Penetrators, Inc., Revised Determination on Reconsideration

The Department, on its own motion, has further considered the findings in the subject investigation. New findings in the investigation show that all of the Group Eligibility Requirements of the Trade Act are met.

The findings show that Penetrators, Inc., provides drilling services to unaffiliated production firms in the oil and gas industry.

The findings show substantial worker separations occurred in 1993 and the subject firm experienced a decline in revenues in 1993 compared to 1992.

U.S. imports of crude oil and natural gas increased in 1993 compared to 1992.

Conclusion

After careful review of the additional facts obtained on reconsideration, it is concluded that increased imports of articles like or directly competitive with crude oil and natural gas for which drilling services were performed by workers of Penetrators, Inc., in Midland and Houston, Texas contributed importantly to the decline in sales or production and to the total or partial separation of workers of the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

All workers of Penetrators, Inc., in Midland, Texas and Houston, Texas who become totally or partially separated from

employment on or after September 16, 1992 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC, this 23rd day of December 1994.

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.
