Title 3—The President

PROCLAMATION 4044

National Farm Safety Week, 1971

By the President of the United States of America

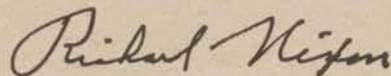

A Proclamation

Primitive man's first discoveries about cultivating the land came by chance, and for thousands of years thereafter agriculture progressed only slowly out of the realm of guesswork. Even in the early days of this Nation, when we were a people of farmers and planters, the process of coaxing life out of the earth remained far more an art than a science. But today American agriculture has become a fully realized technology largely subject to human planning and control—a bountiful producer of food, clothing, and the makings of the good life for America and the world.

Thus there is sharp irony in the fact that this great industry, so accomplished in the scientific nurture of plant and animal life, remains among the industries in which *human* life is most precarious and accident rates are highest. The farm and ranch environment abounds in potential hazards—powerful machinery, exposed working conditions, physically demanding jobs—but experience has shown that caution, common sense, and protective equipment can do much to counter them and keep accidents and injuries to a minimum. All who live and work on America's farms and ranches owe it to themselves, their families, and the nation that depends on them, to put safety first. Let us set the goal of eliminating chance from rural life just as we have learned to exclude it from agricultural production.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week of July 25, 1971, as National Farm Safety Week. I urge farm families and all in the rural community to make every effort to reduce accidents occurring at work, home, in recreation and on the highway.

IN WITNESS WHEREOF, I have hereunto set my hand this seventh day of April, in the year of our Lord nineteen hundred seventy-one, and of the Independence of the United States of America the one hundred ninety-fifth.

PROCLAMATION 4045

Small Business Week, 1971

By the President of the United States of America

A Proclamation

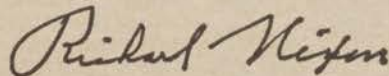

The American tradition of independent enterprise is as old as our society itself. The freemen who tended little stores, ran coastwise shipping, traded in furs, or made candles helped this tradition put down deep roots early in our history. "What most astonishes me," wrote de Tocqueville as he took the measure of our young nation in the 1830s, "is not so much the marvelous grandeur of some undertakings as the innumerable multitude of small ones." From such beginnings, small business has grown into one of the principal economic forces in this, the world's greatest industrial nation.

Today—its name aside—small business is *big*. Nineteen United States firms in twenty are small businesses. They do nearly three-fourths of the total volume of sales and one-third of all manufacturing. For the industry and resourcefulness which millions of Americans invest in them as owners and employees, they return not only profits but also the rich rewards of self-reliance. They contribute to the wide diversity of our society and our economy, and they offer members of disadvantaged minority groups an open door into full participation in the Nation's prosperity—a door through which black Americans, Spanish-speaking Americans, Indians, and other minority enterprisers are now passing in increasing numbers.

But if small business is to realize its full potential in the years ahead, it needs and deserves wholehearted support from citizens and the business community as a whole, as well as the strong encouragement it already receives from government.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week beginning May 16, 1971, as Small Business Week. I ask all Americans and their business organizations to join with me during this week in paying tribute to the accomplishments of small business and in helping small business toward continued strength and success.

IN WITNESS WHEREOF, I have hereunto set my hand this eighth day of April, in the year of our Lord nineteen hundred seventy-one, and of the Independence of the United States of America the one hundred ninety-fifth.

Title 7—AGRICULTURE

Subtitle A—Office of the Secretary of Agriculture

[Amdt. 1]

PART 7—SELECTION AND FUNCTIONS OF AGRICULTURAL STABILIZATION AND CONSERVATION COUNTY AND COMMUNITY COMMITTEES

Purpose and Responsibilities

Part 7 (published in the FEDERAL REGISTER in 35 F.R. 10831) is amended as follows:

1. Section 7.3 is amended to read as follows:

§ 7.3 Purpose.

The purpose of the county committee shall be to direct the administration of sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act of 1936, the Agricultural Adjustment Act of 1938, the Sugar Act of 1948, the Soil Bank Act, and any amendments to such acts, such other acts of Congress as the Secretary of Agriculture or the Congress may designate, and to perform such other functions as may be designated by the Secretary. This shall be done through community committees and committeemen and other personnel responsible to the county committee, and in accordance with applicable laws, regulations, and official instructions. The county and community committees shall not engage in any other activity.

2. Section 7.20 is amended by revising the first sentence thereof to read as follows:

§ 7.20 County committee.

The county committee, subject to the general direction and supervision of the State committee, and acting through community committeemen and other personnel, shall be generally responsible for carrying out in the county the agricultural conservation program, the price support programs as assigned, the acreage allotment and marketing quota programs, the wool incentive payment program, the programs under the Soil Bank Act, and the sugar program, formulated pursuant to the acts of Congress specified in § 7.3, and any other program or functions assigned to it by the Secretary of Agriculture. * * *

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 475]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.775 Lemon Regulation 475.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any

special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 6, 1971.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period April 11, 1971, through April 17, 1971, are hereby fixed as follows:

- (i) District 1: 2,000 Cartons;
- (ii) District 2: 223,000 Cartons;
- (iii) District 3: Unlimited.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: April 8, 1971.

PAUL A. NICHOLSON,
Deputy Director, Fruit and
Vegetable Division, Consumer
and Marketing Service.

[Lime Reg. 28, Amdt. 3]

PART 911—LIMES GROWN IN FLORIDA

Quality and Size Regulation

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Florida Lime Administrative Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become

effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of limes grown in Florida.

Order. In § 911.330 (Lime Regulation 28; 35 F.R. 6699, 10662, 14537) the introductory text of paragraph (b) and subparagraph (2) thereof are amended to read as follows:

§ 911.330 Lime Regulation 28.

(b) During the period April 12, 1971, through April 30, 1971, no handler shall handle:

(2) Any limes of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which do not grade at least U.S. Combination, Turning: *Provided*, That stem length shall not be considered a factor of grade, and tolerances for fruit affected by decay and for fruit failing to meet the requirements set forth in the U.S. Standards for Persian (Tahiti) Limes shall apply; or

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated, April 7, 1971, to become effective April 12, 1971.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

PART 991—HOPS OF DOMESTIC PRODUCTION

Salable Quantity and Allotment Percentage for 1971-72 Marketing Year

Notice was published in the March 3, 1971, issue of the FEDERAL REGISTER (36 F.R. 4060) regarding a proposal to establish a salable quantity and allotment percentage applicable to hops produced in Washington, Oregon, Idaho, and California for the 1971-72 marketing year beginning August 1, 1971. The allotment percentage and salable quantity herein established are based on the unanimous recommendation of the Hop Administrative Committee and other available information in accordance with the applicable provisions of Marketing Order No. 991, as amended (7 CFR Part 991), regulating the handling of hops of domestic production, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The notice afforded interested persons opportunity to submit written data, views, or arguments with respect to the proposal. None were submitted.

After consideration of all relevant matter presented, including that in the notice, the information and recommendation submitted by the committee, the applicable provisions of the marketing order, and other available information, it

is found that to establish a salable quantity and allotment percentage as hereinafter set forth will tend to effectuate the declared policy of the act.

Therefore, the salable quantity and allotment percentage to be applicable to the 1971-72 marketing year (August 1, 1971-July 31, 1972) are established as follows:

§ 991.209 Allotment percentage and salable quantity for hops during the marketing year beginning August 1, 1971.

The allotment percentage during the marketing year beginning August 1, 1971, shall be 82 percent, and the salable quantity shall be the amount resulting from multiplying the total of all producer allotment bases by the allotment percentage.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated April 7, 1971, to become effective May 15, 1971.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Title 12—BANKS AND BANKING

Chapter I—Bureau of the Comptroller of the Currency, Department of the Treasury

PART 5—SUPPLEMENTAL APPLICATION PROCEDURES FOR CHARTERS, BRANCHES, MERGERS AND RELOCATIONS

Part 5 is issued pursuant to the authority contained in the national banking laws (12 U.S.C. 1 et seq.) and in particular 12 U.S.C. 27, 30, 36, and 1828(c) and will become effective 30 days after publication. It provides a method by which all persons interested in applications for new bank charters, branch licenses, bank mergers and relocations of banks may present their views. Notice of proposed rule making was published in the FEDERAL REGISTER on February 18, 1971 (36 F.R. 3123). Comments received in response to that publication have been taken into account.

Chapter I, Title 12 of the Code of Federal Regulations of the United States of America is amended by adding a new Part 5 to read as follows:

- Sec.
- 5.1 Scope of part.
 - 5.2 Notice of filing of application.
 - 5.3 Public file.
 - 5.4 Written comments and requests for an opportunity to be heard.
 - 5.5 Place of hearing.
 - 5.6 Date of hearing.
 - 5.7 Notice of hearing.
 - 5.8 Attendance at hearing.
 - 5.9 Presiding officer.
 - 5.10 Hearing rules.
 - 5.11 Closing of the public file.
 - 5.12 Retained authority.
 - 5.13 Comptroller's decision.
 - 5.14 Computation of time.

AUTHORITY: The provisions of this Part 5 issued under 12 U.S.C. 1 et seq., and in particular 12 U.S.C. 27, 30, 36, and 1828(c).

§ 5.1 Scope of part.

This part contains procedures by which the Comptroller of the Currency may reach informed decisions with respect to applications to charter national banks, to establish branches of national banks, to merge or consolidate with or purchase the assets of another bank where the resulting bank is a national bank, or to relocate offices of national banks, and in such cases as the Comptroller in his sole discretion shall deem proper. These procedures provide a method by which all persons interested in the subject matter of such applications may present their views. Nothing contained herein shall be construed to prevent interested persons from presenting their views in a more informal manner when deemed appropriate by the Comptroller, his deputy, or by the Regional Administrator of National Banks, or to prevent the Comptroller or the Regional Administrator from conducting such other investigation as may be deemed appropriate.

§ 5.2 Notice of filing of application.

(a) Applications described in § 5.1 of this Part shall be filed as provided in 12 CFR Part 4.

(b) By publication. Except in the case of proposed transactions where notice by publication is governed by statute, the applicant shall, within 15 days after the Regional Administrator of National Banks shall have notified the applicant in writing that an application has been accepted for filing, publish one time in a newspaper of general circulation in the community in which the applicant's head office is located and in a newspaper of general circulation in the community in which the applicant proposes to engage in business a notice containing the name of the applicant or applicants, the subject matter of the application, and the date upon which the application was filed. Immediately thereafter, the applicant shall furnish the Regional Administrator with a tear sheet or clipping evidencing such publication.

(c) By the Regional Administrator. The Regional Administrator shall give timely notice to the State official who supervises State commercial banks in the State in which the applicant is or will be located, and to any other person requesting in writing notice of the date on which an application was filed. The Regional Administrator shall solicit, in whatever manner he deems appropriate, comments from each bank which the Regional Administrator believes in his sole discretion might be affected by or have an interest in the pending application.

§ 5.3 Public file.

(a) *Contents.* The public file in each case shall consist of the application with supporting data and supplementary information, with the exception of material deemed by the Regional Administrator to be confidential, such as trade secrets normally not available through commercial publication. In addition, the

public file shall contain all data and information submitted by interested persons in favor of or in opposition to such application, excluding any material deemed by the Regional Administrator to be confidential. The Regional Administrator or his designee shall not deem information confidential for purposes of the two immediately preceding sentences unless the person submitting the information requests that such information be deemed confidential. All factual information contained in any field investigation report made by a national bank examiner shall also be made part of the public file, unless deemed confidential by the Regional Administrator.

(b) *Availability to protesting and other interested persons.* The public file shall be available for inspection in the Office of the Regional Administrator upon written request from a protesting person and to such other persons as the Regional Administrator shall deem in his discretion to have a direct interest therein during such periods of time as the Regional Administrator shall prescribe. No documents in the public file may be removed from the Regional Administrator's office by persons other than members of the Comptroller's staff. Photocopies may be made available, on request, to protesting and other interested parties. The charge for such copies shall be made in accordance with a written schedule maintained by the Regional Administrator.

§ 5.4 **Written comments and requests for an opportunity to be heard.**

Within 10 days after the notice by publication described in § 5.2(b) any interested person may submit to the Regional Administrator written comments concerning the application and/or a written request for an opportunity to be heard before the Regional Administrator or his designee. This time may be extended by the Regional Administrator in his sole discretion if the applicant has failed to file all required supporting data in time to permit review by interested persons or for other extenuating circumstances. In the absence of a request, the Regional Administrator or the Comptroller of the Currency, when either believes it to be in the public interest, may order a hearing to be held.

§ 5.5 **Place of hearing.**

Persons submitting a request described in § 5.4 shall be given an opportunity to be heard in the city where the Office of the Regional Administrator is located. The Comptroller of the Currency, in any matter, reserves the right to conduct hearings at any location he deems to be appropriate.

§ 5.6 **Date of hearing.**

An opportunity to be heard shall be given as soon as practicable after requested or ordered.

§ 5.7 **Notice of hearing.**

(a) *Contents.* The Regional Administrator, when notifying interested persons of the scheduling of an opportunity to

be heard, shall set forth in the notice of the subject matter of the application and the date, time, and place at which the opportunity to be heard shall be afforded.

(b) *To whom sent.* The notice described in § 5.7(a) shall be sent to the person or persons requesting the hearing, the applicant, and to other interested persons who have sent written comments to the Regional Administrator.

§ 5.8 **Attendance at hearing.**

Each person who wishes to be heard shall notify the Regional Administrator within 5 days after the date of the notice described in § 5.7 of his intention to attend and shall submit the number and names of witnesses he wishes to present.

§ 5.9 **Presiding officer.**

When an opportunity to be heard is being afforded, the presiding officer shall be the Regional Administrator, his designee, or such other person as may be named by the Comptroller of the Currency. The presiding officer shall have the authority to appoint a panel to assist him.

§ 5.10 **Hearing rules.**

(a) *Order of presentation—(i) Opening statements.* The applicant and each other participant may make opening statements of a length within the discretion of the presiding officer. Such opening statements should concisely state what the participant intends to show. The applicant shall have the opportunity to present his statement first.

(ii) *Applicant's presentation.* Following the opening statements, the applicant shall present his data and materials, oral or documentary.

(iii) *Protestant's presentation.* Following the applicant's presentation, the persons protesting the application shall present their data and materials, oral or documentary. The protestants may agree, with the approval of the presiding officer, to have one of their number make their presentation.

(iv) *Other interested persons.* Following the evidence of the applicant and the protestant, the presiding officer in his discretion may recognize other interested persons who may present their views with respect to the application under consideration.

(v) *Summary statements.* After all the above presentations have been concluded, the participants before the panel may make short and concise summary statements reviewing their position. The applicant shall present his concluding summary statement first.

(b) *Witnesses.* The obtaining and use of witnesses is the responsibility of the parties. All witnesses will be present on their own volition, but any person appearing as a witness may be subject to questioning by any participant, by the presiding officer, or by any member of the panel. The refusal of a witness to answer questions may be considered by the Comptroller in determining the weight to be accorded the testimony of that witness. Witnesses shall not be sworn.

(c) *Evidence.* The presiding officer shall have the authority to exclude data or materials which he deems to be improper or irrelevant. Formal rules of evidence shall not be applicable to these hearings. Documentary material must be of a size consistent with ease of handling, transportation, and filing, and copies must be provided for each participant. While large exhibits may be used during the hearing, copies of such exhibits must be provided by the party in reduced size for submission as evidence. Two copies of all such documentary evidence shall be furnished to the Regional Administrator, and one copy shall be furnished to each other person represented at the proceeding.

(d) *Procedural questions.* The Regional Administrator, presiding officer, or any designated member of the assisting panel shall determine all procedural questions not governed by this Part. The Regional Administrator and the presiding officer shall each have the authority to limit the number of witnesses to be used by any party, and to impose such time limitations as he shall deem reasonable.

(e) *Transcript.* A transcript of each proceeding shall be arranged for by the Comptroller's office, with all expenses of such service, including the furnishing of two copies of the transcript to the Regional Administrator, being borne by the person or persons requesting the opportunity to be heard, except for hearings ordered by the Comptroller's office, where the applicant will bear the expense of furnishing transcripts of the record.

(f) *The record.* The public file described in § 5.3 shall automatically be deemed a part of the record of these proceedings as well as all evidence submitted pursuant to § 5.10(c) and the transcript described in § 5.10(e).

§ 5.11 **Closing of the public file.**

If requested by any participant, the public file shall remain open for 5 days following receipt of the transcript by the Regional Administrator during which time the applicant and protestants may submit additional written statements. A copy of any statement so submitted during this period of time shall also be sent simultaneously to the other persons represented at the hearing.

§ 5.12 **Retained authority.**

The Comptroller may adopt such different procedures as he deems necessary and reasonable in acting upon any particular application.

§ 5.13 **Comptroller's decision.**

The applicant and all persons so requesting in writing shall be notified of the final disposition of the application by the Comptroller of the Currency.

§ 5.14 **Computation of time.**

In computing any period of days provided for in this part, the day of the act from which the period begins to run shall not be included. The last day of the period so computed shall be included, unless it is a Saturday, a Sunday, or a

legal holiday, in which event the period runs until the end of the next day which is not a Saturday, a Sunday, or a legal holiday. As used in this section, "legal holiday" means a day on which the office of the appropriate Regional Administrator remains closed.

Dated: April 6, 1971.

Chapter V—Federal Home Loan Bank Board

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

[No. 71-330]

PART 523—MEMBERS OF BANKS

Liquidity Requirements

APRIL 6, 1971.

Resolved that the Federal Home Loan Bank Board considers it desirable to amend § 523.11 of the Regulations for the Federal Home Loan Bank System (12 CFR 523.11) for the purpose of increasing the overall liquidity requirement of each Federal Home Loan Bank member from 6½ percent to 7½ percent of its liquidity base and the short term liquidity requirement from 2½ percent to 3 percent of such base. Accordingly, the Federal Home Loan Bank Board hereby amends said § 523.11 by revising paragraph (a) thereof, to read as follows, effective May 1, 1971:

§ 523.11 Liquidity requirements.

(a) *General.* For each calendar month, each member shall maintain an average daily balance of liquid assets in an amount not less than 7½ percent of the average daily balance of the member's liquidity base during the preceding calendar month, except as otherwise provided in paragraphs (b) and (d) of this section. For each calendar month beginning with January 1972, each member, other than a mutual savings bank or an insurance company, shall maintain an average daily balance of short term liquid assets in an amount not less than 3 percent of the average daily balance of the member's liquidity base during the preceding calendar month, except as otherwise provided in paragraphs (b) and (d) of this section.

(Sec. 5A, 47 Stat. 727, as added by sec. 1, 64 Stat. 256, as amended, sec. 17, 47 Stat. 736, as amended; 12 U.S.C. 1425a, 1437. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943-48 Comp., p. 1071)

Resolved further that, since affording notice and public procedure on the above amendment would delay it from becoming effective for a period of time and since the Board determines that in view of current economic conditions such amendment should become effective no later than May 1, 1971, the Board hereby finds that notice and public procedure thereon are contrary to the public interest under the provisions of 12 CFR 508.11

and 5 U.S.C. 553(b); and, for the same reason, the Board hereby finds that the provision regarding the publication of such amendment for the minimum 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date thereof shall not apply to the above amendment; and the Board hereby provides that such amendment shall become effective as hereinbefore set forth.

By the Federal Home Loan Bank Board.

Secretary.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 10979; Amdt. No. 751]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (358 F.R. 5610).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20590. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20590, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of \$125 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing Part 97 of the Federal Aviation Regulations

is amended as follows, effective on the dates specified:

1. Section 97.15 is amended by establishing, revising, or canceling the following VOR/DME SIAPs, effective May 6, 1971.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

Animal Feed Labeling; Collective Names for Feed Ingredients

In the FEDERAL REGISTER of July 30, 1970 (35 F.R. 12212), the Commissioner of Food and Drugs proposed that Part 1 be amended to permit the use of collective names for feed ingredients in

livestock feed labeling in lieu of each ingredient being specified by its common or usual name. The proposal was based on the fact that day-to-day variations in availability and cost of feed ingredients make it impractical to require the labeling of each formulation to bear the common or usual name of each such ingredient in accordance with section 403(i)(2) of the Federal Food, Drug, and Cosmetic Act.

In response to the proposal, 45 comments were received. Most of the 37 endorsing the proposal suggested changes which principally are as follows:

1. The collective names should conform to those adopted by the Association of American Feed Control Officials. This reasonable suggestion is adopted to achieve uniformity in labeling requirements.

2. The term "livestock" should be changed to "all animals other than man" or "livestock and poultry." For clarity the latter term is adopted. Since it is not intended that the collective terms apply to pet foods, the former suggested term is rejected.

3. The collective terms should apply to feeds that contain one or more of the ingredients from any category rather than two or more as proposed. This reasonable suggestion is consistent with the proposal's purpose and is adopted.

4. Certain additional feed constituents should be added to those in the proposal. The constituents in question have since been adopted by the Association of American Feed Control Officials and are therefore included in this order.

Right responses expressed reservations on the grounds that the proposed amendments would permit the use of labeling that might not be as informative as feed purchasers would desire. Currently, a statement of actual quantities of each feed constituent is not required. Accordingly, a complete evaluation of the nutritional value of mixed feeds is generally not possible, even with the names of each feed constituent.

Having considered the comments received and other relevant material, the Commissioner concludes that the proposed amendments, with changes, should be adopted as set forth below.

Therefore, pursuant to provisions of the act (secs. 403(i), 701(a), 52 Stat. 1048, 1055; 21 U.S.C. 343, 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 1 is amended by revising § 1.10(a) and by adding a new § 1.16, as follows:

§ 1.10 Food; labeling; designation of ingredients.

(a) The name of an ingredient (except a spice, flavoring, or coloring which is an ingredient of a food other than one sold as a spice, flavoring, or coloring) required by section 403(i)(2) of the act to be on the label of a food shall be a specific name and not a collective name; however, this provision does not apply if the food is a livestock or poultry feed within the meaning of section 201(x) of the act and meets the requirements for the use of collective names for certain feed in-

gredients as prescribed by § 1.16. If an ingredient (which itself contains two or more ingredients) conforms to a definition and standard of identity prescribed by regulations under section 401 of the act, such ingredient may be designated on the label of such food by the name specified in the definition and standard, supplemented, in case such regulations require the naming of optional ingredients present in such ingredient, by a statement showing the optional ingredients which are present in such ingredient.

§ 1.16 Animal feed labeling; collective names for feed ingredients.

(a) An animal feed shall be exempt from the requirements of section 403(i)(2) of the act with respect to its label bearing the common or usual names of the animal feed ingredients listed in paragraph (b) of this section under the following prescribed conditions:

(1) The animal feed is intended solely for livestock and poultry.

(2) The label of the animal feed bears the collective name(s) prescribed in paragraph (b) of this section in lieu of the corresponding common or usual names of the individual feed ingredients contained therein.

(3) The label of the animal feed otherwise conforms to the requirements of section 403(i)(2) of the act.

(4) The ingredients of any feed listed in paragraph (b) of this section neither contain nor are food additives as defined in section 201(s) of the act unless provided for by and in conformity with applicable regulations established pursuant to section 409 of the act.

(b) Each collective name referred to in this paragraph may be used for the purpose of labeling where one or more of the ingredients listed for that collective name are present. The animal feed ingredients listed under each of the collective names are the products defined by the Association of American Feed Control Officials. The collective names are as follows:

(1) "Animal protein products" include one or more of the following: Animal products, marine products, and milk products.

(2) "Forage products" include one or more of the following: Alfalfa meals, entire plant meals, hays, and stem meals.

(3) "Grain products" include one or more of the following: Barley, grain sorghums, maize (corn), oats, rice, rye, and wheat.

(4) "Plant protein products" include one or more of the following: Algae meals, coconut meals (copra), cottonseed meals, guar meal, linseed meals, peanut meals, safflower meals, soybean meals, sunflower meals, and yeasts.

(5) "Processed grain byproducts" include one or more of the following: Brans, brewers dried grains, distillers grains, distillers solubles, flours, germ meals, gluten feeds, gluten meals, grits, groats, hominy feeds, malt sprouts, middlings, pearled, polishings, shorts, and wheat mill run.

(6) "Roughage products" include one or more of the following: Cobs, hulls, husks, pulps, and straws.

Effective date. This order shall become effective 30 days after its date of publication in the FEDERAL REGISTER.

PART 8—COLOR ADDITIVES

Subpart C—Listing of Color Additives for Food Use Subject to Certification

Subpart E—Listing of Color Additives for Drug Use Subject to Certification

FD&C RED NO. 40

The Commissioner of Food and Drugs, on the basis of a petition submitted by Allied Chemical Corp., Specialty Chemicals Division, c/o Hazleton Laboratories, Inc., Post Office Box 30, Falls Church, Va. 22046, and other relevant material, finds that FD&C Red No. 40 (identified below) is safe for use in food and drugs under the conditions prescribed in this order and that certification is necessary for the protection of the public health. In the petition and the notice of filing thereof which was published June 27, 1970 (35 F.R. 10529), the additive's name was "Allura Red AC"; however, the petitioner has requested that the additive be known as "FD&C Red No. 40."

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706(b), (c)(1), (d), 74 Stat. 399-403; 21 U.S.C. 376(b), (c)(1), (d)) and under authority delegated to the Commissioner (21 CFR 2.120): *It is ordered*, That Part 8 be amended by adding § 8.244 to Subpart C and § 8.4104 to Subpart E, as follows:

§ 8.244 FD&C Red No. 40.

(a) **Identity.** (1) The color additive FD&C Red No. 40 is principally the disodium salt of 6-hydroxy-5-[(2-methoxy-5-methyl-4-sulfophenyl)azo]-2-naphthalenesulfonic acid.

(2) Color additive mixtures for food use (including dietary supplements) made with FD&C Red No. 40 may contain only those diluents that are suitable and that are listed in Subpart D of this part as safe for use in color additive mixtures for coloring foods.

(b) **Specifications.** FD&C Red No. 40 shall conform to the following specifications and shall be free from impurities other than those named to the extent that such other impurities may be avoided by good manufacturing practice:

Sum of volatile matter (at 135° C.) and chlorides and sulfates (calculated as sodium salts), not more than 14.0 percent.
Water-insoluble matter, not more than 0.2 percent.

Higher sulfonated subsidiary colors (as sodium salts), not more than 1.0 percent.
Lower sulfonated subsidiary colors (as sodium salts), not more than 1.0 percent.
Disodium salt of 6-hydroxy-5-[(2-methoxy-5-methyl-4-sulfophenyl)azo]-8-(2-methoxy-5-methyl-4-sulfophenoxy)-2-naphthalenesulfonic acid, not more than 1.0 percent.

Sodium salt of 6-hydroxy-2-naphthalenesulfonic acid (Schaeffer's salt), not more than 0.3 percent.

4-Amino-5-methoxy-o-toluenesulfonic acid, not more than 0.2 percent.

Disodium salt of 6,6'-oxybis(2-naphthalenesulfonic acid), not more than 1.0 percent.
Lead (as Pb), not more than 10 parts per million.

Arsenic (as As), not more than 1 part per million.

Total color, not less than 85.0 percent.

(c) **Uses and restrictions.** FD&C Red No. 40 may be safely used for coloring foods (including dietary supplements) generally in amounts consistent with good manufacturing practice except that it may not be used to color foods for which standards of identity have been promulgated under section 401 of the act unless added color is authorized by such standards.

(d) **Labeling.** The label of the color additive and any mixtures prepared therefrom intended solely or in part for coloring purposes shall conform to the requirements of § 8.32.

(e) **Certification.** All batches of FD&C Red No. 40 shall be certified in accordance with regulations in Subpart A of this part.

§ 8.4104 FD&C Red No. 40.

(a) **Identity and specifications.** (1) The color additive FD&C Red No. 40 shall conform in identity and specifications to the requirements of § 8.244 (a)(1) and (b).

(2) Color additive mixtures for drug use made with FD&C Red No. 40 may contain only those diluents that are suitable and that are listed in Subpart F of this part as safe for use in color additive mixtures for coloring drugs.

(b) **Uses and restrictions.** FD&C Red No. 40 may be safely used in coloring drugs, subject to the restrictions on use of color additives in § 8.101, in amounts consistent with good manufacturing practice.

(c) **Labeling.** The label of the color additive and any mixtures prepared therefrom intended solely or in part for coloring purposes shall conform to the requirements of § 8.32.

(d) **Certification.** All batches of FD&C Red No. 40 shall be certified in accordance with regulations in Subpart A of this part.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the pro-

visions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in six copies.

Effective date. This order shall become effective 60 days after its date of publication in the FEDERAL REGISTER, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be given by publication in the FEDERAL REGISTER.

(Sec. 706(b), (c)(1), (d), 74 Stat. 399-403; 21 U.S.C. 376(b), (c)(1), (d))

PART 8—COLOR ADDITIVES

Subpart E—Listing of Color Additives for Drug Use Subject to Certification

FD&C BLUE NO. 2; CONFIRMATION OF EFFECTIVE DATE

In the matter of listing the color additive FD&C Blue No. 2 for use in or on nylon surgical sutures with certification required:

No objections were filed to the order in the above-identified matter published in the FEDERAL REGISTER of February 13, 1971 (36 F.R. 2967). Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706 (b), (c)(1), (d), 74 Stat. 399-403; 21 U.S.C. 376 (b), (c)(1), (d)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that the regulation established by the subject order (§ 8.4022) will become effective April 14, 1971.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 114—Department of the Interior

PART 114-26—PROCUREMENT SOURCES AND PROGRAMS

Subpart 114-26.7—Use of GSA Supply Sources by Grantees and Contractors

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 (Supp. V, 1965-69) and Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), a

new Subpart 114-26.7 is added to Chapter 114, Title 41 of the Code of Federal Regulations, as set forth below.

This subpart shall become effective on the date of its publication in the FEDERAL REGISTER (4-10-71).

RICHARD R. HITE,
Deputy Assistant Secretary,
of the Interior.

APRIL 5, 1971.

- Sec. 114-26.700 Scope of subpart.
- 114-26.701 Applicability.
- 114-26.702 Policy on use of GSA supply sources.
- 114-26.704 Agency authorizations.
- 114-26.707 Acquisition of GSA stock.

AUTHORITY: The provisions of this Subpart 114-26.7 issued under 5 U.S.C. 301 (Supp. V, 1965-1969); sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

Subpart 114-26.7—Use of GSA Supply Sources by Grantees and Contractors

§ 114-26.700 Scope of subpart.

This subpart prescribes the Department's policy regarding the use of GSA supply sources by grantees and cost-reimbursement type contractors.

§ 114-26.701 Applicability.

The provisions of this subpart are applicable to all bureaus and offices of the Department.

§ 114-26.702 Policy on use of GSA supply sources.

(a) It is the policy of the Department that grantees shall be authorized to use GSA supply sources when it is in the best interest of the Government and not prohibited by law.

(b) It is the policy of the Department that, pursuant to the provisions of Federal Procurement Regulation Subpart 1-5.9, cost-reimbursement type contractors shall be authorized to use GSA supply sources when such use is in the best interest of the Government and is not prohibited by law.

§ 114-26.704 Agency authorizations.

(a) (1) In addition to other limitations and conditions, each authorization shall specify that the issuing office will not be liable for any obligations incurred by the grantee or contractor through the use of the authorization to use GSA supply sources.

(2) Authorizations shall also be limited to purchases within approved budgetary limitations, with a requirement for the prompt payment of bills upon receipt of billing.

(3) Each issuing office shall be responsible for monitoring the purchases made under each authorization, and for requiring the maintenance of purchase records needed for audit purposes.

(b) (1) Public Law 85-934 (72 Stat. 1793; 42 U.S.C. 1892) authorizes the vesting of title to equipment purchased with Federal funds pursuant to grants or contracts for the conduct of basic or applied scientific research at nonprofit institutions of higher education, or at nonprofit

organizations whose primary purpose is the conduct of scientific research (205 DM 9).

(2) This authority to vest title to scientific research equipment shall be used to reduce the Government's cost and administrative burden of accounting, shipment, storage, disposition, and otherwise treating the equipment as Government property.

(3) Office of Management and Budget Circular No. A-101, dated January 9, 1971, recognizes the need for reducing such costs and burden while furthering the overall Government objective of strengthening the scientific capability of educational institutions. The policy set forth in OMB Circular No. A-101 shall be used to determine when title to equipment should be vested in such institutions. This policy applies to educational institutions only. Part 114-51 of this chapter establishes the Departmental policy for the management of equipment and supplies acquired under project grants.

§ 114-26.707 Acquisition of GSA stock.

(a) Grantees and contractors should obtain FEDSTRIP system orientation from the GSA Regional Supply Service Officer.

(b) Requisitions submitted to GSA under this system shall include a statement of authorization substantially as follows:

This order is placed pursuant to written authorization No. _____ dated _____ issued by _____ for (contract number or grant).

Modification of Powersite Reserve No. 348 To Permit Grant of Right-of-Way

By virtue of the authority contained in section 24 of the Act of June 10, 1920, 41 Stat. 1075, as amended, 16 U.S.C. sec. 818 (1964), and pursuant to the determination of the Federal Power Commission in DA-165-Wyoming, it is ordered as follows:

The Executive Order of March 27, 1913, creating Powersite Reserve No. 348, is hereby modified to the extent necessary to permit the location of a right-of-way under section 2477, U.S. Revised Statutes, 43 U.S.C. sec. 932, by Park County, over the following described lands, as delineated on a map on file with the Bureau of Land Management in Wyoming 17877, for a maintenance of a public road, subject to the provisions

of section 24 of the Federal Power Act, supra:

SIXTH PRINCIPAL MERIDIAN

- T. 52 N., R. 104 W.,
- Sec. 15, lots 28;
- Sec. 16, lots 18, 22;
- Sec. 19, lots 19, 22, 24.

The areas described aggregate 97.22 acres in Park County.

Withdrawal and Reservation of Lands in Connection with the Honey Lake Waterfowl Management Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described public lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws, and reserved for management in cooperation with the State of California Department of Fish and Game in connection with the Honey Lake Waterfowl Management Area:

MOUNT DIABLO MERIDIAN

- T. 28 N., R. 14 E.,
- Sec. 9, NE ¼ SE ¼, S ½ SE ¼.
- T. 28 N., R. 15 E.,
- Sec. 7, lots 3, 4, 5, 6.

The areas described aggregate 191.46 acres in Lassen County.

2. Upon execution of a cooperative agreement with the Secretary of the Interior, or his delegate, the State of California is authorized to manage the withdrawn lands for the conservation of small game and waterfowl, and as a public hunting ground, consistent with Federal programs for the management of the lands.

3. The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws. However, leases, licenses, contracts, or permits will be issued only if the proposed use of the lands will not interfere with proper management of the Honey Lake Waterfowl Management Area.

Withdrawal

By virtue of the authority contained in section 3 of the Act of June 17, 1902, 32 Stat. 388, as amended and supplemented, 43 U.S.C. sec. 416 (1964), it is ordered as follows:

1. Public Land Order No. 4631 of April 14, 1969, withdrawing the following land for the Wasatch Aqueduct, Bonneville Unit, Central Utah Project, is hereby revoked:

SALT LAKE MERIDIAN

T. 9 S., R. 4 E.,
Sec. 18, NE¼ SE¼.

The area described contains 40 acres in Utah County.

2. This revocation is made in furtherance of an exchange under section 8 of the Act of June 23, 1934, 48 Stat. 1272, as amended, 43 U.S.C. sec. 315g (1964), by which the offered lands will benefit a Federal land program. Accordingly, the land described in this order is hereby classified, pursuant to section 7 of said Act, 43 U.S.C. sec. 315f (1964), as suitable for such exchange. The land, therefore, will not be subject to other use or disposition under the public land laws in the absence of a modification or revocation of such classification (43 CFR 2440.4).

SUBCHAPTER J—MISCELLANEOUS

[General Order 103]

PART 381—CARGO PREFERENCE—
U.S.-FLAG VESSELS

Reporting Information and Procedure

In F.R. Doc. 71-577, appearing in the FEDERAL REGISTER issue of January 15, 1971 (36 F.R. 609), notice was given that the Maritime Administration was considering the promulgation of regulations to be followed by all departments and agencies having responsibility under the Cargo Preference Act of 1954, section 901(b) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1241(b)), in the administration of their programs with respect to that Act, and to provide a uniform system for the collection of data on the administration of such programs for use in preparing the annual reports to Congress required by that Act.

Interested persons were given an opportunity to participate in the proposed rule making through the submission of comments. Pursuant to the notice, a number of comments have been received from Federal and State departments and agencies, steamship lines, shippers, and other interested persons, and due consideration has been given to all relevant material presented.

Nearly all of the responses expressed general agreement with the basic purpose of the proposed new regulations to develop a system to assure uniform and timely reporting of all cargo preference shipments. The major criticism was that it would be difficult to furnish on bills of lading all the data requested, and some of the requested data were considered to be unnecessary. Others felt that compliance with the regulations would place a time-consuming and expensive burden on the departments and agencies.

In view of the comments, the proposed regulations have been revised to reduce the number of items of information requested, to enlarge on the time within which such information is required to be furnished, and to permit the infor-

mation to be reported on a format approved by the Maritime Administration or on a copy of the bill of lading.

In consideration of the foregoing, Part 381 is hereby added to Title 46, Chapter II, Code of Federal Regulations, reading as follows:

Sec.

381.1 Purpose.

381.2 Definitions.

381.3 Reporting information and procedure.

AUTHORITY: The provisions of this Part 381 issued under secs. 204(b), 212(d), and 901(b), Merchant Marine Act, 1936, as amended (46 U.S.C. 1114(b), 1122(d), and 1241(b)).

§ 381.1 Purpose.

The purpose of this part 381 is to prescribe regulations to be followed by all departments and agencies having responsibility under the Cargo Preference Act of 1954, section 901(b) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1241(b)), in the administration of their programs with respect to that Act, and to provide a uniform system for the collection of data on the administration of such programs for use in preparing the annual reports to Congress required by that Act.

§ 381.2 Definitions.

(a) "Cargo Preference Act of 1954" means section 901(b) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1241(b)).

(b) "Cargoes subject to the Cargo Preference Act of 1954," include equipment, material or commodities:

(1) Procured, contracted for or otherwise obtained within or outside the United States for the account of the United States;

(2) Furnished within or outside the United States to or for the account of any foreign nation without provision for reimbursement;

(3) Furnished within or outside the United States for the account of any foreign nation in connection with which the United States advances funds or credits or guarantees the convertibility of foreign currencies.

(c) "Department or agency having responsibility under the Cargo Preference Act of 1954" means any department or agency of the Federal Government, administering a program that involves the transportation on ocean vessels of cargoes subject to the Cargo Preference Act of 1954. At present, these agencies include:

- (1) Department of State.
- (2) Department of Agriculture.
- (3) Department of Defense.
- (4) Post Office Department.
- (5) General Services Administration.
- (6) Export-Import Bank of the United States.
- (7) National Aeronautics and Space Administration.
- (8) Inter-American Development Bank.
- (9) U.S. Information Agency.
- (10) Department of Interior.
- (11) Department of Commerce.
- (12) Department of Treasury.

- (13) Department of Health, Education, and Welfare.
- (14) Department of Housing and Urban Development.
- (15) Department of Transportation.
- (16) Atomic Energy Commission.
- (17) Tennessee Valley Authority.
- (18) Veterans Administration.
- (19) Smithsonian Institution.
- (20) Library of Congress.

§ 381.3 Reporting information and procedure.

(a) *Reports of cargo preference shipments.* Each department or agency subject to the Cargo Preference Act of 1954, except the Department of Defense for which separate regulations will be issued, shall furnish to the Maritime Administration, Cargo Preference Control Center, Commerce Building, Washington, DC 20235, within 20 working days of the date of loading for shipments originating in the United States or within 30 working days for shipments originating outside the United States, the following information concerning each shipment of preference cargo:

- (1) Identification of the sponsoring U.S. Government agency or department;
- (2) Name of vessel;
- (3) Vessel flag of registry;
- (4) Date of loading;
- (5) Port of loading;
- (6) Port of final discharge;
- (7) Commodity description;
- (8) Gross weight in pounds;
- (9) Total ocean freight revenue in U.S. dollars.

(b) *Format of reports.* The information listed in paragraph (a) of this section shall be furnished to the Maritime Administration in a format prepared by the reporting department or agency and approved by the Assistant Secretary of Commerce for Maritime Affairs as suitable for the purpose of carrying out his responsibility under section 901(b)(2) of the Merchant Marine Act, 1936, as amended, pursuant to the authority delegated to him thereunder by the Secretary of Commerce under section 3 of Department Organization Order 10-8, 36 F.R. 1223. Where obtainable, a properly notated and legible copy of the ocean bill of lading in English will suffice. Reporting formats shall be submitted for approval by April 30, 1971.

(c) *Shipments made subject to the Act.* In those instances where a shipment has been made that was not known to be subject to the Cargo Preference Act of 1954 when it was made, but subsequent events cause it to be subject to that Act, the agency taking the action that caused the shipment to be subject to the Act shall furnish to the Maritime Administration, Cargo Preference Control Center, the information listed in paragraph (a) of this section in the approved reporting form.

Effective date. These regulations shall become effective for all Cargo Preference shipments loaded on or after July 1, 1971.

Dated: April 8, 1971.

By order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, JR.,
Secretary,
Maritime Administration.

Title 49—TRANSPORTATION

Chapter V—National Highway Traffic Safety Administration, Department of Transportation

[Docket No. 2-15; Notice 6]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Motor Vehicle Safety Standard No. 213; Child Seating Systems.

Motor Vehicle Safety Standard No. 213, Child Seating Systems, was published March 23, 1970 (35 F.R. 5120). In response to petitions for reconsideration filed by several manufacturers, the standard was amended September 23, 1970 (35 F.R. 14778). In addition, a notice of proposed rulemaking suggesting additional changes was issued simultaneously with that amendment (35 F.R. 14786). Since that time, Bolt Beranek and Newman, Inc. (on behalf of the Juvenile Products Manufacturers' Association), has requested clarification of certain provisions of the standard, and the Ford Motor Co. has requested certain amendments. This notice is issued in response to those requests.

Bolt Beranek and Newman has asked whether an adjustable head restraint may be used to meet the requirements of S4.6.1. It was intended that an adjustable head restraint could be used to meet the requirements of S4.6.1 provided it meets the other requirements of the standard, and the language of S4.6.1 is hereby amended to clarify the standard in that regard.

Bolt Beranek and Newman has also requested clarification of the release mechanism requirements of S4.9, which incorporate by reference the requirements and test procedures for the buckle of a Type 3 seat belt assembly in Standard No. 209. Bolt Beranek and Newman has argued that the present provision is not wholly consistent with the other requirements of Standard No. 213. It has pointed out, for example, that the present Standard No. 209 test procedure requires the release mechanism to be subjected to a force of 2,000 pounds, while Standard No. 213 requires the entire child seating system to be subjected to only a 1,000-pound force. It argues further that the present procedure unnecessarily restricts design, and does not permit, for example, a release mechanism that uses the child seat frame as one-half of the buckle assembly.

The Administration has found these arguments to have merit, and in response is amending the requirement and speci-

fying an alternative test procedure for the release mechanism. The required force to which the release mechanism is subjected, when tested as presently specified, is lowered from 2,000 pounds to 1,000 pounds. The alternative test procedure allows the release mechanism to be tested as part of the entire child seating system. This alternative test will also permit testing of release mechanisms of different designs such as that previously described where one-half of the buckle assembly is incorporated into the child seat frame.

The alternative test procedure added by this notice, which provides for testing of the release mechanism as part of the overall child seat test, is more appropriate and simpler than the test procedure incorporated from Standard No. 209. As a result, a notice of proposed rule making is being issued concurrently with this amendment, proposing that this alternative test procedure be the only release mechanism test procedure after January 1, 1972. Both procedures would be retained until that date in order not to prejudice manufacturers who have relied upon the original test for certification purposes.

Provision has been made in the alternative test procedure to allow configuration of the torso block to eliminate excessive localized pressure caused by the surface of the torso block on the back of the release mechanism. This pressure is not regarded as representative of actual conditions, in that the hard surface of the torso block offers substantially more resistance than would a child's body. This provision parallels a similar amendment to S5.3 of Standard No. 209, which becomes effective April 1, 1971, to coincide with the effective date of Standard No. 213.

The amendments requested by the Ford Motor Co. have been found unnecessary, as relief has been granted through interpretation of the existing provisions of the standard. For the information and guidance of the industry, the questions raised by Ford and the Administration's responses are as follows. Ford requested that paragraph S4.3 of the standard, which states, "The components of each child seating system that directly restrain the child shall be adjustable * * *" be changed immediately to read as proposed in the notice of proposed rule making published September 23, 1970 (35 F.R. 14786), whose wording was, "Each child seating system component that is adjustable and is designed to restrain the child directly shall be sufficiently adjustable * * *". It was not intended by the present wording, however, to require all child seating systems to have adjustable components to directly restrain the child. A system without adjustable components to directly restrain the child would not be considered to fail to comply, for that reason, with paragraph S4.3 of the standard. A final revision of this paragraph, clarifying the language of the present provision, will be made after the comments to the notice

of proposed rule making have been analyzed.

Ford's second request was for a change in the test procedure of S5.1, arguing that under this procedure the torso block applies an unstabilized concentrated load on the shield of the Ford system. In response, it has been stated that it is not mandatory under S5.1(d) of the standard that the load be applied to the torso block at a single point. It may be applied at two or more points as long as the intersection of the load application line and back surface of the torso block is not more than 8 inches or less than 6 inches above the bottom surface of the torso block. Thus, the load could be applied through a fixture attached to both the top and bottom of the torso block as long as the load application line is within these limits. During the test, however, only the torso block (not the attachment fixture) may contact the seating system.

In consideration of the foregoing, Motor Vehicle Safety Standard No. 213 in § 571.21 of Title 49, Code of Federal Regulations, is amended as set forth below.

1. Paragraph S4.6.1 is revised to read as follows:

S4.6.1 Except as provided in S4.6.2, each forward-facing child seating system shall have a head restraint that limits rearward angular displacement of the child's head relative to the child's torso line. The height of the head restraint, measured as the straight-line distance between the highest point at the lateral center of the head restraint and the lowest point at the lateral center of the seating surface, shall be as follows:

If the maximum weight of children for whom the system is recommended is:	The height of the head restraint shall be at least: (inches)
20 pounds or less.....	15
More than 20 pounds but not more than 25 pounds.....	16.2
More than 25 pounds but not more than 30 pounds.....	17.9
More than 30 pounds but not more than 35 pounds.....	18.9
More than 35 pounds.....	29

2. Paragraph S4.9 is revised to read as follows:

S4.9 *Release mechanism.* The mechanism for releasing components of a child seating system that directly restrain the child shall—

(a) Meet the requirements for the buckle of a Type 3 seat belt assembly specified in S4.3(d) of Federal Motor Vehicle Safety Standard No. 209, except that the assembly test force specified in S5.3(c) (2) of Standard No. 209 shall be 1,000 pounds; or

(b) Release when a force of not more than 20 pounds is applied when tested in accordance with S5.3.

3. A new paragraph S5.3 is added, as follows:

S5.3 *Release mechanism.* Conduct the following tests for forward-facing and rearward-facing child seating systems, as appropriate, using a torso block configured so that it does not contact the buckle in a manner as to affect the buckle release force.

S5.3.1 For forward-facing child seating systems—

(a) Test the system with a 1,000-pound force as specified in S5.1;

(b) Reduce the force to 45 pounds; and

(c) Release the mechanism in a manner typical of that employed in actual use.

S5.3.2 For rearward-facing child seating systems—

(a) Test the system with a 500-pound force as specified in S5.2;

(b) Reduce the force to 45 pounds; and

(c) Release the mechanism in a manner typical of that employed in actual use.

Effective date. This amendment imposes no additional burdens on manufacturers, and relieves restrictions found to be unwarranted. Accordingly, good cause exists for making the amendment effective less than 30 days from the date of issuance, and it shall become effective on the date of its publication in the FEDERAL REGISTER (4-10-71).

(Secs. 103, 112, 114, and 119 of the National Traffic and Motor Vehicle Safety Act, 15 U.S.C. §§ 1392, 1401, 1403, and 1407; and the delegation of authority at 49 CFR 1.51)

Issued on April 7, 1971.

Rice Lake National Wildlife Refuge, Minn.

The following special regulation is effective on date of publication in the FEDERAL REGISTER.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

MINNESOTA

RICE LAKE NATIONAL WILDLIFE REFUGE

Sport fishing on the Rice Lake National Wildlife Refuge, Minn., is permitted only on the area designated by signs as open to fishing. This posted area comprising 50 acres is delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Minneapolis, MN 55111. Sport fishing

shall be in accordance with all applicable State regulations subject to the following conditions:

(1) The open season for sport fishing on the refuge extends from May 15, 1971, through September 30, 1971, during daylight hours only.

(2) The use of motors on boats is not permitted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife areas generally which are set forth in Title 50, Part 33, and are effective through September 30, 1971.

Title 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Department of Housing and Urban Development

SUBCHAPTER A—GENERAL

[Docket No. R-71-104]

PART 200—INTRODUCTION

Subpart L—Correction of Structural or Other Defects in Homes Covered by Mortgage Insurance Under Section 235

Part 200 is amended to add a new Subpart L, which prescribes the terms and conditions under which the Secretary will consider affording and afford assistance under section 518(b) of the National Housing Act (added by section 104 of the Housing and Urban Development Act of 1970), to mortgagors whose mortgages are insured under section 235 of the National Housing Act pursuant to commitments to insure issued when the mortgaged dwellings were more than 1 year old.

Because of the need to have these procedures available at the earliest possible date, I find that it is impracticable and contrary to the public interest to engage in public rule making procedures and to postpone the effective date. These regulations will be effective immediately. However, all interested persons are invited to submit written comments or suggestions with respect to the regulations, which may be later revised in the light of comments received. Three copies of such comments should be filed on or before May 10, 1971, and addressed to the Assistant Secretary for Housing Production and Mortgage Credit, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20411. A copy of each communication will be available for public inspection during business hours in the HUD Information Center at the above address.

Part 200 is accordingly amended by adding Subpart L to read as follows:

Subpart L—Correction of Structural or Other Defects in Homes Covered by Mortgage Insurance Under Section 235

- Sec. 200.517 Purpose.
- 200.520 Application for assistance.
- 200.522 Eligibility for consideration.
- 200.527 Consideration for assistance.
- 200.533 Right and finality of determination.

AUTHORITY: This Subpart L issued under section 518 (b) and (c), 78 Stat. 783, 84 Stat. 1771; 12 U.S.C. 1735b.

§ 200.517 Purpose.

The purpose of this subpart is to specify the terms and conditions under which the Secretary will consider affording assistance to mortgagors under section 518(b) of the National Housing Act (added by section 104 of the Housing and Urban Development Act of 1970).

§ 200.520 Application for assistance.

An application for assistance in the correction of defects, in a form satisfactory to the Secretary, shall be filed by or on behalf of an eligible mortgagor with the Area or Insuring Office Director having jurisdiction over the area in which the property is located. The application shall be filed not later than 1 year after the insurance of the mortgage, or, in the case of a dwelling covered by a mortgage which has insured prior to December 31, 1970, not later than December 31, 1971.

§ 200.522 Eligibility for consideration.

The Secretary will consider a mortgagor eligible for assistance under this subpart if the Secretary finds that each of the following requirements is fulfilled:

- (a) The person applying for assistance is the owner and mortgagor of a single-family dwelling covered by a mortgage insured under section 235 of the National Housing Act pursuant to a mortgage insurance commitment issued when such dwelling was more than 1 year old;
- (b) One or more structural or other defects existed in such dwelling on the date of the issuance of the mortgage insurance commitment which (1) were sufficient to seriously affect the use and livability of such dwelling, and (2) were of such a nature that a proper inspection could reasonably be expected to have disclosed them; and
- (c) The application for assistance was filed in accordance with the provisions of this subpart.

§ 200.527 Consideration for assistance.

Upon a finding by the Secretary that a mortgagor is eligible to be considered for assistance under this subpart, the Secretary will, in his sole discretion, determine whether to afford assistance hereunder by direct expenditures to correct defects as defined in § 200.522(b), compensation of a mortgagor who has made such expenditures himself, or a

combination of both direct expenditures and compensation of the mortgagor. The Secretary, in determining whether to afford assistance, the amount thereof, its form, and when it will be afforded, will consider:

- (a) The extent to which the defects represent a clear and present danger to the health and safety of the occupants;
- (b) The availability of funds from which the Secretary is authorized to make expenditures hereunder; and
- (c) Such other matters as he deems material.

§ 200.533 Right and finality of determination.

All decisions of the Secretary with respect to assistance under this subpart are final and conclusive and not subject to judicial review.

(Secretary's delegation published at 36 F.R. 5006, March 16, 1971, effective March 8, 1971)

Effective date. These regulations are effective April 9, 1971.

SUBCHAPTER M—HOMES FOR LOWER INCOME FAMILIES

PART 235—MORTGAGE INSURANCE AND ASSISTANCE PAYMENTS FOR HOME OWNERSHIP AND PROJECT REHABILITATION

Subpart A—Eligibility Requirements—Homes for Lower Income Families

Part 235 is amended by adding a new section 235.12 which prescribes the reimbursement agreement which must be completed prior to insurance of a mortgage under section 25(i) of the National Housing Act if the mortgage covers a dwelling which is more than 1 year old on the date of the insurance commitment and the insurance commitment was issued after April 9, 1971.

Because of the need to have these procedures available at the earliest possible date, I find that it is impracticable and contrary to the public interest to engage in public rule making procedures and to postpone the effective date. These regulations will be effective immediately. However, all interested persons are invited to submit written comments or suggestions with respect to the regulations, which may be later revised in the light of comments received. Three copies of such comments should be filed on or before May 10, 1971, and addressed to the Assistant Secretary for Housing Production and Mortgage Credit, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20411. A copy of each communication will be available for public inspection during business hours in the HUD Information Center at the above address.

1. In Part 235, in the Table of Contents, a new § 235.12 is added as follows:

Sec. 235.12 Sellers' reimbursement agreement.

2. A new § 235.12 is added to read as follows:

§ 235.12 Sellers' reimbursement agreement.

In order to be eligible under this subpart, if the mortgage covers a dwelling which is more than 1 year old on the date of the insurance commitment and the insurance commitment was issued after April 9, 1971, the following agreement must be executed by the proper parties:

SELLERS' REIMBURSEMENT AGREEMENT

FHA Case No. _____

This agreement made in triplicate this _____ day of _____ by and between _____, hereinafter referred to as the Seller(s), and the Federal Housing Administration, hereinafter referred to as the Insurer:

WITNESSETH

Whereas, the Seller(s) desire(s) to sell the premises located at _____ with a mortgage to be insured under section 235 of the National Housing Act.

Whereas, the Insurer will provide mortgage insurance on said premises under section 235 of the National Housing Act.

1. Now, therefore, in consideration of the sale of a single-family dwelling located at _____

(insert address, city, county, and State) which was more than 1 year old on _____

(insert date of issuance of insurance commitment)

and that the purchase of such dwelling is being financed by a mortgage insured under section 235 of the National Housing Act, and in order to induce the buyer(s) and mortgagor(s) to buy such dwelling and the Secretary of Housing and Urban Development to insure and subsidize such mortgage, the undersigned Seller hereby agrees, or Sellers hereby jointly and severally agree, intending to be legally bound, to reimburse the Secretary for any payments made by him to correct or compensate the buyer(s) for structural or other defects which seriously affect the use and livability of such dwelling, and hereby certify that no such defect now exists.

(Strike out 2.a. or 2.b., whichever is inapplicable, and have the Seller(s) and mortgagee initial opposite the part deleted.)

2.a. The Seller(s) hereby certifies(y) that he is (they are) the current or most recent occupant(s) of the property being sold.

2.b. The Seller(s) hereby certifies(y) that he is (they are) not the occupant(s) of the property being sold and that he has (they have) deposited in escrow with _____ an amount equal-

(Mortgage) _____
ling 5 percent of the sales price of the property covered by this agreement. (The escrow may be in the form of cash, bond, letter of credit, or any other assurance of payment satisfactory to the mortgagee collected or obtained at the time of closing.) The Seller(s) hereby authorize(s) the holder of this escrow to transfer to the Insurer all or such part of these funds as the Insurer, in its sole discretion, determines must be expended to correct or to compensate the purchaser for structural or other defects which seriously affect the use and livability of the premises. Seller(s) also hereby agree(s) to reimburse the Insurer above and beyond the amount escrowed to repair the structural or other defects covered by this agreement. Insurer's determination as to the necessity for, the reasonableness of the amount to be expended for, or the method to be used in

RULES AND REGULATIONS

performing such corrections or compensation, shall be final and conclusive.

The Insurer and Seller(s) hereby agree that any unused escrow funds set aside pursuant to this agreement including any unused interest shall be returned to the Seller(s) by the escrow holder on the first day of the fourteenth month following the date of the insurance of the mortgage or at such earlier time as may be approved by the Insurer.

The mortgagee hereby acknowledges receipt from the Seller(s) of \$_____ in the form of _____ (indicate whether deposit in cash or other form) which it agrees to hold in escrow and to disburse only in accordance with the terms of this agreement; and that, if the escrow is in the form of cash, it will place such cash in an interest bearing account insured by FDIC or FSLIC under which all interest accrued will be added to the amount escrowed.

3. The Seller(s) agree(s) to keep the mortgagee informed of any change in address and the Seller(s) understand(s) that a refusal to satisfy a claim under this agreement could result in a denial

to him (them) of future participation in HUD programs.

WARNING

Section 1010 of title 18, U.S.C., "Federal Housing Administration transactions," provides: "Whoever, for the purpose of * * * influencing in any way the action of such Administration * * * makes, passes, utters, or publishes any statement, knowing the same to be false * * * shall be fined not more than \$5,000 or imprisoned not more than 2 years, or both."

In Testimony Whereof, the parties hereto affix their signatures and seals the day and year first above mentioned.

[7 CFR Part 908]

VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Proposed Size Regulation

Notice is hereby given that the Department is considering a proposed size regulation for Valencia oranges grown in Arizona and designated part of California, pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 908, as amended (7 CFR 908, 35 F.R. 16625), regulating the handling of Valencia oranges grown in Arizona and designated part of California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The proposed regulation was proposed by the Valencia Orange Administrative Committee, established under said amended marketing agreement and order as the agency to administer the terms and provisions thereof. The proposed regulation would limit the handling of Valencia oranges grown in District 1, District 2, or District 3 to Valencia oranges measuring 2.20 inches or larger.

The proposed regulation is as follows:

(a) *Order.* From April 30, 1971, through January 31, 1972, no handler shall handle any Valencia oranges, grown in District 1, District 2, or District 3, which are of a size smaller than 2.20 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from stem to the blossom end of the fruit: *Provided*, That not to exceed 5 percent, by count, of the oranges in any type of container may measure smaller than 2.20 inches in diameter.

(b) As used in this section "handle", "handler", and "District 1", "District 2", and "District 3" each shall have the same meaning as when used in the said amended marketing agreement and order.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed regulation shall file same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, DC 20250, not later than the 7th day after publication of this notice in the FEDERAL REGISTER. All written submis-

sions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: April 7, 1971.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

ANTIBIOTIC SUSCEPTIBILITY DISCS

Drug Efficacy Study Implementation

The Food and Drug Administration has reevaluated the suitability of the antibiotic susceptibility discs and their labeling as related to the directions for use in determining the susceptibility of pathogenic micro-organisms to antibiotics.

An ad hoc Advisory Committee on Anti-infective Drugs reports that the availability of several different concentrations of a given antibiotic in discs has resulted in a chaotic state in the way the discs are used in testing. In many instances, results have not dependably guided physicians in selecting the proper antibiotic for therapy. The Committee recommends that a single method of performing antibiotic disc susceptibility tests be recognized and suggests the method of A. W. Bauer, W. M. M. Kirby, J. C. Sherris, and M. Turck, all M.D.'s ("American Journal of Clinical Pathology," vol. 45, No. 4 (April 1966), pp. 493-96).

This standardized disc test is based on the use of a single disc, 1/4 inch in diameter, which contains a single specified amount of an antibiotic. Larger-sized discs may produce zone-size results not amenable to interpretation by this method. The method incorporates an interpretation of results based on measuring the zones of inhibition and categorizing them in ranges to indicate that the micro-organism tested is susceptible, intermediate, or resistant in relation to the clinical use of particular antibiotics.

The Committee also recommends that for families of analogous antibiotics only one representative antibiotic disc be used, unless clinical and laboratory in-

formation are generated to show a unique advantage for a disc of an analogue.

Through correspondence and meetings, The Food and Drug Administration has also consulted a number of interested and qualified individuals regarding use of such discs. Most favor the Bauer-Kirby-Sherris-Turck procedure and some have furnished pertinent comments on the details of the testing procedure.

Several of those consulted state that antibiotic susceptibility discs are not needed for carbomycin, dihydrostreptomycin, ristocetin, nystatin, or viomycin because:

1. Carbomycin is not used in human medicine and the only current veterinary use is in the drinking water of chickens for which use no susceptibility tests are made.

2. Dihydrostreptomycin, because of its toxicity, is not recommended for use in human medicine except in the extremely rare instance where the patient may be allergic to streptomycin. The availability of dihydrostreptomycin susceptibility discs may lead to its unwarranted use in therapy; moreover, the results of susceptibility tests conducted using the streptomycin susceptibility discs are equally applicable to dihydrostreptomycin.

3. Nystatin is a poorly diffusible antifungal antibiotic for which the disc procedure for testing bacteria is not applicable. Its suitability for clinical use can be adequately judged from proper clinical diagnosis.

4. Ristocetin is no longer available in this country.

5. Viomycin is used almost exclusively in the treatment of mycobacterial infections for which organisms the agar diffusion method in general is not applicable.

The Commissioner has considered the clinical and laboratory data filed in support of antibiotic sensitivity discs containing an antibiotic, dehydrated media, and triphenyltetrazolium chloride (§§ 147.3, 147.4) and finds there is a lack of substantial evidence that these discs can be used effectively in accordance with the recommended standardized susceptibility test.

Reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following antibiotic drugs have been evaluated: Tetracycline susceptibility discs marketed as Panmycin Sensitivity Discs, neomycin sulfate susceptibility discs marketed as Mycifradin Sensitivity Discs, and novobiocin susceptibility discs marketed as Albamycin Sensitivity Discs, all three by the Upjohn Co., 7171 Portage Road, Kalamazoo, Mich. 49001.

The NAS-NRC Drug Efficacy Study Group found the above three susceptibility discs to be ineffective as labeled. The mere presence of a small zone of inhibition has been found to be correlated with a much higher M.I.C. (minimal inhibitory concentration) than is considered the upper limit for a susceptible pathogen. Thus, the interpretation of an organism as being susceptible when a small zone is observed tends to encourage therapy of infections caused by resistant organisms. The presence or absence of a zone of inhibition is greatly influenced by variables such as the constituents of the agar medium, the pH, presence of blood, and other factors. A method should be used wherein these factors have been carefully worked out and correlations have been established between M.I.C.'s and the zone of inhibition around the disc. Appropriate, simple-to-perform methods are available and the results of disc susceptibility testing would be more reliable if such methods were recommended and widely used.

FIRST CONCLUSION

Having considered the ad hoc Committee and NAS-NRC reports and other relevant material, the Commissioner concludes that the antibiotic drug regulations should be amended as proposed below to provide for the recommended standardized antibiotic disc susceptibility test; to delete provisions regarding carbomycin, dihydrostreptomycin, nystatin, ristocetin, and viomycin; and to delete provisions regarding certain other antibiotics (specified below) that represent analogues and the discs containing an antibiotic, a dehydrated medium, and triphenyltetrazolium chloride. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050-51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that Part 147 be amended:

1. In § 147.1:

a. By changing the section heading to read as follows:

§ 147.1 Antibiotic susceptibility discs; tests and methods of assay; potency.

b. By deleting the following items from the tables in paragraphs (c) (3) and (d): "Carbomycin (hydrochloride)," "Cephaloglycin (dihydrate)," "Cephaloridine," "Chlortetracycline (hydrochloride)," "Cloxacillin," "Demeclocycline (hydrochloride)," "Dicloxacillin," "Dihydrostreptomycin (sulfate)" (in paragraph (d)—"Dihydrostreptomycin"), "Doxycycline," "Lincomycin (hydrochloride)," "Methacycline (hydrochloride)," "Nystatin," "Oxytetracycline (hydrochloride)," "Phenethicillin potassium," "Ristocetin," "Sodium cephalothin," "Sodium nafcillin," "Sodium oxacillin," and "Viomycin (sulfate)."

c. By alphabetically inserting a new item in the table in paragraph (c) (3), as follows:

Antibiotic	Volume of suspension added to each 100 ml. of seed agar used for test	Suspension number	Medium	
			Base layer	Seed layer
	MI.			
Cephalothin.....	1.0	10	E	A

d. By alphabetically inserting a new item in the table in paragraph (d), as follows:

Antibiotic	Solvent	Standard curve (antibiotic concentration per disc)
Cephalothin.....	50 percent methyl alcohol.....	15.0, 21.2, 30.0, 42.4, 60.0 µg.

e. By changing the fourth sentence of paragraph (e) (1) to read "Incubate the plates overnight at 32°-35° C., except if it is cephalothin, colistin, novobiocin, or polymyxin, the incubation temperature is 37° C."

f. By changing the heading of subparagraph (3) in paragraph (e) to read "Individual discs with diameters larger than one-fourth inch but no larger than three-eighths for use in impregnating culture media."

g. By deleting paragraph (e) (4).

2. By revising § 147.2 to read as follows:

§ 147.2 Antibiotic susceptibility discs; certification procedure.

(a) *Standards of identity, strength, quality, and purity.* Antibiotic susceptibility discs are round flat discs that have a diameter of one-fourth inch and are made of clear absorbent paper containing antibiotic compounds. They are capable of absorbing moisture rapidly and the antibiotic is evenly distributed. The thickness is sufficient to assure rigidity and to have permitted the complete absorption of an adequate volume of antibiotic solution (approximately 0.02 milliliter). The identity of each disc is signified either by a color or by means of an identifying sign. The absorbent paper and dye or ink used must not affect either bacterial growth or the antibiotic. Each disc shall have a uniform potency that is equivalent to that contained in a standard disc prepared with one of the following quantities of antibiotic drugs:

Ampicillin: 10 µg.
Bacitracin: 10 units.
Carbenicillin: 50 µg.
Cephalothin: 30 µg.
Chloramphenicol: 30 µg.
Clindamycin: 2 µg.
Colistin: 10 µg.
Erythromycin: 15 µg.
Gentamicin: 10 µg.
Kanamycin: 30 µg.
Methicillin: 5 µg.
Neomycin: 30 µg.
Novobiocin: 30 µg.
Oleandomycin: 15 µg.
Penicillin G: 10 units.
Polymyxin B: 300 units.
Streptomycin: 10 µg.
Tetracycline: 30 µg.
Vancomycin: 30 µg.

The standard discs used to determine the potency shall be made of paper as described in § 147.1(d). Each antibiotic compound used to impregnate such

standard discs shall be equilibrated in terms of the working standard designated by the Commissioner for use in determining the potency or purity of such antibiotic.

(b) *Packaging.* The immediate container shall be a tight container as defined by the U.S.P. and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused that are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded. Each immediate container shall contain a desiccant, and each may be packaged in combination with containers of suitable discs of drugs other than those described in paragraph (a) of this section. Such other discs shall be suitable only if the manufacturer and packer have submitted to the Commissioner information of the kind described in § 146.10 of this chapter, and such information has been accepted by the Commissioner.

(c) *Labeling.* Each package of discs shall bear on its label or labeling, as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark.

(ii) The potency of each disc in the batch.

(iii) The statement "Expiration date _____," the blank being filled in with the date that is 6 months after the month during which the batch was certified, except that the blank may be filled in with a date that is 12, 18, 24, 30, 36, 42, 48, 54, or 60 months after the month during which the batch was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that such drug as prepared by him is stable for such longer period of time. If it is a packaged combination of discs of two or more drugs, its outside wrapper shall bear only one expiration date, and that date shall be the date that is required for the shortest dated discs contained in the package.

(iv) The statement "For use in microbial susceptibility testing only."

(2) On the circular or other labeling within or attached to the package, adequate directions for the use of such discs, including the following method:

STANDARDIZED ANTIBIOTIC DISC SUSCEPTIBILITY TEST

A. PREPARATION OF CULTURE MEDIUM AND PLATES

1. Melt previously prepared and sterilized Mueller-Hinton agar medium and cool to 45°-50° C.

2. For the purpose of testing certain fastidious organisms such as streptococci and *Haemophilus* species, 5 percent defibrinated human, horse, or sheep blood may be added to the above medium which may also be "chocolatized" when indicated.

3. Pour the melted medium into Petri dishes on a level surface to a depth of 4 millimeters.

4. Let the medium harden and allow to stand long enough for excess moisture to evaporate. (For this purpose plates may be placed in an incubator at 35°-37° C. for 30 minutes or allowed to stand somewhat longer at room temperature.) There should be no moisture droplets on the surface of the medium or on the Petri dish covers. The pH of the solidified medium should be 7.2-7.4. Satisfactory plates may be used immediately or refrigerated. (Do not invert during storage.) Incubate several representative plates at 35°-37° C. for 24-72 hours as a check for sterility, but do not use them in susceptibility testing. Plates may be used as long as the surface is moist and there is no sign of deterioration.

NOTE: Commercially prepared agar plates meeting the above specifications may be used.

B. PREPARATION OF INOCULUM

1. Select 3 or 4 similar colonies.
2. Transfer these colonies (obtained by touching the top of each colony with a wire loop) in turn to a test tube containing about 5 milliliters of a suitable broth medium such as soybean-caseln digest broth, U.S.P.

3. Incubate the tube at 35°-37° C. long enough (2 to 8 hours) to produce an organism suspension with moderate cloudiness. At that point the inoculum density of the suspension should be controlled by diluting it, or a portion of it, with sterile distilled water, saline, or broth (as mentioned in item 2 above) to obtain a turbidity equivalent to that of a freshly prepared turbidity standard obtained by adding 0.5 milliliter of 1.175 percent barium chloride dihydrate (BaCl₂·2H₂O) solution to 99.5 milliliters of 0.36 N (1.0 percent) sulfuric acid. Other suitable methods for standardizing inoculum density may be used; for example, a photometric method. In some cases it may be possible to get an adequate inoculum density in the tube even without incubation.

NOTE: Extremes in inoculum density should be avoided. Undiluted overnight broth culture should never be used for streaking plates.

C. STREAKING PLATES

1. Dip a sterile cotton swab into the properly diluted inoculum. Remove excess inoculum from the swab by rotating it with firm pressure on the inside wall of the test tube above the fluid level.

2. Streak the swab over the entire sterile agar surface of a plate. Streaking successively in three different directions is recommended to obtain an even inoculum.

3. Replace the plate top and allow the inoculum to dry for 3 to 5 minutes.

4. Place the susceptibility discs on the inoculated agar surface and with sterile forceps, or needle tip flamed and cooled between each use, gently press down each disc to ensure even contact. Space the discs evenly so that they are no closer than 15 millimeters to the edge of the Petri dish nor closer to each other than 30 millimeters on centers if gram-positive organisms other than staphylococci, fastidious aerobes, or anaerobes are

to be tested. When testing enteric bacilli, pseudomonas, or staphylococci, discs may be placed 24 millimeters apart. (Spacing may be accomplished by using a disc dispenser or by putting the plate over a pattern to guide the placement of discs.)

5. Within 30 minutes, place the plate in an incubator under aerobic conditions at a constant temperature in the range of 35°-37° C.

6. Read the plate after overnight incubation or, if rapid results are desired, the diameters of the zone of inhibition may be readable after 6 to 8 hours incubation. In the latter case, the results should be confirmed by also reading the results after overnight incubation.

NOTE: Microbial growth on the plate should be essentially confluent (heavy, but not full

confluence). If only isolated colonies grow, the inoculum was too light and the test should be repeated.

D. READING THE PLATES

Measure and record the diameter of each zone (including the diameter of the disc) to the closest millimeter, reading to the point of complete inhibition as judged by the unaided eye. Preferably, read from the underside of the plate without removing the cover, using a ruler, calipers, transparent plastic gauge, or other device. A mechanical zone reader may be used. If blood agar is used, measure the zones from the surface with the cover removed from the plate.

E. INTERPRETATION OF ZONE SIZES

Interpret the susceptibility according to the following table:

Antibiotic	Disc content	Diameter (millimeters) of zone of inhibition		
		Resistant	Intermediate	Susceptible
Ampicillin when testing gram-negative microorganisms and enterococci.	10 µg	11 or less	12-13	14 or more.
Ampicillin when testing staphylococci and penicillin G sensitive microorganisms.	10 µg	20 or less	21-28	29 or more.
Ampicillin when testing <i>Haemophilus</i> species.	10 µg	19 or less		20 or more.
Bacitracin	10 units	8 or less	9-12	13 or more.
Carbenicillin when testing <i>Proteus</i> species and <i>Escherichia coli</i> .	50 µg	17 or less	18-22	23 or more.
Carbenicillin when testing <i>Pseudomonas aeruginosa</i> .	50 µg	12 or less	13-14	15 or more.
Cephalothin ¹	30 µg	14 or less	15-17	18 or more.
Chloramphenicol	30 µg	12 or less	13-17	18 or more.
Cлиндamycin ²	2 µg	11 or less	12-15	16 or more.
Colistin	10 µg	8 or less	9-10	11 or more. ³
Erythromycin	15 µg	13 or less	14-17	18 or more.
Gentamicin	10 µg	12 or less		13 or more.
Kanamycin	30 µg	13 or less	14-17	18 or more.
Methicillin ⁴	5 µg	9 or less	10-13	14 or more.
Neomycin	30 µg	12 or less	13-16	17 or more.
Novobiocin ⁵	30 µg	17 or less	18-21	22 or more.
Oleandomycin	15 µg	11 or less	12-16	17 or more.
Penicillin G when testing staphylococci ⁶	10 units	20 or less	21-28	29 or more.
Penicillin G when testing other microorganisms ⁶	10 units	11 or less	* 12-21	22 or more.
Polymyxin B	300 units	8 or less	9-11	12 or more. ³
Streptomycin	10 µg	11 or less	12-14	15 or more.
Tetracycline ⁷	30 µg	14 or less	15-18	19 or more.
Vancomycin	30 µg	9 or less	10-11	12 or more.

¹ The cephalothin disc is used for testing susceptibility to all cephalosporin type antibiotics; that is, cephalothin, cephaloridin, cephalaxin, and cephaloglycin. When testing for susceptibility to cephaloglycin, the following interpretation should be used: Resistant, 14 millimeters or less; susceptible, 15 millimeters or more.

² The clindamycin disc is used for testing susceptibility to both clindamycin and lincomycin.

³ Colistin and polymyxin B diffuse poorly in agar and the accuracy of the diffusion method is thus less than with other antibiotics. Resistance is always significant, but when treatment of systemic infections due to susceptible strains is considered, it is wise to confirm the results of a diffusion test with a dilution method.

⁴ The methicillin disc is used for testing susceptibility to all penicillinase-resistant penicillins; that is, methicillin, cloxacillin, dicloxacillin, oxacillin, and nafcillin.

⁵ Not applicable to medium that contains blood.
⁶ This category includes some organisms such as enterococci that may cause systemic infections treatable with high doses of penicillin G.

⁷ The tetracycline disc is used for testing susceptibility to all tetracyclines; that is, chlortetracycline, demeclocycline, doxycycline, methacycline, oxytetracycline, and tetracycline.

⁸ The penicillin G disc is used for testing susceptibility to all penicillinase-susceptible penicillins except ampicillin; that is, penicillin G, phenoxymethyl penicillin, and phenoxymethyl penicillin.

F. REFERENCE ORGANISMS

1. Maintain stock cultures of *Staphylococcus aureus* (ATCC 25923) and *Escherichia coli* (ATCC 25922).

2. Test these reference organisms daily by the above procedure using antibiotic discs

representative of those to be used in the testing of clinical isolates.

3. The zone sizes for the control organisms can be expected to fall in the ranges indicated in the following table:

Antibiotic	Disc content	Zone diameter in millimeters		Permitted millimeter difference
		With ATCC 25923	With ATCC 25922	
Ampicillin	10 µg	24-35	15-20	7 to 17.
Bacitracin	10 units	17-22		
Cephalothin	30 µg	25-37	18-23	5 to 16.
Chloramphenicol	30 µg	19-26	21-27	-4 to 1.
Colistin	10 µg		11-15	
Erythromycin	15 µg	22-30	8-14	10 to 19.
Gentamicin	10 µg	19-27	19-26	-2 to 3.
Kanamycin	30 µg	19-26	17-25	-1 to 4.
Methicillin	5 µg	17-22		
Neomycin	30 µg	18-26	17-23	0 to 3.
Novobiocin	30 µg	22-31		
Oleandomycin	15 µg	19-28		
Penicillin G	10 units	26-37		
Polymyxin B	300 units	7-13	12-16	-7 to -2.
Streptomycin	10 µg	14-22	13-20	-1 to 5.
Tetracycline	30 µg	19-28	18-25	0 to 6.
Vancomycin	30 µg	15-19		

G. LIMITATIONS OF THE METHOD

The method of interpretation described in E above applies to rapidly growing pathogens and should not be applied to slowly growing organisms. They show larger zones of inhibition than those given in the table. Susceptibility of gonococci to penicillin, and of *Bacteroides* species and fastidious anaerobes to any antibiotic, should be determined by the broth-dilution or agar-dilution method.

3. By revoking § 147.3 *Antibiotic-dehydrated media-triphenyltetrazolium chloride sensitivity discs; tests and methods of assay* and § 147.4 *Antibiotic-dehydrated media-triphenyltetrazolium chloride sensitivity discs; certification procedure*.

SECOND CONCLUSION

The Commissioner also concludes that antibiotic susceptibility disc are effective when labeling includes directions for the use of the standardized disc susceptibility test. Requests for certification of batches of the drugs described above or any other antibiotic susceptibility discs should provide labeling substantially in accord with the following guidelines:

TETRACYCLINE SUSCEPTIBILITY DISC
DESCRIPTION

Tetracyclines are active against a wide range of gram-negative and gram-positive organisms. The drugs in the tetracycline family have closely similar antimicrobial spectra and cross-resistance among them appears complete. Micro-organisms may be considered highly susceptible if the M.I.C. (minimal inhibitory concentration) is 0.5 microgram per milliliter or less, moderately susceptible if the M.I.C. is 0.5 to 2 micrograms per milliliter, and slightly susceptible if the M.I.C. is 2 to 5 micrograms per milliliter. Use of the tetracycline susceptibility disc affords a rapid, convenient, and reliable method for determining the in-vitro susceptibility of microorganisms to the tetracycline family of antibiotics. Each disc contains 30 micrograms of tetracycline.

DIRECTIONS FOR USE

Quantitative methods that require the measurement of zone sizes give the most precise estimates of antibiotic susceptibilities. The following outline describes such a procedure. Minor variations from this procedure may be used if the resulting procedure is standardized according to the results obtained in the laboratory from adequate studies with control cultures. (The standardized antibiotic disc susceptibility test described in proposed § 147.2(c)(2) above should be included at this point. The interpretative criteria in the table for tetracycline discs should be given.)

NEOMYCIN SUSCEPTIBILITY DISC
DESCRIPTION

(Descriptive information to be included by the manufacturer or the distributor should be confined to an appropriate description of the physical, chemical, and microbiological properties of the drug.) Use of the neomycin susceptibility disc affords a rapid, convenient, and reliable method for determining the in-vitro susceptibility of micro-organisms to neomycin. Each disc contains 30 micrograms of neomycin.

DIRECTIONS FOR USE

(This should be identical to labeling for the tetracycline susceptibility disc except that the appropriate criteria for the interpretation of zone sizes in the standardized procedure should be given.)

NOVOBIOCIN SUSCEPTIBILITY DISC
DESCRIPTION

(Descriptive information to be included by the manufacturer or distributor should be confined to an appropriate description of the physical, chemical, and microbiological properties of the drug.) Use of the novobiocin susceptibility disc affords a rapid, convenient, and reliable method for determining the in-vitro susceptibility of micro-organisms to novobiocin. Each disc contains 30 micrograms of novobiocin.

DIRECTIONS FOR USE

(This should be identical to labeling for the tetracycline susceptibility disc except that the appropriate criteria for the interpretation of zone sizes in the standardized procedure should be given.)

All other antibiotic susceptibility discs for which certification is requested should provide labeling substantially in accord with the following guidelines:

(name of drug) SUSCEPTIBILITY DISC
DESCRIPTION

(Descriptive information to be included by the manufacturer or distributor should be confined to an appropriate description of the physical, chemical, and microbiological properties of the drug.) Use of the (name of drug) susceptibility disc affords a rapid, convenient, and reliable method for determining the in-vitro susceptibility of micro-organisms to (name of drug). Each disc contains (the amount and name of drugs).

DIRECTIONS FOR USE

(This should be identical to labeling for the tetracycline susceptibility disc except that the appropriate criteria for the interpretation of zone sizes in the standardized procedure should be given.)

THIRD CONCLUSION

The Commissioner further concludes that antibiotic susceptibility discs are lacking substantial evidence of effectiveness for use as a reliable method for determining in-vitro the susceptibility of micro-organisms to a particular antibiotic unless they are labeled in accordance with this announcement.

Extension of Time for Comments

The Coast Guard published a notice of proposed rule making, CGFR 71-11, in the FEDERAL REGISTER of Wednesday, February 24, 1971 (36 F.R. 3425), that proposed changes to the navigation and vessel inspection regulations.

Several requests for extension of time to comment on that notice have been received. Extension of time is considered reasonable to allow all interested parties adequate opportunity to submit written data, views, arguments and comments.

As a result of comments received on Item PH 3-71, which concerned amendments to Subchapters D and I regarding minimum standards for subdivision and damage stability, all proposals under Item PH 3-71 of the notice are hereby withdrawn.

In consideration of the foregoing, the time for submitting written data, views, arguments and comments on all amendments proposed in CGFR 71-11, except those amendments proposed under Item PH 3-71, is extended to May 15, 1971.

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 2-15; Notice 7]

CHILD SEATING SYSTEMS

Notice of Proposed Rule Making

Federal Motor Vehicle Safety Standard No. 213, published March 23, 1970 (35 F.R. 5120), and amended September 23, 1970 (35 F.R. 14778), has been further amended today (36 F.R. 6895) to modify the requirements for the release mechanism of components that directly restrain the child and to specify an alternative release mechanism test procedure. This notice proposes to make the alternative test procedure issued today the sole procedure by which the Administration will test for compliance after January 1, 1972.

Prior to today's amendment to the standard, the test procedure specified for the release mechanism for components of the child seating system that directly restrain the child (S4.9) incorporated the requirements of Standard No. 209 for a Type 3 seat belt assembly. The alternative procedure specified in today's amendment tests the release mechanism as part of the entire child seating system. As such, it permits testing of release mechanism, such as those where one-half of the release mechanism is part of the child seat frame, that cannot be tested under the procedure incorporated from Standard No. 209. Because it enables the release mechanism to be tested as part of the overall child seat test, it is a more economical test as well. For enforcement purposes, it is highly desirable to avoid alternative test procedures for determining compliance whenever possible, and the procedure issued today appears to be the more appropriate and simpler of the two test procedures. Consequently, it is proposed that the alternative test published today become the sole test that is specified in the standard for testing the compliance of the release mechanism, and that the test incorporated from Standard No. 209 be deleted.

Proposed effective date: January 1, 1972.

In consideration of the foregoing, it is proposed that S4.9 of Federal Motor Vehicle Safety Standard No. 213, 49 CFR 571.21, be amended to read as set forth below:

§ 571.21 Federal Motor Vehicle Safety Standards.

MOTOR VEHICLE SAFETY STANDARD NO. 213
CHILD SEATING SYSTEMS

S4.9 *Release mechanism.* The mechanism for releasing components of a child seating system that directly restrain the child shall release when a force of not

more than 20 pounds is applied in accordance with S5.3.

Interested persons are invited to submit written data, views, or arguments pertaining to the proposed amendment. Submissions should refer to Docket 2-15, Notice 7, and should be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 4223, 400 Seventh Street SW., Washington, DC 20591. It is requested, but not required, that 10 copies be submitted. All comments received before the close of business on June 14, 1971, will be considered and will be available for examination in the docket at the above address, both before and after the closing date. To the extent possible, submissions filed after the above date will also be considered by the Administration. However, the rule-making action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rule-making. The Administration will continue to file relevant material, as it becomes available in the docket after the closing date and it is recommended that interested persons continue to examine the docket for new materials.

This notice of proposed rulemaking is issued under the authority of sections 103, 112, and 119 of the National Traffic and Motor Vehicle Safety Act of 1966, as amended (15 U.S.C. 1392, 1401, 1407), and the delegations of authority of 49 CFR 1.51 (35 F.R. 4955) and 49 CFR 501.8 (35 F.R. 11126).

Issued on April 7, 1971.

ATOMIC ENERGY COMMISSION

[10 CFR Part 50]

FUEL REPROCESSING PLANTS

Quality Assurance Criteria

The Atomic Energy Commission has under consideration amendments to its regulation, 10 CFR Part 50, "Licensing of Production and Utilization Facilities," which would make Appendix B to 10 CFR Part 50, "Quality Assurance Criteria for Nuclear Power Plants," applicable to fuel reprocessing plants.

Every applicant for a permit to construct a fuel reprocessing plant is required by the provisions of § 50.34(a) to include in the preliminary safety analysis report a description of the quality assurance program to be applied to the design, fabrication, construction, and testing of the structures, systems, and components of the facility. Every applicant for a license to operate a fuel reprocessing plant is required by § 50.34(b) to include in the final safety analysis re-

port, information pertaining to the managerial and administrative controls to be used to assure safe operation. While applicants for permits to construct or licenses to operate fuel reprocessing plants are required to provide quality assurance programs, there is no explicit requirement, at present, for compliance with the quality assurance requirements included in Appendix B to 10 CFR Part 50 "Quality Assurance Criteria for Nuclear Power Plants."

Fuel reprocessing plants include structures, systems, and components that prevent or mitigate the consequences of postulated accidents that could cause undue risk to the health and safety of the public. The purpose of the proposed amendments is to provide explicit quality assurance requirements for the design, construction, and operation of those structures, systems, and components by making Appendix B applicable to fuel reprocessing plants as well as nuclear powerplants. These requirements would apply to all activities during the design, construction, and operating phases of the fuel reprocessing plants which affect the safety-related functions of such structures, systems, and components.

The quality assurance requirements established by these criteria are intended to assure that:

(a) Applicable regulatory requirements and the design bases, as defined in § 50.2 and as specified in the license application, for structures, systems, and components are correctly translated into specifications, drawing, procedures, and instructions.

(b) Systems and components fabricated and tested in manufacturers' facilities conform to these specifications, drawings, procedures, and instructions.

(c) Structures, systems, and components constructed and tested at the facility conform to these specifications, drawings, procedures, and instructions.

(d) Succeeding activities, such as operating, testing, repairing, maintaining, and modifying, are conducted in accordance with quality assurance practices consistent with those employed during design and construction.

These criteria would also be used for guidance in evaluating the adequacy of the quality assurance programs in use by holders of construction permits and operating licenses for fuel reprocessing plants.

Pursuant to the Atomic Energy Act of 1954, as amended, and section 553 of title 5 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR Part 50 is contemplated. All interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed amendments should send them to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, within 60 days after publication of this notice in the FEDERAL REGISTER. Comments received after that period will be considered if it is practicable to do so,

PROPOSED RULE MAKING

but assurance of consideration cannot be given except as to comments filed within the period specified. Copies of comments received may be examined at the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

In § 50.34 (a) (7) and (b) (6) (ii) and in Appendix B the words "and fuel re-processing plants" are added after the words "nuclear power plants" where they appear.

Modification of Criteria for Determination of Commodity Eligibility

Special rule (4) contained in F.R. Doc. 70-17620, published in 35 F.R. 20015 (1970), follows:

(4) A.I.D. will not finance a bulk pharmaceutical product at a price which exceeds the lowest price charged by the supplier in any export sale of the item to any country, whether or not such sale has taken place under A.I.D. financing. A supplier under this rule may exclude in his calculation of his lowest price, the lowest priced 5 percent of his sales volume within the most nearly relevant sales period. The "lowest price" shall take into account all sales by the supplier of the product in export, without regard to any trademark or other differentiation between items which are pharmacologically identical. A.I.D. will not apply this special rule (4) in determining whether a product is "eligible and suitable" for A.I.D. financing if (i) there is no U.S. patent covering the product and (ii) the proposed sale is to a buyer who is not affiliated with the seller.

JAMES WALTER HATCHER

Notice of Granting of Relief

Notice is hereby given that James Walter Hatcher, Route 1, Ferrum, VA 24088, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his convictions on July 9, 1935, and May 23, 1936, in the U.S. District Court, Western Judicial District, Roanoke Division, Va., of crimes punishable by imprisonment for a term exceeding 1 year. Unless relief is granted it will be unlawful for James W. Hatcher because of such convictions, to ship, transport or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer,

dealer or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C. Appendix), because of such convictions, it would be unlawful for James W. Hatcher to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered James W. Hatcher's application and:

(1) I have found that the convictions were made upon charges which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the convictions and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code and delegated to me by 26 CFR 178.144: *It is ordered*, That James W. Hatcher be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the convictions hereinabove described.

Signed at Washington, D.C., this 19th day of March 1971.

Concession Permit**

Pursuant to the provisions of section 5, of the Act of October 9, 1965; (79 Stat. 969; 16 U.S.C. 20) public notice is hereby given that thirty (30) days after the date of publication of this notice, the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession permit with Frank P. Dickinson, doing business as Swan Tavern Antiques, authorizing him to provide for the sale of antiques representative of the colonial period to the public at Swan Tavern, Colonial National Historical Park, Yorktown, Va., for a period of two (2) years from January 1, 1971 through December 31, 1972.

The foregoing concessioner has performed its obligations under the expired permit to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in the negotiation of a new permit. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted within thirty (30) days after the publication date of this notice.

Interested parties should contact the Chief, Office of Concessions Management, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed permit.

Dated: March 29, 1971.

THOMAS FLYNN,
Deputy Director,
National Park Service.

**ORGANIZATION, FUNCTIONS, AND
DELEGATIONS OF AUTHORITY**

The notice published in the FEDERAL REGISTER on December 30, 1970 (35 F.R.

19798), is amended by revising paragraph III A 4 f to read as follows:

f. *Area Directors.* The Area Directors have responsibility within specific geographic areas for the administration of assigned Agricultural Stabilization and Conservation Service programs within ASCS State and county offices, and the Caribbean Area Office. The Area Directors are responsible for the activities of ASC State Committees within the established policies and procedures and assist in coordinating the program activities of ASCS State and county offices in their respective areas. They make recommendations to the Deputy Administrator, State and County Operations, for appointments to the ASC State Committee and other items pertinent to personnel matters in their respective areas. The Area Directors also carry out assigned defense activities.

(1) *ASC State Committees and the Director, ASCS Caribbean Area Office.* ASC State Committees and the Director, ASCS Caribbean Area Office recommend and suggest agricultural programs applicable to the State or Area. ASCS State Offices participate in the administration, and direct and coordinate the administration by county offices, of agricultural conservation and stabilization, production adjustment, price support, land use, diversion, cropland adjustment, sugar and other assigned programs, as well as assigned defense activities and natural disaster responsibilities. The ASC State Committee and the Director of the ASCS Caribbean Area Office report to the Area Director having responsibility for the geographic area to which the specific State or area is assigned.

(a) *ASC County Committees.* ASC County Committees recommend and suggest to the ASC State Committee agricultural programs applicable to the county. ASCS County Offices administer agricultural conservation and stabilization, production adjustment, price support, land use, diversion, cropland adjustment, sugar and other assigned programs requiring direct dealings with the farmer; and carry out assigned defense activities. The ASC County Committees report to their respective ASC State Committees.

Effective date: Date of publication (4-10-71).

SALES OF CERTAIN COMMODITIES

Monthly Sales List

The CCC Monthly Sales List for the fiscal year ending June 30, 1971, published in 35 F.R. 10922, is amended as follows:

1. The third line from the bottom of the Monthly Markup Table in section 26, entitled "Rice, Rough—Unrestricted Use Sales—FOB Warehouse", is revised to read as follows: "April—44¢ per cwt."

2. Section 33 entitled "Linseed Oil (Raw) Unrestricted Use Sales", is amended by the insertion of the following sentence after the first sentence: "For April the price will be \$0.1120 per pound."

3. Section 1(f) is revised to read as follows:

CCC will entertain offers to buy warehouse stocks of grains other than rice and oilseeds other than peanuts for deferred delivery up to 120 days from the date of sale. Prices of such sales will be in accordance with the CCC Monthly Sales List in effect at the time of sale plus storage and interest beginning 10 days after the date of sale. Storage charges will be in accordance with USSA rates and interest to date of payment will be at 6½ percent on sales made after 2:30 p.m., e.s.t., March 31, 1971. No cash advance will be required from responsible buyers, but buyers will be required to furnish CCC an irrevocable letter of credit covering the purchase price plus estimated storage and interest to the end of the delivery period.

4. Section 48 entitled "Nonfat Dry Milk—Unrestricted Use Sales", is revised to read as follows:

Sales are in carlots only in-store at storage location of products. Market price, but not less than the announced prices, under MP-14: Spray process, U.S. Extra Grade, 35 cents per pound packed in 50-pound bags.

5. Section 50 entitled "Butter—Unrestricted Use Sales", is revised to read as follows:

Sales are in carlots only in-store at storage location of products. Market price, but not less than the announced prices, under MP-14: 74.75 cents per pound—New York, Pennsylvania, New Jersey, New England, and other States bordering the Atlantic Ocean and Gulf of Mexico. All other States 73.75 cents per pound.

Signed at Washington, D.C., on April 2, 1971.

ANTIBIOTIC SUSCEPTIBILITY DISC: SO- DIUM NOVIOBIOCIN WITH TETRA- CYCLINE HYDROCHLORIDE

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following antibiotic drug for diagnostic use:

Albamycin-T Sensitivity Discs containing sodium novobiocin and tetracycline hydrochloride; the Upjohn Company, 7171 Portage Road, Kalamazoo, Mich. 49001 (61-389).

The Food and Drug Administration concludes that susceptibility discs containing a combination of sodium novobiocin and tetracycline hydrochloride lack substantial evidence of effectiveness for determining the sensitivity of microorganisms in vitro for administration of appropriate therapy.

No provision under section 507 of the Federal Food, Drug, and Cosmetic Act provides for the certification of a susceptibility disc containing sodium novobiocin and tetracycline hydrochloride. Also, the drug for which this disc was intended has been found to be ineffective as a fixed combination by the Food and Drug Administration based on an evaluation by the Academy and is no longer being marketed. Therefore, the above described article may not be legally marketed within the jurisdiction of the Federal Food, Drug, and Cosmetic Act.

The firm listed above has been furnished a copy of the NAS-NRC report. Any interested person may obtain a copy by request to the Food and Drug Administration, Press Relations Office, 200 C Street SW., Washington, D.C. 20204.

This notice is issued pursuant to the authority vested in the Secretary of

Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 502, 507; 52 Stat. 1050-51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

ARMOUR-BALDWIN LABORATORIES ET AL.

Adrenocorticotrophic Hormone; Notice of Opportunity for Hearing

In the FEDERAL REGISTER of May 13, 1969 (34 F.R. 7621), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration and the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, following evaluation by the Administration of reports received from the Academy on the following preparations which contain adrenocorticotrophic hormone as the designated active ingredient:

1. Dynamone; NADA (new animal drug application) No. 9-199V; Armour-Baldwin Laboratories, Division of Armour Pharmaceutical Co., Box 3113, Omaha, Nebr. 68103, and

2. D-40; NADA No. 9-199V; Armour-Baldwin Laboratories.

The announcement invited the above-named holder of said new animal drug applications, and any other interested persons, to submit pertinent data or revised labeling limiting the claims to those permitted in said announcement.

No data or revised labeling were received in response to the announcement, and available information fails to provide substantial evidence of effectiveness of the drugs for their recommended uses.

Efficacy data covering the below-listed products have also been reviewed by the Administration. These products are similar in composition to the previously cited products, but were not furnished to be reviewed by the Academy as requested in the notice regarding drug effectiveness which was published in the FEDERAL REGISTER of July 9, 1966 (31 F.R. 9426), and therefore were not evaluated by the Academy. The findings published in the announcement of May 13, 1969 (34 F.R. 7621), regarding drug effectiveness applies equally to the following products:

1. Corticotropin Solution; NADA No. 9-058V; Armour-Baldwin Laboratories and

2. ACTH (Veterinary); NADA No. 9-027V; Invehex Laboratories, 2176 Palou Avenue, San Francisco, Calif. 94124.

Therefore, notice is given to the above-named firms, and to any interested per-

son who may be adversely affected, that the Commissioner proposes to issue an order under section 512(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(e)) withdrawing approval of the new animal drug applications listed above and all amendments and supplements thereto held by said firms for the listed drug products on the grounds that:

Information before the Commissioner with respect to the drugs was evaluated together with the evidence available to him when the applications were approved. These data do not provide substantial evidence that the drugs have the effect they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

In accordance with the provisions of section 512 of the act (21 U.S.C. 360b), the Commissioner will give the applicants, and any interested person who would be adversely affected by an order withdrawing such approval, an opportunity for a hearing at which time such person may produce evidence and arguments to show why approval of the above-named new animal drug applications should not be withdrawn. Promulgation of the order will cause any drug similar in composition to the above-listed drug products and recommended for similar conditions of use to be a new animal drug for which an approved new animal drug application is not in effect. Any such drug then on the market would be subject to regulatory proceedings.

Within 30 days after publication hereof in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Office of the General Counsel, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing; or
2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing the approval of the new animal drug applications.

Failure of such persons to file a written appearance of election within said 30 days will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process which the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing, they must file a written appearance requesting the hearing and giving the reasons why approval of the new animal

drug application should not be withdrawn together with a well-organized and full-factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition.

A request for a hearing may not rest upon mere allegations or denials but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that no genuine and substantial issue of fact precludes the withdrawal of approval of the application, the Commissioner will enter an order stating his findings and conclusions on such data. If a hearing is requested and justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence. The time shall be not more than 90 days after the expiration of said 30 days, unless the hearing examiner and the applicant otherwise agree.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: April 1, 1971.

SAM D. FINE,
Associate Commissioner
for Compliance.

CERTAIN ANESTHETIC DRUGS FOR PARENTERAL OR TOPICAL USE

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following parenteral and topical anesthetic drugs:

I. Mepivacaine Hydrochloride 1% and 2%:

1. Carbocaine Hydrochloride Sterile Injection, marketed by Winthrop Laboratories, Division of Sterling Drug, Inc., 90 Park Avenue, New York, New York 10016 (NDA 12-250).

II. Mepivacaine Hydrochloride 3% and Mepivacaine Hydrochloride 2% with Levonordefrin:

1. Carbocaine Hydrochloride Sterile Solution, and

2. Carbocaine Hydrochloride with Neo-Cobefrin Sterile Solution, marketed by Cook-Waite Laboratories, Inc., 90 Park Avenue, New York, New York 10016 (NDA 12-125).

III. Procaine Hydrochloride:

1. Procaine Hydrochloride Sterile Solution, marketed by High Chemical Co., 1760 North Howard Street, Philadelphia, Pennsylvania 19122 (NDA 763).

2. Novocain Sterile Injection, marketed by Winthrop Laboratories (NDA 6-520).

IV. Metabutethamine Hydrochloride:

1. Unacaine Hydrochloride Injection, marketed by Novocol Chemical Manufacturing Co., Inc., 2911-23 Atlantic Avenue, Brooklyn, New York 11207 (NDA 8-066).

V. Procaine Hydrochloride with Tetracaine Hydrochloride and Levarterenol Bitartrate:

1. Novocain-Pontocaine Hydrochloride-Tevophed Injection, marketed by Cook-Waite Laboratories, Inc. (NDA 7-541).

VI. Procaine Hydrochloride with Tetracaine Hydrochloride and Levonordefrin:

1. Novocain-Pontocaine Hydrochloride-Neo-Cobefrin Sterile Solution, marketed by Cook-Waite Laboratories, Inc. (NDA 2-604).

VII. Propoxycaine Hydrochloride with Procaine Hydrochloride and Levarterenol Bitartrate or Levonordefrin:

1. Ravocaine HCl and Novocain with Levophed Sterile Solution, and

2. Ravocaine HCl and Novocain with Neo-Cobefrin Sterile Solution, marketed by Cook-Waite Laboratories, Inc. (NDA 8-952).

VIII. Butethamine Hydrochloride with Procaine Hydrochloride and Epinephrine:

1. Duocaine Injection, marketed by Graham Chemical Corp., 129-21 Merrick Boulevard, Springfield Gardens, New York 11434 (NDA 10-264).

IX. Propoxycaine Hydrochloride:

1. Blockain HCl Sterile Solution, marketed by Breon Laboratories, Inc., Subsidiary of Sterling Drug, Inc., 90 Park Avenue, New York, New York 10016 (NDA 9-868).

X. Hexylcaine Hydrochloride:

1. Cyclaine HCl Injection, marketed by Merck, Sharp and Dohme, Division of Merck and Co., Inc., West Point, Pennsylvania 19486 (NDA 8-232).

XI. Pyrrocaine Hydrochloride and Epinephrine:

1. Dynacaine Hydrochloride Injection with Epinephrine, marketed by Graham Chemical Corp. (NDA 13-239).

XII. Lidocaine Hydrochloride 5% with Dextrose:

1. Xylocaine Hydrochloride with Glucose Injection, marketed by Astra Pharmaceutical Products, Inc., 7 Neponset Street, Worcester, Massachusetts 01606 (NDA 10-496).

XIII. Lidocaine Hydrochloride 0.5%, 1%, 1.5%, and 2% with and without Epinephrine:

1. Xylocaine Hydrochloride Injection and

2. Xylocaine Hydrochloride Injection with Epinephrine, marketed by Astra Pharmaceutical Products, Inc. (NDA 6-488 and NDA 10-418).

XIV. Lidocaine Hydrochloride 4%:

1. Xylocaine Hydrochloride Sterile Solution for Injection and Topical Use and Xylocaine Hydrochloride Topical Solution, marketed by Astra Pharmaceutical Products, Inc. (NDA 10-417).

XV. Lidocaine Hydrochloride 2% Viscous:

1. Xylocaine Viscous, marketed by Astra Pharmaceutical Products, Inc. (NDA 9-470).

XVI. Lidocaine Hydrochloride 2% Jelly:

1. Xylocaine Jelly, marketed by Astra Pharmaceutical Products, Inc. (NDA 8-816).

XVII. Dibucaine Hydrochloride with Dextrose:

1. Nupercaine Hydrochloride Heavy Solution with Dextrose, marketed by Ciba Pharmaceutical Co., 556 Morris Avenue, Summit, NJ 07901 (NDA 6-203).

XVIII. Hexylcaine Hydrochloride with Dextrose:

1. Cyclaine HCl with Dextrose Injection, marketed by Merck, Sharp and Dohme, Division of Merck and Co., Inc. (NDA 7-382).

XIX. Hexylcaine Hydrochloride:

1. Cyclaine HCl Topical Solution, marketed by Merck, Sharp and Dohme, Division of Merck and Co., Inc. (NDA 8-472).

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new-drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. A new-drug application is required from any person marketing such drug without approval.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that:

1. Mepivacaine hydrochloride injection, 1% and 2%, is effective for production of local anesthesia by infiltration injection, nerve block, caudal, or other epidural blocks.

2. Mepivacaine hydrochloride 3% injection and mepivacaine hydrochloride 2% with levonordefrin injection are effective for production of local anesthesia for dental procedures by infiltration injection or nerve block.

3. Procaine hydrochloride injection is (a) effective for production of local anesthesia by infiltration injection, nerve block, caudal, or other epidural blocks; or for spinal anesthesia; and (b) possibly effective for intravenous analgesia.

4. Mebutethamine hydrochloride with epinephrine injection is effective for the production of local anesthesia by infiltration injection or nerve block.

5. Procaine hydrochloride with tetracaine hydrochloride and levarterenol bitartrate injection is effective as a local anesthetic for dental procedures by infiltration injection or nerve block.

6. Procaine hydrochloride with tetracaine hydrochloride and levonordefrin injection is effective as a local anesthetic for dental procedures by infiltration injection or nerve block.

7. Propoxycaine hydrochloride with procaine hydrochloride and levarterenol bitartrate injection; and propoxycaine hydrochloride with procaine hydrochloride and levonordefrin injection are effective as local anesthetics for dental

procedures by infiltration injection or nerve block.

8. Butethamine hydrochloride with procaine hydrochloride and epinephrine injection is effective as a local anesthetic for dental procedures by infiltration injection or nerve block.

9. Propoxycaine hydrochloride injection is effective for production of local anesthesia by infiltration injection or nerve block.

10. Hexylcaine hydrochloride and epinephrine injection (a) is effective as a local anesthetic for dental procedures by infiltration injection or nerve block and (b) lacks substantial evidence of effectiveness as a block anesthetic for use in the treatment of cerebral thrombosis or cardiac arrest.

11. Pyrrocaine hydrochloride and epinephrine injection is effective as a local anesthetic for dental procedures by infiltration injection or nerve block.

12. Lidocaine hydrochloride 5% and dextrose injection is effective for production of spinal anesthesia.

13. Lidocaine hydrochloride 0.5%, 1.0%, 1.5%, and 2.0% with and without epinephrine injection is effective for production of local anesthesia by infiltration injection, nerve block, caudal, or other epidural blocks.

14a. Lidocaine hydrochloride 4% sterile solution for injection is effective for the production of local anesthesia of the mucous membranes of the respiratory tract or the genito-urinary tract; for use trans-tracheally to anesthetize the larynx and trachea; and for retrobulbar anesthesia.

b. Lidocaine hydrochloride 4% is effective topically for production of local anesthesia of accessible mucous membranes of the oral and nasal cavities and the proximal parts of the digestive tract.

15a. Lidocaine hydrochloride 2% viscous is effective for providing symptomatic relief of pain when applied to irritated or inflamed mucous membranes of the mouth and pharynx.

b. Lidocaine hydrochloride 2% viscous is possibly effective in preventing gagging and vomiting while passing an esophageal or gastric tube and in the insertion of X-ray plate holders or impression trays into the oral cavity; for relief of pain and discomfort of post-tonsillectomy sore throat; for controlling hiccups and reflex vomiting; and for alleviating the dumping syndrome.

16a. Lidocaine hydrochloride 2% jelly is effective in the prevention and control of pain in procedures involving the male and female urethra and topical treatment of painful urethritis.

b. Lidocaine hydrochloride 2% jelly is possibly effective as an anesthetic for accessible mucous membranes and for its recommended use in a wide range of painful procedures in the ear, nose, and throat.

17. Dibucaine hydrochloride with dextrose injection is effective for production of spinal anesthesia.

18. Hexylcaine hydrochloride with dextrose injection is effective for the production of spinal anesthesia.

19. Hexylcaine hydrochloride topical is effective for production of topical

anesthesia of mucous membranes such as those of the respiratory tract, upper gastrointestinal tract, or urinary tract.

B. Conditions of approval and marketing. The Food and Drug Administration is prepared to approve abbreviated new-drug applications and abbreviated supplements to previously approved new-drug applications under conditions described herein.

1. *Form of drug.* a. Mepivacaine hydrochloride, mepivacaine hydrochloride with levonordefrin, procaine hydrochloride, methabutethamine hydrochloride with epinephrine, procaine hydrochloride with tetracaine hydrochloride and levarterenol bitartrate, procaine hydrochloride with tetracaine hydrochloride and levonordefrin, propoxycaine hydrochloride with procaine hydrochloride and levarterenol bitartrate or levonordefrin, butethamine hydrochloride with procaine hydrochloride and epinephrine, propoxycaine hydrochloride, pyrrocaine hydrochloride and epinephrine, and lidocaine hydrochloride (0.5%, 1%, 1.5%, 2.0%, and 4%) with and without epinephrine are sterile solutions suitable for parenteral administration.

b. Lidocaine hydrochloride with dextrose, procaine hydrochloride, dibucaine hydrochloride with dextrose, and hexylcaine hydrochloride with dextrose are sterile solutions suitable for intraspinal administration.

c. Lidocaine hydrochloride 4%, 2% viscous, and hexylcaine hydrochloride are in solution form suitable for topical application.

d. Lidocaine hydrochloride 2% jelly is in gel form suitable for topical application.

2. *Labeling conditions.* a. The labels bear the statement "CAUTION: Federal law prohibits dispensing without prescription."

b. The drugs are labeled to comply with all requirements of the Act and regulations. The labeling bears adequate information for safe and effective use of the drugs and is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970. The "Indications" sections are as follows:

INDICATIONS

i. For mepivacaine hydrochloride injection 1% and 2%:

This drug is indicated for the production of local anesthesia by infiltration injection, nerve block, caudal, or other epidural blocks.

ii. For mepivacaine hydrochloride 3% and mepivacaine hydrochloride 2% with levonordefrin injection:

This drug is indicated for the production of local anesthesia for dental procedures by nerve block or infiltration injection.

iii. For procaine hydrochloride injection: This drug is indicated for the production of local anesthesia by infiltration injection, nerve block, caudal, or other epidural blocks; or for spinal anesthesia.

iv. For metabutethamine hydrochloride with epinephrine injection:

This drug is indicated for the production of local anesthesia by infiltration injection or nerve block.

v. For procaine hydrochloride with tetracaine hydrochloride and levarterenol bitartrate injection:

This drug is indicated for the production of local anesthesia for dental procedures by infiltration injection or nerve block.

vi. For procaine hydrochloride with tetracaine hydrochloride and levonordefrin injection:

This drug is indicated for the production of local anesthesia for dental procedures by infiltration injection or nerve block.

vii. For propoxycaine hydrochloride with procaine hydrochloride and levarterenol bitartrate; or propoxycaine hydrochloride with procaine hydrochloride and levonordefrin injection:

This drug is indicated for the production of local anesthesia for dental procedures by infiltration injection or nerve block.

viii. For butethamine hydrochloride with procaine hydrochloride and epinephrine injection:

This drug is indicated for the production of local anesthesia for dental procedures by infiltration injection or nerve block.

ix. For propoxycaine hydrochloride injection:

This drug is indicated for the production of local anesthesia by infiltration injection or nerve block.

x. For hexylcaine hydrochloride injection:

This drug is indicated for the production of local anesthesia by infiltration injection or nerve block.

xi. For pyrrocaine hydrochloride and epinephrine injection:

This drug is indicated for the production of local anesthesia for dental procedures by infiltration injection or nerve block.

xii. For lidocaine hydrochloride 5% and dextrose injection:

This solution is indicated for the production of spinal anesthesia.

xiii. For lidocaine hydrochloride 0.5%, 1.0%, 1.5%, and 2.0% with or without epinephrine injection:

This drug is indicated for production of local anesthesia by infiltration injection, nerve block, caudal, or other epidural block.

xiv. For lidocaine hydrochloride 4% injectable and topical:

Lidocaine hydrochloride 4% sterile solution for parenteral use is indicated for the production of local anesthesia of the mucous membranes of the respiratory tract or the genito-urinary tract. It may be injected trans-tracheally to anesthetize the larynx and trachea. It may be administered by retrobulbar injection to provide anesthesia for ophthalmic surgery.

Lidocaine hydrochloride 4% for topical use is indicated for topical use for the production of local anesthesia of accessible mucous membranes of the oral and nasal cavities and proximal portions of the digestive tract.

xv. For lidocaine hydrochloride 2% viscous:

This drug is indicated for the production of topical anesthesia of irritated or inflamed mucous membranes of the mouth and pharynx.

xvi. For lidocaine hydrochloride 2% jelly:

This drug is indicated for prevention and control of pain in procedures involving the male and female urethra and for topical treatment of painful urethritis.

xvii. For dibucaine hydrochloride with dextrose injection:

This solution is indicated for the production of spinal anesthesia.

xviii. For hexylcaine hydrochloride with dextrose injection:

This solution is indicated for the production of spinal anesthesia.

xix. For hexylcaine hydrochloride topical:

This drug is indicated for the production of topical anesthesia of mucous membranes, such as those of the respiratory tract, upper gastrointestinal tract, or urinary tract.

3. *Marketing status.* Marketing of such drugs may be continued under the conditions described in the notice entitled "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study" published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273), as follows:

a. For holders of "deemed approved" new-drug applications (i.e., an application which became effective on the basis of safety prior to October 10, 1962), the submission of a supplement for revised labeling and an abbreviated supplement for updating information as described in paragraphs (a)(1)(i) and (iii) of the notice of July 14, 1970.

b. For any person who does not hold an approved or effective new-drug application, the submission of an abbreviated new-drug application as described in paragraph (a)(3)(i) of that notice.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

d. For indications for which the drug has been classified as possibly effective, continued use as described in (d), (e), and (f) of that notice.

e. *Opportunity for a hearing.* 1. The Commissioner of Food and Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of all new-drug applications and all amendments and supplements thereto providing for the indications for which substantial evidence of effectiveness is lacking as described in paragraph A of this announcement. An order withdrawing approval of the applications will not issue if such applications are supplemented, in accord with this notice, to delete such indications. Promulgation of the proposed order may cause any related drug for human use offered for the indications for which substantial evidence of effectiveness is lacking to be a new drug for which an approved new-drug application is not in effect. Any such drug then on the market would be subject to regulatory proceedings.

2. In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner will give the holders of any such applications and any interested person who would be adversely affected by such an order an opportunity for a hearing to show why such indications should not be deleted from labeling. A request for a hearing must be filed within 30 days after the date of publication of this notice in the FEDERAL REGISTER.

3. A request for a hearing may not rest upon mere allegations or denials but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing, together with a well-organized and full-factual analysis of the clinical and other investigational data that the objector is prepared to prove in a hearing. Any data submitted in response to this notice must be previously unsubmitted and include data from adequate and well-controlled clinical

investigations (identified for ready review) as described in § 130.12(a)(5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 F.R. 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for approval of claims of effectiveness, but such studies may be considered on their merits for corroborative support of efficacy and evidence of safety.

4. If a hearing is requested and justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence.

A copy of the Academy's report has been furnished each firm referred to above. Any other interested person may obtain a copy by request to the Food and Drug Administration, Press Relations Office (CE-200), 200 C Street SW., Washington, D.C. 20204.

[DESI 7819]

TOPICAL PREPARATIONS CONTAINING DIAMTHAZOLE DIHYDROCHLORIDE

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following antifungal drugs for topical use:

1. Asterol Powder (NDA 7-821),
2. Asterol Ointment (NDA 7-219), and

3. Asterol Tincture (NDA 7-820), all containing diamthazole dihydrochloride and marketed by Roche Laboratories, Division of Hoffmann-LaRoche, Inc., 340 Kingsland Avenue, Nutley, New Jersey 07110.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new-drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. A new-drug application is required from any person marketing such drug without approval.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that diamthazole dihydrochloride for topical use is effective for the prophylaxis and treatment of athlete's foot.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new-drug applications and abbreviated supplements to previously approved new-drug applications under conditions described herein.

1. *Form of drug.* Diamthazole dihydrochloride preparations are in powder, ointment, or liquid form suitable for topical administration.

2. *Labeling conditions.* a. The drug is labeled to comply with all requirements of the Act and regulations promulgated thereunder, and its labeling bears adequate directions and warnings under which a layman can use the drug safely and for the purpose for which it is intended. (Labeling guidelines are available from the Administration on request.)

b. The statement of identity, which includes the general pharmacological category or the principal intended action, required by § 1.102a (21 CFR 1.102a) appears in boldface type on the principal display panel.

c. The indications for use are: For the prevention and treatment of athlete's foot in adults.

3. *Marketing status.* Marketing of such drugs may be continued under the conditions described in the notice entitled "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study" published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273), as follows:

a. For holders of "deemed approved" new-drug applications (i.e., an application which became effective on the basis of safety prior to October 10, 1962), the submission of a supplement for revised labeling and an abbreviated supplement for updating information as described in paragraphs (a)(1)(i) and (iii) of the notice of July 14, 1970.

b. For any person who does not hold an approved or effective new-drug application, the submission of an abbreviated new-drug application as described in paragraph (a)(3)(i) of that notice.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

A copy of the Academy's report has been furnished to the firm referred to

above. Any other interested person may obtain a copy by request to the Food and Drug Administration, Press Relations Office (CE-200), 200 C Street SW., Washington, D.C. 20204.

H. G. OLLENDORFF, INC.

Order of Suspension and Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of April 1971.

By tariff revision¹ filed March 8, 1971, and marked to become effective April 8, 1971, H. G. Ollendorff (Ollendorff), an air freight forwarder, proposes to increase its domestic excess valuation charge from 10 to 25 cents for each \$100, or fraction thereof, by which the declared

¹ Revision to H. G. Ollendorff's Tariff CAB No. 5.

value of a shipment exceeds 50 cents per pound or \$50 per shipment (whichever is higher). No complaints have been filed.

Major forwarders generally have an excess valuation charge of 15 cents per \$100 on domestic traffic. Several proposed increased excess value charges above this level have previously been suspended by the Board, pending investigation, where no showing has been made that existing excess valuation revenues do not cover the amount of claim expense which stems from declaration of excess value.² Ollendorff has not submitted any data on the relationship between its revenues and losses attributable to declarations of excess valuation or made any other statement in support of its proposal.

Upon consideration of all relevant factors, the Board finds that the proposed excess valuation charge may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful, and should be investigated. We further conclude that the proposed charge should be suspended pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the charge and provisions in Rule 25(2) on second revised page 3 of CAB No. 5 issued by H. G. Ollendorff, Inc., and rules, regulations, or practices affecting such charge and provisions, are or will be, unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful charge and provisions and rules, regulations, or practices affecting such charge and provisions;

2. Pending hearing and decision by the Board, Rule 25(2) on second revised page 3 of CAB No. 5 issued by H. G. Ollendorff, Inc., is suspended and its use deferred to and including July 6, 1971, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding herein designated as Docket -----, be assigned for hearing before an examiner of the Board at a time and place hereafter to be designated; and

4. Copies of this order shall be filed with the tariffs and served upon H. G. Ollendorff, Inc., who is hereby made a party to this proceeding.

² The Board suspended, pending investigation, increased excess valuation charges proposed by: (1) Shulman Air Freight (Order 69-5-78, May 19, 1969, and Order 69-9-107, Sept. 18, 1969); (2) Eagle Air Dispatch, Inc. (Order 69-10-155, Oct. 31, 1969); (3) Satellite Air Freight, Inc. (Order 70-10-92, Oct. 19, 1970); (4) Hop Air Freight Forwarder, Inc. (Order 70-11-84, Nov. 19, 1970); (5) L.T.C. Air Cargo Inc. (Order 71-2-117, Feb. 26, 1971); and (6) Trans-Air Freight System (Order 71-3-94, Mar. 17, 1971).

This order will be published in the FEDERAL REGISTER.

[Docket No. 21813; Order 71-4-38]

UNITED AIR LINES, INC.

Order Regarding Petition for Extension of Carrier Discussions on Commodity Coding

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of April 1971.

By Order 70-2-32 dated February 9, 1970, the Board granted the domestic carriers authority to discuss the adoption of a standard commodity code system for 180 days, including but not limited to the STCC-based code (Association of American Railroads Standard Transportation Commodity Code). This authority was subsequently extended to February 4, 1971,¹ with no conclusive action to date by the carriers.²

By petition filed March 13, 1971, United Air Lines, Inc. (United), requests the Board to authorize discussions for an additional 60 days to permit the carriers to discuss and resolve the matter.³ In support of its request, petitioner states that an extensive compilation of air tariff commodity descriptions have been prepared, with appropriate matching to STCC codes and descriptions to the extent feasible; that a similar matching has been prepared showing conversion to SITC codes (United Nations Standard International Trade Classification); but that such compilations were not completed and circulated until on or about February 5, 1971. Consequently, according to United, the carriers have not had an opportunity to study and discuss to a conclusion the choice of codes, and that additional time is needed to see if an agreement can be reached as to a particular code, and to prepare new tariff descriptions as an adjunct to such agreement to be filed with the Board for its approval.⁴

No person has opposed the petition.

An improved uniform standard commodity description and numbering system should facilitate the interlining of domestic air shipments, as well as intermodal (surface-air) shipments, by permitting faster and more accurate rating of shipments through the use of common terminology, and should facilitate the development of statistical data by

¹ Order 70-8-17 dated Aug. 5, 1970.

² Order 70-6-109 dated June 18, 1970, authorized Emery Air Freight Corp. and other interested scheduled U.S. route air carriers and domestic indirect air carriers to participate in the authorized discussions.

³ United served copies of its petition on the following parties: Airlift International, Inc., American Airlines, Inc., Continental Air Lines, Inc., Eastern Air Lines, Inc. (Eastern), Emery Air Freight Corp., The Flying Tiger Line Inc., Trans World Airlines, Inc.

⁴ By answer filed Mar. 26, 1971, Eastern supports the petition.

commodity, thus benefiting both the carriers and the shipping public. It appears that the carriers have made substantial progress although an agreement has not been reached.

The intended purpose of the discussions appears to be in the public interest and the result is one that could not be achieved readily by individual carrier action. The Board will therefore authorize the carriers to discuss a standard commodity description and numbering system for an additional 60 days: *Provided, however,* That such authorization shall not extend to any discussion of rates or rate levels. In addition, to insure that shippers are kept fully apprised of the carriers' progress in this undertaking, the Board will condition its approval to provide opportunity for shipper participation in the discussions. Our authorization shall be again further conditioned to provide for the attendance of Board observers, the filing of the minutes of the discussions, and that any agreement which may be reached shall not be implemented unless and until approved by the Board.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 412 and 414 thereof,

It is ordered, That:

1. Airlift International, Inc., American Airlines, Inc., Continental Air Lines, Inc., Eastern Air Lines, Inc., Emery Air Freight Corp., The Flying Tiger Line, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and other interested scheduled U.S. route air carriers and domestic indirect air carriers are authorized to engage in discussions of commodity-description and numbering systems for interstate and overseas application for 60 days following the date of this order;

2. A notice of any meeting called pursuant to this order shall be filed with the Board in this docket and mailed to all interested persons upon request and to all scheduled domestic air carriers at least 10 calendar days prior to such meetings;

3. The Civil Aeronautics Board reserves the right to have one or more observers in attendance at these meetings;

4. Interested persons shall have the right to file written comments with the Board in this Docket, and with the carriers, at any time, and shall, upon request, be permitted to meet with and present their views to the carriers;

5. Complete and accurate minutes shall be kept of all discussions by the carriers, and a true copy thereof filed with the Board and mailed to all interested shippers and air carriers not later than 20 days after the conclusion of each meeting;

6. Any agreement or agreements reached as a result of such discussions shall be filed with the Board in accordance with section 412 of the Federal Aviation Act of 1958, and mailed to all interested shippers and air carriers, and approved by the Board prior to being placed in effect or filed in tariff form; and

7. A copy of this order will be served upon Airlift International, Inc., American Airlines, Inc., Continental Air Lines, Inc., Eastern Air Lines, Inc., Emery

Air Freight Corp., The Flying Tiger Line Inc., Trans World Airlines, Inc., United Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Secretary.

COMMON CARRIER SERVICES INFORMATION¹

Domestic Public Radio Services Applications Accepted for Filing²

APRIL 5, 1971.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the list below, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed below if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS
COMMISSION,

[SEAL] BEN F. WAPLE,
Secretary.

¹ All applications listed below are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

² The above alternative cut-off rules apply to those applications listed below as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio, and Local Television Transmission Services (Part 21 of the rules).

FEDERAL MARITIME COMMISSION

GULF-EUROPEAN FREIGHT ASSOCIATION

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1202; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary,

Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

E. W. Patterson, Traffic Manager, Continent—United Kingdom Services, Lykes Bros. Steamship Co., Inc., 821 Gravier Street, New Orleans, LA 70150.

Agreement No. 9360-2 modifies the agreement's self-policing provisions to include the mandatory provisions required by the Commission's General Order 7, as revised October 27, 1970, and formally adopts for the agreement the name of the Gulf-European Freight Association.

Dated: April 7, 1971.

By the Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CP71-234]

EL PASO NATURAL GAS CO.

Notice of Application

APRIL 6, 1971.

Take notice that on March 29, 1971, El Paso Natural Gas Co. (applicant), Post Office Box 1492, El Paso, TX 79999, filed in Docket No. CP71-234 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing, on its Southern Division System, the construction and operation of certain mainline facilities, the acquisition and operation of certain field gathering facilities and the transportation of natural gas for Arizona Public Service Co. (Arizona), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, applicant seeks authorization to transport up to 32,000 Mcf of natural gas daily for and on behalf of Arizona from the Delaware Basin Area, Pecos County, Tex., to a point of delivery in the Phoenix, Ariz., area. In order to accomplish this service, applicant states that it will be necessary to construct and operate certain mainline facility additions, 14 miles of 30-inch

loop line and a total of 11,800 additional compressor horsepower at various compressor stations and a measurement station at the West Phoenix Plant. Applicant proposes to acquire without cost from Arizona, field facilities to be constructed by or for the account of Arizona consisting of 3.2 miles of 8-inch field pipeline to connect Arizona's source of supply to applicant's Gomez Field supply lateral.

The total estimated cost of the facilities to be constructed and operated by applicant is \$5,481,413 which cost applicant states will be financed through the use of working funds supplemented by short-term borrowing. The estimated cost of the facilities to be acquired, without cost, from Arizona and operated by applicant is \$102,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 27, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Acting Secretary.

MICHIGAN GAS STORAGE CO.

Notice of Proposed Change in FPC Gas Tariff

APRIL 5, 1971.

Take notice that on March 30, 1971, Michigan Gas Storage Co. (Storage

Company) filed changes in its FPC Gas Tariff to be effective as of April 30, 1971. The proposed tariff revisions provide that Storage Company will continue to calculate its monthly cost-of-service changes to Consumers Power Co., its sole customer, as in the past, except that the annual rate of return on depreciated investment plus working capital will be increased from 7.25 percent to 8.10 percent.

Storage Company states the proposed change in the rate of return is justified because the present long-term debt of the company, which has a weighted average interest cost of 4.37 percent, matures on May 1, 1971, and must be refinanced largely through the issuance of a new 3-year bank note in the amount of \$7,500,000 bearing interest at the rate of 6.375 percent.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 19, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

Acting Secretary.

NATIONAL GAS SURVEY TECHNICAL ADVISORY COMMITTEES

Order Establishing Committee and Designating Initial Membership

APRIL 6, 1971.

The Federal Power Commission hereby determines that the establishment of National Gas Survey Technical Advisory Committees, functioning separately as Technical Advisory Committee-Supply, Technical Advisory Committee-Transmission and Technical Advisory Committee-Distribution, is in the public interest and establishes such committees in accordance with the provisions of the Commission's order issued February 23, 1971, 36 F.R. 3851. It is contemplated that various task forces under each committee will be established from time to time by subsequent orders.

1. *Purpose.* The Technical Advisory Committees shall be subordinate to the Executive Advisory Committee and shall report to such Committee and to the Director of the National Gas Survey (Director) on all matters delegated to them pertaining to the planning, conduct, and execution of the National Gas Survey.

The principal functions of the Technical Advisory Committees shall be as fol-

lows: (1) To carry out all directions of the Executive Advisory Committee or the Director pertaining to the planning, conduct, and execution of the Survey; (2) to recommend guidelines, as requested by the Executive Advisory Committee or the Director, for the detailed work encompassed in the conduct of the Survey and to allocate work assignments to the task forces organizationally subordinate to them; (3) to recommend a proposed time schedule for the development and completion of all assignment phases of the Survey; (4) to coordinate all facets of work allocated to organizationally subordinate task forces; (5) to submit periodic reports to the Executive Advisory Committee and the Director as to the progress and status of the Survey together with such recommendations pertaining thereto as may be appropriate; and (6) to furnish such other assistance and advice to the Executive Advisory Committee and the Director as they may from time to time be called upon to contribute for the successful planning and conduct of the Survey.

2. *Membership.* Each of the Technical Advisory Committees shall be chaired by a member of the Executive Advisory Committee or such other person as selected, and he shall be designated as Vice Chairman of the respective Technical Advisory Committee. The Vice Chairmen, FPC Survey Coordinating Representatives, Secretaries, the other committee members and alternates shall be

selected and designated by the Chairman of the Commission with the approval of the Commission. The person or persons who are designated as the FPC Survey Coordinating Representatives and/or Secretary shall be full-time salaried officers or employees of the Commission. The FPC Survey Coordinating Representative may be designated to serve as Secretary of the Committee for which he is selected.

4. The Vice Chairmen, FPC Survey Coordinating Representatives and Secretaries, as selected and approved in accordance with this order, are designated in the appendix hereto.

5. The following paragraphs of the aforementioned order issued February 23, 1971, are hereby incorporated by reference:

- 3. Conduct of Meetings.
- 4. Minutes.
- 5. Secretary of the Committee.
- 6. Location and Time of Meetings.
- 7. Advice and Recommendations Offered by the Committee.
- 8. Duration of the Committee.

The Secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER in accordance with the provisions of the Office of Management and Budget Circular No. A-63.

By the Commission.

NATIONAL GAS SURVEY EXECUTIVE ADVISORY COMMITTEE

Order Establishing Committee and Designating Membership and Chairmanship

APRIL 6, 1971.

The Federal Power Commission hereby determines that the establishment of the National Gas Survey Executive Advisory Committee is in the public interest and establishes this committee in accordance with the provisions of the Commission's order issued February 23, 1971, 36 F.R. 3851.

1. *Purpose.* The Executive Advisory Committee shall constitute the principal

policy advisory committee to the Commission and its staff in the Commission's planning, conduct and execution of the National Gas Survey. In this policy advisory role, the Executive Advisory Committee will be called upon to offer suggestions (a) to assist the Commission and its Director of the National Gas Survey (Director) in their activities in formulating planning assumptions and directing the work of the Survey including the work of other advisory committees; (b) to assist in establishing priorities for work to be performed and in the coordination of all aspects of the Survey; (c) to assist in assembling and assimilating the vast

amount of comprehensive, accurate and reliable data required for the Survey; and (d) to assist in such other ways as it may from time to time be called upon by the Commission or the Director.

2. *Membership.* The Chairman, Secretary and other members of the Executive Advisory Committee, as selected by the Chairman of the Commission with the approval of the Commission, are designated below.

3. *Selection of Future Committee Members.* All future committee members, alternates, and persons designated to act as committee chairmen shall be selected and designated by the Chairman of the Commission with the approval of the Commission.

4. The following paragraphs of the aforementioned order issued February

23, 1971, are hereby incorporated by reference:

3. Conduct of Meetings.
4. Minutes.
5. Secretary of the Committee.
6. Location and Time of Meetings.
7. Advice and Recommendations Offered by the Committee.

FEDERAL RESERVE SYSTEM CENTRAL AND STATE NATIONAL CORP.

Order for Oral Presentation

On February 11, 1971, there was published in the FEDERAL REGISTER (36 F.R. 2881) a notice of receipt by the Board of Governors of an application filed pursuant to section 3(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)) by Central and State National

Corp., Birmingham, Ala., for prior approval by the Board of action whereby applicant would become a bank holding company through the acquisition of 80 percent or more of the voting shares of Central Bank and Trust Company, Birmingham, and State National Bank of Alabama, Decatur.

The aforesaid published notice advised that the application was available for study at the office of the Board of Governors and the Federal Reserve Bank of Atlanta, and designated a period within which comments and views on the pro-

posed acquisition could be filed with the Board.

In view of the numerous comments on the proposal received, it appears to the Board that it is appropriate in the public interest that there be conducted before the Board a public oral presentation at which views and comments with respect to this application might be presented. In connection with a hearing held on the application of First Alabama Bancshares, Inc., Birmingham, Ala., the Board received oral testimony on the questions whether the formation of a multi-bank holding company would violate Alabama branching laws, and whether holding companies in general would be beneficial to the State. Accordingly:

It is hereby ordered, That pursuant to § 262.3(f) of the Board's rules of procedure (12 CFR 262.3(f)) a public oral presentation be held with respect to this application commencing at 9 a.m. on May 13, 1971, at the Birmingham Branch of the Federal Reserve Bank of Atlanta, 1801 Fifth Avenue, North, Birmingham, AL. In the light of the hearing on the First Alabama application, oral testimony at the public oral presentation will be limited to the statutory criteria specified in § 3 of the Act, and will not include testimony on the branching laws or the benefits or disadvantages of holding companies in general. Written statements on those latter matters will be received.

It is further ordered, That any person desiring to present comments and views at the scheduled oral presentation should file with the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, no later than April 29, 1971, written notice of intent to appear before the Board at said oral presentation, such written notice to contain a brief summary of the statement which will be presented at the oral presentation, and the name of the person who proposes to appear.

By order of the Board of Governors, April 5, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

MISSOURI BANCSHARES, INC.

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), by Missouri Bancshares, Inc., which is a bank holding company located in Kansas City, Mo., for prior approval by the Board of Governors of the acquisition by applicant of 83 percent or more of the voting shares of Arnold Savings Bank, Arnold, Mo.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination

or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of Kansas City.

By order of the Board of Governors,
April 5, 1971.

Deputy Secretary.

a. Chief, District Financing Division, Anchorage, Alaska, and Branch Manager Fairbanks, Alaska, for the following disasters:

(1) Alaska, city of Fairbanks, Town of Nenana, Disaster No. 634.

b. Chief, District Financing Division, Portland, Ore. for the following disasters:

(1) Oregon, Clatsop, Tillamook, Disaster No. 806.

4. To approve or decline disaster loans (excluding displaced business loans; coal mine health and safety loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) not exceeding \$50,000 (SBA share):

a. Regional Supervisory Loan Officer (Financing Division), for the following disasters:

(1) Alaska, city of Fairbanks, Town of Nenana, Disaster No. 634.

(2) Washington, Lewis, Grays Harbor, Thurston, and Whatcom, Disaster No. 800.

(3) Oregon, Clatsop, Tillamook, Disaster No. 806.

5. To establish disaster field offices upon receipt of advice of the designation of a disaster area; to advise on the making of disaster loans; to appoint as a processing representative any bank in the disaster area; and to close disaster field offices when no longer advisable to maintain such offices:

a. Chief and Assistant Chief, Regional Financing Division, for the following disasters:

(1) Alaska, city of Fairbanks, Town of Nenana, Disaster No. 634.

(2) Washington, Lewis, Grays Harbor, Thurston, and Whatcom, Disaster No. 800.

(3) Oregon, Clatsop, Tillamook, Disaster No. 806.

b. District Director, Anchorage, Alaska, for the following disasters:

(1) Alaska, city of Fairbanks, Town of Nenana, Disaster No. 634.

c. District Director, Portland, Ore., for the following disasters:

(1) Oregon, Clatsop, Tillamook, Disaster No. 806.

Effective date for:

1. Disaster No. 634, January 11, 1971.

2. Disaster No. 800, February 9, 1971.

3. Disaster No. 806, February 18, 1971.

FEDERAL CERTIFICATION TEST RESULTS FOR 1971 MODEL YEAR

ENVIRONMENTAL PROTECTION AGENCY

Office of the Administrator FEDERAL CERTIFICATION TEST RESULTS FOR 1971 MODEL YEAR

Motor Vehicles

Section 206(e) of the Clean Air Amendments of 1970 directs the Administrator of the Environmental Protection Agency to announce in the FEDERAL REGISTER the results of certification tests conducted on new motor vehicles to determine conformity with Federal standards for the control of air pollution caused by motor vehicles.

FEDERAL EMISSION STANDARDS

The standards that apply to the control of emissions from 1971 model year vehicles were prescribed as regulations on June 4, 1968. These regulations, appearing at 45 CFR Part 1201 set maximum allowable emission levels for new gasoline fueled heavy-duty engines (for use in trucks and buses), diesel fueled heavy-duty engines (for use in trucks and buses), and gasoline fueled light-duty vehicles (automobiles). Heavy-duty gasoline fueled engines are required to meet emission standards of 275 parts per million (p.p.m.) for hydrocarbons (unburned gasoline) and 1.5 percent for carbon monoxide (a poisonous gas). Heavy duty diesel engines must meet Federal smoke emission standards of 40 percent opacity during acceleration and 20 percent opacity during lugging. These opacity standards limit the darkness of the exhaust smoke to a light gray haze.

The standards for automobiles prohibit all crankcase emissions, and limit allowable exhaust emissions and evaporative emissions from the fuel system. The exhaust standards allow 1971 automobiles to emit no more than 2.2 grams per mile of hydrocarbons and 23 grams per mile of carbon monoxide from the tailpipe. To meet the evaporative emission standard, automobiles must be equipped with systems to limit the loss of gasoline by evaporation from the carburetor and the fuel tank to less than 6 grams per test (or approximately 0.5 gram per mile).

It is useful to compare the standards with the emission levels of uncontrolled vehicles, i.e., vehicles built prior to model year 1968, the first year in which Federal emission control standards were applicable. Vehicles without crankcase controls vented about 3.7 grams hydrocarbons per mile from the crankcase. The average uncontrolled vehicle also produced tailpipe emissions of 11.2 grams per mile of hydrocarbons and 73.0 grams per mile carbon monoxide, when measured in accordance with the test procedures used to determine compliance with the 1971 model year standards. Uncontrolled vehicles are estimated to emit about 2.8 grams per mile of hydrocarbons by evaporation from the gasoline tank and the carburetor.

FEDERAL CERTIFICATION PROCEDURES

Under the provisions of the Clean Air Act, it is unlawful to offer for sale new motor vehicles which are not in conformity with Federal regulations. Prior to the beginning of each new model year, automobile manufacturers apply to the Administrator of the Environmental Protection Agency for a Certificate of Conformity for each model they wish to produce for that year. The Federal regulations prescribe a number of requirements which a manufacturer must meet before the Administrator will grant certification. These requirements are designed to provide the Administrator with information to assure that the vehicles to be produced will conform with the regulations.

In advance of production, the manufacturers are required to provide the Administrator with extensive test data demonstrating the effectiveness of the vehicle's emission control and the ability of the emission control system to remain effective over the expected life of an average vehicle (100,000 miles). In addition to the submission of test data on the prototype test vehicles, the manufacturers are required to deliver the test vehicles to the Federal Testing Laboratory at Ypsilanti, Mich. At this facility the vehicles are retested by Federal engineers to assure conformity with the regulations.

The regulations require a manufacturer to test a selection of prototype vehicles which will represent the models to be sold to the public. These vehicles are grouped into two separate fleets. One fleet, known as the emission data fleet, is designed to reflect the emissions of relatively new vehicles. The vehicles in this fleet are driven for 4,000 miles, to break in the engine and stabilize emissions; they are then tested for compliance with the standards. The second fleet, known as the durability data fleet, is designed to determine the capability of the emission control system to keep

emissions within the standards over the expected useful life of the vehicle. The vehicles in this fleet are driven for 50,000 miles and tested for compliance with the regulations every 4,000 miles. The test data from these two fleets are combined in accordance with formulae specified in these regulations, and a deterioration factor established for each group of engines. The deterioration factors are then applied to the 4,000-mile emission test values. If the motor vehicles so tested are found to conform with the regulations, the manufacturer is granted a Certificate of Conformity.

FEDERAL CERTIFICATION DATA

The average emission levels measured for each model certified as of March 1, 1971, for the 1971 model year are listed below. This listing should not be construed as an endorsement by the Environmental Protection Agency of any manufacturer's vehicles or models.

The detailed test results are available for public inspection at the Air Pollution Control Office, Main Terminal Building, Willow Run Airport, Ypsilanti, Mich., and may be obtained upon written request to the Administrative Officer at the same address. Requests should specify the vehicle of interest by make, model, model year, and engine displacement. Fees for supplying data will be charged according to the following schedule:

1. Search for records—\$3 per hour.
2. Reproduction, duplication, or copying of records—\$0.25 per page.
3. Certification of authentication of records—\$5 per certification.
4. Forwarding material to destination, postage, insurance, and special fees will be charged on an actual cost basis.

The emission levels listed below summarize the test data developed in the certification program.

Dated: April 2, 1971.

WILLIAM D. RUCKELSHAUS,
Administrator.

UNITED STATES GOVERNMENT ORGANIZATION MANUAL 1970/71

presents essential information about Government agencies (updated and republished annually). Describes the creation and authority, organization, and functions of the agencies in the legislative, judicial, and executive branches. This handbook is an indispensable reference tool for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government. The United States Government Organization Manual is the official guide to the functions of the Federal Government, published by the Office of the Federal Register, GSA.

\$3.00 per copy. Paperbound, with charts
