

may be given such opportunity at the discretion of the Chair.

Dr. Nelson A. Wivel, Director, Office of Recombinant DNA Activities, Suite 323, National Institutes of Health, 6006 Executive Boulevard, MSC 7052, Bethesda, Maryland 20892-7052, Phone (301) 496-9838, FAX (301) 496-9839, will provide materials to be discussed at this meeting, roster of committee members, and substantive program information. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should contact Dr. Wivel in advance of the meeting. A summary of the meeting will be available at a later date.

OMB's "Mandatory Information Requirements for Federal Assistance Program Announcements" (45 FR 39592, June 11, 1980) requires a statement concerning the official government programs contained in the Catalog of Federal Domestic Assistance. Normally NIH lists in its announcements the number and title of affected individual programs for the guidance of the public. Because the guidance in this notice covers not only virtually every NIH program but also essentially every Federal research program in which DNA recombinant molecule techniques could be used, it has been determined not to be cost effective or in the public interest to attempt to list these programs. Such a list would likely require several additional pages. In addition, NIH could not be certain that every Federal program would be included as many Federal agencies, as well as private organizations, both national and international, have elected to follow the NIH Guidelines. In lieu of the individual program listing, NIH invites readers to direct questions to the information address above about whether individual programs listed in the Catalog of Federal Domestic Assistance area affected.

1. Program Background

SAMHSA's CSAT has been given a statutory mandate to expand the availability of effective treatment and recovery services for alcohol and other drug problems in the United States. CSAT utilizes a variety of grant, cooperative agreement, training, and technical assistance efforts to accomplish this mission through

expanding human resources, improving the capabilities of the State and sub-State management infrastructure, and developing and promoting cost-effective approaches for treatment and recovery services. The Center supports demonstration programs to generate new knowledge that can be applied to the substance abuse treatment field.

CSAT seeks to expand the availability and improve the quality of services aimed at addressing the special needs of populations that are especially vulnerable to addictive disorders, as well as to expand the volume of effective treatment and recovery services in targeted geographic areas where the demand for services far exceeds the existing capacity. The Center also works to upgrade the quality and effectiveness of treatment and recovery services through improved coordination among treatment providers, recovery programs, primary health care entities, mental health care providers, human service agencies, housing authorities, educational and vocational services, the criminal justice system, and a variety of related services. Further, CSAT seeks to upgrade the financial and physical condition of publicly funded addiction treatment and recovery programs.

2. Special Concerns

SAMHSA's CSAT will address a number of special concerns in FY 1995. Particular emphasis will be placed on comprehensive approaches to treatment, and coordination with other Federal and non-Federal programs. Special emphasis will be given to providing assistance for racial and ethnic minority populations; adolescents; residents of public housing and the homeless; women, their infants and children; rural populations; migrant workers; substance abusers involved in the criminal justice system; the disabled; those at risk for HIV/AIDS, tuberculosis (TB), sexually transmitted diseases (STDs), and other infectious diseases; and those with co-occurring mental disorders.

3. Criteria for Review and Funding

Competing applications requesting funding under the specific project activity in Section 4 will be reviewed for technical merit in accordance with established PHS/SAMHSA peer review procedures.

Applications that are accepted for review will be assigned to an Initial Review Group (IRG) composed primarily of non-Federal experts. Applications will be recommended for approval or disapproval on the basis of technical merit. Applications recommended for approval will be

assigned scores according to level of merit.

Notification of the IRG's recommendation will be sent to the applicant upon completion of the initial review. In addition, the IRG recommendations on technical merit of applications over \$50,000 will undergo a second level of review by the CSAT National Advisory Council, whose review may be based on policy considerations, as well as technical merit.

3.1 General Review Criteria

As published in the **Federal Register** on July 2, 1993 (Vol. 58, No. 126), SAMHSA's "Peer Review and Advisory Council Review of Grant and Cooperative Agreement Applications and Contract Proposals," peer review groups will take into account, among other factors as may be specified in the application guidance materials, the following general criteria:

- Potential significance of the proposed project;
- Appropriateness of the applicant's proposed objectives to the goals of the specific program;
- Adequacy and appropriateness of the proposed approach and activities;
- Adequacy of available resources, such as facilities and equipment;
- Qualifications and experience of the applicant organization, the project director, and other key personnel; and
- Reasonableness of the proposed budget.

3.2 Funding Criteria for Approved Applications

Applications recommended for approval by the peer review group and the CSAT National Advisory Council will be considered for funding on the basis of their overall technical merit as determined through the review process.

Other funding criteria will include:

- Availability of funds, and
- Geographic distribution.

Additional funding criteria specific to the programmatic activity may be included in the application guidance materials.

4. Special FY 1995 Substance Abuse Treatment Activity

4.1 Cooperative Agreements

A major CSAT cooperative agreement activity is discussed below. Substantive Federal programmatic involvement is required in cooperative agreement programs. Federal involvement will include planning, guidance, coordination, and participating in programmatic activities (e.g., participation in publication of findings)

and on steering committees. Periodic meetings, conferences and/or communications with the award recipients may be held to review mutually agreed upon goals and objectives and to assess progress. Additional details on the degree of Federal programmatic involvement will be included in the application guidance materials.

4.1.1 Demonstration Cooperative Agreements for the Development and Implementation of Criminal Justice-Treatment Networks

- Adult Female Offenders
- Juvenile Justice Populations
- Adult Male Offenders

- Application Deadline: May 10, 1995
- Purpose: To assist States and local jurisdictions in the development and implementation of Criminal Justice-Treatment Networks. Such Networks link together a range of justice agencies—courts, juvenile justice, corrections, probation/parole—in partnership with community substance abuse treatment, public health, mental health, education, social services and employment agencies. This program will explore whether such a criminal justice treatment consortium makes measurable improvements in systems and client outcomes, as compared to client outcomes for those receiving episodic treatment not connected to a continuum of care.
- Priorities: Focus on the following three specific offender population categories:

- Adult Female Offenders
- Juvenile Justice Populations
- Adult Male Offenders

- Eligible Applicants: Local partnerships of public and private non-profit treatment providers and State/local criminal justice agencies, headed by a Lead Agency representing the courts or community supervision agency responsible for non-incarcerated offenders (i.e., probation/parole/juvenile supervision) must submit applications through the Single State Agency for Alcohol and Drug Abuse. In most cases, the proposed local network would be a court-based consortium, or corrections (non-incarcerated)-based consortium, or a combination of the two. In keeping with the intent of Congress in authorizing Center grants for substance abuse treatment in State and local criminal justice systems, this program is restricted to public and nonprofit entities.

Funding is restricted to metropolitan areas with populations between 200,000 to one (1) million.

- Cooperative Agreement Amounts: 8–10 Demonstration Projects, with

individual awards ranging from \$800,000-\$1 million.

- Catalog of Federal Domestic Assistance Number: 93.229

- Program Contact: Nicholas L. Demos, J.D., Chief, Criminal Justice Systems Branch, Division of National Treatment Demonstrations, Center for Substance Abuse Treatment, Rockwall II Building, 6th Floor, 5600 Fishers Lane, Rockville, MD 20857, (301) 443-6533.

5. Public Health System Reporting Requirements

The Public Health System Impact Statement (PHSIS) is intended to keep State and local health officials apprised of proposed health services grant and cooperative agreement applications submitted by community-based nongovernmental organizations within their jurisdictions.

Community-based nongovernmental service providers who are not transmitting their applications through the State must submit a PHSIS to the head(s) of the appropriate State and local health agencies in the area(s) to be affected not later than the pertinent receipt date for applications. The PHSIS consists of the following information:

- A copy of the face page of the application (Standard form 424).
- A summary of the project (PHSIS), not to exceed one page, which provides:
 - (1) A description of the population to be served.
 - (2) A summary of the services to be provided.
 - (3) A description of the coordination planned with the appropriate State or local health agencies.

State and local governments are not subject to the Public Health System Reporting Requirements.

Application guidance materials will specify if the particular FY 1995 activity described above is not subject to the Public Health System Reporting Requirements.

6. PHS Non-use of Tobacco Policy Statement

The PHS strongly encourages all grant and cooperative agreement recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

Specific application guidance materials may include more detailed guidance as to how the Center will implement SAMHSA's policy on promoting the non-use of tobacco.

7. Executive Order 12372

Applications submitted in response to the FY 1995 activity listed above are subject to the intergovernmental review requirements of Executive Order 12372, as implemented through DHHS regulations at 45 CFR Part 100. E.O. 12372 sets up a system for State and local government review of applications for Federal financial assistance. Applicants should contact the State's Single Point of Contact (SPOC) as early as possible to alert them to the prospective application(s) and to receive any necessary instructions on the State's review process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. A current listing of SPOCs is included in the application guidance materials. The SPOC should send any State review process recommendations directly to: Office of Review, Substance Abuse and Mental Health Services Administration, Rockwall II Building, Suite 630, 5600 Fishers Lane, Rockville, MD 20857.

The due date for State review process recommendations is no later than 60 days after the specified deadline date for the receipt of applications. The CSAT does not guarantee to accommodate or explain SPOC comments that are received after the 60-day cut-off.

Dated: January 25, 1995.

Richard Kopanda,

Acting Executive Officer, SAMHSA.
