the PSE&G metering facilities; and to construct and operate a new 8-inch tap on Transco's 36-inch Caldwell Loop Line "B" at milepost 1831.70 and approximately 300 feet of 8-inch pipeline and a meter station at the existing Clifton delivery point site. Transco states that PSE&G would reimburse Transco for all the cost of these facilities estimated to be \$636,532. Transco states that Transco currently delivers up to 10,000 Mcf of natural gas per day (Mcf/d) to PSE&G at the Clifton delivery point and that with the proposed expansion would be able to deliver up to 50,000 Mcf/d on a firm and/or interruptible basis at the Clifton delivery point.

Transco states that it is not proposing to alter the total volumes authorized for delivery to PSE&G. The addition of this delivery point would have no impact on Transco's peak day deliveries and little or no impact on Transco's annual deliveries, and is not prohibited by

Transco's tariff.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFT 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
