DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA-068-95-1990-02]

Termination of Emergency Closure of Public Lands; California

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Termination of the April 18, 1994 emergency closure of certain public lands to placer dry wash and sluice mining without prior approval of

the Bureau of Land Management [59 FR 78; pp. 19202-19203].

SUMMARY: The April 18, 1994 emergency closure, issued under Title 43, Code of Federal Regulations, § 8364.1, was necessary to stop a rapid increase in unauthorized placer mining within a 29,100 acre area of public lands located approximately 15 miles north of Barstow, California. This unauthorized mining was severely impacting designated critical habitat of the desert tortoise, a federally listed threatened species under the Endangered Species Act of 1973 (as amended), and was causing undue impairment to scenic, scientific and environmental values in this portion of the California Desert Conservation Area.

Since issuance of this closure, the BLM has achieved compliance with the applicable laws pertaining to mining in this area. This closure, therefore, is determined to be unnecessary. However, the BLM will vigorously pursue administrative, civil and/or criminal actions against any renewal of these unauthorized placer drywash and sluice mining activities.

DATES: This termination action becomes effective January 20, 1995.

FOR FURTHER INFORMATION CONTACT: John Kalish of the Barstow Resource Area (Tel. 619-255-8716).

Dated: January 20, 1995.

Conveyance of Mineral Interests in California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Segregation.

SUMMARY: The private land described in this notice, aggregating 120.00 acres, is segregated and made unavailable for filings under the general mining laws and the mineral leasing laws to determine its suitability for conveyance of the reserved mineral interest pursuant to section 209 of the Federal Land Policy and Management Act of October 21, 1976.

The mineral interests will be conveyed in whole or in part upon favorable mineral examination.

The purpose is to allow consolidation of surface and subsurface of minerals ownership where there are no known mineral values or in those instances where the reservation interferes with or precludes appropriate nonmineral development and such development is a more beneficial use of the land than the mineral development.
