**Certification Regarding Environmental Tobacco Smoke**

Public Law 103-227, Part C—Environmental Tobacco Smoke, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, education, or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law does not apply to children's services provided in private residences, facilities funded solely by Medicare or Medicaid funds, and portions of facilities used for inpatient drug or alcohol treatment. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 per day and/or the imposition of an administrative compliance order on the responsible entity.

By signing and submitting this application the applicant/grantee certifies that it will comply with the requirements of the Act. The applicant/grantee further agrees that it will require the language of this certification be included in the subawards which contain provisions for children's services and that all subgrantees shall certify accordingly.

**Agency for Toxic Substances and Disease Registry**

[ATSDR-92]

**Quarterly Public Health Assessments Completed**

**AGENCY:** Agency for Toxic Substances and Disease Registry (ATSDR), Public Health Service (PHS), Department of Health and Human Services (HHS).

**ACTION:** Notice.

**SUMMARY:** This notice contains a list of sites for which ATSDR has completed a public health assessment during the period October-December 1994. This

list includes sites that are on, or proposed for inclusion on, the National Priorities List (NPL), and non-NPL sites for which ATSDR has prepared public health assessments in response to requests from the public (petitioned sites).

**FOR FURTHER INFORMATION CONTACT:** Robert C. Williams, P.E., DEE, Director, Division of Health Assessment and Consultation, Agency for Toxic Substances and Disease Registry, 1600 Clifton Road, NE., Mailstop E-32, Atlanta, Georgia 30333, telephone (404) 639-0610.

**SUPPLEMENTARY INFORMATION:** The most recent list of completed public health assessments and petitioned public health assessments which were accepted by ATSDR during July-September 1994, was published in the **Federal Register** on February 8, 1995, [60 FR 7572]. The quarterly announcement is the responsibility of ATSDR under the regulation, Health Assessments and Health Effects Studies of Hazardous Substances Releases and Facilities [42 CFR Part 90]. This rule sets forth ATSDR's procedures for the conduct of public health assessments under section 104(i) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended [42 U.S.C. 9604(i)].

**Availability**

The completed public health assessments are available for public inspection at the Division of Health Assessment and Consultation, Agency for Toxic Substances and Disease Registry, Building 33, Executive Park Drive, Atlanta, Georgia (not a mailing address), between 8 a.m. and 4:30 p.m., Monday through Friday except legal holidays. The completed public health assessments are also available by mail through the U.S. Department of Commerce, National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161, or by telephone at (703) 487-4650. There is a charge determined by NTIS for these public health assessments. The NTIS order numbers are listed in parentheses after the site name.

*Public Health Assessments Completed or Issued*

Between October 1, 1994, and December 31, 1994, public health assessments were issued for the sites listed below:

**NPL Sites**

## Alabama

Monarch Tile—Florence—(PB95-159695)

## Arkansas

Popile Incorporated—El Dorado—(PB95-154035)

South 8th Street Landfill (a/k/a West Memphis Landfill)—West Memphis—(PB95-154092)

## Connecticut

Starr Property—Enfield—(PB95-154795)

## Illinois

Kerr McGee Radiation Areas—West Chicago—(PB95-154803)

## Includes:

Kress Creek

Reed-Keppler Park

Residential Areas

Sewage Treatment Plant

## Kentucky

National Electric Coil/Cooper Industries—Dayhoit (PB95-154639)

## Massachusetts

Groveland Wells—Groveland—(PB95-154084)

## New Jersey

Delilah Road—Egg Harbor Township—(PB95-154076)

## Washington

Pacific Sound Resources—Seattle—(PB95-149241)

Seattle Municipal Landfill/Kent Highlands—Kent (PB95-154100)

Vancouver Water Station No. 1 Contamination—Vancouver (PB95-166278)

**Non-NPL Petitioned Sites**

## Louisiana

Marine Shale Processors, Incorporated—Amelia—(PB95-130811)

Dated: April 14, 1995.

**Claire V. Broome,**

*Deputy Administrator, Agency for Toxic Substances and Disease Registry.*

**Centers for Disease Control and Prevention****[Announcement 531]****Cooperative Agreements for State-Based Birth Defect Surveillance Demonstration Projects****Introduction**

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1995 funds for a cooperative agreement program for state-based birth defect surveillance demonstration projects. This cooperative agreement will support the development, implementation, and evaluation of state-based birth defect surveillance systems.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority areas of Alcohol and Other Drugs, Environmental Health, Maternal and Infant Health, and Surveillance and Data Systems. (For ordering a copy of "Healthy People 2000," see the section "Where To Obtain Additional Information.")

**Authority**

This program is authorized under sections 301, 311 and 317C of the Public Health Service Act (42 U.S.C. 241, 243, and 247b-4) as amended.

**Smoke-Free Workplace**

PHS strongly encourages all grant recipients to provide a smoke-free workplace and to promote the nonuse of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.

**Eligible Applicants**

All duly constituted State and local public health agencies that are officially recognized as such, including State, local, county, city-county, district, and territorial health departments are eligible to apply. Also, universities with formal agreements for working with State or local health departments for carrying out the surveillance and surveillance-based research are eligible to apply.

**Availability of Funds**

Approximately \$500,000 is available in FY 1995 to fund approximately 8 to 12 awards. It is expected that awards

will be made to 4 to 6 States with operational birth defect surveillance systems, and to 4 to 6 States with inactive or no birth defect surveillance systems. It is expected that the average award will be \$50,000. It is expected that the awards will begin on or about September 30, 1995, and will be made for a 12-month budget period within a project period of up to 3 years. Funding estimates may vary and are subject to change.

These awards may be used for personnel services, equipment, travel, and other cost related to project activities. Project funds may not be used to supplant State funds available for birth defect surveillance or birth defect prevention.

Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

**Purpose**

The purpose of this cooperative agreement is to assist States:

a. To develop and implement pilot methodologies and approaches which will improve or expand the State's capacity to ascertain cases and generate timely population-based data of major birth defects;

b. To engage, and collaborate with other States and appropriate organizations in the timely sharing and analysis of surveillance and epidemiologic data related to birth defects and;

c. To evaluate, in a timely fashion, the effectiveness of surveillance approaches and progress in the prevention of folic acid-preventable spina bifida and anencephaly.

**Program Requirements**

In conducting activities to achieve the purpose of this program, the recipient will be responsible for the activities under A. (Recipient Activities for States with inactive or no birth defect surveillance systems); or B. (Recipient Activities for States with operational birth defect surveillance systems); and CDC will be responsible for the activities listed under C. (CDC Activities).

A. Recipient Activities for States with inactive or no birth defect surveillance systems:

1. Develop plans for, and begin implementation of, a pilot state-based surveillance system which will ascertain cases and generate population-based data of major birth defects occurring in the State.

2. Develop a plan for the sharing and analysis of surveillance and epidemiologic data related to birth
