

Public Meetings and Feasibility Studies: La Grange County has aggressively pursued a solution to their rural sewage disposal problems since 1989. In 1989, the County Board of Supervisors created the La Grange County Sewer District (LCSD) and empowered board members to identify sewage disposal problems, develop treatment options, and pursue funding for solutions to identified problems. The LCSD raised funds to conduct preliminary engineering and feasibility studies to identify and prioritize the most severely impacted areas and to develop treatment options. Public meetings have been held in all regions of the County to inform county citizens as to the results of the preliminary studies and discuss the various treatment designs and options.

Preliminary Description of Treatment Design Alternatives for the EIS: The following is a preliminary list of treatment design alternatives identified in feasibility studies conducted for the LCSD. This list may be modified by additions or deletions. Public comment on the range of alternatives is hereby requested.

Continued Use of On-Site Waste Disposal (septic) Systems (NO ACTION): This action would cause continued degradation of the natural environment and increased health risks.

Regional Centralized Collection of Waste Water and Treatment by Conventional Activated Sludge Processes: This action will involve the use of either gravity or pressure sewers to convey waste water to a centralized facility. Collection and conveyance alternatives to be analyzed for this option include: Small diameter gravity systems, small diameter pressure systems using single connection effluent grinder pumps, and conventional gravity collector lines connected to pressure lines for conveyance to the treatment facility. Activated sludge process alternatives to be considered for this option include: Oxidation ditches and extended aeration.

Decentralized Collection and Treatment Systems: Collection and conveyance systems considered for these proposals will be the same as those analyzed for the centralized treatment facility option. The evaluation of the decentralized approach will involve the use of pressure or gravity collection systems to convey wastewater to a treatment site(s). Treatment proposals to be evaluated in the EIS include discharge of untreated effluent into (1) multiple engineered wetland treatment facilities with discharge options for treated effluent, or (2) holding lagoons for discharge of treated

effluent through spray irrigation systems on to dedicated parcels of agricultural land. Effluent discharge options for the engineered wetland proposal include land application, surface water discharge, and subsurface injection.

Purpose of the EIS: The purpose of this EIS is to evaluate the potential impacts of the proposed alternative effluent collection and treatment strategies for La Grange County. The alternative strategies were developed as a result of public meetings and preliminary engineering studies. Discussion of each alternative's impact on the human environment, including risks to public health and safety, and effects on the natural environment will be presented. The need for the proposed action arises from the increased public health risks and degradation of surface and ground waters.

Dated: January 10, 1994.

Wally Beyer,

Administrator.

Frozen Concentrated Orange Juice From Brazil; Determination Not To Terminate a Suspended Countervailing Duty Investigation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Determination Not to Terminate a Suspended Countervailing Duty Investigation.

SUMMARY: The Department of Commerce (the Department) is notifying the public of its determination not to terminate the suspended countervailing duty investigation on frozen concentrated orange juice from Brazil.

EFFECTIVE DATE: January 19, 1995.

FOR FURTHER INFORMATION CONTACT: Alain Letort or Linda Ludwig, Office of Agreements Compliance, Import Administration, International Trade Administration, Room B-099, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-4243 or 3833; telefax: (202) 482-1388.

SUPPLEMENTARY INFORMATION:

Background

On November 8, 1994, the Department published in the Federal Register (59

FR 55637) its intent to terminate the suspended countervailing duty investigation on frozen concentrated orange juice from Brazil (see Frozen Concentrated Orange Juice from Brazil; Suspension of Investigation—48 FR 8839—March 2, 1983). Under 19 CFR 355.25(d)(4)(iii), the Secretary of Commerce will conclude that a suspended investigation is no longer of interest to interested parties and will terminate the suspended investigation if no domestic interested party objects to termination or no interested party requests an administrative review by the last day of the fifth anniversary month.

On December 6, 1994, Florida Citrus Mutual, a trade association, and certain U.S. producers of frozen concentrated orange juice, petitioners in the original investigation, objected to our intent to terminate the suspended investigation. Therefore, the requirements of 19 CFR § 355.25(d)(4)(iii) have not been met, and we will not terminate the suspended investigation.

This determination is in accordance with 19 CFR § 355.25(d)(4)(iii).

Dated: January 10, 1995.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance.

BILLING CODE 3510-DS-P

Export Trade Certificate of Review

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of revocation of Export Trade Certificate of Review No. 92-00008.

SUMMARY: The Secretary of Commerce issued an export trade certificate of review to International EXIM Corporation. Because this certificate holder has failed to file an annual report as required by law, the Secretary is revoking the certificate. This notice summarizes the notification letter sent to International EXIM Corporation.

FOR FURTHER INFORMATION CONTACT: W. Dawn Busby, Director, Office of Export Trading Company Affairs, International Trade Administration, 202/482-5131. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 ("the Act") [Pub. L. 97-290, 15 U.S.C. 4011-21] authorizes the Secretary of Commerce to issue export trade certificates of review. The regulations implementing Title III ["the Regulations"] are found at 15 CFR part 325 (1986). Pursuant to this authority, a certificate of review was issued on
