

Line 4 crosses the Mainstee River at the same location as Line 1. However, from the river it travels northwesterly to cross existing US-131 halfway between the Manistee River and Fife Lake. It then continues north across existing M-72, where it traverses a wetland and merges with existing US-131 about 8 kilometers (five miles) north of Kalkaska.

Line 5 crosses the Manistee River adjacent to the existing structure and continues northerly before merging with line 3 west of Kalkaska. Interchanges would be located at M-186, Boardman Road, extended M-72, and existing M-72.

Line 6 crosses the Manistee River adjacent to the existing structure. It maximizes the use of the existing right-of-way by staying as close as possible to existing US-131, which will serve as a local north-south route. Potential interchanges are located at M-186, Boardman Road, the proposed extension of M-72, and at M-72, northwest of Kalkaska. North of the community of South Boardman, this alignment extends west of existing US-131 and merges with Line 3.

The proposed extension of M-72 from south of the US-131/M-72 intersection westerly to an interchange with the proposed western freeway alignments could be a two-lane or four-lane cross section, and will be discussed in the DEIS.

Early coordination with a number of federal, state, and local agencies has identified the more significant issues to be addressed in the EIS. A summary of the scoping process to date, identifying the alternatives being considered and the social, economic, and environmental issues involved, is being prepared.

The scoping summary will be available to all interested agencies, organizations, and individuals on request. A public information meeting was held on November 3, 1994, to provide the public an opportunity to discuss the proposed action. Additional public information meetings are anticipated. Comments on the scoping summary and issues identified are invited from all interested parties. Requests for a copy of the scoping summary or any comments submitted should be addressed to the above contact persons.

The Draft EIS is scheduled for completion in 1996, and will be available for public and agency review.
