NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

14 CFR Part 1260

RIN 2700–AB95

Amending the NASA Research Grant Handbook To Address Education Grants, Training Grants, and Reduce the Threshold for Incremental Funding of Grants

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: NASA has revised its Research Grant Handbook to define education and training grants, permit the award of education grants, and decrease the threshold for incremental funding of grants. The purpose of these changes are to increase the coverage of the Handbook and provide greater funding flexibility. These changes benefit both NASA and the grantee community.

EFFECTIVE DATE: March 29, 1995.

FOR FURTHER INFORMATION CONTACT: Thomas W. Dussault, (202) 358–0463.

SUPPLEMENTARY INFORMATION:

Background

In response to the interim rule (59 FR 36355, July 18, 1994), NASA received 1 comment from 1 person.

The only comment made was in regard to lowering the threshold for incrementally funding grants. In the interim rule NASA lowered the threshold for being able to incrementally fund grants from over \$1 million to \$50,000. The comment made was that \$50,000 was thought to be too low and that NASA should consider raising it to \$250,000. The lower threshold of \$50,000 was selected because it allows NASA greater flexibility to award grants when the bulk of the funding will not be available until the next fiscal year.

Impact

NASA certifies that this final rule will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule does not impose any reporting or recordkeeping requirements subject to the Paperwork Reduction Act.
