Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

PART 674—FARM STORAGE FACILITIES

SUBPART — PROGRAM TO FINANCE THE PURCHASE OF MOBILE DRYING EQUIPMENT FOR FARM COMMODITIES

This bulletin states the requirements with respect to the Program To Finance the Purchase of Drying Equipment for Farm Commodities formulated by Commodity Credit Corporation (hereinafter referred to as "CCC") and the Production and Marketing Administration (hereinafter referred to as "PMA"). The program will be carried out by PMA under the general supervision and direction of the President, CCC.

Loan applications under the program announced 16 F. R. 6494, as extended 17 F. R. 5853, may not be submitted subsequent to October 31, 1952.

Sec.	
674.190	Administration.
674.191	Availability of loans.
674.192	Approved lending agencies.
674.193	Eligible borrowers.
674.194	Eligible equipment.
674.195	Terms and conditions of loan.
674.196	Disbursement of loans.
674.197	Service charges.
674.198	Sale or conveyance of security.

AUTHORITY: §§ 674.190 to 674.198 issued under sec. 4, 82 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 4, 6, 82 Stat. 1070, as amended, 1072; 15 U. S. C. Sup., 714b, 714c.

§ 674.190 *Administration.* The program will be administered by PMA, under the general direction and supervision of the President, CCC, and in the field will be carried out by State PMA and PMA county committees (hereinafter called State and county committees). State and county committees do not have authority to modify or waive any provisions of this bulletin or amendments or supplements hereto.

§ 674.191 *Availability of loans—(a) Area.* Loans will be available in any State in the continental United States.

(b) *Time.* Loan applications may be submitted from November 1, 1952, through June 30, 1953.

(c) *Source.* Loans may be obtained directly from CCC or through approved lending agencies. Application for loans shall, in either case, be made to the county committee.

(d) *Approved forms.* All forms and documents will be made available through offices of county committees.

§ 674.192 *Approved lending agencies.* An approved lending agency shall be any bank, partnership, individual, or other legal entity which has entered into a lending agency agreement for storage equipment loans, on the form prescribed by CCC.

§ 674.193 *Eligible borrowers.* A person shall be eligible for a loan for the purchase of eligible equipment provided such person (a) is a tenant, landlord, or land owner-operator who produces one or more of the commodities listed in § 674.194, or a landowner who rents for cash his land on which one or more of such commodities are produced, and (b) has facilities for the storage of one or more of such commodities suitable for adaptation to artificial drying and needs such eligible equipment in connection with the utilization of such facilities. Any two or more such persons may join together in purchasing such equipment. The term "person" as used in this section means an individual, partnership, corporation, or other legal entity.

§ 674.194 *Eligible equipment.* Mobile drying equipment (such as air-circulators, ventilators, tunnels and powerfans, or any combination thereof, and mechanical driers of a mobile type) will be eligible equipment under this program provided such mobile drying equipment will be used in connection with the conditioning of corn, oats, barley, grain sorghums, wheat, rye, soybeans, flaxseed, rice, dry edible beans, dry peas, peanuts, cottonseed, hay seeds, pasture seeds, and winter cover crop seeds. Equipment for use in connection with the conditioning of commodities which the borrower intends to purchase or to store for others shall not be eligible equipment.

§ 674.195 *Terms and conditions of loan.* (a) *Term.* The maximum term of the loan will be for a period of approximately three years, except that the term of particular loans may be extended, at the option of CCC, under con-

ditions prescribed by the President, CCC. Loans will be payable in equal annual principal payments with interest at four percent per annum on the unpaid balance. Loans will be secured by chattel mortgages on the mobile drier and/or equipment, or by other security instruments approved by CCC.

(b) *Amount of loan.* The maximum amount to be loaned on any single mobile drier, or any mobile equipment suitable for the conditioning of grain shall not exceed seventy-five percent of the delivered and assembled cost of such drier or equipment, exclusive of farm-labor costs.

(c) *Repayment of loan.* Payment will be due annually in equal principal payments beginning on the first anniversary date of the disbursement of the loan, and a like principal payment plus interest shall be due on each anniversary date thereafter until the principal, together with interest thereon, has been paid in full. The notes securing loans will provide for acceleration in event of default under conditions set forth therein. Any unpaid amount on a delinquent loan or any past due amount on any annual payment may be deducted and paid out of any amounts due the borrower under any program carried out by the Department of Agriculture, excepting amounts due the borrower out of appropriated funds when the loan is held by a lending agency. The loan may be paid in part or in full by the borrower at any time before maturity. Upon payment of a loan secured by a mortgage which is held by CCC, the county committee should be requested to release the mortgage of record by filing an instrument of release or by a marginal release on the county records. Upon payment of loans secured by mortgages held by a lending agency, the lending agency should be requested to release such mortgage. The chairman of each county committee is authorized to act as agent of CCC in executing or obtaining such releases.

(d) *Insurance.* The borrower will be required to provide insurance in an amount sufficient to cover the loan and with coverage for fire and other hazards common to the area for such equipment as determined necessary by the county committee. The insurance shall be

maintained during the life of the loan, shall contain a loss payable clause in favor of the holder of the note and CCC, as their interest may appear, and the cost shall be borne by the borrower.

§ 674.196 *Disbursement of loans.* Loans will be disbursed to borrowers by lending agencies under agreement with CCC or direct by CCC. Direct loans to borrowers may be disbursed by means of sight drafts issued by County PMA Offices.

§ 674.197 *Service charges.* A service charge of \$2.50 or one-half (½) of one percent of the amount of the loan, whichever is greater, shall be paid by the borrower at the time the application is made. If the loan is rejected or is not completed, the minimum fee of \$2.50 shall be retained by the county committee and the balance returned to the applicant.

§ 674.198 *Sale or conveyance of security.* When a borrower desires to sell or convey the mobile drying equipment without repaying the loan in full, he shall apply to Chairman of the county committee for approval of the sale or conveyance on behalf of CCC. If such approval is granted, the borrower and his purchaser shall execute an assumption agreement in form prescribed by CCC under which the borrower remains liable for the balance of the indebtedness and the purchaser assumes the balance of the indebtedness and agrees to comply with all the terms, conditions, covenants, and agreements set out in the security instruments. Approval of the transaction on behalf of CCC shall be shown by signature of the Chairman of the county committee in the space provided in the assumption agreement. The Chairman of each county committee is authorized to approve such transactions on behalf of CCC with respect to mobile drying equipment located within the county, by executing the consent provision in the assumption agreement. The assumption agreement form may be obtained from the county committee office.

Issued this 27th day of October 1952.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 976—MILK IN FORT SMITH, ARKANSAS, MARKETING AREA

ORDER AMENDING ORDER REGULATING HANDLING

§ 976.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and

in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Fort Smith, Arkansas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for milk in the marketing area, and the minimum prices specified in the order, as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order, amending the order, effective not later than November 1, 1952. Any delay beyond that date in the effective date of this order will seriously disrupt the orderly marketing of milk for the Fort Smith, Arkansas, marketing area. The changes effected by this order do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the foregoing it is hereby found that good cause exists for making this order effective November 1, 1952 (Sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1003 (c)).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order which is marketed within the Fort Smith, Arkansas, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing

agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance, and who during the determined representative period (September 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Fort Smith, Arkansas, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order as hereby amended, and the aforesaid order is hereby amended as follows:

1. In § 976.51 (a) change the period at the end of the sentence to a colon and add "And provided further, That except for the purpose of computations pursuant to § 976.61 (b), the amount to be added to the basic formula price for the months of November 1952 through January 1953 shall be \$2.25 in lieu of \$1.85, and for the months of February and March 1953 such amount shall be \$2.05 in lieu of \$1.85."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 27th day of October 1952, to be effective on and after the 1st day of November 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

PHYSICAL EXAMINATION

In § 564.8, paragraph (d) is revised and paragraph (e) is added, as follows:

§ 564.8 *Physical examination.* * * *

(d) All other applicants for enlistment or reenlistment will be given final type physical examination. Accomplishment of chest X-ray, electrocardiogram, audiometer reading, blood serology, lens correction, and microscopic urinalysis is not required unless otherwise indicated. Pelvic examination for female personnel is not required unless otherwise indicated. The report of physical examination may be accomplished and signed by a medical officer of any component of the United States Army, Navy, Air Force, or Marine Corps, whether or not on active duty, or by any reputable doctor of medicine. The signature of only one examiner is required. Any expense incurred in having such physical examination by a medical officer not on active duty or by a civilian physician, except as pro-

vided in paragraph (e) of this section, will be borne by the applicant.

(e) When organized units and applicants for enlistment therein are located in remote areas where no medical examining facility nor any medical officer of any component of the Armed Forces qualified to effect a final type physical examination is available within a reasonable travel distance, examination of applicants for enlistments by a qualified local civilian physician is authorized. (A hundred-mile round trip may be used as a guide in determining "reasonable travel distance," such determination to be made by the recruiting officer.) Fees for such examinations will not exceed those authorized in Department of the Army circulars for similar professional services. Transportation costs incidental to such examination by a local civilian physician will not be borne by the Government.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Supplementary Regulation 123]

GCPR, SR 123—ADJUSTED CEILING PRICES FOR MANUFACTURERS OF CROWN CLOSURES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 123 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation establishes adjusted ceiling prices for manufacturers of crown closures. The method provided is to apply a uniform adjustment factor of 9 percent to the General Ceiling Price Regulation (GCPR) ceiling prices of the industry. The adjustment was derived from a financial survey of the crown closure industry.

At an Industry Advisory Committee meeting held on May 20, 1952 the Committee indicated that the level of earnings for this industry had fallen below the minimum prescribed by the "industry earnings standard." This standard provides that the level of ceiling prices for an industry shall normally be considered "fair and equitable" under the Defense Production Act of 1950, as amended, if the industry's dollar profits (computed before Federal income and excess profits taxes) amount to 85 percent of the average return on net worth for the industry's best three years during the period 1946-49, inclusive.

A survey was undertaken by OPS and financial data were obtained from nine of

the twelve companies in the industry. Total sales of these nine companies represent approximately 75 percent of total sales for the industry. Based upon this survey, the Director of Price Stabilization has determined that in order for the dollar profits of the industry to meet the industry earnings standard, and for ceiling prices to be generally fair and equitable ceiling prices for this industry would have to be established at 9 percent above the level of present ceiling prices. In conducting this survey and computing the appropriate adjustment, such operations performed by the manufacturer as lithographing, coloring, printing, coating and packaging the closures were taken into consideration. These so-called "extras" are covered by this regulation.

Also, in determining the 9 percent adjustment factor recognition was given, among other costs, to the increased cost of steel incurred by the industry since the issuance of SR 100 to the GCPR on August 19, 1952, and to increased costs of outbound transportation. For this reason, use of this regulation precludes crown closure manufacturers from applying the pass-through provisions of General Overriding Regulation 35, which permits manufacturers to pass-through cost increases resulting from the issuance of SR 100 to the GCPR, and of SR 122 to the GCPR, which permits adjustments to reflect increases in the cost of outbound transportation. On the other hand, manufacturers covered by this supplementary regulation are relieved of the necessity of reporting to their purchasers the amount of the steel cost increase pass-through, as is required by GOR 35. An amendment to GOR 35 will inform purchasers of crown closures of the exact amount which they, in turn, may pass-through.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, and consideration has been given their recommendations.

REGULATORY PROVISIONS

Sec.

1. What this supplementary regulation does.
2. Coverage.
3. Adjusted ceiling prices.
4. Use of GOR's 20, 21, and 35, and SR 122 to the GCPR.

AUTHORITY: Sections 1 to 4 Issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 805, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6104; 3 CPR 1950 Supp.

SECTION 1. What this supplementary regulation does. This supplementary regulation establishes adjusted ceiling prices for sales by manufacturers of crown closures, as defined in section 2. Such manufacturers are currently subject to the General Ceiling Price Regulation (GCPR). The method provided is to apply to the GCPR ceiling prices of the industry a uniform adjustment ratio.

SEC. 2. Coverage—(a) Persons covered. This supplementary regulation applies to you if you manufacture the commodities described in paragraph (b) of this section and establishes your ceiling prices for sales of such commodities.

Except to the extent that they are inconsistent with the provisions of this supplementary regulation, all provisions of the GCFR shall continue to be applicable to you.

(b) *Commodities covered.* This supplementary regulation covers crown closures, as defined below:

(1) Crown closures are metallic caps, produced by punch press operation, from one-quarter pound steel tin plate or one-half pound black sheet steel, containing a gas-tight cork liner, and used principally in bottling malt liquors and carbonated beverages.

(2) For the purposes of this SR, crown closures, as defined in subparagraph (1) above, shall include all "extras" supplied by the manufacturer, such as, but not limited to, lithographing, printing, coloring, coating and packaging irrespective of whether the manufacturer's charges for such extras are separately stated or are included in a single charge together with the basic crown closure.

Sec. 3. Adjusted ceiling prices—(a) How to compute. Your ceiling price for the sale of any commodity covered by this supplementary regulation is your ceiling price in effect under the GCFR increased by 9 percent (i. e., 109 percent of your GCFR ceiling price).

(b) *Rounding ceiling prices.* You may round your ceiling prices per unit determined under this section so that they will be expressed to the nearest cent. If you elect to do so you must similarly round the ceiling prices for all your commodities normally priced on the same basis to reflect decreases as well as increases. For example, if your ceiling price for one gross of commodity A is 21.7 cents you may round that ceiling price to 22 cents. However, if your ceiling prices for one gross of commodity B is 21.3 cents you must round its ceiling price to 21 cents.

(c) *Terms and conditions of sale.* Your ceiling prices under this supplementary regulation must be consistent in all respects with your GCFR ceiling prices; that is, they must carry all customary discounts, allowances, premium and extras, deductions, guarantees and other terms and conditions of sale.

Sec. 4. Use of GOR's 20, 21 and 35, and SR 122 to GCFR—(a) GOR 20, GOR 21. Notwithstanding any provision of this supplementary regulation you may elect to apply the provisions of General Overriding Regulation 20 or 21 to establish your ceiling prices. If you do so elect, you may not use the provisions of this supplementary regulation.

(b) *GOR 35; SR 122 to GCFR.* You may not employ any of the provisions of General Overriding Regulation 35 (pass-through for steel, pig-iron, copper and aluminum cost increases) or SR 122 to GCFR (adjustments to reflect increased outbound transportation rates).

Accordingly, you will not have to make any of the reports to your purchasers required by GOR 35 as to the amount of your selling prices or ceiling prices reflecting the pass-through for increases in the cost of metals covered by that regulation.

Effective date. This supplementary regulation shall become effective October 29, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

[CMP Regulation No. 1, Direction 18 as Amended Oct. 29, 1952]

CMP REG. 1—BASIC RULES OF THE CONTROLLED MATERIALS PLAN

DIR. 18—AUTOMATIC ALLOTMENT PROCEDURE FOR PRODUCERS OF CLASS B PRODUCTS

This direction as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

EXPLANATORY

This amendment affects Direction 18, as last amended August 29, 1952, to CMP Regulation No. 1 by amending section 3 thereof.

REGULATORY PROVISIONS

- Sec.
1. What this direction does.
 2. Definitions.
 3. Persons affected by automatic allotment procedure.
 4. Use of allotment symbol to obtain controlled materials.
 5. Use of rating to obtain production materials other than controlled materials.

SECTION 1. What this direction does. This direction relates only to producers of Class B products who received allotments pursuant to applications submitted on Form CMP-4B for the third calendar quarter of 1952. Such producers may calculate their own allotments and place purchase orders for delivery in any calendar quarter, beginning with the first calendar quarter of 1953, only if their allotments for the third quarter of 1952 did not exceed certain maximum amounts. A producer of a Class B product who received an allotment for such product pursuant to Form CMP-4B for the third quarter of 1952 which did not exceed such maximum amounts, but who desires quantities of controlled materials commencing with the first quarter of 1953 which exceed the automatic allotment quantities as calculated under this direction, must submit an application on Form CMP-4B. The provisions

of Direction 1 to CMP Regulation No. 1 may be used only through the fourth quarter of 1952.

Sec. 2. Definitions. As used in this direction:

(a) "Product class" means a Product Class Code as shown in the Official CMP Class B Product List.

(b) "Total third-quarter allotment" means the total net allotments of a particular kind of controlled material (carbon steel, alloy steel, nickel-bearing stainless steel, all copper or aluminum) received by a producer of a Class B product for a particular product class for the third calendar quarter of 1952 pursuant to an allotment on Form CMP-4B or Form CMP-10, plus any quantity of such kind of controlled material for which such producer was entitled to self-authorize pursuant to Direction 1 to CMP Regulation No. 1 for the third calendar quarter of 1952 in such product class. Total net allotments shall be computed as of the close of business on August 29, 1952. In making such computation, the producer shall deduct any allotment decrease which he has received on Form CMP-11 and any portion of his third-quarter allotments which he has returned on Form CMP-12.

Sec. 3. Persons affected by automatic allotment procedure. (a) Subject to the limitations of paragraphs (b) and (c) of this section, a producer of any Class B product which is listed in the Official CMP Class B Product List may, without submitting an application on Form CMP-4B, calculate his own allotments and place purchase orders calling for delivery in any calendar quarter, beginning with the first calendar quarter of 1953, if his total third-quarter allotment of each kind of controlled material (including controlled material for Class A product components) for the production of that product and all other products in the same product class did not exceed the amounts specified below:

- Carbon steel (including 500 tons. wrought iron).
- Alloy steel (except nickel-bearing stainless steel) 90 tons.
- Nickel-bearing stainless steel 10,000 pounds.
- Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder. 40,000 pounds.
- Aluminum 60,000 pounds.

Provided, however, That no such producer, unless specifically authorized by NPA, shall avail himself of the automatic allotment procedure provided by this direction if he has not received an allotment pursuant to application submitted on Form CMP-4B for the third calendar quarter of 1952, or if his total third-quarter allotment of any kind of controlled material exceeded the above amounts, for the manufacture of the same product and all other products in the same product class. Instead, a producer who has not received such third-quarter allotment, or whose total third-quarter allotment of any kind of controlled material exceeded the above amounts, shall obtain his controlled ma-

terial requirements beginning with the first calendar quarter of 1953 either pursuant to Direction 17 to CMP Regulation No. 1 or pursuant to application submitted on Form CMP-4B, whichever is appropriate.

(b) Subject to the limitations of paragraph (a) of this section, a producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section, shall calculate as his allotment authority for the first calendar quarter of 1953 a quantity of each of the following kinds of controlled material equal to the specified percentage or percentages of his total third-quarter allotment of such material for the manufacture of the same product and all other products in the same product class:

Kinds of controlled material	Calculation of allotments on basis of total third quarter 1952 allotments
Carbon steel (including wrought iron).	100 percent of first 50 tons of total third quarter 1952 allotment, plus 50 percent of any excess between 50 tons and 500 tons.
Alloy steel (except nickel-bearing stainless steel).	100 percent of first 16 tons of total third quarter 1952 allotment, plus 80 percent of any excess between 16 tons and 90 tons.
Nickel-bearing stainless steel.	100 percent of first 500 pounds of total third quarter 1952 allotment, plus 80 percent of any excess between 500 pounds and 10,000 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.	100 percent of total third quarter 1952 allotment if it did not exceed 40,000 pounds.
Aluminum.....	100 percent of total third quarter 1952 allotment if it did not exceed 60,000 pounds.

(c) Subject to the limitations of paragraph (a) of this section, a producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section, shall calculate as his allotment authority for the second calendar quarter of 1953 and for each succeeding calendar quarter a quantity of each kind of controlled material listed in paragraph (b) of this section which is equal to his total third-quarter allotment of such material for the manufacture of the same product and all other products in the same product class.

(d) Notwithstanding the provisions of paragraphs (b) or (c) of this section, a producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section need not during any calendar quarter reduce his allotment authority below the specified quantity of each of the following kinds of controlled material for the manufacture of the same product and all other products in the same product class:

Carbon steel (including wrought iron).	25 tons.
Alloy steel (except nickel-bearing stainless steel).	1 ton.
Nickel-bearing stainless steel.	500 pounds.

Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder. 10,000 pounds.
Aluminum..... 20,000 pounds.

(e) A producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section, but who has already received allotments for the first or a succeeding calendar quarter of 1953 pursuant to application or applications previously submitted on Form CMP-4B for such Class B product and others in the same product class, and has placed orders for controlled materials pursuant to such allotments, must deduct the quantity of orders so placed from the quantity of his calculated allotment under this section for such quarter.

(f) A producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section but who has already received allotments for the first or a succeeding calendar quarter of 1953 pursuant to application or applications previously submitted on Form CMP-4B for such Class B product and others in the same product class, which exceed his automatic allotment authority as calculated under this section with respect to any kind of controlled material, need not return such excess allotments, but his allotment authority shall be limited to the amounts calculated under this section for such quarter.

(g) A producer of any Class B product who need not submit an application on Form CMP-4B pursuant to this direction shall be subject to all applicable regulations and orders of NPA. For example, he shall make allotments of controlled material to a person producing Class A product components for him in the manner prescribed by CMP Regulation No. 1.

(h) Class A products which a producer has been authorized by NPA to treat as Class B products in accordance with section 24 (b) of CMP Regulation No. 1, and Class A products which are sold to a distributor or for use as maintenance, repair, or operating supplies in accordance with paragraph (b) or (c) of section 15 of CMP Regulation No. 1, shall be deemed Class B products for purposes of this direction. A producer may calculate his own allotments and place purchase orders without filing a Form CMP-4B for any calendar quarter, beginning with the first calendar quarter of 1953, in which his total requirements for delivery from suppliers of each kind of controlled material (including controlled material for Class A product components) for the production of all Class A products which are deemed Class B products for purposes of this direction do not exceed the quantities indicated in this section.

(i) Except as otherwise provided by NPA, a producer of a Class B product must obtain his requirements of all kinds of controlled materials in a particular calendar quarter for a particular product class pursuant to this direction or pursuant to Direction 17 to CMP Regulation No. 1 or pursuant to application submitted on Form CMP-4B, and may

not use the automatic allotment procedure of this direction or the self-authorization procedure of Direction 17 for one or more kinds of controlled materials and submit a Form CMP-4B for one or more other kinds of controlled materials.

Sec. 4. *Use of allotment symbol to obtain controlled materials.* Any producer of Class B products who, pursuant to this direction, may calculate his own allotments and place purchase orders without filing a Form CMP-4B, is authorized to use the allotment symbol which identifies the allotment he has received for the same products pursuant to application submitted on Form CMP-4B for the third calendar quarter of 1952 (and not the allotment symbol SU), or such other allotment symbol as NPA may expressly authorize, on delivery orders for controlled materials within the limits set forth in section 3 of this direction. He may also append the suffix program identification B-5 to such allotment symbol in accordance with the provisions of section 11 (d) of CMP Regulation No. 1. An order so designated, when certified as provided in section 6 of this direction, shall constitute an authorized controlled material order. The quantity of such Class B products which may be produced with controlled materials obtained with the use of such allotment symbol, or with such other allotment symbol as NPA may expressly authorize, plus controlled materials properly contained in inventory, shall constitute an authorized production schedule for the purpose of all CMP regulations.

Sec. 5. *Use of rating to obtain production materials other than controlled materials.* Any producer of Class B products who, pursuant to this direction, may calculate his own allotments and place purchase orders without filing a Form CMP-4B, is authorized to use the DO rating which accompanies the allotment he has received for the same products pursuant to application submitted on Form CMP-4B for the third calendar quarter of 1952 (and not the rating DO-SU), or such other rating as NPA may expressly authorize, on delivery orders for production materials as defined in CMP Regulation No. 3 in accordance with the provisions of that regulation. He may also append the suffix program identification B-5 to such rating in accordance with the provisions of section 6 (f) of CMP Regulation No. 3.

Sec. 6. *Certification.* Every delivery order placed under the provisions hereof shall contain, in the case of an order for controlled materials, the certification required by section 19 of CMP Regulation No. 1, or, in the case of an order for production materials other than controlled materials, the certification required by section 6 of CMP Regulation No. 3.

This amended direction shall take effect October 29, 1952.

Chapter XXIII—Defense Materials Procurement Agency

[Revision 1, Amdt. 1]

COLUMBIUM-TANTALUM PURCHASE PROGRAM REGULATION

Pursuant to the authority vested in me by Executive Order 10281, as amended, this regulation, as revised, is amended by adding thereto the following which, for convenience, is designated "Article II".

Purpose. The purpose of this amendment is to provide a means for small domestic producers of columbium-tantalum ores and concentrates to sell such ma-

terial to the Government in quantities of less than 2,000 pounds avoirdupois. Under this amendment, the Government will buy at its established purchase depots columbium-tantalum ores and concentrates of domestic origin (defined as ores and concentrates produced within the United States, its Territories or possessions) offered in any size lots up to 2,000 pounds avoirdupois.

Sec. 9. Small lot purchases. For the purposes of this Article II, a "small lot" is defined as any quantity of columbium-tantalum ores or concentrates of less than 2,000 pounds of domestic origin.

Any seller may offer to the Government, during the term of this program, at the Government purchase depots located at Spruce Pine, North Carolina; Franklin, New Hampshire; and Custer, South Dakota, small lots meeting the requirements set forth in this Article II. Acceptability of small lots shall be determined on the basis of visual inspection by the Government, whose decision shall be final: *Provided, however,* That the seller may request a chemical analysis and if, in the judgment of the Government, a chemical analysis is justified, such an analysis may be made at the seller's expense by a laboratory mutually acceptable to the Government and the producer.

SEC. 10. Requirements. (a) Small lots offered for sale to the Government may be rejected if, in the opinion of the Administrator, they are not of acceptable or desirable grade. The removal of objectionable substances, by cleaning, cobbing or other methods may be required as a condition to purchase by the Government.

(b) All acceptable small lots shall contain a minimum of fifty percent (50%) contained combined pentoxide (Cb₂O₅ plus Ta₂O₅), and for the purpose of payment all small lots meeting requirements shall be considered as containing not more than fifty percent (50%) contained combined pentoxide (Cb₂O₅ plus Ta₂O₅).

(c) Each seller shall be required to certify that the small lot offered for sale to the Government is of domestic origin.

(d) The ratio of Cb₂O₅ to Ta₂O₅ shall not be a factor in the acceptability of a small lot, nor in making payment therefor.

(e) All small lots offered to the Government under this Article II shall be delivered by the seller f. o. b. Government purchase depot.

SEC. 11. Payment. Irrespective of the actual Cb₂O₅ plus Ta₂O₅ content, all small lots meeting requirements shall be purchased at the flat rate of \$3.40 per pound of contained combined pentoxide (Cb₂O₅ plus Ta₂O₅), and for purposes of payment all small lots purchased shall be considered as containing not more than fifty percent (50%) contained combined pentoxide (Cb₂O₅ plus Ta₂O₅). This price is the maximum allowed for purchases under this Article II and is calculated to include bonus, premiums and penalties.

This amendment is effective as of the date hereof.

Dated: October 24, 1952.

Chapter I—Veterans' Administration

PART 17—MEDICAL

MISCELLANEOUS AMENDMENTS

Correction

In F. R. Doc. 52-11391, appearing on page 9561 of the issue for Tuesday, October 21, 1952, item 2 should read as follows:

2. In § 17.46, paragraph (a) (5) is amended to read as follows:

§ 17.46 *Persons entitled to hospital treatment or domiciliary care.* * * *

(a) * * *

(5) Members or former members of the uniformed services (Army, Navy, Air Force, Marine Corps, Coast Guard, Coast and Geodetic Survey, and Public Health Service) temporarily or permanently retired for physical disability or receiving disability retirement pay who require hospitalization for chronic diseases and who have no eligibility to hospitalization under laws governing the Veterans' Administration or who have eligibility do not elect hospitalization as Veterans' Administration beneficiaries (Pub. Law 351, 81st Cong., and Executive Order 10122 as amended by Executive Order 10400).

PART 36—SERVICEMEN'S READJUSTMENT ACT OF 1944

SUBPART A—TITLE III; LOAN GUARANTY LOAN GUARANTY COMMITTEES

1. In § 36.4381, paragraphs (a) and (b) are amended to read as follows:

§ 36.4381 *Jurisdiction of regional office loan guaranty committee.* (a) The regional office committee will have original jurisdiction to adjudicate all cases in its area involving an indebtedness by a veteran to the United States of \$2,500 or less, resulting from payment of the gratuity, or the guaranty or insurance of a loan under Title III of the Servicemen's Readjustment Act of 1944, as amended (sec. 694, et seq., 38 U. S. C.).

(b) The regional office committee will determine whether the indebtedness of the veteran borrower or any part thereof, shall be waived and if not waived (1) whether a compromise settlement shall be accepted (except as to litigated cases), or (2) whether the indebtedness on the loan shall or shall not be collected from compensation or pension; and whether a compromise settlement shall be accepted from any other obligor.

2. In § 36.4382, paragraph (b) is amended to read as follows:

§ 36.4382 *Jurisdiction of central office loan guaranty committee on waivers and compromises.* * * *

(b) The central office committee will determine whether the indebtedness of the veteran borrower or any portion thereof, shall be waived and if not waived (1) whether a compromise settlement shall be accepted (except in litigated cases), or (2) whether the indebtedness on the loan shall or shall not

be collected from compensation or pension; and whether a compromise settlement shall be accepted from any other obligor.

3. In § 36.4384, paragraphs (a) and (d) (2) are amended and new paragraphs (e) and (f) are added as follows:

§ 36.4384 *Principles to be followed by loan guaranty committee for waivers and compromises.* (a) In determining whether an indebtedness or any part thereof shall be waived, the general equitable principles of section 28, World War Veterans Act, as amended (38 U. S. C. 453), as explained in Veterans' Administration claims procedures will be applied. The indebtedness may be waived in whole or in part: (1) When the veteran was not at fault in the creation of indebtedness which is being considered by the committee, and (2) where recovery of the whole or the part concerned (i) would defeat the purposes of the benefits otherwise authorized under the laws administered by the Veterans' Administration, or (ii) would be against equity and good conscience.

(d) * * *

(2) Money paid under mistake cannot be recovered where the payee is entitled in equity and good conscience to retain it.

(e) Proposed compromises do not involve the equitable considerations of paragraphs (a) through (d) of this section. An offer of a veteran or other obligor to effect a compromise of an indebtedness shall be reviewed by a committee within its respective authority and such offer may be accepted if deemed advantageous to the Government.

(f) The general waiver or compromise (whether by a release, covenant not to sue, or otherwise) of a veteran's indebtedness shall inure to the spouse of such veteran insofar as concerns said indebtedness, unless the obligation of the spouse is specifically excepted.

(Sec. 504, 58 Stat. 293, as amended; 38 U. S. C. 694d)

This regulation is effective October 30, 1952.

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 869]

FLORIDA

WITHDRAWING PUBLIC LANDS FOR USE OF THE DEPARTMENT OF THE NAVY IN CONNECTION WITH A GUNNERY RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Florida are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Department of the Navy in connection with a gunnery range:

TALLAHASSEE MERIDIAN

T. 3 S., R. 32 W.,

Sec. 33, lots 5 to 20, inclusive.

The areas described aggregate 39.91 acres.

It is intended that the lands described shall be returned to the administration of the Department of the Interior when they are no longer needed for the purpose for which they are reserved.

ALASKA

REVOKING EXECUTIVE ORDER NO. 2981 OF
OCTOBER 25, 1918

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F. R. 4831), it is ordered as follows:

Executive Order No. 2981 of October 25, 1918, reserving the following-described lands in Alaska for the use of the War Department as a Signal Corps cable line, is hereby revoked:

A tract 150 feet wide on either side of the following-described line for the first 400 feet from the point of beginning, and 25 feet on either side thereof for the remainder of the distance: Beginning at a point on Frederick Sound, Mitkof Island, whence the Red Light Blinker, in Lat. 56°49' N. and Long. 132°56' W., bears northwest 2,700 feet; extending thence S. 65°21' W., 6,500 feet to the intersection of Seventh and "E" Streets, Petersburg Townsite; thence west, following the Middle of "E" Street, 1,825 feet to the intersection of Main and "E" Streets on the shore of Wrangell Narrows.

Portions of the lands released from withdrawal comprise a street in the Town Site of Petersburg, Alaska, or extend across an unsubdivided part of Petersburg Town Site, in U. S. Survey No. 1168. Such lands are not subject to application.

Another portion, comprising a strip of land varying in width from 50 feet for the greater portion of its length to 300 feet for a distance of 400 feet of its length, extends across sec. 26, T. 58 S., R. 79 E., Copper River Meridian. This order shall not otherwise become effective to change the status of such lands until 10 a. m. on the 91st day after the date of this order. At that time the said lands shall become subject to application, petition, location, and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Manager of the Land Office at Anchorage, Alaska.

JOEL D. WOLFSOHN,
Assistant Secretary of the Interior.

PART 95—CAR SERVICE

MINIMUM LOADING OF CARLOAD TRANSFER FREIGHT REQUIRED

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 24th day of October A. D. 1952.

It appearing, that the Defense Transport Administration has made representations to the Interstate Commerce Commission that the railroads are engaged in the practice of lightly loading transfer part-shipments in box cars at origin and transfer points; that such practice is wasteful and aggravates the car shortage, depleting and diminishing the use, control, supply, distribution and interchange of such cars which are urgently needed for the movement of certain essential defense materials. The Commission is of the opinion an emergency requiring immediate action exists in all sections of the country where this practice is permitted. It is ordered, that:

§ 95.888 *Minimum loading of carload transfer freight required.* (a) (1) No common carrier by railroad subject to the Interstate Commerce Act shall permit carload shipments in box cars to be stopped-off in transit to partially load under tariff provisions where the carrier

may for operating convenience, or upon request of the shipper, place a separate car at the stop-off point, or points, to be loaded with the freight that would otherwise be loaded thereinto the car, or cars, containing the shipment ordered to be stopped, and such car, or cars, shall not be treated as though they had been partially loaded at the stop-off point, or points, unless the amount of such freight at point of origin, or the stop-off point, or points, equals or exceeds 15,000 pounds for each car.

(2) No common carrier by railroad, subject to the Interstate Commerce Act, shall permit carload shipments in box cars to be stopped-off in transit to partially unload under the tariff provisions where the carrier will, at its convenience, or upon specific request of a shipper, transfer that portion of the shipment consigned to either the stop-off point, or points, or to the final destination, and forward shipment to stop-off point, or points, or the final destination in another box car unless the amount of such freight destined to the stop-off point, or points, equals or exceeds 15,000 pounds for each car. In the event that such car, or cars, is loaded with less than the minimum herein provided that shipment shall not be transported.

(b) *Application.* The provisions of this section shall apply to shipments moving in intrastate commerce as well as to those moving in interstate commerce.

(c) *Effective date.* This section shall become effective at 7:00 a. m., November 1, 1952.

(d) *Expiration date.* This section shall expire at 6:59 a. m., April 1, 1953, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(e) *Exceptions.* Any exceptions to the provisions of this section shall be covered by special permits issued by Mr. Charles W. Taylor, Director, Bureau of Service, Washington 25, D. C., for the use of certain types of box cars.

(f) *Rules and regulations suspended.* The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended.

(g) *Announcement of suspension.* Each of such railroads, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

It is further ordered, that this order vacated and superseded Service Order No. 888 and that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

PART 95—CAR SERVICE

SUBSTITUTION OF STOCK CARS FOR BOX CARS
TO TRANSPORT FRUIT AND VEGETABLE CON-
TAINERS, BOX SHOOKS AND COTTON

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 24th day of October A. D. 1952.

It appearing, that fruit and vegetable containers, box shooks, other packing material and uncompressed cotton are now moving in box cars from origins in the States of Washington, Oregon and California, to destinations in the States of Washington, Oregon, California, Nevada and Arizona; that the substitution of stock cars for such box cars will release the box cars for other and more essential transportation; in the opinion of the Commission an emergency exists requiring immediate action to prevent a

shortage of equipment. It is ordered, that:

§ 95.891 *Substitution of stock cars for box cars to transport fruit and vegetable containers, box shooks and cotton.* (a) Any common carrier by railroad subject to the Interstate Commerce Act transporting fruit and vegetable containers, box shooks or other packaging or packing materials and uncompressed cotton, in carloads, from origins located in the States of Washington, Oregon, and California, to destinations in the States of Washington, Oregon, California, Nevada and Arizona may, at their option, furnish and transport not more than two stock cars (Southern Pacific Series 70300-77775) in lieu of each box car ordered, subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car.

(b) *Application.* The provisions of this section shall apply to shipments moving in intrastate commerce as well as to those moving in interstate commerce.

(c) *Effective date.* This section shall become effective at 12:01 a. m., November 1, 1952.

(d) *Expiration date.* This section shall expire at 11:59 p. m., January 31, 1953, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(e) *Rules and regulations suspended.* The operation of all rules and regula-

tions insofar as they conflict with the provisions of this section is hereby suspended.

(f) *Announcement of suspension.* Each of such railroads, or its agents, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

It is further ordered, that this order shall vacate and supersede Service Order No. 891 and that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

PROPOSED RULE MAKING

DEPARTMENT OF COMMERCE

Civil Aeronautics Administration

[14 CFR Part 565]

INTERPRETATIONS OF SURPLUS AIRPORT PROPERTY INSTRUMENTS OF DISPOSAL EXECUTED PURSUANT TO SURPLUS PROP- ERTY ACT OF 1944

NOTICE OF PROPOSED RULE-MAKING

Notice is hereby given that I propose to adopt, as part of a new Part 565 of the regulations of the Administrator of Civil Aeronautics, a regulation interpreting certain language contained in many deeds and other instruments by which the United States has disposed of surplus airport property pursuant to the Surplus Property Act of 1944. Such proposed regulation is as hereinafter set forth.

Interested persons may participate in this proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Administrator of Civil Aeronautics, attention Office of Airports (W-135), Washington 25, D. C. In order to ensure their consideration by the Administrator before any further action is taken on the proposed interpretation, communications must be received by December 1, 1952. Copies of such communications will be available after December 1, 1952, for examination by interested persons in Room 1310, T-5 Building, Washington, D. C.

On July 30, 1947, the Surplus Property Act of 1944 (58 Stat. 765), as amended, was further amended by the enactment of Public Law 289, 80th Congress (61 Stat. 678). That act added to the Surplus Property Act of 1944 a new section 13 (g) authorizing agencies of the Government, under certain conditions, "to convey or dispose of to any State, political subdivision, municipality, or tax-supported institution, without monetary consideration to the United States" but subject to certain prescribed "terms, conditions, reservations, and restrictions," all of the right, title, and interest of the United States in and to any surplus real or personal property (with the exception of certain industrial property) "which, in the determination of the Administrator of Civil Aeronautics, is essential, suitable, or desirable for the development, improvement, operation, or maintenance of a public airport as defined in the Federal Airport Act (60 Stat. 170) or reasonably necessary to fulfill the immediate and foreseeable future requirements of the grantee for the development, improvement, operation, or maintenance of a public airport, including property needed to develop sources of revenue from non-aviation businesses at a public airport."

It is one of the "terms, conditions, reservations, and restrictions" prescribed by Public Law 289 which now gives rise to the interpretation here proposed. That term, condition, reservation, and restriction is set forth in section 2 of

that act as paragraph (F), reading as follows:

"(F) The United States shall at all times have the right to make non-exclusive use of the landing area of the airport at which the surplus property is located or used, without charge: *Provided, however,* That such use may be limited as may be determined at any time by the Administrator of Civil Aeronautics to be necessary to prevent undue interference with use by other authorized aircraft: *Provided, further,* That the United States shall be obligated to pay for damages caused by such use, or if its use of the landing area is substantial, to contribute a reasonable share of the cost of maintaining and operating the landing area, commensurate with the use made by it.

Since the enactment of Public Law 289, a great many deeds, leasehold surrender agreements, and other instruments of disposal have been executed by the Government pursuant thereto. Such instruments, in many if not all cases, contain provisions whereby the grantees agree to, and covenant to abide by, certain "reservations and restrictions" which usually correspond and conform in substance to the "terms, conditions, reservations, and restrictions" prescribed by Public Law 289. One such reservation and restriction, corresponding to paragraph (F) of the statute, as quoted above, normally is stated in the following language:

That the United States of America (hereinafter sometimes referred to as the "Government") through any of its employees or agents shall at all times have the right to

make nonexclusive use of the landing area of the airport at which any of the property transferred by this instrument is located or used, without charge: *Provided, however*, That such use may be limited as may be determined at any time by the Civil Aeronautics Administrator or his successor to be necessary to prevent undue interference with use by other authorized aircraft: *Provided, further*, That the Government shall be obligated to pay for damages caused by such use, or if its use of the landing area is substantial, to contribute a reasonable share of the cost of maintaining and operating the landing area, commensurate with the use made of it.

The Civil Aeronautics Administration has knowledge that many owners of public airports which are subject to surplus airport property instruments of disposal containing such language are in doubt as to the nature and extent of their obligation thereunder to make the landing areas of their airports available for non-exclusive use by the military services of the Government without charge and would like to have an authoritative and reliable interpretation of the language in question, clarifying their obligation in that regard. As an example, the Administrator has received a letter from the Secretary of the Southeastern Airport Managers' Association notifying him that the Association has adopted a resolution requesting him "to set up a policy and the necessary machinery so as to determine when military air traffic at civilian airports becomes 'substantial use' within the meaning of the term as used 'in the majority of quitclaim deeds under which many municipalities have obtained surplus airports.'"

It is the Administrator's opinion that some clarification of the term "substantial" as used in instruments of disposal under Public Law 289 is necessary in order to permit the owners of public airports subject to such instruments to make proper plans and arrangements for the use and operation of their airports, and that such a clarification is therefore necessary to protect and advance the interests of the United States in civil aviation. It is also the Administrator's opinion that clarification of the term "substantial" would be helpful to the military agencies of the Government in that it would serve to define the military use rights of the Government insofar as it defined the corresponding obligations of airport owners.

This matter is of concern to, and within the province of, the Civil Aeronautics Administration largely by virtue of the following provisions of Public Law 311, 81st Congress (63 Stat. 700):

Sec. 3. The Administrator of Civil Aeronautics shall have the sole responsibility for determining and enforcing compliance with the terms, conditions, reservations, and restrictions contained in any instrument of disposal by which surplus property is or has been transferred to States and their political subdivisions, municipalities, and tax-supported institutions pursuant to the Surplus Property Act of 1944, for use in the development, improvement, operation, or maintenance of a public airport or to provide sources of revenue from non-aviation businesses at a public airport (including property transferred for any such use pursuant to such act prior to July 30, 1947), and the Administrator is authorized to reform, correct, or amend any instrument of disposal

by which such property was conveyed by the issuance of a corrective, reformatory, or amendatory instrument where such action is determined by him to be necessary to correct such instrument or to conform the transfer to the requirements of applicable law.

Sec. 4. Notwithstanding any other provision of law, the Administrator of Civil Aeronautics is further authorized, without monetary consideration to the United States, to grant releases from any of the terms, conditions, reservations, and restrictions contained in, and to convey, quitclaim, or release any right or interest reserved to the United States by, any such instrument of disposal, if he determines that the property transferred by such instrument no longer serves the purpose for which it was transferred, or that such release, conveyance, or quitclaim will not prevent accomplishment of the purpose for which the property was transferred and is necessary to protect or advance the interests of the United States in civil aviation: *Provided*, That any such release, conveyance, or quitclaim may be granted on, or made subject to, such terms and conditions as the Administrator of Civil Aeronautics deems necessary to protect or advance the interests of the United States in civil aviation: *And provided further*, That no release, conveyance, or quitclaim shall be executed by the Administrator pursuant to this section except upon the condition that, in the event that the property to which such release, conveyance, or quitclaim relates shall be sold to any third party within five years after the date of enactment of this act, the proceeds of such sale shall be devoted exclusively to the development, improvement, operation, or maintenance of a public airport.

On the basis of these statutory provisions, it appears that the Administrator of Civil Aeronautics is the only official of the Government having authority to determine the nature and extent of the obligations of grantees of surplus airport property under Public Law 289, and that it is his duty to make such determinations whenever requested to do so by any person or agency having an interest in the matter. In addition, it appears that the statutory provisions quoted grant to the Administrator of Civil Aeronautics authority to make such determinations by issuing interpretations of the provisions of instruments of disposal executed pursuant to Public Law 289, which will be binding on the United States and all agencies of the Government.

Accordingly, the Civil Aeronautics Administration has made a thorough and careful study in an effort to determine the intent of the Government in using the term "substantial" in those provisions of Public Law 289 instruments of disposal corresponding to the above-quoted paragraph (F) of that act. Such study has included a review of the legislative history of the act and of all available correspondence and other materials in the files of the Civil Aeronautics Administration, relative to the act and the regulations and policies of the War Assets Administration under which the instruments in question were executed. In addition, the Civil Aeronautics Administration has drawn on the recollections of its personnel who participated in the drafting of the bill which was enacted as Public Law 289 and in the drafting of the applicable regulations of the

War Assets Administration and has considered the views of its airport engineers and experts on airport operation as to the nature and extent of military aircraft operations at civil airports and the effect of such operations on the airports so used.

On the basis of such studies and in view of the foregoing considerations, the Administrator of Civil Aeronautics now proposes to adopt the following new Part 565—Surplus Airport Property:

§ 565.1 *Interpretations of instruments of disposal*. Notice is hereby given that the Administrator, if and when called upon to do so, will interpret deeds, leasehold surrender agreements, and other instruments of disposal by which surplus airport property of the Government has been transferred or otherwise disposed of pursuant to the Surplus Property Act of 1944, as provided in this section. Upon request in such cases the Administrator will cause to be executed such corrective, reformatory, or amendatory instrument, or instrument of release, as he may deem appropriate to give effect to the interpretation.

(a) *Instruments executed pursuant to Public Law 289*. In interpreting instruments of disposal executed pursuant to section 13 (g) of the Surplus Property Act of 1944, as added by Public Law 289, 80th Congress, the Administrator will construe the several provisions of such instruments as provided in subparagraph (1) of this paragraph.

(1) *Provisions corresponding to paragraph (F) of Public Law 289*. All provisions of instruments of disposal executed pursuant to Public Law 289, containing generally the following language of paragraph (F) of that act:

(F) The United States shall at all times have the right to make nonexclusive use of the landing area of the airport at which the surplus property is located or used, without charge: *Provided, however*, That such use may be limited as may be determined at any time by the Administrator of Civil Aeronautics to be necessary to prevent undue interference with use by other authorized aircraft: *Provided, further*, That the United States shall be obligated to pay for damages caused by such use, or if its use of the landing area is substantial, to contribute a reasonable share of the cost of maintaining and operating the landing area, commensurate with the use made by it.

will be construed as follows:

(i) The right of use granted or reserved by the paragraph is confined to use of the landing area by Government aircraft weighing, at the time of such use, not more than the maximum weight which the runways and other facilities used were designed to withstand, and does not include any use by heavier Government aircraft.

(ii) The proviso obligating the Government to pay a share of the airport owner's operating and maintenance costs where Government use of the landing area of the airport is "substantial", is to be applied on a calendar month basis, considering among other things the nature and extent of Government aircraft operations during the calendar month. For purposes of such proviso, use of the landing area for such operations is to be considered "substantial" if (a) a military

agency of the Government (including a National Guard Squadron when in a "Federalized" status) maintained on the airport or on property adjacent thereto, throughout the calendar month in question, a squadron or larger military body (including a National Guard Squadron when in a "Federalized" status) equipped with military aircraft; or (b) the total number of movements (counting each landing and each take-off as a movement) of Government aircraft, including itinerant as well as based aircraft, on the landing area during the calendar month in question, was 300 or more, or, if less than 300, amounted to as much as 10 percent of the total aircraft move-

ments, Government and non-Government, on the landing area during the month. In addition, it may be that there will be cases in which the Government use will be considered "substantial" within the meaning of the proviso even though such use does not meet either of the above-stated conditions. No test or yardstick can be given which would apply in all such cases due to the varying nature of the facts and circumstances to be considered. Consequently, in any case in which the Administrator is requested to determine whether the Government's use of the landing area of an airport is "substantial" within the meaning of the deed proviso, and such

use does not meet either of the above-stated conditions, it will be necessary that the Administrator's determination be based upon a study of the several facts and circumstances of that particular case.

AIRCRAFT PRODUCTION RESOURCES AGENCY

DELEGATION OF AUTHORITY TO RESCHEDULE DELIVERY OF MATERIALS AND TO SCHEDULE OR RESCHEDULE PRODUCTION AND DELIVERY OF APRA CLASS B PRODUCTS

Pursuant to delegation of authority from the Secretary of Defense, in accordance with Defense Production Act and NPA Delegation 1 Supplement 1, as amended October 23, 1952, there is hereby delegated to the Director, Aircraft Production Resources Agency, authority:

(1) To reschedule deliveries of materials which are required in support of the Department of Defense Aircraft Program (A1): *Provided, however,* (a) That such authority shall be applicable only to reschedule deliveries on orders rated DO-A1 or on Authorized Controlled Material Orders bearing the program identification A1 issued by or under the authority of the Secretary of Defense; and (b) that such rescheduling of deliveries requires no change in production schedules of the person making the deliveries;

(2) To schedule or reschedule the production and delivery of any APRA Class B products shown under Product Class Code No. 9500 in the NPA Official CMP Class B Product List: *Provided, however,* (a) That the consent of the manufacturer or producer of any such Class B product proposed to be scheduled or rescheduled is first obtained; (b) that in providing for such scheduling or rescheduling the manufacturer or producer is not required or authorized to displace the production of, or delay the delivery of, any product other than an APRA Class B product; (c) that the Aircraft Production Resources Agency shall require the manufacturer or producer whose production or delivery has been so rescheduled to notify immediately in writing all customers whose deliveries have been changed as a result of such rescheduling; and (d) that this authority does not extend to the rescheduling of the production or delivery of materials or products furnished by suppliers to manufacturers of APRA Class B products;

(3) To require a copy of an order board or in lieu thereof, the necessary scheduling data, covering APRA Class B products only, from a manufacturer of any such products which are in critically short supply and the lack of which products is seriously interfering with the accomplishment of other aircraft component or aircraft end-item schedules.

The exercise of this authority shall conform to the terms of the regulations and orders of the National Production Authority and to such priorities and allocations policy directives and procedures as may be issued by the Munitions Board to implement policies and procedures issued by the National Production Authority.

This delegation shall take effect October 23, 1952, and supersedes and cancels delegation of authority of November 15, 1951, to the Director, Aircraft Production Resources Agency (17 F. R. 214, January 8, 1952).

NW $\frac{1}{4}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$.

Containing 10 tracts aggregating 15 acres.

2. The lands are located near the town of Ninilchik, Alaska, on the west side of the Kenai Peninsula. Lying on benchlands south of the Ninilchik River, the lands are for the most part well-drained and support a vegetative cover of white spruce and scattered stands of birch and aspen. Automobile access to a portion of the lands is obtainable via all-weather Sterling Highway, which traverses the north portion of the area. Ninilchik business establishments and Ninilchik Territorial School are within walking distance of the lands. Adequate water for domestic uses may be obtained from wells and sewage disposal may be made by the use of cesspools or septic tanks. No public utilities are available in the unit at the present time; however, such services as religious, educational, commercial, and transportation are obtainable at Ninilchik. The climate is a favorable combination of the maritime climate of coastal Alaska and the temperate climate of south central Alaska.

3. This classification order shall not become effective to change the status of the land or to permit the leasing thereof under the Small Tract Act of June 1, 1938, cited above, until 10:00 a. m. on November 13, 1952. At that time the land shall, subject to valid existing rights, become subject to application as follows:

(a) *Ninety-one day period for preference right filings.* For a period of 91 days from 10:00 a. m. on November 13, 1952, to close of business on February 11, 1953, inclusive, to (1) application under the Small Tract Act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279, 282), as amended, and by other qualified persons entitled to credit for service under the said act, subject to the requirements of applicable law, and (2) applications under any applicable public land laws, based on prior existing valid settlement and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans and by other persons entitled to credit for service shall be subject to claims of the classes described in subdivision (2).

(b) *Advance period for simultaneous preference right filings.* All applications by such veterans and persons claiming preference rights superior to those of such veterans filed on October 23, 1952, or thereafter, up to and including 10:00 a. m. on November 13, 1952, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public land laws.* Commencing at 10:00 a. m. on February 12, 1953, any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally.

(d) *Advance period for simultaneous non-preference right filings.* Applications under Small Tract Act by the general public filed on January 22, 1953, or thereafter, up to and including 10:00 a. m. on February 12, 1953, shall be treated as simultaneously filed.

4. A veteran shall accompany his application with a complete photostatic, or

other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claim. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

5. All applications referred to in paragraphs 3 and 4, which shall be filed in the Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

6. Lessees under the Small Tract Act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, in the circumstances, are presentable, substantial, and appropriate for the use for which the lease is issued. Leases will be for a period of not more than three years, at an annual rental of \$5 for homesites, payable in advance for the entire lease period. The rental for business sites will be in accordance with a schedule of graduated charges based on gross income, with a minimum charge of \$20 payable yearly in advance, the remainder, if any, to be paid within 30 days after each yearly anniversary of the lease. Every lease will contain an option to purchase clause and every lessee may file an application to purchase at the sale price as provided in the lease.

7. All of the land will be leased in tracts varying in size from approximately 1.25 acres to approximately 2.5 acres, in accordance with the classification map on file in the Land Office, Anchorage, Alaska. The tracts, where possible, are made to conform in description with the rectangular system of survey, in compact units.

8. Lessees must locate any well water supply system or sewage disposal facility according to regulations and laws of the Territory of Alaska.

9. The leases will be made subject to rights-of-way for road purposes and public utilities, of 50 feet in width, on each side of the tracts contiguous to the section and/or quarter section lines, and 33 feet in width along other tract boundaries, or as shown on the classification maps on file in the Land Office, Anchorage, Alaska. Such rights-of-way may be utilized by the Federal Government, State, Territory, County, or Municipality, or by any agency thereof. The rights-of-way may, in the discretion of

the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued:

10. All inquiries relating to these lands shall be addressed to the Manager, Land Office, Anchorage, Alaska.

The above described areas comprise 97 tracts, aggregating approximately 485 acres.

2. The lands are located in the southwestern portion of the Kenai Peninsula, nine to sixteen miles north of Homer, Alaska. Lying on small knolls and similar minor uplands, the lands are for the most part well drained and support a vegetative cover of white spruce and scattered stands of birch and aspen interspersed with open areas of muskeg. Automobile access to most of the tracts is obtainable via all-weather Sterling Highway, which traverses the general area. Adequate water for domestic uses may be obtained from wells and sewage disposal may be made by the use of cesspools or septic tanks. No public facilities are available in the area at the present time; however, such services as religious, educational, commercial, and transportation are obtainable at Homer. The climate is a favorable combination of the maritime climate of coastal Alaska and the temperate climate of south central Alaska.

3. Pursuant to § 257.6 of the Code of Federal Regulations (43 CFR Part 257), a preference right to a lease is accorded to those applicants whose applications (a) were regularly filed under the regulations issued pursuant to the act prior to this classification, and (b) are of the type of site for which the land subject thereunder have been classified. As to such applications, this order shall become effective upon the date which it is signed.

4. As to the lands not covered by the applications referred to in paragraph 3, this order shall not become effective to permit the leasing of such land under the Small Tract Act of June 1, 1938, cited above, until 10:00 a. m. on November 13, 1952. At that time, such land shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application as follows:

(a) *Ninety-one day period for preference right filings.* For a period of 91 days from 10:00 a. m. on November 13, 1952, to close of business on February 11, 1953, inclusive, to (1) application under the Small Tract Act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279, 282), as amended, and by other qualified persons entitled to credit for service under the said act, subject to the requirements of applicable law, and (2) applications under any applicable public land laws, based on prior existing valid settlement and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans and by other persons entitled to credit for service shall be subject to claims of the classes described in subdivision (2).

(b) *Advance period for simultaneous preference right filings.* All applications by such veterans and persons claiming preference rights superior to those of such veterans filed on October 23, 1952, or thereafter, up to and including 10:00 a. m. on November 13, 1952, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public land laws.* Commencing at 10:00 a. m. on February 12, 1953, any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally.

(d) *Advance period for simultaneous non-preference right filings.* Applications under the Small Tract Act by the general public filed on January 22, 1953, or thereafter, up to and including 10:00 a. m. on February 12, 1953, shall be treated as simultaneously filed.

5. A veteran shall accompany his application with a complete photostatic, or other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which

shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claim. Persons asserting preference rights, through settlement or otherwise, and those having equitable claim, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. All applications referred to in paragraphs 3 and 4, which shall be filed in the Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

7. Lessees under the Small Tract Act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, in the circumstances, are presentable, substantial, and appropriate for the use for which the lease is issued. Leases will be for a period of not more than three years, at an annual rental of \$5, payable in advance for the entire lease period. Every lease will contain an option to purchase clause and every lessee may file an application to purchase at the sale price as provided in the lease.

8. All of the land will be leased in tracts of 5 acres, in accordance with the classification map on file in the Land Office, Anchorage, Alaska. The tracts are made to conform in description with the rectangular system of survey, in compact units.

9. Lessees must locate any well, water supply system or sewage disposal facility according to regulations and laws of the Territory of Alaska.

10. The leases will be made subject to rights-of-way for road purposes and public utilities, of 50 feet in width, on each side of the tracts contiguous to the section and/or quarter section lines, and 33 feet in width along other tract boundaries, or as shown on the classification maps on file in the Land Office, Anchorage, Alaska. Such rights-of-way may be utilized by the Federal Government, State, Territory, County, or Municipality, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

11. All inquiries relating to these lands shall be addressed to the Manager, Land Office, Anchorage, Alaska.

MONTANA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

In exchanges made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976), 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States.

MONTANA PRINCIPAL MERIDIAN

T. 5 N., R. 2 W.

Sec. 21: All.

Sec. 32: NE $\frac{1}{4}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$.

The areas described aggregate 720 acres.

The lands are primarily suitable for grazing of livestock. The surface is rolling to rough and the vegetation consists of native grasses and sagebrush with patches of scrub timber.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other non-mineral publicland laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other ap-

propriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office at Billings, Montana, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to: Montana Land Office, Billings, Montana.

MAX CAPLAN,
Acting Regional Administrator.

ALABAMA AND ARIZONA

AREA WAGE RATES

Area rates for the States of Alabama and Arizona approved by the Construction Industry Stabilization Commission under Construction Industry Stabilization Commission Regulation 1 (16 F. R. 7565), as amended, up to approximately August 31, 1952, are published under succeeding sections of this part.

Area rates for the remainder of the States will be published in periodic installments. The compilation of rates published herein includes area rates for the continental United States only. Information as to area rates not yet published may be obtained on request from the Construction Industry Stabilization Commission, U. S. Department of Labor Building, Washington, D. C.

A section number from 1 through 49 has been assigned to each of the 48 States and to the District of Columbia, in alphabetical order under this part. Under each State and section number, the approved area rate is listed alphabetically according to the particular craft to which it is applicable. Under such headings there appear the area rates for particular job classifications together with a designation of either the city, county (or counties), or other geographical unit in the whole of which the particular rate is applicable. In the absence of a complete geographical description of the area covered, the territorial jurisdiction of the local craft union will also be indicated.

The applicable area in a decision which is designated as within the territorial jurisdiction of a local union, is only such area as was included within the territorial jurisdiction of the local union on January 25, 1951, unless a subsequent change in such territorial jurisdiction was specified in the wage application on the basis of which the Commission rendered its area rate decision. Any area subsequently added to the territorial jurisdiction of a local union may not put into effect the rates in effect for the local union (if higher than the rates in effect for the area added) unless prior approval by the CISC has been obtained. If any areas are combined to form the territorial jurisdiction of a new local, the area rate may not exceed the rate in effect for any of the different areas so combined, unless prior approval by the CISC has been obtained.

Area practices, as distinguished from straight wage rates, are not included herein. Information concerning approved changes in area practices may be obtained on request from the Construction Industry Stabilization Commission, U. S. Department of Labor Building, Washington, D. C.

AMERICAN & FOREIGN POWER CO., INC.

ORDER PERMITTING ISSUANCE OF COMMON STOCK AS STOCK DIVIDEND

OCTOBER 23, 1952.

American & Foreign Power Company Inc. ("Foreign Power"), a registered holding company and a subsidiary of Electric Bond and Share Company, also a registered holding company, having filed a declaration, pursuant to sections 6, 7 and 12 (c) of the Public Utility Holding Company Act of 1935 ("act"), with respect to the proposed payment of a common stock dividend to the holders of its common stock at the rate of one share of common stock for each 100 shares of such stock held, or an aggregate of 71,527 shares, such stock dividend being in addition to a cash dividend of 10 cents per outstanding share, with the payment of both dividends subject to our approval of the stock dividend;

Public hearings having been duly held after appropriate notice, at which hearings all interested persons were afforded an opportunity to be heard;

The Commission having considered the record in the matter and having filed its memorandum opinion herein on October 17, 1952, concluding therein that it should permit the declaration to become effective upon the filing of an amendment to provide for the sale at the stockholder's request of shares to be received as the stock dividend in amounts up to 5 shares on the basis of assembling shares and selling for the

account of stockholders at round-lot prices;

Foreign Power having, on October 21, 1952, filed an amendment in accordance with the aforesaid memorandum opinion of the Commission;

The Commission having examined said amendment and finding with respect to the declaration, as thus amended, that the requirements of the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said declaration, as amended, be permitted to become effective subject to the following terms and conditions and reservation of jurisdiction:

It is hereby ordered, That the said declaration, as amended, be and the same hereby is permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the further condition that Foreign Power explain fully to its stockholders at the time the payments are made the nature of the stock dividend and the effect of converting it to cash and also provide an explanation of the present situation of the company which made it necessary to declare the stock dividend in order to conserve cash:

It is further ordered, That jurisdiction be and the same hereby is reserved to pass upon the sufficiency of the informative material to be sent to stockholders pursuant to the aforesaid condition.

By the Commission.

REPUBLIC SERVICE CORP. AND GENERAL PUBLIC UTILITIES CORP.

NOTICE OF PROPOSED CAPITAL CONTRIBUTION AND EXCHANGE OF SECURITIES

OCTOBER 24, 1952.

In the matter of Republic Service Corporation, File No. 70-2936; General Public Utilities Corporation, File No. 70-2940.

Notice is hereby given that Republic Service Corporation ("Republic"), a registered holding company, has filed and application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("the act"), designating sections 9 (a) and 12 (d) thereof and Rules U-44 and U-45 thereunder as applicable to its proposed transactions, and that General Public Utilities Corporation ("GPU"), a non-affiliate, also a registered holding company, has filed an application-declaration relating to the same matter, designating sections 6, 7, 9 and 10 of the act and Rule U-23 thereunder as applicable to its proposed transaction; which several transactions are summarized as follows:

Republic proposes to deliver to GPU all the outstanding capital stock of Republic's wholly owned subsidiary Brockway Light, Heat and Power Company ("Brockway"), being 1,000 common shares of the par value of \$100 each, in exchange for 20,150 shares of the common stock of GPU; and GPU proposes in turn to deliver to Republic 20,150 shares of its common stock, now held in its treasury, in exchange for the 1,000 common shares of Brockway. Immediately prior to the exchange, Republic proposes to contribute to Brockway the total amount of all open account indebtedness owing by Brockway to Republic, which amounted to \$50,000 as of June 30, 1952.

Applicants state that Brockway is engaged in distributing electric energy in the Borough of Brockway and Snyder Township, in Jefferson County, Pennsylvania; that Brockway normally purchases all its electric energy requirements from GPU's subsidiary Pennsylvania Electric Company ("Penelec"), whose service area almost surrounds that of Brockway.

Republic represents that the sale of its investment in Brockway and its acquisition of the GPU stock is a step in its over-all program to divest itself of its investment in its public utility subsidiaries and thus cease to be a holding company under the act. GPU represents that it will retain Brockway as a part of its integrated electric utility system, and that it contemplates merging the properties of Brockway with those of Penelec.

Financial data furnished by the applicants indicate that Brockway's current earnings (adjusted to give effect to certain assumed savings upon acquisition by GPU) amount to approximately \$1.85 per share per annum as applied to the 20,150 GPU shares, which is less than GPU's current earnings per share (approximately \$1.98) but more than its

current dividends per share (\$1.40); that Brockway's net assets applicable to its common stock are approximately \$225,000 less than the market value (about \$24.75 per share) of the 20,150 GPU shares. GPU expresses the belief that closer coordination between Penelec's operations and those of Brockway will result in further operating economies.

Each applicant states that the exchange agreement was effected by arm's-length bargaining, and that no brokerage fees or commissions will be paid in connection with the transactions. Republic estimates its expenses at approximately \$2,500, including a legal fee of \$1,200 and an accounting fee of \$1,000. GPU estimates its expenses other than legal at approximately \$750 and states that all legal work in its behalf is being done by its regularly retained counsel whose over-all compensation will include compensation for services rendered herein.

Applicants further state that no other regulatory commission has jurisdiction over the steps to be taken in carrying out the proposed transactions, and they request that the Commission's order herein be made effective upon issuance.

Notice is further given that any interested person may, not later than November 7, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said applications-declarations which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date said applications-declarations, as filed or as amended, may be granted and permitted to become effective as provided by Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.
