HIGHLIGHTS OF THE BILL

The Committee recommendation for fiscal year 2025 for the activities under the jurisdiction of the Subcommittee on Legislative Branch totals \$5,545,938,000.

These appropriations support the operations of the House of Representatives, the care, and preservation of the historic buildings in which Congress works, and agencies that provide research and analysis to assist the legislative process. They support institutions such as the Library of Congress, one of the leading repositories of knowledge and culture in the world, the Government Accountability Office which provides fact-based information to Congress and investigates Federal spending and performance, and the Government Publishing Office, which publishes official government publications to Congress, Federal agencies, Federal depository libraries, and the public.

In keeping with longstanding practice under which each chamber of Congress determines its housekeeping requirements and the other concurs without intervention, the bill does not include funds for the Senate or Senate office buildings. Similarly, the Senate will consider a Legislative Branch appropriations bill that addresses Senate but not House funding.

The bill provides the Legislative Branch the ability to develop legislation to meet national needs, maintain and build analytical capacity to support oversight of government operations, address high-priority technology and security needs, and assist constituents in their dealings with government while also showing responsible fiscal restraint.

LEGISLATIVE BRANCH-WIDE MATTERS

RESULTS, OVERSIGHT, TRANSPARENCY, AND ACCOUNTABILITY

The Committee on Appropriations of the House (hereinafter “the Committee”) recognizes that effective programs, projects, and activities must set transparent goals and measure progress toward those goals in tangible ways. Data-driven results should be the yardstick for measuring success.

The recommendation continues to prioritize the proper management of taxpayer dollars, including strong internal controls, reduced inefficiency, ineffectiveness, and waste, fraud, or abuse, and a focus on results, and customer service for all agencies under the jurisdiction of this Act. The Committee continues its focus on reducing unnecessary expenditures and expects the agencies funded by this Act to identify cost savings and efficiencies where possible.

PERFORMANCE MEASURES AND CUSTOMER SERVICE

The Committee believes that development of organizational priority goals and outcomes, such as performance outcome measures, output measures, and efficiency measures, is important for all agencies funded under this bill. The Committee also notes the importance of implementing proper customer service standards for

agencies that provide direct services to the public. Development of these service standards should include identifying and surveying target customers and measuring internal performance against those standards.

In addition, the Committee understands that, as the largest advertiser in the United States, the Federal Government should work to ensure fair access to its advertising contracts for small, disadvantaged businesses and businesses owned by minorities and women. The Committee directs each agency under the jurisdiction of this Act to include the following information in its fiscal year 2026 budget justification: expenditures for fiscal year 2024 and expected expenditures for fiscal year 2025, respectively, for (1) all contracts for advertising services; and (2) contracts for the advertising services of (a) socially and economically disadvantaged small business concerns (as defined in section 8(a)(4) of the Small Business Act (15 U.S.C. 637(a)(4)), and (b) women- and minority-owned businesses disaggregated by race and gender.

REPROGRAMMING, NOTIFICATION, CONSULTATION, AND REPORTING REQUIREMENTS

The Committee expects all agencies to notify the Committee of any significant departures from budget plans presented to the Committee in any of the agency's budget justifications. The Committee recommendation grants limited reprogramming authorities to ensure that funds are devoted to the highest priorities, particularly due to changes in circumstances. Agencies funded through this bill are required to notify the Committee prior to any reprogramming of funds in excess of the lesser of 10 percent or \$750,000 between programs, projects or activities, or in excess of \$750,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13 or as further specified in each agency's respective section). This includes cumulative reprogrammings that together total at least \$750,000 from or to a particular program, activity, or object classification as well as reprogramming full time equivalents (FTE) or funds to create new organizational entities within the agency or to restructure entities that already exist.

In addition, the Committee must be notified of reprogramming actions that involve less than the above-mentioned amounts if such actions would have the effect of changing an agency's funding requirements in future years or if programs or projects specifically cited in the Committees' reports are affected.

Prior to initial obligation or reallocation of funds, all congressional reprogramming notifications shall, to the maximum extent practicable, contain detailed information about the sources of the funds and why such funds are no longer intended to be used as previously justified.

The Committee emphasizes that all reports are required to be completed in the timeframe noted in each respective directive. Moreover, the Committee expects that the conditions associated with funding appropriated by this Act shall be accomplished in the manner as directed in the report, consistent with congressional intent.

STAFFING DATA IN BUDGET DOCUMENTS

The Committee continues to direct the Legislative Branch agencies to include in their budget justifications data on FTE levels that would be supported by the associated request or enacted funding levels. The Committee also continues to expect the Legislative Branch Financial Managers Council to coordinate plans for aligning FTE levels with the Legislative Branch agencies for consistency in reporting.

ZERO BASE BUDGETING

While the Committee continues to direct all agencies of the Legislative Branch to develop budget requests from a zero-base, the Committee is concerned that the zero-based budget documents lack sufficient detail for making funding decisions. The Committee believes that there is room for improvement and directs House agencies to work with the Committee to ensure budget documents contain the necessary information for meaningful savings.

CONGRESSIONAL REQUIREMENTS FOR LEGISLATIVE BRANCH CYBER AND PHYSICAL DATA SECURITY

The Committee reiterates that Legislative Branch agencies should consider proactive steps to protect critical Information Technology (IT) infrastructure to secure and protect their data or collections and to plan for disaster recovery. Consistent with the directive in the joint explanatory statement accompanying the Legislative Branch Appropriations Act, 2023, agencies are encouraged to prioritize compliance to ensure continuity of operations for the Legislative Branch.

SCIENCE AND TECHNOLOGY ASSISTANCE FOR CONGRESS

The Committee notes the interest among some Members in re-instituting the Office of Technology Assessment (OTA), which was de-funded in 1995. The Committee is pleased with both the Congressional Research Service (CRS) and the Government Accountability Office's (GAO) efforts to provide research and policy analysis on current and emerging legislative issues related to science and technology (S&T) and Federal uses and oversight of S&T. The Committee encourages the Director of CRS and the Comptroller General to continue their efforts to meet congressional needs and directs a report within 180 days of enactment of this Act regarding efforts made in relation to bridging the gaps identified in the 2019 NAPA report.

Office of the Clerk	\$44,984,000
---------------------------	--------------

The Committee recommends \$44,984,000 for the salaries and expenses of the Office of the Clerk, an increase of \$3,529,000 from the fiscal year 2024 enacted total.

Congressionally Mandated Reports.—The Committee recognizes the value of making statute-required reports more readily available and discoverable. The Committee requests that the Office of the Clerk, in consultation with the Library of Congress, the Government Publishing Office, and the Congressional Data Task Force, author a report describing the challenges and opportunities associated with making these reports more readily available and discoverable. The scope of the report shall include, but not be limited to (1) reports covered by Public Law 117–263 and listed in H. Doc. 118–4; (2) potential impacts, if enacted, of S. 2073, the Eliminate Useless Reports Act of 2023; and (3) if it is feasible that submitted reports to Congress be delivered to House committees electronically via the Clerk’s Committee portal in concert with the Government Publishing Office’s Congressionally Mandated Reports submission portal or GovInfo. The report shall be submitted to the House Committee on Appropriations and the Committee on House Administration within 180 days of enactment of this Act.

Legislative Branch Data Map and Management Plan.—The Legislative branch is the creator and steward of invaluable information in the form of data that is utilized by Congress, federal agencies, and the public to ensure access to a historical record of legislative action. Each House Officer and the myriad of business units within them play an essential role in the life cycle of legislative and operational data. However, one comprehensive data map encompassing legislative documents, records of proceedings, administrative records, official communications, metadata, and operational information related to human resources, disbursements, employment,

and other administrative functions, wholistically examining the lifecycle of this data across the House, does not exist. As such, the Congressional Data Task Force is to take inventory of all current data maps that exist across the House Clerk, Chief Administrative Office, and Sergeant at Arms, and produce a report that (1) details the current status of data maps across the House, (2) identifies where data maps need to be developed and standardized, and (3) make recommendations for the House on how the data maps can be completed and compiled into a single, unified House data map that is maintained into the future. For purposes of this report, only data owned and managed by the House Officers is expected to be included in the data inventory and considered for the recommendations. Any and all data that remains in the ownership of individual Members and committees is considered beyond the scope of this report. Additionally, any data that is owned by the House and then transferred to the Senate or a Legislative Branch agency should be included in the data map but illustrate where those ownership transfers occur. The final report is to be submitted to the House Committee on Appropriations and the Committee on House Administration no later than 120 days after enactment of this Act.

Office of the Sergeant at Arms \$34,141,000

The Committee recommends \$34,141,000 for the salaries and expenses of the Office of the Sergeant at Arms (SAA). This amount is a decrease of \$4,652,000 from the fiscal year 2024 enacted total as a result of the nonrecurrence of certain lifecycle replacements in fiscal year 2024.

Incident Management Tools.—The Committee is aware that the House Sergeant at Arms is investigating emergency communications technology in an effort to enhance the safety and security of Members, their families and staff both on the Hill and in their districts. The SAA is directed to brief the Committee on those efforts within 90 days after issuance of this report.

Cyber Security for Members of Congress.—The Committee commends the Sergeant at Arms for working with the Chief Administrative Officer to expand the Residential Security Program to include certain cybersecurity and privacy resources for Members of Congress to deter, prevent, mitigate, and remediate threats to their home networks and the potential resulting impact of those threats on official House business and encourages the continuation of the cybersecurity opportunity of the program.

Congressional Fellowships.—The Committee believes there should be more formalized guidance provided to congressional offices regarding congressional fellowships. The Committee looks forward to the comprehensive set of best practices governing the onboarding, training, and oversight of fellows serving in congressional offices as directed in House Report 118–120.

District Office Security.—The Committee is in receipt of the District Office Security report as directed in House Report 118–120 and looks forward to working with the Sergeant at Arms to ensure the protection of congressional district office staff and the constituents served.

Gunshot Detection Systems.—The Committee commends the SAA and the United States Capitol Police (USCP) for reviewing the operational need and feasibility of the use of gunshot detection

technology on the grounds of the Capitol complex. The Committee supports the partnership with the Metropolitan Police Department (MPD) and the United States Secret Service (USSS) to determine the most operationally and financially beneficial platform. The Committee looks forward to final evaluation and discussion of integration options to determine the best path forward. The SAA is directed to brief the Committee on the progress within 60 days of enactment of this Act.

Firearm Detection Software.—The Committee encourages the SAA to work with the USCP to investigate whether a patented firearm detection software would complement the existing security infrastructure throughout the United States Capitol complex as well as district offices as a part of a broader security enhancement option. The software must be developed in the United States, without the use of any third party or open-source data. The Committee looks forward to a recommendation upon completion of the review 90 days after enactment of this Act.

Office of the Chief Administrative Officer \$213,072,000

The Committee recommends \$213,072,000 for the salaries and expenses of the Office of the Chief Administrative Officer (CAO), the same as the fiscal year 2024 enacted total.

Office of Talent and Development.—In fiscal year 2024, the Committee supported the CAO in its undertaking to reorganize and streamline internal functions of the House to include (1) creating the Office of Talent and Development; (2) expanding the capacity and ability to promote best practices, tips, and tools available on the House Human Resources Hub; and (3) finding additional efficiencies by eliminating overlap and duplication of programs and service offerings into one central organization. The Committee directs the CAO to issue a report within 90 days of the issuance of this report on the progress and impacts of these efforts.

Access to Childcare.—The House Child Care Center completed its expansion in 2020, but pandemic restrictions required the extra space to be utilized for the reduction in capacity per square feet, allowing the Center to maintain its enrollment size, but not alleviate the three-year waiting list for entry. The CAO is encouraged to continue to expedite the hiring of the faculty necessary to fully utilize the House Child Care Center expansion to reduce the waitlist and maximize this benefit.

Artificial Intelligence Working Group.—The Committee acknowledges the efforts of the CAO’s artificial intelligence (AI) working group to investigate how emerging AI tools could improve the efficiency of House operations. The Committee reminds the CAO of the directive in House Report 118–120, to provide monthly progress briefings to the House Committee on Appropriations and the Committee on House Administration on its work and looks forward to the report examining the near- and mid-term opportunities for generative AI tools, as well as strategies to mitigate new risks.

Allergy Safety in House Dining Facilities.—The Committee underscores the importance of providing an accessible workplace for those with food allergies and awaits the report directed in House Report 118–120 from the CAO on steps taken by food service providers operating within the House of Representatives to accommodate those with food allergies.

International Travel with House Devices.—The Committee recognizes the inherent security risks of taking House devices abroad and notes the House Security Office recommendation that Members and staff use dedicated travel devices when traveling internationally. The Committee looks forward to reviewing the report ordered in House Report 118–120, to identify what additional actions offices can take to keep devices and the House network secure when traveling.

Flag Procurement.—The Committee acknowledges the Chief Administrative Officer’s commitment to support Americans with disabilities in the spirit and intent of the Javits-Wagner-O’Day Act by offering a wide complement of AbilityOne products in the House Supply Store. The Committee encourages the CAO to continue to explore additional marketing opportunities for AbilityOne products and directs the CAO to investigate any potential cost savings opportunities through the procurement of flags through AbilityOne for the Capitol Flag Program and report its findings to the Committee within 120 days of the issuance of this report.

Casework Assistance for Member Offices.—The Committee commends the ongoing efforts by the Chief Administrative Officer to assist Member offices with casework through programs such as the CAO Coach Program for caseworkers, district office conferences, the Agency Connection Center, and the project to anonymize and aggregate constituent casework data. The CAO is directed to further examine what additional assistance could be provided to Member offices to more effectively assist constituents with casework and provide a report detailing what additional efforts could be provided and the resources necessary to support such efforts within 60 days of enactment of this Act to the House Committee on Appropriations and the Committee on House Administration.

Capitol Switchboard Modernization.—The Committee recognizes the vital role the Capitol Telephone Exchange plays in ensuring constituents have the ability to contact their Representative or Senator. The Committee is interested to understand what opportunities may be available to modernize the current system and directs the CAO to track how the typical constituent is routed to a House office, when the peak call times occur, how often the automated system is utilized, and any other pertinent information that could be used to determine how to maximize the efficiency of the system. The CAO shall report to the Committee on its findings 90 days after enactment of this Act.

Office of the Whistleblower Ombuds	\$1,250,000
Office of the Inspector General	5,772,000
Office of General Counsel	2,048,000
Office of the Parliamentarian	2,287,000
Office of the Law Revision Counsel of the House	5,048,000
Office of the Legislative Counsel of the House	15,300,000

Legislative Counsel Member Portal.—The House Office of Legislative Counsel (HOLC) provides legislative drafting services on a non-partisan, impartial, and confidential basis. The Committee acknowledges the essential role and services provided by HOLC in support of the House’s legislative and constitutional responsibilities and recognizes the significant and growing workload by Members and committees in fully meeting legislative drafting needs. The Committee directs HOLC to work with the Chief Administrative

Officer and any other relevant House offices to conduct a feasibility study on the creation of a secure portal, that maintains attorney-client privileges, which would allow House offices the ability to monitor the status of requested bill text and the attorney assigned to each draft. The Committee directs HOLC to report on the feasibility and the resources necessary to create and maintain such a portal within 120 days of the issuance of this report.

The Committee recommendation provides the fiscal year 2025 requested amount of \$3,356,000. Despite the record high average salary ensuring these employment opportunities are competitive, the program has experienced a steep decline in applications. The Committee encourages the Chief Administrative Officer to work with the Committee on House Administration to broaden the pool of potential applicants through programmatic changes, such as allowing active-duty spouses to be incorporated into the program and allowing Members to request extensions for participants.

Office of Congressional Ethics	\$1,810,000

HOUSE OF REPRESENTATIVES MODERNIZATION INITIATIVES ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

Appropriation, fiscal year 2024	\$10,000,000

Change from request	0

The Modernization Initiatives Account continues to be funded at the level of \$10,000,000 to help implement the recommendations of the Modernization Subcommittee, which was created within the Committee on House Administration to continue the work of the Select Committee on the Modernization of Congress. The Com-

mittee believes that investing in these recommendations will improve the efficiency and effectiveness of the House of Representatives so that it can better serve the American people.

Some of the recommendations implemented utilizing this funding include e-Discovery software for House Committee digital investigations, an anonymized constituent data pilot, real time payroll information, a committee portal to streamline committee work, and a study on collaborative legislative drafting tools. The Committee looks forward to receiving and evaluating recommendations currently under review by the Modernization Subcommittee such as: better Congress.gov accounting for Member contributions, co-sponsorship gathering tools, visual display enhancements for hearings and events, the constituent tour management tool, and additional collaborative staff space in the House Office Buildings.

The Committee supports efforts by the Committee on House Administration to expand Member professional development opportunities and provide additional resources for new members as they navigate the first year of legislative responsibilities.

Congressional Staff Directory.—Modern data software provides opportunities for the legislative branch to significantly improve access to identity data while preserving important security rules concerning this sensitive information. Following the report requested in House Report 117–389 and in support of the recommendation by the Subcommittee on Modernization to establish a shared staff directory to enhance the exchange of information and improve collaboration, the Committee authorized funds to develop a prototype as a proof of concept for a Congressional Staff Directory. The Committee continues to encourage other Legislative Branch entity participation and directs the CAO to keep the Committee apprised of this effort.

Capitol Flag Program.—The Capitol Flag Program allows Members of Congress to request a flag to be flown over the U.S. Capitol on behalf of their constituents. Each flag is issued a keepsake Certificate of Authenticity with the option to personalize it. The number of requests and the popularity of the Capitol Flag Program grows steadily each year, necessitating the continuous modernization of how orders are fulfilled. In fiscal year 2024, the Committee provided funding to the CAO to develop a flag tracking system to provide constituents the ability to track flags from order to receipt. The Committee commends the CAO for the launch of a flag tracking pilot program and encourages the expansion of the pilot to more House offices.

The Committee recommends \$1,814,000 for the operation of the Office of Congressional Accessibility Services (OCAS), providing an increase of \$48,000 above fiscal year 2024.

The OCAS provides and coordinates a variety of accessibility services for individuals with disabilities including Members of Congress, staff, and visitors in the United States Capitol complex.

UNITED STATES CAPITOL POLICE

SALARIES

Appropriation, fiscal year 2024	\$588,627,000
Budget request, fiscal year 2025	636,546,000
Committee recommendation	619,257,000
Change from enacted level	+30,630,000
Change from request	-17,289,000

The Committee recommends \$619,257,000 for the personnel salaries, benefits, student loan repayment, and overtime requirements, to include the cost of overtime necessary for providing training of the U.S. Capitol Police (USCP). The recommendation provides full funding for 2,126 sworn officers, as requested, in fiscal year 2025.

Concept of Operations Plan.—In the joint explanatory statement accompanying the Legislative Branch Appropriations Act, 2023, the Committee directed the Department to provide a guide for future operations based on an in-depth, Department-wide assessment. As part of the Department's evaluation of the report, three foundational program areas were identified as the first step toward implementation of the recommendations provided in the report: Establish a Workforce Management/Staffing Office to optimize utilization of human resources; Conduct an organization-wide training gap assessment; and Conduct a comprehensive Technology Analysis and Future Needs Assessment. The Committee provides \$1,657,000 for the personnel required to build an implementation infrastructure to support future recommendation realization.

Civilian Staffing.—While the Committee supports the Department's authorized number of civilians, the Committee's recommendation includes a reduction to the request as the Department's projections for fiscal year 2024 civilian hiring are below the authorized and appropriated levels. The Committee believes it will be difficult to hire the requested civilians for fiscal year 2025.

Motorized Devices.—As noted in House Report 117-389, the Committee expects the Capitol Police to continue its outreach efforts to dockless scooter and bicycle companies and the District of Columbia, and to work to better educate users, including congressional

staff, District residents and visitors, on the appropriate operation of dockless scooters and bicycles on Capitol Grounds.

Risk-Based Protections for Members of Congress.—The Committee continues to expect the U.S. Capitol Police Chief to continue working closely with the House and Senate Sergeants at Arms and local law enforcement partners on the USCP strategy for Members’ protection within the NCR while outside the Capitol Grounds, and to educate Member offices on this topic. The Committee instructs the U.S. Capitol Police Chief to coordinate with the House and Senate Sergeants at Arms to direct patrols to buildings or locations where the Members tend to congregate in order to fulfill its mission under 2 U.S.C. 1966.

Use of Grounds.—As instructed in House Report 117–389, the USCP should continue to forebear enforcement of 2 U.S.C. 1963 and the Traffic Regulations for the United States Capitol Grounds when encountering snow sledders on the grounds.

USCP Office of Inspector General.—The Committee includes no less than \$850,000 and supports no fewer than 15 FTE within the USCP Office of Inspector General (OIG). The Committee appreciates the diligent work that the OIG has done with the increased workload due to Committee and Board project requests. As the Department’s budget increases, the complexities of the financial statement audit have necessitated its outsourcing so that the OIG may continue to fulfill its statutory responsibilities for auditing Department programs and operations to ensure efficacy and investigation of complaints for potential fraud, waste, or abuse.

GENERAL EXPENSES

Appropriation, fiscal year 2024	\$202,846,000
Budget request, fiscal year 2025	263,844,000
Committee recommendation	213,158,000
Change from enacted level	+10,312,000
Change from request	– 50,686,000

The Committee recommends \$213,158,000 for general expenses to support the responsibilities for law enforcement, Capitol complex physical and technological security, dignitary protection, intelligence analysis, event management, hazardous material/devices, IT, and other specialized responses, as well as logistical and administrative support. Of the total, \$5,848,000 shall remain available until September 30, 2029, to support Congressional Continuity of Operations (C–COOP) initiatives.

General Expenses for Fiscal Year 2025.—The Committee supports resourcing the Department to meet its essential needs and that the Department can fulfill its mission with a minimal increase of funding for general expenses. The Capitol Police’s budget has seen a significant increase in recent years, which has been widely supported, but the Committee acknowledges that full execution of funding has been a challenge. The recommendation should not be taken as a lack of support for the Capitol Police or its mission, but rather in line with a requirement for prudent fiscal decisions.

Concept of Operations Plan.—In the joint explanatory statement accompanying the Legislative Branch Appropriations Act, 2023, the Committee directed the Department to provide a guide for future operations based on an in-depth, Department-wide assessment. As part of the Department’s evaluation of the report, three

foundational program areas were identified as the first step toward implementation of the recommendations provided in the report: Establish a Workforce Management/Staffing Office to optimize utilization of human resources; Conduct an organization-wide training gap assessment; and Conduct a comprehensive Technology Analysis and Future Needs Assessment. The Committee provides \$745,000 to build an implementation infrastructure to support future recommendation realization.

Congressional Continuity of Operations Plan.—The Department’s fiscal year 2025 budget included a \$49,400,000 funding request to support the C-COOP. The Committee believes this is a priority as part of the Department’s core mission and therefore supports the Department having an independent, in-house response and deployment capability to allow it to respond to changing environments, and, ultimately, to protect Members of Congress and recommends \$5,848,000 to build IT capabilities to establish connectivity and radio communication capabilities, research development and training, as well as physical security requirements including deployable screening equipment, mobile vehicle barriers, mobile kiosks, and deployable barriers.

USCP Office of the Inspector General Report Disclosure.—In response to previous House Reports 117–80 and 117–389, the Committee is encouraged that the Office of the Inspector General has begun making its reports publicly available whenever practicable and has started publishing reports on its website. The Committee is supportive of the process initiated by the Office of the Inspector General to gain approval for the public posting of its reports and directs the Capitol Police Board to further these efforts to expedite the process.

Wellness Programs for Law Enforcement.—The Committee appreciates the efforts undertaken by the USCP to develop and implement a holistic wellness and resiliency program for its workforce, including the Howard C. ‘Howie’ Liebengood Center for Wellness. The Committee looks forward to receiving the report directed in House Report 118–120 to gain insights into the wellness program and its accessibility to the USCP workforce.

Now in its final year of funding, the Committee expects the AOC to use lessons learned from this renewal project as it moves forward in planning for other building restoration and renewal projects.

The AOC is reminded of the administrative provision in the bill prohibiting funding for incentive or award payments to contractors for projects that are behind schedule or over budget.

Integrated Pest Management.—The Committee recognizes the importance of proactive pest management and mitigation to ensure a safe, healthy, and productive workplace. The Committee is in receipt of the Architect of the Capitol's Integrated Pest Management Program report and has included the funding necessary to enhance pest control measures for the House Office Buildings to support the AOC's efforts in proactive pest management and mitigation.

Working and Service Dog Necessities.—In House Report 117–389, the Committee directed the AOC to provide a report on what facilities currently exist around the Capitol Complex for K–9s and service dogs and to provide recommendations to address any shortcomings. Based on the recommendations provided in the report, the AOC is encouraged to complete planned studies and previously funded projects to increase the space available for K–9s and coordinate with the House Office Building Commission to identify proposed locations for service relief areas that are accessible, meet ADA standards, and Architectural Review Board standards to preserve the historic fabric of the Capitol complex. In addition, to encourage responsible pet ownership and to maintain a clean and hygienic environment, the AOC is directed to report to the Committee within 60 days of enactment of this Act, the requirements, suggested locations, and funding necessary to provide and maintain pet waste disposal stations on the House Office Building grounds.

Dome Tour Transparency.—The Committee understands the special privilege afforded only to Members of Congress to schedule tours of the U.S. Capitol Dome. Due to the uniqueness of this opportunity and the volume of requests, it has become increasingly challenging for Member offices to reserve a Dome tour. Accordingly, the Committee directs the U.S. Capitol Visitor Center in coordination with other relevant entities to provide a report on policies and procedures associated with Dome tours and to develop recommendations for how the reservation process can become more efficient, to include recommendations for an online booking platform. The report should include short and long-term recommendations for actions that can be implemented to improve equitable access to Member offices to reserve Dome tours and be provided no later than 60 days after enactment of this Act.

Among its major programs are acquisitions, preservation, administration of United States copyright laws by the Copyright Office, research and analysis of policy issues for the Congress by the Congressional Research Service, and administration of a national program to provide reading material to the blind and print disabled. The LOC maintains a significant number of collections and provides a range of services to libraries in the United States and abroad.

Archival Preservation of Central and Eastern European Collections.—The Committee recognizes the cultural contributions of the American diasporic groups from nations and communities of the former Soviet Union and its Republics and appreciates the value in preserving their histories and traditions. The Committee commends the important work the Library of Congress is doing to identify, collect, and archive stories, documents, and other historical materials from cultural and ethnic diasporas across Europe and requests the Library further strengthen its partnerships with museums, non-profits, and ethnic heritage centers across the country to collect additional stories, documents and visual materials and recordings from families and institutions dedicated to Eastern and Central European historical collections, and encourages the Library to disseminate them for public use.

Preservation of America’s Civil Rights Legacy Abroad.—The Committee continues to support the Library of Congress’s efforts to make available, as appropriate, their expertise for projects aimed at preserving America’s civil rights history abroad.

COPYRIGHT OFFICE

able from receipts for salaries and expenses for a total of \$105,642,000.

Copyright Modernization.—Few government bodies are more important to the growth of creativity and commercial artistic activity in our nation than the Copyright Office. The Committee continues to support the Copyright Office’s efforts to modernize its IT infrastructure to effectively serve its customers. The Librarian of Congress shall coordinate with the Director of the Copyright Office in implementing its information technology continuous development plan, and the Library shall expend funds on IT infrastructure for the Copyright Office in furtherance of that plan. The Committee encourages the Librarian of Congress to remain sensitive to the specialized requirements of the Copyright Office as the Office implements its IT continuous development in conjunction with the overall Library IT modernization effort.

Copyright Expertise.—The Committee continues to support the Office’s use of funds to offer expertise on copyright matters to the Executive Branch, including participation in international discussions. Consistent with historical practice, the Committee expects the Library to continue to defer to the copyright expertise of the Register of Copyrights and to ensure direct consultation between the Copyright Office and Congress.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

Appropriation, fiscal year 2024	\$136,080,000
Budget request, fiscal year 2025	142,860,000
Committee recommendation	141,487,000
Change from enacted level	+5,407,000
Change from request	–1,373,000

The Committee recommends \$141,487,000 for salaries and expenses of Congressional Research Service (CRS), which supports Members and Committees in legislative, oversight, and representational functions by providing nonpartisan and confidential research and policy analysis. The organization provides an important service for Members and staff, publishing hundreds of reports annually and providing briefings on pertinent policy issues considered by Congress. The expert nonpartisan analysts at CRS keep Congress informed, contributing to intelligent and responsible policymaking.

Expanding the Congressional Liaison Directory.—Congressional constituent service staff rely on the Congressional Research Service’s online directory of about 200 congressional liaison offices to determine appropriate contacts for casework. To further assist staff in expediting communications and correspondence with government agencies on behalf of constituents, CRS is directed to report to the Committee within 60 days of enactment of this Act, on the feasibility of expanding the legislative liaison list to include localized and regional agency contact information as well as including agency policies regarding Privacy Act release forms in its directory.

Congressional Research Service Detailees.—CRS analysts detailed to Congressional committees can offer a tremendous asset to both organizations, though it is noted that details are less common now than in the past, partially due to staffing challenges and the structure of CRS portfolios making an analyst’s absence pronounced and

management of congressional inquiries more difficult. Given the interest in CRS details to Congressional committees, the Committee requested a report from the Director of CRS in House Report 118–120 and looks forward to its findings.

Continuing Education for Congressional Staff.—In House Report 117–80, the Committee recommended the creation of a Legal Institute with introductory and advanced programs, geared towards senior Congressional staff who have not attended law school, which would educate participants on legal fundamentals that inform Congress’s lawmaking and oversight functions. The Committee commends CRS on the success of the Congressional Legal Education Forum and provides \$1,000,000 to continue to develop and expand the program.

This business-like fund is used to pay GPO's costs in performing or procuring from private-sector sources, congressional and agency publishing, information product procurement, and publication dissemination activities. The fund is reimbursed from payments from customer agencies, sales to the public, appropriations to the fund, and transfers from GPO's two annual appropriations.

GPO Office of Inspector General.—The agreement includes no less than \$6,899,000 to support no fewer than 25 FTE within the GPO OIG.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

Appropriation, fiscal year 2024	\$811,894,000
Budget request, fiscal year 2025	915,957,000
Committee recommendation	896,700,000
Change from enacted level	+84,806,000
Change from request	- 19,257,000

Established by the Budget and Accounting Act of 1921, the Government Accountability Office (GAO) works for Congress by responding to requests for studies of Federal Government programs and expenditures and may also initiate its own work. The Committee recommends \$896,700,000 in direct appropriations for GAO. In addition, \$33,424,000 is available in offsetting collections derived from reimbursements for conducting financial audits of government corporations and the rental of space in the GAO building. The Committee recommendation includes an increase to the direct appropriation in large part due to the significant decrease in offsetting collections for fiscal year 2025.

Agency Responsiveness to Congressional Inquiries on Behalf of Constituents.—The Committee requests the Government Accountability Office, within 270 days of enactment of this Act, to study the current status of responsiveness to House of Representative office inquiries on behalf of constituents seeking assistance at select Federal agencies. The study should make recommendations for minimum standards and agency personnel and technology needs to provide accurate and timely responses to Congressional inquiries, as appropriate.

Driving Implementation of Open GAO Recommendations.—GAO report recommendations have the potential to save billions of dollars and greatly improve government operations. The Committee believes that a way to increase recommendation implementation and hold agencies accountable for implementing them in a timely way is for GAO to establish a timeframe in which a recommendation should be able to be fully implemented. As such the Committee directs GAO to develop and implement a pilot to evaluate the efficacy of including implementation timeframes when it makes recommendations. Among other things, the pilot will examine whether including this information increases agencies’ implementation rates and timeliness. GAO should brief the Committee on the results of this pilot and make recommendations of whether the pilot should be made permanent within two years of the start of the pilot. The Committee expects agencies to provide GAO the necessary information to develop implementation timeframes.

Community Funding Projects.—The Committee directs the GAO to again undertake an audit of Community Project Funding contained in fiscal year 2025 appropriations legislation. The audit shall include the same characteristics GAO adhered to in its fiscal year 2022 CPF directive after consulting with the Committees on Appropriations. In conducting its audit, GAO shall provide periodic briefings and reports based on available data to the Committees.

Outreach to Congressional Staff.—The Committee requests that legislative support agencies take steps to ensure that their products, services, and outreach are designed to adapt and meet the customer needs of an evolving Congress. As such, the Committee

requests that GAO expand its outreach to better inform Congress of the products and services the agency provides.

Duplicative Government Programs.—Each year, GAO identifies and reports on Federal agency programs with fragmented, overlapping, or duplicative goals or activities and ways to reduce costs or enhance revenue. The Committee continues to direct GAO to issue these reports and urges the Executive Branch to address duplicative programs.

GAO Office of Inspector General.—The agreement includes no less than \$2,451,000 to support no fewer than 14 FTE within the GAO OIG. The Committee believes that independence between legislative branch OIGs and their respective reporting agencies is important and reminds the GAO that the budget and FTE amounts in the report are expected to be provided as a floor for the OIG to conduct its oversight mission. Additionally, the Committee is aware of the OIG’s request to separate its budget from the agency and requests that the IG provide the Committee with a quarterly spend plan as the Committee considers this request.

CONGRESSIONAL OFFICE FOR INTERNATIONAL LEADERSHIP

Appropriation, fiscal year 2024	\$6,000,000
Budget request, fiscal year 2025	7,200,000
Committee recommendation	6,600,000
Change from enacted level	+600,000
Change from request	–600,000

The Committee recommends \$6,600,000 for salaries and expenses of the Congressional Office for International Leadership.

Financial Audit.—The Committee acknowledges that while the Library of Congress’s Office of Inspector General traditionally conducts the annual financial statement audit for the Congressional Office for International Leadership (COIL), the agency is considering using an alternative contractor as a potential cost savings measure. COIL is directed to keep the House Committee on Appropriations and the Committee on House Administration apprised of any plans to replace, cease, or modify its existing relationship with its current auditor.

Ukraine.—The Committee continues to be deeply troubled by the Russian invasion of Ukraine and supports COIL’s engagement with Ukrainians outside of Ukraine to maintain democratic advancement throughout wartime.

Poland.—The Committee continues to support COIL’s efforts to explore increased exchange with Poland as a former Communist country.

Hungary.—The Committee continues to support COIL’s efforts to explore increased exchange with Hungary as a former Communist country.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING
AND DEVELOPMENT

- (B) 7,500 light duty alternative fueled vehicles in fiscal year 1994; and
- (C) 10,000 light duty alternative fueled vehicles in fiscal year 1995.

(2) The Secretary shall allocate the acquisitions necessary to meet the requirements under paragraph (1).

(b) PERCENTAGE REQUIREMENTS.—(1) Of the total number of vehicles acquired by a Federal fleet, at least—

- (A) 25 percent in fiscal year 1996;

(2) The Secretary, in consultation with the Administrator of General Services where appropriate, may permit a Federal fleet to acquire a smaller percentage than is required in paragraph (1), so long as the aggregate percentage acquired by all Federal fleets is at least equal to the required percentage.

(3) For purposes of this subsection, the term “Federal fleet” means 20 or more light duty motor vehicles, located in a metropolitan statistical area or consolidated metropolitan statistical area, as established by the Bureau of the Census, with a 1980 population of more than 250,000, that are centrally fueled or capable of being centrally fueled and are owned, operated, leased, or otherwise controlled by or assigned to any Federal executive department, military department, Government corporation, independent establishment, or executive agency, the United States Postal Service, the Congress, the courts of the United States, or the Executive Office of the President. Such term does not include—

(d) APPLICATION OF REQUIREMENTS.—The provisions of section 400AA of the Energy Policy and Conservation Act relating to the Federal acquisition of alternative fueled vehicles shall apply to the acquisition of vehicles pursuant to this section.

(e) RESALE.—The Administrator of General Services shall take all feasible steps to ensure that all alternative fueled vehicles sold by the Federal Government shall remain alternative fueled vehicles at time of sale.

(f) VEHICLE EMISSION REQUIREMENTS.—

(1) DEFINITIONS.—In this subsection:

(2) PROHIBITION.—

(A) IN GENERAL.—Except as provided in subparagraph (B), no Federal agency shall acquire a light duty motor vehicle or medium duty passenger vehicle that is not a low greenhouse gas emitting vehicle.

(B) EXCEPTION.—The prohibition in subparagraph (A) shall not apply to acquisition of a vehicle if the head of the agency certifies in writing, in a separate certification for each individual vehicle purchased, either—

(i) that no low greenhouse gas emitting vehicle is available to meet the functional needs of the agency and details in writing the functional needs that could not be met with a low greenhouse gas emitting vehicle; or

(ii) that the agency has taken specific alternative more cost-effective measures to reduce petroleum consumption that—

(I) have reduced a measured and verified quantity of greenhouse gas emissions equal to or greater than the quantity of greenhouse gas reductions that would have been achieved through acquisition of a low greenhouse gas emitting vehicle over the lifetime of the vehicle; or

(II) will reduce each year a measured and verified quantity of greenhouse gas emissions equal to or greater than the quantity of greenhouse gas reductions that would have been achieved each year through acquisition of a low greenhouse gas emitting vehicle.

[(C) SPECIAL RULE FOR VEHICLES PROVIDED BY FUNDS CONTAINED IN MEMBERS’ REPRESENTATIONAL ALLOWANCE.—This paragraph shall apply to the acquisition of a light duty motor vehicle or medium duty passenger vehicle

using any portion of a Member's Representational Allowance, including an acquisition under a long-term lease.】

(3) GUIDANCE.—

(A) IN GENERAL.—Each year, the Administrator of the Environmental Protection Agency shall issue guidance identifying the makes and model numbers of vehicles that are low greenhouse gas emitting vehicles.

(B) CONSIDERATION.—In identifying vehicles under subparagraph (A), the Administrator shall take into account the most stringent standards for vehicle greenhouse gas emissions applicable to and enforceable against motor vehicle manufacturers for vehicles sold anywhere in the United States.

(C) REQUIREMENT.—The Administrator shall not identify any vehicle as a low greenhouse gas emitting vehicle if the vehicle emits greenhouse gases at a higher rate than such standards allow for the manufacturer's fleet average grams per mile of carbon dioxide-equivalent emissions for that class of vehicle, taking into account any emissions allowances and adjustment factors such standards provide.

2. The bill includes several provisions which place limitations on or change or extend existing limitations, appropriations, or authorizations, and which under some circumstances might be construed as changing the application of existing law.

3. The bill continues the practice of providing official reception and representation allowances for officers and offices of the Legislative Branch.

4. The bill authorizes disbursement of funds for various agencies.

5. The bill authorizes transfer authority between accounts for certain agencies in the bill.

1/ Budget Amendment dated May 22, 2024

MINORITY VIEWS

We appreciate the efforts of Chairman Valadao and his staff to produce the Legislative Branch bill for Fiscal Year 2025. The bill includes requests submitted by the Democratic Committee however, this bill, like several others that the House Appropriations Committee recently reported, continues the Majority's obsession with including harmful and divisive policy riders that aim to divide our country and have no place in a Legislative Branch bill.

The bill includes \$5.5 billion in discretionary appropriations to fund the offices of the House of Representatives and joint legislative branch items, an increase of \$189 million (or 3.5%) over the FY24 enacted level.

The problem with this bill is not its funding levels. As a matter of fact, the funding levels included in this bill will build upon our investments in the Legislative Branch that have enabled us to better serve the American people. The problem with this bill is its harmful policy riders that undo the sensible, historical restrictions in statute on compensation for outside work for certain Members of Congress, hurt our ability to attract and retain diverse and talented staff, and unwind important measures that ensure we are doing our part to protect the environment.

The bill's reasonable funding levels are proof that House Republicans are capable of writing bills that can get bipartisan support and have a path to becoming law—if they could simply abandon their obsession with partisan riders which they know will be removed from the final agreement.

This House should make every effort to be reflective of the entire nation we serve, and the districts Members represent.

The Legislative Branch bill should never be a place for divisive politics. The Legislative Branch bill should be used to ensure Congress has the tools it needs to legislate and support the constituents we serve.

ROSA DELAURO.
ADRIANO ESPAILLAT.
