### SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS AND POULTRY

### PART 71—GENERAL PROVISIONS

### Identification for Interstate Movement of Cattle

On February 1, 1969, and May 23, 1970, there were published in the FEDERAL REGISTER (34 F.R. 1602 and 35 F.R. 7976) notices with respect to proposed amendments to Part 71, Subchapter C, Chapter I, Title 9, Code of Federal Regulations, to require the individual identification of certain cattle 2 years of age or over for interstate movement. Interested persons were given an opportunity to submit written data, views, or arguments concerning the proposed amendments for periods of 60 and 45 days, respectively, following publication of said notices. After due consideration of all relevant material submitted in connection with said notices and pursuant to the provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, and the Act of March 3, 1905, as amended (21 U.S.C. 111–113, 116, 117, 120–126), said Part 71 is hereby amended in the following respects:

1. New paragraphs (n) and (o) are added to § 71.1 to read as follows:

**§ 71.1 Definitions.**

* * * * *

(n) *Official Brand Inspection Agency.* The duly constituted body elected, appointed, or delegated or granted authority by a State or governmental subdivision thereof, to administer laws, regulations, ordinances or rules pertaining to the brand identification of livestock.

(o) *Official brand inspection certificate.* A certificate issued by an official brand inspection agency in any State in which such certificates are required for movement of livestock.

2. A new § 71.18 is added to read as follows:

**§ 71.18 Individual identification of certain cattle 2 years of age or over for interstate movement.**

(a) No cattle 2 years of age or over, except steers and spayed heifers, which are moved interstate for slaughter or for sale for slaughter, shall be moved interstate other than in accordance with the requirements of this section. All interstate movements of any cattle shall also comply with the other applicable provisions in this part and other parts of this subchapter.

(1) When permitted under such other provisions, cattle subject to this section:

(i) may be moved interstate to any designation for slaughter or sale for slaughter if such cattle, when moved interstate, are identified by a Division-approved backtag affixed a few inches from the midline and just behind the shoulder of the animal, or by a Division-approved eartag in lieu thereof, and are accompanied by a statement signed by the owner or shipper of the cattle, or a waybill or similar document, stating: (*a*) the point from which the animals are moved interstate; (*b*) the destination of the animals; (*c*) the number of animals covered by the statement, waybill, or similar document; (*d*) the identifying numbers of the backtags or eartags applied, except that backtag and eartag numbers are not required to be recorded on such statement or document for cattle moved from a public stockyard or specifically approved stockyard as defined in § 78.1 directly to a slaughtering establishment operating under the provisions of the Federal Meat Inspection Act (21 U.S.C. 601 et seq.) or slaughtering establishment specifically approved under § 78.16(b) of this subchapter; and (*e*) the name and address of the owner or shipper; [1] or

(ii) may be moved interstate from a farm, ranch, or feedlot to a slaughtering establishment operating under the provisions of the Federal Meat Inspection Act (21 U.S.C. 601 et seq.), or to a slaughtering establishment specifically approved in accordance with § 78.16(b) of this subchapter, or to a public stockyard, or to a specifically approved stockyard for sale and shipment to such a slaughtering establishment, if such cattle are identified upon arrival thereat by Division-approved backtags or eartags as prescribed in subparagraph (i), and, when

[1] Division-approved backtags or eartags are available from State or Federal Animal Health officials at such stockyards and slaughtering establishments, and from Federal and State inspectors as defined in § 78.1 of this subchapter. A list of such public stockyards appears in § 78.14 of this subchapter. Information with respect to the federally inspected slaughtering establishments, specifically approved slaughtering establishments, and specifically approved stockyards may be obtained as indicated in §§ 78.14 and 78.15 of this subchapter.

moved interstate, are accompanied by a statement signed by the owner or shipper of the cattle, or a waybill or similar document, or an official brand inspection certificate stating: (*a*) the point from which the animals are moved interstate; (*b*) the destination of the animals; (*c*) the number of animals covered by the statement, waybill, or similar document or certificate; and (*d*) the name and address of the owner or shipper: *Provided*, That identification by backtags or eartags upon arrival is not required if such cattle are moved interstate to a federally inspected or specifically approved slaughtering establishment as described in subparagraph (1) and, when moved interstate, such cattle are identified by individual brands registered with an official brand inspection agency and are accompanied by an official brand inspection certificate as prescribed in this subdivision (ii).

(2) The statement, waybill or similar document, or official brand inspection certificate required by this section shall be delivered to the management of the stockyard or slaughtering establishment at the time of delivery of the cattle.[2] Each person who ships, transports, or is otherwise responsible for the movement of the cattle interstate is responsible for the identification of the animals as required by this section and for compliance with the other applicable requirements thereof.

The purposes of the foregoing amendments are to require the identification of cattle 2 years of age or over, except steers and sprayed heifers, moved interstate for slaughter or for sale for slaughter. The amendments will facilitate the identification of livestock in marketing channels and the tracing of diseased animals directly to farms of origin, which will make it possible to more efficiently control the spread of diseases by isolation and eradication of infection where found.

Great progress has been made in the control and eradication of communicable diseases of livestock, such as brucellosis, scabies, and tuberculosis. However, it is known that such diseases still exist in certain areas of this country. The rapid transportation of animals in commercial channels makes it essential to locate and suppress foci of infection in the most rapid manner possible. The most efficient way to do this is to identify livestock in marketing channels and to trace diseased animals directly to farms of origin. In this manner, continued progress in disease eradication programs can be achieved; the interstate spread of diseases can be minimized by isolation and eradication of infection where found; and the probability of rapidily detecting diseases of foreign origin will be greatly strengthened.

Certain modifications have been made in the provisions of the amendments as a result of comments received from interested persons. It does not appear that further notice and public participation in the rule making procedure with respect to these amendments would provide additional information to this Department. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such further procedure is unnecessary.

(Secs. 4–7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, sec. 3, 33 Stat. 1265, as amended, 21 U.S.C. 111, 112, 113, 114g, 115, 117, 120, 121, 123–126; 29 F.R. 16210, as amended; 33 F.R. 15485)

*Effective date.* These amendments shall become effective 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C. this 3d day of September 1970.

### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

#### Revocation of Reporting Point

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to revoke the Five Finger, Alaska, low altitude reporting point.

Due to a recent realignment of airways in Alaska, there is no further need for the Five Finger, Alaska, RBN reporting point. Action is taken herein to revoke it.

Since this amendment is minor in nature and relieves a burden on the public, notice and public procedure thereon are unnecessary, and good cause exists for making this amendment effective on less than 30 days notice.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective upon publication in the FEDERAL REGISTER, as hereinafter set forth.

In § 71.211 (35 F.R. 2305) Five Finger, Alaska, RBN is revoked.

## Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

## PART 121—FOOD ADDITIVES

### Subpart C—Food Additives Permitted in Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

ACRYLAMIDE-ACRYLIC ACID RESIN

The Commissioner of Food and Drugs, having evaluated the data in a petition (3414V) filed by Stein, Hall & Co., Inc., 605 Third Avenue, New York, N.Y. 10016, and other relevant material, concludes that the food additive regulations should be amended to provide for the safe use of acrylamide-acrylic acid resin as a suspending agent in nonmedicated aqueous suspensions of premixes to be added in the manufacture of mixed animal feeds.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 121 is amended by adding the following new section:

**§ 121.288 Acrylamide-acrylic acid resin.**

Acrylamide-acrylic acid resin (hydrolized polyacrylamide), only for the purposes of this section as described below, may be safely used in accordance with the following prescribed conditions:

(a) The additive is produced by polymerization of acrylamide with partial hydrolysis, or by copolymerization of acrylamide and acrylic acid with the greater part of the polymer being composed of acrylamide units.

(b) The additive meets the following specifications:

(1) Molecular Weight range: 3 to 6 million.

(2) Viscosity range: 3,000 to 6,000 centipoises at 77° F. in a 1 percent aqueous solution as determined by LVF Brookfield Viscometer or equivalent using a number 6 spindle at 20 r.p.m.

(3) Residual acrylamide: Not more than 0.05 percent.

(c) It is used as a thickener and suspending agent in nonmedicated aqueous suspensions intended for addition to animal feeds.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

*Effective date.* This order shall become effective on its date of publication in the FEDERAL REGISTER.

## PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

## PART 135g—TOLERANCES FOR RESIDUES OF NEW ANIMAL DRUGS IN FOOD

### 2-Acetylamino-5-Nitrothiazole

The Commissioner of Food and Drugs has evaluated a new animal drug application (9-424V) filed by American Cyanamid Co., Post Office Box 400, Princeton, N.J. 08540, proposing the safe and effective use of 2-acetylamino-5-nitrothiazole in turkey feed for certain indications. The application is approved. Based upon an evaluation of the data before him, the Commissioner concludes that a tolerance is required to assure that edible tissues of turkeys treated with 2-acetylamino-5-nitrothiazole are safe for human consumption.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), a new section is added to Part 135e and another to Part 135g as follows:

**§ 135e.52 2-Acetylamino-5-nitrothiazole.**

(a) *Specifications.* Assay of not less than 96 percent by ultraviolet spectrophotometry.

(b) *Approvals.* (1) Premix 10 percent granted to American Cyanamid Co., Post Office Box 400, Princeton, N.J. 08540.

(c) *Related tolerances in edible products.* See § 135g.71.

(d) *Conditions of use.* It is used as follows:

| | Grams per ton | Limitations | Indications for use |
|---|---|---|---|
| 1. 2-Acetylamino-5-nitrothiazole. | 136.2 (0.015%) | For turkeys; administer continuously starting 1 to 2 weeks before outbreaks usually occur; discontinue use 7 days before slaughter; use eggs from medicated birds for hatching purposes only. | Aid in prevention of blackhead (histomoniasis). |
| 2. 2-Acetylamino-5-nitrothiazole. | 454 (0.05%) | For turkeys; administer for 2 weeks at first signs of outbreaks; discontinue use 7 days before slaughter; use eggs from medicated birds for hatching purposes only. | Aid in control of blackhead (histomoniasis). |

**§ 135g.71 2-Acetylamino-5-nitrothiazole.**

A tolerance of 0.1 part per million is established for negligible residues of 2-acetylamino-5-nitrothiazole in the edible tissues of turkeys.

*Effective date.* This order is effective upon publication in the FEDERAL REGISTER.

## PART 148q—GENTAMICIN

### Nonsterile Gentamicin Sulfate and Gentamicin Sulfate Ophthalmic Solution

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), the following two new sections are added to Part 148q to provide for certification of the subject antibiotic drugs:

**§ 148q.1a Nonsterile gentamicin sulfate.**

(a) *Requirements for certification—*(1) *Standards of identity, strength, quality, and purity.* Gentamicin sulfate is the sulfate salt of a kind of gentamicin or a mixture of two or more such salts. It is a powder, white to buff in color. It is readily soluble in water but insoluble in ethanol. It is so purified and dried that:

(i) Its potency is not less than 590 micrograms of gentamicin per milligram on an anhydrous basis.

(ii) It passes the safety test.

(iii) Its loss on drying is not more than 18.0 percent.

(iv) Its pH in an aqueous solution containing 40 milligrams per milliliter is not less than 3.5 and not more than 5.5.

(v) Its specific rotation in an aqueous solution containing 10 milligrams per milliliter at 25° C. is not less than +107° and not more than +121°.

(vi) Its content of gentamicin $C_1$ is not less than 25 or more than 50 percent; of gentamicin $C_{1a}$, not less than 15 nor more than 40 percent; and of gentamicin $C_2$, not less than 20 nor more than 50 percent.

(vii) It gives a positive identity test for gentamicin sulfate.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3(b) of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on the batch for potency, safety, loss on drying, pH, specific rotation, content of gentamicins $C_1$, $C_{1a}$, and $C_2$, and identity.

(ii) *Samples required.* 10 packages, each containing approximately 500 milligrams.

(b) *Tests and methods of assay—*(1) *Potency.* Proceed as directed in § 141.110 of this chapter, preparing the sample for assay as follows: Dissolve an accurately weighed sample in sufficient 0.1*M* potassium phosphate buffer, pH 8.0 (solution 3), to give a stock solution of convenient concentration. Further dilute the stock solution with solution 3 to the reference concentration of 0.1 microgram of gentamicin per milliliter (estimated).

(2) *Safety.* Proceed as directed in § 141.5 of this chapter.

(3) *Loss on drying.* Proceed as directed in § 141.501(c) of this chapter.

(4) *pH.* Proceed as directed in § 141.503 of this chapter, using an aqueous solution containing 40 milligrams of gentamicin per milliliter.

(5) *Specific rotation.* Accurately weigh the sample to be tested in a volumetric flask and dilute with sufficient distilled water to give a solution containing approximately 10 milligrams per milliliter. Proceed as directed in § 141.520 of this chapter, using a 1.0 decimeter polarimeter tube and calculate the specific rotation on an anhydrous basis.

(6) *Content of gentamicins $C_1$, $C_{1a}$, and $C_2$.* Proceed as directed in § 148q.1(b)(8).

(7) *Identity.* Proceed as directed in § 141.521 of this chapter, using a 0.5 percent mixture of the sample in a potassium bromide disc prepared as described in paragraph (b)(1) of that section.

**§ 148q.5 Gentamicin sulfate ophthalmic solution.**

(a) *Requirements for certification—*(1) *Standards of identity, strength, quality, and purity.* Gentamicin sulfate ophthalmic solution contains in each milliliter the equivalent of 3.0 milligrams of gentamicin and suitable buffers and preservatives. Its potency is satisfactory if it is not less than 90 and not more than 135 percent of the number of milligrams of gentamicin it is represented to contain. It is sterile. Its pH is not less than 6.5 nor more than 7.5. The gentamicin sulfate conforms to the standards prescribed by § 148q.1a(a)(1).

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The gentamicin sulfate used in making the batch for potency, safety, loss on drying, pH, specific rotation, content of gentamicins $C_1$, $C_{1a}$, and $C_2$, and identity.

(*b*) The batch for potency, sterility, and pH.

(ii) Samples required:

(*a*) The gentamicin sulfate used in making the batch: 10 packages, each containing not less than 500 milligrams.

(*b*) The batch:

(*1*) For all tests except sterility: A minimum of five immediate containers.

(*2*) For sterility testing: 20 immediate containers, collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay*—(1) *Potency.* Proceed as directed in § 141.110 of this chapter, preparing the sample for assay as follows: Dilute an accurately measured aliquot with 0.1*M* potassium phosphate buffer, pH 8.0 (solution 3), to the reference concentration of 0.1 microgram of gentamicin per milliliter (estimated).

(2) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in paragraph (e)(1) of that section.

(3) *pH.* Proceed as directed in § 141.503 of this chapter, using the undiluted sample.

Data supplied by the manufacturer concerning the subject antibiotic drugs have been evaluated. Since the conditions prerequisite to providing for certification of these drugs have been complied with and since it is in the public interest not to delay in so providing, notice and public procedure and delayed effective date are not prerequisites to this promulgation.

*Effective date.* This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: August 28, 1970.

# Title 49—TRANSPORTATION

## Chapter I—Hazardous Materials Regulations Board, Department of Transportation

[Docket No. HM–38; Amendment No. 179–4]

## PART 179—SPECIFICATIONS FOR TANK CARS

### Restriction of Capacity of Tank Cars and Interlocking Couplers

The purpose of this amendment to the Hazardous Materials Regulations of the Department of Transportation is to restrict the gross weight and volume capacity of, and require interlocking couplers on all new tank cars used to transport hazardous materials.

On December 11, 1969, the Hazardous Materials Regulations Board published Docket No. HM–38; Notice No. 69–31 (34 F.R. 19553) proposing to amend Part 179 of the Hazardous Materials Regulations as indicated above. In that notice, the Board stated its concern with the increasing number of railroad accidents involving tank cars transporting hazardous materials in which the tank released its contents, through either puncture or rupture. Reference was made to the mounting death and personal injury rate resulting from these accidents, as well as the property loss. Interested persons were afforded an opportunity to participate in this rule making.

Regarding the imposition of a capacity limitation of 34,500 gallons, many respondents noted that large capacity tank cars tended to reduce the hazard to the public by reducing the number of cars required for a given volume movement. No consideration was expressed for the fact that increased capacity will result in a greater hazard in the event that the tank car is punctured or ruptured in a derailment. Large capacity tank cars also increase the hazard of soil, water and air pollution.

Many responses were addressed to the question of limiting the total gross weight on rail to 263,000 pounds. Some of the data discussed the validity of a weight limitation as a control measure to improve railroad safety, focusing primarily on weight-related causative accident factors and the effects on kinetic energy of the tank car.

Causative accident factors show that stress failures in track and car parts account for approximately 50 percent of all rail accidents. The Board believes that the relationship between such stress failures and car weight is direct.

In every example offered citing rail loads in excess of the proposed limit, particular mention was made of the special routing clearances and controls exercised over the movement of these cars. Such special measures are not present in normal tank car movement, which is the situation to which the Board must address itself. Only one response offered design data which showed that due consideration had been given to overbuilding a tank and running gear to obtain the margin of safety which is required by good engineering practice.

Weight related stress failures are known to have occurred in existing "100 ton" capacity, 263,000 pounds gross weight tank cars which have been in service for a period of years. "Fix" programs to correct buckling and fatigue cracking at both ends of stub sills on underframeless cars have been underway for several years. It is necessary to have an upgrading of the present tank car fleet in order to withstand the rigors of the normal railroad environment over the expected life of the tank cars. This upgrading must be accomplished before considering allowing increase of the stress loads on equipment and the rail plant caused by heavier cars.

One respondent addressed himself to the influence of weight on kinetic energy of the tank car and mentioned the ability of a larger mass to absorb a larger amount of kinetic energy. Increasing the weight of the tank car produces a linear increase in its kinetic energy at equal velocity. This increased kinetic energy increases the likelihood that the tank will be punctured or will rupture in an accident. Therefore, the Board believes that limiting the maximum weight of a tank car will reduce incidents of puncture and rupture.

Inadequate consideration has been given in current design practice to the selection of material thicknesses to compensate for greater kinetic energy levels encountered as tank car weight increases. As train operating speeds increase, this kinetic energy increases exponentially.

Sill design has been held nearly constant despite change in tank car weight and capacity, and shell thickness has varied only as a function of the tensile strength of materials and tank diameter. It is apparent that the weight (stress) related elements have not been strengthened as a direct function of capacity. The Board believes that this, in effect, results in a lower factor of safety in larger capacity tank cars as related to smaller capacity cars.

Virtually all respondents mentioned the economic impact of the proposed weight-capacity limitations. It must be recognized that the cost of accidents is also a part of the national distribution costs and is reflected in freight rates.

In order to accurately determine the economic effect of this rule making, the Board retained an independent expert to analyze the overall costs of "large

capacity" tank cars as related to "smaller capacity" tank cars. The following table summarizes his findings:

SUMMARY OF TANK CAR TRANSPORTATION COSTS

LIQUEFIED PETROLEUM GAS

| | Dollars per ton | Cents per gallon |
|---|---|---|
| 500-mile movement: | | |
| 70-ton capacity | 8.58 | 2.0151 |
| 100-ton capacity | 7.22 | 1.6957 |
| 125-ton capacity | 6.71 | 1.5757 |
| 140-ton capacity | 7.65 | 1.7983 |
| 1,000-mile movement: | | |
| 70-ton capacity | 13.52 | 3.1777 |
| 100-ton capacity | 11.54 | 2.7111 |
| 125-ton capacity | 10.84 | 2.5465 |
| 140-ton capacity | 11.98 | 2.8165 |
| 1,500-mile movement: | | |
| 70-ton capacity | 18.47 | 4.3403 |
| 100-ton capacity | 15.86 | 3.7265 |
| 125-ton capacity | 14.97 | 3.5173 |
| 140-ton capacity | 16.32 | 3.8347 |

The table indicates that costs involved in utilizing the "100ton" capacity tank car differ little from those costs involved in utilizing the "125ton" capacity tank car. The "100ton" capacity tank car actually offers some cost savings over the "140ton" capacity tank car. The Board believes public safety warrants the slight reduction in economic efficiency which results from utilizing "100ton" capacity tank cars in place of "125ton" capacity tank cars.

For the above reasons, the Board concludes that the proposed restrictions on tank car weight-capacity are in the public interest. Until the present problems involved in using the "100ton" capacity tank cars are resolved and until evidence is presented to show that increased stress levels associated with higher unit loadings on the rail plant and tank car equipment at prevailing speeds have been adequately compensated for, this will remain the Board's conclusion.

The Board further believes that the application of interlocking automatic couplers on all new tank cars will materially improve safety by reducing the incidence of tank head puncture and tank car pileup.

Since the date of Notice No. 69–31, there have been 19 accidents involving tank cars transporting hazardous materials in which the contents have been released causing severe hazard. One such accident occurred at Crescent City, Ill., on June 21, 1970. The continuing occurrence of accidents of this nature makes evident the need for action. The Hazardous Materials Regulations Board is aware that research efforts are being made by the affected industries, and that the Federal Railroad Administration has entered into contracts to study certain aspects of tank car design and accident behavior. It is hoped that these efforts will develop improved tank designs and methods of construction, including specialized hardware, which will enable all newly built tank cars to be able to safely transport hazardous materials. Until the results of these research activities are known, the Board believes that the proposed steps must be taken to prevent proliferation of the problems resulting from the continued construction of large capacity tank cars exceeding 34,500 gallons. While the Board recognizes that the Crescent City accident involved tank cars having capacities in the 30,000-gallon range, it believes that larger capacity cars would have released much greater quantities of hazardous materials, with consequently increased fire hazard and property damage. In addition, the added weight on rail would have increased the impact forces in the derailment and might well have resulted in additional punctures, fires, and violent ruptures.

Several responses noted the lack of a readily acceptable definition of the term "rebuilt tank car." This term has been deleted from the amendment pending the Board's further review.

The Board believes that by requiring installation of interlocking couplers that will resist car telescoping and jackknifing in derailments and emergency stops, the incidence of tank head and side puncture will be markedly reduced. At Crescent City, a tank head puncture caused the eventual conflagration and violent ruptures.

In consideration of the foregoing and for reasons discussed in the preamble of Notice No. 69–31, 49 CFR Part 179 is amended as follows:

(A) In the table of contents, §§ 179.13 and 179.14 are added to read as follows:

Sec.
179.13 Tank car capacity and gross weight limitation.
179.14 Tank car couplers.

(B) § 179.13 is added to read as follows:

**§ 179.13 Tank car capacity and gross weight limitation.**

Tank cars built after November 30, 1970, must not exceed 34,500 gallons capacity or 263,000 pounds gross weight on rail. Existing tank cars may not be converted to exceed 34,500 gallons capacity or 263,000 pounds gross weight on rail.

(C) § 179.14 is added to read as follows:

**§ 179.14 Tank car couplers.**

All tank cars built after November 30, 1970, must be equipped with interlocking automatic couplers that will resist car telescoping and jackknifing in derailments and emergency stops and that are approved by the Federal Railroad Administrator.

This amendment is effective November 13, 1970.

## Chapter X—Interstate Commerce Commission

### SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Fifth Revised S.O. 1041]

## PART 1033—CAR SERVICE

### Distribution of Boxcars

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 2d day of September 1970.

It appearing, That an acute shortage of certain plain boxcars exists on the railroads named in section (a) paragraph (1) herein; that shippers located on the lines of these carriers are being deprived of such cars required for loading, resulting in a severe emergency and causing grain elevators to be unable to accept newly harvested grain, or to store grain on the ground, thus creating economic loss; that present rules, regulations, and practices with respect to the use, supply, control movement, distribution, exchange, interchange, and return of boxcars owned by these railroads are ineffective. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than 30 days' notice.

*It is ordered,* That:

**§ 1033.1041 Service Order No. 1041.**

(a) *Distribution of boxcars.* Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) Return to owners empty, except as otherwise authorized in subparagraph (2) of this paragraph, all plain boxcars which are listed in the Official Railway Equipment Register, I.C.C. R.E.R. 376, issued by E. J. McFarland, or reissues thereof, as having mechanical designation XM, with inside length 44'6" or less and equipped with doors less than 9 feet wide, owned by the following railroads:

Burlington Northern Inc.
Chicago and North Western Railway Co.
Chicago, Milwaukee, St. Paul and Pacific Railroad Co.
Soo Line Railroad Co.

(2) Boxcars described in subparagraph (1) of this paragraph, may be loaded to stations on the lines of the owning railroad, or to any other station which is closer to the owner than the station at which loaded. After unloading at a junction with the car owner such cars shall be delivered to the car owner at that junction, either loaded or empty.

(3) In determining distances to the car owner from the points of loading or unloading, tariff distances applicable via

the lines of the carriers obligated under Car Service Rules 1 and 2 to move the car shall be used.

(4) No common carrier by railroad subject to the Interstate Commerce Act shall accept from shipper any loaded boxcar for movements contrary to the provisions of subparagraph (2) of this paragraph.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(c) *Effective date.* This order shall become effective at 12:01 a.m., September 3, 1970.

(d) *Expiration date.* This order shall expire at 11:59 p.m., September 30, 1970, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

*It is further ordered,* That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

### Notice of Proposed Rule Making With Respect to Approval of Expenses and Fixing of Rate of Assessment for the 1970–71 Fiscal Period and Carryover of Unexpended Funds

Consideration is being given to the following proposals submitted by the Washington-Oregon Fresh Prune Marketing Committee, established under the marketing agreement and Order No. 924 (7 CFR Part 924) regulating the handling of fresh prunes grown in designated counties in Washington and in Umatilla County, Oreg., effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) Expenses that are reasonable and likely to be incurred by said committee, during the period April 1, 1970, through March 31, 1971, will amount to $14,251.

(2) That there be fixed, at $0.80 per ton of fresh prunes, the rate of assessment payable by each handler in accordance with § 924.41 of the aforesaid marketing agreement and order.

### MILK IN INLAND EMPIRE MARKETING AREA

### Notice of Proposed Suspension of Certain Provisions of the Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the suspension of certain provisions of the order regulating the handling of milk in the Inland Empire marketing area is being considered for September, October, and November 1970.

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, Room 112–A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 7 days from the date of publication of this notice in the FEDERAL REGISTER. All documents filed should be in quadruplicate.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The provision proposed to be suspended, which is in § 1133.12(c)(5), is "Producers eligible for diversion in the months of September, October, or November must in addition have their milk received at a pool plant on at least 6 days (3 days in the case of every-other-day delivery) during the current month".

The proposed suspension would remove the requirement that a producer must deliver any milk to a pool plant in September, October, or November to qualify his diverted milk as producer milk during such month.

A cooperative representing a substantial number of producers on the market requested the suspension. The basis for the cooperative's request is that current conditions in the market require it to

handle a disproportionate share of an increasing quantity of the reserve supplies of milk for the market. Without the proposed suspension, the cooperative claims it would be forced to make uneconomic movements of producer milk to qualify it for pooling.

Signed at Washington, D.C., on September 2, 1970.

## 2-ACETYLAMINO-5-NITROTHIAZOLE AND ANTIBIOTICS IN POULTRY FEED

### Proposed Revocation of Exemption From Certification Requirements

Notice is given that the Commissioner of Food and Drugs proposes to amend the antibiotic drug regulations to revoke the exemption of poultry feed containing 2-acetylamino-5-nitrothiazole and antibiotics from certification requirements. Available information with respect to such drug when used in combination with antibiotics fails to establish that there is substantial evidence that the combination drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling. Specifically, available data for the combination drug do not include substantial evidence that each ingredient designated as active makes a contribution to the total claimed effect.

Accordingly, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512 (i), (n), 82 Stat. 347; 21 U.S.C. 360b (i), (n)) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that § 144.26 *Animal feed containing certifiable antibiotic drugs* be amended by revoking paragraph (b)(19).

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

## CONTROL ZONE AND TRANSITION AREA

### Proposed Alteration

The Federal Aviation Administration (FAA) is considering amendments to Part 71 of the Federal Aviation Regulations that would alter the Crescent City, Calif., control zone and transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As parts of these proposals relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since these actions involve, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The FAA proposes the following airspace actions:

1. The Crescent City control zone would be amended to read as follows:

Within a 5-mile radius of Jack McNamara Field, Crescent City (lat. 41°46'50'' N., long. 124°14'00'' W.) within 3 miles each side of the Crescent City VORTAC 325° radial, extending from the 5-mile radius zone to 8 miles northwest of the VORTAC and within 1.5 miles each side of the Crescent City VORTAC 180° radial, extending from the 5-mile radius zone to 5.5 miles south of the VORTAC.

2. The Crescent City transition area would be amended to read as follows:

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Jack McNamara Field, Crescent City (lat. 41°46'50'' N., long. 124°14'00'' W.); within 3 miles each side of the Crescent City VORTAC 325° radial, extending from the 5-mile radius area to 9 miles northwest of the VORTAC, and within 4 miles each side of the Crescent City VORTAC 180° radial, extending from the 5-mile radius area to 10 miles south of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within 10 miles east and 7 miles west of the Crescent City VORTAC 180° and 360° radials, extending from 8 miles north to 20 miles south of the VORTAC; within 5 miles each side of the Crescent City VORTAC 234° radial, extending from the VORTAC to 12 miles southwest of the VORTAC, and within 8 miles northeast and 9.5 miles southwest of

the Crescent City VORTAC 325° radial, extending from the VORTAC to 18.5 miles northwest of the VORTAC.

The proposed changes to the Crescent City control zone and transition area are necessary to provide controlled airspace for aircraft executing instrument approaches in accordance with revised approach procedures.

These amendments are proposed under the authority of section 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348 and 1510), Executive Order 10854 (24 F.R. 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

### ALUMINUM ELECTROLYTIC AND CERAMIC CAPACITORS

#### Withholding of Appraisement Notice

Information was received on March 22, 1968, that aluminum electrolytic and ceramic capacitors from Japan were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of September 25, 1968, on page 14420. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price or exporter's sales price (secs. 203 and 204 of the Act; 19 U.S.C. 162 and 163) of such aluminum electrolytic and ceramic capacitors from Japan is less, or likely to be less, than the foreign market value (sec. 205 of the Act; 19 U.S.C. 164).

*Statement of reasons.* Capacitors from Japan appear to be sold to the United States to both related and unrelated purchasers within the meaning of section 207 of the Antidumping Act.

Sufficient quantities appear to have been sold in Japan to afford a proper basis of comparison.

The information currently before the Bureau tends to indicate that the probable basis of comparison will be between purchase price or exporter's sales price and home market price.

Preliminary analysis suggests that purchase price will probably be calculated by deducting inland freight, mandatory Japanese Government inspection fee, and Japanese customs broker fees as appropriate from the f.o.b. Japanese port prices.

Exporter's sales price will probably be determined by deducting U.S. Customs duty, ocean freight, marine insurance, customhouse broker charges, inland freight in the United States and selling expense in the United States, cartage in the Japanese port, mandatory Japanese Government inspection fee, and inland freight in Japan from the resale price of the related U.S. purchaser.

It appears that home market prices will probably be based on the weighted averages of delivered prices to customers in Japan. Adjustments will probably be made for differences in packing, for inland freight, interest expenses, bad debt losses, and selling expenses, where appropriate.

Using the above criteria, there are reasonable grounds to believe or suspect that purchase price or exporter's sales price will be lower than home market price.

Customs officers are being directed to withhold appraisement of aluminum electrolytic and ceramic capacitors from Japan in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested parties may present written views or arguments, or requests in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any written views or arguments or requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, D.C. 20226, in time to be received by his office not later than 14 days from the date of publication of this notice in the FEDERAL REGISTER.

This notice, which is published pursuant to § 153.34(b), Customs Regulations, shall become effective upon publication in the FEDERAL REGISTER. It shall cease to be effective at the expiration of 6 months from the date of such publication, unless previously revoked.

### Petition for Modification of Interim Mandatory Safety Standard

In accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969 (83 Stat., 742, et seq., Public Law 91–173), notice is given hereby that the Lanscoal Mining Co., Inc. has filed a petition to modify the application of section 303(a) of the Act with respect to its mine No. 36–01763, No. 9 Mine Water Level Drift, located at Lansford, Pa.

Section 303(a) of the Act provides: "All coal mines shall be ventilated by mechanical ventilation equipment installed and operated in a manner approved by an authorized representative of the Secretary and such equipment shall be examined daily and a record shall be kept of such examination."

A copy of the petition is available for inspection in the Office of Hearings and Appeals, U.S. Department of the Interior, 11th floor, Ballston Tower No. 3, 4015 Wilson Boulevard, Arlington, Va.

## CHAS. PFIZER & CO., INC.

### Terramycin Pet Formula Water Tablets; Notice of Opportunity for Hearing

An announcement published in the FEDERAL REGISTER of May 27, 1969 (34

F.R. 8210), invited Chas. Pfizer & Co., Inc., 235 East 42d Street, New York, N.Y. 10017, holder of new animal drug application No. 9-880V for Terramycin Pet Formula Water Tablets (each tablet contains 50 milligrams of oxytetracycline hydrochloride), and any other interested person, to submit pertinent data on the drug's effectiveness. Information received in response to the announcement was found to be inadequate, and available information still fails to provide substantial evidence of effectiveness of the drug for use in treating certain infectious diseases in caged birds and tropical fish.

Therefore, notice is given to Chas. Pfizer & Co., Inc., and to any interested person who may be adversely affected, that the Commissioner of Food and Drugs proposes to issue an order under section 512(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 260b(e)) withdrawing approval of new animal drug application No. 9-880V and all amendments and supplements thereto held by Chas. Pfizer & Co., Inc., for the drug Terramycin Pet Formula Water Tablets on the grounds that:

Information before the Commissioner with respect to the drug, evaluated together with the evidence available to him when the application was approved, does not provide substantial evidence that the drug has the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

In accordance with provisions of section 512 of the act (21 U.S.C. 360b), the Commissioner will give the applicant, and any interested person who may be adversely affected by an order withdrawing such approval, an opportunity for a hearing at which time such persons may produce evidence and arguments to show why approval of new animal drug application No. 9-880V should not be withdrawn. Promulgation of the order will cause any drug similar in composition to Terramycin Pet Formula Water Tablets, and recommended for similar conditions of use, to be a new animal drug for which an approved new animal drug application is not in effect. Any such drug then on the market would be subject to regulatory proceedings.

Within 30 days after publication hereof in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Office of the General Counsel, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing; or

2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the new animal drug application.

Failure of such persons to file a written appearance of election within said 30 days will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing, they must file a written appearance requesting the hearing and giving the reasons why approval of the new animal drug application should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that no genuine and substantial issue of fact precludes the withdrawal of approval of the application, the Commissioner will enter an order on these data, making findings and conclusions on such data. If a hearing is requested and justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence, not more than 90 days after the expiration of such 30 days unless the hearing examiner and the applicant otherwise agree.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: August 28, 1970.

## DR. MAYFIELD LABORATORIES ET AL.

### Hog Wormer; Notice of Opportunity for Hearing

In the FEDERAL REGISTER of December 6, 1968 (33 F.R. 18204), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration and the National Academy of Sciences—National Research Council, Drug Efficacy Study Group, following evaluation by the Administration of reports received from the Academy on the following preparation: Dr. Mayfield Hog Wormer; contains copper aceto-arsenite, antimonyl potassium tartrate, and phenothiazine; by Dr. Mayfield Laboratories, 1209 South Main Street, Charles City, Iowa 50616; NADA (new animal drug application) No. 8-748V.

The announcement invited the above-named holder of said new animal drug application, and any other interested person, to submit pertinent data on the drug's effectiveness.

Adequate efficacy data in response to the announcement has not been received, and available information still fails to provide substantial evidence of effectiveness of the drug for its recommended use in removing large roundworms (*Ascaris*) and nodular worms (*Oesophagostomum*) from swine.

Efficacy data covering the following product which is similar in composition and labeling to the above-named product, although not furnished for review by the Academy as requested in the notice regarding drug effectiveness which was published in the FEDERAL REGISTER of July 9, 1966 (31 F.R. 9426), and, therefore, not evaluated by the Academy, have been reviewed by the Administration. The above-cited findings of the Administration regarding drug effectiveness apply equally to the following: Corn King Hog Wormer; by The Corn King Co., Inc., 700 16th Street NE., Cedar Rapids, Iowa 52400; NADA No. 9-040V.

Therefore, notice is given to the above-named firms and any interested person who may be adversely affected, that the Commissioner proposes to issue an order under section 512(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(e)) withdrawing approval of all of the new animal drug applications named above, and all amendments and supplements thereto, held by said firms for the listed drug products on the grounds that:

Information before the Commissioner with respect to the drugs, evaluated together with the evidence available to him when the applications were approved, does not provide substantial evidence that the drugs have the effect they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

In accordance with provisions of section 512 of the act (21 U.S.C. 360b), the Commissioner, will give the applicants, and any interested person who would be adversely affected by an order withdrawing such approval, an opportunity for a hearing at which time such persons may produce evidence and arguments to show why approval of the above-named new animal drug applications should not be withdrawn. Promulgation of the order will cause any drug similar in composition, and recommended for conditions of use similar to those recommended for the above-listed drug products, to be a new animal drug for which an approved new animal drug application is not in effect. Any such drug then on the market would be subject to regulatory proceedings.

Within 30 days after publication hereof in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Office of the General Counsel, Room 6-62, 5600 Fishers Lane,

Rockville, Md. 20852, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing; or

2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the new animal drug applications.

Failure of such persons to file a written appearance of election within said 30 days will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method of process the commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing, they must file a written appearance requesting the hearing and giving the reasons why approval of the new animal drug application should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that no genuine and substantial issue of fact precludes the withdrawal of approval of the application, the Commissioner will enter an order on these data, making findings and conclusions on such data. ## JENSEN-SALSBERY LABORATORIES

### Paladide; Notice of Opportunity for Hearing

An announcement published in the FEDERAL REGISTER of November 14, 1969 (34 F.R. 18259), invited Jensen-Salsbery Laboratories, Division of Richardson-Merrell Inc., 520 West 21st Street, Kansas City, Mo. 64141, holder of new animal drug application No. 10–815V for Paladide (a drug containing 1.56 grams of cuprous iodide per ounce), and any other interested person, to submit pertinent data on the drug's effectiveness.

Certain data were submitted in response to the announcement; however, available information still fails to provide substantial evidence of effectiveness of the drug for use as adjunctive therapy in the treatment of foot rot (necrotic pododermatitis) in cattle and as an expectorant in respiratory tract congestion of cattle and swine.

Therefore, notice is given to Jensen-Salsbery Laboratories, and to any interested person who may be adversely affected, that the Commissioner of Food and Drugs proposes to issue an order under section 512(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b (e)) withdrawing approval of new animal drug application No. 10–815V, and all amendments and supplements thereto, held by Jensen-Salsbery Laboratories for the drug Paladide on the grounds that:

Information before the Commissioner with respect to the drug, evaluated together with the evidence available to him when the application was approved, does not provide substantial evidence that the drug has the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

In accordance with provisions of section 512 of the act (21 U.S.C. 360b), the Commissioner will give the applicant, and any interested person who may be adversely affected by an order withdrawing such approval, an opportunity for a hearing at which time such persons may produce evidence and arguments to show why approval of new animal drug application No. 10–815V should not be withdrawn. Promulgation of the order will cause any drug similar in composition to Paladide, and recommended for conditions of use similar to those recommended for Paladide, to be a new animal drug for which an approved new animal drug application is not in effect. Any such drug then on the market would be subject to regulatory proceedings.

Within 30 days after publication hereof in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Office of the General Counsel, Room 6–62, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing; or

2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the new animal drug application.

Failure of such persons to file a written appearance of election within said 30 days will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing, they must file a written appearance requesting the hearing and giving the reasons why approval of the new animal drug application should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that no genuine and substantial issue of fact precludes the withdrawal of approval of the application, the Commissioner will enter an order on these data, making findings and conclusions on such data. If a hearing is requested and justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence, not more than 90 days after the expiration of such 30 days unless the hearing examiner and the applicant otherwise agree.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–51; 21 U.S.C. 360b) and under authority dele-

gated to the Commissioner (21 CFR 2.120).

Dated: August 28, 1970.

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b), 72 Stat. 1786; 21 U.S.C. 348(b)), the following notice is issued:

A petition (41-835V) was filed by Sterwin Laboratories, Inc., subsidiary of Sterling Drug, Inc., 90 Park Avenue, New York, N.Y. 10016, for which notice was published in the FEDERAL REGISTER of May 29, 1969 (34 F.R. 8304), proposing that the food additive regulations be amended to provide for the safe use of nalidixate (sodium 1-ethyl-1,4-dihydro-7-methyl-4-oxo - 1,8 - naphthyridine-3-carboxylate monohydrate) in the drinking water of chickens as an aid in the control of gram-negative bacterial infections in chronic respiratory disease (air-sac infection).

Subsequently, the Commissioner of Food and Drugs requested the petitioner to submit certain additional information within 180 days of the petition's filing date. The requested information has not been received; therefore, in accordance with § 121.51(j) of the procedural food additive regulations (21 CFR 121.51(j)), the subject petition is considered withdrawn without prejudice to a future filing.

## Public Health Service

## BIOLOGICAL PRODUCTS

### Statement of Policy and Interpretation

Application of section 351, Public Health Service Act and 42 CFR Part 73, to biological substances for detecting hepatitis associated antigen in human blood and blood products.

Section 351 of the Public Health Service Act, as amended (42 U.S.C. 262) prohibits the sale, barter, or exchange in interstate or foreign commerce, or within the District of Columbia, of any virus, therapeutic serum, toxin, antitoxin, or analogous product or arsphenamine or its derivatives (or any other trivalent organic arsenic compound) applicable to the prevention, treatment, or cure of diseases or injuries of man, unless such products have been propagated or manufactured and prepared at an establishment holding an unsuspended and unrevoked license issued by the Secretary of Health, Education, and Welfare to propagate or manufacture, and prepare such products.

It has come to the attention of the Director, National Institutes of Health, that antibodies in certain blood sera may be used in detecting in human blood and blood products the presence of an antigen (commonly called "Australia antigen" or "hepatitis associated antigen") closely related to the agent of serum hepatitis, and thereby, by enabling identification and elimination as a source for transfusion or use in man, of products so contaminated, preventing or lessening the occurrence of such disease in man from such products.

Notice is hereby given that the Director, National Institutes of Health, finds such products to be biological products applicable to the prevention of a disease of man, namely, serum hepatitis, within the intendment of section 351, Public Health Service Act, as amended, and regulations thereunder, Title 42, Code of Federal Regulations Part 73, particularly § 73.1 (i) and (k). Accordingly, sale, barter or exchange of such product or products in interstate or foreign commerce or within the District of Columbia without a license issued by the Secretary under section 351 is prohibited by law.

The value of such product or products is recognized and standards designed to insure their continued safety, purity and potency are in process and will be prescribed in regulations as soon as feasible. Until such standards are prescribed, a license for such product or products may not be issued.

This notice is an interpretation of the applicability of Section 351, Public Health Service Act, to a particular product and a statement of policy under such section, and is therefore exempt from the requirements of the Administrative Procedure Act (5 U.S.C. 553) pertaining to public participation in rule making.

*Effective date.* This Notice shall become effective upon publication in the FEDERAL REGISTER.

Dated: August 28, 1970.

# CIVIL AERONAUTICS BOARD

[Dockets Nos. 20929, 22531; Order 70-9-10]

## ALASKA AIRLINES, INC., ET AL.

### Order Instituting Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 1st day of September 1970.

On April 21, 1969, 11-member air carriers of the Air Traffic Conference of America[1] filed, pursuant to section 412(a) of the Federal Aviation Act of 1958, as amended (the Act) an agreement entitled "Standard Automated Reservations Interline Agreement." This agreement, referred to hereafter as the "intercarrier agreement," is intended to enable the carriers to provide their travel agents, inter alia, with computerized access to the carriers' seat availability. As modified by an amendment filed December 22, 1969 (CAB 20953-A1), the intercarrier agreement now has five attachments, identified as follows: (1) the agreement between the Executive Secretary of the Air Traffic Conference of America and ATARS Computer System, Inc. ("ATARCSI Agreement"); (2) a description of the technical requirements of the system ("functional description"); (3) a form contract between ATARCSI and the Selling Agents ("agent contract"); (4) a standard schedule of charges to the carriers ("carrier charges"); and (5) a list of the requirements to be met by an automated reservations system in order to be considered qualified as a common system ("functional requirements"). The intercarrier agreement and the five attachments constitute what we shall refer to as the "ATARS Agreement."

On July 15, 1969, in Order 69-7-74, the Board deferred action on the agreement, requested comments thereon from interested persons and set the matter for oral argument on September 3, 1969. Opposition to approval of the agreement, based in large part on the exclusive nature of the arrangement,[2] was received from various vendors of competing systems and from the Department of Justice. At the request of ATARCSI, the Board agreed to postpone oral argument pending further consideration of the matter by the parties.

On December 22, 1969, an amendment was filed which modified the ATARCSI agreement to permit the carriers to furnish space availability information to, and enter into arrangements with, vendors whose systems meet or exceed the functional requirements (which accompanied the amendment) and who were willing to provide the same guarantees set forth in the ATARCSI agreement.[3] Since this amendment created new substantive considerations, the Board further deferred action on the matter and invited interested persons to file comments.[4] On April 29, 1970, the Board issued Order 70-4-148, reviewing the comments in brief and setting the matter for oral argument. The comments received in support of the amended agreement, from the carriers, American Society of Travel Agents and ATARCSI, all expressed the view that modification of the exclusivity provision had removed any color of antitrust violation, and that any qualified vendor was free to market its system to the carriers. Opponents maintained that the amendment did not dispose of the antitrust objections previously expressed. Other issues were raised concerning the Board's jurisdiction over agreements between carrier and noncarrier parties and whether approval of such agreements extended antitrust immunity to such noncarrier parties. Oral argument on these matters was held on May 13, 1970.

On consideration of all the foregoing, the Board has decided to further defer action on the agreement, as amended, and to institute an investigation aimed at establishing a more complete record on which to base a decision. For we must conclude, after reviewing two separate sets of comments and the information presented at oral argument, that the differences between the parties and others as to the intent and effect of the agreement are as irreconcilable as they were at the outset and that they cannot be resolved on the record before us. More importantly, the underlying facts and the possible inferences which can be drawn therefrom remain obscure and unclear, a situation which compels their development and airing in a hearing.

We think a more complete record is necessary to explore some basic questions. In view of the amendment to the agreement filed by the carriers which purports to eliminate the previous exclusivity features, we must have a greater knowledge of how the ATARS system will be utilized by carriers and customers in conjunction with the systems of other

---

[1] The Board's records reflect the following participants: Alaska Airlines, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Mohawk Airlines, Inc., National Airlines, Inc., Northeast Airlines, Inc., Northwest Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and Western Air Lines, Inc.

[2] Original paragraph 12 of the ATC-ATARCSI agreement, in effect prevented any participant from furnishing schedule availability or passenger itinerary information for use in any automated system other than ATARS.

[3] The "ATARCSI Guarantees" represent the agreement of ATARCSI to provide the type of system which ATC had decided was necessary. Thus, the guarantees provide, inter alia, that ATARCSI will assume total cost and management responsibility for the system and that it will supply all hardware, software, and service necessary to make the system operable. It contains other technical guarantees, such as the 3-second minimum response interval for the computer to respond to an inquiry.

[4] Order 70-1-39, Jan. 8, 1970.

qualified vendors.[5] These are in the nature of operational questions as to what each system could do, or could not do, if it were the only system in effect or if it existed along with, and operationally had to deal with, other systems as well. Such information also bears upon the antitrust questions which exist, since we think greater operational information is relevant to the question of whether competition is technologically and financially feasible from the point of view of the carriers, the vendors and the customers.

Of course, the nature of the antitrust inquiry comprehends, but does not end with exploration of whether the existence of a market structure conducive to maximum feasible competition will be imperiled by approval of the agreement. For, assuming arguendo that such could be the case, we must still determine whether there is a serious air transportation need which the agreement would fill, and if so whether that would outweigh the detriments to competition. We cannot state that the present record contains enough facts (as opposed to argument) which allow us to make an informed judgment on the major issues.

A number of other questions also present themselves. These include the alternatives available to the airlines, and the considerations which prompted them to take the route that led to the selection of ATARCSI and the adoption of the functional requirements; whether the functional requirements and guarantees are required in the performance of an adequate automated reservations system; the significance of the alleged head start which ATARCSI has, even in a multiple vendor system, by virtue of its having already signed with 11 domestic carriers; whether other vendors had a chance to submit bids to the carriers; the impact on the carriers' costs if another sytsem or multiple systems were adopted; the effect of one or multiple systems on the costs to the vendors' customers; and the feasibility for such customers of multiple systems.[6] There is also the question of whether the relationship between ATARCSI and the carriers requires Board approval under section 408 of the Act and, if so, whether such approval should be granted.

We also find that the present state of the record is insufficient to determine the effect of Board approval of the agreement on those carriers who are not signatories thereto. A substantial question has been raised as to whether our previous approval of ATC Resolution 40.41 (Agreement CAB 18923–A1) [7] locks nonsignatory carriers into the ATARS system. Whether in fact it does so, and what the consequences and public interest effects of such a situation would be, will be included in the investigation, with the related question of whether our previous approval of Agreement CAB 18923–A1 should be revoked or modified.

At the oral argument certain persons advanced the idea of a central data bank, access to which would be open to competing vendors who, in turn, would convey availability information to their customers. We have no present views as to whether such a system is desirable and feasible and, if so, what the Board's role should be with regard thereto, but we think that these are matters which should be explored in the hearing. Thus, for example, the question of whether a central data bank and/or other components of an automated reservation facility are a natural monopoly and, if so, how such a system may develop, would be relevant to our determination as to approval or disapproval of the agreement now before us.

Finally, we note the absence to date from the proceedings of several of the ATC carrier members. One such carrier, American, operates a large sophisticated computerized facility, to which it has granted access by Telemax, one of the vendor parties herein. Moreover, American reportedly owns a 50 percent interest in Reservations World, another vendor party herein. We think that American's participation in the proceedings, and that of all other ATC member carriers, is needed for the development of the factual and technical record to be developed in the next phase of this proceeding. Accordingly, we shall make all U.S. certificated scheduled carriers parties hereto.

*Accordingly, it is ordered,* That:

1. Action on Agreement CAB 20953, as amended, be and it hereby is deferred;

2. An investigation to be known as Automated Reservations Systems Investigation be initiated for the purpose of exploring the issues discussed above and deciding what action should be taken with respect to Agreements CAB 20953 and 18923–A1; and

3. All persons who participated in oral argument in Docket 20929, and all U.S. certificated scheduled air carriers, be and they hereby are made parties to this proceeding and will be served copies of this order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

## INTERNATIONAL AIR TRANSPORT ASSOCIATION

### Order Regarding Passenger Sales Agents

Issued under delegated authority September 1, 1970.

An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA), and adopted as a result of the 3d Meeting of the Passenger Agency Committee held April 7–14, 1970, in Montreal. The agreement has been assigned the above-designated CAB Agreement number.

The agreement would amend provisions governing the granting of free and reduced fare transportation to passenger sales agents and tour conductors. The more substantive amendments to resolutions applicable to United States-based agents relate to provisions concerning trips for agents at a 75-percent discount. These provisions would be amended so as to (1) clarify the carriers' intentions that an agent would not be denied the transportation concession on the basis that such an agent is awaiting review of an alleged violation of an IATA resolution, (2) provide that a period of suspension does not break the continuity of the required 12 months' eligibility period, and (3) include in the application form for reduced fare concessions a statement that an agent is responsible for the veracity of information supplied.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found, on a tentative basis, that the following resolutions, which are incorporated in Agreement CAB 21882, are adverse to the public interest or in violation of the Act:

Agreement CAB 21882:

| | *IATA Resolutions* |

| | JT23 (3PAC) 203. |
| | JT31 (3PAC) 203. |
| | JT123 (3PAC) 203. |

[5] The amendment to the agreement filed by the carriers in December 1969 has been relied on as evidence that the exclusivity of the original agreement has been completely eliminated and that any system meeting the functional requirements and providing equivalent minimum guarantees of ATARCSI can market its system to the carriers at any time. This amendment also provided that any vendor (presumably including ATARCSI) or any party to the agreement could request a determination by the ATC monitor as to the qualifications of a system, which determination was thereafter subject to arbitration. We think amplification is necessary of the details of the qualification procedures, and especially whether they provide a realistic opportunity for other vendors to compete.

[6] This question relates to the basic question whether a central data bank is the most workable means of supplying vendors, and whether such a system is desirable in order to avoid problems, if such would otherwise exist, of requiring customer access to several vendors in order to reach all air carriers (see text, infra p. 5).

## SEMO AVIATION, INC.

### Order To Show Cause

Issued under delegated authority September 1, 1970.

The Postmaster General filed a notice of intent August 7, 1970, pursuant to 14 CFR Part 298, petitioning the Board to establish for the above captioned air taxi operator, a final service mail rate of 57 cents per great circle aircraft mile for the transportation of mail by aircraft between Jonesboro and Little Rock, via Batesville, Ark., based on six round trips per week.

No protest or objection was filed against the proposed services during the time for filing such objections. The Postmaster General states that the Department and the carrier agree that the above rate is a fair and reasonable rate of compensation for the proposed services. The Postmaster General believes these services will meet postal needs in the market. He states the air taxi plans to initiate mail service with Beechcraft 18 aircraft.

It is in the public interest to fix, determine, and establish the fair and reasonable rate of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the notice of intent and other matters officially noticed, it is proposed to issue and order [1] to include the following findings and conclusions:

The fair and reasonable final service mail rate to be paid to Semo Aviation, Inc., in its entirety by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be 57 cents per great circle aircraft mile between Jonesboro and Little Rock, via Batesville, Ark., based on six round trips per week.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and regulations promulgated in 14 CFR Part 302, 14 CFR Part 298, and 14 CFR 385.16(f),

*It is ordered,* That:

1. Semo Aviation, Inc., the Postmaster General, Texas International Airlines, Inc., and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rate specified above for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above as the fair and reasonable rate of compensation to be paid to Semo Aviation, Inc.;

2. Further procedures herein shall be in accordance with 14 CFR Part 302, and notice of any objection to the rate or to the other findings and conclusions proposed herein, shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this order;

3. If notice of objection is not filed within 10 days after service of this order, or if notice is filed and answer is not filed within 30 days after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rate specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rate shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the rules of practice (14 CFR 302.307); and

5. This order shall be served upon Semo Aviation, Inc., the Postmaster General, and Texas International Airlines, Inc.

[1] This order to show cause is not a final action and is not regarded as subject to the review provisions of 14 CFR Part 385. These provisions will be applicable to final action taken by the staff under authority delegated in § 385.16(g).

This order will be published in the FEDERAL REGISTER.

# FEDERAL POWER COMMISSION

[Docket No. G-2683 etc.]

## DUQUESNE NATURAL GAS CO. ET AL.

### Findings and Order

AUGUST 25, 1970.

Findings and order after statutory hearing issuing certificates of public convenience and necessity amending orders issuing certificates, permitting and approving abandonment of service, terminating certificates, substituting respondents, making successors co-respondents, redesignating proceedings, making rate changes effective, accepting agreements and undertakings for filing, requiring filing of agreements and undertakings, and accepting related rate schedules and supplements for filing.

Each of the applicants listed herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce or for permission and approval to abandon service or a petition to amend an order issuing a certificate, all as more fully set forth in the applications and petitions, as supplemented and amended.

Applicants have filed related FPC gas rate schedules or supplements thereto and propose to initiate or abandon natural gas service in interstate commerce as indicated in the tabulation herein. All sales certificated herein are at rates either equal to or below the ceiling prices established by the Commission's statement of general policy No. 61-1, as amended, or involve sales for which permanent certificates have been previously issued; except that sales from areas for which area rates have been determined are authorized to be made at or below the applicable area base rates adjusted for quality of the gas, and under the conditions prescribed in the orders determining said rates.

Duquesne Natural Gas Co. (Operator) et al., as applicant in Docket No. G-4229,

and Duquesne Natural Gas Co., as applicant in Dockets Nos. G–8408 and CI63–1650, proposes to continue the sales of natural gas heretofore authorized in said dockets to be made pursuant to Associated Programs, Inc. (Operator), et al., FPC Gas Rate Schedule No. 3 and Associated Programs, Inc., FPC Gas Rate Schedule Nos. 2 and 6, respectively. Said rate schedules will be redesignated as those of applicant. The presently effective rates under the predecessor's FPC Gas Rate Schedule Nos. 2, 3, and 6 are in effect subject to refund in Dockets Nos. RI65–580, RI65–581, and RI67–452, respectively. On December 15, 1969, Associated Programs, Inc., filed with the Commission notices of changes in rate under its FPC Gas Rate Schedule Nos. 2 and 3; and by order issued January 9, 1970, in Docket No. RI70–1036 et al., the Commission suspended said changes in Dockets Nos. RI70–1037 and RI70–1038, respectively, until June 15, 1970, and thereafter until made effective. The notices of change were designated as Supplement No. 6 to FPC Gas Rate Schedule No. 2 and Supplement No. 8 to FPC Gas Rate Schedule No. 3. On May 21, 1970, applicant filed a motion to make the changes in rate effective subject to refund. In its certificate applications applicant states that in addition to the refund obligation required by § 154.92(d)(3) of the regulations under the Natural Gas Act, it intends to be responsible for the total refund from the dates the increased rates of its assignor became effective subject to refund in Dockets Nos. RI67–452, RI70–1037, and RI70–1038. Since the effective date of the assignments is January 1, 1970, prior to the date on which amounts could be collected subject to refund in Dockets Nos. RI70–1037 and RI70–1038, applicant's assumption of its assignor's refund liability can be applicable only to those amounts collected subject to refund in Docket No. RI67–452. Concurrently with its certificate applications, applicant submitted agreements and undertakings in Dockets Nos. RI67–452, RI70–1037, and RI70–1038 to assure the refunds of all amounts collected in excess of amounts determined to be just and reasonable in said proceedings and a motion to be substituted in lieu of Associated Programs, Inc., as respondent in said proceedings. Therefore, applicant will be made co-respondent in the proceedings pending in Dockets Nos. RI65–580 and RI65–581 and will be substituted in lieu of Associated Programs, Inc., as respondent in the proceedings pending in Dockets Nos. RI67–452, RI70–1037, and RI70–1038; said proceedings will be redesignated accordingly; the changes in rate suspended in Dockets Nos. RI70–1037 and RI70–1038 will be made effective subject to refund; the agreements and undertakings filed in Dockets Nos. RI67–452, RI70–1037, and RI70–1038 will be accepted for filing; and applicant will be required to file agreements and undertakings in Dockets Nos. RI65–580 and RI65–581 to assure the refunds of any amounts collected by it in excess of the amounts determined to be just and reasonable in said proceedings.

Signal Oil & Gas Co. (Operator), as applicant in Docket No. G–6668, proposes to continue the sale of natural gas heretofore authorized in said docket to be made pursuant to Signal Oil & Gas Co., a division of The Signal Cos., Inc. (Operator), FPC Gas Rate Schedules Nos. 29, 32, and 33, and as applicant in Dockets Nos. CI62–739 and CI63–577, proposes to continue the sales of natural gas heretofore authorized in said dockets to be made pursuant to Signal Oil & Gas Co., a division of The Signal Co., Inc. (Operator), FPC Gas Rate Schedules Nos. 30 and 31, respectively. By order issued March 5, 1970, in Docket No. G–11647 et al., the Commission amended the orders issuing certificates of public convenience and necessity in Dockets Nos. CI62–739 and CI63–577 by authorizing Signal Oil & Gas Co., a division of The Signal Cos., Inc. (Operator), to continue the sales of natural gas theretofore authorized in said dockets to be made pursuant to Service Gas Products Co. (Operator) FPC Gas Rate Schedules Nos. 4 and 5, respectively. By order issued April 17, 1970, in Docket No. G–3566 et al., the Commission amended the order issuing a certificate in Docket No. G–6668 by authorizing Signal Oil & Gas Co., a division of The Signal Cos., Inc. (Operator), to continue the sale of natural gas theretofore authorized in said docket to be made pursuant to Service Gas Products Co. (Operator) FPC Gas Rate Schedules Nos. 1, 2, and 3. The then effective rates under Service Gas Products Co.'s rate schedules were in effect subject to refund in Docket No. RI69–712. Therefore, applicant will be made a co-respondent in said proceeding and the proceeding will be redesignated accordingly. Applicant has heretofore filed a general undertaking to assure the refund of amounts collected in excess of amounts determined to be just and reasonable in proceedings under section 4(e) of the Natural Gas Act.

PetroDynamics, Inc. (Operator), et al., Applicant in Dockets Nos. G–17834 and G–17835, proposes to continue the sales of natural gas heretofore authorized in said dockets to be made pursuant to Smith Development Co., et al., FPC Gas Rate Schedules Nos. 2A, 2B, and 2C and Smith Development Co., et al., FPC Gas Rate Schedules Nos. 1A and 1B, respectively. Said rate schedules will be redesignated as those of applicant. The presently effective rate under Smith's rate schedules is in effect subject to refund in Docket No. RI65–617. Therefore, applicant will be made a co-respondent in said proceeding and said proceeding will be redesignated accordingly. Applicant has heretofore filed a general undertaking to assure the refund of amounts collected in excess of amounts determined to be just and reasonable in proceedings under section 4(e) of the Natural Gas Act.

Terra Resources, Inc., (Operator), et al., applicant in Dockets Nos. CI63–403, CI63–642, and CI64–357, proposes to continue the sales of natural gas heretofore authorized in said dockets to be made pursuant to CRA, Inc. (Operator), et al., FPC Gas Rate Schedules Nos. 25, 26, and 43, respectively. The presently effective rates for sales under CRA's FPC Gas Rate Schedules Nos. 25 and 26 are in effect subject to refund in Docket No. RI68–702, and the presently effective rate for sales under CRA's FPC Gas Rate Schedule No. 43, except for production from the Nitchie Gulch 11–9 well, is in effect subject to refund in Docket No. RI69–484. Applicant has filed motions to be made co-respondent in said proceedings and agreements and undertakings to assure the refunds of any amounts collected by it in excess of the amounts determined to be just and reasonable in said proceedings. Therefore, applicant will be made co-respondent in said proceedings; said proceedings will be redesignated accordingly; and the agreements and undertakings will be accepted for filing.

Prudential Minerals Exploration Corp. et al., applicant in Dockets Nos. CI67–1089 and CI67–1504, proposes to continue the sales of natural gas heretofore authorized in said dockets to be made pursuant to General Petroleum Corp. et al., FPC Gas Rate Schedules Nos. 5 and 6. Said rate schedules will be redesignated as those of applicant. A proposed increased rate under said rate schedules is suspended in Docket No. RI70–1189 and applicant requests to be substituted in lieu of General Petroleum Corp. as respondent in said proceeding. Therefore, applicant will be substituted as respondent and the proceeding will be redesignated accordingly.

Hadson Ohio Oil Co. (Operator) et al., applicant in Docket No. CI67–1637, proposes to continue the sale of natural gas heretofore authorized in said docket to be made pursuant to T. K. Hendrick (Operator) et al., FPC Gas Rate Schedule No. 8. Said rate schedule will be redesignated as that of applicant. The presently effective rate under Hendrick's rate schedule is in effect subject to refund in Docket No. RI69–126 and a subsequent change in rate is suspended in Docket No. RI70–1459. Therefore, applicant will be made a co-respondent in the proceeding pending in Docket No. RI69–126 and will be substituted in lieu of T. K. Hendrick as respondent in the proceeding pending in Docket No. RI70–1459; said proceedings will be redesignated accordingly; and applicant will be required to file an agreement and undertaking in Docket No. RI69–126 to assure the refund of any amounts collected by it in excess of the amount determined to be just and reasonable in said proceeding.

Southern Gulf Production Co., a California corporation (Operator) et al., applicant in Docket No. CI69–306, proposes to continue the sale of natural gas heretofore authorized in said docket to be made pursuant to Southern Gulf Production Co. (Operator) et al., FPC Gas Rate Schedule No. 1. The predecessor was a Texas corporation. The predecessor's rate schedule will be redesignated as that of applicant. The presently effective rate under the predecessor's rate schedule is in effect subject to refund in

Docket No. RI69–151 and applicant requests to be substituted as respondent in said proceeding. Applicant indicates in its certificate application that in addition to the refund obligation required by § 154.92(d)(3) of the regulations under the Natural Gas Act, it intends to be responsible for the total refund from the time that the increased rate of its assignor was made effective subject to refund. Concurrently with its certificate application applicant submitted an agreement and undertaking to assure the refund of all amounts collected in excess of amounts determined to be just and reasonable in said proceeding. Therefore, applicant will be substituted as respondent; the proceeding will be redesignated accordingly; and the agreement and undertaking will be accepted for filing.

Michael V. Kelly and William E. Brock, doing business as Kelly-Brock, applicants in Docket No. CI70–988, purpose to continue in part the sale of natural gas heretofore authorized in Docket No. CI60–459 to be made pursuant to Atlantic Richfield Co. FPC Gas Rate Schedule No. 215. An instrument of ratification of the contract comprising said rate schedule will be accepted for filing as a rate schedule of applicants. The presently effective rate under said rate schedule is in effect subject to refund in Docket No. RI69–256 and a prior increased rate was collected for a locked-in period subject to refund in Docket No. RI70–700. Therefore, Applicants will be made co-respondents in said proceedings; the proceedings will be redesignated accordingly; and applicants will be required to file agreements and undertakings to assure the refunds of any amounts collected by them in excess of the amounts determined to be just and reasonable in said proceedings.

Ashland Oil, Inc., applicant in Docket No. CI70–1018, proposed to continue in part the sale of natural gas heretofore authorized in Docket No. CI66–857 to be made pursuant to Cleary Petroleum Corp. (Operator) et al., FPC Gas Rate Schedule No. 19. The contract comprising said rate schedule will also be accepted for filing as a rate schedule of Applicant. The presently effective rate under Cleary's rate schedule is in effect subject to refund in Docket No. RI66–416. Applicant requests to be made a co-respondent in said proceeding. Therefore, Applicant will be made co-respondent and said proceeding will be redesignated accordingly. Applicant has heretofore filed a general undertaking to assure the refund of amounts collected in excess of amounts determined to be just and reasonable in proceedings under section 4(e) of the Natural Gas Act.

The Commission's staff has reviewed each application and recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

After due notice by publication in the FEDERAL REGISTER, petitions to intervene by Long Island Lighting Co. were filed in Dockets Nos. G–14711 and CI70–966, in the matter of the applications filed on May 2, 1963, and April 24, 1970, respectively, and a notice of intervention by the Public Service Commission of the State of New York was filed in Docket No. G–14711, in the matter of the application filed on May 2, 1963. (C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against applicants. ### Notice of Application

SEPTEMBER 4, 1970.

Take notice that on August 31, 1970, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Ill. 60603, filed in Docket No. CP71-51 an abbreviated application pursuant to section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing Applicant to transport gas for delivery to Cities Service Oil Co. (Cities Service) for field compressor fuel and to construct and operate facilities to effectuate such delivery, as hereinafter described, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant proposes to transport and deliver up to 500 Mcf per day of gas to Cities Service for use as fuel in new field compressors in the Bluitt Field, Roosevelt County, N. The application states that the cost of the proposed facilities is estimated to be $11,000 for which Applicant will be reimbursed by Cities Service.

The Applicant states that the volume of gas delivered by Applicant to Cities Service will be deducted from the volumes of gas which Applicant pays for under the existing gas purchase contract between Applicant and Cities Service, dated October 1, 1964, covering a sale to Applicant by Cities Service from the Bluitt Field plant. Further, Cities Service will pay Applicant a 0.4 cent per Mcf charge for gas delivered by Applicant to Cities Service.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 14, 1970, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kaier and other attorneys for and on behalf of railroads of the United States, and on behalf of certain water and motor carriers having joint rates with said railroads for authority (1) to depart from the Commission's tariff publishing rules to the extent necessary to enable such carriers to publish general increases in freight rates and charges applicable within, from, to, and via Eastern territory as defined in Appendix II to the petition, and within, from, to, and via Western territory as defined in said Appendix II, by means of a master tariff and other short-form methods, (2) for authority to publish and establish increases in such rates and charges upon 5 days' notice to the Commission and to the public of 8 percent, effective September 15, 1970, and 15 percent effective November 1, 1970, and (3) for modification of all outstanding orders of the Commission to the extent necessary to permit only publication of the aforesaid increases in rates and charges;

For good cause shown, it is ordered:

1. All railroads, and water and motor carriers having joint rates with said railroads, and their tariff publishing agents be, and they are hereby, authorized to depart from the Commission's tariff publishing rules when posting and filing tariffs to become effective on not less than 60 days' notice to the Commission and to the public, but not earlier than November 18, 1970, providing for increased rates and charges not exceeding 15 percent as set forth in said petition, in the following manner:

(a) By publication and filing of master tariffs of increased rates and charges which shall contain a provision reading substantially as follows:

"In the event any increases resulting from the application of this tariff exceed the increases subsequently approved or prescribed by the Interstate Commerce Commission, the carriers will refund the difference between the increases resulting from the application of this tariff and any increases which may subsequently be approved or prescribed by the Interstate Commerce Commission with 4 percent interest.

"In the event an increase resulting from the application of this tariff is disapproved by the Commission and no increase is authorized, the carriers will refund the full amount of the increase collected with 4 percent interest."

(b) By publication and filing of connecting link supplements to one or more tariffs connecting such a tariff or tariffs with the master tariff of increased rates and charges.

(c) By publication and filing of tariffs or supplements of specific increased rates and charges, subject to the same provisions concerning refunds as contained in paragraph 1(a), and

(d) By publication of provisions in tariffs or supplements subjecting the rates and charges therein to the provisions of the master tariffs.

2(1) Master tariffs, supplements thereto, and supplements to tariffs which are issued in short-form method shall bear notation reading substantially as follows:

The form of this publication is permitted by authority of Interstate Commerce Commission Permission No. 71–1100 of September 2, 1970.

(2) Other tariffs or supplements containing specific increased rates or charges shall bear notation reading:

This publication is issued under authority of Interstate Commerce Commission Permission No. 71–1100 of September 2, 1970.

3. Connecting-link supplements authorized herein shall be exempt from the Commission's tariff publishing rules relating to the number of supplements and volume of supplemental matter permitted. This and all other relief from the Commission's tariff publishing rules authorized herein shall expire with September 4, 1971.

4. Outstanding orders of the Commission are modified only to the extent necessary to permit the filing of tariffs containing the proposed increased rates and charges, and all tariffs filed shall be subject to protest, suspension, or rejection.

*And it is further ordered,* That the petition in all other respects be, and it is hereby, denied.

*And it is further ordered,* That notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

It appearing, that by a petition filed on September 1, 1970, by substantially

all of the railroads and certain other carriers in Eastern and Western Territories, seeking the institution of an investigation by the Commission into the adequacy of freight rates and charges of all carriers by railroad within the United States, authorization of proposed increases in freight rates and charges as set forth therein including entry of an order modifying all outstanding orders of the Commission to the extent necessary to make the proposed increased rates and charges effective and entry of appropriate orders under sections 4 and 6 of the Interstate Commerce Act, and

It further appearing, that on September 2, 1970, the Commission entered Special Permission Order No. 71-1100 authorizing the filing of the tariff schedules of increased rates and charges to become effective not earlier than November 18, 1970, upon not less than 60 days' notice to the Commission and the general public, subject to possible suspension by the Commission as provided by the Act.

And it further appearing, that, pursuant to regulations published in 35 F.R. 13216 the railroads and other carriers mentioned above filed and served on September 1, 1970, verified statements containing the evidential support and justification for the aforesaid proposed increases in rates and charges, and good cause appearing therefor:

1. *It is ordered,* That an investigation be, and it is hereby, instituted into and concerning the adequacy of the freight rates and charges of all common carriers by railroad in the United States and the extent to which the proposed increases in rates and charges are necessary to provide revenues sufficient to enable the carriers, under honest, economical, and efficient management, to provide adequate and efficient railway transportation service at the lowest cost consistent with the furnishing of such service, and the reasonableness and lawfulness of such increases under the provisions of the Interstate Commerce Act and the National Transportation Policy.

2. *It is further ordered,* That all common carriers by railroad subject to the Interstate Commerce Act be, and they are hereby, made respondents to this proceeding.

3. *It is further ordered,* That the record in the pending general rail rate increase proceeding entitled Ex Parte No. 265, Increased Freight Rates, 1970, be, and it is hereby, made a part of the record in this proceeding.

4. *It is further ordered,* That this proceeding be, and it is hereby, referred to Hearing Examiner Robert C. Bamford for hearing commencing on September 21, 1970, at 9:30 a.m., District of Columbia daylight saving time, at the offices of the Interstate Commerce Commission, Washington, D.C., for the purpose of cross-examination of witnesses submitting verified statements on behalf of the respondents on September 1, 1970, pursuant to the provisions published in 35 F.R. 13216, as noted above, said hearing to be held in conjunction with that now ordered in Ex Parte No. 265.

5. *It is further ordered,* That any person opposing the proposed increases in rates and charges shall file and serve verified statements and arguments as provided below, on or before October 14, 1970.

(a) The verified statements shall contain all evidence relevant and material to the issues in this proceeding which the party desires to have considered by the Commission (except oral cross-examination and rebuttal related thereto) and will be considered as submitted in evidence along with the verified statements of the respondents, as basis for a decision by the Commission on the merits of the issues.

(b) Verified statements may include argument in support of an affiant's position but such argument shall be set forth in a separate section of the document containing the verified statement. If desired, such argument may be contained in a separate document simultaneously filed and served.

(c) Each verified statement shall be signed in ink by the affiant and verified (notarized) in the manner provided by Rule 50 and Form No. 6 of the Commission's general rules of practice. The post office address of the affiant or his counsel shall be shown.

(d) Verified statements, with or without attached appendices, and arguments, as specified above, shall be filed and served as follows:

The original and 24 copies of each such document for the use of the Commission shall be sent to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

One copy of each statement shall be sent by first-class mail to each of the Regional Offices of the Commission where it will be open to public inspection.

Twenty-five copies shall be served upon Edward A. Kaier, Esq., American Railroad Building, 1920 L Street NW., Washington. D.C. 20036, which service shall constitute service upon all respondents.

In all cases, where service is made by mail, the document shall be mailed in time to be received by October 14, 1970.

(e) Each verified statement shall contain a certificate of service stating that it has been timely served on opposing parties, as herein provided; and verified statements not so served will not be considered.

(f) Verified statements and arguments by persons opposed to the proposed increases in rates and charges should include all matters which they desire the Commission to consider with respect to statutory suspension of the rates pending completion of the investigation, as well as evidence relevant to the ultimate decision. Any party who does not desire to submit verified statements of evidence as described above, may file and serve in like fashion unverified protests which will be considered by the Commission only with respect to the issue of suspension.

6. *It is further ordered,* That any party who has duly filed and served verified statements in Ex Parte Docket No. 265, Increased Freight Rates, 1970, may rely thereon as submitted in evidence in this proceeding or may supplement same by a further verified statement submitted as provided in paragraph 5.

7. *It is further ordered,* That on or before November 2, 1970, the respondents shall file with the Commission and serve upon opposing parties such replies to protests seeking suspension and rebuttal evidence on the merits of the proceeding as they desire to present. Such evidence shall be in the form and served in the same manner as the opening statements filed in accordance with the regulations published in 35 F.R. 13216, except that replies and rebuttal verified statements need be served only upon the party (and his counsel if known) to whose evidence the reply or rebuttal is directed. Such statements shall, however, be furnished to other interested parties upon request. In the event that the respondents desire to exercise their right to cross-examine any affiant to a verified statement filed in support of protestants pursuant to the provisions of paragraph 5, they shall give notice thereof on or before November 2, 1970, to said affiant (and his counsel if known) and to the Commission by first class mail. Any protestant who wishes to exercise his right to cross-examine any affiant to a verified rebuttal statement of the respondents shall, in like fashion notify the affiant and the respondents at the address set forth in paragraph 5(d), and the Commission, not later than November 5, 1970.

8. *It is further ordered,* That a further hearing in this proceeding shall commence on November 9, 1970, at 9:30 a.m., District of Columbia standard time, at the offices of the Interstate Commerce Commission, Washington, D.C., for the purpose of cross-examination of witnesses submitting verified statements, and to afford an opportunity for parties to submit such other pertinent evidence which the Examiner deems necessary to complete the record.

9. *It is further ordered,* That the Commission will not receive oral argument on the issue of whether to permit the proposed increases to become effective pending completion of the investigation herein instituted, or whether they should be suspended in whole or in part. Any party desiring to be heard in oral argument on the merits following closing of the record herein should address a request therefor to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

10. *It is further ordered,* That future orders and notices of the Commission in this proceeding will be sent only to those parties participating as herein provided, parties of record in Ex Parte No. 265, and to those other interested persons who specifically request to be included on the service list.

11. *And it is further ordered,* That a copy of this order be filed with the Director, Office of the Federal Register for publication in the FEDERAL REGISTER as notice to interested parties.
