The certification notice will soon be published in the Federal Register.

Linmar Petroleum Co.; Revised Determination on Reconsideration

On December 13, 1994, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the former workers of the subject firm. The notice

was published in the Federal Register on December 27, 1994 (59 FR 66559).

Investigation findings show that all production ceased on September 1, 1994 when all production workers were laid off.

U.S. imports of crude oil and natural gas increased absolutely and relative to domestic shipments in the first eight months of 1994 compared to the same period in 1993.

On reconsideration, the Department surveyed the subject firm's major declining customers for the relevant period. The survey findings show that customers accounting for a substantial portion of the subject firm's sales in 1994 increased their import purchases of crude oil while reducing their purchases from the subject firm.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that the former workers of Linmar Petroleum Company in Roosevelt, Utah and Denver, Colorado were adversely affected by increased imports of articles like or directly competitive with the crude oil produced at the Linmar Petroleum Company.

All workers of Linmar Petroleum Company, in Roosevelt, Utah and Denver, Colorado who became totally or partially separated from employment on or after August 19, 1993 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC, this 10th day of January 1995.

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

Penetrators, Inc., Revised Determination on Reconsideration

The Department, on its own motion, has further considered the findings in the subject investigation. New findings in the investigation show that all of the Group Eligibility Requirements of the Trade Act are met.

The findings show that Penetrators, Inc., provides drilling services to unaffiliated production firms in the oil and gas industry.

The findings show substantial worker separations occurred in 1993 and the subject firm experienced a decline in revenues in 1993 compared to 1992.

U.S. imports of crude oil and natural gas increased in 1993 compared to 1992.

Conclusion

After careful review of the additional facts obtained on reconsideration, it is concluded that increased imports of articles like or directly competitive with crude oil and natural gas for which drilling services were performed by workers of Penetrators, Inc., in Midland and Houston, Texas contributed importantly to the decline in sales or production and to the total or partial separation of workers of the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

All workers of Penetrators, Inc., in Midland, Texas and Houston, Texas who become totally or partially separated from

employment on or after September 16, 1992 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.
