

disciplines. To receive support, programs must meet the requirements of regulations as set forth in 42 CFR part 57, subpart EE.

**Statutory Funding Preference**

As provided in section 791(a) of the PHS Act, preference will be given to qualified applicants that

- (1) have a high rate for placing graduates in practice settings having the principal focus of serving residents of medically underserved communities; or
- (2) have achieved, during the 2-year period preceding the fiscal year for which an award is sought, a significant increase in the rate of placing graduates in such settings.

This preference will only be applied to applications that rank above the 20th percentile of proposals recommended for approval by the peer review group.

**Final Minimum Percentages for "High Rate" and "Significant Increase in the Rate"**

The program announcement, published in the Federal Register at 60 FR 4423 on January 23, 1995, proposed minimum percentages for "high rate" and "significant increase in the rate" for implementation of the general statutory funding preference for this program. No comments were received during the 30 day comment period. Therefore, the minimum percentages remain as proposed.

"High rate" is defined as a minimum of 25 percent of graduates in academic year 1992-93 or academic year 1993-94, whichever is greater, who spend at least 50 percent of their worktime in clinical

practice in the specified settings. Graduates who are providing care in a medically underserved community as a part of a fellowship or other educational experience can be counted.

"Significant increase in the rate" means that, between academic years 1992-93 and 1993-94, the rate of placing graduates in the specified settings has increased by a minimum of 50 percent and that not less than 15 percent of graduates from the most recent years are working in these settings.

**Office of Inspector General**

**Program Exclusions: March 1995**

**AGENCY:** Office of Inspector General, HHS.

**ACTION:** Notice of program exclusions.

During the month of March 1995, the HHS Office of Inspector General imposed exclusions in the cases set forth below. When an exclusion is imposed, no program payment is made to anyone for any items or services (other than an emergency item or service not provided in a hospital emergency room) furnished, ordered or prescribed by an excluded party under the Medicare, Medicaid, Maternal and Child Health Services Block Grant and Block Grants to States for Social Services programs. In addition, no program payment is made to any business or facility, e.g., a hospital, that submits bills for payment for items or services provided by an excluded party. Program beneficiaries remain free to decide for themselves whether they will continue to use the services of an excluded party even though no program payments will be made for items and services provided by that excluded party. The exclusions have national effect and also apply to all other Federal non-procurement programs.
