggesting even he recognizes she is not up to the task. Instead, he has tasked Gene Sperling, an advisor who the President feels is better equipped to handle such an important issue.

We shouldn't have a Labor Secretary that the President ends up outsourcing the job to others.

The President should not be allowed to bypass the will of Congress. It is unacceptable and yet another example of weak leadership from this administration.

As a Republican, I don't expect to agree with the political positions of a Biden nominee, but I will remind my colleagues that former Labor Secretary Marty Walsh received strong bipartisan support for his unquestionable experience running organizations and handling negotiations. He worked to develop trust with both labor unions and the business community.

However, Ms. Su does not appear to be in that mold. And for this reason, she has been unable to receive the votes necessary for confirmation, even when the President's party is in the majority. I urge President Biden to withdraw Ms. Su's nomination and put forward a nominee who is committed to the fair enforcement of our Nation's labor laws.

PRESCRIPTION DRUGS

Mr. President, last week, President Biden announced the first 10 medications that would be subject to Medicare price negotiations. I chuckle when I say “negotiations.” As I say later, it reminds me of something out of “The Godfather.”

These negotiations were established in the so-called Inflation Reduction Act. To be clear, the negotiations are a sham. A negotiation in which a company, if they don't accept the government's offer, has to pay a 95-percent excise tax on profits is not a genuine negotiation. To quote “The Godfather,” it is “an offer they can't refuse.” It is the price equivalent of waking up with a dead horsehead in your bed.

As ranking member of the Senate Health, Education, Labor, and Pensions Committee, I have serious concerns about the impact this policy can have on our Nation's effort to develop innovative lifesaving treatments that Americans need.

The Presiding Officer is from Massachusetts. I was in Massachusetts vis-

iting with small biotech firms, and they said, yes, there is a biotech exemption, but there is no way for them to go from being a small biotech to being a large biotech under the IRA. When they get to this period where they are subject to the negotiations where you get 95 percent of your profit taken if you don't agree to the “negotiation,” they will not have the working capital to invest in another product. When this happens, they will be taken over by some big company, losing that innovation, losing that spark that has made Massachusetts such a hotbed for innovation by generating products which have benefited patients all over the world.

And so it begs the question: When Government wields a heavy hand, threatening to take 95 percent of profits unless you agree to their “negotiation,” what is the cost to the development of a future cure for cancer, dementia, some other neurologic disease which is currently devastating and incurable, and any other terrible condition that a patient has?

As a physician who happens to be a Senator, I regularly come across folks who wish to share with me their medical history, not as a kind of “let me tell you about myself” but a plea for help for themselves and all those they represent. And they know they represent others. And the innovation in the U.S. biotech and U.S. pharmaceutical industry is their lifeline. They know it may not help them, but they want to help someone else. And there is a community of those who have this influence. And when you say, well, my gosh, working capital—boom—will be taken away because the negotiation is a 95-percent excise tax. The negative effect of this will force some companies to cut programs and research in small molecule drugs, shift funding away from diseases with small populations, and do other things that would help those who, right now, do not have help. Because of the IRA, the investments we make in basic science will, ultimately, result in less value for patients if those discoveries don't translate into new products for that young person with a rare disease.

Research decisions should be driven by evidence and what is best for patients, not top-down price controls.

What is really unfortunate is that the dynamic, small- and medium-sized companies will bear the brunt of these misguided Democratic policies.

I will say one more thing: That small company trying to become a medium-sized company and them not being able to capitalize and be bought by Big Pharma—Big Pharma gets bigger, but the innovation of Big Pharma does not match that of the more agile small or medium. And there is something being lost here.

Instead of partisan price controls, we should prioritize bipartisan solutions that lower drug costs and preserve innovation so that Americans have access to the best possible treatments.

There was an example of that which passed on a bipartisan basis in the previous Congress when Republicans controlled the Senate Finance Committee. But that is not being considered at this time.

I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. BROWN. Mr. President, I ask unanimous consent that I have permission to complete my remarks before the rollcall vote.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN. Mr. President, I will not go long before the rollcall vote because I know how this place works. So thank you.

LABOR DAY

Mr. President, yesterday, we celebrated Labor Day—a day when Americans come together to honor all of the people who make this country work.

I know the Presiding Officer, the junior Senator from Massachusetts, is one of the strongest supporters not just of Labor Day but of the labor movement behind Labor Day.

Whether you punch a clock, swipe a badge, earn a salary, or make tips or whether you are caring for children or aging parents, all work has dignity. For too many Americans, we know hard work simply hasn't paid off the way that it should. We are working to change that. We are making real progress. We are taking historic steps to put workers first, to invest in American workers, and to make our economy work for every American, not just for CEOs, not just for Wall Street.

Just last week, the Department of Labor proposed a new rule to make millions of workers eligible for overtime pay. We have been working on this for years because, if you put in extra hours, you should be paid for those extra hours. It will put money in Ohioans' pockets. More than 100,000 Ohio workers will finally receive overtime pay when they put in overtime work. Imagine that they haven't—but they haven't, with the way this Congress and former Presidents have let this happen.

It has been a long time coming, but the fight is not over. We need to pass my Restoring Overtime Pay Act to provide workers with financial security by ensuring that overtime pay is permanently protected regardless of who is in the White House.

This important step forward comes after we passed the most pro-worker infrastructure bill in history with the strongest "Buy America" provisions in history. It means more opportunities for workers in the trades all over Ohio—repairing roads, laying broadband cables, replacing lead pipes, rebuilding bridges, fixing water systems. It means more work for American factories that are making the goods used to build our infrastructure.

We passed the CHIPS Act to bring our supply chains home and to ensure the technology of the future is made in

America. It provides Davis-Bacon protection. That means they get union wages and union benefits for the workers who are creating these state-of-the-art factories, like the one in Licking County, OH, just east of Columbus.

We passed the Inflation Reduction Act, with prevailing wage and strong "Buy America" rules.

These are big wins for workers—the biggest wins and the most frequent wins for workers we have seen in a generation and the biggest steps we have taken in decades to create an industrial policy that puts our most valuable resources—American workers—first.

Companies that recognize their workers who drive their success are the ones that will lead their industries into the future whether it is in Licking County, where Intel entered a project labor agreement with the trades—something we insisted on in this body—or outside of Toledo, in Fulton County, where Arche Solar is building a solar farm with union workers; or in the Mahoning Valley, where Ultium just agreed—I was there a few days ago—to raise wages by 25 percent after we pushed them to engage with the workers' union.

I was in Lordstown, talking with those workers in UAW Local 1112. There is a lot of history in that building. The pictures and the signs on the walls tell the story of the Ohio auto industry, of the decades that workers spent building this industry and building the middle class in Mahoning Valley. They tell the story of the politicians who sold out Ohio workers to corporations that wanted cheap labor. You see the "last Chevy Cruze" sign on the wall as a reminder of what trade agreements did to places like Mahoning Valley or to my home in Mansfield, OH.

Workers are resilient. Many of the workers I talked with last week worked at the old Chevy Cruze plant. Now they are making the batteries that will power the next generation of cars and trucks. They are ready to lead the auto industry of the future. They just need fair pay and a safe workplace and protections on the job.

Ultium needs—this is the GM Korea company that was formed into a company called Ultium. They need to agree to a fair, permanent union contract that will be the gold standard and template for all EV contracts. That means honoring the UAW master agreement.

A union card means higher pay. It means better benefits. It means greater retirement security. It means safer workplaces. It means having more control over your schedule. It means a middle-class life.

My wife, at the age of 16, when growing up in the far northeast corner of Ohio, in Ashtabula, had an asthma attack. Her dad's union card allowed her to have an ambulance take her to the Cleveland Clinic for 2 weeks—about an hour's drive. Without that union card, she probably would have died. He was a utility worker, and he carried that union card for 35 years.

We shouldn't have to settle for less. Together, we are laying down a new marker. The jobs of the future should be good-paying union jobs—jobs where you build a life and a career and see a future. For too long, we haven't had enough of those opportunities.

Last week, I joined the Building Futures in Columbus for the graduation of their seventh class. There is nothing quite like it. They are making more training programs, more apprenticeships, more opportunities to get people of all ages involved in the trades. Most of these were Columbus city school graduates. A few of them had union members in their families. A few of them had the kind of opportunities that the union card brings. This pre-apprentice program means that, upon their graduation from this pre-apprentice program, they will be able to become a bricklayer or an insulator or a millwright or an electrician or a carpenter or a plumber or a pipefitter or a laborer or an operating engineer. It means good-paying, skilled union jobs are accessible to everyone and that they look like America.

Of course, we know what workers are up against when they organize. Corporations unleash all of their power to fight their own workers—too often, legally. That is why I will never stop fighting, as I know the Presiding Officer has in the past, with the Protecting the Right to Organize Act. We honor the workers this week who built the country and the progress we have made.

I wear on my lapel a depiction of a canary in the cage. The mineworker of 100 years ago, 120 years ago took a canary down to the mines. The canary died. The mineworker got out of the mines. He didn't have a union, in those days, strong enough or a government that cared enough to protect who he really was—almost always a "he." He was on his own.

Look at what we have done since then. This was given to me by a steelworker on Workers' Memorial Day. But look at what we have done since then. We have passed child labor laws. We have passed collective bargaining laws. We have passed Social Security and Medicare and all of the kinds of things that have given middle-class workers the opportunities we should have as a country.

This week, we honor and celebrate that proud tradition. We recommit to fighting for the dignity of work whether it is the PRO Act, whether it is passing the Railway Safety Act, whether it is standing with workers at the picket lines. When work has dignity, every American is paid the living wage they have earned.

Just this week, a group of us took on, if you will, in a labor dispute, workers who were about to strike, workers who were on the picket line—hospital workers. They were mostly low-paid workers not offered much from their employer, their big Cleveland hospital. They came to an agreement, in part,

because of public pressure and, in part, because there was a strong organized union—organized labor—at the bargaining table. When workers have dignity, workers have retirement security and paid leave and power over their schedules and their lives.

When you love this country, you fight for the people who make it work. That is what Labor Day is about. That is what organized labor is all about.

NOMINATIONS

Mr. President, I urge my colleagues to join me in confirming Philip Jefferson as Vice Chair of the Federal Reserve and in confirming Lisa Cook and Adriana Kugler to the Board of Governors of the Federal Reserve System. The Senate will be voting on Dr. Cook's and Dr. Kugler's nominations in the next few days.

These three nominees are talented economists and dedicated public servants and are also all historic nominees who will bring diverse perspectives to the Fed. If confirmed, our Board of Governors will better reflect the country and the people who make it work. Our economy works better when we have people from diverse backgrounds, people who bring new ideas and different perspectives, not just the same old Wall Street, corporate consensus.

NOMINATION OF PHILIP NATHAN JEFFERSON

Mr. President, Dr. Philip Jefferson is a respected economist whose nomination for Vice Chair came out of our committee, the committee I chair—Banking, Housing, and Urban Affairs—with unanimous support. When he was first confirmed last year, he had wide bipartisan support in the Senate.

Dr. Jefferson brings to the Fed outstanding academic credentials and years of strong leadership experience. He is a renowned scholar, and he is a leading expert in monetary policy and the economics of poverty. Dr. Jefferson possesses a strong understanding of how higher prices hurt the most economically insecure Americans and that access to good-paying jobs is the best antidote to poverty.

If confirmed, he will be the second Black man to serve as Vice Chair on the Board of Governors.

NOMINATION OF LISA DENELL COOK

Mr. President, Dr. Lisa Cook is a well-qualified economist who has served with distinction since having filled a vacancy last year on the Board of Governors. She brings a breadth of research and international experience in monetary policy, banking, and financial crises. Dr. Cook's expertise in international economics has immense value as we continue in our economic recovery amidst global inflation—global inflation that is higher in most of the rest of the world than it is here.

Prior to joining the Fed, Dr. Cook taught economics and international relations at the Harvard Kennedy School of Government, Harvard Business School, and Michigan State University. During the Obama administration, she served on the Council of Economic Ad-

visers as a senior economist and at the Treasury Department under the administrations of both Presidents Bush and Obama.

She grew up in the South. She worked in the industrial Midwest, in a State just north of mine—Michigan. She understands the vital role that workers and local communities play in building a strong economy. I have faith in her judgment to set monetary policy that grows our economy from the middle out and the bottom up.

Last year, her character was attacked, and her credentials were questioned. It was an unfair, underhanded attack on an eminently qualified woman of color. She has overwhelmingly proven her naysayers wrong. She has brought a level-headedness and data-driven focus to monetary policy-making.

I would like to take a moment to thank Senator ROUNDS of South Dakota for his open-mindedness and support of her confirmation. He listened to her answers and looked at her record, and he enthusiastically supported her. I wish all of my colleagues would do that.

She would be the first Black woman confirmed to a full 14-year term on the Federal Reserve Board—the first in over 100 years. This was started in 1913, and there has never been an African-American woman who has been reconfirmed. She would be the first.

NOMINATION OF ADRIANA DEBORA KUGLER

Mr. President, the last is Dr. Adriana Kugler, who is one of the Nation's labor economists—top labor economists—with an impressive record in both government and academic service. She is unquestionably qualified. She possesses bipartisan support from top economists and civil rights organizations. She serves as the executive director of the World Bank. She was confirmed via a unanimous vote in the U.S. Senate for that job, and she has played a critical role in the global economic recovery.

Prior to serving at the World Bank, she was an economist at the Department of Labor and taught economics and public policy at Georgetown University. In being a first-generation American and the daughter of Colombian immigrants, Dr. Kugler has firsthand knowledge of runaway prices and limited employment opportunities.

During her nomination hearing testimony, she shared how witnessing adversity and poverty in the country she was born in had deepened her understanding of the need for fighting inflation and promoting full employment.

If confirmed, she would be the first Hispanic American to serve on the Board of Governors in the history of the Federal Reserve—again, beginning in 1913. Her confirmation would be a critical step forward in bringing more diverse perspectives to our Nation's central bank, not just diversity in the way these nominees look but diversity in the way they think, which is something we simply have not seen much of

in the kind of elitist institutions like the Board of Governors of the Federal Reserve.

I strongly urge my colleagues to join me in supporting Dr. Jefferson's, Dr. Cook's, and Dr. Kruger's nominations—all have bipartisan support—so we can have all seven seats on the Board of Governors filled with qualified experts helping in our economic recovery.

I spoke to Chair Jerome Powell today about this and some other things. We discussed how important it is to the Fed that we have all seven spots in the Federal Reserve confirmed. It has been a long time since we have done that. This week is our opportunity.

I ask my colleagues to move forward on these nominations.

I yield the floor.

MAUI WILDFIRES

Mr. SCHATZ. Mr. President, last month, on August 8, people on Maui experienced one of the worst days of their lives. What started as a bright, sunny, windy summer day turned into a long, hellish nightmare as wildfires burned down the town of Lahaina.

There was little sign of the tragedy to come. People showed up to work as usual. Children enjoyed their summer vacation. Tourists strolled down Front Street. Snorkeling charters set out for the day. Surfers hit the waves. And all of that changed in an instant.

By now, people around the world have seen the photos and the video from that horrific day.

But the devastation up close, on the ground, is even more chilling. It is unlike anything I have ever seen. Whole neighborhoods are levelled. Piles of ash and debris sit where homes once stood. Hollowed-out cars, burnt to a crisp, cover the streets.

To date, 115 people have been declared dead, and many more are still missing. For a tight-knit community like Lahaina where everyone knows each other, these losses are crushing. They were mothers and fathers, aunts and uncles, friends and neighbors, kids as young as 7, and seniors who couldn't escape in time. We mourn every one of them and the lives they lived and would have gone on to live.

Even for those who were lucky enough to survive, their lives will never be the same again. They are grieving the loss of their family and their friends and confronting the loss of their homes and their livelihoods. They are wondering where their kids will go to school and how they will get

healthcare. Those who still have jobs are trying to figure out how to get to them without their cars.

The people of Maui have had their lives turned upside down, and it will be years before their lives return to some semblance of normalcy again.

To understand the scale of this tragedy and how it happened, we need to go back to the beginning because what happened in Lahaina on that day was not normal. Hawaii is no stranger to natural disasters. We have seen floods, and we have seen hurricanes, tsunamis, and volcanic eruptions, even small-scale wildfires, but nothing like this.

The conditions for a disaster had been slowly building. Over the past several decades, Lahaina's old sugar plantation land had been replaced by dry, invasive grass that was prone to fires. As the area got hotter and saw less rain, the grass dried up even more. The air got drier too.

Under normal circumstances, these conditions are manageable, but the final piece of this awfully perfect storm came from hundreds of miles away. See, usually in Hawaii when the public is told that a hurricane is passing to the south and we won't get any rain, we are grateful to avoid the direct hit. No rain, just heavy winds—a good outcome. But Hurricane Dora was different. Without making landfall or producing a single drop of rain, it whipped up the powerful winds that spread the deadly fire. Flames barreled down the hillside, crossed the highway, and plowed into town, fueled by 70-mile-an-hour winds. With that kind of force, the fires only needed an hour or two to decimate Lahaina town.

The winds also left the fire department without a critical tool: helicopters to fight the fires from the air. So all they had were the standard firetrucks and water hoses. But this was a whole town on fire—not a block, not a home. That wasn't going to cut it.

The fires spewed ash and embers in every direction. The afternoon skies darkened until they were pitch black. The air was heavy with thick smoke. Cars exploded, power lines fell, engine blocks melted, and homes were ripped apart.

People were not prepared for this because no one watching a fire a mile and a half away from their home thinks that it is going to reach their street and, worse, that it can happen in 10 or 15 minutes.

For those of us who weren't there in that hour of panic and chaos, it is hard to fully understand the kind of split-second decision that people were forced to make. Many grabbed their kids, their pets, whatever they could physically carry, and took off. It was the last time they saw their homes.

In a race against the fires, some of them jumped in their cars to get out of town, but the one road out of Lahaina was blocked because of downed power lines. So hundreds of cars piled up bumper to bumper on the streets with

nowhere to go. Many people abandoned their cars to escape on foot, but others didn't make it. An entire family and a man trying to protect his dog died in their cars. Dozens of people jumped into the ocean to escape the flames. They stayed for hours, struggling to breathe through the plumes of smoke. Others were crouched by the seawall, using wet blankets to shield themselves from the flying embers.

People didn't know how long they would be there or even if they would be rescued at all. But many found help in strangers, people like Benny Reinicke, who saw an elderly woman, Noni, unable to cross the seawall, and he carried her on his back and stayed with her and her daughter in the water for hours and hours, or Jube Bedoya, who found a family of seven from California on the shoreline and carried their 2-year-old on his shoulders for hours in the water as they floated on a piece of plywood. They were among the 17 people the Coast Guard rescued that night.

All across town, heroic first responders put their own lives on the line to fight the inferno and bring people to safety. Eighteen firefighters lost their own homes while they were fighting the fires, and in the weeks since, they have worked around the clock to contain fires across Maui. We can't thank them enough. But even a thank-you from me or anyone else feels inadequate. They didn't do it for us; they did it for each other. They were fighting—they are fighting—for their friends, for their families, for their neighbors, for their town.

Rescue teams have worked day and night to search for remains and identify victims using DNA evidence. It is a painstaking process. For friends and family, it is an agonizing wait to hear something, anything about what happened to their loved ones and where they might be.

Lahaina was known as a historic town that had been the seat of power for the sovereign Hawaiian Kingdom in the 19th century. It had also served as a major hub for whaling, with hundreds of ships from around the world anchored there. Later, its sugar plantation brought immigrants from China, Japan, Portugal, and the Philippines who came to work on it and made Lahaina their home.

Before the fires, you could see symbols of that rich history throughout town—Nagasako General Store, Pioneer Inn, Waiola Church—but it looks like a war zone now. Ash and debris stretch for miles. Streets still reek of burnt metal and chemicals. Smoke lingers in the air. Two thousand two hundred structures were destroyed. Most of them were homes, some of which were passed down through generations. Roads and bridges, schools and health centers, historic buildings, the harbor—all of it destroyed.

The people of Maui are mourning unimaginable losses, but they are also confronting an uncertain future. How long will it take to find a permanent

home? When will they find a stable job again? Where will their kids go to school this fall? But if there is any reason for hope in all of this devastation, it is that people aren't carrying this burden alone.

Anyone who knows Hawaii knows that in a crisis, we all pitch in and we help each other. When the fires engulfed the town that terrible day, people from the island of Lānai saw the clouds of smoke and drove their boats 16 miles across the channel to rescue people. In the days and weeks since, even those who have lost their homes or jobs or loved ones have given everything they have got to each other to make it all a little less painful.

Everyday people are taking it upon themselves and springing into action to help. At the Hawaiian homestead of Leialii, the community came together and converted homes into supply distribution centers for necessities like water and gas. Another center in Napili set up a power and satellite internet station in the back of a truck so that people without power or cell service could get in touch with loved ones. At the University of Hawaii's Maui College, dozens of volunteers gathered to prepare meals for people in shelters. A crew from Oahu brought supplies on the sailing canoe Hikianalia, and a group of tour boat operators delivered supplies from Maalaea Harbor, while surfers on jet skis helped to bring them to shore. These people were not led by a nonprofit organization; they just saw the community in crisis and mobilized, and that is what Hawaii is all about.

While the individual stories of generosity and community give us some heart, the reality is that everyone in Lāhaina needs and deserves help. People of every age and every background have been devastated by these fires, and their needs are so enormous, they simply cannot do it alone. So it is our responsibility here in Congress to provide relief in any way that we can for as long as people need it.

In the past few weeks, following the President's quick disaster declaration, we have seen the most robust mobilization of Federal resources in Hawaii's history. Over 1,000 FEMA personnel have been on the ground assisting survivors, and nearly every Federal Agency, from the Small Business Administration, to the Department of Transportation to HUD, has taken steps to deliver aid and bring relief to the people of Maui.

My staff and I are in daily communication with our Hawaii congressional delegation, State and local officials, senior administration officials, and dozens of Federal Agencies who are all-in to help Maui recover. Last month, the President and First Lady came to Maui to show their support and hear directly from survivors. Speaker McCarthy and several bipartisan Members of Congress have also come to see the devastation firsthand. Many of my colleagues on both sides of the aisle have reached out asking how they can

help. It has meant a lot, and I want to thank everybody for that.

But given all that was lost, it will take years for Maui to fully get back on its feet, and more help will be needed from Congress in the months ahead. Nearly 1,900 homes were destroyed, including an affordable housing complex. Over 5,000 people have been displaced and are living in temporary housing like hotels and Airbnbs. They will need help finding permanent homes.

Three healthcare clinics, including a federally qualified health center's satellite office, were destroyed. They provided critical healthcare access to all of West Maui. Adult medicine, pediatric care, OB/GYN services, dental and behavioral health—all totally lost. Providers are doing the best they can using hotel ballrooms or tents in parking lots to get people care. But people need more than just urgent care; they need comprehensive care like checkups and counseling, and they need to get it in a real clinic.

King Kamehameha III Elementary School, which educates over 600 K-5 students, was damaged beyond repair. The cost of a new campus is estimated at \$175 million. Three other schools in the area are still closed and under inspection for air, soil, and water safety. Under normal circumstances, we would already be a few weeks into the school year by now, but as of last week, 1,200 students have not enrolled in another public school. We need resources to get them back into schools in-person and quickly.

Some people still don't have access to clean drinking water, and the wastewater treatment plants were knocked offline, creating environmental and health risks for the community. We don't yet know what the cost of repair for these critical services will be.

Roads and bridges were torn apart and will also need to be repaired so that people can move around. Over 1,000 electrical poles and 500 transformers are being replaced, and high-speed internet access has still not been fully restored to West Maui. Before any of that can happen, FEMA will need to complete one of the most complex debris-removal operations in its history. We are talking about tons and tons of waste that we will need to safely clean up off the streets and transport out of Hawaii. It may take up to a year and cost up to \$1 billion.

This is just some of the work ahead, and none of this will be easy. While the full extent of the damages is still being assessed, we know that the Federal share of costs for recovery will be in the billions of dollars.

Americans all share the responsibility of providing relief to these survivors because, while Maui is today's victim of extreme weather, it may very well be another State tomorrow. We have already seen so much damage this summer in Florida, California, Vermont, Louisiana, and more. These catastrophic events are unfortunately becoming more common and more severe.

In the weeks after the fires, I visited Maui every 3 days, and I talked to first responders and survivors about what it was like on that harrowing afternoon and in the days since. Their resilience and determination in spite of their pain and their grief was striking.

When I asked people "How are you doing?" I was struck because I often get the same response: "I lost everything, but I am alive."

"I lost everything, but I am alive."

They know that they are the lucky ones, and they are trying to find a way to get through this disaster.

I know that the people of Maui can recover and chart a new future, but they cannot do it alone. They need help from everyone—in Hawaii, here in Congress, and across the country. With time, scars will heal; Lāhaina will be restored; and we will be there to support them every step of the way. Mahalo.

I yield the floor.

The PRESIDING OFFICER (Mr. KELLY). The majority leader.

(vii) Sensitivity of Technology:

1. The M142 High Mobility Artillery Rocket System (HIMARS) is a wheeled launcher mounted on a 5-ton Family of Medium Tactical Vehicles truck chassis and is transportable by C-130. HIMARS is the modern Army-fielded version of the Multiple Launch Rocket System (MLRS) M270 launcher and can fire all of the MLRS Family of Munitions (FOM), including Guided Multiple Launch Rocket System (GMLRS) variants and the Army Tactical Missile System (ATACMS). Utilizing the MLRS FOM, the HIMARS can engage targets between 15 and 300 kilometers with GPS-aided precision accuracy.

2. The Guided Multiple Launch Rocket System (GMLRS) M31A2 Unitary is the Army's primary munition for units fielding the M142 HIMARS and M270A1 Multiple Launcher Rocket System (MLRS) Launchers. The M31 Unitary is a solid propellant artillery rocket that uses Global Positioning System/Precise Positioning Service (GPS/PPS)-aided inertial guidance to deliver a single high-explosive blast fragmentation warhead accurately and quickly to targets at ranges from 15-70 kilometers. The rockets are fired from a launch pod container that also serves as the storage and transportation container for the rockets. Each rocket pod holds six (6) total rockets.

3. The M30A2 GMLRS Alternative Warhead shares a greater than 90% commonality with the M31A1 Unitary. The primary difference between the GMLRS-U and GMLRS-AW is the replacement of the Unitary's high explosive warhead with a 200-pound fragmentation warhead of pre-formed tungsten penetrators which is optimized for effectiveness against large area and imprecisely located targets.

The munitions otherwise share a common motor, GPS/PPS-aided inertial guidance and control system, fusing mechanism, multi-option height of burst capability, and effective range of 15-70km.

4. The Extended Range (ER) GMLRS provides a persistent, responsive, all-weather, rapidly deployed, long-range, surface-to-surface, area- and point-precision strike capability. The XM403 Alternative Warhead (AW) carries a 200-pound fragmentation assembly filled with high explosives which, upon detonation, accelerates two layers of preformed penetrators optimized for effectiveness against large area and imprecisely located targets. The XM404 Unitary variant is a 200-pound class unitary with a steel blast-fragmentation case, designed for low collateral damage against point targets. The ER GMLRS maintains the accuracy and effectiveness demonstrated by the baseline GMLRS out to a maximum range of 150 km while also including a new Height of Burst (HOB) capability.

5. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

6. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

7. A determination has been made that Australia can provide the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

8. All defense articles and services listed in this transmittal are authorized for release and export to Australia.

TRANSMITTAL NO. 23-66

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The Stryker Family of Vehicles (FoV) are all derived from the Flat Bottom Infantry Carrier Vehicle (ICV). The ICV supplies the common suspension (except for the ICVD), drive line, major C4 components, and hull to the FoV. The FoV is powered by a 350 horsepower C7 Caterpillar diesel engine and runs on eight wheels that feature run flat capability and a central tire inflation system (CTIS). It contains a vehicle height management system to aid in transportability. The FoV is supported by a communications suite that integrates the Single Channel Ground and Airborne Radio System (SINCGARS) radio family and Global Positioning System (GPS) and their commercially exportable equivalents, and has a Mission Equipment Package that add to the ICV common capabilities. The Stryker is deployable by C-130 aircraft and is combat capable upon arrival; it is also capable of self-deployment by highway and can conduct self-recovery. It has a low noise level that reduces crew fatigue and enhances survivability. It moves about the battlefield quickly and is optimized for close, complex, or urban terrain. The Stryker program leverages non-develop-

mental items with common subsystems and components to quickly acquire and field these systems.

2. The XM914E1 is a single feed chain gun that fires linked, percussion-primed 30mm x 113mm ammunition. The gun is powered by a 1 horsepower 28V (volt) direct current (DC) motor and incorporates hang fire safety protection. Actual operation of the gun is accomplished via the platform's fire control system in conjunction with and through the dedicated Gun Control Unit (GCU). The GCU provides all electrical power to the gun, including operational and sensor level 28V DC power. The weapon has a cyclic firing rate of 200± 25 shots per minute. Actual firing rate varies within the specification range due to system level characteristics, such as inputted voltage and ammunition feed system loads.

3. The RS6 Remote Weapon System (RWS) is an externally mounted weapon mounting and control system that allows the gunner to remain inside the vehicle protected by armor while firing a variety of crew-served weapons, including the XM914E1 chain gun. The RS6 allows for remote day and night sighting and ballistic control capability, providing first-burst engagement of targets at maximum effective weapon range while on the move.

4. The AN/VAS-5 Driver's Vision Enhancer (DVE) is compact thermal camera providing armored vehicle drivers with day or nighttime visual awareness in clear or reduced vision (fog, smoke, dust, etc.) situations. The system provides the driver a 50-degree viewing angle using a high-resolution infrared sensor and image stabilization to reduce the effect of shock and vibration. The viewer and monitor are ruggedized for operation in tactical environments.

5. The Driver's Vision Enhancer (DVE-Wide) mounted on the XM1296 ICVD, is a compact thermal camera providing armored vehicle drivers with day or nighttime visual awareness in clear or reduced vision (fog, smoke, dust, etc.) situations. The system provides the driver a 180-degree viewing angle using a high-resolution infrared sensor and image stabilization to reduce the effect of shock and vibration. The viewer and monitor are ruggedized for operation in tactical environments.

6. The Common Remote Operated Weapon Station (CROWS) is an externally-mounted weapon mounting and control system that allows the gunner to remain inside the vehicle protected by armor while firing a variety of crew-served weapons. The CROWS allows for remote day and night sighting and ballistic control capability, providing first-burst engagement of targets at maximum effective weapon range while on the move.

7. hC2 BMS solution—the hC2 Software Suite is a complete COMMAND and Control (C2) solution that offers clarity, simplicity, and high performance to address real world C2 challenges at all echelon levels. The hC2 Suite connects the headquarters all the way down the echelon to the tactical edge. At the core of the hC2 Suite is hC2 Tactical Communications, which enables full integration and interoperability of the three hC2 components: COMMAND, PATROL and DISMOUNT. hC2 Tactical Communications provides networked COMMAND and control and shared situational awareness, allowing for information exchange across echelons. hC2 Tactical Communications is operable on limited bandwidth, high latency tactical radio data communications frequencies. hC2 also supports IP and non-IP radios and can handle different types of radios, even within the same vehicle.

8. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

9. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

10. A determination has been made that Bulgaria can provide the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

11. All defense articles and services listed in this transmittal have been authorized for release and export to the Republic of Bulgaria.

The addition of these items will result in a net increase in MDE cost of \$800 million, resulting in a revised MDE cost of \$1.9 billion. The total estimated case value will increase to \$3.2 billion.

(iv) Significance: This notification is being provided as the additional MDE items were not enumerated in the original notifications. The proposed articles and services will support Germany's capability to meet current and future threats by providing critical capabilities to coalition maritime operations and will increase interoperability between the United States and Germany.

(v) Justification: This proposed sale will support the foreign policy and national security of the United States by improving the security of a North Atlantic Treaty Organization (NATO) Ally which is an important force for political and economic stability in Europe.

(vi) Sensitivity of Technology: The Sensitivity of Technology Statement contained in the original notification applies to the items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) Date Report Delivered to Congress: July 31, 2023.

POLICY JUSTIFICATION

Japan—Joint Air-to-Surface Standoff Missiles with Extended Range (JASSM-ER)

The Government of Japan has requested to buy fifty (50) AGM-158B/B-2 Joint Air-to-Surface Standoff Missiles with Extended Range (JASSM-ER). Also included are JASSM Anti-jam Global Positioning System Receivers (JAGR), training missiles, and missile containers; munitions support and support equipment; spare parts, consumables, accessories, and repair/return support; integration and test support and equipment; personnel training and equipment; classified and unclassified software delivery and support; classified and unclassified publications and technical documentation; transportation support; U.S. Government and contractor engineering, technical, and logistics support services; studies and surveys; and other related elements of logistics and program support. The estimated total cost is \$104 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a major ally that is a force for political stability and economic progress in the Indo-Pacific region.

The proposed sale will improve Japan's capability to meet current and future threats by providing stand-off capability via advanced, long-range strike systems for employment on Japan Air Self-Defense Force (JASDF) fighter aircraft including but not limited to the F-15J. Japan will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Orlando, FL. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 23-60

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The AGM-158B/B-2 Joint Air-to-Surface Standoff Missile with Extended Range (JASSM-ER) All Up Round (AUR) is a low-observable, highly survivable, subsonic cruise missile designed to penetrate next-generation air defense systems enroute to target. The JASSM-ER is designed to kill hard, medium-hardened, soft, and area-type targets. A turbo-fan engine and reconfigured fuel tanks provide added capacity. The extended range over the baseline was obtained by going from a turbo jet to a turbo-fan engine and by reconfiguring the fuel tanks for added capacity.

a. The JASSM Anti-Jam Global Positioning System (GPS) Receiver (JAGR) is an imbedded GPS receiver that resides within the AUR of the JASSM-ER missile and is programmed during the AUR-build process to be country-specific. It provides GPS/Inertial Navigation System (INS)-protected GPS null steering antenna systems that can minimize or eliminate undesirable interference, jamming signals, or noise during midcourse guidance.

b. The AGM-158B-2 system capabilities include all the capabilities of the AGM-158B. The AGM-158B-2 configuration will have different internal components to address multiple obsolescence issues as well as sub-component updates to position for M-Code and other potential upgrades.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Japan can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to Japan.

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The AH-64E Apache Attack Helicopter is the Army's advanced attack helicopter, equipped for performing close air support, anti-armor, and armed reconnaissance missions. The aircraft contains the following communications and target identification equipment, navigation equipment, aircraft survivability equipment, displays, and sensors:

a. The AN/ARC-231A (RT 1987) Very High Frequency/Ultra High Frequency (VHF/UHF) radio is a multi-mode software-defined radio providing, line of sight VHF/UHF secure and non-secure voice and data communications in the 30.000-941.000 MHz frequency range and Satellite Communications (SATCOM) beyond line of sight secure and non-secure voice and data, including Demand Assigned Multiple ACCESS (DAMA) communications in the 240-320 MHz frequency range on manned and unmanned aviation platforms. ARC-231A (RT 1987) includes improved Type-1 cryptographic algorithm and processing capabilities, Civil Land Mobile Radio, Single Channel Ground and Airborne Radios System (SINCGARS) capabilities, HAVE QUICK (HQ), Second Generation Anti-Jam Tactical UHF Radio for NATO (SATURN) waveform, 8.33 kHz channel spacing for Global Air-Traffic Management (GATM) compliance, and capability for Mobile User Objective System (MUOS) waveform through possible future hardware and software updates.

b. The AN/APX-123A Identification Friend-or-Foe (IFF) digital transponder set provides pertinent platform information in response to an IFF interrogator. The digital transponder provides cooperative Mark XII IFF

capability using full diversity selection, as well as Mode Select (Mode S) capability. In addition, the transponder is capable of interfacing with the aircraft's Traffic Collision and Avoidance System (TCAS). The transponder receives pulsed radio frequency interrogation signals in any of six modes (1, 2, 3/A, S, and 5), decodes the signals, and transmits a pulse-coded reply. The Mark XII JFF operation includes Selective Identification Feature (SIF) Modes 1, 2, 3/A and C, as well as secure cryptographic Mode 5 operational capability.

c. Link 16 Datalink is a military tactical data link network. Link 16 provides aircrews with enhanced situational awareness and the ability to exchange target information to Command and Control (C2) assets via Tactical Digital Information Link-Joint (TADIL-J). Link 16 can provide a range of combat information in near-real time to U.S. and allied combat aircraft and C2 centers. The AH-64E uses the Harris Small Tactical Terminal (STT) KOR-24A to provide Airborne and Maritime/Fixed Station (AMF) Small Airborne Link 16 Terminal (SALT) capability. The STT is the latest generation of small, two-channel, Link 16 and VHF/UHF radio terminals. While in flight, the STT provides simultaneous communication, voice or data, on two key waveforms.

d. The AN/APR-39 Radar Warning Receiver Signal Detecting Set is a system that provides warning of a radar-directed air defense threat and allows for the employment of appropriate countermeasures. This is the 1553 data bus compatible configuration.

e. The AN/AVR-2B Laser Warning Set is a passive laser warning system that receives, processes, and displays threat information on the aircraft's multi-functional display when the system detects lasers illuminating the aircraft.

f. The AAR-57 Common Missile Warning System (CMWS) detects energy emitted by threat missiles in-flight, evaluates potential false Alarm emitters in the environment, declares validity of threats, and selects appropriate countermeasures for defeat. The CMWS consists of an Electronic Control Unit (ECU), Electro-Optic Missile Sensors (EOMSSs), and Sequencer and Improved Countermeasures Dispenser (ICMD).

g. The AH-64E uses two EAGLE+MMR Embedded Global Positioning System (GPS)/Inertial Navigation Systems (INS) (EGI) with Multi-Mode Receiver. The EA GLE+MMR is a self-contained, all-attitude navigation system with an embedded GPS receiver controlled via MIL-STD-1553B controller, and provides output navigation and OPS timing data to support ADS-Bout and other platform systems. The EAGLE's EGJ unit houses a 24 channel GPS receiver capable of operating in either Standard Positioning Service (SPS) CIA-code (non-encrypted) or Precise Positioning Service (PPS) Y-code (encrypted).

h. The AN/ASQ-170 Modernized Target Acquisition and Designation Sight/AN/AAQ-11 Pilot Night Vision Sensor (MTADS/PNVS) provides day, night, and limited adverse weather target information, as well as night navigation capabilities. The PNVS provides thermal imaging that permits nap-of-the-earth flight to, from, and within the battle area, while MTADS provides the copilot gunner with search, detection, recognition, and designation capabilities by means of Direct View Optics (DVO), television, and Forward Looking Infrared (FLIR) sighting systems that may be used singularly or in combinations.

i. The AN/APR-48B Modernized Radar Frequency Interferometer (M-RFI) is an updated version of the passive radar detection and direction finding system. It utilizes a detachable User Data Module (UDM) on the M-RFI

processor, which contains the Radar Frequency (RF) threat library.

j. The AN/APG-78 Longbow Fire Control Radar (FCR) with Radar Electronics Unit (REU) is an active, low-probability-of-intercept, millimeter wave radar. The active radar is combined with a passive Radar Frequency Interferometer (RFI) mounted on top of the helicopter mast. The FCR Ground Targeting Mode detects, locates, classifies, and prioritizes stationary or moving armored vehicles, tanks, and mobile air defense systems, as well as hovering helicopters and helicopters and fixed-wing aircraft in normal flight. If desired, the radar data can be used to refer targets to the regular electro-optical Modernized Target Acquisition and Designation Sight (MTADS).

k. The Manned-Unmanned Teaming X (MUMT-X) data link system provides cross-platform communication and teaming between Apache, unmanned aerial systems (UAS), and other interoperable aircraft and ground platforms. It provides the ability to display real-time UAS sensor information and MTADS full motion video feeds across MUMT-equipped platforms and ground stations.

l. The M299 Missile Launcher, commonly known as the Longbow Hellfire Launcher (LBHL), is a four-rail launcher designed to carry the complete family of AGM-114 Hellfire Missiles.

m. The AGM-114R Hellfire is a semi-active laser guided missile with a multi-purpose warhead that can engage and defeat both high and heavily armored targets, personnel, bunkers, caves, and urban structures.

n. The JAGM-179A is an Air-to-Ground Missile (AGM) consisting of the Hellfire Romeo (AGM-114R) back-end (i.e., propulsion, warhead, and control sections) mated to a newly designed dual-mode guidance section (GS). The dual-mode GS is a combination of Millimeter Wave (MMW) and Semi-Active Laser (SAL) sensors co-axially aligned on a steerable gimbal. The combination of MMW and SAL sensors provide improved Precision Point (PP) and Fire-and-Forget (FF) capabilities in a single munition. This combination allows for targeting of fast moving and stationary targets in countermeasure and intensive battlefield environments, and in low cloud ceiling and adverse weather. Firing modes include Lock-On Before Launch (LOBL) and Lock-On After Launch (LOAL). Engagement modes include Point Designation (PD)—SAL only, Target Designation (PD)—SAL initiated with MMW engagement completion, Active Fire & Forget/Laser Queuing (AFF-LQ)—MMW initiated with SAL override capability, and Active Fire & Forget (AFF)—MMW only. Hosting platforms include select rotary-wing and fixed-wing aircraft, wheeled or tracked vehicles, ground-based pedestal launchers, and patrol boats. Targets include tactical armor, boats, bunkers, buildings, caves, personnel in the open, rotary-wing and slow fixed-wing aircraft, UAS, and fast-moving non-tactical vehicles. The MMW is capable of hitting low radar cross section targets.

o. The Hellfire M36E9 Captive Air Training Missile (CATM) is a flight-training missile that consists of a functional guidance section coupled to an inert missile bus. It functions like a tactical missile during captive carry on the aircraft, absent launch capability, making it suitable for training the aircrew in simulated Hellfire Missile target acquisition and lock.

p. The M261 2.75 Inch Rocket Launcher is a nineteen tube, three zone rocket launcher utilized on heavy attack aircraft. It fires the Hydra 70 2.75 inch rocket, an unguided, fin-stabilized air-to-ground rocket that can utilize a variety of warhead and fuze combinations to achieve a range of effects.

q. The AGR-20A Advanced Precision Kill Weapons System (APWKS) is a conversion of the 2.75 inch Hydra 70 rocket which adds a laser guidance kit to enable precision targeting.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Poland can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to Poland.

MIDS-LVT is intended to support key theater functions such as surveillance, identification, air control, weapons engagement coordination, and direction for all Services and allied forces. LVT Cryptographic Modules (LCMs) will also be included in this potential sale.

The Embedded Global Positioning System/Inertial Navigation System (GPS/INS) (EGI) with Selective Availability Anti-Spoofing Module (SAASM)—or M-Code receiver when available—and Precise Positioning Service (PPS) is a self-contained navigation system that provides information on the following: acceleration, velocity, position, attitude,

platform azimuth, magnetic and true heading, altitude, body angular rates, time tags, and coordinated universal time (UTC) synchronized time. SAASM or M-Code enables the GPS receiver access to the encrypted P(Y) code or M-Code signal, providing protection against active spoofing attacks.

The KY-58 is a secure voice module primarily used to encrypt radio communication to and from military aircraft and other tactical vehicles.

The Sensitivity of Technology Statement contained in the original notification applies to additional items reported here.

VOTE EXPLANATION

Mr. CASEY. Mr. President, on Thursday, July 27, due to the sudden hospitalization of my mother, it was necessary for me to leave Washington before the Senate concluded voting on the National Defense Authorization Act. My CONGRESSIONAL RECORD statement explaining my absence that afternoon is included below.

While I was present for the vast majority of votes on the National Defense Authorization Act, I was forced to miss four due to my unexpected and sudden departure. The outcomes of these votes were unaffected by my absence, but I wish for the RECORD to reflect how I would have voted had I not left to be with my mother in Pennsylvania: yea on Schatz amendment 1078, vote No. 209; yea on Rubio amendment 523, vote No. 210; yea on Reed amendment 1087, vote No. 211; and yea on passage of the bill, the National Defense Authorization Act, vote No. 212.

My mother, Ellen Harding Casey, died peacefully at Regional Hospital, Scranton on August 11. I was grateful to have the chance to be with her during her final illness.

JULY 27, 2023.

MISSED VOTES FOR FAMILY MEDICAL EMERGENCY

Mr. CASEY. Due to my mother's sudden hospitalization for a serious illness, I need to leave Washington unexpectedly and immediately. As a result, I will miss the vote on final passage of the National Defense Authorization Act, as well as any remaining amendment votes. I would like the CONGRESSIONAL RECORD to reflect that I support final passage of this legislation. When I return to Washington following the August work pe-

riod, I will submit another statement to the RECORD detailing how I would have cast my vote on each of the amendment votes I was forced to miss.

TRIBUTE TO NANCY CROWELL

Ms. COLLINS. Mr. President, on September 10, the people of Scarborough, ME, will gather to thank Nancy Crowell for her 45 years of outstanding contributions as Director of the Scarborough Public Library. It is a pleasure to join them in celebrating Ms. Crowell's exceptional service.

She began the job in 1977 when the library was a small wooden building on Black Point Road with a budget of \$35,000. Today, she leaves behind a modern library with a budget of more than \$1 million that reflects the value the townspeople have placed on her efforts.

Ms. Crowell bought the library's first electric typewriter and, as she noted when announcing her retirement, "I started at a time when books were checked out with rubber stamps and the new technologies were VHS and Betamax tapes and our new equipment was a used 16mm projector to show films."

In paying tribute to Ms. Crowell, Bill Donovan, president of the library's board of trustees, said that, "Under her leadership and direction, the library has grown to become an integral part of the town fabric, becoming a center for children, adults, and retirees to not just browse and read, but also to gather and take advantage of the library's many resources—much more than the humble beginnings Nancy found when she joined 45 years ago."

The Scarborough Public Library is a beacon in the community, where everyone receives a warm welcome and the power of knowledge is accessible to all. It is not just a repository for books, but also a place that inspires imagination, provides entertainment, spurs innovation, and fosters lifelong learning and community engagement.

The Roman philosopher Cicero said, "To add a library to a house is to give that house a soul." In the same vein, to build a community library is to reveal that community's spirit. Nancy Crowell has done just that with expertise and dedication, and I wish her all the best in the years to come.

100TH ANNIVERSARY OF SANFORD-SPRINGVALE ROTARY

Ms. COLLINS. Mr. President, on September 16, Rotarians in Sanford and Springvale, ME, will gather to celebrate their 100th year of membership in a global network of neighbors, friends, and leaders working together for positive change in their communities and around the world. It is a pleasure to congratulate the Sanford/Springvale Rotary Club on a century of service.

It is remarkable that what began as a small group of civic leaders in Chicago in 1905 has grown to a service organization of 1.4 million dedicated

members in more than 200 countries and territories around the world. In any language, Rotarians live up to their motto of “Service Above Self.”

There are more than 46,000 Rotary Clubs worldwide. Chartered in 1923, the Sanford-Springvale Club was part of the first great wave of expansion that took the Rotary movement from major American cities to smaller communities, to Canada and Europe, and then on to Asia and Africa.

Rotary International is a powerful force for good around the world. The global effort to eradicate polio is considered to be the most successful public health campaign in human history, one that would not have been possible without Rotary’s commitment. When Rotary launched its PolioPlus program back in 1985, it was described as a “gift from the 20th century to the 21st.” It has been just that.

In addition to its strong and ongoing support for PolioPlus, the Sanford-Springvale Club is part of a Rotary International effort to make affordable and safe water more widely available in developing countries. On one mission to a small village in India, club members combined the two initiatives by helping with a childhood immunization effort and carrying out a safe drinking water project.

The Sanford-Springvale Club is a powerful force for good at home. From its “January Thaw” fundraiser to a summertime golf tournament, the club generously supports a wide range of charitable endeavors, including scholarships, literacy programs, food pantries, and nutrition programs for schoolchildren. Members collect winter clothes for those in need, participate in beach cleanups, and join together to complete community projects, like building a healing garden at the Cancer Care Center in Sanford.

When Paul Harris led the way in founding Rotary International 118 years ago, he said this: “Whatever Rotary may mean to us, to the world it will be known by the results it achieves.” The results are inspiring, and the world is grateful. The Rotary Club of Sanford and Springvale, ME, is part of that effort, and I congratulate its members for their accomplishments and contributions.

American Farm Company sells a variety of products such as crewneck sweaters, t-shirts, headwear, backpacks, and flags. RECOGNIZING DELZELL BROTHERS

● Ms. ERNST. Mr. President, as ranking member of the Senate Committee on Small Business and Entrepreneurship, each week I recognize an outstanding Iowa small business that exemplifies the American entrepreneurial spirit. This week it is my privilege to recognize Delzell Brothers of Wapello, IA, as the Senate Small Business of the Week.

Founded in 1931 by Lawrence "Tut" Delzell, Delzell Brothers is a family-owned car dealership and auto service-repair shop in operation for more than 90 years, spanning four generations. Tut ran the business until 1965 when his sons Craig and Phil took over the family business. In 1970, Craig went on to establish Delzell Motor in Burlington, while his brother Phil continued to run Delzell Brothers. By the 1980s, Phil's sons Kent and Kirk took over the operations, with Kent serving as president and Kirk as vice president. On Christmas Eve 2004, the Morning Sun location was destroyed by a fire, forcing the company to use a rental house to continue operating. Through resiliency and hard work, the family was able to move the shop into a new building in 2005. The business now employs the fourth generation of the Delzell family, with Jessica Stickling and Joe Delzell working at the dealership. Delzell Brothers is a licensed dealer for Chrysler, Dodge, Jeep, and Ram vehicles, and they offer both new and used cars. Delzell Brothers sell parts and operate a car service center for customers from the broader South-eastern Iowa region.

Delzell Brothers prides itself on its commitment to Iowa's farm economy,

which has been integral to its success as a car dealership in a rural community. By focusing on developing personal relationships and maintaining a laid-back environment with customers, Delzell Brothers has been able to establish its success in Wapello and employ more than 20 Iowans. In 2009, the local Morning Sun newspaper recognized Kirk Delzell as the Citizen of the Year. The Delzell Brothers team is active in the Louisa County community, a proud supporter of local Little League teams, and a sponsor for the Morning Sun Fourth of July celebration. Delzell Brothers is also a member of the National Automobile Dealers Association and the Iowa Automobile Dealers Association.

Delzell Brothers' commitment to providing customers with quality cars and auto repair services in Wapello is clear. I want to congratulate the Delzell family and the entire team at Delzell Brothers for their continued dedication to the community. I look forward to seeing their continued growth and success in Iowa.●

RECOGNIZING HANDS ON EXCAVATING

● Ms. ERNST. Mr. President, as ranking member of the Senate Committee on Small Business and Entrepreneurship, each week I recognize an outstanding Iowa small business that exemplifies the American entrepreneurial spirit. This week, it is my privilege to recognize Hands On Excavating of Radcliffe, IA, as the Senate Small Business of the Week.

Hands On Excavating was founded by brothers Brett, Brian, and Jacob Handsaker in 2010. Farming is in the blood of the Handsaker family. The brothers are fourth-generation Iowa farmers who grew up on their family farm. Following Jacob and Brian's graduation from Iowa State University, they saw a need for agriculture excavation services and tile repair with their brother Brett. Family friend Bob Lepper advised the brothers on the excavating business, and shortly after, Hands On Excavating was born.

Over the past 13 years, Hands On Excavating has evolved to include other services to help farmers. They have worked with local farms to improve their drainage systems to ensure that Iowa's farmland remains the best in the United States. They have expanded their efforts to include conservation work by helping to build bioreactors to help filter nitrates out of waterways using natural methods.

The Handsaker brothers are also actively involved in the Radcliffe community and have been recognized for their contributions to the Iowa agricultural industry. Jacob is a member of the Radcliffe Fire Department as a volunteer and is involved with the EMS and serves as an EMT. Jacob was recognized by the Iowa State University College of Agriculture and Life Sciences as the 2020 Emerging Iowa

Leader. The award was presented by Senior Associate Dean Joe Colletti at center court of an Iowa State Cyclone women's basketball game. In 2022, Hands On Excavating was awarded the Leader in Conservation Award by Iowa Secretary of Agriculture Mike Naig. Recently, Jacob was featured in Drainage Contractor magazine's GroundBreakers class of 2023.

I want to congratulate the Handsaker family and the entire team at Hands On Excavating for their continued dedication to the Radcliffe community. I look forward to seeing their continued growth and success in Iowa.●

RECOGNIZING PIVO BREWERY AND BLEPTA STUDIOS

● Ms. ERNST. Mr. President, as ranking member of the Senate Committee on Small Business and Entrepreneurship, each week I recognize an outstanding Iowa small business that exemplifies the American entrepreneurial spirit. This week, it is my privilege to recognize PIVO Brewery and Blepta Studios of Calmar, IA, as the Senate Small Business of the Week.

PIVO Brewery and Blepta Studios was founded by husband and wife Craig and Sara Neuzil in 2017. The couple grew up as childhood friends near Spillville and married following their graduation from Iowa State University. Craig's first career was in the U.S. Air Force as a communications officer, which allowed them to live across the United States and Europe. During his time serving our country, he began brewing beer at home as a hobby. With Sara being interested in art, they began outlining a business plan that would create an incredible community space that combines a brewery and an art studio. Following Craig's retirement after 21 years in the Air Force, they turned their hobbies into a small business in northeastern Iowa.

To honor Craig's family heritage, they chose the Czech word for beer, "pivo," as the name of the brewery. The logo of the brewery is a star in a pentagon, which represents Craig's time in the Armed Services. PIVO Brewery and Blepta Studios currently operate in a building that has used repurposed items from the community in the design and decoration of the space. Over the past 6 years, the brewery has made over 70 beverages that circulate in their taproom, with the beers and ciders sharing the namesakes of Iowa towns. They also offer non-alcoholic drinks, wine, and a dining menu for customers.

The other side of their business is Blepta Studios. Sara, also having Czech roots, used the name "blepta," which is slang for "chatterbox," a fond nickname bestowed on her by her grandmother. Blepta Studios has hand-crafted paint-pour jewelry, decorative eggs, ceramics, and pottery for sale while

also offering art classes and private group classes. PIVO Brewery and Blepta Studios also host events in their wedding reception hall and event center.

The Neuzils are also actively involved in the Calmar community and have been recognized for their contributions to the craft brewery industry. In October 2022, PIVO Brewery was one of the hosts of the Iowa Brewery Series “5k Beer Run.” The race started and ended in the brewery’s taproom, and portions of the race’s proceeds went to local nonprofits. Their beer has also been recognized by the Great American Beer Festival. In 2020, their Decorah Nordic Gruit won a gold medal in the historic beer category, and their Old Balltown Bulleit Bourbon Barrel Aged Salted Carmel Dark Chocolate Milk Stout earned silver in the chocolate beer category. In 2019, after 2 years of being open, they took home the gold medal for the chocolate beer category with their Old Balltown Dark Chocolate Milk Stout at the 2019 Great American Beer Festival. Additionally, they were awarded the Excellence in Concrete Award by the Iowa Ready Mixed Concrete Association and the Iowa Chapter of the American Concrete Institute for their building’s design.

PIVO Brewery and Blepta Studios’ commitment to providing quality beers, ciders, and arts in Calmar is clear. I want to congratulate the Neuzil family and the entire team at PIVO Brewery and Blepta Studios for their continued dedication to the Calmar community. I look forward to seeing their continued growth and success in Iowa.●

TRIBUTE TO DICK AND DOBIE HUNEGS

● Ms. KLOBUCHAR. Mr. President, I rise to recognize the 70th wedding anniversary of Dick and Dobie Hunegs of Saint Louis Park, MN. Dick and Dobie met at a picnic in North Commons Park in North Minneapolis as teenagers. That moment in the park marked the beginning of a partnership that would bring about three loving kids, nine admiring grandchildren, three wonderful great-granddaughters, and a world forever enriched by their devotion to community engagement and service to others.

Dick and Dobie were married on August 30, 1953, at Beth El Synagogue, Dobie’s childhood congregation, on what they both remember as “one of the hottest days of the year.” Fortunately, what they lacked in air conditioning, they made up for in pure joy. In their early years of marriage, Dick, who had been an ROTC officer at the University of Minnesota, was called up for service first at Fort Bliss in El Paso, TX, and then at Fort MacArthur in Los Angeles, CA. Upon the conclusion of Dick’s service, Dick and Dobie kissed the sweltering summers goodbye and made their return to the familiar cozy winters of Minnesota.

Both of them had successful careers. Dobie was a dental hygienist at a time when few women worked outside of the home, and Dick was a plaintiff’s attorney who fought like hell to get railroad workers the safety equipment and compensation they deserved. They had so much to be proud of professionally, but their true pride and joy was their three kids, Carolyn, Craig, and Steve. According to Steve, growing up as a Hunegs meant growing up raised by “the original Saint Louis Park power couple.” Dobie knew just about everyone in town because she cleaned their teeth, and anyone who didn’t cross paths with Dobie as their dental hygienist likely had Dick as their football or hockey coach.

Carolyn, Craig, and Steve all found success in their adult lives. Carolyn was an active volunteer for the Blake School and continues to support Jewish organizations in Minnesota. To this day, the family knows that if they call Carolyn for help, she will come running. Craig helped bring now-classics like “ER,” “The West Wing,” and “Friends” to the masses as a television executive at Warner Brothers. Steve is the executive director of the Jewish Community Relations Council of Minnesota and the Dakotas, where he has distinguished himself as an outstanding advocate for our State’s Jewish community. All three of them raised their own families, and Dick and Dobie couldn’t be more proud.

I have known Dick and Dobie since I was in law school. We should all be so lucky to find the kind of partnership and love that they found in each other. I congratulate them on their 70 years of marriage and wish them nothing but joy and happiness as they embark on their next adventures.●

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. DURBIN (for himself, Mr. WARNOCK, Ms. CORTEZ MASTO, and Mrs. FEINSTEIN):

S. 2722. A bill to address the needs of workers in industries likely to be impacted by rapidly evolving technologies; to the Committee on Health, Education, Labor, and Pensions.

Mr. DURBIN. Madam President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 2722

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Investing in Tomorrow's Workforce Act of 2023".

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) A 2019 Government Accountability Office report found that while there are many Federal employment and training programs, their total funding levels remain at nearly \$20,000,000,000, or less than 0.1 percent of the gross domestic product of the United States.

(2) The number of workers receiving federally supported training has declined in the past 3 decades as advances in technology have simultaneously shifted labor market demand over time.

(3) Job losses from automation are more likely to impact women, people of color, and workers making less than \$40,000 annually.

(4) The COVID-19 pandemic accelerated trends in automation, with 43 percent of businesses in the World Economic Forum's Future of Jobs survey indicating they plan to reduce their workforce as a result of technology integration.

(5) Strong Federal investment in expanding training services for workers whose jobs may be lost due to automation could prepare the United States workforce to better adapt to changes in the labor market and enter into skilled positions in technologically oriented occupations and industries.

(6) A focus on preparing the workforce of the United States for jobs that utilize advanced technologies and require digital literacy could grow wages, increase economic productivity, and boost the competitiveness of the United States.

(7) Studies show that the United States would need to invest \$72,000,000,000 more annually just to reach the average investment in workforce policies of other industrial countries. For training alone, the United States would need to invest nearly \$8,500,000,000 just to reach the average

amount invested by member countries of the Organisation on Economic Co-operation and Development.

(1) the success of the North Atlantic Treaty Organization is critical to advancing United States national security objectives in Europe, the Indo-Pacific region, and around the world;

(2) the North Atlantic Treaty Organization remains the strongest and most successful military alliance in the world, founded on a commitment by its members to uphold the principles of democracy, individual liberty, and the rule of law;

(3) the United States reaffirms its ironclad commitment—

(A) to the North Atlantic Treaty Organization as the foundation of transatlantic security; and

(B) to upholding its obligations under the North Atlantic Treaty, including Article 5;

(4) the unprovoked and illegal invasion of Ukraine by the Russian Federation has upended security in Europe and requires the full attention of the transatlantic alliance;

(5) welcoming Finland as the 31st member of the North Atlantic Treaty Organization has made the North Atlantic Treaty Organization Alliance stronger and the remaining North Atlantic Treaty Organization member countries should swiftly ratify the accession protocols of Sweden so as to bolster the collective security of the North Atlantic Treaty Organization by increasing the security and stability of the Baltic Sea region and Northern Europe;

(6) the North Atlantic Treaty Organization member countries that have not yet met the two-percent defense spending pledge, as agreed to at the 2014 Wales Summit, should endeavor to meet the timeline as expeditiously as possible, but certainly within the five-year period beginning on the date of the enactment of this Act;

(7) the United States and North Atlantic Treaty Organization allies and partners should continue efforts to identify, synchronize, and deliver needed assistance to Ukraine as Ukraine continues the fight against the illegal and unjust war of the Russian Federation;

(8) the Strategic Concept, agreed to by all North Atlantic Treaty Organization member countries at the Madrid Summit in 2022, outlined the focus of the North Atlantic Treaty Organization for the upcoming decade, and North Atlantic Treaty Organization allies should continue to implement the strategies outlined, including by making efforts to address the challenges posed by the coercive policies of the People's Republic of China that undermine the interests, security, and shared values of the North Atlantic Treaty Organization Alliance;

(9) the United States and North Atlantic Treaty Organization allies should continue long-term efforts—

(A) to improve interoperability among the military forces of member countries of the North Atlantic Treaty Organization so as to enhance collective operations, including the divestment of Soviet-era capabilities;

(B) to enhance security sector cooperation and explore opportunities to reinforce civil sector preparedness and resilience measures that may be likely targets of malign influence campaigns;

(C) to mitigate the impact of hybrid warfare operations, particularly those in the information and cyber domains; and

(D) to expand joint research and development initiatives with a focus on emerging technologies such as quantum computing, artificial intelligence, and machine learning, including through the work of the Defence Innovation Accelerator for the North Atlantic initiative (commonly known as “DIANA”);

(10) the European Deterrence Initiative remains critically important and has demonstrated its unique value to the United States and North Atlantic Treaty Organization allies during the current Russian Federation-created war against Ukraine;

(11) the United States should continue to work with North Atlantic Treaty Organization allies, and other allies and partners, to build permanent mechanisms to strengthen supply chains, enhance supply chain security, and fill supply chain gaps;

(12) the United States should prioritize collaboration with North Atlantic Treaty Organization allies to secure enduring and robust critical munitions supply chains so as to increase military readiness;

(13) the United States and the North Atlantic Treaty Organization should expand co-

operation efforts on cybersecurity issues to prevent adversaries and criminals from compromising critical systems and infrastructure; and

(14) it is in the interest of the United States that the North Atlantic Treaty Organization adopt a robust strategy toward the Black Sea, and the United States should also consider working with interested partner countries to advance a coordinated strategy inclusive of diverse elements of transatlantic security architecture in the Black Sea region.

SEC. 1339. SENSE OF THE SENATE ON DEFENCE INNOVATION ACCELERATOR FOR THE NORTH ATLANTIC (DIANA) IN THE NORTH ATLANTIC TREATY ORGANIZATION.

It is the sense of the Senate that—

(1) the new initiative within the North Atlantic Treaty Organization (NATO) to establish a new research and development initiative, known as the Defence Innovation Accelerator for the North Atlantic (DIANA), is an important step in aligning the industry and academic innovation communities of the NATO member states towards common goals for identifying, experimenting, and transitioning critical technologies of importance to NATO;

(2) DIANA will spur increased defense research and development funding to rapidly adapt to a new era of strategic competition by bringing defense personnel together with NATO's leading entrepreneurs and academic researchers;

(3) DIANA will also increase opportunities for engagement on NATO's priority technology areas, including artificial intelligence, data, autonomy, quantum-enabled technologies, biotechnology, hypersonic technologies, space, novel materials and manufacturing, and energy and propulsion; and

(4) through DIANA, NATO allies will foster innovative ecosystems and develop talent for dual use technologies to maintain NATO's strategic advantage.

SEC. 1340. SENSE OF THE SENATE REGARDING THE ARMING OF UKRAINE.

It is the sense of the Senate that Ukraine would derive military benefit from the provision of munitions such as the dual-purpose improved conventional munition (DPICM). Such weapons could be fired from systems in the existing Ukrainian inventory and would enhance Ukraine's stockpile of available munitions and would bolster Ukraine's efforts to end Russia's illegal and unjust war. The Department of Defense, in concert with the other members of the Ukraine Defense Contract Group, should continue to support Ukraine's brave fight to defeat the invasion of the Russian Federation. The Department of Defense, in close coordination with the State Department, should assess the feasibility and advisability of providing such munitions, including giving appropriate attention to humanitarian considerations, including supporting Ukraine's effort to end the widespread suffering of the Ukrainian people by bringing Russia's war of choice to an end as soon as possible on terms favorable to Ukraine, as well as the views of other members of the Ukraine Defense Contract Group.

“(4) When the needs of the service require, the Secretary of the Air Force may prescribe a shorter period of service in grade, but not less than two years, for eligibility for consideration for promotion, in the case of officers designated for limited duty to whom paragraph (2) applies.

“(5) The Secretary of the Air Force may waive paragraph (2) to the extent necessary to assure that officers described in subparagraph (A) of such paragraph have at least two opportunities for consideration for promotion to the next higher grade as officers below the promotion zone.

“(6) In computing service in grade for purposes of this section, service in a grade held as a result of assignment to a position is counted as service in the grade in which the officer would have served except for such assignment or appointment.

“(b) CONTINUED ELIGIBILITY FOR CONSIDERATION FOR PROMOTION OF OFFICERS WHO HAVE PREVIOUSLY FAILED OF SELECTION.—(1) Except as provided in paragraph (2), an officer

who has failed of selection for promotion to the next higher grade remains eligible for consideration for promotion to that grade as long as the officer continues on active duty in other than a retired status and is not promoted.

“(c) OFFICERS TO BE CONSIDERED BY PROMOTION BOARDS.—(1) Each time a selection board is convened under section 20211 of this title for consideration of officers in a competitive category for promotion to the next higher grade, each officer in the promotion zone (except as provided under paragraph (2)), and each officer above the promotion zone, for the grade and competitive category under consideration shall be considered for promotion.

“(2) The Secretary of the Air Force—

“(i) A requirement that the Secretary of the Air Force may exercise such authority in the case of a particular selection board only if the Secretary of Defense approves the exercise of that authority for that board.

“(iii) A requirement that such a preselection board may not recommend that an officer be precluded from such consideration unless the Secretary of the Air Force has given the officer advance written notice of the convening of such board and of the military records that will be considered by the board and has given the officer a reasonable period before the convening of the board in which to submit comments to the board.

“(iv) A requirement that the Secretary of the Air Force shall provide general guidance to the board in accordance with standards and procedures prescribed by the Secretary of Defense in those regulations.

“(d) CERTAIN OFFICERS NOT TO BE CONSIDERED.—A selection board convened under section 20211 of this title may not consider for promotion to the next higher grade any of the following officers:

“(1) An officer whose name is on a promotion list for that grade as a result of the officer’s selection for promotion to that grade by an earlier selection board convened under that section.

“(2) An officer who is recommended for promotion to that grade in the report of an earlier selection board convened under that section, in the case of such a report that has not yet been approved by the President.

“(ii) the Secretary determines the exclusion from consideration is in the best interest of the Space Force; and

“(iii) the officer has not previously failed of selection for promotion to the grade for which the officer requests the exclusion from consideration; or

“(B)(i) the officer is serving in a critical skill position that cannot be filled by another Space Force officer serving in the same grade;

DIVISION D—FUNDING TABLES

SEC. 4001. AUTHORIZATION OF AMOUNTS IN FUNDING TABLES.

(a) IN GENERAL.—Whenever a funding table in this division specifies a dollar amount authorized for a project, program, or activity, the obligation and expenditure of the specified dollar amount for the project, program, or activity is hereby authorized, subject to the availability of appropriations.

(b) MERIT-BASED DECISIONS.—A decision to commit, obligate, or expend funds with or to a specific entity on the basis of a dollar amount authorized pursuant to subsection (a) shall—

(1) be based on merit-based selection procedures in accordance with the requirements of sections 3201 and 4024 of title 10, United States Code, or on competitive procedures; and

(2) comply with other applicable provisions of law.

(c) RELATIONSHIP TO TRANSFER AND PROGRAMMING AUTHORITY.—An amount specified in the funding tables in this division may be transferred or reprogrammed under a transfer or reprogramming authority provided by another provision of this Act or by other law. SEC. 6082. PREVENTING CHILD SEX ABUSE.

(a) **SHORT TITLE.**—This section may be cited as the “Preventing Child Sex Abuse Act of 2023”.

(b) **SENSE OF CONGRESS.**—The sense of Congress is the following:

(1) The safety of children should be a top priority for public officials and communities in the United States.

(2) According to the Rape, Abuse & Incest National Network, an individual in the United States is sexually assaulted every 68 seconds. And every 9 minutes, that victim is a child. Meanwhile, only 25 out of every 1,000 perpetrators will end up in prison.

(3) The effects of child sexual abuse can be long-lasting and affect the victim's mental health.

(4) Victims are more likely than non-victims to experience the following mental health challenges:

(A) Victims are about 4 times more likely to develop symptoms of drug abuse.

(B) Victims are about 4 times more likely to experience post-traumatic stress disorder as adults.

(C) Victims are about 3 times more likely to experience a major depressive episode as adults.

(5) The criminal justice system should and has acted as an important line of defense to protect children and hold perpetrators accountable.

(6) However, the horrific crimes perpetrated by Larry Nassar demonstrate firsthand the loopholes that still exist in the criminal justice system. While Larry Nassar was found guilty of several State-level offenses, he was not charged federally for his illicit sexual contact with minors, despite crossing State and international borders to commit this conduct.

(7) The Department of Justice has also identified a growing trend of Americans who use charitable or missionary work in a foreign country as a cover for sexual abuse of children.

(8) It is the intent of Congress to prohibit Americans from engaging in sexual abuse or exploitation of minors under the guise of work, including volunteer work, with an organization that affects interstate or foreign commerce, such as an international charity.

(9) Federal law does not require that an abuser's intention to engage in sexual abuse be a primary, significant, dominant, or motivating purpose of the travel.

(10) Child sexual abuse does not require physical contact between the abuser and the child. This is especially true as perpetrators turn increasingly to internet platforms, on-line chat rooms, and webcams to commit child sexual abuse.

(11) However, a decision of the United States Court of Appeals for the Seventh Circuit found the use of a webcam to engage in sexually provocative activity with a minor did not qualify as "sexual activity".

(12) Congress can address this issue by amending the definition of the term "sexual activity" to clarify that it does not require interpersonal, physical contact.

(13) It is the duty of Congress to provide clearer guidance to ensure that those who commit crimes against children are prosecuted to the fullest extent of the law.

(c) INTERSTATE CHILD SEXUAL ABUSE.—Section 2423 of title 18, United States Code, is amended—

(1) in subsection (b), by striking "with a motivating purpose of engaging in any illicit sexual conduct with another person" and inserting "with intent to engage in any illicit sexual conduct with another person";

(2) by redesignating subsections (d), (e), (f), and (g) as subsections (e), (f), (g), and (i), respectively;

(3) in subsection (e), as so redesignated, by striking "with a motivating purpose of engaging in any illicit sexual conduct" and inserting "with intent to engage in any illicit sexual conduct"; and

(4) by inserting after subsection (g), as so redesignated, the following:

"(h) RULE OF CONSTRUCTION.—As used in this section, the term 'intent' shall be construed as any intention to engage in illicit sexual conduct at the time of the travel."

(d) ABUSE UNDER THE GUISE OF CHARITY.—Section 2423 of title 18, United States Code, as amended by subsection (c) of this section, is amended—

(1) by inserting after subsection (c) the following:

"(d) ILLICIT SEXUAL CONDUCT IN CONNECTION WITH CERTAIN ORGANIZATIONS.—Any citizen of the United States or alien admitted for permanent residence who—

"(1) is an officer, director, employee, or agent of an organization that affects interstate or foreign commerce;

"(2) makes use of the mails or any means or instrumentality of interstate or foreign commerce through the connection or affiliation of the person with such organization; and

"(3) commits an act in furtherance of illicit sexual conduct through the connection or affiliation of the person with such organization, shall be fined under this title, imprisoned for not more than 30 years, or both."

(2) in subsection (f), as so redesignated, by striking "or (d)" and inserting "(d), or (e)"; and

(3) in subsection (i), as so redesignated, by striking "(f)(2)" and inserting "(g)(2)".

(e) SEXUAL ACTIVITY WITH MINORS.—Section 2427 of title 18, United States Code, is amended by inserting "does not require interpersonal physical contact, and" before "includes".

Subtitle H—Granting Recognition to Accomplished Talented Employees for Unwavering Loyalty Act

SEC. 6091. SHORT TITLE.

This subtitle may be cited as the “Granting Recognition to Accomplished Talented Employees for Unwavering Loyalty Act” or “GRATEFUL Act”.

SEC. 6092. FINDINGS; SENSE OF CONGRESS.

(a) FINDINGS.—Congress makes the following findings:

(1) In 1952, with the enactment of the Immigration and Nationality Act (8 U.S.C. 1101 et seq.), Congress established an immigrant visa program to reward foreign nationals who are United States Government employees for their service to the United States (referred to in this Act as the “Government Employee Immigrant Visa program”).

(2) For 71 years, the Government Employee Immigrant Visa program has allowed foreign nationals with at least 15 years of exceptional service to the United States to immigrate to the United States with their families.

(3) Such foreign national employees of the United States Government are the bulwark of United States foreign policy, risking their lives year after year through civil unrest, terrorism, natural disasters, and war.

(4) The work of such foreign nationals—

(A) ensures the safety and well-being of United States citizens;

(B) provides security and logistics for visiting delegations; and

(C) supports United States Government operations abroad.

(5) Such foreign nationals include employees of the Department of State, the United States Agency for International Development, the Department of Defense, the Department of Homeland Security, the Department of Justice, the Department of Commerce, and the Department of Agriculture.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the United States should preserve the immigrant visa program for foreign nationals who are employees of the United States Government abroad or of the American Institute in Taiwan, and who have provided exceptional service over a long term to the United States, by providing a dedicated allocation of visas for such employees and their immediate family members when visas are not immediately available in the corresponding visa category.

SEC. 6093. VISA AVAILABILITY FOR GOVERNMENT EMPLOYEE IMMIGRANT VISA PROGRAM.

(a) IN GENERAL.—Beginning in fiscal year 2024, subject to subsection (b), visas shall be made available to a special immigrant described in section 101(a)(27)(D) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(27)(D)) if a visa is not immediately available for issuance to the special immigrant under section 203(b)(4) of that Act (8 U.S.C. 1153(b)(4)).

(b) NUMERICAL LIMITATIONS.—

(1) FISCAL YEAR 2024.—For fiscal year 2024, not more than 3,500 visas shall be made available under subsection (a).

(2) SUBSEQUENT FISCAL YEARS.—For fiscal year 2025 and each fiscal year thereafter, not more than 3,000 visas shall be made available under subsection (a).

(c) TEMPORARY REDUCTION IN DIVERSITY VISAS.—Section 203(d)(2) of the Nicaraguan Adjustment and Central America Relief Act (8 U.S.C. 1151 note; Public Law 105-100) is amended—

(1) by amending paragraph (2) to read as follows:

“(2) In no case shall the reduction under paragraph (1) for a fiscal year exceed the amount by which—

“(A) the sum of—

“(i) one-half of the total number of individuals described in subclauses (I), (II), (III), and (IV) of section 309(c)(5)(C)(i) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1101 note; Public Law 104-208) who have adjusted their status to that of aliens lawfully admitted for permanent residence under section 202 of the Nicaraguan Adjustment and Central American Relief Act (Public Law 105-100; 8 U.S.C. 1255 note) as of the end of the previous fiscal year; and

“(ii) the total number of individuals described in section 101(a)(27)(D) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(27)(D)) for whom visas shall be made available for the applicable fiscal year under section 1093(b) of the Granting Recognition to Accomplished Talented Employees for Unwavering Loyalty Act; exceeds

“(B) the total of the reductions in available visas under this subsection for all previous fiscal years.”; and

(2) by adding at the end the following:

“(3)(A) Paragraph (1) shall not apply in a fiscal year following a fiscal year for which the total number of aliens described in subparagraph (B) is zero.

“(B) For a fiscal year, the total number of aliens described in this subparagraph is the total number of individuals described in section 101(a)(27)(D) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(27)(D)) who have been issued visas during the previous fiscal year under the Granting Recognition to Accomplished Talented Employees for Unwavering Loyalty Act.

“(C) Nothing in this paragraph may be construed—

“(i) to repeal, modify, or render permanently inapplicable paragraph (1); or

“(ii) to prevent the offsetting of the number of visas described in that paragraph for the purpose of providing visa availability for aliens described in subparagraph (B).

“(4) In the event that the number of visas available for a fiscal year under section 201(e) of the Immigration and Nationality Act (8 U.S.C. 1151(e)) is reduced to a number fewer than 50,000, not fewer than 3,000 visas shall be made available for individuals described in section 1093(a) of the Granting Recognition to Accomplished Talented Employees for Unwavering Loyalty Act.”.

(d) RULE OF CONSTRUCTION.—Nothing in this section or the amendments made by this section may be construed to modify the number of visas available under section 203(b)(4) of the Immigration and Nationality Act (8 U.S.C. 1153(b)(4)) to special immigrants described in section 101(a)(27)(D) of that Act (8 U.S.C. 1101(a)(27)(D)).

Subtitle G—Other Matters

SEC. 6291. SENSE OF THE SENATE ON DIGITAL TRADE AND THE DIGITAL ECONOMY.

(a) FINDINGS.—Congress makes the following findings:

(1) Over half of the world’s population, totaling more than 5,000,000,000 people, use the internet.

(2) The digital economy encompasses the economic and social activity from billions of online connections among people, businesses, devices, and data as a result of the internet, mobile technology, and the internet of things.

(3) The Bureau of Economic Analysis found that the digital economy contributed nearly 10.3 percent of United States gross domestic product and supported 8,000,000 United States jobs in 2020.

(4) The digital sector added 1,400,000 new jobs between 2019 and 2022.

(5) United States jobs supported by the digital economy have sustained annual wage growth at a rate of 5.9 percent since 2010, as compared to a 4.2 percent for all jobs.

(6) In 2021, United States exports of digital services surpassed \$594,000,000,000, accounting for more than half of all United States services exports and generating a digital services trade surplus for the United States of \$262,300,000,000.

(7) Digital trade bolsters the digital economy by enabling the sale of goods on the internet and the supply of online services across borders and depends on the free flow of data across borders to promote commerce, manufacturing, and innovation.

(8) Digital trade has become increasingly vital to United States workers and businesses of all sizes, including the countless small and medium-sized enterprises that use digital technology, data flows, and e-commerce to export goods and services across the world.

(9) Digital trade has advanced entrepreneurship opportunities for women, people of color, and individuals from otherwise underrepresented backgrounds and enabled the formation of innovative start-ups.

(10) International supply chains are becoming increasingly digitized and data driven and businesses in a variety of industries, such as construction, healthcare, transportation, and aerospace, invested heavily in digital supply chain technologies in 2020.

(11) United States Trade Representative Katherine Tai said, “[T]here is no bright line separating digital trade from the digital economy—or the ‘traditional’ economy for that matter. Nearly every aspect of our economy has been digitized to some degree.”.

(12) Industries outside of the technology sector, such as manufacturing and agriculture, are integrating digital technology into their businesses in order to increase efficiency, improve safety, reach new customers, and remain globally competitive.

(13) The increasing reliance on digital technologies has modernized legacy proc-

esses, accelerated workflows, increased access to information and services, and strengthened security in a variety of industries, leading to better health, environmental, and safety outcomes.

(14) The COVID-19 pandemic has led to increased uptake and reliance on digital technologies, data flows, and e-commerce.

(15) Ninety percent of adults in the United States say that the internet has been essential or important for them personally during the COVID-19 pandemic.

(16) United States families, workers, and business owners have seen how vital access to the internet has been to daily life, as work, education, medicine, and communication with family and friends have shifted increasingly online.

(17) Many individuals and families, especially in rural and Tribal communities, struggle to participate in the digital economy because of a lack of access to a reliable internet connection.

(18) New developments in technology must be deployed with consideration to the unique access challenges of rural, urban underserved, and vulnerable communities.

(19) Digital trade has the power to help level the playing field and uplift those in traditionally unrepresented or underrepresented communities.

(20) Countries have negotiated international rules governing digital trade in various bilateral and plurilateral agreements, but those rules remain fragmented, and no multilateral agreement on digital trade exists within the World Trade Organization.

(21) The United States, through free trade agreements or other digital agreements, has been a leader in developing a set of rules and standards on digital governance and e-commerce that has helped allies and partners of the United States unlock the full economic and social potential of digital trade.

(22) Congress recognizes the need for agreements on digital trade, as indicated by its support for a robust digital trade chapter in the United States-Mexico-Canada Agreement.

(23) Other countries are operating under their own digital rules, some of which are contrary to democratic values shared by the United States and many allies and partners of the United States.

(24) Those countries are attempting to advance their own digital rules on a global scale.

(25) Examples of the plethora of nontariff barriers to digital trade that have emerged around the globe include—

(A) overly restrictive data localization requirements and limitations on cross border data flows that do not achieve legitimate public policy objectives;

(B) intellectual property rights infringement;

(C) policies that make market access contingent on forced technology transfers or voluntary transfers subject to coercive terms;

(D) web filtering;

(E) economic espionage;

(F) cybercrime exposure; and

(G) government-directed theft of trade secrets.

(26) Certain countries are pursuing or have implemented digital policies that unfairly discriminate against innovative United States technology companies and United States workers that create and deliver digital products and services.

(27) The Government of the People’s Republic of China is currently advancing a model for digital governance and the digital economy domestically and abroad through its Digital Silk Road Initiative that permits censorship, surveillance, human and worker rights abuses, forced technology transfers,

and data flow restrictions at the expense of human and worker rights, privacy, the free flow of data, and an open internet.

(28) The 2022 Country Reports on Human Rights Practices of the Department of State highlighted significant human rights issues committed by the People’s Republic of China in the digital realm, including “arbitrary interference with privacy including pervasive and intrusive technical surveillance and monitoring including the use of COVID-19 tracking apps for nonpublic-health purposes; punishment of family members for offenses allegedly committed by an individual; serious restrictions on free expression and media, including physical attacks on and criminal prosecution of journalists, lawyers, writers, bloggers, dissidents, petitioners, and others; serious restrictions on internet freedom, including site blocking”.

(29) The United States discourages digital authoritarianism, including practices that undermine human and worker rights and result in other social and economic coercion.

(30) Allies and trading partners of the United States in the Indo-Pacific region have urged the United States to deepen economic engagement in the region by negotiating rules on digital trade and technology standards.

(31) The digital economy has provided new opportunities for economic development, entrepreneurship, and growth in developing countries around the world.

(32) Negotiating strong digital trade principles and commitments with allies and partners across the globe enables the United States to unite like-minded economies around common standards and ensure that principles of democracy, rule of law, freedom of speech, human and worker rights, privacy, and a free and open internet are at the very core of digital governance.

(33) United States leadership and substantive engagement is necessary to ensure that global digital rules reflect United States values so that workers are treated fairly, small businesses can compete and win in the global economy, and consumers are guaranteed the right to privacy and security.

(34) The United States supports rules that reduce digital trade barriers, promote free expression and the free flow of information, enhance privacy protections, protect sensitive information, defend human and worker rights, prohibit forced technology transfer, and promote digitally enabled commerce.

(35) The United States supports efforts to cooperate with allies and trading partners to mitigate the risks of cyberattacks, address potentially illegal or deceptive business activities online, promote financial inclusion and digital workforce skills, and develop rules to govern the use of artificial intelligence and other emerging and future technologies.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) the United States should negotiate strong, inclusive, forward-looking, and enforceable rules on digital trade and the digital economy with like-minded countries as part of a broader trade and economic strategy to address digital barriers and ensure that the United States values of democracy, rule of law, freedom of speech, human and worker rights, privacy, and a free and open internet are at the very core of the digital world and advanced technology;

(2) in conducting such negotiations, the United States must—

(A) pursue digital trade rules that—

(i) serve the best interests of workers, consumers, and small and medium-sized enterprises;

(ii) empower United States workers;

(iii) fuel wage growth; and

(iv) lead to materially positive economic outcomes for all people in the United States;

(B) ensure that any future agreement prevents the adoption of non-democratic, coercive, or overly restrictive policies that would be obstacles to a free and open internet and harm the ability of the e-commerce marketplace to continue to grow and thrive;

(C) coordinate sufficient trade-related assistance to ensure that developing countries can improve their capacity and benefit from increased digital trade; and

(D) consult closely with all relevant stakeholders, including workers, consumers, small and medium-sized enterprises, civil society groups, and human rights advocates; and

(3) with respect to any negotiations for an agreement facilitating digital trade, the United States Trade Representative and the heads of other relevant Federal agencies must consult closely and on a timely basis with Congress.

DIVISION G—UNIDENTIFIED ANOMALOUS PHENOMENA DISCLOSURE

SEC. 9001. SHORT TITLE.

This division may be cited as the “Unidentified Anomalous Phenomena Disclosure Act of 2023” or the “UAP Disclosure Act of 2023”.

SEC. 9002. FINDINGS, DECLARATIONS, AND PURPOSES.

(a) FINDINGS AND DECLARATIONS.—Congress finds and declares the following:

(1) All Federal Government records related to unidentified anomalous phenomena should be preserved and centralized for historical and Federal Government purposes.

(2) All Federal Government records concerning unidentified anomalous phenomena

should carry a presumption of immediate disclosure and all records should be eventually disclosed to enable the public to become fully informed about the history of the Federal Government's knowledge and involvement surrounding unidentified anomalous phenomena.

(3) Legislation is necessary to create an enforceable, independent, and accountable process for the public disclosure of such records.

(4) Legislation is necessary because credible evidence and testimony indicates that Federal Government unidentified anomalous phenomena records exist that have not been declassified or subject to mandatory declassification review as set forth in Executive Order 13526 (50 U.S.C. 3161 note; relating to classified national security information) due in part to exemptions under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.), as well as an over-broad interpretation of “transclassified foreign nuclear information”, which is also exempt from mandatory declassification, thereby preventing public disclosure under existing provisions of law.

(5) Legislation is necessary because section 552 of title 5, United States Code (commonly referred to as the “Freedom of Information Act”), as implemented by the Executive branch of the Federal Government, has proven inadequate in achieving the timely public disclosure of Government unidentified anomalous phenomena records that are subject to mandatory declassification review.

(6) Legislation is necessary to restore proper oversight over unidentified anomalous phenomena records by elected officials in both the executive and legislative branches of the Federal Government that has otherwise been lacking as of the enactment of this Act.

(7) Legislation is necessary to afford complete and timely access to all knowledge gained by the Federal Government concerning unidentified anomalous phenomena in furtherance of comprehensive open scientific and technological research and development essential to avoiding or mitigating potential technological surprise in furtherance of urgent national security concerns and the public interest.

(b) PURPOSES.—The purposes of this division are—

(1) to provide for the creation of the unidentified anomalous phenomena Records Collection at the National Archives and Records Administration; and

(3) the public disclosure of the unidentified anomalous phenomena record could reasonably be expected to constitute an unwarranted invasion of personal privacy, and that invasion of privacy is so substantial that it outweighs the public interest; or

(4) the public disclosure of the unidentified anomalous phenomena record would compromise the existence of an understanding of confidentiality currently requiring protection between a Federal Government agent and a cooperating individual or a foreign government, and public disclosure would be so harmful that it outweighs the public interest.
