**American Home Products Corporation;
Prohibited Trade Practices, and
Affirmative Corrective Actions**

AGENCY: Federal Trade Commission.

ACTION: Consent order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair method of competition—in connection with American Home Products Corporation's acquisition of American Cyanamid Company—this consent order requires, among other things, the New

Jersey-based corporation to divest its tetanus and diphtheria vaccine business to a Commission-approved buyer; to license Cyanamid's rotavirus vaccine research to a Commission-approved licensee; and to change a previously established licensing agreement to ensure that it does not obtain certain competitively sensitive information. The consent order also prohibits, for ten years, the respondent from acquiring any interest in any entity engaged in the clinical development, manufacture, or sale of tetanus, diphtheria, or rotavirus vaccines in the United States without prior Commission approval.

DATES: Complaint and Order issued February 14, 1995.¹

FOR FURTHER INFORMATION CONTACT: Claudia Higgins or Ann Malester, FTC/S-2224, Washington, DC 20580. (202) 326-2682.

SUPPLEMENTARY INFORMATION: On Monday, November 28, 1994, there was published in the **Federal Register**, 59 FR 60807, a proposed consent agreement with analysis in the Matter of American Home Products Corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of the order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered an order to divest, as set forth in the proposed consent agreement, in disposition of this proceeding.

**Boston Scientific Corporation;
Proposed Consent Agreement With
Analysis To Aid Public Comment**

AGENCY: Federal Trade Commission.

ACTION: Proposed consent agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent agreement, accepted subject to final Commission approval, would permit, among other things, Boston Scientific Corporation, a Massachusetts-based manufacturer and marketer of catheters, to proceed with the proposed acquisitions of Cardiovascular Imaging Systems, Inc., and SCIMED Life Systems, Inc., but would require the respondent to grant a non-exclusive license to a specified package of patents and technology related to the manufacture, production and sale of intravascular ultrasound (IVUS) imaging catheters to the Hewlett-Packard Company or another Commission-approved licensee. When the consent

becomes final, the license would have to be granted within ten days to Hewlett-Packard or within six months to another licensee. In addition, the consent agreement would require the respondent to obtain Commission approval, for ten years, before acquiring an interest greater than one percent in a company engaged in researching, developing or manufacturing IVUS catheters for sale in the United States.

Public comment is invited.
