Foreign-Trade Zones Board

[Docket 12-95]

Foreign-Trade Zone 22, Chicago, Illinois Proposed Foreign-Trade Subzone UNO-VEN Company (Oil Refinery and Petroleum Coking Complex) Will County, Illinois

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Illinois International Port District, grantee of FTZ 22, requesting special-purpose subzone status for the oil refinery and petroleum coking complex of the UNO-VEN Company (joint-venture between VPHI Midwest, Inc. (subsidiary of Petroleos de Venezuela, S.A.), and Midwest 76, Inc.

(subsidiary of Union Oil Company of California)), located in Will County, Illinois (Chicago area). The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on March 31, 1995.

The refinery complex (917 acres) consists of 2 sites in Will County, Illinois: *Site 1* (906 acres)—main refinery complex located adjacent to the Chicago Sanitary and Ship Canal at 135th Street, in the Romeoville area, some 30 miles southwest of Chicago (includes on-site coking operation jointly owned by UNO-VEN and Lemont Carbon, Inc.); *Site 2* (11 acres)—UNO-VEN crude oil storage (546,000 barrel capacity) within Texaco Trading and Transport Tank Farm, located at 301 West Second Street, Lockport. Crude oil is transported from the tank farm to the refinery via the Chicag Pipeline.

The refinery (150,000 barrels per day; 730 employees) is used to produce fuels and petrochemical feedstocks. Fuels produced include gasoline, jet fuel, kerosene, gas oil, diesel fuel, fuel oil, residual fuels and naphthas. Petrochemical feedstocks include methane, ethane, mixed butanes, benzene, toluene, xylene, and propane. Refinery by-products include petroleum coke. Almost all of the crude oil (88 percent of inputs), and some feedstocks and motor fuel blendstocks are sourced abroad.

Zone procedures would exempt the refinery from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the finished product duty rate (nonprivileged foreign status—NPF) on certain petrochemical feedstocks and refinery by-products (duty-free). The duty on crude oil ranges from 5.25¢ to 10.5¢/barrel. The application indicates that the savings from zone procedures would help improve the refinery's international competitiveness.

In accordance with the Board's regulations (as revised, 56 FR 50790-50808, 10-8-91), a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is June 12, 1995.

Rebuttal comments in response to material submitted during the foregoing period may be submitted during the
