RIN 2125-AC27

Weight Threshold Adjustment for Commercial Motor Vehicles

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Withdrawal of advance notice of proposed rulemaking; closing of public docket.

SUMMARY: The FHWA is withdrawing its advance notice of proposed rulemaking (ANPRM) addressing the commercial motor vehicle weight threshold for the applicability of the Federal Motor

Carrier Safety Regulations (FMCSRs). The comments received in response to the ANPRM provided no significant evidence to support amending the current regulations. The definition of "commercial motor vehicle" will remain unchanged.

FOR FURTHER INFORMATION CONTACT: Mr. Jeffrey J. Van Ness, Office of Motor Carrier Standards, (202) 366-2981, or Mr. David Sett, Office of the Chief Counsel, (202) 366-0834, Federal Highway Administration, Department of Transportation, 400 Seventh Street, SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except legal Federal holidays.

SUPPLEMENTARY INFORMATION: On February 17, 1989, the FHWA published an ANPRM in which comments were requested on whether the FHWA should continue to use its current gross vehicle weight rating (GVWR) criterion in the definition of "commercial motor vehicle" found in 49 CFR 390.5 of the FMCSRs. 54 FR 7224. The FMCSRs apply to vehicles in interstate commerce having a GVWR or a gross combination weight rating (GCWR) of greater than 10,000 pounds (as well as certain vehicles transporting passengers and hazardous materials not addressed in the ANPRM). Comment was also sought on weight thresholds under State law. The ANPRM was issued expressly in response to a petition from the Delaware Department of Public Safety asking that State laws and regulations which apply only to commercial motor vehicles (CMVs) having a GVWR or a GCWR in excess of 26,000 pounds be considered compatible with the FMCSRs for purposes of the Motor Carrier Safety Assistance Program (MCSAP). Federal grant funds under MCSAP may be withheld from States with incompatible laws affecting either interstate or intrastate commerce.

The FHWA posed various questions in the ANPRM in regard to changing the weight criterion, including whether the threshold should be raised and whether factors other than the GVWR should be included in the definition of commercial motor vehicles as found in 49 CFR 390.5. Noting the higher accident rate for vehicles with a GVWR above 26,000 pounds than for those below, the FHWA further stated it was particularly interested in receiving accident and enforcement data from the various States and local governments, some of which apply the higher threshold. The FHWA also requested that commenters submit any other information available concerning the
