10. New England Power Company

[Docket No. ER95-838-000]

Take notice that on March 31, 1995, New England Power Company tendered for filing a Letter Agreement under which it provides NEPOOL reporting services to the Princeton (Mass.) Electric Light Department.

Comment date: April 28, 1995, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Missisquoi Associates; Notice of Availability of Environmental Assessment

April 17, 1995.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR part 380 (Order 486, 52 F.R. 47897), the Commission's Office of Hydropower Licensing has reviewed a non-capacity related amendment of license for the Sheldon Springs Hydroelectric Project, No. 7186-026. The Sheldon Springs Hydroelectric Project is located on the Missisquoi River in Franklin County, Vermont. The application is to add a spillway gate at the dam and to construct a flow diversion spur in the project's forebay area. The Environmental Assessment (EA) finds that approving the application would not constitute a major federal action significantly affecting the quality of the human environment.

The EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA are available for review in the Public Reference Branch, Room 3104, of the Commission's offices at 941 North Capitol Street NE., Washington, D.C. 20426. Copies can also be obtained by calling the project manager, Rebecca Martin at (202) 219–2650.
