Title 3—THE PRESIDENT

Proclamation 4018

MODIFYING PROCLAMATION NO. 3279 RELATING TO IMPORTS OF PETROLEUM AND PETROLEUM PRODUCTS

By the President of the United States of America

A Proclamation

The Director of the Office of Emergency Preparedness has found, with the advice of the Oil Policy Committee—

1. that the importation from Western Hemisphere sources into District I, without charge to import quotas, of 14.6 million barrels of No. 2 fuel oil during the period January 1, 1971 through December 31, 1971 for allocation to independent deepwater terminal operators under appropriate seasonal restrictions, would not adversely affect the national security;

2. that the importation authorized by this Proclamation of Canadian crude oil, unfinished oils, and finished products produced in Canada from Canadian crude oil by means of vessels operating on waterways (other than ocean waterways) in or between the United States and Canada, would not adversely affect the national security;

3. that the importation other than by sea from Canada of natural gas liquids produced in Canada, without charge to import quotas, would not adversely affect the national security;

4. that imports of ethane, propane and butane derived from Western Hemisphere sources may be increased without adversely affecting the national security;

5. that crude oil may be imported into District I to be topped for use as burner fuel subject to such conditions as the Secretary may specify by regulation, without adversely affecting the national security;

6. that Canadian crude oil may be imported into the United States from Canada to be topped for use as burner fuel under such conditions as the Secretary may specify by regulation, without adversely affecting the national security; and

7. that crude oil may, without regard to its viscosity, be imported for use as burner fuel, under the same conditions and restrictions as now apply to residual fuel oil imported for use as fuel, without adversely affecting the national security.

The Director has recommended, with the advice of the Oil Policy Committee, that Proclamation No. 3279,[1] as amended, be amended to adjust imports in conformity with these findings.

I accept these findings and deem it necessary and consistent with the security objectives of Proclamation No. 3279, as amended, to adjust imports as hereinafter provided.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and statutes, including section 232 of the Trade Expansion Act of 1962, do hereby proclaim that, effective immediately:

(2) Section 1A of Proclamation No. 3279, as added by Proclamation No. 3969 of March 10, 1970, is amended by adding four new subsections as follows:

"(d) Any crude oil, unfinished oils, or finished products that may otherwise be transported into the United States from Canada under the provisions of this proclamation, may also be transported into the United States by vessel, as defined in 1 U.S.C. 3, so long as such transportation involves only waterways (other than ocean waterways) in or between the United States and Canada.

"(e) On and after October 1, 1970, any natural gas liquids, as defined in subparagraph (1) of paragraph (a) of Section 2 of this proclamation, derived solely from Canadian natural gas, may be transported other than by sea into the United States from Canada without license and without reducing the quantities of crude oil, unfinished oils, or finished products that may be imported into the United States under the provisions of Section 1, Section 1A, and Section 2 of this proclamation.

"(f) On or after October 1, 1970, ethane, propane and butane produced in the Western Hemisphere from Western Hemisphere crude or gas may be imported into the United States without reducing the quantities of crude oil, unfinished oils, and finished products that may be imported into the United States under the provisions of Section 1, Section 1A, and Section 2 of this proclamation.

"(g) Crude oil may be imported into District I to be topped for use as burner fuel under such conditions as the Secretary may, by regulation, provide. Crude oil may be imported into the United States from Canada to be topped for use as burner fuel under such conditions as the Secretary may, by regulation, provide. The quantities of crude oil, unfinished oils, and finished products that may be imported into the United States under the provisions of Section 1, Section 1A, and Section 2 shall not be reduced by reason of imports of crude oil used as fuel under this paragraph (g)."

(3) Subparagraph (7) of paragraph (g) of Section 9 of Proclamation No. 3279 is amended to read as follows:

"(7) residual fuel oil—(i) topped crude oil or viscous residuum which has a viscosity of not less than 45 seconds Saybolt universal 100° F. and (ii) crude oil which is to be used as fuel without further processing other than by blending by mechanical means;"

IN WITNESS WHEREOF, I have hereunto set my hand this 16th day of October, in the year of our Lord nineteen hundred seventy, and of the Independence of the United States of America the one hundred ninety-fifth.

Title 7—AGRICULTURE

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Order Amending the Order, as Amended, Regulating Handling

§ 907.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of the order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agriculture Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900), a public hearing was held at Los Angeles, Calif., on May 13, 1970, upon proposed amendments to the marketing agreement, as amended, and to Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as amended and as hereby further amended, regulates the handling of Navel oranges grown in the designated production area in the same manner as, and is applicable only to persons in the respective classes of commercial or industrial activity specified in, the marketing agreement and order upon which hearings have been held;

(3) The said order, as amended and as hereby further amended, is limited in its application to the smallest regional production area that is practicable consistently with carrying out the declared policy of the act;

(4) The said order, as amended and as hereby further amended, prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to differences in the production and marketing of Navel oranges; and

(5) All handling of Navel oranges grown in the designated production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(b) *Additional findings.* It is hereby found, on the basis hereinafter indicated that good cause exists for making the provisions of this amendatory order effective not later than November 1, 1970, and that it would be contrary to the public interest to postpone such effective date until 30 days after publication (5 U.S.C. 553). The provisions of this order liberalize the provisions with respect to the loaning and use of allotment for handling short life oranges, change the provisions for allocation of early maturity allotment and prescribe a certification to the committee by the handler as to the control of the oranges described in his application for a prorate base and allotments in lieu of submitting written contracts. The fiscal period and the new season begin November 1, 1970, and the effective time of the provisions of this amendment should coincide with this date so applications for prorate bases and allotments, allocation of early maturity allotment, and loans of short life allotment may be made in accordance with such provisions. The provisions of this order are well known to producers and handlers. The hearing in connection therewith was held at Los Angeles on May 13, 1970, and the recommended decision and final decision were published in the FEDERAL REGISTER on July 18, 1970 (35 F.R. 11587), and August 20, 1970 (35 F.R. 13290), respectively. Copies of this amendatory order were made available to all known interested parties, and compliance with such provisions will not require advance preparation on the part of persons subject thereto which cannot be completed prior to the effective time specified.

(c) *Determinations.* It is hereby determined that:

(1) The agreement amending the marketing agreement, as amended, regulating the handling of Navel oranges grown in the designated production area, upon which the aforesaid public hearing was held, has been signed by handlers (excluding cooperative associations of producers who were not engaged in processing, distributing, or shipping the oranges covered by this order) who, during the period November 1, 1969, through July 31, 1970, handled not less than 80 percent of the oranges covered by said order, as amended, and as hereby further amended;

(2) The issuance of this order, amending the aforesaid order, is favored or approved by at least three-fourths of the producers who participated in a referendum on the question of its approval and who, during the determined representative period (Nov. 1, 1969, through July 31, 1970) were engaged within the area in the production for market of the oranges covered by the said order, as amended, and as hereby further amended; and

(3) The issuance of this order, amending the aforesaid order, is favored or approved by said producers who, during the aforesaid representative period, produced for market at least two-thirds of the volume of Navel oranges produced for market within the designated production area.

It is, therefore, ordered, That, on and after the effective date hereof, all handling of Navel oranges grown in the production area shall be in conformity to, and in compliance with, the terms and conditions of the said order, as amended, and as hereby further amended as follows:

§ 907.31 [Amended]

(a) A person to whom allotments have been issued under general maturity or the short life provisions of this subpart may, in accordance with the provisions of this section, lend such allotments to other persons, within any prorate district, to whom allotments also have been issued. * * *

(b) * * * A person desiring to loan allotment to persons outside his own district shall request the committee to arrange the loan on his behalf with the committee first offering the loan to persons within the district who file requests for such loans and, failing to do so, may then arrange to offer the loan outside of the district in an equitable manner: *Provided*, That offers to loan short life allotment to persons within any district to whom allotments have been issued under general maturity shall be arranged through the committee. * * *

* * * * *

4. Section 907.60 *Early maturity allotments* is amended by revising the fourth sentence to read as follows:

§ 907.60 Early maturity allotments.

* * * Total early maturity allotments approved by the committee for each prorate district shall be allocated in an equitable manner among the requesting handlers who qualify therefor. * * *

§ 907.61 [Amended]

5. Section 907.61 *Short life allotments* is amended by deleting the sentence reading, "Short life allotments may be used only in the handling of short life oranges".

6. Section 907.66 *Prorate districts is* amended by adding a new paragraph (d) to read as follows:

§ 907.66 Prorate districts.

§ 907.41 Assessments.

(a) Each person who first handles oranges shall, with respect to the oranges handled by him, pay to the committee upon demand, such person's pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred each fiscal year. * * *

PART 971—LETTUCE GROWN IN LOWER RIO GRANDE VALLEY IN SOUTH TEXAS

Limitation of Shipments

Notice of rule making with respect to a proposed limitation of shipments regulation to be made effective under Marketing Agreement No. 144 and Order No. 971 (7 CFR Part 971), regulating the handling of lettuce grown in the Lower Rio Grande Valley in South Texas was published in the FEDERAL REGISTER, October 1, 1970 (35 F.R. 15302). This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons an opportunity to file written data, views, or arguments pertaining thereto not later than 10 days following its publication in the FEDERAL REGISTER. None was filed.

Findings. After consideration of all relevant matters, including the proposal set forth in the aforesaid notice which was recommended by the South Texas Lettuce Committee, established pursuant to the said marketing agreement and order, it is hereby found that the limitation of shipments regulation, as hereinafter set forth, will tend to effectuate the declared policy of the act.

The recommendations of the committee are in accord with the committee's marketing policy and reflect its appraisal of the composition of the 1970–71 crop of lettuce in the Lower Valley and the marketing prospects for the season. The grade, pack, and container requirements are needed in the interest of orderly marketing so as to improve returns to producers. The provisions with respect to special purpose shipments are designed to meet the different requirements for other than normal channels of trade.

It is hereby further found that good cause exists for not postponing the effective date of this section until 30 days after its publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of lettuce grown in the production area will begin on or about the effective date specified herein, (2) to maximize benefits to producers, this regulation should apply to as many shipments as possible during the effective period, (3) information regarding the provisions of this regulation has been made available to producers and handlers in the production area, and (4) compliance with this regulation will not require any special preparation on the part of persons subject thereto which cannot be completed by such effective date.

§ 971.311 Limitation of shipments.

During the period October 19, 1970, through March 31, 1971, no person shall handle any lot of lettuce grown in the production area unless such lettuce meets the requirements of paragraph (a), (b), (c), and (f) of this section, or unless such lettuce is handled in accordance with paragraph (d) or (e) of this section. Further, no person may package lettuce during the above period on any Sunday.

(a) *Grade.* Eighty percent U.S. No. 1, or better quality, with not more than 10 percent serious damage including not more than 5 percent affected by decay on any portion of the head exclusive of the wrapper leaves. Individual containers may have not less than 60 percent U.S. No. 1 quality and not more than double the specified tolerance for serious damage, including not more than three heads affected by decay in any portion of the head exclusive of the wrapper leaves.

(b) *Sizing and pack.* (1) Lettuce heads, packed in container Nos. 7303, 7306, or 7313, if wrapped, may be packed only 18, 20, 22, 24, or 30 heads per container; if not wrapped, only 18, 24, or 30 heads per container.

(2) Lettuce heads in container No. 85–40 may be packed only 24 heads per container.

(c) *Containers.* Containers may be only—

(1) Cartons with inside dimensions of 10 inches x 14¼ inches x 21⁹⁄₁₆ inches (designated as carrier container No. 7303), or

(2) Cartons with inside dimensions of 9¾ inches x 14 inches x 21 inches (designated as carrier container Nos. 7306, and 7313), or

(3) Cartons with inside dimensions of 21½ inches x 16⅛ inches x 10¾ inches (designated as carrier container No. 85–40—flat pack).

(d) *Minimum quantity.* Any person may handle up to, but not to exceed two cartons of lettuce a day without regard to inspection, assessment, grade, size, and pack requirements, but must meet container requirements. This exception may not be applied to any portion of a shipment of over two cartons of lettuce.

(e) *Special purpose shipments.* Lettuce not meeting grade, size or container requirements of paragraph (a), (b), or (c) of this section may be handled for any purpose listed, if handled as prescribed, in this paragraph. Inspection and assessments are not required on such shipments.

(1) For relief, charity, experimental purposes, or export to Mexico, if, prior

to handling, the handler pursuant to §§ 971.120–971.125 obtains a Certificate of Privilege applicable thereto and reports thereon.

(2) For export to Mexico, if the handler of such lettuce loads or transports it only in a vehicle bearing Mexican registration (license).

(f) *Inspection.* (1) No handler may handle any lettuce for which an inspection certificate is required unless an appropriate inspection certificate has been issued with respect thereto.

(2) No handler may transport, or cause the transportation of, by motor vehicle, any shipment of lettuce for which an inspection certificate is required unless each such shipment is accompanied by a copy of an inspection certificate or by a copy of a shipment release form (SPI–23) furnished by the inspection service verifying that such shipment meets the current grade, size, pack, and container requirements of this section. A copy of the inspection certificate, or shipment release form applicable to each truck lot shall be available and surrendered upon request to authorities designated by the committee.

(3) For administration of this part, an inspection certificate or shipment release form required by the committee as evidence of inspection is valid for only 72 hours following completion of inspection, as shown on such certificate or form.

(g) *Definitions.* (1) "Wrapped" heads of lettuce refers to those which are enclosed individually in parchment, plastic, or other commercial film (cf. AMS 481) and then packed in cartons or other containers.

(2) "U.S. No. 1" and "serious damage" have the same meaning as in the U.S. Standards for Grades of Lettuce (§§ 51.2510–51.2531 of this title).

(3) Other terms used in this section have the same meaning as when used in Marketing Agreement No. 144 and this part.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: October 14, 1970, to become effective October 19, 1970.

PART 982—FILBERTS GROWN IN OREGON AND WASHINGTON

Free and Restricted Percentages for 1970–71 Fiscal Year

Notice was published in the October 3, 1970, issue of the FEDERAL REGISTER (35 F.R. 15446) regarding a proposal to establish free and restricted percentages applicable to filberts grown in Oregon and Washington for the 1970–71 fiscal year beginning August 1, 1970. The percentages are based on recommendations of the Filbert Control Board and other available information in accordance with the applicable provisions of the marketing agreement, as amended, and Order No. 982, as amended (7 CFR Part 982), regulating the handling of filberts grown in Oregon and Washington, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons opportunity to submit written data, views, or arguments with respect to the proposal. None were submitted within the prescribed time.

After consideration of all relevant matter presented, including those in the notice, the information and recommendations submitted by the Board, and other available information, it is found that to establish free and restricted percentages as hereinafter set forth will tend to effectuate the declared policy of the act.

Therefore, the free and restricted percentages for merchantable filberts during the 1970–71 fiscal year are established as follows:

§ 982.220 Free and restricted percentages for merchantable filberts during the 1970–71 fiscal year.

The following percentages are established for merchantable filberts for the fiscal year beginning August 1, 1970:

Free percentage	78
Restricted percentage	22

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of said amended marketing agreement and this part require that free and restricted percentages designated for a particular fiscal year shall be applicable to all inshell filberts handled during such year; and (2) the current fiscal year began on August 1, 1970, and the percentages established herein will automatically apply to all such filberts beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: October 14, 1970.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS AND POULTRY

[Docket No. 70-280]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases is hereby amended in the following respects:

1. In § 76.2, in paragraph (e)(4) relating to the State of Louisiana, subdivision (ii) relating to West Carroll and Morehouse Parishes is deleted.

2. In § 76.2, in paragraph (e)(5) relating to the State of Maryland, subdivision (i) relating to Charles, St. Mary's, and Calvert, and portions of Prince Georges and Anne Arundel Counties is deleted.

3. In § 76.2, in paragraph (e)(6) relating to the State of Massachusetts, subdivision (i) relating to Bristol County is amended to read:

(6) *Massachusetts.* (i) That portion of Bristol County comprised of Norton Town, Raynhan Town, and Taunton Town.

4. In § 76.2, in paragraph (e)(9) relating to the State of North Carolina, subdivision (iii) relating to Craven and Carteret Counties is deleted.

5. In § 76.2, the reference to the State of Rhode Island in the introductory portion of paragraph (e) and paragraph (e)(11) relating to the State of Rhode Island are deleted.

(Secs. 4-7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791-792, as amended, secs. 1-4, 33 Stat. 1264, 1265, as amended, sec. 1, 75 Stat. 481, secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111, 112, 113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f; 29 F.R. 16210, as amended)

Effective date. The foregoing amendments shall become effective upon issuance.

The amendments exclude portions of West Carroll and Morehouse Parishes in Louisiana; all of Charles, St. Marys and Calvert, and portions of Prince Georges and Anne Arundel Counties in Maryland; portions of Bristol County, Mass.; portions of Craven and Carteret Counties in North Carolina; and a portion of Kent County, R.I., from the areas quarantined because of hog cholera. Therefore, the restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will not apply to the excluded areas, but will continue to apply to the quarantined areas described in § 76.2. Further, the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 will apply to the excluded areas. The amendments release Rhode Island from the list of States quarantined because of hog cholera.

The amendments relieve certain restrictions presently imposed and must be made effective immediately to be of maximum benefit to affected persons. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 15th day of October 1970.

Acting Administrator, Agricultural Research Service.

[Docket No. 70-282]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

1. In § 76.2, the introductory portion of paragraph (e) is amended by adding thereto the name of the State of Nebraska, and a new paragraph (e)(18)

relating to the State of Nebraska is added to read:

(18) *Nebraska.* That portion of Nuckolls County bounded by a line beginning at the junction of State Road 14 and the Nebraska-Kansas State line; thence, following State Road 14 in a northeasterly and then northerly direction to Sankey Road; thence, following Sankey Road in an easterly direction to Crosby Creek; thence, following the west bank of Crosby Creek in a southeasterly direction to the Nebraska-Kansas State line; thence, following the Nebraska-Kansas State line in a westerly direction to its junction with State Road 14.

2. In § 76.2, in paragraph (e)(6) relating to the State of Massachusetts, subdivision (ii) relating to Plymouth County is deleted.

(Secs. 4–7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1–4, 33 Stat. 1264, 1265, as amended, sec. 1, 75 Stat. 481, secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111, 112, 113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 16210, as amended)

Effective date. The foregoing amendments shall become effective upon issuance.

The amendments quarantine a portion of Nuckolls County, Nebr., because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas contained in 9 CFR Part 76, as amended, will apply to the quarantined portion of such county.

The amendments also exclude a portion of Plymouth County, Mass., from the areas quarantined because of hog cholera. Therefore, the restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will not apply to the excluded area, but will continue to apply to the quarantined areas described in § 76.2. Further, the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 will apply to the area excluded from quarantine.

Insofar as the amendments impose certain further restrictions necessary to prevent the interstate spread of hog cholera, they must be made effective immediately to accomplish their purpose in the public interest. Insofar as they relieve restrictions, they should be made effective promptly in order to be of maximum benefit to affected persons.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 15th day of October 1970.

Acting Administrator,
Agricultural Research Service.

In the Matter of Burton A. Dietch, an Individual Doing Business as Carpet Specialists

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

1. Using, in any manner, a sales plan, scheme, or device wherein false, misleading, or deceptive statements or representations are made in order to obtain leads or prospects for the sale of other merchandise or services.

3. Discouraging the purchase of or disparaging any merchandise or services which are advertised or offered for sale.

6. (a) Representing, in any manner, that by purchasing any of respondent's merchandise, customers are afforded savings amounting to the difference between respondent's stated price and respondent's former price unless such merchandise has been sold or offered for sale in good faith at the former price by respondent for a reasonably substantial period of time in the recent, regular course of his business.

(c) Representing, in any manner, that by purchasing any of respondent's merchandise, customers are afforded savings amounting to the difference between respondent's stated price and a compared value price for comparable merchandise, unless substantial sales of merchandise of like grade and quality are being made in the trade area at the compared price or a higher price and unless respondent has in good faith conducted a market survey or obtained a similar representative sample of prices in this trade area which establishes the validity or said compared price and it is clearly and conspicuously disclosed that the comparison is with merchandise of like grade and quality.

7. Failing to maintain adequate records which disclose the facts upon which any savings claims, sale claims and other similar representations as set forth in paragraphs 5 and 6 of the order are based, and (b) from which the validity of any savings claims, sales claims and similar representation can be determined.

8. Representing, directly or by implication, that a prospective purchaser or respondent's products or services will receive a "free" dinnerware set or any other prize or award unless all conditions, obligations, or other prerequisites to the receipt of such prizes or award are clearly and conspicuously disclosed and respondent does in fact deliver said gift to all persons entitled to receive them.

9. Representing, directly or by implication, that any gift is furnished "free" or at no cost to a purchaser of advertised merchandise, when, in fact, the cost of such gift is obtained through an increase in the selling price of the advertised merchandise to cover the cost of the "free" gift or such cost is regularly included in the selling price of the advertised merchandise.

10. Representing, directly or by implication, that any product or service is guaranteed, unless the nature and extent of the guarantee, the identity of the guarantor, and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed; and respondent delivers to each purchaser a written guarantee clearly setting forth all of the terms, conditions and limitations

of the guarantee fully equal to the representation, directly or impliedly made to each such purchaser, and unless respondent promptly and fully performs all of his obligations and requirements under the terms of each such guarantee.

13. Representing, directly or by implication, that a stated price for floor covering includes the cost of a separate padding and the installation thereof, unless in every instance where it is so represented the stated price for floor covering does, in fact, include the cost of such separate padding and installation thereof; or misrepresenting in any manner, the prices, terms or conditions under which respondent supplies separate padding in connection with the sale of floor covering products.

14. Representing, directly or by implication, that respondent's carpeting or floor covering is approved by the Federal Housing Authority, or any other governmental authority; or misrepresenting in any manner the nature or character of any approval or endorsement of respondent's product or service.

15. Representing, directly or by implication, that carpeting or any other product will be shipped directly to the purchaser from the mill or that such products are being sold at mill prices or at prices which eliminate the middleman profit.

16. Inaccurately depicting the depth of the pile face of carpeting or the characteristics or quality of any products through illustrations or other pictorial depictions in newspapers, television or other promotional material.

It is further ordered, That respondent deliver a copy of this order to cease and desist to all present and future salesmen or other persons engaged in the sale of respondent's products or services, and secure from each such salesman or other person a signed statement acknowledging receipt of said order.

It is further ordered, That the respondent herein shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form of his compliance with this order.

2. Failing to incorporate the following statement clearly and conspicuously on the face of all notes or other evidence of indebtedness executed by respondent's customers which, in the hands of any holder in due course would not be subject to all defenses which would be available to the customer in an action by respondent:

NOTICE

Any holder of this instrument takes this instrument subject to all defenses of the maker hereof which would be available to said maker in any action arising out of the contract which gave rise to the execution of this instrument if such action had been brought by any party to said contract.

It is further ordered, That the respondent herein shall, in connection with the offering for sale, sale, or distribution of encyclopedias, books, or publications or supplements in connection therewith or any other article of merchandise, when the offer for sale or sale is made in the buyer's home, forthwith cease and desist from:

The Commission, upon proper showing, shall make such modifications as may be warranted in the premises.

SUBCHAPTER K—MARINE INVESTIGATIONS AND SUSPENSION AND REVOCATION PROCEEDINGS

[CGFR 70-61a]

PART 137—SUSPENSION AND REVOCATION PROCEEDINGS

Offenses Involving Narcotic or Dangerous Drugs

A notice of rule making was published in the FEDERAL REGISTER of May 27, 1970 (35 F.R. 8291) and amended by a document published on June 10, 1970 (35 F.R. 8945) to revise § 137.03-3 and to add a new § 137.03-4. The notice proposed to extend the policy of requiring an order of revocation, presently applicable to offenses involving narcotic drugs, including marijuana, to include proven offenses involving the possession, use, sale or association with other dangerous drugs, not classified as narcotic drugs. The notice also proposed to authorize the examiner in cases involving marijuana to enter an order less than revocation whenever he is satisfied that the use, possession or association was the result of experimentation and the person charged submits satisfactory evidence that this use will not recur. Interested persons were invited to submit written comments on the proposal and to arrange for conferences with appropriate Coast Guard personnel. In addition to publication in the FEDERAL REGISTER, the notice was mailed to persons who had indicated a desire to be informed of notices of proposed rule making. No conferences were requested and only one written comment was received. This comment favored the proposal. Accordingly, this document effectuates the proposal without change.

Part 137 is amended by revising § 137.03-3 and by adding § 137.03-4 to read as follows:

§ 137.03-3 Possession of narcotics; prima facie case.

When a charge of misconduct is supported by a specification alleging possession of narcotic drugs, including marijuana, or dangerous drugs, evidence of possession is enough to support a finding of misconduct, unless the examiner is satisfied by other evidence that the possession was not wrongful.

§ 137.03-4 Offenses for which revocation of licenses or documents is mandatory.

Whenever a charge of misconduct by virtue of the possession, use, sale or association with narcotic drugs, including marijuana, or dangerous drugs is found proved, the examiner shall enter an order revoking all licenses, certificates and documents held by such a person. However, in those cases involving marijuana, where the examiner is satisfied that the use, possession or association, was the result of experimentation by the person and that the person has submitted satisfactory evidence that such use will not recur, he may enter an order less than revocation.

Effective date. This amendment shall become effective 30 days following the date of publication in the FEDERAL REGISTER.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 12782; FCC 70-1119]

PART 73—RADIO BROADCAST SERVICES

Competition and Responsibility in Network Television Broadcasting

Memorandum opinion and order staying effectiveness of § 73.658(j)(1)(i), and § 73.658(j)(1)(ii) in certain particulars.

1. The Commission has before it motions by NBC and ABC seeking to stay the effectiveness of § 73.658(j)(1)(i) and (ii) of the rules and regulations[1] until 1 year after the completion of final judicial review of the Commission's orders promulgating the rules.[2] These motions are unopposed.

2. In our order of August 7, we denied motions by several parties for stay of the effectiveness of the rule (paragraph 44). We observed, however, that

> § 73.658(j) as it applies to syndication distribution may involve stringent action by the networks upon a more persuasive showing, we might have been more sympathetic to a stay in this one area * * *

We noted that CBS already had announced plans to divest itself of its syndication arm and that neither NBC nor ABC had made a convincing showing that they will be irreparably injured in this area before an appeal can be decided.

3. Both NBC and ABC in the present motions cite the Commission's statement above quoted. They now seek to supply the "persuasive showing" necessary to sustain a stay of the syndication aspects of these rules.

4. NBC says that § 73.658(j) is a "divestiture order" and as such should be stayed pending appeal.

5. The division within NBC responsible for domestic and foreign syndication is NBC Enterprises which operates domestically through NBC Films, Inc. and in foreign countries through a number of foreign companies. NBC Enterprises has offices in five U.S. cities and eleven foreign countries.

6. According to NBC, a careful analysis shows that practical compliance by October 1, 1971 with the prohibition on syndication distribution will require NBC to begin to dispose of its distribution business at once. This is because business arrangements in syndication are such that any sort of sensible divestiture will require at least a year to accomplish. Hence, irrespective of the result of the appeals currently pending in the courts, NBC must start to dispose of its syndication business now or risk great loss. Also, NBC asserts that the prohibition on acquisition of syndication rights which became effective on October 1, 1970 subjects it to irreparable damage as it not only prevents NBC from replenishing its inventory for domestic distribution but will prohibit it from acquiring rights to programs for foreign sale. NBC relates a number of examples from its current syndication operations on which it bases its assertion that to enforce the time schedule of either part of the rule prior to the completion of review on appeal would subject it to severe commercial and financial damage which could not be repaired should the Commission be overruled by the courts.

7. NBC points out that over the past 5 years about 75 percent of the domestic syndication distribution rights it has acquired did not arise as the result of licensing programs for the NBC Television Network. Of the total of 1,005 half-hours

[1] (j) *Network syndication and program practices.* (1) Except as provided in subparagraph (3) of this paragraph, no television network shall:

(i) After Oct. 1, 1971, sell, license, or distribute television programs to television station licensees within the United States for nonnetwork television exhibition or otherwise engage in the business commonly known as "syndication" within the United States; or sell, license, or distribute television programs of which it is not the sole producer for exhibition outside the United States; or reserve any option or right to share in revenues or profits in connection with such domestic and/or foreign sale, license, or distribution; or

(ii) After Oct. 1, 1970, acquire any financial or proprietary right or interest in the exhibition, distribution, or other commercial use of any television program produced wholly or in part by a person other than such television network, except the license or other exclusive right to network exhibition within the United States and on foreign stations regularly included within such television network: *Provided*, That if such network does not timely avail itself of such license or other exclusive right to network exhibition within the United States, the grantor of such license or right to network exhibition may, upon making a timely offer reasonably to compensate the network, reacquire such license or other exclusive right to exhibition of the program.

[2] Report and order adopted May 4, 1970, 35 F.R. 7417, 23 FCC 2d 382; memorandum opinion and order (on reconsideration), adopted Aug. 7, 1970, 35 F.R. 13208, 25 FCC 2d 318, corrected Vol. 35, F.R. 13650.

acquired during those years, 618 were first-run productions by independent producers, 223 were programs that appeared on other networks; and 164 were programs that appeared originally on the NBC Television Network, but the syndication rights for which had been retained by the producer and were later sold to NBC Enterprises. NBC further says that 65 percent of the product acquired by NBC Enterprises for foreign distribution was acquired independently of licensing by producers of programs for the NBC Television Network. Of 2,282 half-hours acquired during the past 5 years for foreign sale, 195 were programs produced abroad by foreign companies and intended solely for foreign audiences; 655 were programs that appeared originally on other networks; 196 were programs that appeared originally on the NBC Television Network, but the rights for which were later sold to NBC Enterprises; 540 programs were acquired through independent sources within the United States, which programs never appeared on networks; and 696 were (NBC) network produced entertainment or news programs. As a practical matter, the prohibition on acquisition of rights will result in severe erosion of NBC's syndication business, both domestic and foreign, as a going concern, even while it is negotiating for sale or for some other means of disposition, and while the pending appeals are undecided.

8. ABC asserts that if the rules affecting network syndication activity are not stayed it will be subjected to irreparable injury. Even though termination of its syndication activity is not required under the rule until October 1, 1971, business and economic reasons will force ABC to begin to dispose of its syndication business immediately. If the Commission's rule is not upheld by the courts, there would "be no practicable means of resuming syndication activity short of many years of invested effort and resources." In other words, even though judicial review might be completed prior to the effective date of the "syndication proscription" ABC, after careful study,

has concluded that it cannot wait to dispose of its syndication business if there is even the possibility, let alone the prospect, that it will be forced to disengage from all syndication by October 1, 1971.

9. ABC also claims that the rule which became effective October 1, 1970 prohibiting networks from further acquisition of syndication rights must be stayed if the value of ABC's syndication arm as a going business is to be retained even during the period while negotiation to dispose of it is in progress. To preserve its active inventory of broadcast rights upon which the profitability of its syndication distribution business depends both here and abroad, ABC must acquire distribution rights to an additional 750 half-hours of programing each year. To prohibit it from so doing—as the rule currently does—will greatly affect the value of its syndication activity as a profitable business and will compound ABC's loss by adversely affecting the value of the going business of which it must divest itself on the best terms it can get. ABC claims that in this way it would, in effect, be denied its right of appeal as it will sustain the full adverse effects of the rule before its appeal can be decided.

10. In determining whether the showing made by each of the networks here is "persuasive," our primary concern is the probable benefit or detriment to the public interest, and we must consider the allegations of irreparable injury to the petitioning parties in that context. We find persuasive the claims that the networks face liquidation of their syndication arms prior to a determination of the merits of their appeals. This injury appears irreparable. On consideration of all of the aspects of this matter, we do not believe that the public interest requires ABC and NBC to run the risks of irreparable damage which they assert will occur if § 73.658(j)(1)(i) is not stayed. We have determined that the public interest requires each of the actions we have taken in our new rules. Each restriction we have placed on network activity or network programing is essential to the public interest and has an important place in our design to ease network domination of the program process in television, to encourage station freedom and autonomy in program service, and to foster the growth of independent sources of television programing. We believe it essential in the public interest that no unnecessary delay be permitted with regard to any part of the rule. This is particularly true of the prime time access provisions where, in order to implement the rule, it will be necessary for additional program sources to develop so that programing may be made available as a substitute for the network programing in the top 50 markets. As we said in our order of August 7, 1970, the present situation with regard to affiliate dependence on networks is such that many of them are clearly not in a position to exercise the appropriate degree of freedom of choice and the responsibility for television service essential to the proper discharge of their broadcast trusteeships. We stated that this degree of network domination emphasized the need for Commission action to "reestablish licensee individuality and responsibility as operable factors in television broadcasting." This situation has an immediate and drastic effect on the public interest in television broadcast service and any delay in implementing the remedial action which we have taken directly to alleviate this situation, i.e. the prime time access rule 73.658(k), accentuates and compounds the direct damage to the public interest which is currently being suffered. On the other hand, network syndication activities, while they are of substantial import to the public interest on a continuing basis, do not affect the public interest to quite the same degree as does network domination of the prime time programing process. Accordingly, an immediate effectuation of the proposed remedy is not as crucial. We conclude that a stay of the prohibition against syndication will serve to protect against irreparable private injury without unduly affecting the paramount public interest.

11. NBC and ABC also allege that unless a stay of § 73.658(j)(1)(ii) is granted, thereby permitting them to continue to acquire distribution rights, both domestic and foreign, their business will be seriously eroded and they will suffer irreparable damage irrespective of the outcome of their appeals to the courts. In essence, each network says that to cut off its continuing supply of distribution rights and thus prevent it from replenishing its stock in trade will seriously impair if not totally destroy its syndication and foreign distribution activities as a going business. NBC presents detailed information indicating that a large part of its domestic and foreign distribution rights derive from transactions and sources not connected with its own network programing process and, hence, does not impinge on the principal area of Commission concern. ABC also carries on similar activities and obtains program rights from similar transactions and sources.[3]

12. The acquisition of syndication rights by networks as a prerequisite or condition of development or choice of programs for network exhibition was the principal focus of our prohibition against the acquisition by the networks of subsidiary program rights.[4] Both the prohibition on network domestic syndication distribution and the restrictions on foreign sales by networks were directed in large part to elimination of this area of possible abuse.

13. In view of these facts and our resolution of the basic issue of a stay of the general prohibition against syndication, we do not believe that the public interest will be irreparably injured if we stay the rule in part so as to permit networks to continue to acquire domestic and foreign rights which do not arise out of their network program selection process. We of course do not agree that acquisition of such rights by networks does not affect the public interest. We have found the contrary. But we take this action as a concommitant of our ruling above on the representation by ABC and NBC that failure to permit them to acquire rights sufficient to sustain viable commercial operations will subject them to irreparable injury before the appeals can be determined. However, we wish to emphasize that we are staying effectiveness of this part of the rule only as to distribution

[3] A question has been raised as to the applicability of the rule to the acquisition of foreign-produced programs for foreign distribution. The rule was not intended to cover this situation. ABC is considerably more dependent on the network program process for its domestic and foreign distribution rights than is NBC.

[4] See paragraph 29 of our order of Aug. 7: "* * * the principal purpose of our new syndication rules are two: (1) To lessen the bargaining leverage provided by network control of program exhibition on most stations throughout the country which enables networks successfully to bargain for subsidiary rights and interests with producers and (2) to remove the possibility that acquisition of such rights becomes a prerequisite of acceptance of a program for network exhibition."

rights in programs which are not produced for, or included in, or intended or proposed to be included in the network schedule of the particular network involved. This action, we believe, will enable ABC and NBC to continue in operation during the pendency of the appeals. However, the parties are advised that the acquisition of new programs during the period of the stay should be accomplished so as to avoid new problems in ultimately complying with the rules.

14. In order that we may keep fully informed, the two networks shall as a condition of the grant of stay herein, inform us in writing, 3 months after the date of issue of this order, and at intervals of 3 months thereafter, of all program rights and interests they have acquired which, but for the stay granted herein, would have been prohibited by the rules. This requirement is applicable to CBS if it decides to avail itself of the benefits of the stay ordered herein. If requested to do so we shall treat such information as confidential. In view of the uncertainty of the duration of the appeals herein, we have decided that the stays granted hereby shall be until the further order of the Commission.

15. *Therefore, it is ordered,* That the effectiveness of § 73.658(j)(1)(i) of the Commission's rules and regulations be stayed pending further order of the Commission. *It is further ordered,* That the effectiveness of § 73.658(j)(1)(ii), as it applies to domestic syndication and foreign distribution rights and interests in programs not produced for, or included in or proposed or intended to be included in the network schedule of the network acquiring such rights or interests, be stayed pending the further order of the Commission.

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Humboldt, Tenn., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Area Manager, Memphis Area Office, Air Traffic Branch, Post Office Box 18097, Memphis, Tenn. 38118. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 724, 3400 Whipple Street, East Point, Ga.

The Humboldt transition area would be designated as:

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Humbolt Municipal Airport (lat. 35°48'00" N., long. 88°52'00" W.); within 2.5 miles each side of the Dyersburg VORTAC 121° radial, extending from the 5-mile-radius area to 23 miles southeast of the VORTAC.

The proposed designation is required to provide controlled airspace protection for IFR operations in climb from 700 to 1,200 feet above the surface and in descent from 1,500 to 1,000 feet above the surface. A prescribed instrument approach procedure, utilizing the Dyersburg VORTAC, is proposed in conjunction with the designation of this transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

OCTOBER 15, 1970.

The Board, by circulation of notice of proposed rule making EDR-187, dated September 9, 1970, and publication at 35 F.R. 14464, gave notice that it had under consideration proposed amendments to Part 241 which would prescribe more complete disclosure of transactions by air carriers within affiliated groups of companies than is presently required and set forth standards in accounting for such transactions. Interested persons were invited to participate in the proceeding by submission of twelve (12) copies of written data, views, or arguments pertaining thereto to the Docket Section of the Board on or before October 15, 1970.

Subsequent to the issuance of the proposed rule, counsel representing 22 member carriers of the Airline Finance and Accounting Conference of the Air Transport Association of America requested an extension to December 15, 1970, of the time for filing comments on the proposed rule on the grounds that the proposal would require major revision of current accounting policies and procedures and that accordingly additional time is necessary to study the effects of these proposed rules before submitting comments.

The undersigned finds that good cause has been shown for additional time for filing comments to the extent hereinafter granted. FEDERAL MARITIME COMMISSION

[46 CFR Part 542]

[Docket No. 70-39]

FINANCIAL RESPONSIBILITY FOR OIL POLLUTION CLEANUP

Notice of Proposed Rule Making

On September 30, 1970, the Federal Maritime Commission published in the FEDERAL REGISTER (35 F.R. 15216) regulations to implement the financial responsibility provisions of section 11(p)(1) of the Water Quality Improvement Act of 1970 (84 Stat. 97). These regulations (Commission General Order 27) set forth the procedures whereby the owner or operator of every vessel over 300 gross tons, including any barge of equivalent size, using any port or place in the United States or the navigable waters of the United States must evidence financial responsibility to meet the liability to the United States to which such vessel could be subjected for the discharge of oil into or upon the waters of the United States. The rules also include the qualifications required by the Commission for issuance of Certificates evidencing financial responsibility, and the basis for the denial, revocation, modification or suspension of such Certificates.

Section 483(a) of title 31, United States Code, as implemented by the Bureau of the Budget Circular No. A-25, dated September 23, 1959, provides that fees and charges shall be charged for services rendered the public by Federal agencies in order that such services may be performed on a self-sustaining basis to the fullest extent possible. Since the Commission anticipates the receipt of many thousands of applications under section 11(p)(1) of the Water Quality Improvement Act of 1970 and its General Order 27, the Commission is contemplating the assessment of application fees to offset in some part the cost to the Government for processing the applications.

Therefore, pursuant to section 4 of the Administrative Procedure Act (5 U.S.C. 552) and in accordance with the Act of August 31, 1951 (31 U.S.C. 483(a)), as implemented by Bureau of the Budget Circular No. A-25, dated September 23, 1959, notice is hereby given that the Federal Maritime Commission is considering the addition of a new § 542.9 to General Order 27 (46 CFR Part 542). The purpose of this amendment is to provide for the assessment of application and certification fees. Accordingly, the proposed new § 542.9 would read as follows:

§ 542.9 Fees.

(a) This section establishes fees and charges which shall be imposed by the

Federal Maritime Commission for processing the application and issuance of Certificates of Financial Responsilibity (Oil Pollution).

(b) On or after the effective date of this section, every application filed pursuant to this part must be accompanied by application and certification fees calculated in accordance with the schedule contained in paragraph (d) of this section. Fees for applications filed prior to the effective date of this section shall be paid before the requisite Certificates are issued.

(c) Fees are payable in terms of U.S. dollars and may be paid by check, draft, or postal money order made payable to the Federal Maritime Commission. Cash will not be accepted.

(d) Every application for a Certificate of Financial Responsibility (Oil Pollution) shall be accompanied by a basic application fee of $100 which shall not be refundable. In addition, a certification fee for each vessel listed on the application shall be payable with the submission of the application in accordance with the following gross tonnage schedule:

For each vessel over—	
300 to 1,500 gross tons	$5.00
1,500 to 5,000 gross tons	10.00
5,000 to 10,000 gross tons	15.00
over 10,000 gross tons	20.00

(e) In any case necessitating the issuance of a new Certificate, such as, but not limited to, the addition of a vessel, change in name, or replacement of a lost Certificate, the individual vessel fee, based on the particular vessel's gross tonnage, shall apply.

GROUNDFISH FISHERIES

Notice of Proposed Rule Making

At its 20th Annual Meeting held in St. Johns, Newfoundland, June 1–6, 1970, the International Commission for the Northwest Atlantic Fisheries recommended that member governments take appropriate action to regulate the catch of yellowtail flounder by persons under their jurisdiction fishing in Subarea 5 and that trawl regulations applicable to cod and haddock be extended to yellowtail flounder.

It is proposed in § 240.1 to include yellowtail flounder as a regulated species in Subarea 5. This proposed addition of a new regulated species is reflected in §§ 240.2 and 240.5 through 240.10.

It is proposed in § 240.2 to change "registration certificate" or "certificate" to "license" in this section heading and other places so that consistent language will be used throughout this part. This is an editorial change only and does not effect the requirement. This word change is also proposed in §§ 240.3, 240.4, and 240.5.

In § 240.5 it is proposed to add yellowtail flounder to the regulated species whose take is limited under a 12-month exemption in Subarea 5.

Section 240.6 provides for an annual total catch quota of yellowtail flounder taken by contracting governments conducting fishing operations in Subarea 5.

Section 240.7 sets forth the proposed fishing season for yellowtail flounder by date and time.

In § 240.8 proposed closed seasons and closed areas are defined. The closed seasons are based on catch limits set on the total accumulative catch (landings plus discards) of yellowtail flounder taken from Subarea 5.

It is proposed in § 240.9 that certain restrictions shall apply during the period when the yellowtail flounder season is closed after the quota has been met.

In § 240.10 it is proposed that requirements in this section shall apply to all firms or corporations purchasing yellowtail flounder and to the master or operator of any fishing vessel holding a license under the regulations of this part.

It is further proposed that wording of the regulations be changed where applicable to reflect the transfer of the Bureau of Commercial Fisheries from the U.S. Department of the Interior to the National Oceanic and Atmospheric Administration in the Department of Commerce with a new name of National Marine Fisheries Service.

The proposed amendments are to be issued under the authority contained in subsection (a) of section 7 of the Northwest Atlantic Fisheries Act of 1950 (64 Stat. 1069; U.S.C. 986) as modified by Reorganization Plan No. 4, effective October 3, 1970 (35 F.R. 15627).

Prior to the final adoption of the proposed amendments, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing to the Director, National Marine Fisheries Service, Washington, D.C. 20240 within the period of 60 days from the date of publication of this notice in the FEDERAL REGISTER.

Issued at Washington, D.C., and dated October 16, 1970.

WILLIAM M. TERRY,
Acting Director, National Marine Fisheries Service.

The proposed amendments are described below:

1. Add a new subdivision (iii) in § 240.1(c)(5) and amend paragraphs (l), (m), and (n), to read as follows:

§ 240.1 Meaning of terms.

* * * * *

2. Amend § 240.2 to read as follows:

§ 240.2 License.

(a) All commercial fishing vessels of any tonnage which shall fish for, catch and offer for sale haddock or yellowtail flounder taken in any manner must be licensed annually by the Department of Commerce, National Marine Fisheries Service.

(1) The owner or operator of a fishing vessel may obtain without charge a license by furnishing, on a form to be supplied by the National Marine Fisheries Service information specifying the names and addresses of the owner and operator of the vessel, the name, official number and home port of the vessel, and the period for which the license is desired. The form shall be submitted in duplicate to the Regional Director, National Marine Fisheries Service, Gloucester, Mass., who shall grant the license for the duration specified by the applicant in the form but in no event to extend beyond the end of the calendar year during which the license is issued. New licenses shall similarly be issued to replace expired, lost or mutilated licenses. An application for replacement of an expiring license shall be made in like manner as the original application not later than 10 days prior to the expiration date of the expiring license.

(2) The license issued by the National Marine Fisheries Service shall be carried at all times on board the vessel for which it is issued and such license, the vessel, its gear and equipment shall at all times be subject to inspection for the purposes of this part by officers authorized to enforce the provisions of this part.

§ 240.4 [Amended]

4. In the heading of § 240.4 and in paragraphs (a) and (b) of said section change the words "registration certificate(s)" wherever they appear to read "license(s)" and in paragraph (b) change the words "Bureau of Commercial Fisheries" to read "National Marine Fisheries Service."

5. Amend § 240.5 including the introductory paragraph; paragraphs (a), (c), and (d); subparagraph (1) and its subdivisions (i) and (ii) of paragraph (d); subparagraphs (5), (6), and (7) of paragraph (d) to read as follows:

§ 240.5 Certain persons and vessels exempted.

Nothing contained in §§ 240.2(b) to 240.4 shall apply to the following, except that during any closed period under § 240.8(a), the exemptions provided for haddock and yellowtail flounder under paragraphs (c) and (d) of this section shall automatically be suspended:

(a) Any person or vessel authorized by the Secretary of Commerce to engage in fishing for scientific purposes for those species listed in § 240.1(c).

* * * * *

(c) Any person who in the course of fishing in Subareas 3, 4, or 5 and taking fish other than the regulated species who does not take and possess a quantity in excess of 5,000 pounds or 10 percent by weight, whichever is the greater amount, for each of cod, haddock, yellowtail

flounder, and of the other regulated species in aggregate, of all fish aboard the vessel taken in each subarea. The exemption provided in this paragraph shall apply separately in Subareas 3, 4, and 5.

(d) Any person who, while engaged in fishing within Subareas 3, 4, or 5 of the regulatory area, does not take in any period of 12 months the regulated species in quantities in excess of 10 percent by weight for each of cod, haddock, yellowtail flounder, and the aggregate of the other listed species in § 240.1(c), of all the trawl-caught fish taken in each subarea. Any such person desiring to avail himself of the exemption provided in this paragraph shall obtain a 12-month exemption license and shall comply with the following conditions:

(1) The owner or operator of a fishing vessel proposed to be operated under the exemption authorized in this paragraph may obtain without charge a license for a 12-month exemption by furnishing on a form to be supplied by the National Marine Fisheries Service information specifying the name and address of the owner and operator of the vessel and the name, official number, and the home port of the vessel. The application form shall be submitted, in duplicate, to the Regional Director. The license shall authorize the taking of the regulated species within the regulatory area without regard to restrictions on fishing gear imposed, respectively, by §§ 240.2 and 240.3 provided:

(i) The vessel and its fishing gear are not used to take the regulated species within subareas 3, 4, or 5 in quantities in excess of 10 percent by weight for each of cod, haddock, yellowtail flounder, and the aggregate of the other regulated species, of all the trawl-caught fish taken by means of such vessel during the period covered by the 12-month exemption.

(ii) The 10 percent exemption for each of cod, haddock, yellowtail flounder, and the aggregate of the other regulated species shall be computed separately for each subarea by the weight of all fish caught within the same subarea.

* * * * *

(5) The license issued by the National Marine Fisheries Service shall be carried at all times on board the vessel for which it is issued.

(6) The owner or operator of a fishing vessel for which a license is in force shall furnish on a form supplied by the National Marine Fisheries Service, immediately following the delivery or sale of a catch of fish made by means of such vessel, a report, certified to be correct by the owner or operator, listing separately by species and weight the total quantities of all fish sold or delivered. Failure to submit a certified report pertaining to the catches of fish as required by this subparagraph shall be cause for the Regional Director to revoke the license issued under this paragraph by the Regional Director issued to the owner or operator of the fishing vessel.

(7) The owner or operator of a fishing vessel for which a 12-month exemption license is in force, who proposes to use such vessel in fishing primarily for the regulated species during any period of time within the period covered by the exemption may obtain a temporary suspension of such exemption in like manner as provided in § 240.4 and may make application to engage in fishing for the regulated species pursuant to a license issued under § 240.2. Any of the regulated species taken by means of a vessel for which a license is in force and by means of fishing for the regulated species conducted in conformity with the restrictions on fishing gear prescribed by § 240.3, shall be excluded from the total of all trawl-caught fish taken during such periods. For the purposes of computing the quantities of the regulated species so to be excluded, the owner or operator of a fishing vessel covered by a suspended 12-month exemption and taking the regulated species while operating under a license shall submit catch reports in like manner as provided in subparagraph (6) of this paragraph.

6. Amend § 240.6 by changing the introductory paragraph to paragraph (a) and paragraphs (a) and (b) to subparagraphs (1) and (2), and by adding a new paragraph (b) and subparagraphs (1) and (2) to read as follows:

§ 240.6 Catch limit.

* * * * *

(b) An annual limitation is placed on the quantity of yellowtail flounder permitted to be taken from Subarea 5 by fishing vessels of all contracting governments participating in the fishery in 1971.

(1) The annual catch (landings plus discards) of yellowtail flounder in Subarea 5 from the area east of 69°00′ west longitude shall not exceed 16,000 metric tons.

(2) The annual catch (landings plus discards) of yellowtail flounder in Subarea 5 from the area west of 69°00′ west longitude shall not exceed 13,000 metric tons.

7. Amend § 240.7 to read as follows:

§ 240.7 Open season.

(a) The open season for haddock fishing in Division 4X of Subarea 4, and Subarea 5 shall begin annually at 0001 hours of the 1st day of January and terminate at a time and date to be determined and announced as provided in § 240.8: *Provided*, That the areas described in § 240.8 shall be closed to the use of gear capable of catching demersal species, including any otter trawl gear or similar devices, hook and line, or gill net, from 0001 hours, March 1, to 2400 hours, April 30, during the years 1971 and 1972.

(b) The open season for yellowtail flounder fishing in Subarea 5 shall begin at 0001 hours of the 1st day of January and terminate at a time and date to be determined and announced as provided in § 240.8(a)(3).

8. Amend paragraph (a) of § 240.8 as follows:

(1) He shall notify each contracting government of the date on which accumulative landings of haddock in Division 4X of Subarea 4 and Subarea 5 equal 80 percent of the catch limits described in § 240.6(a) (1) and (2).

(2) He shall notify each contracting government when the accumulative catch (landings, plus discards) of yellowtail flounder in Subarea 5 in either the area east of 69°00′ west longitude or west of 69°00′ west longitude equal 80 percent of the catch limits for each such area, described in § 240.6(b) (1) and (2).

(3) The Director of the National Marine Fisheries Service shall announce the season closure dates so that they fall within 10 days of the receipt of such notification from the Executive Secretary. Such announcement of the season closure dates shall be made by publication in the FEDERAL REGISTER. The closure date so announced shall be final except that if the Executive Secretary determines that the original notification has been affected by changed circumstances, he may substitute a further notification and the Service Director may in like manner announce a new season closure date.

* * * * *

9. Amend § 240.9 by adding new paragraphs (f), (g), (h), (i), and (j) as follows:

§ 240.9 Restrictions applicable to fishing vessels.

(g) Any master or other person in charge of a fishing vessel which has departed port to engage in the yellowtail flounder fishery prior to the date of closure of yellowtail flounder fishing season in the area east of 69°00′ west longitude of Subarea 5 may continue to take and retain yellowtail flounder in the area east of 69°00′ west longitude of Subarea 5 without restriction as to quantity, but in no case may the trip extend more than 10 days after the closure date.

(h) Any master or other person in charge of a fishing vessel which has departed port to engage in the yellowtail flounder fishery prior to the date of closure of yellowtail fishing season in the area west of 69°00′ west longitude of Subarea 5 may continue to take and retain yellowtail flounder in the area west

of 69°00′ west longitude of Subarea 5 without restrictions as to quantity, but in no case may the trip extend more than 10 days after the closure date.

(i) Any master or other person in charge of a fishing vessel which has departed port after the date of closure of the yellowtail flounder season in the area east of 69°00′ west longitude or the area west of 69°00′ west longitude of Subarea 5 may possess on board such vessel and land in any port or place yellowtail flounder taken as incidental to fishing for other species, but in no event shall the yellowtail flounder permitted to be possessed or landed by such vessel exceed 5,000 pounds or 10 percent by weight of all other fish on board caught in the closed area.

(j) The limitation on the quantity of incidentally caught yellowtail flounder specified in paragraph (i) of this section shall be applied to any fishing vessel irrespective of its arrival in port prior or subsequent to December 31 in every case where the catch of yellowtail flounder has been made during a fishing voyage begun in the closed season.

The Forest Service, U.S. Department of Agriculture, has filed application New Mexico 12480 for the withdrawal of the lands described below, from location and entry under the general mining laws only. The applicant desires the lands for use in connection with the Taos Ski Valley Winter Sports Site and the Red River Winter Sports Site, which sites are located within the Carson National Forest.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objection in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Land Office Manager, Post Office Box 1449, Santa Fe, N. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate land needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

ATOMIC ENERGY COMMISSION

[Dockets Nos. 50-338, 50-339]

VIRGINIA ELECTRIC AND POWER CO.

Notice of Hearing on Application for Construction Permits

In the matter of Virginia Electric and Power Co. (North Anna Power Station, Units 1 and 2).

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities," and Part 2, "Rules of Practice," notice is hereby given that a hearing will be held at 10 a.m. local time, on November 23, 1970, in The Courtroom, Circuit Court of the City of Fredericksburg, Princess Anne Street, Fredericksburg, Va. 22401, to consider the application filed under section 104b. of the Act by the Virginia Electric and Power Co. (the applicant), for construction permits for two pressurized water nuclear reactors, each designed to operate initially at 2,652 megawatts (thermal), to be located at the applicant's site adjacent to the North Anna River near Mineral, Louisa County, Va.

The hearing will be conducted by the Atomic Safety and Licensing Board designated by the Atomic Energy Commission, consisting of Dr. Eugene Greuling, Durham, N.C.; Dr. Hugh C. Paxton, Los Alamos, N. Mex.; and J. D. Bond, Esq., Derwood, Md., Chairman. Mr. R. B. Briggs, Oak Ridge, Tenn., has been designated as a technically qualified alternate, and Walter T. Skallerup, Esq., Washington, D.C., has been designated as an alternate qualified in the conduct of administrative proceedings.

A prehearing conference will be held by the board in Room 2008 Federal Office Building No. 7, 726 Jackson Place (Entrance from 17th Street also possible), NW., Washington, D.C., on November 4, 1970, at 10 a.m. local time, to consider the matters provided for consideration by 10 CFR 2.752 and section II of Appendix A to 10 CFR Part 2.

The Director of Regulation proposes to make affirmative findings on Item Nos. 1–3 and a negative finding on Item 4 specified below as the basis for the issuance of construction permits to the applicant.

1. Whether in accordance with the provisions of 10 CFR 50.35(a):

(a) The applicant has described the proposed design of the facilities including, but not limited to, the principal architectural and engineering criteria for the design, and has identified the major features or components incorporated therein for the protection of the health and safety of the public;

(b) Such further technical or design information as may be required to complete the safety analysis and which can reasonably be left for later consideration, will be supplied in the final safety analysis report;

(c) Safety features or components, if any, which require research and development have been described by the applicant and the applicant has identified, and there will be conducted, a research and development program reasonably designed to resolve any safety questions associated with such features or components; and

(d) On the basis of the foregoing, there is reasonable assurance that (i) such safety questions will be satisfactorily resolved at or before the latest dates stated in the application for completion of construction of the proposed facilities, and (ii) taking into consideration the site criteria contained in 10 CFR Part 100, the proposed facilities can be constructed and operated at the proposed location without undue risk to the health and safety of the public.

2. Whether the applicant is technically qualified to design and construct the proposed facilities;

3. Whether the applicant is financially qualified to design and construct the proposed facilities; and

4. Whether the issuance of permits for the construction of the facilities will be inimical to the common defense and security or to the health and safety of the public.

In the event that this proceeding is not a contested proceeding, as defined by 10 CFR 2.4 of the Commission's rules of practice, the board will, without conducting a de novo evaluation of the application, consider the issues of whether the application and the record of the proceeding contain sufficient information, and the review by the Commission's regulatory staff has been adequate, to support the findings proposed to be made and the construction permits proposed to be issued by the Director of Regulation.

In the event that this proceeding becomes a contested proceeding, the board will consider and initially decide, as the issues in this proceeding, Item Nos. 1 through 4 above as the basis for determining whether a construction permit should be issued to the applicant.

As they become available, the application, the proposed construction permits, the applicant's summary of the application, the report of the Commission's Advisory Committee on Reactor Safeguards (ACRS) and the Safety Evaluation by the Commission's regulatory staff will be placed in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., where they will be available for inspection by members of the public. Copies of this notice of hearing, the proposed construction permits, the ACRS report, the applicant's summary of the application and the regulatory staff's Safety Evaluation will also be available at the office of the Clerk of Court, Orange County Court House, Orange, Va., for inspection by members of the public each weekday during regular business hours. Copies of the proposed construction permits, the ACRS report and the regulatory staff's Safety Evaluation may be obtained by request to the Director of the Division of Reactor Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Any person who wishes to make an oral or written statement in this proceeding setting forth his position on the issues specified, but who does not wish to file a petition for leave to intervene, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's rules of practice. Limited appearances will be permitted at the time of the hearing in the discretion of the board, within such limits and on such conditions as may be fixed by the board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, by October 30, 1970.

Any person whose interest may be affected by the proceeding who does not wish to make a limited appearance and who wishes to participate as a party in the proceeding must file a petition for leave to intervene.

Petitions for leave to intervene, pursuant to the provisions of 10 CFR 2.714 of the Commission's rules of practice, must be received in the Office of the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, or the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., not later than October 30, 1970, or in the event of a postponement of the prehearing conference, at such time as the board may specify. The petition shall set forth the interest of the petitioner in the proceedings, how that interest may be affected by Commission action, and the contentions of the petitioner in reasonably specific detail. A petition which sets forth contentions relating only to matters outside the Commission's jurisdiction will be denied. A petition for leave to intervene which is not timely will be denied unless the petitioner shows good cause for failure to file it on time.

A person permitted to intervene becomes a party to the proceeding, and has all the rights of the applicant and the regulatory staff to participate fully in the conduct of the hearing. For example, he may examine and cross-examine witnesses. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified in the issues set out above. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705 of the Commission's rules of practice, must be filed by the applicant on or before October 30, 1970.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Pending further order of the board, parties are required to file, pursuant to the provisions of 10 CFR 2.708 of the Commission's rules of practice, an original and 20 copies of each such paper with the Commission.

With respect to this proceeding, the Commission has delegated to the Atomic Safety and Licensing Appeal Board the authority and the review function which would otherwise be exercised and performed by the Commission. The Commission has established the Appeal Board pursuant to 10 CFR 2.785 of the Commission's rules of practice, and has made the delegation pursuant to paragraph (a)(1) of this section. The Appeal Board is composed of the Chairman and Vice-Chairman of the Atomic Safety and Licensing Board Panel and a third member who is technically qualified and designated by the Commission. The Commission has designated Dr. Lawrence Quarles, Dean of the School of Engineering and Applied Science, The University of Virginia, as this third member.

Dated at Washington, D.C., this 14th day of October 1970.

Notice of Inquiry Regarding Formulation of Appropriate Regulatory Policies

1. The Commission herewith gives notice to interested persons that comments may be submitted on appropriate further regulatory policies to be adopted with respect to two issues: (1) The possible fairness doctrine obligations, if any, in the situation where a broadcast licensee, which does not present cigarette commercials, broadcasts announcements to the general effect that cigarette smoking is hazardous to health and persons should therefore not commence or continue smoking (see complaint of Mr. Michael Handley, dated Aug. 25, 1970) and (2) the public interest obligations of the broadcast licensee after January 1, 1971, when all cigarette advertising on broadcast media will cease (see petition for rulemaking filed Oct. 13, 1970, by Action on Smoking and Health (ASH)).

2. Since the first matter involves a complaint requesting speedy Commission action to supply guidance during the period up to January 1, 1971, we have specified a 15-day period for the filing of comments. The second matter is interrelated, and in any event should also be promptly resolved. Comments should therefore be submitted on or before October 30, 1970.
