

Promotion, Research, and Information Act (Act). The Act authorizes a national industry-funded program for sheep and wool promotion, research, education, and information.

Interested parties are also invited to submit views on whether it would be beneficial to hold a public meeting during an ensuing comment period to discuss the proposals.

DATES: Proposals must be received by February 3, 1995.

ADDRESSES: Proposals (two copies) should be mailed to: Ralph L. Tapp, Chief, Marketing Programs Branch, Livestock and Seed Division, Agricultural Marketing Service (AMS), USDA, Room 2624-S; P.O. Box 96456; Washington, D.C. 20090-6456.

FOR FURTHER INFORMATION CONTACT: Ralph L. Tapp on 202/720-1115.

SUPPLEMENTARY INFORMATION: The Sheep Promotion, Research, and Information Act, enacted on October 22, 1994, authorizes the establishment of a national sheep and wool promotion, research, education, and information program financed through assessments on both domestic and imported sheep and sheep products, including exports of live sheep and greasy wool. The nationwide program will be administered by the National Sheep Promotion, Research, and Information Board, composed of 120 members, including 85 producers, 10 feeders and 25 importers, who will be appointed by the Secretary of Agriculture to represent units. The term units means each State, group of States, or class designation that is represented on the Board.

To establish the initial Board, the Secretary will solicit nominations from eligible producer, feeder, and importer organizations. Organizations that represent the producer segment of the industry must meet certain criteria in order to be certified to submit nominations for that industry segment. If no producer organization is certified to submit nominations for a State unit, or if no feeder or importer organization is eligible to submit nominations for those industry segments, then the Secretary shall use other means to secure nominations for appointment to the Board.

Funds will be collected by assessing domestic producers, feeders, and exporters 1 cent per pound of live sheep sold and 2 cents per pound of greasy wool sold. Importers will be assessed: (1) 1 cent per pound of live sheep imported; (2) the equivalent of 1 cent per pound of live sheep for sheep products imported; and (3) 2 cents per pound of degreased wool or the equivalent of degreased wool for wool

and wool products imported. Imported raw wool is exempt from assessments. All assessment rates may be adjusted in accordance with applicable provisions of the Act.

Because the Act permits an association of producers to request the issuance of an order and to submit a proposal, the Department of Agriculture will receive written proposals for a sheep and wool promotion, research, education, and information order, or for various provisions thereof. Proposals must be submitted in duplicate to the Marketing Programs Branch, Livestock and Seed Division; AMS, USDA, Room 2624-S; P.O. Box 96456, Washington, D.C. 20090-6456, and must be received in the Department by February 3, 1995.

Proposals should include: (1) the proposed order language; (2) a description of the proposed order provisions; (3) an explanation of the nature and purpose of the proposed order provisions; (4) references to the section of the Sheep Promotion, Research, and Information Act that would be implemented by an order provision; and (5) any other pertinent information concerning a proposal that would assist in the process of implementing the Act.

The Department will only publish for public comment in the **Federal Register** proposals that are consistent with the Act.

Discussion

This proposed rule would amend 7 CFR part 1421 to set forth the minimum CCC sales price for the 1995 crop of

additional peanuts sold for export edible use.

A minimum price, at which additional peanuts owned or controlled by CCC may be sold for use as edible peanuts in export markets, is expected to be announced on or before February 15, 1995, at the same time that the quota and additional peanut support levels for the 1995 crop are announced. The announcement of the price provides producers and handlers with information to facilitate the negotiation of private contracts for the sale of additional peanuts.

An overly high price may create an unrealistic expectation of high pool dividends and discourage private sales. If too low, the minimum price could have an unnecessary, adverse effect on prices paid to producers for additional peanuts.

It is proposed that the minimum price at which the 1995 crop of additional peanuts owned or controlled by CCC may be sold for use as edible peanuts in export markets be established at \$400 per st, the same as for the 1994 crop. This level will maintain exports while providing price stability for additional peanuts sold under contract. It will also assure handlers that CCC will not undercut their export contracting efforts with offerings of additional peanuts for export edible sale below the minimum sales price.

Accordingly, comments are requested with respect to these foregoing issues.

[Docket No. 94-ANE-31]

Airworthiness Directives; Aerospace Lighting Corporation Power Units and Power Supplies

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the superseding of an existing airworthiness directive (AD), applicable to certain Aerospace Lighting Corporation (ALC) lamp connectors and fluorescent lamps, that currently requires an inspection, and adjustment or replacement of improperly installed, damaged, or improperly configured lamp connectors and fluorescent lamps used in cabin fluorescent lighting systems. This action would add an optional replacement of certain power units and power supplies with improved design parts as terminating action to the repetitive inspections. This proposal is prompted by the availability of improved design components. The actions specified by the proposed AD are intended to prevent smoke, fire, electrical shock, and possible electromagnetic interference caused by high voltage arcing in the cabin which, if undetected, could result in personal hazard or loss of the aircraft.
