ADDRESSES: Interested persons should submit their views and comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street NW, Washington, D.C. 20581. Reference should be made to the proposed changes in the delivery specifications for the hard red winter wheat futures contract.

FOR FURTHER INFORMATION CONTACT: Frederick V. Linse, Division of Economic Analysis, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581, telephone (202) 254-7303.

SUPPLEMENTARY INFORMATION: The hard red winter wheat futures contract currently provides for delivery at par of U.S. No. 2 grade wheat in storage or on track in Kansas City, Missouri. The futures contract also provides for delivery of U.S. No. 3 grade wheat at a discount of 1.5 cents per bushel and U.S. No. 1 grade wheat at a premium of 1.5 cents per bushel. Currently, the KCBT's rules specify that regular warehouse operators must load-out a minimum of 15 rail cars per day. The Exchange's rules also specify that regular warehouse operators may charge warehouse receipt holders a maximum of 5 cents per bushel for loading wheat into the holders' transportation equipment from regular delivery facilities.

The proposed amendments will permit futures delivery at Hutchinson, Kansas at a discount of 12 cents per bushel. Futures delivery at the contract's existing Kansas City delivery point will be at par. In addition, the proposed amendments will increase to 3 cents per bushel from 1.5 cents per bushel the contract's discount for delivery of U.S. No. 3 grade wheat.

The proposed amendments also will modify the contract's minimum load-out requirements for regular warehouse operators by increasing the minimum load-out rate for all regular warehouses and by requiring that regular warehouses with higher levels of outstanding warehouse receipts load out wheat at specified higher minimum load-out rates. Specifically, for regular warehouses with total outstanding warehouse receipts representing 4 million or fewer bushels of wheat, the minimum load-out rate will be 20 hopper rail cars per day and 100 cars per week. In addition, for each additional 1 million bushels of outstanding warehouse receipts, the minimum load-out rate will increase by 5 hopper rail cars per day and 25 cars per week. Finally, the KCBT will

increase the maximum load-out fee to 7 cents per bushel from 5 cents per bushel.

The KCBT proposes to apply the proposed amendments to all newly listed contract months beginning with the July 1996 wheat futures contract.

In support of the proposed amendments, the KCBT states that:

[T]he Kansas City terminal market on which our futures are based has experienced a decline in recent years as have all terminal markets. This is largely attributable to the deregulation of railroads and their pricing policies and the ongoing changes in U.S. farm policy. Both the reduction of government's role in grain storage and railroad deregulation have served to discourage the accumulation of wheat in Kansas City. The reduced supply of deliverable stocks has been aggravated by the relative difficulty of shipping grain into Kansas City versus the ease of shipping grain out of the market. The intent of the Board's proposed amendments is to create a delivery mechanism to reflect cash market conditions better than the current system does.

The KCBT also indicates that Hutchinson, Kansas, represents the best of the location choices considered by it for use as a delivery point. In addition, the KCBT indicates that the proposed 12 cents per bushel discount for futures delivery at Hutchinson reflects observable cash market price differentials between Hutchinson and Kansas City.

The Commission is requesting comments specifically in regard to the extent to which the proposals reflect cash market practices and would affect the levels of economically deliverable supplies available for the futures contract.

Copies of the proposed amendments will be available for inspection at the Office of the Secretariat, Commodity Futures Trading Commission, 2033 K Street NW, Washington, D.C. 20581. Copies of the amended terms and conditions can be obtained through the Office of the Secretariat by mail at the above address or by telephone at (202) 254-6314.

The materials submitted by the KCBT in support of the proposed amendments may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. 552) and the Commission's regulations thereunder (17 CFR Part 145 (1987)). Requests for copies of such materials should be made to the FOI, Privacy and Sunshine Act Compliance Staff of the Office of the Secretariat at the Commission's headquarters in accordance with CFR 145.7 and 145.8.

Any person interested in submitting written data, views or arguments on the proposed amendments should send such comments to Jean A. Webb,

Secretary, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581 by the specified date.

Issued in Washington, D.C. on April 12, 1995.

Blake Imel,

Acting Director, Division of Economic Analysis.
