GENERAL SERVICES ADMINISTRATION

48 CFR Parts 538 and 552

[APD 2800.12A CHGE 61]

General Services Administration Acquisition Regulation; Implementation of Industrial Funding for Federal Supply Schedules

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Final rule.

SUMMARY: The General Services Administration Acquisition Regulation (GSAR) is amended to modify the prescription for the Contractor's Report of Orders Received clause to reflect the new title of the clause and to add a prescription for the new Industrial

Funding Fee clause; to reflect the new title of the clause in section 552.238-72 and to modify the clause to delete references to "orders" and substitute "sales," and to extend the time for submitting reports from 15 days following the reporting period to 30 days; and to provide the text of the new Industrial Funding Fee clause. GSA's Federal Supply Service will include the new Industrial Funding Fee clause in Federal Supply Schedule solicitations and contracts. The clause provides instructions for remittance of an industrial funding fee based on quarterly sales reported by contractors under Federal Supply Schedule contracts. The amount of the fee is determined by the Commissioner, Federal Supply Service. It has been determined that the initial fee will be 1 percent.

Fees will be included in the prices charged to ordering activities and contract award prices will reflect the total amounts charged. Federal Supply Schedule contractors will remit fees to the General Services Administration based on quarterly contract sales. GSA will recoup its costs from the ordering activities through the contractor's quarterly remittance.

The General Services Administration will use the industrial funding fee to fund the cost of providing supplies and services through the Federal Supply Schedule Program. As solicitations are issued with the new clause, the program will convert from an operation funded through congressional appropriations to a reimbursable activity. GSA's fiscal year 1995 budget reflects a \$7.8 million reduction in operating expenses for the schedules program. The remaining appropriated monies for the program will be eliminated over the next two fiscal years.

DATES: Effective Date: April 18, 1995.

Compliance Date: Solicitations issued and contracts awarded after April 18, 1995, shall comply with this change. Existing Federal Supply Schedule contracts shall be modified over the next 2 years in accordance with the time schedule established by the Commissioner of the Federal Supply Service or a designee.

FOR FURTHER INFORMATION CONTACT: Les Davison, Office of GSA Acquisition Policy, (202) 501-1224.

SUPPLEMENTARY INFORMATION:

A. Public Comments

A notice of proposed rulemaking was published in the **Federal Register** on December 27, 1994. Comments received from other Federal agencies and from vendors were considered in formulating

this final rule. The notice and significant issues and concerns raised during the comment period are summarized below.

The notice of December 27, 1994, proposed implementation of industrial funding of the Federal Supply Schedule Program by adjusting schedule prices upward by 1 percent. Under this concept, published schedule prices would include the 1 percent adjustment. Agencies would order from the contractor at the adjusted price; the contractor would invoice GSA to the award price; GSA would bill agencies the adjusted price and retain the difference to fund the program.

Twenty-two responses were received from Federal agencies. These agencies, for the most part, objected to the proposed procedure as administratively burdensome. Most agencies did not want GSA to become the centralized billing and payment point for schedule transactions. Objections were based primarily on potential disruptions of their own agency accounting systems for agency procedures. Some agencies stated that they would have to create separate systems just for schedule purchases if the proposal was adopted. Nearly all agencies perceived the proposed centralized billing and payment system to be cumbersome, intrusive and unnecessarily bureaucratic.

Other concerns frequently raised by agencies included payments to vendors without proper verification of acceptance; payment of the 1 percent fee for nonschedule items included on purchase orders for schedule items; and problems associated with use of the Governmentwide credit card under such a system.

Fourteen vendors and associations responded. Their responses for the most part indicated that they did not wish GSA to assume the role of centralized billing and payment point; that they did not want to adjust their agency pricelists to reflect a price other than the contract award price; and that they found it burdensome that the agency purchase order would not reflect their invoiced amounts.

Based on these comments received from Federal agencies and industry, the GSA has determined that implementation of industrial funding of the Federal Supply Schedule Program must be accomplished in the least disruptive manner possible to both agencies and contractors and that the concerns raised must be alleviated.

To accomplish this, GSA has considered a number of alternatives suggested by both Federal agencies and industry. Many respondents suggested
