PROCLAMATION 2583

NATIONAL MARITIME DAY, 1943

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the sailing of the steamship *The Savannah* on May 22, 1819, from Savannah, Georgia, on the first successful transoceanic voyage under steam propulsion made a significant contribution to the advancement of transportation by sea; and

WHEREAS in commemoration of this achievement the Congress by joint resolution approved May 20, 1933 (48 Stat. 73) designated May 22 of each year as "National Maritime Day" and requested the President to issue annually a proclamation calling upon the people of the United States to observe that day; and

WHEREAS the support of our overseas forces and the rendering of aid to our allies depend upon the steady movement of cargo along the ocean tracks—a movement now maintained by the courageous seamen of our merchant marine in resolute defiance of the enemy above, beneath and on the surface of the seas:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby call upon the people of the United States to observe May 22, 1943 as National Maritime Day by displaying the flag at their homes or other suitable places, and I direct that the flag be displayed on all Government buildings on that day.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 24th day of April in the year of our Lord nineteen hundred and forty-three and of the Independence of the United States of America the one hundred and sixty-seventh.

FRANKLIN D. ROOSEVELT

By the President:

CORDELL HULL,
Secretary of State.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act

of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 15, and praying that no permanent price classifications or minimum prices be established for the coals of the Little Jim Mine (Mine Index No. 1667), located in Putnam County, Missouri, pending the entry of a final Order in Docket No. A-179; and

PART 1010—SUSPENSION ORDERS [Suspension Order S-292]

PERMANENT SIGN DISPLAY COMPANY

Samuel F. Blatt is the sole owner of the business known as Permanent Sign Display Company, located at 1811 Center Avenue, Reading, Pennsylvania, and is engaged in the manufacture of signs, calendars and advertising novelties. Subsequent to August 15, 1942, the Permanent Sign Display Company put into process iron and steel to make advertising novelties and subsequent to September 15, 1942, it assembled them. Advertising novelties are an item appearing on Supplementary List A of Conservation Order M-126, and both their manufacture and assembly are prohibited. Prior to August 15, 1942, the Permanent Sign Display Company had knowledge of the provisions of Conservation Order M-126 and, therefore, the processing and assembling of iron and steel as aforesaid, constituted a willful violation of the order.

These violations of Conservation Order M-126 have hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing facts: It is hereby ordered, That:

§ 1010.292 *Suspension Order No. S-292.* (a) Samuel F. Blatt, doing business as Permanent Sign Display Company, or otherwise, his or its successors and assigns, shall not receive, process, fabricate or use any of the metals specified on the metals list attached to Priorities Regulation No. 11, in any form, nor shall Samuel F. Blatt, doing business as Permanent Sign Display Company or otherwise, his or its successors and assigns, assemble any article or item containing or to which is attached, any of the metals specified in the metals list attached to Priorities Regulation No. 11, in any form, unless hereafter specifically authorized in writing by the War Production Board.

(b) The provisions of this order shall not be applicable to orders bearing a preference rating of AA-2X or higher.

(c) Nothing contained in this order shall be deemed to relieve Samuel F. Blatt, doing business as Permanent Sign Display Company, or otherwise, his or its successors and assigns, from any restriction contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on April 28, 1943, and shall expire on July 28, 1943, at which time the restrictions contained in this Order shall be of no further effect.

Issued this 26th day of April 1943.

PART 1001—TIN

[Supplementary Order M-43-b as Amended
April 27, 1943]

Section 1001.3 *Supplementary Order M-43-b*, is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of tin for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1001.3 *Supplementary Order M-43-b—(a) Definition.* For the purpose of this order:

"Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(b) *Restriction on use of tin in certain gas meters.* After February 15, 1943, no person shall use tin-bearing solder or other tin-bearing material in the adjustment, repair, or resealing of any tin-cased gas meter having a rated capacity of less than 300 cu. ft. per hour except:

(1) A meter which is found not to be accurate within an accuracy range of plus or minus 4% when tested by standard meter prover tests;

(2) A meter which has not been previously repaired for twelve years or more;

(3) A meter which has developed an opening through which gas escapes in the outside case or connections; or

(4) A meter which has a functional defect other than mere failure to register accurately within the range specified in subparagraph (b) (1) above.

The restrictions of this paragraph (b) shall not apply to any such gas meter which was withdrawn prior to January 26, 1943, for the purpose of testing and returning it to service. Furthermore, nothing contained in this paragraph (b) shall prevent the repair or resealing of any tin-cased gas meter if the only tin-bearing solder or other tin-bearing material used for such purpose is derived from material reclaimed from meters brought in for repair.

(c) *Appeals and communications.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. Such appeals and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Tin and Lead Division, Washington, D. C., Reference: M-43-b.

(d) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 27th day of April 1943.

(a) *Definitions.* (1) "Can" means any unused container which is made in whole or in part of tinplate, terneplate, blackplate, or waste, and which is suitable for packing any product. The term includes any container closure or fitting made in whole or in part of tinplate, terneplate, blackplate, or waste, but does not include a closure or fitting to be used on or as a part of a glass container. The term does not include fluid milk shipping containers, as defined in Conservation Order M-200.

(2) "Tinplate" means any sheet steel coated with tin and includes "primes", "seconds", "waste-waste" (except "electrolytic waste-waste"), and all other forms of tinplate except waste.

(3) "Terneplate" means sheet steel coated with a lead-tin alloy, and in-

cludes "primes", "seconds", "waste-waste", and all other forms of terneplate except waste.

(4) "Blackplate" means any sheet steel 29-gauge or lighter, other than tinplate or terneplate. The term includes "blackplate rejects" and "electrolytic waste-waste", and all other forms of blackplate except waste.

(5) "Waste" means scrap tinplate, terneplate, and blackplate, produced in the ordinary course of manufacturing cans.

(6) "Pack", unless particularly specified, means the quantity, by area measurement of tinplate, terneplate, and blackplate required for the manufacture of all sized cans used by a person for packing a particular product during the base period specified.

(b) *Restrictions upon manufacture, sale, and delivery of cans.* (1) No person shall sell or deliver any can except under a purchase order or contract validated by a delivery to such person of a purchaser's certificate, manually signed by the purchaser or an authorized official of the purchaser, in substantially the form attached hereto as Exhibit A. No person shall manufacture, sell, or deliver any can which he knows or has reason to believe will be used in violation of any provision of this order.

(2) No person shall manufacture any can smaller than 5 gallons, with ears, balls, or handles.

(c) *Restrictions upon purchase, acceptance of delivery, and use of cans.*

(1) No person shall, during the calendar year 1943 (or the seasonal year 1942-1943, when specified), purchase, accept delivery of, or use for packing a product any can except to the extent permitted in Schedules I, II, and III, attached to this order: *Provided, however,* That a jobber or retail store may obtain and sell cans in conformity with the provisions of this order.

(2) The schedules attached to this order list the only products permitted to be packed in cans, packing quotas, sizes of cans, and the kinds of plate permitted for the manufacture of cans.

The calendar year basis shall obtain except for products for which a seasonal year is specified. A seasonal year for a particular product represents a twelve months' period beginning in one calendar year and ending in the next.

The sizes of the can specified for a particular product indicate the only sized cans which may be used for packing that product, except that such product may, subject to all other restrictions imposed by this order, be packed in cans larger than the largest size specified therefor.

When tinplate is specified for the manufacture of cans for packing a particular product, the coating indicated represents the maximum weight of tin coating per single base box. When SCMT is specified, Special Coated Manufacturers' Terneplate is referred to. When blackplate is specified, the specification includes chemically treated blackplate (CTB).

(3) No product packed in a can shall be repacked for sale in a can or any other container by the same or a different person in the same or a different

form except to the extent specifically permitted in the schedules attached to this order or pursuant to Conservation Order M-104.

(4) No dried or frozen fruit or vegetable shall be packed in a can, except to the extent specifically permitted in the schedules attached to this order.

(d) *Exceptions.* (1) The restrictions imposed by this order shall not apply to the purchase, acceptance of delivery, or use of the following cans:

(i) Cans for packing any product which is not to be sold.

(ii) Fiber or paper bodied cans with ends made of waste, for packing any food product for human consumption, and antiseptic or medicinal powders.

(iii) Open-top sanitary tinplate cans for packing any products listed in Schedules I and II attached to this order: *Provided*, (1) The packer has packed and set aside the full amount of any such product which he is required to set aside pursuant to Food Distribution Order No. 22 and orders supplementary thereto; (2) the cans are not of any of the specific sizes listed for open-top sanitary cans in Schedules I and II; and (3) the cans either were manufactured on or before December 9, 1942, or were or are manufactured from parts lithographed, cut to individual size, or partially assembled on or before December 9, 1942, and/or from parts produced from tinplate which, on or before December 9, 1942, was so processed or was of such size, gauge or grade that it is not suitable for the manufacture of tinplate cans of the types and sizes permitted by this order (exclusive of cans for which "frozen tinplate" is specified).

(iv) Cans (other than open-top sanitary tinplate cans) for packing any product listed in Schedules I, II, and III or, if the cans are not suitable for any such product, for packing any product not so listed: *Provided*, That, in either event, the cans (1) are not of any of the specific sizes listed, in the schedules attached to this order, for the products for which the cans were originally designed and (2) either were completely manufactured on or before December 9, 1942, or were or are manufactured from parts cut to individual size for such cans on or before December 9, 1942.

(v) Cans for packing any product not listed in Schedules I and II attached to this order, when such cans are to be

delivered pursuant to a letter of intent approved by, or a purchase order or contract negotiated for or with the Army, Navy, Marine Corps, Maritime Commission, or War Shipping Administration of the United States.

(2) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of appeal.

(3) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: Containers Division, War Production Board, Washington, D. C. Ref.: M-81.

(4) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further delivery of, or from processing or using, material under priority con-

trol and may be deprived of priorities assistance.

SCHEDULE I—FOOD CANS

NOTE: Items 4, 35, 41, 48, and 57 were amended and items 8, 13, 29, 30, 31, 32, 46, 63, and 66 were added April 27, 1943.

(1) Packing quotas specified in this Schedule I indicate total packs of the respective products listed, for all purposes including cans required by any order of the War Production Board, the Department of Agriculture, or the Director of Food Distribution, to be set aside for purchase by a government agency. The designation FDO-22 indicates that cans may be used for packing only the quantity of product required to be set aside by Food Distribution Order No. 22 and orders supplementary thereto, as same may be amended from time to time. Such quantity is hereinafter sometimes referred to as "set aside quotas."

(2) All persons manufacturing cans shall, to the greatest extent available, use 0.50 tinplate wherever the single asterisk appears, in columns (4) or (5), and chemically treated blackplate wherever the double asterisk appears. All persons using cans marked with the asterisk, are hereby required to accept from the manufacturer making delivery, to the greatest extent available, cans made as specified of 0.50 tinplate wherever the single asterisk appears; and cans made as specified of chemically treated blackplate wherever the double asterisk appears. Wherever the double asterisk appears, to the extent that chemically treated blackplate is not available, 0.50 tinplate is to be used by manufacturers, and cans made therefrom accepted by users, to the greatest extent available, in preference to 1.25 tinplate.

(3) Wherever the triple asterisk appears in Column (3) for any product, every canner who possesses No. 10-size can equipment shall pack his entire set-aside quota in No. 10

cans, if the fullest practicable use of that equipment provides sufficient capacity. If such use does not provide sufficient capacity, he shall pack as much of the set-aside quota in No. 10 size cans as such capacity does permit and shall pack the balance of that quota in the other sizes of cans permitted for the particular product.

SCHEDULE II—FOOD CANS

NOTE: Items 1, 2, 4d, and 14 were amended, and item 21 was added April 27, 1943.

(1) Packing quotas specified in this Schedule II indicate permitted packs of the respective products listed, for all purposes except for the Army, Navy, Marine Corps, Maritime Commission, War Shipping Administration of the United States, or for any agency of the United States purchasing for a foreign country, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States (Lend Lease Act)". While restrictions pertaining to can sizes and can materials are applicable to such cans, cans used for packing the respective products listed shall be in addition to the specified quotas, when delivered pursuant to a letter of intent approved by, or a contract or purchase order negotiated with or for, any of the foregoing agencies. The word "none" indicates that no cans shall be used for packing the applicable product except for the above-mentioned agencies. When determining a quota for packing a product listed in this Schedule II, cans packed during the base period (1942) for the above-mentioned agencies shall be excluded.

(2) All persons manufacturing cans shall, to the greatest extent available, use 0.50 tinplate wherever the single asterisk appears, and chemically treated blackplate wherever the double asterisk appears. All persons using cans marked with the asterisk, are hereby required to accept from the manufacturer making delivery, to the greatest extent available, cans made as specified of 0.50 tinplate wherever the single asterisk appears; and cans made as specified of chemically treated blackplate wherever the double asterisk appears.

Wherever the double asterisk appears, to the extent that chemically treated blackplate is not available, 0.50 tinplate is to be used by manufacturers and cans made therefrom accepted by users, to the greatest extent available, in preference to 1.25 tinplate.

Frozen tinplate, terneplate or blackplate means only tinplate, terneplate or blackplate which, since prior to December 9, 1942, has been held in the inventory of a can manufacturer (or in the inventory of a supplier of such plate, having been produced for the account of a can manufacturer) because it had been so processed,

or was of such size, gauge or grade, that it was not suitable for the manufacture of cans for which tinplate, terneplate or blackplate are specified, without qualifications, in the "Can Material" columns of the schedules attached to the said order. (Issued February 22, 1943.)

PART 1200—CIVILIAN DEFENSE HELMETS
[Limitation Order L-105 as Amended April 27, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials entering into the production of civilian defense helmets for the war effort, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the war effort:

§ 1200.1 *General Limitation Order L-105*—(a) *Definition*. For the purposes of this order, "civilian defense helmet" means any helmet or hat designed or adapted for civilian use in connection with air raids, air raid drills or other civilian defense activities. The term shall not include any head covering consisting entirely (except for trimmings) of cloth.

(b) *General restrictions*. No person shall manufacture any civilian defense helmet, or part or component thereof, except:

(1) Under purchase order from the Office of Civilian Defense, or other agency or department of the United States, or

(2) For delivery to a foreign country pursuant to the Act of Congress of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), or

(3) From fabricated or semi-fabricated parts or material which on April 29, 1942 were in process of manufacture into civilian defense helmets.

(c) *Application of Priorities Regulation No. 1*. This order and all transactions affected hereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(d) *Reports*. All persons affected by this order shall execute and file such reports and questionnaires as the War Production Board shall, from time to time, prescribe.

(e) *Records*. All persons affected by this order shall keep and preserve for not less than two years, accurate and complete records concerning inventories, production and sales.

(f) *Audit and inspection*. All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(g) *Violations and false statements*. Any violation of this order is a criminal offense. In addition, any person who violates this order, or who by any act or omission falsifies any records to be kept or information to be furnished pursuant to this order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under sec-

tion 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeal*. Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him or would disrupt or impair a program of conversion from non-war to war work, may appeal to the War Production Board, setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The War Production Board may thereupon take such action as it deems appropriate.

(i) *Communications*. All reports required to be filed hereunder and communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Safety and Technical Equipment Division, Washington, D. C. Ref.: L-105.

Issued this 27th day of April 1943.

establish maximum prices for sales of relaying rail which differ in certain respects from those established by Revised Price Schedule No. 46—Relaying Rail,¹ and also to establish maximum prices for used track accessories. The Price Administrator has ascertained and given due consideration to the prices of relaying rail, relaying girder rail and used track accessories between October 1 and 15, 1941, and has made adjustments for such relevant factors as he has determined to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are, and will be, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

§ 1306.251 *Maximum prices for relaying rail, relaying girder rail and used track accessories.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 as amended, and Executive Order No. 9250, Maximum Price Regulation No. 46 (Relaying Rail, Relaying Girder Rail and Used Track Accessories), which is annexed hereto and made a part hereof, is hereby issued.

SECTION 1 *Maximum prices*—(a) *Relaying rail.* On and after December 2, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer relaying rail, and no person shall buy, offer to buy, or accept delivery of relaying rail, at prices higher than the maximum prices set forth in Appendix A.

(b) *Relaying girder rail.* On and after December 19, 1942, regardless of the

terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer relaying girder rail, and no person shall buy, offer to buy, or accept delivery of relaying girder rail, at prices higher than the maximum prices set forth in Appendix B.

(c) *Used track accessories.* On and after May 1, 1943, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer used track accessories, and no person shall buy, offer to buy, or accept delivery of used track accessories, at prices higher than the maximum prices set forth in Appendix C.

SEC. 2 *Less than maximum prices.* Lower prices than those set forth in Appendices A, B and C may be charged, demanded, paid or offered.

SEC. 3 *Evasion.* The price limitations set forth in this regulation shall not be evaded either by direct or indirect methods in connection with a purchase, sale, delivery or transfer of relaying rail, relaying girder rail or used track accessories, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or by division of orders to obtain more favorable quantity differentials, or otherwise.

SEC. 4 *Registration and licensing.* The provisions of Supplementary Order No. 17,² licensing sellers of iron and steel products, are applicable to every person subject to this regulation. That order provides, in brief, that a license is necessary to make sales of any iron or steel products for which maximum prices are established by this and other maximum price regulations. A license is automatically granted. It is not necessary to apply for the license but all sellers may later be required to register. The license may be suspended for violations in connection with the sale of any commodity covered by the order, and no person whose license is suspended may sell any such commodity during the period of suspension.

SEC. 5 *Records and reports.* (a) Every person making purchases or sales of:

(1) Relaying rail which weighed 35 pounds or more per yard when new, after January 1, 1942;

(2) Relaying rail which weighed less than 35 pounds per yard when new, after December 19, 1942;

(3) Relaying girder rail, after December 19, 1942;

(4) Used track accessories, after April 30, 1943;

shall keep for inspection by the Office of Price Administration for a period of not less than two years or for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, whichever period is shorter, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the shipping point price paid or received,

transportation charges, if any, and the quantity and weight purchased or sold.

(b) Before any person shall sell relaying rail or used track accessories pursuant to paragraph (c) of Appendix A, and paragraph (c) of Appendix C, he must file with the Office of Price Administration a statement indicating that he operates a reconditioning plant equipped with machinery for reconditioning relaying rail and used track accessories, giving a list of such machinery, and must obtain written recognition by the Office of Price Administration of his plant as a relaying rail warehouse. Those persons who have already received written recognition by the Office of Price Administration as a relaying rail warehouse, are hereby granted permission to sell used track accessories out of such warehouse without the filing of any further application therefor. A storage point or yard, not customarily operated as a warehouse, is not a warehouse within the meaning of this paragraph.

(c) Persons affected by this regulation shall submit such reports to the Office of Price Administration as it may from time to time require.

SEC. 6 *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 7 *Petitions for amendment.* Persons seeking any modification of this regulation may file petitions for amendment in accordance with the provisions of Revised Procedural Regulation No. 1³ issued by the Office of Price Administration.

SEC. 8 *Definitions.* (a) When used in this regulation, the term:

SECTION 1 *Sales and rentals of used domestic washing machines at higher than maximum prices prohibited.* (a) Regardless of any contract or other obligation, no person shall sell, rent, or deliver a used domestic washing machine to any other person at prices or rates higher than the maximum prices or rates fixed by this regulation, and no person shall agree, offer or attempt to do any of these things.

(b) Prices or rates lower than the maximum prices or rates may be charged.

SEC. 2 *To what products, transactions and persons this regulation applies—*(a) *What products are covered by this regulation.* This regulation covers sales and rentals of all domestic washing machines which have ever been used or which have been in the possession of one or more consumers for more than 90 days, or which are models of the year 1940 or earlier. A used domestic washing machine is a mechanically operated machine made for use in the home for washing clothes or other household fabrics.

(b) *What transactions are covered by this regulation.* This regulation covers all sales and rentals of used domestic washing machines by any person to any other person, including sales by an individual who is selling his own washing machine, and sales by dealers or auctioneers, except sales by a foreign seller to any domestic buyer. This exception includes domestic buyers who purchase through a bona fide agent.

(c) *What persons are covered by this regulation.* This regulation applies to any person who sells or rents a used domestic washing machine except foreign sellers and domestic buyers, insofar as they purchase from the foreign sellers. The term "person" includes: An individual, corporation, or any other organized group; their legal successors or representatives; the United States, or any government, or any of its political subdivisions; or any agency of the foregoing.

SEC. 3 *Maximum prices for sales of used domestic washing machines by all persons—*(a) *Standards for washing machines sold with a guaranty.* If the seller sells a used domestic washing machine and gives the purchaser a guaranty, the machine must meet the following standards. (The terms of the guaranty are set forth in section 3 (c)).

(1) Aluminum tubs must have been wire brushed and free from corroded spots. Copper tubs must have a full covering surface, on the inside, of tin or nickel plating. The exterior of copper tubs, when not protected by an outer wall or panel, must have been thoroughly cleaned and polished, and varnished or painted. Porcelain tubs must be free from chipped spots. A tub which has been chipped meets the standards of this paragraph providing the seller has repaired the chipped spot with porcelain cement which reasonably matches the color of the tub at the time of sale.

(2) The chassis, and all exterior metal parts of the machine must have been thoroughly cleaned and repainted, if worn, scratched, or rusty spots have appeared.

(3) All moving and motor parts shall have been carefully cleaned and lubricated.

(4) Wringer rolls must be of uniform diameter and free from badly worn spots.

(5) Operating mechanisms must be in good working order and capable of remaining so under ordinary use for the length of the guaranty period.

(b) *Machines sold without guaranty.* If the seller does not give the purchaser a guaranty, the washing machine must be in working condition when delivered to the purchaser and if the machine is equipped with a wringer, the top and bottom wringer rolls must be of the same size.

(c) *Guaranty.* The maximum price for the sale of a used machine depends on whether the seller gives the purchaser a guaranty, and, if so, upon the length of the guaranty period. The guaranty to be furnished shall be a written guaranty for at least six months, or for one year or more, which provides that while the guaranty is in effect any part of the machine which proves defective will be replaced without charge for labor, materials or other services.

(d) *Table of maximum prices for used domestic washing machines.* With certain exceptions, the table below establishes maximum prices for used washing machines which are based not on the model or year of manufacture but on the features and specifications of the particular machine offered for sale. To find the maximum price, the machine must be identified as belonging in Class A, B, C, etc., by comparing the machine offered for sale with the specifications in the table below. The maximum price for any machine within a designated class shall be one of the three prices set forth for that class depending on whether the machine is sold without a guaranty, or guaranteed for six months or for one year. In certain circumstances additions to the maximum prices set forth below may be made because of special equipment furnished. These additions are contained in section 4. The maximum prices of the several classes of machines are set forth in the table below:

ARTICLE V—APPENDIX A: SHORLEAF YELLOW PINE LUMBER

ARTICLE VI—APPENDIX B: LONGLEAF YELLOW PINE LUMBER

ARTICLE VII—APPENDIX C: TABLE OF ESTIMATED WEIGHTS

ARTICLE I—SCOPE OF THE REGULATION

SECTION 1 Prices higher than ceiling prohibited. (a) On and after May 1, 1943, regardless of any contract or other obligation, no person shall sell or deliver, and no person shall buy or receive in the course of business, any Southern pine lumber for direct-mill shipment at prices higher than the ceiling prices fixed by this regulation, and no person shall agree, offer or attempt to do any of these things.

(b) Prices lower than the ceiling prices may, of course, be charged and paid.

Sec. 2 What transactions are covered. (a) This regulation covers, under the name of "sales for direct-mill shipment" all sales of Southern pine lumber, no matter who the seller is, and regardless of the quantity involved, except sales of Southern pine lumber which was part of the regular stock of a distribution yard at the time the sale was made.

(b) A "distribution yard" is an establishment which meets all of the following tests:

(1) It sells substantially all of the lumber of all species handled through its yard in the same size and condition of dressing in which received. However, a yard located in the Southern pine producing area will be deemed to meet this test if it receives in rough form and processes by sawing or planing less than 30 percent of its Southern pine lumber. If the yard receives in rough form and processes by sawing or planing 30 percent or more of its Southern pine lumber it cannot be considered a distribution yard for sales of this species although

it may be considered a distribution yard for other species of lumber and lumber products provided it qualifies as such under the terms of the regulation governing the particular product.

(2) It sells 51 percent or more of the lumber handled through the yard in quantities of 18,000 board feet or less.

(3) It maintains permanent stocks of different species of lumber from different regions (such as Southern pine, Douglas fir, Ponderosa pine, etc.) in various lengths, grades and sizes, and of lumber products (such as millwork, plywood, shingles, etc.).

(4) It maintains a storage yard, offices, yard help and a sales force, for the handling and sale of its stocks.

(5) It is prepared to make prompt delivery, by truck, of lumber and lumber products out of its yard stock in small and large quantities.

(6) It does not manufacture lumber from logs.

(7) It is located in a lumber consuming area.

(c) An establishment will be considered a distribution yard only if it met all the above tests both during the single calendar month and the period of six calendar months preceding the transaction in question. For example, if the date of the transaction is June 10th, the percentage of processing and other tests must be based both upon the month of May and upon the period of December through May.

(d) "CPA yards" as defined in Maximum Price Regulation 215,¹ are considered distribution yards, regardless of the above requirements.

Sec. 3 What products are covered. This regulation covers all items of Southern pine lumber, whether the item is specifically named in the price tables or not, (except switch ties and cross ties, which are subject to Maximum Price Regulation 216²—Railroad Ties). This means all lumber of the species included in the following definitions of shortleaf and longleaf yellow pine.

(a) "Shortleaf yellow pine" means the species of shortleaf pine (*Pinus echinata*), loblolly pine (*Pinus taeda*), slash pine (*Pinus caribaea*), such longleaf pine (*Pinus palustris*) as contains less than six annual rings per inch and less than one-third summerwood, or any other pine species, (except longleaf yellow pine) as defined in paragraph (b) of this section, known commercially as "Southern pine".

(b) "Longleaf yellow pine" means the botanical species of *Pinus palustris* which contains not less than six annual rings per inch and not less than one-third summerwood.

Sec. 4 What persons are covered. Any person who makes the kind of sale or purchase described above, for himself or others, is subject to this regulation. The term "person" includes an individual, corporation, partnership, association or any other organized group, their legal successors and representa-

tives, the United States or any government or any of their political subdivisions or any agency of any of the foregoing.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

SEC. 5 Basic prices and cash discount—(a) *Basic prices.* The maximum f. o. b. mill prices for shortleaf lumber are set forth in Article V and for longleaf in Article VI.

(b) *Cash.* If cash is paid the maximum price must be reduced by the seller's August 1941 cash discount. For example, if this discount was 2%, and if the maximum price without cash discount is \$30.00, the maximum price when cash is paid is \$29.40. In any case, on specific written allocations issued by the Office of the Chief of Engineers, War Department, the terms 30 days net may be used by the seller regardless of his established practice.

(c) *Sales of certain items of rough lumber.* In all sales of boards, dimension and box items of Southern pine, in rough form, where shipment originates at a sawmill which has no planing mill or which customarily sells the Southern pine lumber produced by it in rough form, the maximum prices set forth in price tables No. 1 (Boards, S. L.) No. 2 (Dimension S. L.), No. 10 (Box S. L.) No. 18 (Boards L. L.) and No. 19 (Dimension L. L.) contained in Article V and VI of this regulation shall include delivery within a radius of 25 miles when made to any purchaser for resale, subject to the following considerations:

(1) This rule shall not apply to carload shipment by rail.

(2) Where delivery over 25 miles is made by the sawmill, the maximum prices set forth in the tables shall be reduced by \$2.50 per MBM before applying the transportation addition provided in Section 7.

(3) Where the purchaser himself makes the pick-up at the sawmill the maximum prices established in the price tables shall be reduced \$2.50 per MBM.

Sec. 6 Addition for direct-mill retail sale. An addition of \$3.50 per thousand board feet may be made on a sale of less than 18,000 ft. BM (or less than carload if by rail), to any buyer who does not purchase for resale, where the shipment originates at a mill and the seller:

(a) Sees that the lumber is delivered to the job site at such time and in such manner as the buyer specifies;

(b) Gives the buyer the privilege of exchanging the lumber and returning unused material; and

(c) Agrees to make good any shortage promptly from stocks kept on hand for this purpose.

The size of the sale is determined by the total quantity involved in the transaction without regard to whether it is broken up into smaller orders or deliveries.

SEC. 7 Transportation charges—(a) *Rail charges.* (1) Only two methods of selling are recognized by this Regulation. Any other method is prohibited, as a

device to evade the ceiling by manipulation of freight.

The two permitted methods are: on a delivered basis using the estimated weights in Article VII, or on an f.o.b. mill basis with actual freight (figured, of course, on actual weights) to be paid by the purchaser.

The two methods may not be combined in a single transaction; that is, a seller may not sell on a basis which gives him the benefit of favorable estimated weights but requires the use of actual weights on items where estimated weights would be unfavorable to him. Note that sales described as "ceiling delivered", or as f. o. b. mill with freight paid or included to a given destination, are to be treated as sales on a delivered basis. In such cases, the given estimated weights must be used. However, sales f. o. b. mill with seller to pay the freight to a stated destination and include it in his invoice to the buyer is a sale on an f. o. b. mill basis, and settlement on the basis of the actual weights must be made.

(2) The estimated green weights may be used only when green lumber is actually specified and shipped.

(3) The transportation charge, when estimated weights are used, must be evened out to the nearest quarter-dollar per 1000 feet board measure (or nearest 5 cents per 1000 pieces of plastering lath).

(b) *Common or contract carrier (other than rail).* Where transportation is by common or contract carrier (other than rail) the only rule is that actual cost of transportation may be added to f. o. b. mill ceiling.

(c) *Private truck.* When shipment is by truck owned or controlled by the seller, the amount added for transportation may not be more than the "actual cost" to the seller of delivery by truck. The "actual cost" may not be higher than the over-all average trucking charge for a similar delivery, arrived at as of the six-month period ending June 30, 1942. In any event, the amount added may not be more than the rail carload rate for the most similar haul as applied to the quantity of lumber actually shipped. However, if this railroad charge is less than \$1.50 per MBM, and if the actual cost of delivery is more than \$1.50 per MBM, a transportation charge of \$1.50 per MBM may be made.

(d) *Trucking to rail shipping point.* When a truck haul precedes rail shipment, as when a mill located away from a railhead hauls lumber by truck to the railroad, no addition may be made for the truck haul. However, in the following three cases a mill may apply for special permission to make an addition:

(1) Where the mill was located away from rail connections because it specialized in water-borne lumber, and where shortage of shipping has forced it to operate by rail;

(2) Where the mill, prior to the shortage of tires and gasoline, shipped lumber to the particular final destination principally by all-truck haul, and now wishes to convert to truck-and-rail haul to save tires and gasoline, and is a substantial distance from a railhead.

¹ 8 FR. 3789.

² 7 FR. 7097, 7368, 8199, 8403, 9130, 10782;

8 FR. 434.

(3) Where a mill's rail connection has been abandoned since September 5, 1941, and it has no comparable rail shipping point.

The application should be made by letter to the Lumber Branch of the Office of Price Administration, Washington, D. C., and may be acted upon by letter or telegram. The addition may not be made on quotations or sales until permission has been received.

(e) *Truck delivery after rail haul.* When truck delivery to yard or job site follows a rail haul, and is specified in the order, the actual cost of truck delivery may be added. This may include the actual cost of handling and reloading involved in transfer from rail cars to trucks.

(f) *All-truck haul.* When an all-truck haul ends in delivery to the job site, no special addition may be made above the charges provided in sub-paragraphs (b) and (c) of this section.

SEC. 8 Sales for export. The maximum price at which a person may export any Southern pine lumber shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation¹ issued by the Office of Price Administration.

SEC. 9 Addition for mixed car or mixed truck shipments. \$1.00 additional per 1,000 ft. board measure may be charged for mixed car or mixed truck shipments. A mixed car shipment consists of 3 or more items provided at least 3 items amount to not less than 2,000 board feet each, or at least 6 items amount to not less than 1,000 board feet each, or at least 12 items amount to not less than 500 board feet each. A mixed truck shipment consists of 3 or more items provided at least 3 items amount to not less than 500 board feet each, or at least 6 items amount to not less than 250 board feet each. An item consists of one width, thickness, species (shortleaf or longleaf), working, or "class" of lumber. For the purpose of this regulation an item is in a different "class" if it appears in a different table in this regulation. Different grades or lengths or random widths so ordered do not establish different items for the purpose of this section.

SEC. 10. F. A. S. sales. On all F. A. S. sales of lumber to be shipped outside of territorial United States one addition of \$3.50 per MBM may be made. This addition may be made only if the seller, at the request of the buyer, bears the expense of so many of the following services as are actually to be performed: marking, bundling, assembling, switching, unloading, tallying, painting the ends, dock insurance and other services required for the proper dispatch of offshore cargo. In other words, if the buyer actually bears the expense of any of these services because of the seller's failure to perform such service or services, the addition may not be made. However, if the buyer's requirements do not include or permit unloading and any dock services which may be incident

tal thereto, but all other required services are performed, the addition shall be reduced to \$2.25.

ARTICLE III—SPECIFIC DUTIES AND PROHIBITED PRACTICES

SEC. 11 What the invoice must contain—(a) *F. o. b. mill price.* All invoices must contain a sufficiently complete description of the lumber to show whether the price is proper or not. Any working, specification, or extra which affects the maximum f. o. b. mill prices must be mentioned in the description. The amount added for these does not have to be separately shown.

(b) *Charges for transportation.* In all delivered sales, the invoice must contain the:

- (1) Point of origin of shipment;
- (2) Destination;
- (3) Rail rate, if estimated weights are used; otherwise the actual amount added for transportation;
- (4) The words "Direct-mill shipment".

(c) *Delivery and related charges.* Any separate charge which the seller is permitted to make for truck delivery after rail haul, or for trucking to railhead, must be separately shown on the invoice.

(d) *Direct-mill retail sale.* If the "direct-mill retail sale" mark-up is permissible and is added, this must be separately indicated in the invoice.

SEC. 12 Special rule on averaging out—(a) *Different grades, classes or sizes.* Different grades, classes or sizes of lumber may be sold and invoiced at an average price if all of the following conditions are observed:

(1) The footage of each item must be shown separately, and a piece tally must be furnished for each shipment.

(2) The average price for the lumber actually shipped must not be higher than it would have been if all the individual grades, classes and sizes shipped had been sold separately at the individual ceiling price.

(3) If the order is shipped in more than a single carload, truckload, or boat shipment the following invoicing and charging practices must also be followed:

(i) The invoice must show that it is part of a larger order and identify the order. It must also show the individual ceiling prices for the various items of lumber actually contained in each shipment, and the average selling price agreed upon.

(ii) The charges which may be made and collected on account for each shipment must not exceed the average price agreed upon or the total of the ceiling prices for the items in the particular shipment, whichever is the lower. Thus, if an average price was quoted on widths from 4" to 12", and if a car of all 4" was shipped, only the 4" price can be charged and collected on that car. But if a car of all 12" widths was shipped, only the average price quoted could be charged on that car.

(iii) Upon completion of the order the seller must render a final invoice showing the quantity of each shipment or delivery, the freight charge for each if sold on a delivered basis, the amount re-

ceived on account, the total amount due on the order at the agreed average prices, and a reconciliation of the total amount so computed with the maximum prices permitted by this regulation. Final payment and all necessary adjustments between buyer and seller are to be made upon the final reconciliation.

(b) *Different freight rates.* When a single order, for which a single flat delivered price was quoted and accepted, is shipped from two or more mills to a single destination on varying freight rates, the seller may average-out the transportation charges. For example, if a wholesaler bids \$33.00 per MBM on a single order of a hundred thousand feet of lumber, the ceiling price being \$30.00 per MBM and the estimated freight \$3.00, he can ship half of it on a rate resulting in a \$2.00 freight charge and half on a rate resulting in a \$4.00 freight charge.

(1) Where this practice is adopted, the seller must observe all of the following conditions:

(i) Each invoice must state that the particular shipment is part of a larger order and identify the order. It must also show the individual rates for each shipment or delivery.

(ii) The transportation charges which may be made and collected for each shipment or delivery, on account, must not exceed the average transportation charge figured on the entire order or the actual transportation charge for the particular shipment based upon the permitted estimated weights, whichever is the lower.

(iii) Upon completion of the order the seller must render a final invoice showing the individual f. o. b. mill prices separately, the amount shipped from each mill, the freight charge for each shipment, and a reconciliation of the total amount so computed with the agreed delivered selling prices and also with the maximum prices permitted by this regulation. In the event that the sale was made at an average price for different grades, classes or sizes of lumber as well as an averaging-out of transportation charges, the provisions of (a) above shall also be observed. Final payment and all necessary adjustments between buyer and seller are to be made upon the final reconciliation.

SEC. 13 What records must be kept. All sellers of Southern pine lumber must keep records which will show a complete description of the items of lumber sold (i. e. grade, condition of dressing, quantity, etc.) the name and address of the buyer, the date of the sale and price, for a period of two years. Buyers must keep similar records, including the name and address of the seller. Failure to comply with this provision shall constitute a violation of this regulation. Persons violating are subject to all penalties, actions and proceedings provided for by the Emergency Price Control Act of 1942 as amended, including a fine of not more than \$5,000 or imprisonment for not more than two years, or both.

SEC. 14 Prohibited practices—(a) *General.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dol-

¹ 8 F.R. 4132.

lars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to changes in credit practices and cash discounts and to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

(b) *Specific practices.* The following are some of the specific practices prohibited:

(1) Getting the effect of a higher price by changing credit practices from what they were in August 1941. This includes decreasing credit periods or making greater charges for extension of credit.

(2) Refusing, without good reason, to ship except in specified or restricted random lengths, or in mixed cars, or under other circumstances which bring the seller an extra return.

(3) Selling as specified lengths or widths, a specific lot or shipment of lumber which is substantially equivalent to random lengths or widths, or reselling intact as specified lengths or widths a specific lot or shipment bought by the seller as standard or random lengths or widths, unless specifically permitted in the price tables. This prohibition shall not apply to shipments or deliveries which have been sorted out as to widths and lengths and then resold.

(4) Grading as a special grade lumber which can be graded as a standard grade; or wrongly or falsely grading or invoicing lumber.

(5) Making additions for special specifications, services, or other extras which are not specifically permitted.

(6) Refusing to sell on an f. o. b. mill basis, and insisting on selling on a delivered basis.

(7) Failing to invoice properly and in accordance with the requirements of this regulation.

(8) Unnecessarily routing lumber through a distribution yard.

(9) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(10) Making additions for kiln-drying, anti-stain treatment or other services, treatments, or specifications unless they are expressly ordered by the buyer.

(11) Getting a higher price by charging the buyer for ripping or resawing, or charging on the basis of an original size larger than the item actually delivered: (for example: charging the price of 4 x 4 ripped to 2 x 4 on a sale and delivery of 2 x 4's) except where the items ordered and delivered are non-standard sizes not specifically priced in the tables. This prohibition has no application where the buyer specified the larger size to be ripped or resawn into items of smaller size and the resulting items are priced higher in the tables than the original larger size; for example, the buyer may order 1 x 4 x 12' #2 Common Shortleaf, priced at \$31.00 per MBM ripped to 1 x 2 x 12'. By buying

the larger size ripped the price to the buyer is lower (\$32.00) than it would have been had he ordered the 1 x 2 as such (\$34.00). In this example the maximum price is \$32.00.

(12) Making the buyer take something he does not want in order to get what he does want; for example, making a buyer who orders No. 2 Common take all the upper grades that develop.

(13) Breaking up an order or apportioning deliveries in order to get the \$3.50 direct-mill retail sale addition.

(c) *Adding commission to ceiling prohibited.* It is unlawful for any person to charge, receive or pay a commission for the service of procuring, buying, selling or locating lumber, or for any related service (such as "expediting") which does not involve actual physical handling of lumber, if the commission plus the purchase price results in a total payment by the buyer of lumber which is higher than the maximum price of the lumber. For purposes of this regulation, a commission is any service charge or payment which is figured either directly or indirectly on the basis of the quantity, price or value of the lumber in connection with which the service is performed.

(d) *Combination grades.* Lumber sold on combination grades may not be sold above the maximum price for the lowest priced grade actually named in the combination. For example, the maximum price for lumber sold as No. 2 Common and better is the maximum price fixed for No. 2 Common lumber. But it is permissible to quote a grade with specified percentages of higher grades, provided that when the lumber is shipped, lumber of each grade is tallied on a board foot basis and invoiced separately at prices not in excess of ceiling prices for the respective grades.

(e) *Adjustable pricing.* A price may be made adjustable to the maximum price in effect at the time of delivery. It may not be made adjustable to a maximum price in effect later than the date of delivery, except by special authorization. The Lumber Branch of the Office of Price Administration, Washington, D. C., may issue this authorization, by letter, telegram or general order, when an amendment to this regulation is pending, as the result either of a petition for amendment or of a formal industry advisory committee recommendation.

SEC. 15 *Special pricing rules.* (a) Where the buyer specifies restricted lengths or an average length and the shipment or order fails to conform, the entire shipment must be priced at the random length price (unless the agreed price is lower).

(b) Where the buyer orders a random length shipment, and the given percentages of lengths as specified in footnotes to some of the price tables are not met because there is too large a percentage of shorts, the excess shorts must be priced at the separate prices for the short lengths.

(c) Where random length shipments required to average a specified length (e. g. 12' in the Board Table) fall short of this average, the price may not exceed that of the nearest shorter even length below the average length actually shipped.

(d) Where the order does not specify whether longleaf or shortleaf is required, the seller may only charge shortleaf prices.

(e) Where the order fails to specify the grade required, the seller may only ship and charge for No. 2 Common, unless otherwise agreed.

(f) Where the invoice does not specify the grade shipped or delivered, the price of the lowest grade in the shipment shall apply to the whole order.

(g) Where moisture content requirements are waived by the purchaser, the maximum price for the whole order, shipment or delivery shall be the price herein established for green lumber. Where such a sale is made on a delivered basis, the seller may only use the given estimated weights for dry lumber in computing transportation costs.

(h) None of the additions contained in the footnotes to the tables in Articles V and VI may be added to the prices of the various items set forth in the tables unless the order expressly requires the working, grade, condition, size, or length for which the additions are permitted.

ARTICLE IV—MISCELLANEOUS

SEC. 16 *Petitions for adjustment or amendment.*—(a) *Government contracts.* (1) The term "Government contract" is here used to include any contract with the United States or any of its agencies or with the government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the Defense of the United States" which also includes any subcontract under this kind of contract.

(2) Any person who has entered into or proposes to enter into a "Government contract", who believes that the maximum prices contained in this Regulation impede or threaten to impede production of Southern pine lumber essential to the war program, may file an application for adjustment in accordance with Procedural Regulation No. 6⁴ issued by the Office of Price Administration. As soon as the application is filed, contracts, deliveries, and payments may be made at the requested price, subject to refund if the requested price is disapproved or lowered. The seller must notify the buyer that the delivery is made subject to this refund.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a

⁴ 7 F.R. 5087, 5664.

petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1⁵ issued by the Office of Price Administration.

SEC. 17 Enforcement. (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

(b) War procurement agencies and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by this regulation. Persons who make sales covered by this regulation to War procurement agencies and buyers to whom lumber has been allocated by any such agencies are, however, subject to all the liabilities imposed by this regulation. "War procurement agencies" include the War Department, the Navy Department, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any of their agencies.

SEC. 18 Licensing. All sellers under this regulation, except mills, are licensed by Supplementary Order 18. This order, in brief, provides that a license is necessary, except for mills, to make sales under this regulation. A license is automatically granted to all sellers making these sales. It is not necessary to apply specially for the license, but a registration may later be required. The Emergency Price Control Act of 1942, as amended, and Supplementary Order 18 tell the circumstances under which licenses may be suspended. The license cannot be transferred.

SEC. 19 Grades. The grades and terms in this regulation are based on the 1939 standard specifications for Southern pine lumber of the Southern Pine Inspection Bureau, the 1923 Gulf Coast Classification, issued by the Southern Pine Association, and the 1934 standard specifications for grades of Southern pine lumber for freight cars and locomotives in accordance with the Association of American Railroads' recommended practice, issued by the Southern Pine Inspection Bureau.

SEC. 20 Grades, services, or extras not listed. (a) If a seller wishes to sell a

grade which is not specifically priced in the price tables, or wishes to make an addition for special workings, specifications, services, or other extras for which additions are not specifically permitted, he must apply to the Lumber Branch, Office of Price Administration, Washington, D. C., for a maximum price. He must provide the following information:

- (1) The requested price;
- (2) A complete description of the item to be priced; and
- (3) The price differential between it and the most comparable item in the price tables, between January 1 and August 1, 1941, from the seller's own records, or if that is impossible, from the experience of the trade. If no established price differential existed, a detailed analysis of comparative value should be furnished.

(b) As soon as the request has been filed, quotations and deliveries may be

made at the requested price, but the final payment may not be made until the price has been approved. Action on the request may be by letter or telegram.

(c) In all cases where special prices have been approved by the Lumber Branch of the Office of Price Administration under § 1381.212, paragraphs (f), (g) and (h) of the earlier regulation, Maximum Price Regulation 19, these special prices shall no longer apply if specific prices for the items are established by this regulation; but where no specific prices are established in the price tables, price approved under the earlier regulations shall continue in effect.

 4. Ripping or resawing, add \$1.00 for each cut.
- For grade:
5. No. 1 Common 85 or 60% heart facial area, add \$8.00; 85% heart cubical content, add \$6.00.
- For condition:

If there is no even multiple length 12' or shorter, charge the 12' price. In either case, add \$1.50 per M. B. M. for each necessary cross cut, but the addition for precision cutting permitted in footnote 12 may not also be charged, and no total charge for such service may be greater than \$6.00 per M. B. M. If length breaks on even one half foot compute footage on actual length, otherwise compute on six inch breaks on the next break above.

 22. For an average width, charge the price which would have been charged had the buyer ordered the various widths which were shipped.
 23. Random widths (Other than restricted random widths), each width shall be priced at the specified width price.
- ¹ Edge widths are random widths including odd, even or fractional widths. Measurement shall be according to paragraph 136 S. P. I. B. Rules.

2. Rough, C, deduct \$2.00.
3. S1S, S2S, S2S and Matched, Shiplap, or any other Matcher dressing, standard or thinner, add \$2.00. No addition may be made for dressing to flooring, drop siding, ceiling or any other pattern for which a maximum price is set in any of the tables.
4. Rippling or Resawing, add \$1.00 for each cut.
5. Casing, base, jambs, apron, pulley stiles or any other pattern requiring moulder work (not including mouldings), add \$7.50 for 1" stock, \$10.00 for 5/4" and thicker.

ADDITIONS AND DEDUCTIONS PER 1,000 FEET BOARD MEASURE (See Sec. 15 (h))

For working:

1. Rough, deduct \$1.00.
2. End-matching, add \$2.00.
3. No addition may be made for any matcher dressing not otherwise provided for. Patterns requiring moulder work, add \$6.50.
4. Ripping or Resawing, add \$1.00 for each cut.

For grade:

5. No. 1 common 85 or 90% heart facial area, add \$20.00.
6. No. 2 common 85 or 90% heart facial area, add \$12.00.

For condition:

7. Kiln dried, add \$1.00.
8. Green, deduct \$2.00.
9. Anti-stain treatment (any form), add 50¢ to air dried prices, but not to kiln dried prices.

For length:

10. Random lengths must average at least 12' (with a tolerance of 3") and must take the 12' price.
11. Restricted random lengths, 10' to 16', or longer, all grades and 8' to 16', or longer No. 2 or lower grades, charge the specified length price for the lengths actually shipped.
12. For any average length, charge the price for the specified length corresponding to the average length required and shipped.
13. For precision cutting to a specified exact length, with tolerance of not more than 1/4" allowed, add \$1.50. No addition is permitted for customary double end trimming.
14. Odd or fractional lengths over 4', not listed, shall be counted and priced as the next longer even length.
15. For any length shorter than 4', cut to a specified exact length, charge the price of the nearest even multiple length up to 12'. If there is no even multiple length 12' or shorter, charge the 12' price. In either case add \$1.50 per M. B. M. for each necessary cross cut, but the additions for precision cutting permitted in footnote 13 may not also be charged and no total charge for such service may be greater than \$6.00 per M. B. M. If length breaks on even one half foot compute footage on actual length. otherwise compute on six inch breaks on the next break above.

For size:

16. Stock thinner than 3/4", deduct \$1.00 from the 3/4" price for each 1/32" thinner than 3/4". However, sizes that can be resawn from boards or strips 1" in nominal thickness shall take the 1" price plus the resawing addition permitted.
17. 13" and wider, add \$2.50 per inch or fraction thereof to 12" price and compute footage on actual size.
18. 5/4, 6/4, and 7/4 No. 1 and No. 2 Common, add \$7.00.
19. 5/4, 6/4 and 7/4 No. 3 Common, add \$4.00.
20. 5/4, 6/4 and 7/4 No. 4 Common and dunnage, add \$2.00.
21. Extra standard thickness, thicker than American lumber standards (for yard stock), add \$1.00 where stock is dressed clean. No addition may be made for hit or miss dressing.
22. For an average width, charge the price that would have been charged had the buyer ordered the various widths that were shipped.
23. Random widths: (other than restricted random widths) each width shall be priced at the specified width price.

¹ Restricted random widths are 4' to 12' inclusive, and must not contain over 20% of 4' and not less than 20% of 10' and wider.

ADDITIONS AND DEDUCTIONS PER 1,000 FEET BOARD MEASURE. (See Sec. 15 (h))

- For working:
1. Rough, deduct \$1.00.
 2. Shiplap, center matched, dressed and matched, grooved, or any other matcher dressing, not otherwise provided for, standard, add \$1.00. Patterns requiring moulder work, add \$6.50.
 3. Ripping or resawing, add \$1.00 for each cut.
 4. End-matched and center matched, add \$4.00.
- For grade:
5. No. 2, 1050 F, Par. 333, when grade marked, add \$2.50 to No. 2 common prices.
 6. No. 1 common and No. 2 common, 85 or 90% heart facial area, sizes 2 x 2 to 2 x 8, add \$15.00.
 7. No. 1 common and No. 2 common, 85 or 90% heart facial area, sizes 2 x 10 and 2 x 12, add \$20.00.
- For condition:
8. Kiln dried, add \$1.00.
 9. Green, deduct \$2.00.
 10. Anti-stain treatment (any form), add 50¢ to air dried prices, but not to kiln dried prices.
- For size:
11. Extra standard thickness, thicker than American lumber standards (for yard stock), add \$1.00 where stock is dressed clean. No addition may be made for hit or miss dressing.
 12. Odd or fractional widths, not listed, add \$3.00 to nearest greater listed width and compute footage on actual size.
- For length:
13. On random length shipments, sold at a flat price, the average length to be shipped must be specified and the price shall not exceed that of the lineal average shipped. If a flat price is not quoted, the specified length price for each length shipped shall be charged. In either case a piece tally must accompany the invoice.
 14. For any average length, except 9', charge the price for the specified length corresponding to the average length required and shipped. Where a 9' average is required charge the 8' price.
 15. For precision cutting to a specified exact length, with tolerance of not more than 1/4" allowed, add \$1.50. No addition is permitted for customary double end trimming.
 16. Odd or fractional lengths over 4', not listed, shall be counted and priced as the next longer even length.
 17. For any length shorter than 4', cut to a specified exact length, charge the price of the nearest even multiple length up to 12'. If there is no even multiple length 12' or shorter, charge the 12' price. In either case, add \$1.50 per M. B. M. for each necessary cross cut, but the addition permitted in footnote 15 for precision cutting may not also be charged, and no total charge for such service may be greater than \$6.00 per M. B. M. If length breaks on even one-half foot, compute footage on actual length, otherwise compute on six inch breaks on the next break above.
 18. Lengths longer than 24', add to 24' price as follows (for all grades):

Length:		Length:	
26'	\$ 2.00	34'	\$14.00
28'	4.00	36'	18.00

(b) Any producer of Long Leaf Yellow Pine in the State of Florida whose lumber is consistently heavier than the weights in the above table, may submit to the Lumber Branch of the Office of Price Administration, Washington, D. C., for approval a list of the

estimated weights used by him during the first eight months of 1941 together with a statement that he believes them to be the nearest possible estimate to the present average actual weights. After an order has been published in the FEDERAL REGISTER, listing the producer's name, any seller of the producer's lumber may use the approved estimated weights in computing transportation charges.

The following producers have qualified under this provision up to the day of issuance of this revised regulation. The permitted estimated weights are on file with the FEDERAL REGISTER and may there be examined by any interested person:

Brooks-Scanlon Corporation, Foley, Fla.
Dowling and Camp, Inc., Slater, Fla.
Peavy-Wilson Lumber Co., Holopaw, Fla.

Effective Date

This regulation shall become effective May 1, 1943, except that:

(a) If lumber has been received before May 1, 1943, by a carrier other than one owned or controlled by the seller, for shipment to a buyer, that shipment is not subject to this revised regulation. It remains subject to the terms of the earlier regulation, Maximum Price Regulation 19.

(b) If this regulation lowers any maximum price below that fixed in the earlier regulation, contracts that were in existence before the date of issuance of this revised regulation at lawful prices may be completed according to their terms, if delivery is made on or before June 1, 1943.

NOTE: The mere fact that this revised regulation increases some maximum prices does not of itself allow any seller to apply the higher prices to existing uncompleted contracts without the consent of the buyer. The regulation permits the making of certain adjustable pricing agreements to cover such situations. Apart from that, increasing prices in existing uncompleted contracts to the level of increased maximum prices in the regulation is purely a matter of agreement between buyer and seller.

Issued this 26th day of April 1943.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[RO 5C, Amendment 45]

MILEAGE RATIONING: GASOLINE REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 5C is amended in the following respects:

1. Section 1394.7706 (v) is revoked.
2. Section 1394.7706 (w) is added to read as follows:

(w) By any person who requires mileage for driving in the course of any occupation for which the vehicle is used, if such driving does not consist of preferred mileage under any other paragraph of this section. The total occupational mileage allowable for any such driving, when added to any non-preferred occupational mileage allowed for use in such vehicle, shall not exceed an average of 720 miles per month. However, if any mileage is available to a person by reason of a ration issued for his use with any other vehicle, the maximum of 720 miles per month of occupational driving allowable for the use of such person under this paragraph shall be decreased by the occupational mileage available to him by reason of the rations issued for any such other vehicle, unless such mileage consists of preferred mileage allowed under another paragraph of § 1394.7706.

(1) In the event that a person requires more than 470 miles per month in connection with his occupation for driving between home and fixed place or places of work, and the vehicle is also used for driving for which preferred mileage is allowable under this paragraph, the board may allow additional mileage in accordance with § 1394.7707. However, if the mileage allowed pursuant to that section equals or exceeds 720 miles per month the board may allow no preferred mileage pursuant to this paragraph.

(2) No mileage may be allowed under this paragraph in the gasoline shortage area until the Office of Price Administration finds that the available gaso-

line supply in that area justifies the extension of the provisions of this paragraph to that area.

3. Section 1394.7707 (a) is amended to read as follows:

(a) In any case outside the gasoline shortage area where the applicant or person entitled to the use of the vehicle requires more mileage than 470 miles per month for driving between home and a fixed place or places of work, or between fixed places of work in connection with any occupation he may have, or in any case in the gasoline shortage area where such a person requires more mileage than 360 miles per month for driving between home and a fixed place or places of work, or between fixed places of work in connection with his principal occupation, and such driving in either case is not preferred mileage, the board, upon approval of the State director, may allow additional mileage in excess of such maximum, to the extent required for such driving. No mileage may be allowed in any such case for driving in the course of work, unless the driving in the course of work consists of preferred mileage.

4. Section 1394.7707 (b) is amended to read as follows:

(b) An applicant for additional mileage under this section must establish by clear and convincing proof that: (1) a bona fide ride-sharing arrangement has been made pursuant to which at least four persons (including the operator) are regularly carried in the vehicle for the purpose of going to and from their occupations, or that no such ride-sharing arrangement exists but that the vehicle carries as many persons as could reasonably be expected under the circumstances, and (2) there is no reasonably adequate alternative means of transportation.

5. Section 1394.7754 (b) is amended by substituting the figures "720" for the figures "470" wherever the same appear and by substituting a comma for the final period and adding the phrase "except paragraph (w) of § 1394.7706".

6. Section 1394.8052 (a) is amended by adding at the end of the first sentence a new sentence to read as follows:

The holder of a supplemental or fleet ration may also apply for further rations to which he may become entitled by reason of a change in Ration Order 5C increasing the amount of mileage allowable to him.

This amendment shall become effective May 1, 1943.

PART 1364—FRESH, CURED, AND CANNED
MEAT AND FISH PRODUCTS

[MPR 364, Amendment 1]

FROZEN FISH AND SEAFOOD

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 364 is amended in the following respects:

1. Section 2 is amended by inserting after the clause "for fresh fish from the port of entry to the freezing point." the sentence "A processor who performs the function of a primary wholesaler at a separately maintained warehouse, or who performs the function of a cash-and-carry or service-and-delivery wholesaler, as specified in section 3, shall establish his maximum price by adding the mark-up provided for the particular class of sale to the maximum price f. o. b. freezing point plus transportation to the warehouse from which the sale is made."

2. Section 3 (c) is amended to read as follows:

(c) *Wholesaler's mark-up for different classes of sales.* Mark-up is the percentage over net cost set forth hereinafter for each class of wholesaler or the type of sale involved. To obtain the selling price, multiply the net cost by the percentage mark-up figure—the result added to the net cost is the selling price. The mark-up which applies in any particular sale depends on the class in which the wholesaler is and the kind of service performed in the particular sale. No wholesaler who purchases from another wholesaler may sell at a price higher than the maximum price permitted hereunder by the seller, except as provided in paragraph (d) (1) *Primary wholesalers*, under this section. The classes, types of service, and mark-ups are set forth in the following paragraph (d).

3. Section 3 (e) is amended to read as follows:

(e) *Imported frozen fish and seafood.* The maximum price at which a wholesaler, including any agent of a foreign

processor, may sell any imported frozen fish or seafood listed in section 14 shall be the base price listed in section 14 for the species and style of dressing plus or minus the differential for packaging provided for in section 13, plus the actual freight to the wholesaler's warehouse from the point at which the frozen fish enters the United States. If that freight is less than the carload rail freight rate from the shipping point in the United States closest to the processor's plant to the wholesaler's warehouse, the latter may be added in place of the actual freight. PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[RO 16,¹ Amendment 14]

MEAT, FATS, FISH AND CHEESES

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

A new Article XXV containing sections 25.1, 25.2, 25.3, and 25.4 is added to read as follows:

Article XXV—*Acquisition of Foods Covered by This Order by Residents of Mexico*

SEC. 25.1 *Residents of Mexico may acquire foods covered by this order in the United States.* (a) Any "person" who resides in Baja California, Mexico, within ninety kilometers of the border between Mexico and the United States, or in any other part of Mexico within twenty kilometers of that border may apply for points to "acquire" foods covered by this order in the United States. The application must be made in person, on OPA Form R-183, to the "board" whose office is nearest his customary point of entry into the United States, or if the applicant is unable to apply to the board because of inadequacy of transportation, to the customs officer in charge of his customary point of entry. A single application must be made by the applicant for himself and for all members of his "family unit" (that is, for all persons living in his household who are related to him by blood, marriage, or adoption) who wish to acquire foods covered by this order. An application may be made by a person under 18 years of age only if he is the head of a household or is not a member of a family unit. However, anyone who can complete the application may sign or present it as agent for an applicant who is unable to appear.

(b) The application must be signed by the applicant or his agent and must show:

(1) His name, address and age;
(2) The names and ages of all persons living in his household who are related to him by blood, marriage or adoption and who wish to acquire foods covered by this order;

(3) The name and address of the "retailer", "wholesaler", or "primary distributor" from whom the foods covered by this order are to be acquired; and

(4) The serial number of the non-resident alien's border crossing identification card, or of the passport bearing either a visa for entry into the United States or a notation showing that such a visa has been issued for use by the applicant, and of any cards or passports issued for use by the persons included in the application. The applicant shall present all these immigration papers to the board (or customs officer) at the time he makes his application. He shall state on the application whether he wishes

¹ 8 F.R. 3591, 3715, 3949, 4127, 4350, 4423, 4784, 4893, 4967, 5172, 5318.

to acquire any foods covered by this order other than "rationed fats or oils". He shall also give any other information which the board or the Customs Officer may request.

(c) If the board (or the customs officer) finds, that the persons included in the application reside in Mexico, within the area described in paragraph (a), and desire to acquire foods covered by this order, in the United States, it shall grant the application. Each certificate issued shall be for all the persons included in the application.

(d) Each certificate issued shall cover one month. There are two exceptions to this rule:

(1) If the application is made in April 1943, the first certificate issued shall cover April and May 1943.

(2) If the persons included in the application are unable for any reason to acquire foods covered by this order in the United States at least once a month, the board (or customs officer) may issue a single certificate to cover two consecutive calendar months.

(e) If the application shows that any foods covered by the order other than rationed fats or oils are to be acquired in the United States for the persons included in the application, the monthly ration for each of the persons included shall be 84 points; if only rationed fats or oils are to be acquired, the monthly allowance for each of the persons included shall be 16 points. The full monthly ration shall be allowed for the month in which the application is made, regardless of the time of the month when the application is made.

(f) The certificate shall be issued in the name of the retailer, wholesaler or primary distributor from whom the foods covered by this order will be acquired. The board (or the customs officer) shall insert, at the top of the certificate above the words "Food Ration Certificate", the name of the applicant for the certificate and the number of persons for whom the certificate is issued. After the words "not valid after" appearing on the certificate, the last day of the period for which it is issued shall be inserted. At the time a certificate is issued, the board (or the customs officer) shall endorse the letter "R" on the applicant's nonresident alien's border crossing identification card, or passport bearing either a visa for entry into the United States or a notation showing that such a visa has been issued and upon the immigration papers, if any, of the other persons included in the application.

(g) The board (or customs officer) shall send the original of the certificate to the person in whose name it is issued, and shall give the duplicate to the applicant. If the certificate is prepared by a customs officer, he shall send the triplicate to the board nearest his customs station. The board shall keep the triplicate in its files.

(h) The board (or customs officer) shall issue certificates for subsequent periods after the first period, only if the applicant returns to the board (or customs officer) his duplicate copy of any certificate which was issued to him for

the preceding period. The applicant shall, within five days after the expiration of any certificate issued to him, return his duplicate copy to the board (or customs officer) either in person or by mail. However, if the duplicate copy of a certificate has been lost, destroyed or stolen, a statement given to the applicant by his supplier as provided in section 25.2 may be returned to the board (or customs officer) in place of the duplicate or, if the applicant has not received such a statement, a board may excuse him from returning the duplicate. No new application is required for the issuance of certificates for subsequent periods, after the first, unless, since the date of the last application, the number of members of the applicant's household related to him by blood, marriage or adoption who wish to acquire foods covered by this order has been reduced or new ones have been added. Acceptance by an applicant of a duplicate certificate for a subsequent period in exchange for a duplicate issued for a prior period shall constitute a representation by the applicant that the number of such persons has not been reduced.

(i) An applicant may apply to the board (or the customs officer) where his original application was made, to change the retailer, wholesaler, or primary distributor from whom he acquires foods covered by this order. However, no application for such a change shall be granted with respect to any currently valid certificate unless the supplier in whose name it was issued has refused to accept it. The application, if made with respect to a future certificate, must be made before the 25th day of the month before the one for which the change is requested. Any certificate thereafter issued to the applicant by the board (or customs officer) shall be issued in the name of the new supplier and the original of such certificate shall be sent to him.

Sec. 25.2 *How foods covered by this order may be transferred to residents of Mexico.* (a) The supplier to whom a certificate of the type described in section 25.1 is issued, may "transfer" to the applicant named thereon, or to his authorized agent, and the applicant (or his agent) may acquire from the supplier, foods covered by this order up to the point value of the certificate, at any time before the expiration date stated on the certificate. At the time of each such transfer, the transferor shall write on the back of the duplicate copy of the certificate held by the applicant, the date of the transfer, and the point value of the foods covered by this order which were transferred. No transfer may be made unless the duplicate is presented to the transferor. However, if the applicant or his agent fails to present the duplicate on the ground that it has been lost, destroyed or stolen, the supplier may give the applicant a statement signed by the supplier, containing the applicant's name and address and the point value and dates of all transfers of foods covered by this order made against the duplicate. This statement may then be used in place of the duplicate.

SEC. 25.3 *Records to be kept by persons who transfer foods covered by this order to residents of Mexico.* (a) Any retailer, wholesaler or primary distributor to whom a certificate has been issued shall maintain and keep at his place of business a record showing the name of each applicant for whom he has received a certificate, the point value of each certificate and of all foods covered by this order transferred against it and the dates of such transfers.

SEC. 25.4 *Procurement of foods covered by this order by supplier.* Any retailer, wholesaler or primary distributor to whom a certificate has been issued may, after signing his name on the back of the certificate, use it to acquire foods covered by this order equal in point value to the value of the certificate. Before the 10th day of each month after May 1943, he must give to his board a written statement showing the total point value of all certificates received by him for the preceding month or, in the case of the June report, for the period of April and May 1943, and the total point value of all transfers of foods covered by this order made under such certificates. He shall account to the Office of Price Administration at a time and in a manner to be fixed by that office for the amount by which the number of points given to him by certificates issued under this article exceeds the point value of his transfers against such certificates during the period for which such certificates were issued.

This amendment shall become effective April 26, 1943.

Note: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

In order for the Office of Price Administration adequately to discharge its duties under the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328, it is necessary that buyers of logs and bolts, who are subject to Maximum Price Regulation 348, as amended (Logs and Bolts) (8 F.R. 3670, 5163), act together in a manner proper to the preparation of joint petitions to be filed under and provided for in section 9 of the regulation.

Section 9 in part reads as follows:

Sec. 9 *Establishment of dollars-and-cents prices by areas*—(a) *Petition for "area pricing"*. Any group of four or more buying plants, of any kind, may petition the Lumber Branch of the Office of Price Administration in Washington, D. C., to establish a system of dollars-and-cents prices by grades, sizes, and species for buying plants in an area of at least 400 square miles which contains at least five buying plants. The petition must relate to all grades, sizes, and species of logs and bolts bought by plants in that area of the kind joining in the petition, and must request establishment of a system of ceiling prices applicable to all buying plants in the area.

(b) *Contents of petition*. The petition must contain:

(1) A description of the exact boundaries of the area, and the reasons for the boundary lines chosen; that is, the reasons why the particular area constitutes a market area in which a single pricing system should prevail.

(2) Copies of the notices of maximum prices of the petitioning plants.

(3) A proposal of uniform grades with detailed specifications, uniform scaling rules, and a dollars-and-cents ceiling price system; and a comparison of these with the average prices, and the grades and rules prevailing in the area during the period September-October 1942. The system proposed may contain price differentials within the area, based on differences in transportation rates, which will prevent diversion of logs as between buying plants in the area.

(4) A showing that the proposed prices will not cause diversion of logs or bolts away from buying plants in either this area or elsewhere.

In preparing area pricing petitions, it will be necessary for buyers of logs and bolts subject to regulation to discuss, in meetings or in correspondence, the following matters:

1. Specifications, scaling practices, and grading rules for logs and bolts.
2. Boundaries of areas to which maximum price systems should apply.

3. Maximum prices for logs and bolts, including such matters as price differentials, zones, and transportation charges as they relate to maximum prices.

All joint actions and discussions contemplated by this regulation are to relate directly, and are restricted, to the proper preparation of a petition for area pricing under section 9. If the actions or discussions in concert go beyond this limitation, the entire course of joint conduct shall be considered improper and subject to the restrictions of law which would apply in the absence of any certification by you pursuant to this recommendation. Specifically, but not exclusively, the following actions or discussions shall be deemed to be improper:

1. Discussions relating to products made from logs and bolts, including matters of prices, costs of production, and trade practices, or the like.

2. Discussions relating to allocations of territories within a given area or to allocations to particular buyers of sellers or of products.

3. The use of any coercion, direct or indirect, to secure participation of any individual or group in the permissible discussions or the petitions. Coercive practices include the imposition of any condition or prerequisites to participation, such as requiring the joining of an association, grading bureau, or the like.

4. Interfering with, or preventing, the communication to the Office of Price Administration, of the separate views or expressions of any affected individual or group. This includes preventing a person from joining in the petition with reservations or conditions.

It appearing that some joint discussions and actions by buyers of logs and bolts are in conformity with Maximum Price Regulation 348 as amended and that the effectuation thereof will accomplish the purposes of the regulation, I have approved the program set out in section 9 of the regulation and recommend that you find and certify pursuant to section 12 of Public Law 603, 77th Congress (56 Stat. 357) the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with this Recommendation and said section 9, is requisite to the prosecution of the war.

Administrator.
