PROCEEDINGS AND DEBATES OF THE 118th CONGRESS, SECOND SESSION

Vol. 170 WASHINGTON, THURSDAY, JULY 11, 2024 No. 115

Senate

(Legislative day of Wednesday, July 10, 2024)

The Senate met at 10 a.m., on the expiration of the recess, and was called to order by the President pro tempore (Mrs. MURRAY).

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal God, the giver of every good and perfect gift, we thank You for the exemplary life and legacy of former Senator James Inhofe. Lord, we praise You for his life, which was like the light of morning at sunrise on a cloudless day and like the brightness after rain that brings the grass from the Earth.

Inspired by the footprints he left on the sands of time, may we seek to see You more clearly, to love You more dearly, and to follow You more nearly day by day.

And, Lord, use our lawmakers this day for Your glory.

We pray in Your loving Name. Amen.

PLEDGE OF ALLEGIANCE

The President pro tempore led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

LEGISLATIVE SESSION

REPRODUCTIVE FREEDOM FOR WOMEN ACT—MOTION TO PROCEED—Continued

The PRESIDING OFFICER (Mr. WARNOCK). The clerk will report the pending business.

The senior assistant legislative clerk read as follows:

Motion to proceed to Calendar No. 420, S. 4554, a bill to express support for protecting access to reproductive health care after the Dobbs v. Jackson decision on June 24, 2022.

The PRESIDING OFFICER. The majority leader is recognized.

REPRODUCTIVE FREEDOM FOR WOMEN ACT

Mr. SCHUMER. Mr. President, yesterday was a very sad day for women in America. Yesterday, Senate Republicans blocked a bill that simply expressed support for a woman's right to choose. That is it; no more, no less.

Supporting a woman's right to make her own healthcare decisions should have been one of the easiest ''yes'' votes we have taken all year. By voting no, Republicans told every woman in America: ''Your body, our choice.''

Republicans are saying ''We don't care'' to all the women who live in States where reproductive rights are almost gone, from Texas to Florida, to Alabama, and beyond.

This is the terrible legacy of the Senate Republicans and the Trump administration: They cleared the way for the Supreme Court to overturn Roe.

Years ago, Donald Trump himself said overturning Roe was part of the plan. He said:

[I]f we put another two or . . . three justices on [the Supreme Court]—that will happen.

And then, Senate Republicans—even many who don't abide by the MAGA philosophy—just laid down and voted for all of the President's nominees.

To this day, Senate Republicans keep doubling down and tripling down on undermining women's rights, despite so much blowback from the American people. Senate Republicans voted no on protecting contraception. They voted no on protecting IVF. And they voted no again yesterday on supporting the right to choose.

So let me say to America: Do you want to know who is on your side protecting abortion and women's rights? It is the Democrats. Every Republican—with one or two exceptions—has universally voted to take away women's rights. That is the truth of it.

Our Republican colleagues can run, but they can't hide. They are voting against women because extreme MAGA groups are pushing them to do it or maybe because of belief. Either way, they are out of touch with America.

Now, for all the chaos and disaster of the first Trump Presidency, it pales in comparison to the threat of a second Trump Presidency. We have all heard about the policy platform, 2025, drafted by the Heritage Foundation—a project overseen by former Trump officials and advisers and appointees. It is a manifesto for the second Trump Presidency.

What does it do? The Trump manifesto lays a groundwork for a nationwide abortion ban. That is the heart and soul of the Republican Party. That is where they always go when they are in power, folks. When they are not in power, they say some words here and there. When they are running for office, they try to run away from how they vote and how they feel. Then they come here, and they vote to roll over women's rights again and again and again. And each time they do it, it becomes more extreme and more extreme. And that is just the beginning on the issues.

The Trump manifesto, 2025, calls for the most conservative agenda America has ever seen. It calls for more tax cuts for the very wealthy, more tax cuts for corporate elites, more tax cuts for megacorporations. It calls for reversing Democrats' clean energy agenda while empowering the Nation's biggest oil and gas polluters. And the Trump manifesto even calls for silencing and attacking all of Donald Trump's political opponents.

Can you imagine? It is like a dictatorship. It is like a dictatorship, with nothing—Trump says: ''I am going to prosecute people''—no evidence. Wow. What happened to rule of law in this

grand country? What happens to the visions of the Founding Fathers when Donald Trump and the MAGA Court take over?

The hard right is done speaking euphemisms. They are smelling blood. They are saying it straight to our faces: If you disagree with Donald Trump, watch your back. It is bone-chilling. It is un-American. It is dangerous for our democracy.

The Trump manifesto is an autocrats' dream. If MAGA Republicans get the chance to act on the Heritage Foundation's ideas, the damage to the America we all know and love may well be irreversible. We will never get it back. Our children and grandchildren will live in a less grand country than we have lived in. The destruction would be unthinkable, and it would betray everything America has represented for 248 years.

U.S. SUPREME COURT

Mr. President, on SCOTUS, above the entrance to the Supreme Court are these words: ''Equal Justice Under Law.''

Last week, the conservative Justices put some new writing on those walls, figuratively: ''The President of the United States is above the law.'' Instead of ''Equal justice under the law,'' they replaced it with ''The President of the United States is above the law.''

In the aftermath of the 2020 elections, Donald Trump and his allies conspired for weeks to undermine the will of the people and halt the peaceful transfer of power. These efforts culminated in the violent insurrection on January 6. These are the facts. Many of us in the Senate lived through it. I was within 30 feet of the hooligans who invaded the Capitol.

No free Nation can condone a tyrant who abuses his office to try and cling to power, but that is, in effect, what the conservative majority on the Supreme Court has done. By ruling Donald Trump enjoys broad immunity from criminal prosecution for his actions as President after the 2020 election, the conservative majority has violated the most basic premise of our Constitution that no man is above the law.

Most Americans will see what the Court did and think it was grossly political, a shameless attempt to help Donald Trump out.

I worry that over time, Americans will increasingly lose trust in what the courts say. They have already begun to lose that trust with these rightwing MAGA decisions, very few of them founded in any precedent at all. It could be the unraveling of trust in our democratic institutions.

The good news is that the Constitution provides a remedy to the Supreme Court's terrible decision: Congress has the authority to exercise strong checks on the judiciary through legislation. We should look precisely into that. One possible avenue: clarifying that Donald Trump's election-subversion acts do not count as official acts of the Presidency. Such a notion should hardly be controversial, and I am working with my colleagues on legislation to see what kind of proposals would be appropriate.

We were all taught in grade school that there are no kings here in America, but what the conservative Justices have done is placed a crown on the head of Donald Trump. They declared, in effect, the same thing Nixon told David Frost in 1977 when he said—this is what Nixon said, chased out of office for potential criminal acts:

When the President does it, that means it is not illegal.

That is going to be the new ''rule of law'' in America with these Justices? What a bone-chilling proposition. If future Presidents no longer fear prosecution for their conduct in office, then what the heck is going to rein them in? One election every 4 years? That is cold comfort if a corrupt President can use their office to undermine elections in the first place. It is a catch-22, a very evil one. It is autocracy 101. What if future Presidents order the DOJ to arrest election workers? What if they escalate their attacks on the press? What if they take bribes in exchange for favors or money? What if, in each of these instances, they claim they were acting in an official capacity? America would be in a state of constitutional pandemonium.

The American people are tired of Justices who think they are beyond accountability. We in Congress should be open to sensible, reasonable solutions to restore the checks and balances that the MAGA Court has taken away.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Republican leader is recognized.

NATO

Mr. MCCONNELL. Mr. President, as NATO's Washington summit draws to a close today, there is clearly tremendous resolve among many of our allies to make the transatlantic alliance fit for purpose for another 75 years. But a strong and effective NATO has always required strong and effective American leadership, and here at home, there is reason for cautious optimism that support for leadership on collective defense is widespread.

Last month, the Reagan Institute released the findings of its latest poll on the American people's views of global issues. Here is what it found: A majority of Americans support ''a more engaged U.S. foreign policy'' and hold favorable views of the NATO alliance and support lethal assistance to Ukraine. Despite the media spending years amplifying views from the fringes of our politics, a majority of Republicans believe that ''U.S. involvement in international events'' benefits America.

When asked recently whether peace, prosperity, and security were products of American leadership and sacrifice—listen to this—more Republicans than Democrats actually agreed with that.

Here is the kicker: They are not just telling this to pollsters; they are actually demonstrating it at the ballot box. By massive, double-digit margins, Republican primary voters have picked candidates who supported the national security supplemental earlier this spring. Let me say that again. Not a single Republican incumbent who voted to help America's friends resist authoritarian aggression and rebuild the arsenal of democracy lost their primary. Not one lost their primary. Across the country, voters rejected fringe candidates who peddled isolationist pablum and voted instead for American leadership.

The way Speaker JOHNSON put it earlier this week, he has had people come up to him at events in 31 different States in recent months to say the same thing: We are glad Congress delivered the supplemental.

So, Mr. President, it can often seem like the loudest voices in Washington are the ones that bemoan the responsibilities of American leadership while enjoying the peace and prosperity it underwrites, but these voices are increasingly estranged from the views of most Americans. The American people know instinctively that leadership on the world stage isn't some handout to allies and partners; it is an investment—an investment—in our own security. They know this leadership is what preserves the U.S.-led order that has underpinned peace and prosperity for decades. Now they just need a President who is willing to exercise that leadership.

For years, the American people watched the Biden administration dither and wring its hands over fears that standing with a sovereign democracy might invite escalation from a tyrant who was already conducting a full-scale war of conquest. Since last fall, they have heard the President insist in one breath that America's commitment to a close ally was ironclad and then withhold urgent assistance in another.

It is well and good to talk about American leadership, but talk is cheap. This week would have been a great opportunity for the Commander in Chief to start backing up his words with firm commitments to start investing seriously—seriously—in hard power. It should have been the week the Democratic leader brought the NDAA up for Senate consideration. It could have been a great week to lead.

Fortunately, the most successful military alliance in history has had some strong leadership in Brussels with Secretary General Jens Stoltenberg. I am deeply grateful for his tireless work on both urgent and

long-term challenges facing the alliance and for his deep devotion to the cause of collective defense.

The Secretary General took office months—just months—after Russia launched its unprovoked invasion of Ukraine back in 2014, and after a pivotal decade, he will leave the alliance with renewed clarity and resolve to face even graver Russian aggression and linked authoritarian threats all around the world.

For 10 years, he has worked relentlessly to expand allies' focus to include serious challenges emanating from beyond NATO's borders.

Recognizing the links between major threats to global security, he has improved the alliance's engagement with critical Indo-Pacific nations like Japan, South Korea, and Australia.

Just yesterday, he led allies in making clear that China is the ''decisive enabler'' of Russia's war against Ukraine and that ''the PRC cannot enable the largest war in Europe in recent history without this negatively impacting its interests and reputation.''

He has successfully expanded NATO, most recently welcoming Sweden and Finland as highly capable additions to our ranks.

In the face of Russian aggression, the Secretary General has been an extraordinarily effective advocate and spokesman for collective defense, rallying renewed investment from allies and leading the most significant NATO rearmament since the Cold War.

As he navigated the predictably diverse and spirited views of dozens of allies, the Secretary General demonstrated a keen appreciation for America's legitimate, longstanding, and bipartisan concerns about burden-sharing across the alliance and has repeatedly urged allies to take on more responsibility for our shared security.

On a personal note, I am immensely grateful for the time the Secretary General and I have spent working closely together. I have appreciated his candor, his professionalism, and his devotion to our common cause. I was particularly proud to welcome him to address a joint meeting of Congress earlier in his term.

As he departs his post, Secretary General Stoltenberg should take great pride in the historic accomplishments of his tenure and remain optimistic, as I am, in the course he has set for the alliance. He has the gratitude of allies and partners all across the free world, and he will leave big shoes for his successor, Mark Rutte, to fill.

NOMINATION OF SARAH NETBURN

Mr. President, now on another matter, I have spoken before about the New York magistrate judge with a bad habit of engaging in political activism from the bench and lying about it under oath. Unfortunately, the red flags on Judge Netburn's record aren't limited to the inappropriate actions she does commit; there is also the important work she has inexplicably chosen to ignore.

Take it from the family members of victims of 9/11 who wrote recently to our colleagues on the Judiciary Committee. As these loved ones sought a small piece of justice for the lives that terrorist killers snuffed out, Judge Netburn failed to rule on the unopposed motions they submitted that would have entitled them to participate in the next round of compensation for grieving families.

As they put it:

> We cannot understand how a Magistrate Judge could treat 9/11 family members so callously or so blithely disregard her duties.

Mr. President, I have posed this question before on another of the administration's nominees, Nancy Maldonado. But I will ask it again: Why on Earth do our Democratic colleagues continue to entertain lifetime promotions for nominees with a demonstrated inability to do the job?

This sort of gross negligence is damning. It is disqualifying. And, frankly, the Netburn nomination isn't worth another second of the Judiciary Committee's time, let alone the Senate's.

INFLATION

Mr. President, on one final matter, cumulative inflation since President Biden took office now sits at 21 percent, and working families across America are still feeling the pinch in their wallets, especially when it comes to basic necessities like housing.

In New Jersey, one man who has watched his rent soar said:

> I thought things were going to taper off, but it doesn't appear to be tapering.

In my State of Kentucky, one resident said he was ''sticker-shocked'' at the skyrocketing costs of homeowners' insurance, property taxes, and utility bills. And he is certainly not alone. One survey showed nearly one in five homeowners could not afford a $500 emergency repair on their home.

Last month, 46 percent of Americans reported that they are struggling to keep pace financially, and only 25 percent of this group said they planned on supporting President Biden.

The American people know which party ignored the warnings of top economists, lit money on fire with reckless taxing-and-spending sprees, and fueled the worst inflation this country has seen since the Carter administration. The American people are sick and tired of Bidenomics. I expect they will have more to say about it this November.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. THUNE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

BORDER SECURITY

Mr. THUNE. Mr. President, last month's arrest of eight men from Tajikistan with suspected ties to ISIS further underscores what we have known for a long time, and that is that President Biden's 3-year-plus border crisis is a threat to our national security. All eight of these individuals had made their way into our country across our southern border, and they are hardly the only dangerous individuals to have made their way into our country on President Biden's watch.

An illegal immigrant who had successfully evaded the Border Patrol to enter the United States has been arrested for the murder of a mother in Maryland. An illegal immigrant released into the country on parole has been charged with the murder of a nursing student in Georgia. Two illegal immigrants are charged with the killing of a 12-year-old girl in Texas.

Unfortunately, I could go on.

In another alarming case, 50 out of 400 illegal immigrants who entered the United States through an ISIS-linked smuggling network are still unaccounted for. It is, of course, impossible to predict or stop every crime, but the chaos at our southern border that President Biden has allowed to rage for 3-plus years has unquestionably created an environment that facilitates the entry of dangerous individuals into our country.

Since President Biden took office, approximately 10 million individuals, that we know of, have made their way illegally into our country—10 million.

That is larger than the population of the vast majority of American States. We have had 3 successive years of record-breaking illegal immigration on President Biden's watch—3. And we can only hope that we will manage to avoid yet a fourth.

The situation is so bad that President Biden finally realized that if he didn't do something, his disastrous record on the border might tank his reelection prospects. And while it would be nice if the executive action he took last month had been motivated by the clear national security dangers the situation presents and not by fear of losing an election, at least he finally conceded that he had to do something—inadequate and full of exemptions as it might be.

But while this might—and I emphasize ''might''—be a case of better late than never, I am afraid it is also a case of too little, too late. Because a tremendous amount of damage has been done that President Biden can't fix, even if he should succeed in restricting future flows.

As I said, roughly 10 million illegal immigrants have entered our country on President Biden's watch. And while I am sure that many of these individuals were simply in search of a better life, we can be pretty confident that there are others, like the recently arrested individuals with suspected ties to ISIS, who have more malign intentions.

Of particular concern are the roughly 1.8 million known ''got-aways.'' Those are individuals who the Border Patrol

saw but was unable to apprehend, who have made their way into the country over the course of this administration.

U.S. Border Patrol Chief Jason Owens, speaking earlier this year about the number of ''got-aways'' at the border said:

[T]hose are the numbers that really keep us up at night, because if you know that all you need to do is turn yourself into the Border Patrol and go through the process, what possible reason would you have for wanting to evade capture? Could it be that those are the folks that probably have criminal intent?

Chief Owens was referring to the fact that under the Biden administration's lax asylum system, individuals who show up at the border claiming asylum have frequently been released into the country with court dates as much as a decade into the future.

And his point, of course, is that when turning yourself into the Border Patrol when a claim for asylum is likely to result in years of, essentially, legal permanent residence, it is especially concerning that we have had hundreds of thousands of individuals choosing not to turn themselves in and escaping into the interior of our country.

So, again, even if President Biden's executive action from last month does do something to help reduce the flow of illegal immigration—which very much remains to be seen—we will still be left with the effects of the chaos he has allowed to rage at our southern border for 3-plus years. And we will still be left with the effects of his other disastrous border and immigration policies from offering mass amnesty to hundreds of thousands of individuals whose asylum cases have been closed without a decision to fast-tracking mass parole through the CBP One app to placing unaccompanied children with possibly dangerous guardians in the United States—something, by the way, that Senator GRASSLEY is currently working to prevent in the future.

And I expect we will still be dealing with the consequences of President Biden's dangerous policies for a long time to come.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. CRUZ. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. LUJÁN). Without objection, it is so ordered.

UNANIMOUS CONSENT REQUEST—H.R. 8369

Mr. CRUZ. Mr. President, I rise at a time of widespread and acute peril for the national security of the United States and for America's allies. Led by China, our enemies and our adversaries—Russia, Iran, North Korea—are actively cooperating to target us and our allies all over the world. In extreme cases, they seek nothing less than the physical annihilation of the countries they are targeting.

In Europe, Russia has launched a full-scale invasion of Ukraine. In Asia, China is engaged in day-by-day aggression against our allies and is threatening another full-scale invasion of Taiwan. And in the Middle East, Israel is fighting for its survival in the face of a war of extermination being waged against it by the Iranian regime. October 7 was the worst 1-day mass murder of Jews since the Holocaust. Iran and its terrorists have attacked Israel from the Gaza Strip, from Lebanon, from Syria, from Judea and Samaria, from Yemen, from Iraq, and from Iran.

And what has the Biden administration's policy been? Since the opening days of this administration, they have pursued an obscene policy of denying weapons to our allies while allowing resources to flow to our enemies.

They immediately halted arms to our Arab allies that they were using against Iran's Houthi terrorists while lifting sanctions simultaneously on the Houthi terrorists. The Houthis immediately launched a vast offensive and today are significantly blocking shipping through the Red Sea. The administration denied critical weapons such as ATACMS to Ukraine at a period that they could have stalled Russia's offensive, providing both time and space for Iran to flood drones to be used by Russian forces against Ukraine.

And, of course, the Biden administration flooded unaccountable hundreds of millions of dollars into the Hamas-controlled Gaza Strip, which they knew would benefit Hamas. Joe Biden sent that money to Gaza, even though he was warned that the money would inevitably go to Hamas and be used for terrorism.

I joined 19 Senators in making that point explicitly: If you send this money to Gaza, it will be used by Hamas for terrorism. And we now know that the Biden administration agreed with me. The Biden administration concluded that it was ''highly likely''—that is their assessment—''highly likely'' that the money going to Gaza would be used by Hamas for terrorism.

Now, ordinarily, under U.S. anti-terrorism law, that is the end of the matter. If it is highly likely the money will be used for terrorism, you don't send it.

Do you know what they did instead? They waived our anti-terrorism law and said: Send it anyway.

I guess they are OK if Hamas uses U.S. dollars to murder Israelis because that is exactly what happened.

After October 7, the administration didn't change. Even after October 7, the Biden administration has slowed and halted critical weapons that our Israeli allies need to counter Hamas.

That utter incoherence has entangled this body. During the debate over the last national security supplemental, I and many other lawmakers found ourselves unable to support the policy, in part, because we did not believe that the Biden administration would faithfully implement the authorities and appropriations Congress would be providing.

Those doubts were subsequently publicly confirmed. President Biden has explicitly said that he is blocking precision weapons to Israel and that he would even block artillery if Israel moves to fully root out Hamas from Rafah.

I will add, Mr. President, that this policy is particularly egregious in the context of the Gaza pier because the Biden administration requires Israelis to provide force protection for the pier while denying them the weapons they need to do so.

Senate Democrats have, unfortunately, found themselves in the position of knowing that this policy is both incoherent and catastrophic. But at the same time, it is their party's policy so they defend it anyway.

What we should be doing is providing Israel weapons now and denying Hamas the resources it needs to continue its war of terror against Israel.

That is why, in a moment, I am going to propound a unanimous consent request to ensure that the Biden administration delivers to Israel the weapons that the Biden administration is withholding.

This legislation has already passed the House. In a moment, it might pass the Senate.

For folks at home who are watching, you should watch very carefully. When I raise the unanimous consent request, a Democrat Senator will stand up and begin speaking. He will begin by saying: ''Reserving the right to object,'' and then he will give some remarks.

Listen for two words: ''I object'' because this is binary. If at the end of his remarks he says ''I object,'' it will defeat this motion, and it will mean that Senate Democrats have decided they agree with Joe Biden in blocking weapons to Israel. And if he doesn't—if he gives the identical speech and just pulls out his pen and crosses out those two words written at the bottom of the speech, he just doesn't say ''I object''—do you know what happens? The legislation that has already passed the House would pass the Senate unanimously, 100 to 0, and go to the President's desk for signature.

Just about every Member of this body goes and gives speeches and says: I support Israel.

Well, talk is cheap. If you support Israel, provide them the weapons they need in a time of war. We are going to find out if the Democrats are willing to do so or not.

Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 398, H.R. 8369; I further ask that the bill be considered read a third time and passed and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

The Senator from Vermont.

Mr. WELCH. Mr. President, reserving the right to object, the war in Gaza has been a humanitarian catastrophe, and tens of thousands of civilians have been killed and wounded. Thousands of children are not able to obtain medical care that they urgently need. Hundreds of thousands of people in northern Gaza have been told to relocate again and again and again. There is no safe place for these innocent people to go in Gaza. Also, 100 precious lives of hostages do remain in Hamas control. And I am very upset about the escalation of anti-Israel sentiment here in our own country.

But everyone is painfully aware that Hamas built its underground system of tunnels and military command beneath Gaza schools, hospitals, and other civilian structures. It is a very difficult dilemma, but the answer is not the entire destruction of Gaza.

And Secretary of Defense Austin said that ''there's a better way'' to prosecute the military campaign and to eliminate Hamas while protecting civilians. That is our military leader. And that is a sentiment that is shared by many U.S. military officers, both active and retired and, incidentally, many Israeli officers.

Israel has received, as my colleague from Texas knows—and as my colleague from Texas also knows—Israel has continued to receive massive amounts of U.S. weapons, ammunition, and other military aid. And the Congress passed an emergency supplemental, in addition to the fiscal year 2024 appropriations bill. And together, they provide, literally, billions of dollars—billions of dollars—in military aid for Israel. So the suggestion that Israel is lacking for U.S. weapons and ammunition is without any merit whatsoever.

The conflict between Israelis and Palestinians will not be solved with more bombs, particularly when the Netanyahu government has yet to articulate achievable goals or a credible plan for what comes next after the war ends—something that many Israeli citizens are pointing out and objecting to the manner in which Prime Minister Netanyahu is conducting this war.

In the meantime, starvation is escalating for women and children—innocent people in Gaza—who had nothing to do with what happened on October 7. And, incidentally, as the Senator from Texas knows, every single one of us in the Senate is absolutely horrified by what Hamas did on that day, October 7. And as my good friend from Texas said, that was the worst mass murder of innocent Jewish people since the Holocaust—horrifying.

I think it is fair to say that everybody in this body wants the war to end. They want a secure, peaceful Israel, and we want a secure, peaceful Palestinian State. But the suggestion that the U.S. Government is not providing significant aid to Israel, which I have objected to but this Congress has supported by a very large margin, is flatout wrong.

So for these reasons, I object.

The PRESIDING OFFICER. The objection is heard.

The Senator from Texas.

MOTION TO DISCHARGE—S.J. RES. 89

Mr. CRUZ. Mr. President, I move to discharge S.J. Res. 89 from the Foreign Relations Committee.

The PRESIDING OFFICER. The clerk will report the joint resolution by title.

The legislative clerk read as follows:

Motion to discharge from the Committee on Foreign Relations, S.J. Res. 89, a joint resolution to direct the termination of the use of United States Armed Forces for the construction, maintenance, and operation of the Joint Logistics Over-the-Shore pier on the coast of the Gaza Strip that has not been authorized by Congress.

The PRESIDING OFFICER. The motion is debatable for 1 hour.

The Senator from Texas.

Mr. CRUZ. Mr. President, the Gaza pier is a perfect example of the Biden administration's foreign policy incoherence. This was a nearly half-billion-dollar stunt trying to buy a few votes in Michigan. It has been an unconscionable waste of American taxpayer dollars, and, simultaneously, it has undermined America's geopolitical credibility with our allies.

The pier is unnecessary. We can debate whether sufficient aid is getting to the Gaza Strip, but I believe that our Israeli allies have taken unprecedented steps to ensure that indeed there is. I understand that many Democrats disagree.

What is undeniable, however, is that whatever aid is coming in, it has not, will not, and, indeed, could not have come through this God-forsaken pier. The operation was simply too insignificant and too convoluted.

Moreover, we know that Hamas diverts aid delivered through this pier. The pier has also been reportedly attacked by Palestinian terrorists, and three U.S. servicemembers have been injured because of pier operations.

Further, the pier has cost American taxpayers a minimum of $320 million to construct. And that was an estimate from April, so it is surely higher now.

Meanwhile, we have required our Israeli allies to provide a ''security bubble'' around the pier. We are pressuring them to protect this operation, which is bringing supplies hijacked by Hamas.

Joe Biden is asking Israel to protect the Gaza pier from Hamas while denying Israel the weapons to counter Hamas. And as we just saw, Senate Democrats are endorsing that policy. I find it difficult to think of a more ridiculous policy.

Let's be clear. American policy should be unequivocal: We need to ensure that Israel has the military and diplomatic support to utterly eradicate Hamas. That is good for Israel, and it is good for America.

Unfortunately, we have seen a recurring theme from the Biden administration and from Senate Democrats: Undermine Israel at every step of the way and aid terrorists at every step of the way.

In fact, this administration has been the greatest friend to Hamas and Hezbollah and the greatest ally to Ayatollah Khamenei on the entire planet. Under the Biden Presidency, over $100 billion has flowed to Iran, and $6 billion of it was in ransom for five Americans—a policy which I warned at the time would lead to more Americans being taken hostage. Tragically, on October 7, we saw that come to pass.

Where we are now is the Biden administration is sending money to Gaza, and they are combining it with blocking weapons to Israel. The policy is utterly backward. If you were to ask anyone on the street ''What should we do on foreign policy?'' they would say that we should support our friends and stand up to our enemies. Unfortunately, Joe Biden and the Democrats—their policy—has blocked weapons to our friends, blocked weapons to Israel, and sent billions of dollars to our enemies who are actively trying to kill Israelis and actively trying to kill Americans. It is Alice in Wonderland through the looking glass.

What the Senate should be doing is voting on the legislation the House has already passed to provide the weapons Israel needs now. Just a minute ago, I tried to pass that here on the floor of the Senate, and you saw Senate Democrats object to that. Why is it that we are not voting right now on providing the weapons to Israel that Joe Biden has blocked? Because Senate Democrats do not want to vote on it.

The only reason it didn't pass a minute ago is that a Senate Democrat objected and did so on behalf of all of the Democrats, and we know that it is all of the Democrats because CHUCK SCHUMER is the majority leader of this body. Senator SCHUMER could schedule the House bill for a vote anytime he wants, and he said he will not allow it to come to a vote.

So understand, if you support Israel, the reason the Biden administration is able to block weapons from going to Israel is because every Senate Democrat is standing in solidarity with this White House in blocking weapons from going to Israel in a time of war.

The reason you heard the words ''I object'' is some Senate Democrats don't want to go on the record for that. They don't want to actually cast the vote.

The Senator who objected is from the State of Vermont. Vermont is a bright-blue State—a State that they comfortably believe is safe to make an objection. Senators who are on the ballot in red or purple States are not eager to go on record on this question.

Procedurally, I do not have the ability to force a vote on passing the already passed House bill that would provide immediate weapons to Israel.

There is not a procedural vehicle to do that, but there is a procedural vehicle to vote on the mirror image of that policy. If we can't vote in saying America should provide weapons to our friend the State of Israel, what we can vote on is if we should stop giving money to our enemies—to Hamas.

The Gaza pier is flowing money to Gaza that is benefiting Hamas. Under the War Powers Act, I have the ability procedurally to force a vote, which we are about to have, on whether to cut off that money.

Everyone at home, I want you to understand this is a vote, yes, on the Gaza pier and, yes, on cutting off money to Hamas, but it is also a vote on the other half of the policy: Should we provide weapons to Israel?

I would have more than happily withdrawn this war powers resolution if—if—if the Democrat majority would have allowed a vote on the legislation that has already passed the House providing immediate weapons to Israel, but Democrat leadership doesn't want that vote. So I am going to force the only vote we can get.

Understand, when you see Democrat after Democrat after Democrat walk down to the well of the Senate and vote—I am going to make a prediction—they are going to vote quietly. You may see a couple—a couple—who have been among the loudest opponents of Israel. A couple may vote loudly, but most Democrats are going to walk in very quietly and go to the clerk and go ''no'' or maybe point down quietly, but it is not going to be a vote they are proud of. It is going to be a vote that they hope their constituents don't know about, that they hope the men and women they represent don't hear about, and it is going to be a vote, sadly, that simply reflects party loyalty in that the Biden White House has cracked the whip and has said: We support our enemies; we oppose our friends. Now fall in line and vote accordingly.

I am hoping that Senate Democrats will rediscover that the Senate is an independent body; that the Senate doesn't work for the White House even if your own party is in charge; that the Senate was designed to provide checks and balances on the President, especially concerning foreign policy; that the Senate was given by the Framers of the Constitution unique responsibilities concerning foreign policy: the responsibility to declare war, the responsibility to ratify treaties, the responsibility to confirm Ambassadors, to confirm the Secretary of State, to confirm military officers. The Framers designed the Senate to check an Executive, whether from your own party or the opposing party.

There is a long history of Senate Democrats who were willing to stand up to Democrat Presidents. You know, there was a Senate Democrat named Scoop Jackson. Scoop Jackson actually had the courage to stand up, even if it was a Democrat President, and fight for American national security. I wish we had even one Scoop Jackson Democrat left in the Senate, even one Democrat who would stand up and say: Look, I am with the Biden White House most of the time, but on cutting off weapons to Israel, on funding Gaza, on sending money to Iran and Hamas, enough is enough. I can't do that.

It is within the prerogative of every Senator to do just that, and I would note it is possible.

You know, we just had a Senate Judiciary markup where, going into the markup, everyone assumed that a judicial nominee from New York was going to be voted favorably out of the Judiciary Committee.

Now, this was a particularly radical nominee. This was a nominee who as a magistrate judge had ordered a 6-foot-2-inch biological man who was a serial—repeat—rapist to be housed in a women's prison, putting every woman in that prison at risk of sexual assault or rape. It was an extreme and radical nominee. I and others led the opposition to it.

I will tell you, we just had the markup. We walked into the markup, and everyone assumed, as has happened for 3½ years, that the Democrats would vote like the politburo—''da''—and vote for whatever extreme nominee was in front of us. Something shocking happened. When the vote happened, one of the Democrat Senators, the Democrat Senator from Georgia, voted no, and the nominee was defeated.

I am going to point to that as an example to the Democrats in this Chamber. I understand that the White House expects you to fall in line, that President Biden is coming to join you for lunch today, but every Senator has the prerogative to make their own choice: Do you agree with undermining Israel? Do you agree with flowing money to Gaza and Hamas and Iran and terrorists who want to kill us? If you don't, the people of your State have elected you and given you the prerogative and given you the voice to stand up and say no to this policy that is endangering America and endangering our allies.

I urge every Member, Republican and Democrat, to stand together, united. It would be powerful if we saw a bipartisan vote saying: We stand with our friends, and we stand against our enemies, and enough with this nonsense of funding people who want to kill us.

I yield the floor.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. Mr. President, just to alert our colleagues, it is my intention at the end of this debate to make a point of order that this joint resolution is not entitled to privilege under 50 U.S.C. 1546a due to U.S. troops not being engaged in hostilities, but in order to allow the debate to continue, I will withhold that motion until the end of discussions.

This resolution that is before us would be an unprecedented invocation of the expedited procedures in the War Powers Resolution. I am a strong supporter of the War Powers. I think it is an appropriate use of oversight on our power to commit our troops to harm's way. This resolution does not seek to remove U.S. forces from hostilities but, rather, to end a specific mission. The War Powers is to deal with our military troops, not to deal with tactical military and nonmilitary actions. The Senate should not allow the privileged vehicles intended for entirely different purposes to be used as a backdoor effort to stop humanitarian assistance.

Let me be clear about this. American boots are not on the ground in Gaza. The U.S. troops who are operating the pier in question are not engaged in hostilities or in carrying out a mission that requires the authorization of the use of military force. They are facilitating the delivery of food, water, and other basic humanitarian assistance. The supplies are not even being delivered by U.S. forces.

Let me just call to our colleagues' attention what is included in the War Powers Act itself. It deals with U.S. Armed Forces when they are ''[i]nto hostilities, or into situations where imminent involvement in hostilities is clearly indicated by the circumstances, and to the continued use of such forces in hostilities or in such situations.'' That is not what we have here in regards to the pier, so this is not the appropriate use of the War Powers Act.

I might tell you, this is somewhat moot because we expect, by the end of this month, for the pier operations to cease.

In any event, I think it is important for this body to make clear that we support the War Powers. This is not an appropriate use of the War Powers. For that reason, I will be making a motion, at the end, of a point of order.

I understand some of my other colleagues have some points, so I will yield the floor, but I will ask for the floor before the end of the debate.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. MANCHIN. Mr. President, I rise in support of Senator CARDIN and basically of the concerns we have of the War Powers Act and in diminishing the act to the point that we can't really react to the needs that we have around the world in trying to defend ourselves and help our allies.

I agree also with Senator CRUZ that this pier has not worked, that it has not done what it was intended to do. There have been difficult conditions, and a lot of money has been spent. To go any further is needless.

I intend to enter into a resolution—to have a resolution for today—that basically will do exactly what Senator CRUZ has said in his, except we will do it as a sense of the Senate versus invoking the War Powers Act. I will ask for consent and hopefully receive the support of my colleagues on both sides of the aisle. That will be later. We will do it today before we leave.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. Mr. President, let me thank my colleague from West Virginia.

I think my colleague is going about it the right way in dealing with the substance of the issue through a resolution and not by invoking the authorities we have for expedited procedures under the War Powers Act.

For that reason, I later intend to make a point of order.

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CRUZ. Mr. President, the Senator from Maryland said that he intends to raise a point of order objecting to this war powers resolution because we do not have servicemembers in harm's way; we do not have active hostilities, which is what is required by the War Powers Act. That is a creative procedural argument. It just has the inconvenient fact of not being true. Not only is it not true, but what the chairman of the Foreign Relations Committee is arguing to this body is directly contrary to the explicit position of the Biden Department of Defense.

I want to read to you from a press briefing from the Biden Department of Defense on May 16. A reporter asked the official spokesperson for the Department of Defense:

> The USAID spokesperson said yesterday that he wasn't satisfied yet with the deconfliction arrangement yet, and then he added that the maritime corridors exposed to—we do not think the JLOTS of the maritime corridor is exposed to any additional risk above and beyond that which is already present in Gaza. That's pretty frightening now, isn't it, given how many people have been killed . . .

Answer—and this is from the Biden Department of Defense:

> I don't think we've come up here with rose-colored glasses and said this is not a risk. This is an active war zone.

The Biden Department of Defense has explicitly stated: ''This is an active war zone''—that they are putting U.S. personnel at risk. And that is precisely why the War Powers Act gives this body the ability to act.

I would note, as well, my friend from West Virginia said he wanted a sense of the Senate but not to use the War Powers Act. The War Powers Act is a way for Congress to exercise its prerogative.

Over recent decades, we have seen the Senate hand away much of our responsibility on foreign policy and national security to the executives. That is contrary to the design of our Constitution, and it is, frankly, harmful to the Senate and harmful to this country.

We are not merely a body that has a sense of the Senate. Look, I assume I will join with whatever the sense of the Senate is. If it says this is a dumb idea, I will join that. But while we are at it, we ought to rename a post office.

The Senate exists to do more important things than make general musings into the ether. The Senate has the constitutional power and, under the War Powers Act, the legal and statutory power to say: Stop spending money to send U.S. service men and women into harm's way.

Now, far too often, the Senate has stepped out of our historic role in foreign policy and has said: Whatever the President wants, we, the Senate, aren't going to say anything about it.

When there is a Republican President, Democrat Senators suddenly discover their voice and say: Hey, the Senate ought to say something.

But when it is a Democrat President, it seems no matter how incoherent and disastrous the foreign policy from the Democrat President, Democrat Senators don't want the Senate to exercise its authority.

I will reiterate the offer that I made just moments ago to the staff of the Senate majority leader: I will withdraw this war powers resolution if the Senate votes on the legislation that has already passed the House to provide the weapons that the Biden White House is blocking to Israel.

The Democrats don't want to do that because they don't want their Members on record. And because they don't want their Members on record, this is the only vehicle I have, because, procedurally, under the statute, I have a right to force a vote on this.

The chairman of the Foreign Relations Committee said there are not active hostilities. The Biden Department of Defense has explicitly disagreed.

To quote again:

> I don't think we've come up here with rose-colored glasses and said that this is not a risk. This is an active war zone.

That means the War Powers Act fully applies.

I yield the floor.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. Mr. President, there is no dispute that there is active hostility in Gaza. That is not the issue. The question is whether American troops have been engaged in that hostility, and they are not. That is when the War Powers Act is triggered.

American presence through missions are common in areas surrounding active hostilities. That is not unusual. So the use of the War Powers Act in this circumstance would be unprecedented.

I would urge my colleagues to recognize there are other ways we can express ourselves. I thank Senator MANCHIN for giving us that opportunity. But this is the wrong procedure to use.

And if all time is yielded back—

Mr. CRUZ. It will be momentarily.

Mr. CARDIN. I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CRUZ. A very brief response to what my friend from Maryland said: The pier was fired upon twice. It is difficult to say that we are not in active hostilities when we are being fired upon, and so it clearly falls under the statute.

With that, I yield all further time.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. In a brief rebuttal, I will tell you a mission dealing with humanitarian assistance is not introducing our soldiers.

POINT OF ORDER

Mr. President, I yield back our time, and I make a point of order that this joint resolution is not entitled to privilege under 50 U.S.C. 1546a due to U.S. troops not being engaged in hostilities.

VOTE ON POINT OF ORDER

The PRESIDING OFFICER. The Chair submits the question to the Senate for its decision.

Is the point of order well taken?

Mr. CARDIN. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from Massachusetts (Mr. MARKEY) and the Senator from New Jersey (Mr. MENENDEZ) are necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from West Virginia (Mrs. CAPITO), the Senator from Montana (Mr. DAINES), the Senator from Utah (Mr. ROMNEY), and the Senator from Florida (Mr. SCOTT).

Further, if present and voting: the Senator from Florida (Mr. SCOTT) would have voted ''nay.''

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. KENNEDY. Madam President, I ask unanimous consent that the Senate proceed to executive session and that at 1:45 p.m. today the Chair execute the order of July 9, 2024, with respect to the Meriweather nomination.

The PRESIDING OFFICER. The Senator from Kansas.

WAR POWERS

Mr. MORAN. Madam President, the Senator from Arizona, I want to speak just briefly about the vote that we just cast but, more than the vote, the topic that it represents.

The pier constructed to deliver aid to Gaza is a failure, was a failure, and it was a very expensive failure, and it has cost taxpayers hundreds of millions of dollars. It was an idea poorly conceived and poorly executed. It is unsustainable to maintain, and it is not fulfilling its purpose. It should be dismantled, and there are already plans underway to eliminate the pier after remaining aid has been distributed or removed.

Our U.S. forces, as they were in this instance, were called upon to deliver aid to areas of the world that are plagued by violence or areas that are hostile to the United States. And my complaint about the planning is nothing to distract from my admiration and respect for those who serve our country, and that continues in those individuals in the military who have served in the effort to try to provide aid to the people of Gaza.

But this is not an isolated instance in which the United States and its military are asked to serve. The United States has previously assisted Iran after a devastating earthquake. This year U.S. forces delivered aid to Haiti, which is racked with gang violence. The capabilities of the U.S. military and the generosity of the American people to help innocent victims, no matter who they are or what government rules over them, is a testament to America's goodness and to American power.

The point I want to make is the War Powers Resolution allows Congress to remove forces ''engaged in hostilities without specific authorization.'' I want to caution my colleagues against utilizing these authorities and setting a precedent that Congress can or should intervene any time we simply don't like the entity, the people, who are receiving the aid.

I wholeheartedly respect Congress's ability to utilize war powers when appropriate. There is no greater responsibility we have than deciding when to send our sons and daughters to take part in a war. This decision should not and must not be allowed to reside with the President, with the executive branch alone. Yet, too often, it is exactly what we do, ignoring our obligations as Members of Congress.

The Framers of our Nation determined that war is to be declared by Congress. And in too many instances and way too often, we fail to live up to our constitutional responsibilities.

I believe there are many more opportunities more pressing and more damaging to our troops than just this failure of the pier, where Congress could and should intervene. At this moment, for example, the U.S. sailors are engaged in kinetic activities against the Houthis without any such authorization. Just like the Gaza pier, the Biden administration has placed servicemembers in harm's way without any strategy for success, at significant cost to taxpayers and finite defense munitions. This pier demonstrated President Biden's ham-fisted approach to the Middle East.

Why should we allow him—but the point is broader than that. Why should we allow him—or any President—to continue missions that are adrift and have no prospect of a solution? It is a failure on Congress's part to assert our constitutional obligations in matters of war.

Today's vote was a step—a step, I think, in the right direction—but we have much more to do to carry out the responsibilities we were elected to. I have said this on the Senate floor many times: When Congress looks the other way, when a President of either party issues executive orders or rules and regulations that make no sense under the law that was enacted that they are operating under, it is important, I think—again, I have said this on the floor before too many times—people just want the result they want, and they don't care about the process by which they get it. And the process is what protects our freedoms and liberties. The process is what the Constitution is about, and we ought to be fulfilling our constitutional responsibilities, certainly when it comes to the ability to have members of our military in harm's way.

Our freedoms and liberties are determined by that. The Framers understood that this country should not have a king and that the powers are vested in the legislative branch, not the executive.

I yield the floor.

The PRESIDING OFFICER. The Senator from South Carolina.

REMEMBERING JAMES M. INHOFE

Mr. SCOTT of South Carolina. Madam President, I rise today to take a moment to reflect on the remarkable life of Senator Jim Inhofe, who passed away and is now spending time with his Lord and Savior in heaven.

I rise for a number of reasons: One, because he was such a fantastic public servant who served our Nation in the U.S. Senate for nearly 30 years. I rise because, as a member of the U.S. Army, he served his Nation valiantly and selflessly. I rise because here is a man of great faith who dedicated his life to public service.

But I also rise because of the slanderous headlines that marked his death. People wonder time and time again why the American people continue to lose faith in our media, when the headlines from Associated Press or Politico, New York Times and ABC News reflects a partisan difference on policy and leads them to label his death in such a negative way. It does, indeed, cripple their credibility in the eyes of the American people when the Washington Post speaks of the death of an ISIS terrorist by saying he was an austere, religious scholar at the helm of the Islamic State. But Senator James Inhofe, the Oklahoma Senator and climate change denier, dies at 89. It saddens me, as an American, that our press pays so little attention to the sacrifice of public servants and so much respect for those who kill because they can.

Jim Inhofe will be remembered in Oklahoma and around the country as a man of deep faith, as a man who sacrificed on behalf of a country that he dearly and deeply loved, and as a man who brought people together in Bible studies and faith communities and, frankly, around the world.

I remember traveling with Senator Inhofe a number of years ago on what we call a congressional delegation. It was a 7-day trip with 10 country stops. If you wanted to sleep on Senator Inhofe's codels, you slept on the plane because there was too much to do when the plane landed.

I recall him bringing together African leaders who had been warring against each other, and having a moment of prayer before he found a way, courageously, to bring two warring factions to the same table to solve deeply rooted problems that seemed impossible to solve.

I remember with great affection seeing some of his reelection acts, where he was flying a plane upside down at the age of 84 or 85.

Jim Inhofe was a great man, and his family does not deserve to read the headlines of media outlets that denigrate his public service, denigrate his character, and lessen his reputation. Thankfully, no one can touch his character. They can only darken the shadow around it, because he indeed was a man of great character.

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

AFFORDABLE PRESCRIPTIONS FOR PATIENTS ACT OF 2023

Mr. CORNYN. Madam President, I am glad the Presiding Officer is in the Chair because, committed as I know she is to solving real problems, the legislation that we are going to pass here momentarily by unanimous consent has been 7 years in the making but will actually address the problem of high drug prices.

In the last few years, I have heard, certainly, from my constituents in Texas about the struggle to obtain their medication at affordable costs. It is not because no treatment exists or because they don't have insurance or because it is a brandnew drug that just hit the market. Many patients can't afford prescriptions they have been taking for years because the prices continue to go up, and there is little evidence of anything to justify those price increases.

I have heard heartbreaking stories about patients leaving their prescriptions unfilled simply because they can't afford them, rationing doses of blood pressure medication, and traveling across the international border to Mexico to get certain medications at lower prices. The problem is, when you go to Mexico to get your medication, it may look like the same medication you take in the United States, but chances are it may well be counterfeit, so that is a real problem in and of itself.

These challenges have been compounded by high inflation under President Biden's policies. We know everything has gone up in cost—an average of 20 percent over the last 3 years for groceries, gas, rent. Just about everything is more expensive today than it was when President Biden took office.

Senators from both sides of the aisle, on a bipartisan basis, have offered a number of bills to try to get at this problem of high drug prices. One of these is a bipartisan bill that I introduced with Senator RICHARD BLUMENTHAL from Connecticut called the Affordable Prescriptions for Patients Act. This legislation addresses one of the most egregious practices contributing to high drug prices, which is patent abuse.

Our country offers robust protection for intellectual property. In other words, if you are going to do the research and development and go to the expense and take the risk associated with creating something new and innovative, like a new drug to treat a deadly disease, our laws allow the right to sell that drug on an exclusive basis for a period of time. I think it is very important to incentivize that sort of innovation and research, and it produces lifesaving drugs. We know that many companies are unlikely to pour expensive resources into discovering new cures if, at the end of it, they can't even recoup their own costs, much less make a profit.

That is where our patent system comes in. It is as old as our country is old. The patent system provides a limited time period for the manufacturer to be the sole seller in the marketplace before generic versions can become available, but some companies are abusing the system. They are taking extreme steps to maintain their exclusivity for a drug and keep the money rolling in. One way they do this is through a practice known as patent thickening. This involves creating intricate webs of patents to keep the competition at bay for as long as possible because as long as you can continue to sell these drugs on an exclusive basis, the money is going to keep coming in, and it will not go generic and result in competition from others.

The Affordable Prescriptions for Patients Act aims to stop this anticompetitive behavior and allow new drugs to come to market sooner. That is how we improve competition and ultimately lower prices for patients without standing in the way of innovation.

The added benefit to this bill is the Federal savings that it would provide for taxpayers. The Congressional Budget Office has estimated that this bill would lead to lower Federal spending by $1.8 billion over 10 years.

At a time when our national debt is at an alltime high—approaching $35 trillion—anything we can do to help deal with that rising debt I think should be regarded as positive. And this is just a savings to the Federal Government for Medicare and Medicaid. There will, undoubtedly, be significant savings for consumers who have private health insurance on top of that.

This bipartisan legislation checks every box. It protects innovation; it increases competition; and it saves money for taxpayers and consumers. Most importantly, it lowers prices at a time when many patients are seeing their drug prices go up and up and up—apparently, without end.

I can't imagine why anybody would oppose such a piece of legislation. Election day is 4 months away, and the Senate is only scheduled to be in session for 20 days between now and then, including today. Patients in Texas and across the country are asking their elected representatives to do something to address these high drug prices, and it is time for the Senate to deliver.

Madam President, as in legislative session, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 22, S. 150.

The PRESIDING OFFICER. The clerk will report the bill by title.

The senior assistant legislative clerk read as follows:

A bill (S. 150) to amend the Federal Trade Commission Act to prohibit product hopping, and for other purposes.

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on the Judiciary.

Mr. CORNYN. Madam President, I further ask that the Cornyn substitute amendment at the desk be considered and agreed to; that the bill, as amended, be considered read a third time and passed; and that the motion to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2399) in the nature of a substitute was agreed to, as follows:

(Purpose: In the nature of a substitute)

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Affordable Prescriptions for Patients Act of 2023''.

SEC. 2. TITLE 35 AMENDMENTS.

(a) IN GENERAL.—Section 271(e) of title 35, United States Code, is amended—

(1) in paragraph (2)(C), in the flush text following clause (ii), by adding at the end the following: ''With respect to a submission described in clause (ii), the act of infringement shall extend to any patent that claims the biological product, a method of using the biological product, or a method or product used to manufacture the biological product.''; and

(2) by adding at the end the following:

''(7)(A) Subject to subparagraphs (C), (D), and (E), if the sponsor of an approved application for a reference product, as defined in section 351(i) of the Public Health Service Act (42 U.S.C. 262(i)) (referred to in this paragraph as the 'reference product sponsor'), brings an action for infringement under this section against an applicant for approval of a biological product under section 351(k) of such Act that references that reference product (referred to in this paragraph as the 'subsection (k) applicant'), the reference product sponsor may assert in the action a total of not more than 20 patents of the type described in subparagraph (B), not more than 10 of which shall have issued after the date specified in section 351(l)(7)(A) of such Act.

''(B) The patents described in this subparagraph are patents that satisfy each of the following requirements:

''(i) Patents that claim the biological product that is the subject of an application under section 351(k) of the Public Health Service Act (42 U.S.C. 262(k)) (or a use of that product) or a method or product used in the manufacture of such biological product.

''(ii) Patents that are included on the list of patents described in paragraph (3)(A) of section 351(l) of the Public Health Service Act (42 U.S.C. 262(l)), including as provided under paragraph (7) of such section 351(l).

''(iii) Patents that—

''(I) have an actual filing date of more than 4 years after the date on which the reference product is approved; or

''(II) include a claim to a method in a manufacturing process that is not used by the reference product sponsor.

''(C) The court in which an action described in subparagraph (A) is brought may increase the number of patents limited under that subparagraph—

''(i) if the request to increase that number is made without undue delay; and

''(ii)(I) if the interest of justice so requires; or

''(II) for good cause shown, which—

''(aa) shall be established if the subsection (k) applicant fails to provide information required section 351(k)(2)(A) of the Public Health Service Act (42 U.S.C. 262(k)(2)(A)) that would enable the reference product sponsor to form a reasonable belief with respect to whether a claim of infringement under this section could reasonably be asserted; and

''(bb) may be established—

''(AA) if there is a material change to the biological product (or process with respect to the biological product) of the subsection (k) applicant that is the subject of the application;

''(BB) if, with respect to a patent on the supplemental list described in section 351(l)(7)(A) of Public Health Service Act (42 U.S.C. 262(l)(7)(A)), the patent would have issued before the date specified in such section 351(l)(7)(A) but for the failure of the Office to issue the patent or a delay in the issuance of the patent, as described in paragraph (1) of section 154(b) and subject to the limitations under paragraph (2) of such section 154(b); or

''(CC) for another reason that shows good cause, as determined appropriate by the court.

''(D) In determining whether good cause has been shown for the purposes of subparagraph (C)(ii)(II), a court may consider whether the reference product sponsor has provided a reasonable description of the identity and relevance of any information beyond the subsection (k) application that the court believes is necessary to enable the court to form a belief with respect to whether a claim of infringement under this section could reasonably be asserted.

''(E) The limitation imposed under subparagraph (A)—

UNANIMOUS CONSENT REQUEST—H.R. 8281

Mr. LEE. Madam President, one citizen, one vote—today, this foundational principle is under attack. It is under attack because President Biden refuses to enforce the law. Now we face a direct threat to our entire electoral system.

Consider this: Since President Biden's inauguration on January 20, 2021, over 10 million illegal immigrants have entered the United States. This figure exceeds the populations of 36 States, creating a crisis that has been met with troubling silence and inaction from far too many on the other side of the aisle.

With millions of unauthorized people now on U.S. soil, living here in the United States, the potential for election fraud through ineligible voting is not just a hypothetical risk—no; it is a looming reality.

With the influx of noncitizens under this administration, even if just a fraction—let's just say something like 1 in 100—were to vote, this could translate to hundreds of thousands of votes, enough to sway our tightly contested elections and potentially alter their outcomes.

This is deeply concerning considering that a recent study showed that noncitizens have ample openings to vote illegally. It found that anywhere from 10 to 27 percent of noncitizens are registered to vote and 5 to 13 percent of noncitizens do actually vote in Presidential elections, no less.

Across the Nation, instances abound where States have inadvertently facilitated this very crisis. From unsolicited voter registration forms being mailed out to noncitizens to driver's licenses issued without adequate checks, practices relying merely on the honesty of illegal aliens have opened up the floodgates to voter fraud.

While it is true that it is already illegal for noncitizens to vote in Federal elections, there are no effective systems in place to verify the citizenship of voters. A mere check on a box is all it takes, with little risk of being caught. In short, you are on the honor system with those forms.

Federal law even prohibits States from requiring proof of citizenship when registering voters via Federal forms. So it is not just that the States aren't doing an adequate job of verifying citizenship as a condition precedent to registering to vote in a Federal election; they are prohibited by law from doing so.

An increasing number of localities permit noncitizens to votes in local elections, and this makes it even worse. It further blurs the distinctions that are there that have historically been meant to protect the integrity of our elections.

Prominent Democrats have openly discussed these tactics, in many instances as beneficial to their agenda, as likely to help their political ambitions. Only months ago, every Senate Democrat voted to count illegal aliens in the census to help them shore up more seats in Congress and consequently more votes in the electoral college.

This cannot continue. It is our responsibility, our imperative, to close these gates. My bill, the SAVE Act, would ensure that this stops. It would be a vital step in securing the electoral process, ensuring that every vote cast is legitimate and every voter is duly recognized and registered and properly brought into the system so that they can vote.

The SAVE Act amends the National Voter Registration Act—the same act that was interpreted a few years ago by the Supreme Court as prohibiting the States from requesting any positive proof of citizenship—so that States can

ensure that only U.S. citizens may participate in Federal elections. It fixes the NVRA. If the NVRA was interpreted that way, this would close that loophole.

The SAVE Act requires States to obtain concrete documentary proof of citizenship at the time of voter registration. It specifies acceptable documentation and requires States to establish alternative verification processes for those rare instances in which standard documents might be unavailable. Furthermore, the SAVE Act compels States to proactively remove noncitizens from voter rolls and introduces severe Federal penalties for those who intentionally register noncitizens.

This bill echoes the sentiments of the American people from coast to coast. It transcends political affiliations, with an overwhelming bipartisan supermajority of Americans supporting it, and it speaks directly to the core of what makes our country great: fair, free, and secure elections operating within our constitutional Republic.

This is about protecting our elections from foreign interference—something my Democratic colleagues claim to care about and long have. If we truly want our elections to be free of foreign interference, then by all means pass the SAVE ACT. Let's pass it today. Let's pass it right now.

So for those of my colleagues who are opposed to this, why aren't they concerned about the ability of tens of millions of foreign nationals—noncitizens—in the United States to vote in America? Why should we allow tens of millions of foreign nationals who are not citizens of the United States to vote in U.S. elections?

Now, if the Biden administration insists on keeping America's border open as, to my great dismay, it has for the entirety of the 3½ years or so that Biden has been in office—if they are going to insist on keeping the borders open, by all means, they must at least, at a bare minimum, ensure that none of those noncitizens are interfering in our elections. Every single day that we delay, the foundation of our electoral process erodes a little more.

We cannot wait for this administration to enforce the law, to enforce the border, which they haven't done. They continue to refuse to do it. More people continue to enter, but in the meantime, they have let in 10 million illegal aliens. Add to that those who were already here, and an estimated 30 million noncitizens currently reside in the United States.

But this administration just keeps right on trucking, not doing anything about this problem. In fact, this administration strongly opposes this legislation. Now, let's run through the reasoning. The reasoning is really telling. There are several arguments raised by the White House in the statement they issued just earlier this week.

First, the White House protests:

> It is already illegal for noncitizens to vote in Federal elections—it is a Federal crime punishable by prison and fines.

Now, to be clear, that is, on its face, a correct statement of the law. I won't disagree with the statement on its four corners, but the conclusion is really messed up. As I have already stated, there is absolutely no functioning mechanism for enforcing the law.

And it is worse than that. It is not just that current law doesn't create an adequate enforcement mechanism; it is that current law, as interpreted by the Supreme Court, affirmatively prohibits the States from doing what they would need to do in order to prevent noncitizens from registering to vote and subsequently voting in Federal elections, contrary to Federal law. Meanwhile, DOJ investigations of illegal voting are all but nonexistent.

A law without enforcement cannot and will not stop illegal behavior; and there are many, many circumstances in which, notwithstanding the fact that the underlying conduct is criminally prohibited, you still need some sort of verification mechanism to make it enforceable.

By the White House's own logic, it would be unnecessary and, perhaps, even unwise to have laws requiring a photo ID to buy beer and cigarettes. You know, we have got these laws on the books, after all, that already make it a crime to sell beer and cigarettes to children. So according to the White House's logic, we shouldn't need an additional law requiring age verification with a photo ID. Now, nobody would be that crazy or that insane to make that argument there. We shouldn't be making it here. It is the same argument, the exact same argument.

Next, in second position, the administration makes the unsubstantiated claim that ''the justification for the SAVE Act is based on easily disproven falsehoods.'' But then, well, the administration utterly fails and defiantly refuses to offer anything to support that statement.

It is ironic because that justification for opposing it on grounds that the justification for the SAVE Act is based on disproven falsehoods is its own disproven falsehood. There is nothing there. There is no falsehood that has been disproven. They have not disproven the fact that noncitizens, whether legally or illegally in this country at the time, can easily obtain voter registration eligibility to vote in Federal elections—or the physical ability to do it, rather, so long as they are willing to check a box and sign their name.

They don't dispute the fact that, in all 50 States and DC, a noncitizen can apply for and receive a driver's license or that the National Voter Registration Act makes it easy, when applying for a driver's license, to check a box and sign your name and thereby register to vote in Federal elections. When you add to that the fact that States are affirmatively, legally prohibited, based on the Supreme Court's interpretation of the NVRA a few years ago which said that the States cannot, may not, must not ask for any kind of documentation to verify citizenship, we have a problem.

So for them to say that our justification for the SAVE Act is based on falsehoods, on easily disproven falsehoods, is itself easily disproven, and it is a falsehood.

Third, the administration asserts that ''making a false claim of citizenship or unlawfully voting in an election is punishable by removal from the United States and a permanent bar to admission.''

Well, this is an interesting argument. This one is rich coming from this administration.

Look, it is true that the naturalization form, as a self-reporting mechanism, asks the applicant if the applicant has ever voted illegally. Yes, that is true. As far as I can tell, even when they do self-report in those, I suspect, rare instances when they do, absolutely nothing has been done with that information under the Biden administration. Joe Biden isn't deporting anyone for illegally voting. Joe Biden has opened the floodgates and just lets people come in. So that is rich coming from this administration suggesting that there is going to be, suddenly, rigorous enforcement of laws governing our border security in this instance when, No. 1, they are not doing it, and No. 2, everywhere you look, they are doing the opposite of that.

Fourth, the administration asserts, ''[s]tates already have effective safeguards in place to verify voters' eligibility and maintain the accuracy of voter rolls.''

That assertion is simply flatout wrong. It is just false. It is false factually, and it is false legally, meaning it is not true, and it cannot be true by operation of law for the reasons I have just explained. States are legally prohibited from requiring proof of citizenship when registering voters for Federal elections. This, I fear, may well be a feature, not a bug, for the administration and a reason for the administration to oppose it, tragically. We will get back to that more in a moment.

But, look, this loophole that I am describing based on the Supreme Court's interpretation of the NVRA—telling the States they may not and must not ask for any kind of evidence of citizenship—is a gaping loophole that we must fix.

Lastly, the administration claims that, instead of safeguarding our elections, this bill, with its incredibly generous list of ways to demonstrate citizenship, would make it harder for Americans to vote.

Well, look, the reality is that there is an expansive list of ways to demonstrate citizenship even if you lack the documentation traditionally involved in proving it.

Keep in mind it is not unusual for Americans to be asked for proof of citizenship. Every single time an American citizen starts new employment, starts a new job, they fill out an I–9.

They have got to provide proof of citizenship. If you are not a citizen, you have to show evidence of your visa and your eligibility to work in the United States under that visa. If you can't do that, you can't start a job. This happens all the time.

It is not as if the ability to prove citizenship and a requirement that one do so is foreign to us nor is it the case under this bill that would be exceptionally difficult, because even if you are one of those rare individuals who, for whatever reason, doesn't have or have access to a birth certificate or something else that can prove it, we have got a long list of other ways you can do it even if you lack the traditionally utilized documentation.

This bill allows all American citizens to vote. More importantly, if enacted, it would mean that no American vote could be canceled out by a vote cast illegally by a noncitizen. This bill would make it harder to cheat in elections and ensure the integrity of every ballot lawfully cast.

There is no valid argument against the SAVE Act—none. The only reason to oppose this bill would exist if you needed illegal votes to win elections—full stop. That is it.

By passing the SAVE Act, we would send a clear message that in the United States of America, voting is not just a privilege of citizenship but a cherished and protected right. As debates about election integrity rage, the SAVE Act stands out by guaranteeing that only American citizens can have a say in our elections. American elections must be decided by American voters—full stop.

So, as in legislative session, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 8281, which is at the desk; further, that the bill be considered read a third time and passed and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER (Mr. BOOKER). Is there an objection?

The Senator from California.

Mr. PADILLA. Mr. President, in reserving the right to object, I ask you this: How many times do we have to go through this?

Less than 2 months ago, I came down to the floor of the Senate to object to this very same bill—expressing concerns, answering questions—and here we are again, and nothing has changed. So it doesn't matter how many times this bill comes to the floor. It doesn't matter how many times our Republican colleagues feign outrage over noncitizens unlawfully voting—without a shred of evidence—it doesn't change the fact that, as good as the proponents may make this bill sound or try to make this bill sound, it is nothing other than a solution in search of a problem.

Now, I speak both as a Senator representing California but also as a former chief elections officer of California, where I—as the secretaries of State across the country, by the way—worked alongside tireless election clerks and administrators across the political spectrum at the State and local levels. Given that experience, I can tell you this: There is no credible evidence of a meaningful number of noncitizens voting in our elections. In 2016, audits showed that noncitizens accounted for 0.0001 percent of the vote.

Even the conservative Cato Institute has said:

> Noncitizens don't illegally vote in detectable numbers.

Now, I am glad Senator LEE mentions the National Voter Registration Act because, as he pointed out, it was upheld by the Supreme Court of the United States in terms of its guidance of what States can and should do and what they cannot do. He also didn't mention that the National Voter Registration Act was adopted on an overwhelming bipartisan vote of Congress.

But, rather than propose legislation based on facts, this bill would respond to the alarming allegations that Republicans themselves have fabricated. It would create more barriers to exercising the right to vote and would restrict ballot access for even more Americans than is currently the case. It would make voting harder for the more than 21 million eligible voters in America who can't easily access their proof of citizenship.

I don't know about you. I am not in the habit of carrying around my birth certificate or even my passport. Not everybody has a passport. It doesn't mean you are not a citizen if you don't carry a passport. And I am not just talking about Democrats or Republicans; I am talking about Americans of both political parties. The bill would clearly, also, disproportionately impact voters in communities of color.

In addition, this bill seeks to undermine faith in our elections by injecting fear and uncertainty, particularly in an election cycle, at a time when our democracy demands more calm and understanding of the integrity of the process.

But Senator LEE and I agree on one thing, believe it or not. That is that voting is a sacred responsibility and that the right to vote, in and of itself, is fundamentally sacred.

So to my colleagues on both sides of the aisle, if you are truly worried about the election and our democracy, then I will ask you this: Join me. Join me in passing the Freedom to Vote Act and making sure that all eligible Americans—yes, only U.S. citizens—can make their voices heard at the ballot box without any unnecessary barriers or obstacles.

It is the most American and the most bipartisan thing that we could do. But until then, let's be honest with the American people.

So, yes, Mr. President, I object.

The PRESIDING OFFICER. The objection is heard.

The Senator from Utah.

Mr. LEE. Mr. President, I appreciate how the Presiding Officer always speaks loud enough so that everyone can hear. The Presiding Officer also manages the floor with great assertiveness, which I also appreciate.

I am grateful to my friend and colleague, the distinguished Senator from California, and his thoughtful approach to legislation.

There are some things that he said that I feel that I need to address. One of them is a reference to a belief that there is no credible evidence of noncitizens voting, at least no credible evidence of noncitizens voting in any significant numbers.

Well, there are studies that go in exactly the opposite direction, studies like the one that I cited just moments ago showing that it is a nontrivial sum, such that if even something at the low end of the percentages cited in that study were correct, that could easily be enough to sway the outcome of some elections.

But, regardless, what my friend is referring to has to be taken with a grain of salt, considering how things have changed on the ground. The enumerator and the denominator of that fraction have changed over the last few years, where we have now got about 30 million noncitizens living in the United States, with about 10 million who have come in who are illegally in the United States now, who entered this country unlawfully and are now living in the United States. That is not a nontrivial sum when that many people entered the United States that quickly. And when you have now got all 50 States and DC that issue driver's licenses to noncitizens; that, coupled with the National Voter Registration Act—and the way the National Voter Registration Act was interpreted a few years ago by the Supreme Court of the United States saying that the State officials who processed those Federal forms submitted under the NVRA so that people can register to vote in Federal elections while applying for their driver's license, that creates a toxic soup in which there is an environment just rife with opportunities for foreign interference in U.S. elections.

You cannot add this many noncitizens, legal or illegal noncitizens, to the United States in this short of a period of time and couple it with that kind of voter registration framework and not anticipate that there will be significant numbers of people who will end up registering to vote—some perhaps somewhat innocently, perhaps others less innocently. I don't know. But it would be supremely naive and, worse than that, willfully—willfully—blind to what we all know is going to happen unless we pass this.

Now, the House of Representatives passed this bill yesterday, which gets to another point made by my colleague saying that we have been down here over and over and over again doing this bill. I am not sure what he is referring to. The bill hasn't even been around that long, but something material changed yesterday.

Yesterday, the House version of the SAVE Act, which is the version that I am coming to the floor today to propose, the one that I just tried to pass by unanimous consent moments ago before it was met with the objection of the Senator from California, that bill was passed yesterday, less than 24 hours ago, by the House of Representatives, with bipartisan support, I would add—not just Republicans over there, some Democrats who are concerned, with very good reason, joined with Republicans in order to get this thing passed.

So to say that this is an area in which there is no credible evidence of any need to act is science fiction fantasy. It is contrary to fact. It is contrary to logic. It is contrary to our human understanding of nature, contrary to our understanding of the National Voter Registration Act and how it has been interpreted by the Supreme Court of the United States and how elections work.

As to my colleague's suggestion that this is feigned outrage—feigned outrage—that is animating this, nothing could be further from the truth. Look, I wish this could be feigned. I wish I had the luxury of this being something that was feigned. This is serious business.

We lose something as Americans, certainly, anytime we allow our elections to be vulnerable to interference from forces outside the United States, including foreign nationals, non-U.S. citizens inside this country.

When that happens, when the public starts to perceive that others are voting in this, diluting their votes, that has deleterious effects on the effective operation of our republican form of government that are very difficult to recapture once they are lost. We can't treat this casually.

Look, I will be back. It is unfortunate that we weren't able to pass this today.

Let me restate the point I made earlier: There is not a legitimate reason to oppose this bill. We make it incredibly easy under this bill for any American. If you are an American citizen, you can easily prove your citizenship and you can do it in the way this bill requires and you can still vote. It is not hard. It is not expensive. It need not require anyone to spend a dime, a nickel, or even a penny. It just requires you to be an American.

There is not a legitimate reason to oppose this bill. There is not a logical reason to oppose this bill, unless, of course, your objective is different, unless, of course, you are just fine with and in fact excited about or reliant upon noncitizens voting. That is alarming.

The PRESIDING OFFICER. The Senator from Rhode Island.

U.S. SUPREME COURT

Mr. WHITEHOUSE. Mr. President, I am back now for the 33rd time to keep shining a little light on the rightwing billionaires' covert scheme to capture and control our Supreme Court.

As a result of that scheme, the Court's rightwing just took a wrecking ball to the government's ability to protect Americans from big polluters and corporate cheaters.

This year's billionaire bonanza came through four decisions that gutted administrative Agencies' ability to do their job—perfect payback to the polluter billionaires who helped foot the bill to get these Justices onto the Court in the first place.

The first decision is Ohio v. EPA, where the Supreme Court undermined the Environmental Protection Administration's ability to enforce the ''good neighbor'' provision of the Clean Air Act, the provision that defends the air quality of ''downwind'' States like mine, Rhode Island, from powerplants and industrial facilities in ''upwind'' States, where sometimes they build the smokestacks extra high so that the pollution doesn't hit the polluting State, but it floats over and comes down and hits us in Rhode Island.

Without even full briefing on the merits, industry litigants succeeded in getting the Court to stall proposed clean air regulations and place a thumb on the scales in favor of polluters. At the hands of the Federalist Society Justices, the right of polluters to pollute beat the right of Rhode Islanders to breathe clean air.

Then came SEC v. Jarkesy, where the rightwing Justices undercut the ability of Federal Agencies to hold fraudsters accountable through administrative enforcement proceedings.

The Court held that civil penalties for securities fraud required a jury trial under the Seventh Amendment, undermining administrative adjudication in all sorts of civil enforcement proceedings across the Federal Government—protecting consumers from predatory financial institutions, workers from unsafe conditions, and the environment against polluters.

I am angry that the Court picked this case to express concern about the right to a civil jury while it has been busily eroding that same civil jury right when doing so favored big corporations over regular people.

If you are a fraudster on the losing end of a regulatory violation, they are all about the Seventh Amendment. If you are a consumer or employee injured by a big business, off you go to private, secret, mandatory arbitration.

At the hands of the Federalist Society Justices, the right of fraudsters to commit fraud defeated the right of people to be protected from fraud.

In Loper Bright Enterprises v. Raimondo, the Court overruled 40 years of precedent granting what is called Chevron deference to Federal Agencies when they are implementing laws that protect health, safety, and the environment.

Chevron recognized that courts should defer to an executive Agency's reasonable interpretation of a statute it is charged with administering. Just reading that sentence tells you how eminently reasonable the rule was. Plus, Congress can't be expected to make fine-grained determinations in technical areas that are best left to experts with decades of training and experience.

In Loper, the rightwing Justices removed that deference to expertise. The result? Look at this Washington Post headline: ''Corporate lobbyists eye new lawsuits after supreme court limits federal power''—more ways for polluters to stall regulations with delays that could save polluters billions.

Just to read this text:

> Mere hours after the Supreme Court sharply curbed the power of federal agencies, conservative and corporate lobbyists began plotting how to harness the favorable ruling in a redoubled quest to whittle down climate, finance, health, labor and technology regulations in Washington.

These cases are a power grab by a captured Court, transferring regulatory authority from an elected Congress and an elected executive to an unaccountable judiciary ill-suited to make such technical determinations.

Almost laughably, as they did this, Justice Gorsuch had to amend his opinion in that Ohio v. EPA case because he confused ''nitrous oxide''—laughing gas—with ''nitrogen oxides'' that were the subject of that case. So much for judges knowing technical stuff better than the experts.

The right of Federalist Society judges to make up fake science for billionaires triumphed over the right of regular people to have real experts defend them.

Finally, in Corner Post v. Federal Reserve, the Court held that the 6-year statute of limitations to challenge a Federal Agency's action begins when a person or entity challenging a rule is allegedly injured—maybe decades after the rule became law.

Every regulation can now be litigated for eternity. Agencies will be perpetually vulnerable to litigation on every rulemaking stalled by deep-pocketed litigants armed with exotic legal theories and the backing of this captured Court.

As Justice Jackson wrote in her dissent in Corner Post:

> The tsunami of lawsuits against agencies . . . has the potential to devastate the functioning of the Federal Government. Even more to the present point, that result simply cannot be what Congress intended when it enacted legislation that stood up and funded federal agencies and vested them with authority to set the ground rules for the individuals and entities that participate in our economy and our society.

At the hands of the Federalist Society Justices, the power of special interests to tangle up regulatory Agencies has defeated the right of taxpayers to protection from those special interests.

Here is how I explained that protection in my amicus brief in the Loper case:

> Over the last century, our society has advanced remarkably. As industries and corporations grew, their motive to maximize profits caused social harms and threatened

consumer safety. Regulation responded. Heavy equipment and dangerous chemicals came to mines, factories, and construction sites; regulators implemented workplace safety standards. Meatpacking and mass production . . . ballooned; regulators implemented sanitation requirements in production facilities. Americans widely adopted automobiles; regulators required seat belts and air bags.

The modern economy necessitated a modernization of the U.S. regulatory framework. Congress responded to the complexities of the modern world by ensuring that administrative agencies have the capacity, flexibility, and expertise to respond to new developments. Part of that project was delegating clear and broad authority to executive agencies and allowing those agencies to adopt and adapt regulations to respond to new hazards.

As a result, daily life in the United States is safer. Workplace illnesses, injuries, and deaths declined. Children on average have lower levels of lead in their blood. Foodborne illnesses that used to kill thousands of people per year have been practically wiped out. Highways are no longer ''carnage,'' and air travel is even safer than highway travel.

So why tear down what has worked so well for generations? Well, the billionaire-funded think tanks say it is to strip power from so-called ''unaccountable bureaucrats.'' They love to talk about unaccountable bureaucrats—except that Federal Agencies are not unaccountable. Indeed, they are way more accountable than judges.

Again from my Loper brief:

Agency experts report to politically appointed executive agency heads nominated by the President and confirmed by the Senate.

Accountable.

These agency heads serve at the pleasure of the president, who is accountable to the people. If the public is unhappy with how agencies are implementing Congress's policies, voters can make that known at the ballot box.

Congress oversees agency actions through legislative committees dedicated to agency oversight, and regularly conducts oversight hearings where heads of agencies are called to account. Congress retains the power to enact legislation to limit or reverse agency rulemakings if it disagrees with the agency's actions, in some cases on an expedited calendar. Furthermore, Congress holds the power of the purse; every appropriations bill presents an opportunity to expand, correct, or contract agency authorities. If the public is unhappy with how Congress is holding agencies accountable, voters can make that known at the ballot box.

Finally, agencies are accountable to the judiciary, which has the authority to review an agency's statutory interpretations and actions to ensure the agency's decisions are reasonable and follow appropriate processes and procedures.

The myth of unaccountable administrative Agencies is a fake. The real objection is that career Agency employees are experts and can go toe-to-toe with industry trickery. And worse, for polluters, they can't put the fix in politically with a big campaign contribution or a couple of million dollars to a super PAC because Agencies are forbidden to take political considerations into account, and they are forbidden to self-deal.

All of this wreckage of the longstanding protections of our administrative process was done by polluters who fund the Republican Party and paid to stack the Court that dark money built, and this is the polluters' payday.

A whole smelly ecosystem of secretly fronted front groups is involved. Anti-regulation doctrines get cooked up in rightwing hothouses funded by polluters. The doctrines get amplified by rightwing front groups funded by polluters. They then get fed to the Court via little flotillas of rightwing amici funded by polluters. Secret, dark money funding from billionaire special interests underpins the entire operation. Much of this is the Koch Industries' political influence operation—a powerful, rightwing, dark money political polluter network.

Look at that Loper case. The lawyers who represented the petitioners in that case worked for free—supposedly—for a public interest law firm supposedly called Cause of Action. Interesting law firm: It discloses no donors, and it does not report any employees. In fact, the New York Times discovered the group's lawyers who supposedly work for Cause of Action actually work for Americans for Prosperity, the main battleship of the Koch political front group armada—an operation that is so cozy with the far-right Justices it helped put on the Supreme Court that Justice Thomas has repeatedly flown out to join fundraisers for Koch political operations, including Americans for Prosperity.

Here is the flotilla of front groups that appeared in Loper as amici curiae: the Buckeye Institute, the Cato Institute, the Competitive Enterprise Institute, the Landmark Legal Foundation, the Mountain States Legal Foundation, the National Right to Work Legal Defense Foundation, the New Civil Liberties Alliance, the Pacific Legal Foundation, and, of course, our dear friends the U.S. Chamber of Commerce—a proper murderers' row of polluter mischief. And who are they funded by? Oh, let's look. DonorsTrust, the Donors Capital Fund, Koch family foundations, the Bradley Foundation, and ExxonMobil itself.

DonorsTrust and Donors Capital Fund are so-called donor-advised funds. They don't actually do anything. They don't actually produce anything, build anything. What they do is provide rightwing identity-laundering services. DonorsTrust has been described as the ''dark-money ATM of the right'' and, with Donors Capital, has laundered over a third of a trillion dollars into climate denial operations.

If you are ExxonMobil or a billionaire polluter and you want to support climate denial but you don't want your name on the phony front group that is doing the climate denial work, you send your check to DonorsTrust, and they take it and they send the money where you tell them—to the other group—only it is disclosed by them as coming from DonorsTrust. It is an identity-laundering operation for dark money political influence.

Some amici also were funded by front groups affiliated with Leonard Leo, whom we know as the billionaires' operative in the Court capture operation. The Loper amicus Advancing American Freedom received $1.5 million from Leonard Leo's Concord Fund between 2020 and 2021—$1.5 million. Leo's Concord Fund, which is this operation on this graphic, operates also under the fictitious name of the ''Judicial Crisis Network.''

When I say ''fictitious name,'' I mean that under Virginia corporate law, Concord Fund has filed ''Judicial Crisis Network'' as a fictitious name—term of art in the law—under which it is allowed to operate without disclosing that it is actually the Concord Fund.

Through the Judicial Crisis Network, Leo and his confederates spent millions of dollars on the Court capture operation: TV ads, barrages of TV ads, huge checks in for $15 million and $17 million from undisclosed donors to pump the rightwing Justices that they had chosen through confirmation.

So this same group that helped push the Justices from the Federalist Society lists onto the Supreme Court then files a brief through Advancing American Freedom—$1.5 million from Concord into Advancing American Freedom.

This whole thing is a billionaire-backed shell game in which the Court willingly participates.

The connection between Court capture and regulation destruction—that is not even in dispute. The Court capture operation and the anti-regulatory operation were admitted by Trump's White House Counsel, Don McGahn, to be—and I am quoting him here—''two sides of the same coin.'' You stack the Court to tear down the regulations so your polluters are happy and they fund your effort to stack the Court and support Republican power. And about this slate of recent decisions I have just discussed, he proudly told the New York Times—and I am quoting him again—''None of this was an accident.'' ''None of this was an accident.'' Indeed. It was bought and paid for.

There is considerable literature about a phenomenon called regulatory capture, sometimes called Agency capture. It is the capture of regulatory Agencies by industry to corrupt government decisionmaking. You can imagine railroad barons taking over a railroad commission whose job it is to set the rates for their railroads.

Well, the Supreme Court has been captured in the same way. This was no small or incidental undertaking. True North Research estimates that at least $580 million has been spent on the Court capture operation. These groups were a significant part of it, and these groups enjoy the benefit of it.

Now, $580 million is a lot of money, but just these four decisions are payback for the polluters that makes that $580 million a cheap investment. And

the public will pay the price, but that is a price that this captured Court is happy to have the public pay.

I am going to conclude with Justice Kagan's dissent in the Loper case. She pointed out—because she saw this game play out right in front of her. She is over there on the Court watching this game play out. She pointed out that the polluters' Justices stopped applying the Chevron doctrine back in 2016 as part of a plan because, she said, they were—and I am quoting her here—''preparing to overrule Chevron since around that time''—an 8-year-long plot to take out a precedent that bothers polluters. Forget calling balls and strikes; these Justices were on a multiyear billionaire polluters' mission.

It is not just Chevron; this is a pattern.

As Justice Kagan went on to say:

That kind of self-help on the way to reversing precedent has become almost routine at this Court. And here is how she describes it: ''Stop applying a decision where one should; throw some gratuitous criticisms into a couple of opinions; issue a few separate writings questioning the decision's premises; give the whole process a few years . . . and voila!—you have a justification for overruling the decision,'' something she called an ''overruling-through-enfeeblement technique [that] mock[s] stare decisis.''

As she described it, this captured Court, at the big donors' direction, stalks for years and then kills off precedent that the billionaires don't like, precedent that interferes with their polluting or interferes with their cheating.

That stalking and killing plan may be a lot of things, Mr. President, but I will tell you what it is not: What it is not is judging.

To be continued.

I yield the floor.

Mr. WHITEHOUSE. That would be Senator REED, Mr. President. Am I recognized?

The PRESIDING OFFICER. Would the Senator forgive me for my mistake?

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

REMEMBERING JOSE A. OLIVIERI

Ms. BALDWIN. Mr. President, today I rise to honor the life and legacy of Jose A. Olivieri, an accomplished attorney, determined civic leader, and a pillar in the Hispanic community in Milwaukee, whose work left an indelible mark on the State of Wisconsin.

Born in Santurce, PR, he moved to Waukesha, WI, to attend Carroll College, where he graduated in 1978 with a bachelor's degree in political science. In 1981 he received his juris doctorate from Marquette University Law School and, the same year, joined Michael Best as an associate.

Jose's career at Michael Best spanned 43 years of service in both the legal and academic profession. He was the firm's longest serving chair, leading the firm's higher education industry group and founding Michael Best's immigration law practice. His leadership roles also extended to the Milwaukee office managing partner and labor and employment relations chair and government and public policy group cochair roles. His work largely centered around counseling universities on a variety of issues and employment law issues and later taught law seminar at Marquette University and spoke on employment and immigration issues.

Jose was also a founding member and past president of the Wisconsin Hispanic Lawyers Association. He served on several additional boards over the years, including the University of Wisconsin System Board of Regents, the Mount Mary University Board of Trustees, past chair of Carroll University's Board of Trustees, and National Association of College and University Attorneys—NACUA.

Beyond his work at Michael Best, Jose was deeply committed to strengthening his Milwaukee community. Jose was described as hard working, humble, and as the premier leader of the Wisconsin Hispanic Community by local leaders. He was passionate about education access and elderly care and spent his time advocating on behalf of those issues. For 40 years, he worked with the United Community Center in the Walkers Point neighborhood of Milwaukee, including serving as the chair of the board of directors to strengthen Milwaukee's near South Side neighborhoods. He also held positions on the Greater Milwaukee Foundation, Milwaukee Public Library Foundation, Milwaukee Art Museum, United Way of Greater Milwaukee, Lutheran Social Services, and Froedtert Health System boards.

Throughout his career, Jose received awards and recognitions that highlighted the work and dedication he demonstrated to his community. He was a recipient of the Notable Alumni Award by BizTimes Media, Future Milwaukee Community Service Award, Metropolitan Milwaukee Civic Alliance Special Service Award, the Todd Wehr Award from the Greater Milwaukee chapter of the national Society of fundraising executives, the Greater Milwaukee Foundation's President's Leadership in Racial Equity and Social Justice Award, the Posner Pro Bono Award, and named a Top Latino Lawyer by Latino Leaders magazine. He was consistently included on the prestigious Best Lawyers list, including Lawyer of the Year twice.

Jose's legacy is one of professional excellence and dedicated public service. Our Milwaukee community is better because of Jose, and he will be missed.

TRIBUTE TO ELLEN NISSENBAUM

● Mr. BOOKER. Mr. President, I wish to recognize Ellen Nissenbaum, senior adviser and senior member of the government affairs team at the Center on Budget and Policy Priorities, for her extraordinary leadership towards meeting the needs of people with low incomes.

On July 24, the Coalition on Human Needs will honor Ms. Nissenbaum with its 2024 Human Needs Hero award. For over 40 years, Ellen Nissenbaum has been a tireless and effective advocate, protecting and advancing Federal programs to improve health and reduce hunger and poverty.

In 1984, Ms. Nissenbaum testified on behalf of the formerly named Coalition on Block Grants and Human Needs before the Senate Committee on Agriculture, chaired then by Senator Jesse Helms, to oppose a bill allowing States to opt into a block grant to replace the Federal Food Stamp program. Then and now, she stood firmly for the responsibility of the Federal Government to ensure that the basic needs of Americans are met, wherever they live, protected from discrimination based on race, ethnicity, disability, or poverty.

Ms. Nissenbaum was part of the initial staff of seven at the Center on Budget and Policy Priorities at its formation in 1984 and has been an essential leader in the decades since. She is a master of the complexities of the Federal budget process, providing respected and reliable information to Members of Congress and human needs advocates alike about the impact of Federal proposals on the health and well-being of people with low incomes.

Over the decades, Ms. Nissenbaum has educated Congress and human needs advocates about the need for strong Medicaid, SNAP, and low-income tax credit programs and has played a truly significant role in expanding benefits for those most in need. Millions of Americans, young and old alike, have been helped because of Ellen Nissenbaum's work. I am proud of the opportunities I have had to work with her to secure major advances in the child tax credit and to protect against efforts to reduce benefits in Medicaid, SNAP, and other programs.

Ms. Nissenbaum is a stellar educator of policymakers and advocates, speaking regularly to faith and civil rights groups and those advocating to improve health and reduce poverty, hunger, and inequality in this Nation. She has been a very effective member of the board of the Coalition on Human Needs for decades and is a regular speaker at its weekly meetings of advocates.

Members of Congress, the executive branch, and advocates alike all know that Ellen Nissenbaum's command of facts and analysis of policy options is utterly reliable. She is respected by all because of her rigorous, fact-based approach.

All of Ellen Nissenbaum's work is grounded in her devotion to reducing inequality. She recognizes that the growing concentration of wealth and income, unfairly undertaxed, prevents our Nation from making the investments needed to ensure that no one is denied health coverage or is too poor to afford nutritious food.

Over the years, Ms. Nissenbaum has addressed organizations representing diverse faiths, helping them to advocate effectively to demand a strong Federal role in reducing poverty. She has been a mainstay of the Coalition on Human Needs' strong efforts to lift up the needs of the poor, people of color, immigrants, children, the aging, and people with disabilities in Federal budget and tax decision-making. It is my honor and privilege to recognize Ellen Nissenbaum today for her unflagging commitment and effectiveness and to celebrate her receiving the Coalition on Human Needs' 2024 Human Needs Hero award.●

TRIBUTE TO DR. LAURENCE B. ALEXANDER

● Mr. BOOZMAN. Mr. President, I rise today to recognize Dr. Laurence B. Alexander for his exceptional and transformative leadership as his tenure as the ninth chancellor of the University of Arkansas at Pine Bluff comes to a close.

Dr. Alexander set ambitious goals for UAPB when he arrived on campus, and as a result of his steadfast and unwavering pursuit of excellence, the school has met or exceeded many of those aspirations. Over the past 11 years with Dr. Alexander at the helm, UAPB experienced its largest increase in graduation rates in over a decade. From 2016 to today, UAPB's 6-year graduation rate has increased from 23 percent to 40 percent, an increase of almost 75 percent. UAPB also experienced its highest retention rates in the school's history at 77 percent. Under his leadership, UAPB achieved recognition as a Top-25 public Historically Black Colleges and Universities in the U.S. News and World Report and rose to the 15th ranked institution in the Washington Monthly ranking of Bachelor's Colleges. Dr. Alexander's hand in that success has been very clear to the surrounding community. He was recognized in 2017 by the Arkansas Business Journal Influencer in Education, featured as one of the Arkansas Business 200 Most Influential Leaders by Arkansas Business Publishing Group in 2018, and recognized nationally as one of the HBCU Campaign Fund's 10 Most Dominant HBCU Leaders in 2019.

His strategic vision has brought millions in additional grant funding and research dollars to the university and attracted world-class scientists and researchers, paving the way for UAPB to be recognized as a national leader in nanotechnology, biomedicine, agriculture, aquaculture, biotechnology, nutrition, water, and farm management.

As an 1890 Land-Grant Institution, UAPB has continued to fulfill its mission to promote education in agriculture, Arkansas' largest industry. With the average age of today's farmer being over 57 years old, it is schools like UAPB, with leaders like Dr. Alexander, that are helping develop the next generation of agriculturalists who will make critical advancements to meet the needs of today's producers.

Along with advancing UAPB's high-quality teaching and nursing programs and promoting the stellar Reserve Officers Training Corps program, Dr. Alexander has been instrumental in establishing new agricultural engineering, hospitality management, and master of business administration programs. UAPB is empowering students with real skills they can use to serve their communities and address some of Arkansas' greatest needs.

Dr. Alexander's impact reaches well beyond the city of Pine Bluff, Jefferson County, and even Arkansas State lines. He became the first leader of an 1890 Land-Grant Institution to be appointed to serve as chair of the Board for International Food and Agricultural Development, which advises the U.S. Agency for International Development on how to leverage the expertise and assets of American universities to support food security and development efforts abroad.

I congratulate Dr. Alexander on his exceptional and impactful tenure at the University of Arkansas at Pine Bluff and thank him for all he has done.

While Dr. Alexander's time in the Natural State has come to close, he has certainly left it better than he found it. Thanks to his efforts, UAPB has plenty to look forward to on the horizon. For that, all Arkansans are grateful.

I wish him the very best as he moves on to his next endeavor and hope he knows he will always have a home in Arkansas.●

TRIBUTE TO LYNN HELMS

● Mr. CRAMER. Mr. President, I rise to honor the 26 years of distinguished service of a remarkable North Dakota public servant who retired June 30.

Lynn Helms, longtime director of the North Dakota Department of Mineral Resources, has been an invaluable and supportive resource to me in the U.S. Senate, as he was when I served in the House of Representatives and the North Dakota Public Service Commission. Through all these years, he made himself available whenever I asked, testifying at hearings, meeting with other lawmakers and regulators, and always providing wise and valued counsel to me and my staff.

He is a treasure, not just to North Dakota, but to the entire energy industry. He is a spectacular regulator who understands the role of regulation, the role of rich mineral resources in North Dakota, and the contribution of these resources to American security and America's economy.

In the Senate, I worked with him on several efforts and initiatives. A notable collaboration included the REGROW Act, a bipartisan bill to remediate the Nation's orphaned wells, which was built off the State program Lynn implemented. His leadership helped secure its inclusion in the Infrastructure Investment and Jobs Act, which was signed into law on November 2021.

A graduate of the South Dakota School of Mines and Technology, Lynn spent his early years as a petroleum engineer with Texaco and the Hess Corporation. Since 1998, as the director of the North Dakota Oil and Gas Division and now the Department of Mineral Resources, he has had a front row seat to oil and gas development in our State. Through the ups and downs and challenges and triumphs, he helped steer North Dakota's petroleum industry through decades of responsible growth.

He is the consummate professional, explaining to all of us the intricate challenges of regulating the drilling and production of North Dakota's oil and gas resources. His genial demeanor and steady voice during his 26 years with the State helped us all navigate through this epic time in our State's history.

Today, North Dakota's economy is thriving due to the sensible energy development policies and reasonable regulations the State has championed. As a leading oil producing State, North Dakota's petroleum industry enhances the quality of life for our residents now and well into the future.

During Lynn's tenure, the State's average daily oil production increased from 99,217 barrels per day in 1998 to an alltime high of 1,519,037 in 2019 before stabilizing. Under his supervision, natural gas capture also reached an alltime high of more than 3.5 billion cubic feet per day.

It will take decades for the impact of Lynn Helms' contributions to our State to be adequately measured. On a personal note, I will miss working with him as a valued colleague. On behalf of all North Dakotans, I thank him for his years of service to the State of North Dakota. I congratulate him on his well-earned retirement and wish him many years of health and happiness in the future.●

RECOGNIZING BARN WIRED

● Ms. ERNST. Mr. President, as ranking member of the Senate Committee on Small Business and Entrepreneurship, each week I recognize an outstanding Iowa small business that exemplifies the American entrepreneurial spirit. This week, it is my privilege to recognize Barn Wired of Sigourney, IA, as the Senate Small Business of the Week.

The owner of Barn Wired, Amanda Snakenberg embodies the essence of American entrepreneurship. Amanda sold personally designed barn boards and barbed-wired signs at craft fairs and farmers markets across Iowa as a side hustle that eventually led to the opening of Barn Wired in 2015. After 2 years of renting, Amanda's passion and dedication led her family to purchase a brick-and-mortar storefront on the historic downtown square in Sigourney that is located next to the town mural, offering a warm and welcoming atmosphere for all her customers. Barn Wired evolved from a specialty home decor business to a multifunctional community hub where not only can you buy one-of-a-kind crafts and home decorations, it also houses the only full-service coffee shop in the town. Barn Wired is no stranger to hosting community gatherings, wedding rehearsal dinners, class reunions, and special holidays.

Today, Barn Wired employs 12 people throughout the community and will soon celebrate its 10th anniversary. Barn Wired offers a great selection of home-cooked meals, smoked meats,

fresh salads, and more with Amanda and her team always ready to host live performers, providing entertainment and supporting local entrepreneurs.

Barn Wired prioritizes community involvement. Amanda introduced initiatives such as Ladies' Night Around the Square and a community farmers market to showcase Sigourney's amazing businesses. She also collaborated with welding students, an autobody shop, and a local family to design planters for the town. Amanda herself sits on the July 4th planning committee, is a former board member for the Keokuk County Expo Fair, and was selected to be a representative on the Empower Rural Iowa Taskforce.

Barn Wired is also a member of the Keokuk County Economic Development Coalition, which helps businesses across the county not only survive but thrive.

Amanda's journey with Barn Wired is a testament to the power of hard work, passion, and community engagement. I applaud her entrepreneurial spirit and unwavering dedication to the Keokuk County community. Congratulations to the Snakenberg family and the entire team at Barn Wired. I look forward to seeing their continued growth and success in Iowa.●

RECOGNIZING BLACK SHEEP COFFEE BAA

● Ms. ERNST. Mr. President, as ranking member of the Senate Committee on Small Business and Entrepreneurship, each week I recognize an outstanding Iowa small business that exemplifies the American entrepreneurial spirit. This week, it is my privilege to recognize Black Sheep Coffee Baa of Greene, IA, as the Senate Small Business of the Week.

After spending 30 years in the law and tax industries, Connie Debner founded Black Sheep Coffee Baa in 2015. The coffee shop offers a space for customers to gather and relax while enjoying a cup of coffee or tea and roasts coffee beans locally. They offer a wide selection of products including lattes, frappes, coffee flights, tea, and smoothies.

In 2018, Black Sheep Coffee Baa partnered with Clayton's Bakery to add food to their menu including cinnamon rolls, scones, pies, pizza, and even options for Taco Tuesday. Always prioritizing the customer experience, Black Sheep Coffee Baa also developed a mobile app for folks to conveniently place orders online. The business has grown into a community hub that provides catering services and rental spaces for folks in Butler County.

Black Sheep Coffee Baa has been featured in numerous food blogs across the State and is an active member of the Iowa food scene thanks to their great customer service, welcoming storefront, and top-notch food. Connie is also actively involved in the Iowa Restaurant Association, National Federation of Independent Business, and the Butler-Grundy Development Alliance. This year, the team at Black Sheep Coffee Baa is celebrating their ninth business anniversary.

Black Sheep Coffee Baa's commitment to providing not only high-quality coffee, teas, and food but creating a community hub in Greene, IA, is clear. I want to congratulate Connie Debner and the entire team at Black Sheep Coffee Baa, and I look forward to watching their business continue to thrive.●

RECOGNIZING L&J INDUSTRIES, INC.

● Ms. ERNST. Mr. President, as ranking member of the Senate Committee on Small Business and Entrepreneurship, each week I recognize an outstanding Iowa small business that exemplifies the American entrepreneurial spirit. This week, it is my privilege to recognize L&J Industries of Charles City, IA, as the Senate Small Business of the Week.

L&J Welding was founded in 1965 by James Garden as a welding and repair shop in Charles City. In 1986, James's son Chris started his career at L&J Welding after graduating with a degree in business from North Iowa Area Community College. In 1989, L&J Welding changed its name to L&J Industries, and James continued to grow the business with the support of his wife Lillian. They passed the torch to their son and daughter-in-law Chris and Lisa Garden in 2003.

L&J Industries renovated their space in 2018 and converted it into an employee breakroom while simultaneously expanding their manufacturing plant. Today, they are known for manufacturing ''Free-Flow Floor Supports'' for grain bins both domestically and abroad.

L&J Industries is a three-generation, family-owned-and-operated business with Chris and Lisa's children Jacie and Brady joining the team in 2022. The Garden family has been instrumental in connecting L&J Industries to the Charles City community and ensuring they remain in the same location on Cleveland Avenue.

In 2002, it had been 37 years since James Garden founded L&J Industries when he sadly passed away. Prior to founding L&J Industries, James served in the U.S. Army during World War II and was an active member of VFW Post 4335. James Garden is succeeded by his wonderful family who continue his legacy of leadership, hard work, and service to his country and community.

The Garden family is actively involved in the Charles City and Floyd County communities. For example, Chris is a member of the Charles City Rotary Club that leads the planning of the Santa's Shining Lights Show to provide the community with holiday festivities, and Lisa served on the board of The Learning Center, as well as a spokesperson for their fundraising. The city recognized their efforts, and in September 2010, L&J Industries received the Renew Rural Iowa Entrepreneur Award from the Iowa Farm Bureau.

Three generations of the Garden family exemplify the American dream. I want to congratulate the family and the entire team at L&J Industries for their continued commitment to the Charles City community. As they move forward and continue to provide quality manufacturing services for the agriculture industry, the next generation of the Gardens will be inspired to uphold the values of the family business and take it to new heights.●

RECOGNIZING MILLHOLLOW

● Mr. RISCH. Mr. President, as a member and former chairman of the Senate Committee on Small Business and Entrepreneurship, each month I recognize and celebrate the American entrepreneurial spirit by highlighting the success of a small business in my home State of Idaho. Today, I am pleased to honor Millhollow as the Idaho Small Business of the Month for July 2024.

Established in 1982, Millhollow was the first soft-frozen yogurt shop in southeast Idaho. Founded by Joe Romney after he moved from San Luis Obispo, CA, to Rexburg, ID, the shop brought a ''taste of California,'' job opportunities, and real-world experiences to the community and Joe's three children. When Joe's son, Aaron, returned from his church mission in Argentina, Aaron took over the family restaurant. Over the years, Millhollow gained significant popularity, and Aaron and his wife Connie decided to expand the restaurant. In 1995, they opened a new location in downtown Rexburg, extending the menu to include toasted sandwiches, salads, catering, and more.

Driven by Joe's vision to provide his children with the chance to learn about responsibility and instill in them a strong work ethic, Millhollow continues to give the next generation an opportunity to give back to their community. Aaron and Connie carried forward this ''all hands-on deck'' approach to foster a work environment where Idaho's youth can actively contribute to the restaurant's operations and growth.

Congratulations to the Romneys and all the employees at Millhollow on their selection as the Idaho Small Business of the Month for July 2024. Thank you for serving Idaho as small business owners and entrepreneurs. You make our great State proud, and I look forward to your continued growth and success.●

TRIBUTE TO SUZANNE DOWNING

Mr. SULLIVAN. Mr. President, I rise today to pay a special tribute to a very special Alaskan, Suzanne Downing. Suzanne turned 70 this year, and—big news for Alaska—sold her news site Must Read Alaska to businessman Jon Faulkner of Homer, who has already

done a great job with it. So thank you, Jon.

Established in 2015, Must Read Alaska is a conservative online site that has a huge impact in Alaska. Suzanne's reporting gives voice to issues and opinions that a large part of our State can't get elsewhere, particularly in her unwavering commitment to holding the mainstream media accountable or, as Suzanne puts it, ''at least on their toes.''

Tens of thousands of Alaskans read Suzanne's stories on Must Read every day, in part because of her crisp prose and her point of view, but also because she is so prolific. She works 10-hour days, at least, writing two, sometimes three or more stories a day, covering local political races, national issues, foreign policy, you name it. Must Read Alaska has been so successful in Alaska in large part because she offers an outlet for conservative voices and ideas, but also because of her knowledge on many different subjects, particularly on all things Alaska. This is knowledge that comes from real world experiences, the kind of varied experiences that so many journalists lack today.

So let me talk briefly about Suzanne's interesting background. Suzanne moved to Alaska as a child in 1969, only 10 years after statehood. She lived with her family along Auke Bay near the capital city of Juneau in a small cabin on the water. Juneau would eventually be her home as an adult. In Juneau, she worked in various capacities: in the state legislature, at the University of Alaska Southeast, in shops in downtown Juneau, and as an editor of the Juneau Empire. She worked in commercial fishing in Cook Inlet and on a crab boat out of Kodiak. As I said, she has an interesting background, and there is more.

Eventually, Suzanne became a mom and finished her technical writing degree at Oregon State University. She got a job as a reporter and editor on Bainbridge Island in Washington State for the island's weekly newspaper. After 3 years, Alaska called Suzanne home once again, and she was hired as the Sunday editor of the Juneau Empire, eventually working her way to full-time editor.

Suzanne then moved to Georgia, where she was the editorial page editor for 3 years for the Augusta Chronicle before meeting her husband Patrick Yack. They moved to Florida, where she worked in the inner city for Fresh Ministries, an Episcopalian group which offered wrap-around services for the poor.

After Hurricane Katrina hit, she created a ministry called ''Neighbors to the Rescue,'' which connected volunteers to families who had escaped the path of the hurricane and could not return to their Louisiana homes.

The cutting-edge technology she deployed in ''Neighbors to the Rescue'' caught then-Florida Governor Jeb Bush's attention. She was hired as the Florida State Director for faith and community based programs, expanding ''Neighbors to the Rescue'' statewide.

After 7 years away, Suzanne returned to Alaska in 2007, where she worked as a philanthropic program developer for the newly-founded Alaska Community Foundation. This position reconnected her with people across the State, and the next year, she was hired by then Alaska Governor Sean Parnell to be his speechwriter. Suzanne stayed with his administration until Governor Parnell left office in 2014. The next year, Suzanne started Must Read Alaska, which indeed turned into a must-read for Alaskans of all political persuasions.

In addition to news and opinion, the site serves as a community message board of sorts, celebrating the success of local Alaskans, small businesses, and highlighting events throughout the State, uniting a large State with a small population. Importantly, in addition Suzanne's own reporting, Must Read Alaska also offers space for other conservative columnists. In fact, it is one of the things that Suzanne is most proud of. Other outlets across the State tend to shut these voices out—to their detriment. In fact, one of the sites most-read stories was by Juneau sage Paulette Simpson, who wrote a column about the ferry system.

Suzanne's job is not easy. It is grueling to write as much as she does. And I can image that it takes an emotional toll, too. She is often under attack—sometimes viciously—from those who take issue with her politics. But I know she has thick skin and takes strength from so many in Alaska who defend her. They, as well as I, fervently believe that defending your beliefs, and giving others a space to do so, is the right thing do to. And Suzanne is doing that. I also know that she is buoyed by her love of our State, our country, and by something her grandfather, the Presbyterian Reverend Robert H. Price, used to tell her: ''The world will hear from you.'' Indeed, the good reverend, whom Suzanne was very close to, was prophetic. The world has heard from her.

The sale of Must Read Alaska is thankfully not the end of Suzanne's news career. She is still one of the board members, as well as the day-to-day manager of the publication. While remaining very hands-on, Suzanne is now happy to spend more of her summers in Skagway, AK, where she and her husband Pat plan to dote on their granddaughter Aven Rain Call.

I know I, as well as thousands of Alaskans, look forward to seeing Must Read Alaska's continued success as the conservative news source for many more years to come. With Suzanne's guidance, I know it will be. Congratulations again, Suzanne, on all of your great accomplishments, happy birthday, and thank you for all you do for our State and our country.

REMEMBERING LIEUTENANT COLONEL SIDNEY Z. LAWRENCE, M.D.

● Mr. VAN HOLLEN. Mr. President, I rise today to pay tribute to the tremendous life of the late Dr. Sidney Z. Lawrence of Bethesda, MD.

Dr. Lawrence was born in Paterson, NJ, where he attended local schools and went on to St. Lawrence University before receiving his M.D. in the Netherlands. He spent 21 years in the U.S. Army, where he rose to the rank of lieutenant colonel and served as a skilled surgeon, providing critical care to servicemembers around the world. In 1986, he spent 6 months in Honduras where he helped to establish a clinic to provide care to women requiring vascular surgery and performed over 400 operations at that facility. In 1990, during the first Gulf War, he was a member of a medical unit serving in Saudi Arabia that provided care to injured combatants. When he returned home, Dr. Lawrence's last posting was at the U.S. Military Academy at West Point.

After retiring from the Army, he spent 14 years as an emergency room doctor. With an indefatigable dedication to his patients and the practice of medicine, Dr. Lawrence then worked in the field of occupational health until he was 78 years old.

Dr. Lawrence was interred at Arlington National Cemetery on May 16, 2024, with full military honors. I extend my deepest condolences to his wife of 59 years, Louise Lawrence-Israels; their three daughters Judith, Naomi, and Jordana; their six grandchildren; and their great-grandson.

I trust that all members of the U.S. Senate join me in expressing our deep appreciation to Dr. Lawrence for his devoted military service helping those in uniform and their families along with the many Marylanders he cared for throughout his medical career. He will be deeply missed, but his legacy will live on in the hearts and minds of all those he touched and through his many good works.●

PETITIONS AND MEMORIALS

The following petition or memorial was laid before the Senate and was referred or ordered to lie on the table as indicated:

POM–143. A joint memorial adopted by the legislature of the State of Colorado urging the United States Congress to fully fund the authorized thirty-five million dollars to the ''Water Infrastructure Improvements for the Nation Act'' according to the recommendations of the Colorado River Drought Task Force; to the Committee on Indian Affairs.

SENATE JOINT MEMORIAL NO. 24–002

Whereas, The Ute People were the original inhabitants of what is now the state of Colorado, and the two federally recognized tribes in Colorado are the sovereign nations of the Ute Mountain Ute Tribe and the Southern Ute Indian Tribe; and

Whereas, The Pine River Indian Irrigation Project, or ''PRIIP'', is a series of canals and ditches, largely located in southwestern Colorado on Southern Ute Indian tribal land, that is intended to bring water to tribal lands for agriculture and that was constructed by the Bureau of Indian Affairs during the late 1800s and early 1900s; and

Whereas, The PRIIP system should be providing water to approximately 14,495 acres and nearly 400 individual users, including approximately 100 non-Native users and the town of Ignacio, Colorado, but due to extreme deterioration of infrastructure, its actual output falls far below that goal; and

Whereas, The deteriorated condition of the PRIIP system means that some of its users are unable to access and use water for agricultural irrigation; this neglect has had a devastating effect on many farmers and ranchers; and

Whereas, Making efforts toward rehabilitation and improvement of the PRIIP system, the Southern Ute Indian Tribe started a multiyear program to rehabilitate portions of the PRIIP system using $4.88 million of tribal funding in 2018, but funding to finish construction on completed engineering designs is running low; and

Whereas, in 2023, the Bureau of Indian Affairs, which still operates the PRIIP system, completed a modernization plan for the system that has a rough cost estimate of $60.7 million, and there are other cost estimates for modernization that range as high as $109 million; and

Whereas, PRIIP system water users pay 100% of the system's operations and maintenance annual assessments; however, these fees are simply insufficient to accomplish the necessary annual operations and maintenance work, much less the millions required to address deferred maintenance; and

Whereas, The growing disrepair of the PRIIP system has still not been adequately catalogued, though the following issues have been highlighted by studies done in 2000 and 2008 by the Bureau of Indian Affairs and illustrate the system's dilapidated condition:

- Only an estimated 15% of the PRIIP system's 175 miles of canals can be considered to be in good condition;
- Some of the system's major diversion structures date back to the 1930s, with no major rehabilitation or improvements since the early 1960s;
- The system's largest canal, the Dr. Morrison canal, which serves over 4,500 irrigable acres of Tribal land and non-Tribal land, has breached 3 times;
- The Dr. Morrison canal also has multiple large, antiquated flumes in danger of failing;
- Dozens of smaller irrigation structures constructed before the 1920s have collapsed and have simply been abandoned;
- Ditches have also been abandoned, and lands that were previously irrigated have become derelict, requiring costly rehabilitation;
- Erosion has created miles of incised channels and ditches, where elevated headgates no longer allow for the diversion of water to lands that were historically irrigated; and
- Neglect of operation and maintenance roads has made access to many structures and sections of ditch either unsafe or impossible altogether; and

Whereas, This ongoing lack of efficient water delivery to both Tribal lands and non-Tribal lands presents a significant barrier to agricultural development for the Southern Ute Indian Tribe, as well as the local community; and

Whereas, Recently, the Bureau of Indian Affairs received $466 million from the Bipartisan Infrastructure Law, as enacted in 2021 by the federal ''Infrastructure Investment and Jobs Act'', to be used over the next 5 years; however, of that funding, only $35 million, $7 million annually, is allocated to the 16 Indian Irrigation Projects in the western United States; and

Whereas, The Bureau of Indian Affairs' report for the fourth quarter of the 2021 fiscal year outlines an initial spending plan for the Bipartisan Infrastructure Law funding and recognizes that, altogether, there is $788 million in deferred maintenance for all 16 Indian Irrigation Projects; and

Whereas, Funding to address some of the PRIIP system's needs was authorized in the federal ''Water Infrastructure Improvements for the Nation Act'', or the ''WIIN Act'', which was enacted in 2016; and

Whereas, The ''WIIN Act'' established the Indian Irrigation Fund in the United States Department of the Treasury to address the deferred maintenance, repair, and replacement needs of Indian Irrigation Projects in the western United States; and

Whereas, The ''WIIN Act'' came as a great relief to the Southern Ute Indian Tribe and many other tribes who had been requesting help with decaying federal irrigation projects for decades, but repairs under the ''WIIN Act'' met an unexpected delay; while the ''WIIN Act'' authorized funding for this critical purpose, the actual appropriations have not come close to the authorized amounts; and

Whereas, in 2020, the Bureau of Indian Affairs Southern Ute Agency received ''WIIN Act'' funding, and the amount awarded was approximately $135,000; this money was spent by the Bureau of Indian Affairs to purchase much-needed heavy equipment, but the needs for the PRIIP system go well beyond what heavy equipment can do; and

Whereas, The ''WIIN Act'' directs the United States Secretary of the Treasury to deposit $35 million annually through the 2028 fiscal year into the Indian Irrigation Fund, with such sums plus accrued interest to be transferred to the United States Secretary of the Interior for distribution by the Bureau of Indian Affairs; however, since its inception, Congress has only appropriated $10 million per year to the fund, less than one-third of the $35 million authorized; and

Whereas, Not only does this level of appropriation fail to even begin to address the demonstrated need, continued delay simply adds to future costs as deterioration of the PRIIP system continues; and

Whereas, in light of this demonstrated need, the Colorado River Drought Task Force's Sub-task Force on Tribal Matters, in the final report of the task force dated December 15, 2023, unanimously recommended legislative support from the Colorado General Assembly; now, therefore, be it

Resolved by the Senate of the Seventy-fourth General Assembly of the State of Colorado, the House of Representatives concurring herein:

(1) That the Colorado River Drought Task Force considers the deterioration of the Pine River Indian Irrigation Project an urgent matter of the state of Colorado, as reflected by the Sub-task Force's unanimous recommendation for legislative support; and

(2) That the Congress of the United States is hereby memorialized to fully fund the authorized $35 million to the ''Water Infrastructure Improvements for the Nation Act'' for necessary improvements to the Pine River Indian Irrigation Project; and be it further

Resolved, That copies of this Memorial be sent to President Joseph Biden; Governor Jared Polis; the Speaker of the United States House of Representatives; the President of the United States Senate; each member of Colorado's congressional delegation; the Tribal Council of the Ute Mountain Ute Tribe and the chairman of the Tribe, Manuel Heart; the Tribal Council of the Southern Ute Indian Tribe and the chairman of the Tribe, Melvin J. Baker; and the United States House of Representatives and Senate Appropriations Subcommittees on Interior, Environment, and Related Agencies.

SEC. 3. EFFECTIVE DATE.

The amendments made by this Act shall take effect on July 1, 2025.

Mr. DURBIN. Madam President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

By Mr. DURBIN (for himself, Mr. WHITEHOUSE, Mr. BLUMENTHAL, Ms. HIRONO, Mr. BOOKER, Mr. WELCH, Mrs. SHAHEEN, Mr. REED, Mr. SCHATZ, and Mr. CARDIN):

S. 4706. A bill to modernize the business of selling firearms; to the Committee on the Judiciary.

S. 4706

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Federal Firearm Licensee Act''.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

SEC. 2. FINDINGS.

Congress finds the following:

(1) A growing body of evidence demonstrates that firearm dealers' sales practices affect the probability of firearms getting to criminals and that policies designed to hold firearm sellers accountable can curtail the diversion of firearms to criminals.

(2) Federal laws governing firearm dealers—

(A) have not been updated in more than 30 years;

(B) contain safeguards that protect dealers who engage in illegal practices from adverse enforcement action;

(C) frustrate law enforcement efforts to curb firearm trafficking and violence; and

(D) are, thus, inadequate to meet the realities of the 21st century.

(3)(A) The Tiahrt Amendments, for one—

(i) severely limit the authority of the Bureau of Alcohol, Tobacco, Firearms, and Explosives (commonly known as the ''ATF'') to disclose crime firearm trace data to the public;

(ii) prevent—

(I) the collection of valuable information; and

(II) the establishment of effective policies to prevent illegal firearms from being used in crimes; and

(iii) impede enforcement of the firearm laws by—

(I) requiring most background check records to be destroyed within 24 hours; and

(II) barring the Government from requiring owners of firearm shops to conduct annual inventory audits.

(B) Repealing the Tiahrt Amendments would support law enforcement efforts and give the public vital information needed to craft the most effective policies against illegal firearms.

(4) Additionally, Federal law imposes no requirements that firearm dealers physically secure their highly valuable and lethal inventory. The number of firearm thefts from licensed firearm dealers has increased more than the number from any other source. Between 2013 and 2017, the number of firearms stolen in firearm-dealer burglaries more than doubled and the number of firearms stolen in firearm-dealer robberies tripled.

SEC. 3. DEFINITIONS.

Section 921(a) of title 18, United States Code, is amended by adding at the end the following:

''(38) The term 'facilitator' means any person engaged in the business of hosting a commercial marketplace in which offers for firearm sales, purchases, or other transfers are allowed to be made, except that such a person shall not be considered to be a facilitator with respect to any transaction that is made through the use of a website or mobile application owned or operated by the person if—

''(A) the transaction violates the terms of service of the website or mobile application; and

''(B) the person has made a good faith effort to enforce the terms of service by, at a minimum, auditing firearms transactions on a quarterly basis to ensure compliance with this chapter.

''(39) The term 'occasional' means, with respect to transactions, fewer than 5 transactions in a 12-month period.

''(40) The term 'personal collection' includes any firearm obtained only for the personal use of an individual and not for the purpose of selling or trading, except that a firearm obtained through inheritance shall not be considered part of a personal collection until the firearm has been possessed for 1 year.

''(41) The term 'business inventory firearm' means, with respect to a person, a firearm required by law to be recorded in the acquisition and disposition logs of any firearms business of the person.

''(42)(A) The term 'frame' means the part of a handgun, or a variant thereof, that provides housing or a structure for the primary

energized component designed to hold back the hammer, striker, bolt, or similar component prior to initiation of the firing sequence (such as a sear or the equivalent), even if pins or other attachments are required to connect such component to the housing or structure.

''(B) The term 'receiver' means the part of a rifle, shotgun, or projectile weapon other than a handgun, or a variant thereof, that provides housing or a structure for the primary component designed to block or seal the breech prior to initiation of the firing sequence (such as a bolt, breechblock, or the equivalent), even if pins or other attachments are required to connect such component to the housing or structure.

''(C) For purposes of this paragraph, the term 'variant' means a weapon utilizing a similar frame or receiver design irrespective of new or different model designations or configurations, characteristics, features, components, accessories, or attachments. For example, an AK-type firearm with a short stock and a pistol grip is a pistol variant of an AK-type rifle, an AR-type firearm with a short stock and a pistol grip is a pistol variant of an AR-type rifle, and a revolving cylinder shotgun is a shotgun variant of a revolver.''.

(b) CONFORMING AMENDMENTS.—Chapter 44 of title 18, United States Code, is amended—

(ii) by adding at the end the following:

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 763—DESIGNATING JULY 2024 AS ''PLASTIC POLLUTION ACTION MONTH''

Mr. MERKLEY (for himself, Mr. WHITEHOUSE, Ms. DUCKWORTH, Mr. WELCH, Mr. VAN HOLLEN, and Mr. BOOKER) submitted the following resolution; which was referred to the Committee on the Judiciary:

Whereas plastic pollution represents a global threat that will require individual and collective action, both nationally and internationally, to address;

Whereas approximately 450,000,000 tons of plastic is produced each year, a number that is projected to triple by 2050;

Whereas, in the United States—

(1) the rate of plastic waste recycling decreased in 2021 to between 4 and 6 percent; and

(2) less than 3 percent of plastic waste is recycled into a similar quality product;

Whereas a study from the Organization for Economic Cooperation and Development found that, in 2022, the United States—

(1) mismanaged 4 percent of plastic waste;

(2) landfilled 73 percent of plastic waste;

(3) incinerated 19 percent of plastic waste; and

(4) recycled 4 percent of plastic waste;

Whereas single-use plastics account for not less than 40 percent of the plastic produced every year;

Whereas more than 12,000,000 tons of plastic waste enter the ocean every year from land-based sources alone;

Whereas, if no action is taken, the flow of plastics into the ocean is expected to triple by 2040;

Whereas, as of the date of adoption of this resolution, studies estimate that there are approximately 171,000,000,000,000 pieces of plastic in the oceans of the world;

Whereas, of those 171,000,000,000,000 pieces of plastic in the ocean, 1 percent floats, 5 percent washes up on beaches, and 94 percent sinks to the bottom;

Whereas nearly 1,300 marine species have consumed plastics;

Whereas plastics, and associated chemicals of plastics, are ingested by humans and are associated with well-established human health risks;

Whereas studies have found microplastic particles in human blood, lungs, colons, and placentas;

Whereas studies suggest that humans ingest more than 800 microplastics per day;

Whereas taking action to reduce plastic use, collect and clean up litter, and reuse and recycle more plastics will lead to less plastic pollution;

Whereas, every July, people challenge themselves to reduce their plastic footprint through ''Plastics Free July'';

Whereas, during the 40-year period preceding the date of adoption of this resolution, more than 17,000,000 volunteers have joined the International Coastal Cleanup to collect more than 350,000,000 pounds of plastic and debris while simultaneously recording their findings to inform research and upstream action;

Whereas switching to reusable items instead of single-use items can prevent waste, save water, and reduce litter; and

Whereas July 2024 is an appropriate month to designate as Plastic Pollution Action Month to recommit to taking action, individually and as a country, to reduce plastic pollution: Now, therefore, be it

Resolved, That the Senate—

(1) designates July 2024 as ''Plastic Pollution Action Month'';

(2) recognizes the dangers to human health and the environment posed by plastic pollution; and

(3) encourages all individuals in the United States to protect, conserve, maintain, and rebuild public health and the environment by responsibly participating in activities to reduce plastic pollution in July 2024 and year-round.

(2) approximately 7,200 individuals die from sarcoma each year; and

Whereas, each year, about 1 percent of cancers diagnosed in adults and around 15 percent of cancers diagnosed in children are sarcoma;

Whereas more than 70 types of sarcoma have been identified;

Whereas the potential causes of sarcoma are not well understood;

Whereas treatment for sarcoma can include surgery, radiation therapy, or chemotherapy;

Whereas sarcoma is often misdiagnosed and underreported; and

Whereas July 2024 would be an appropriate month to designate as National Sarcoma Awareness Month—

(1) to raise awareness about sarcoma; and

(A) a member of the Coast Guard, the commissioned corps of the National Oceanic and Atmospheric Administration, or the commissioned corps of the Public Health Service; or

(B) an individual who is an eligible covered beneficiary because such individual is a dependent of a member described in subparagraph (A).

(2) TRICARE PROGRAM; TRICARE PRIME.—The terms ''TRICARE program'' and ''TRICARE Prime'' have the meanings given those terms in section 1072 of title 10, United States Code.

SA 2325. Mr. KING (for himself and Ms. MURKOWSKI) submitted an amendment intended to be proposed by him to the bill S. 4638, to authorize appropriations for fiscal year 2025 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle H of title X, add the following:

SEC. 1095. NORDIC TRADER AND INVESTOR PARITY.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States and Iceland have a long and steady bilateral relationship.

(2) Diplomatic relations between Iceland and the United States may be traced back to July 7, 1941, on which date members of the United States Armed Forces arrived in Iceland as part of—

(A) a bilateral defense agreement; and

(B) Presidential Proclamation 2487, dated May 27, 1941 (relating to an unlimited national emergency in the United States).

(3) On June 17, 1944, the United States was the first country to recognize the independent Republic of Iceland.

(4) In 1949, Iceland became a founding member of the North Atlantic Treaty Organization.

(5) On May 5, 1951, the United States and Iceland entered into the bilateral Defense agreement pursuant to the North Atlantic Treaty signed at Reykjavik May 5, 1951 (2 UST 1195; TIAS 2266), which provides for the defense of Iceland.

(6) The United States is the largest trading partner of Iceland, accounting for approximately 20 percent of Iceland's total trade in goods and services.

(7) Iceland serves the commercial and trading interests of the United States economy, and Icelandic companies bring investments and jobs to the United States.

(8) With ⅓ of all visitors to Iceland arriving from the United States, Iceland is a growing tourist destination for the people of the United States. A visa is not required for United States citizens seeking to visit Iceland.

(9) Treaty trader visas (commonly referred to as ''E–1 visas'') and treaty investor visas (commonly referred to as ''E–2 visas'')—

(A) were established to facilitate and enhance economic interactions between the United States and other countries; and

(B) are temporary nonimmigrant visas that may be issued to nationals of a country with which the United States maintains a treaty of friendship, commerce, and navigation.

(10) An E–1 visa may be issued to an individual seeking to enter the United States for the purpose of engaging in substantial trade. An E–2 visa may be issued to an individual seeking to enter the United States for the purpose of developing and directing the operations of an enterprise in which the individual has invested.

(11) Eligibility for E–1 and E–2 nonimmigrant visas for citizens and nationals of Iceland is critical to facilitating Icelandic business and investment in the United States, and such eligibility will benefit the economies of both the United States and Iceland.

(12) Nationals of more than 80 countries are eligible for E–1 or E–2 visas.

(13) Iceland is the only Nordic partner whose nationals are not eligible for such visas.

(14) Iceland is 1 of only 3 North Atlantic Treaty Organization member countries whose nationals are not eligible for such visas.

(15) Iceland is one of very few United States allies whose nationals do not benefit from treaty trader and investor visas. Providing eligibility for such visas to nationals of Iceland would ensure parity between Iceland and other countries with which the United States maintains treaties of friendship, commerce, and navigation.

(16) Iceland does not place barriers on United States investors or traders wishing to enter the Icelandic market.

(17) Adding Iceland to the list of countries whose nationals are eligible for E–1 and E–2 nonimmigrant visas would—

(A) improve the strong relationship between the United States and Iceland; and

(B) promote and increase investment in the United States by nationals of Iceland.

(b) ELIGIBILITY OF ICELANDIC TRADERS AND INVESTORS FOR E–1 AND E–2 NONIMMIGRANT VISAS.—For purposes of clauses (i) and (ii) of section 101(a)(15)(E) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(E)), Iceland shall be considered to be a foreign state under such section if the Government of Iceland provides similar nonimmigrant status to nationals of the United States.

Subtitle I—Bring Our Heroes Home Act

SEC. 1096. SHORT TITLE.

This subtitle may be cited as the ''Bring Our Heroes Home Act''.

SEC. 1097. FINDINGS, DECLARATIONS, AND PURPOSES.

(a) FINDINGS AND DECLARATIONS.—Congress finds and declares the following:

(1) A vast number of records relating to missing Armed Forces and civilian personnel have not been identified, located, or transferred to the National Archives following review and declassification. Only in the rarest cases is there any legitimate need for continued protection of records pertaining to missing Armed Forces and civilian personnel who have been missing for decades.

(2) There has been insufficient priority placed on identifying, locating, reviewing, or declassifying records relating to missing Armed Forces and civilian personnel and then transferring the records to the National Archives for public access.

(3) Mandates for declassification set forth in multiple Executive orders have been broadly written, loosely interpreted, and often ignored by Federal agencies in possession and control of records related to missing Armed Forces and civilian personnel.

(4) No individual or entity has been tasked with oversight of the identification, collection, review, and declassification of records related to missing Armed Forces and civilian personnel.

(5) The interest, desire, workforce, and funding of Federal agencies to assemble, review, and declassify records relating to missing Armed Forces and civilian personnel have been lacking.

(6) All records of the Federal Government relating to missing Armed Forces and civilian personnel should be preserved for historical and governmental purposes and for public research.

(7) All records of the Federal Government relating to missing Armed Forces and civilian personnel should carry a presumption of declassification, and all such records should be disclosed under this subtitle to enable the fullest possible accounting for missing Armed Forces and civilian personnel.

(8) Legislation is necessary to create an enforceable, independent, and accountable process for the public disclosure of records relating to missing Armed Forces and civilian personnel.

(9) Legislation is necessary because section 552 of title 5, United States Code (commonly known as the ''Freedom of Information Act''), as implemented by Federal agencies, has prevented the timely public disclosure of records relating to missing Armed Forces and civilian personnel.

(b) PURPOSES.—The purposes of this subtitle are—

(1) to provide for the creation of the Missing Armed Forces and Civilian Personnel Records Collection at the National Archives; and

''2255A. Civil remedy for certain victims of child pornography or child sexual exploitation.''.

SEC. 1099B. REPORTING AND REMOVAL OF CHILD SEXUAL ABUSE MATERIAL; ESTABLISHMENT OF CHILD ONLINE PROTECTION BOARD.

(a) FINDINGS.—Congress finds the following:

(1) Over 40 years ago, the Supreme Court of the United States ruled in New York v. Ferber, 458 U.S. 747 (1982), that child sexual abuse material (referred to in this subsection as ''CSAM'') is a ''category of material outside the protections of the First Amendment''. The Court emphasized that children depicted in CSAM are harmed twice: first through the abuse and exploitation inherent in the creation of the materials, and then through the continued circulation of the imagery, which inflicts its own emotional and psychological injury.

(2) The Supreme Court reiterated this point 10 years ago in Paroline v. United States, 572 U.S. 434 (2014), when it explained that CSAM victims suffer ''continuing and grievous harm as a result of [their] knowledge that a large, indeterminate number of individuals have viewed and will in the future view images of the sexual abuse [they] endured''.

(3) In these decisions, the Supreme Court noted that the distribution of CSAM invades the privacy interests of the victims.

(4) The co-mingling online of CSAM with other, non-explicit depictions of the victims links the victim's identity with the images of their abuse. This further invades a victim's privacy and disrupts their sense of security, thwarting what the Supreme Court has described as ''the individual interest in avoiding disclosure of personal matters''.

(5) The internet is awash with child sexual abuse material. In 2022, the CyberTipline, operated by the National Center for Missing & Exploited Children to combat online child sexual exploitation, received reports about 49,400,000 images and 37,700,000 videos depicting child sexual abuse.

(6) Since 2017, Project Arachnid, operated by the Canadian Centre for Child Protection, has sent over 38,000,000 notices to online providers about CSAM and other exploitive material found on their platforms. According to the Canadian Centre, some providers are slow to remove the material, or take it down only for it to be reposted again a short time later.

(7) This legislation is needed to create an easy-to-use and effective procedure to get CSAM and harmful related imagery quickly taken offline and kept offline to protect children, stop the spread of illegal and harmful content, and thwart the continued invasion of the victims' privacy.

(b) IMPLEMENTATION.—

(1) IMPLEMENTATION.—Except as provided in paragraph (2), not later than 1 year after the date of enactment of this Act, the Child Online Protection Board established under subsection (d), shall begin operations, at which point providers shall begin receiving notifications as set forth in subsection (c)(2).

(2) EXTENSION.—The Commission may extend the deadline under paragraph (1) by not more than 180 days if the Commission provides notice of the extension to the public and to Congress.

(3) PUBLIC NOTICE.—The Commission shall provide notice to the public of the date that the Child Online Protection Board established under subsection (d) is scheduled to begin operations on—

(A) the date that is 60 days before such date that the Board is scheduled to begin operations; and

(B) the date that is 30 days before such date that the Board is scheduled to begin operations.

(c) REPORTING AND REMOVAL OF CHILD SEXUAL ABUSE MATERIAL.—

(1) IN GENERAL.—If a provider receives a complete notification as set forth in paragraph (2)(A) that the provider is hosting child sexual abuse material, as soon as possible, but in any event not later than 48 hours after such notification is received by the provider (or, in the case of a small provider, not later than 2 business days after such notification is received by the small provider), the provider shall—

(A)(i) remove the child sexual abuse material; and

(ii) notify the complainant that it has done so; or

(B) notify the complainant that the provider—

(i) has determined that the visual depiction referenced in the notification does not constitute child sexual abuse material;

(ii) is unable to remove the child sexual abuse material using reasonable means; or

(iii) has determined that the notification is duplicative under paragraph (2)(C)(i).

(2) NOTIFICATIONS.—

(A) IN GENERAL.—To be complete under this subsection, a notification must be a written communication to the designated reporting system of the provider (or, if the provider does not have a designated reporting system, a written communication that is served on the provider in accordance with subparagraph (F)) that includes the following:

(i) An identification of, and information reasonably sufficient to permit the provider to locate, the child sexual abuse material. Such information may include, at the option of the complainant, a copy of the child sexual abuse material or the uniform resource locator where such child sexual abuse material is located.

(ii) The complainant's name and contact information, to include a mailing address, telephone number, and an electronic mail address, except that, if the complainant is the victim depicted in the child sexual abuse material, the complainant may elect to use an alias, including for purposes of the signed statement described in clause (v), and omit a mailing address.

(iii) If applicable, a statement indicating that the complainant has previously notified the provider about the child sexual abuse material which may, at the option of the complainant, include a copy of the previous notification.

(iv) A statement indicating that the complainant has a good faith belief that the information in the notification is accurate.

(v) A signed statement under penalty of perjury indicating that the notification is submitted by—

(I) the victim depicted in the child sexual abuse material;

(II) an authorized representative of the victim depicted in the child sexual abuse material; or

(B) INCLUSION OF ADDITIONAL VISUAL DEPICTIONS IN A NOTIFICATION.—

(i) MULTIPLE ITEMS OF CHILD SEXUAL ABUSE MATERIAL IN SAME NOTIFICATION.—A notification may contain information about more than one item of child sexual abuse material, but shall only be effective with respect to each item of child sexual abuse material included in the notification to the extent that the notification includes sufficient information to identify and locate such item of child sexual abuse material.

(ii) RELATED EXPLOITIVE VISUAL DEPICTIONS.—

(I) IN GENERAL.—A notification may contain information about any related exploitive visual depictions associated with the child sexual abuse material described in the notification, along with the information described in subparagraph (A)(i) for each related exploitive visual depiction. Such notification shall clearly indicate which visual depiction is a related exploitive visual depiction. Such notification shall include a statement indicating that the complainant acknowledges that the provider may, but is not required to, remove the related exploitive visual depiction, and that the complainant cannot file a petition with the Child Online Protection Board concerning any alleged failure to remove a related exploitive visual depiction.

(II) NO OBLIGATION.—A provider shall not be required to take any action under this section concerning a related exploitive visual depiction. A provider may, in its sole discretion, remove a related exploitive visual depiction. The procedure set forth in subsection (g)(1) shall not apply to related exploitive visual depictions.

(C) LIMITATION ON DUPLICATIVE NOTIFICATIONS.—

(i) IN GENERAL.—After a complainant has submitted a notification to a provider, the

complainant may submit additional notifications at any time only if the subsequent notifications involve—

(I) a different item of child sexual abuse material;

(II) the same item of child sexual abuse material relating to a minor that is in a different location; or

(III) recidivist hosting.

(ii) NO OBLIGATION.—A provider who receives any additional notifications that do not comply with clause (i) shall not be required to take any additional action except—

(D) INCOMPLETE OR MISDIRECTED NOTIFICATION.—

(i) REQUIREMENT TO CONTACT COMPLAINANT REGARDING INSUFFICIENT INFORMATION.—

(I) REQUIREMENT TO CONTACT COMPLAINANT.—If a notification that is submitted to a provider under this subsection does not contain sufficient information under subparagraph (A)(i) to identify or locate the child sexual abuse material that is the subject of the notification but does contain the complainant contact information described in subparagraph (A)(ii), the provider shall, not later than 48 hours after receiving the notification (or, in the case of a small provider, not later than 2 business days after such notification is received by the small provider), contact the complainant via electronic mail address to obtain such information.

(II) EFFECT OF COMPLAINANT PROVIDING SUFFICIENT INFORMATION.—If the provider is able to contact the complainant and obtain sufficient information to identify or locate the child sexual abuse material that is the subject of the notification, the provider shall then proceed as set forth in paragraph (1), except that the applicable timeframes described in such paragraph shall commence on the day the provider receives the information needed to identify or locate the child sexual abuse material.

(III) EFFECT OF COMPLAINANT INABILITY TO PROVIDE SUFFICIENT INFORMATION.—If the provider is able to contact the complainant but does not obtain sufficient information to identify or locate the child sexual abuse material that is the subject of the notification, the provider shall so notify the complainant not later than 48 hours after the provider determines that it is unable to identify or locate the child sexual abuse material (or, in the case of a small provider, not later than 2 business days after the small provider makes such determination), after which no further action by the provider is required and receipt of the notification shall not be considered in determining whether the provider has actual knowledge of any information described in the notification.

(IV) EFFECT OF COMPLAINANT FAILURE TO RESPOND.—If the complainant does not respond to the provider's attempt to contact the complainant under this clause within 14 days of such attempt, no further action by the provider is required and receipt of the notification shall not be considered in determining whether the provider has actual knowledge of any information described in the notification.

(ii) TREATMENT OF INCOMPLETE NOTIFICATION WHERE COMPLAINANT CANNOT BE CONTACTED.—If a notification that is submitted to a provider under this subsection does not contain sufficient information under subparagraph (A)(i) to identify or locate the child sexual abuse material that is the subject of the notification and does not contain the complainant contact information described in subparagraph (A)(ii) (or if the provider is unable to contact the complainant using such information), no further action by the provider is required and receipt of the notification shall not be considered in determining whether the provider has actual knowledge of any information described in the notification.

(iii) TREATMENT OF NOTIFICATION NOT SUBMITTED TO DESIGNATED REPORTING SYSTEM.—If a provider has a designated reporting system, and a complainant submits a notification under this subsection to the provider without using such system, the provider shall not be considered to have received the notification.

(E) OPTION TO CONTACT COMPLAINANT REGARDING THE CHILD SEXUAL ABUSE MATERIAL.—

(i) CONTACT WITH COMPLAINANT.—If the provider believes that the child sexual abuse material referenced in the notification does not meet the definition of such term as provided in subsection (q)(10), the provider may, not later than 48 hours after receiving the notification (or, in the case of a small provider, not later than 2 business days after such notification is received by the small provider), contact the complainant via electronic mail address to so indicate.

(ii) FAILURE TO RESPOND.—If the complainant does not respond to the provider within 14 days after receiving the notification, no further action by the provider is required and receipt of the notification shall not be considered in determining whether the provider has actual knowledge of any information described in the notification.

(iii) COMPLAINANT RESPONSE.—If the complainant responds to the provider within 14 days after receiving the notification, the provider shall then proceed as set forth in paragraph (1), except that the applicable timeframes described in such paragraph shall commence on the day the provider receives the complainant's response.

(F) SERVICE OF NOTIFICATION WHERE PROVIDER HAS NO DESIGNATED REPORTING SYSTEM; PROCESS WHERE COMPLAINANT CANNOT SERVE PROVIDER.—

(i) NO DESIGNATED REPORTING SYSTEM.—If a provider does not have a designated reporting system, a complainant may serve the provider with a notification under this subsection to the provider in the same manner that petitions are required to be served under subsection (g)(4).

(ii) COMPLAINANT CANNOT SERVE PROVIDER.—If a provider does not have a designated reporting system and a complainant cannot reasonably serve the provider with a notification as described in clause (i), the complainant may bring a petition under subsection (g)(1) without serving the provider with the notification.

(G) RECIDIVIST HOSTING.—If a provider engages in recidivist hosting of child sexual abuse material, in addition to any action taken under this section, a complainant may submit a report concerning such recidivist hosting to the CyberTipline operated by the National Center for Missing and Exploited Children, or any successor to the CyberTipline operated by the National Center for Missing and Exploited Children.

For purposes of this subparagraph, the period for which providers shall be required to preserve information in accordance with such section 2258A(h) may be extended in 90-day increments on written request by the complainant or order of the Board.

(I) NON-DISCLOSURE.—Except as otherwise provided in subsection (g)(19)(C), for 120 days following receipt of a notification under this subsection, a provider may not disclose the existence of the notification to any person or entity except to an attorney for purposes of obtaining legal advice, the Board, the Commission, a law enforcement agency described in subparagraph (A), (B), or (C) of section 2258A(g)(3) of title 18, United States Code, the National Center for Missing and Exploited Children, or as necessary to respond to legal process. (C) TIMEFRAME.—

(i) IN GENERAL.—A petition under this paragraph shall be considered timely if it is filed within 30 days of the applicable start date, as defined under clause (ii).

(ii) APPLICABLE START DATE.—For purposes of clause (i), the term ''applicable start date'' means—

(E) FAILURE TO REMOVE CHILD SEXUAL ABUSE MATERIAL IN TIMELY MANNER.—A complainant may file a petition under subparagraph (A)(i) claiming that alleged child sexual abuse material was not removed even if the alleged child sexual abuse material was removed prior to the petition being filed, so long as the petition claims that the alleged child sexual abuse material was not removed within the timeframe specified in subsection (c)(1).

(2) PROCEDURE TO CONTEST A NOTIFICATION.—

(A) PROVIDER PETITION.—If a provider receives a complete notification as described in subsection (c)(2) through its designated reporting system or in accordance with subsection (c)(2)(F)(i), the provider may file a petition to the Board claiming that the provider has a good faith belief that, as applicable—

(iii) the alleged child sexual abuse material cannot reasonably be located by the provider;

A petition may set forth more than one claim. A petition shall also include information establishing that it has been filed within the applicable timeframe.

(B) REVIEW OF PETITIONS BY CHILD ONLINE PROTECTION ATTORNEYS.—Child Online Protection Attorneys may review petitions to assess whether they are complete. The Board may permit a petitioning party to refile a defective petition. The Attorney may assist the petitioning party in making any corrections.

(B) MANNER OF SERVICE.—

(i) SERVICE BY NONDIGITAL MEANS.—Service by nondigital means may be any of the following:

(I) Personal, including delivery to a responsible person at the office of counsel.

(II) By priority mail.

(III) By third-party commercial carrier for delivery within 3 days.

(ii) SERVICE BY DIGITAL MEANS.—Service of a paper may be made by sending it by any digital means, including through a provider's designated reporting system.

(iii) WHEN SERVICE IS COMPLETED.—Service by mail or by commercial carrier is complete 3 days after the mailing or delivery to the carrier. Service by digital means is complete on filing or sending, unless the party making service is notified that the paper was not received by the party served.

(C) PROOF OF SERVICE.—A petition filed under paragraph (1) or (2) shall contain—

(i) an acknowledgment of service by the person served;

(ii) proof of service consisting of a statement by the person who made service certifying—

(I) the date and manner of service;

(II) the names of the persons served; and

(III) their mail or electronic addresses, facsimile numbers, or the addresses of the places of delivery, as appropriate for the manner of service; or

(5) SERVICE OF OTHER DOCUMENTS.—Documents submitted or relied upon in a proceeding, other than the petition, shall be served in accordance with regulations established by the Commission.

(6) NOTIFICATION OF RIGHT TO OPT OUT.—In order to effectuate service on a responding party, the petition shall notify the responding party of their right to opt out of the proceeding before the Board, and the consequences of opting out and not opting out, including a prominent statement that by not opting out the respondent—

(A) loses the opportunity to have the dispute decided by a court created under article III of the Constitution of the United States; and

(B) waives the right to a jury trial regarding the dispute.

(7) INITIAL PROCEEDINGS.—

(A) CONFERENCE.—Within 1 week of completion of service of a petition under paragraph (4), 1 or more Officers of the Board shall hold a conference to address the matters described in subparagraphs (B) and (C).

(B) OPT-OUT PROCEDURE.—At the conference, an Officer of the Board shall explain that the responding party has a right to opt out of the proceeding before the Board, and describe the consequences of opting out and not opting out as described in paragraph (6). A responding party shall have a period of 30 days, beginning on the date of the conference, in which to provide written notice of such choice to the petitioning party and the Board. If the responding party does not submit an opt-out notice to the Board within that 30-day period, the proceeding shall be deemed an active proceeding and the responding party shall be bound by the determination in the proceeding. If the responding party opts out of the proceeding during that 30-day period, the proceeding shall be dismissed without prejudice. For purposes of any subsequent litigation or other legal proceeding, no adverse inference shall be drawn from a responding party's decision to opt out of a proceeding before the Board under this subparagraph.

(C) DISABLING ACCESS.—At the conference, except for petitions setting forth claims described in clauses (iii) and (iv) of paragraph (2)(A), an Officer of the Board shall order the provider involved to disable public and user access to the alleged child sexual abuse material at issue in the petition for the pendency of the proceeding, including judicial review as provided in subsection (g)(28), unless the Officer of the Board finds that—

(i) it is likely that the Board will find that the petition is frivolous or was filed with an intent to harass any person;

(ii) there is a probability that disabling public and user access to such alleged child sexual abuse material will cause irreparable harm;

(iii) the balance of equities weighs in favor of preserving public and user access to the alleged child sexual abuse material; and

(iv) disabling public and user access to the alleged child sexual abuse material is contrary to the public interest.

(D) EFFECT OF FAILURE TO DISABLE ACCESS.—

(I) dismiss the petition with prejudice; and

(II) refer the matter to the Attorney General.

For purposes of paragraph (1)(C)(ii), the applicable start date shall be the date the provider's petition was dismissed.

(iii) COMPLAINANT PETITION.—If the petition was filed by a complainant, and the provider fails to comply with an order issued pursuant to subparagraph (B), the Board—

(I) shall—

(aa) expedite resolution of the petition; and

(bb) refer the matter to the Attorney General; and

(II) may apply an adverse inference with respect to disputed facts against such provider.

(8) SCHEDULING.—Upon receipt of a complete petition and at the conclusion of the opt out procedure described in paragraph (7), the Board shall issue a schedule for the future conduct of the proceeding. A schedule issued by the Board may be amended by the Board in the interests of justice.

(9) CONFERENCES.—One or more Officers of the Board may hold a conference to address case management or discovery issues in a proceeding, which shall be noted upon the record of the proceeding and may be recorded or transcribed.

(A) the parties to the proceeding and an interested owner may make requests to the Board to address case management and discovery matters, and submit responses thereto; and

(B) the Board may request or permit parties and interested owners to make submissions addressing relevant questions of fact or law, or other matters, including matters raised sua sponte by the Officers of the Board, and offer responses thereto.

(11) DISCOVERY.—

(A) IN GENERAL.—Discovery in a proceeding shall be limited to the production of relevant information and documents, written interrogatories, and written requests for admission, as provided in regulations established by the Commission, except that—

(ii) upon the request of a party or interested owner, and for good cause shown, the Board may issue a protective order to limit the disclosure of documents or testimony that contain confidential information;

(iii) after providing notice and an opportunity to respond, and upon good cause shown, the Board may apply an adverse inference with respect to disputed facts against a party or interested owner who has failed to timely provide discovery materials in response to a proper request for materials that could be relevant to such facts; and

(iv) an interested owner shall only produce or receive discovery to the extent it relates to whether the visual depiction at issue constitutes child sexual abuse material.

(B) PRIVACY.—Any alleged child sexual abuse material received by the Board or the Commission as part of a proceeding shall be filed under seal and shall remain in the care, custody, and control of the Board or the Commission. For purposes of discovery, the Board or Commission shall make the alleged child sexual abuse material reasonably available to the parties and interested owner but shall not provide copies. The privacy protections described in section 3509(d) of title 18, United States Code, shall apply to the Board, Commission, provider, complainant, and interested owner.

(12) RESPONSES.—The responding party may refute any of the claims or factual assertions made by the petitioning party, and may also claim that the petition was not filed in the applicable timeframe or is barred under subsection (h). If a complainant is the petitioning party, a provider may additionally claim in response that the notification was incomplete and could not be made complete under subsection (c)(2)(D)(i). The petitioning party may refute any responses submitted by the responding party.

(13) INTERESTED OWNER.—An individual notified under paragraph (19)(C)(ii) may, within 14 days of being so notified, file a motion to join the proceeding for the limited purpose of claiming that the visual depiction at issue does not constitute child sexual abuse material. The Board shall serve the motion on both parties. Such motion shall include a factual basis and a signed statement, submitted under penalty of perjury, indicating that the individual produced or created the visual depiction at issue. The Board shall dismiss any motion that does not include the signed statement or that was submitted by an individual who did not produce or create the visual depiction at issue. If the motion is granted, the interested owner may also claim that the notification and petition were filed with an intent to harass the interested owner. Any party may refute the claims and factual assertions made by the interested owner.

(14) EVIDENCE.—The Board may consider the following types of evidence in a proceeding, and such evidence may be admitted without application of formal rules of evidence:

(A) Documentary and other nontestimonial evidence that is relevant to the petitions or responses in the proceeding.

(B) Testimonial evidence, submitted under penalty of perjury in written form or in accordance with paragraph (15), limited to statements of the parties and nonexpert witnesses, that is relevant to the petitions or responses in a proceeding, except that, in exceptional cases, expert witness testimony or other types of testimony may be permitted by the Board for good cause shown.

(15) HEARINGS.—Unless waived by all parties, the Board shall conduct a hearing to receive oral presentations on issues of fact or law from parties and witnesses to a proceeding, including oral testimony, subject to the following:

(A) Any such hearing shall be attended by not fewer than two of the Officers of the Board.

(B) The hearing shall be noted upon the record of the proceeding and, subject to subparagraph (C), may be recorded or transcribed as deemed necessary by the Board.

(C) A recording or transcript of the hearing shall be made available to any Officer of the Board who is not in attendance.

(16) VOLUNTARY DISMISSAL.—

(A) BY PETITIONING PARTY.—Upon the written request of a petitioning party, the Board shall dismiss the petition, with or without prejudice.

(B) BY RESPONDING PARTY OR INTERESTED OWNER.—Upon written request of a responding party or interested owner, the Board shall dismiss any responses to the petition, and shall consider all claims and factual assertions in the petition to be true.

(17) FACTUAL FINDINGS.—Subject to paragraph (11)(A)(iii), the Board shall make factual findings based upon a preponderance of the evidence.

(18) DETERMINATIONS.—

(A) NATURE AND CONTENTS.—A determination rendered by the Board in a proceeding shall—

(B) DISSENT.—An Officer of the Board who dissents from a decision contained in a determination under subparagraph (A) may append a statement setting forth the grounds for that dissent.

(19) PUBLICATION AND DISCLOSURE.—

(A) PUBLICATION.—Each final determination of the Board shall be made available on a publicly accessible website, except that the final determination shall be redacted to protect confidential information that is the subject of a protective order under paragraph (11)(A)(ii) or information protected pursuant to paragraph (11)(B) and any other information protected from public disclosure under the Federal Trade Commission Act or any other applicable provision of law.

(B) FREEDOM OF INFORMATION ACT.—All information relating to proceedings of the Board under this section is exempt from disclosure to the public under section 552(b)(3) of title 5, except for determinations, records, and information published under subparagraph (A). Any information that is disclosed under this subparagraph shall have redacted any information that is the subject of a protective order under paragraph (11)(A)(ii) or protected pursuant to paragraph (11)(B).

(C) EFFECT OF PETITION ON NON-DISCLOSURE PERIOD.—

(i) Submission of a petition extends the non-disclosure period under subsection (c)(2)(I) for the pendency of the proceeding. The provider may submit an objection to the Board that nondisclosure is contrary to the interests of justice. The complainant may, but is not required to, respond to the objection. The Board should sustain the objection unless there is reason to believe that the circumstances in section 3486(a)(6)(B) of title 18, United States Code, exist and outweigh the interests of justice.

(ii) If the Board sustains an objection to the nondisclosure period, the provider or the Board may notify the apparent owner of the visual depiction at issue about the proceeding, and include instructions on how the owner may move to join the proceeding under paragraph (13).

(iii) If applicable, the nondisclosure period expires 120 days after the Board's determination becomes final, except it shall expire immediately upon the Board's determination becoming final if the Board finds that the visual depiction at issue is not child sexual abuse material.

(iv) The interested owner of a visual depiction at issue may not bring any legal action against any party related to the alleged child sexual abuse material until the Board's determination is final. Once the determination is final, the interested owner of the visual depiction may pursue any legal relief available under the law, subject to subsections (h), (k), and (l).

(20) RESPONDING PARTY'S DEFAULT.—If the Board finds that service of the petition on the responding party could not reasonably be completed, or the responding party has failed to appear or has ceased participating in a proceeding, as demonstrated by the responding party's failure, without justifiable cause, to meet one or more deadlines or requirements set forth in the schedule adopted by the Board, the Board may enter a default determination, including the dismissal of any responses asserted by the responding party, as follows and in accordance with such other requirements as the Commission may establish by regulation:

(A) The Board shall require the petitioning party to submit relevant evidence and other information in support of the petitioning party's claims and, upon review of such evidence and any other requested submissions from the petitioning party, shall determine whether the materials so submitted are sufficient to support a finding in favor of the petitioning party under applicable law and, if so, the appropriate relief and damages, if any, to be awarded.

(B) If the Board makes an affirmative determination under subparagraph (A), the Board shall prepare a proposed default determination, and shall provide written notice to the responding party at all addresses, including electronic mail addresses, reflected in the records of the proceeding before the Board, of the pendency of a default determination by the Board and of the legal significance of such determination. Such notice shall be accompanied by the proposed default determination and shall provide that the responding party has a period of 30 days, beginning on the date of the notice, to submit any evidence or other information in opposition to the proposed default determination.

(C) If the responding party responds to the notice provided under subparagraph (B) within the 30-day period provided in such subparagraph, the Board shall consider responding party's submissions and, after allowing the petitioning party to address such submissions, maintain, or amend its proposed determination as appropriate, and the resulting determination shall not be a default determination.

(D) If the respondent fails to respond to the notice provided under subparagraph (B), the Board shall proceed to issue the default determination. Thereafter, the respondent may only challenge such determination to the extent permitted under paragraph (28).

(21) PETITIONING PARTY OR INTERESTED OWNER'S FAILURE TO PROCEED.—If a petitioning party or interested owner who has

joined the proceeding fails to proceed, as demonstrated by the failure, without justifiable cause, to meet one or more deadlines or requirements set forth in the schedule adopted by the Board, the Board may, upon providing written notice to the petitioning party or interested owner and a period of 30 days, beginning on the date of the notice, to respond to the notice, and after considering any such response, issue a determination dismissing the claims made by the petitioning party or interested owner. The Board may order the petitioning party to pay attorney fees and costs under paragraph (26)(B), if appropriate. Thereafter, the petitioning party may only challenge such determination to the extent permitted under paragraph (28).

(22) REQUEST FOR RECONSIDERATION.—A party or interested owner may, within 30 days after the date on which the Board issues a determination under paragraph (18), submit to the Board a written request for reconsideration of, or an amendment to, such determination if the party or interested owner identifies a clear error of law or fact material to the outcome, or a technical mistake. After providing the other parties an opportunity to address such request, the Board shall either deny the request or issue an amended determination.

(23) REVIEW BY COMMISSION.—If the Board denies a party or interested owner a request for reconsideration of a determination under paragraph (22), the party or interested owner may, within 30 days after the date of such denial, request review of the determination by the Commission in accordance with regulations established by the Commission. After providing the other party or interested owner an opportunity to address the request, the Commission shall either deny the request for review, or remand the proceeding to the Board for reconsideration of issues specified in the remand and for issuance of an amended determination. Such amended determination shall not be subject to further consideration or review, other than under paragraph (28).

(24) FAVORABLE RULING ON COMPLAINANT PETITION.—

(A) IN GENERAL.—If the Board grants a complainant's petition filed under this section, notwithstanding any other law, the Board shall—

(i) order the provider to immediately remove the child sexual abuse material, and to permanently delete all copies of the child sexual abuse material known to and under the control of the provider unless the Board orders the provider to preserve the child sexual abuse material;

(ii) impose a fine of $50,000 per item of child sexual abuse material covered by the determination, but if the Board finds that—

(II) costs shall be paid to the authorized representative.

(A) IN GENERAL.—If the Board denies a provider's petition to contest a notification filed under paragraph (2), it shall order the provider to immediately remove the child sexual abuse material, and to permanently delete all copies of the child sexual abuse material known to and under the control of the provider unless the Board orders the provider to preserve the child sexual abuse material.

(B) REFERRAL FOR FAILURE TO REMOVE MATERIAL.—If a provider does not remove and, if applicable, permanently delete child sexual abuse material within 48 hours of the Board issuing a determination under subparagraph (A), or not later than 2 business days of the Board issuing a determination under subparagraph (A) concerning a small provider, the Board shall refer the matter to the Attorney General for prosecution under any applicable laws.

(C) COSTS FOR FRIVOLOUS PETITION.—If the Board finds that a provider filed a petition under paragraph (2) for a harassing or improper purpose or without reasonable basis in law or fact, the Board shall order the provider to pay the reasonable costs of the complainant.

(26) EFFECT OF DENIAL OF COMPLAINANT'S PETITION OR FAVORABLE RULING ON PROVIDER'S PETITION.—

(A) RESTORATION.—If the Board grants a provider's petition filed under paragraph (2) or if the Board denies a petition filed by the complainant under paragraph (1), the provider may restore access to any visual depiction that was at issue in the proceeding.

(B) COSTS FOR INCOMPLETE OR FRIVOLOUS NOTIFICATION AND HARASSMENT.—If, in granting or denying a petition as described in subparagraph (A), the Board finds that the notification contested in the petition could not be made complete under subsection (c)(2)(D), is frivolous, or is duplicative under subsection (c)(2)(C)(i), the Board may order the complainant to pay costs to the provider and any interested owner, which shall not exceed a total of $10,000, or, if the Board finds that the complainant filed the notification with an intent to harass the provider or any person, a total of $15,000.

(27) CIVIL ACTION; OTHER RELIEF.—
