occurs after November 15, 1995, EPA must promulgate, administer and enforce a Federal permits program for the State of Colorado upon interim approval expiration.

Requirements for approval, specified in 40 CFR 70.4(b), encompass section 112(l)(5) requirements for approval of a program for delegation of section 112 standards as promulgated by EPA as they apply to part 70 sources. Section 112(l)(5) requires that the State's program contain adequate authorities, adequate resources for implementation, and an expeditious compliance schedule, which are also requirements under part 70. Therefore, the EPA is also promulgating approval under section 112(l)(5) and 40 CFR 63.91 of the State's program for receiving delegation of section 112 standards that are unchanged from Federal standards as promulgated. This program for delegations only applies to sources covered by the part 70 PROGRAM.

III. Administrative Requirements

A. Docket

Copies of the State's submittal and other information relied upon for the final interim approval, including public comments received and reviewed by EPA on the proposal, are maintained in a docket at the EPA Regional Office. The docket is an organized and complete file of all the information submitted to, or otherwise considered by, EPA in the development of this final interim approval. The docket is available for public inspection at the location listed under the ADDRESSES section of this document.

B. Executive Order 12866

The Office of Management and Budget has exempted this action from Executive Order 12866 review.

C. Regulatory Flexibility Act

The EPA's actions under section 502 of the Act do not create any new requirements, but simply address operating permits programs submitted to satisfy the requirements of 40 CFR part 70. Because this action does not impose any new requirements, it does not have a significant impact on a substantial number of small entities.

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List Update

AGENCY: Environmental Protection Agency.

ACTION: Notice of deletion of the Suffolk City landfill site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) announces the deletion of the Suffolk City Landfill in Suffolk, Virginia, from the National Priorities List (NPL). The NPL is Appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), which EPA promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA). EPA has determined that all appropriate CERCLA response actions have been implemented and that no further CERCLA response actions are appropriate. Moreover, EPA has determined that response actions conducted at the Site to date have been protective of public health, welfare, and the environment. The Commonwealth of Virginia has concurred with these determinations.

EFFECTIVE DATE: January 11, 1995.

FOR FURTHER INFORMATION CONTACT: Ronnie M. Davis, US EPA Region 3, 841 Chestnut Building, Philadelphia, PA 19107; (215) 597–1727.

SUPPLEMENTARY INFORMATION: The Site to be deleted from the NPL is the ''Suffolk City Landfill Site,'' Suffolk City, Virginia. A Notice of Intent to Delete for this Site was published on October 20, 1994 (59 FR 52949). The initial closing date for public comment was November 21, 1994. EPA extended the comment period through December 8, 1994. EPA received no comments during the comment period.

EPA identifies sites which appear to present a significant risk to public health, welfare, or the environment and maintains the NPL as a list of the most serious of those sites. Sites on the NPL may be the subject of remedial response actions financed using the Hazardous Substances Response Trust Fund (Fund). Any site deleted from the NPL remains eligible for Fund-financed remedial actions in the unlikely event that conditions at the site warrant such action. Section 300.424(e)(3) of the NCP, 40 CFR 300.424(e)(3), provides that in the event of a significant release from a site deleted from the NPL, the site shall be restored to the NPL without application of the Hazard Ranking System, one of the means by which a site may be promulgated to the NPL. Deletion of a site from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response actions.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 61

[CC Docket No. 93–197, FCC 95–18]

Revisions to Price Cap Rules for AT&T Corp.

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action is taken to remove commercial service from price cap regulation. The Commission feels that there is sufficient evidence to conclude that American Telephone and Telegraph's (AT&T's) commercial long distance services are subject to substantial competition. It is intended that this action will provide streamlined regulation for commercial service.

EFFECTIVE DATE: February 23, 1995.

FOR FURTHER INFORMATION CONTACT: Suzan Friedman, (202) 418–1530.

SUPPLEMENTARY INFORMATION: On January 12, 1995, the Commission adopted and released a Report and Order in CC Docket No. 93–197 revising the Commission's Rules on Price Cap rules for AT&T. This Order removes commercial services from price cap regulation and initiates streamlined regulation for those services. The commercial services classification was created by AT&T pursuant to Section 201(b) of the Communications Act. It permits the creation of specific classifications of services, including commercial. Commercial services refers to services used by AT&T's customers who are classified as business, as opposed to residential customers by local telephone companies.

The full text of this item is available for inspection and copying during normal business hours in the FCC Reference Center (Room 239) of the Federal Communications Commission, 1919 M Street NW., Washington, DC 20554. The complete text of this decision may also be purchased from the Commission's duplicating contractor, International Transcription Service, Inc., 2100 M Street, NW., Suite 140, Washington, DC 20037, (202) 857–3800.

DEPARTMENT OF DEFENSE

48 CFR Part 235

Defense Federal Acquisition Regulation Supplement; Manufacturing Science and Technology Program

AGENCIES: Department of Defense (DoD).

ACTION: Interim rule with request for comments.

SUMMARY: The Department of Defense is revising the Defense FAR Supplement to require competition and cost-sharing for acquisitions under the Manufacturing Science and Technology Program.

DATES: Effective date: January 17, 1995.

Comment date: Comments on the interim rule should be submitted in writing at the address shown below on or before March 27, 1995, to be considered in the formulation of a final rule.

ADDRESSES: Interested parties should submit written comments to: Defense Acquisition Regulation Council, ATTN: Mr. Richard G. Layser, PDUSD(A&T)DP/DAR, IMD 3D139, 3062 Defense Pentagon, Washington, DC 20301–3062. Telefax Number (703) 602–0350. Please cite DFARS Case 94–D307 in all correspondence.

FOR FURTHER INFORMATION CONTACT: Mr. Rick Layser, (703) 602–0131.

SUPPLEMENTARY INFORMATION:

A. Background

Section 256 of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103–337) requires that competitive procedures be used in awarding contracts under the Manufacturing arrangement be used unless an alternative is approved by the Secretary of Defense. This interim DFARS rule implements these requirements.

B. Determination To Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense to issue this rule as an interim rule. Compelling reasons exist to promulgate this rule without prior opportunity for public comment because Section 256 of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103–337) became effective upon enactment of the Act, October 5, 1994. This interim rule is necessary to ensure that DoD contracting activities become aware of the statutory requirement for competition and cost-sharing arrangements when awarding contracts under the Manufacturing Science and Technology Program. However, comments received in response to the publication of this rule will be considered in formulating the final rule.

C. Regulatory Flexibility Act

The interim rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule only applies to acquisitions under the Manufacturing Science and Technology Program. In the past, small entities have not participated in any substantial numbers. This rule is not expected to change small entities participation. An initial regulatory flexibility analysis has therefore not been performed. Comments are invited from small businesses and other interested parties. Comments from small entities concerning the affected subparts will be considered in accordance with Section 610 of the Act. Such comments must be submitted separately and cite DFARS Case 94–D307 in correspondence.

D. Paperwork Reduction Act

The Paperwork Reduction Act (Pub. L. 96–511) does not apply because this final rule does not impose any new recordkeeping, information collection requirements, or collection of information from offerors, contractors, or members of the public which require
