Office of Special Education and Rehabilitative Services National Institute on Disability and Rehabilitation Research Notice Inviting Applications for a New Award for Technical Assistance Project Under the Technology-Related Assistance for Individuals With Disabilities Program

Purpose of Program: The purpose of the Technology-Related Assistance for Individuals with Disabilities program is to assist States to develop and implement comprehensive statewide systems of consumer-responsive technology-related assistance for individuals with disabilities. NIDRR has conducted prior competitions under this program, and 55 States and territories have received grants. NIDRR is now inviting applications for the purpose of providing information and technical assistance to States. The Secretary shall award one technical assistance project for the purpose of assisting the States as they work toward establishing a statewide comprehensive system of technology related for individuals of all ages. NIDRR has conducted prior contract competitions under this authority and has awarded contracts for the provision of information and technical assistance to the State grantees over the past six years.

Applicants are advised to respond to the requirements of section 106(b)(1)(B) of the Technology-Related Assistance for Individuals with Disabilities Act of 1988, as amended. In meeting the requirements of this section for the provision of technical assistance to States, applicants shall consider the input of the directors of consumer-responsive comprehensive statewide programs of technology-related assistance. The applicant shall provide information on how they shall support a clearinghouse for activities that have been developed and implemented through programs funded under this title, and how they shall provide information and technical assistance to the State grantees that will: (1) Facilitate service delivery capacity building, training of personnel from a variety of disciplines, and improvement of evaluation strategies, research, and data collection; (2) foster the development and replication of effective approaches to information referral, interagency coordination of training and service delivery, outreach to underrepresented populations and rural populations, and public awareness activities; (3) improve the awareness and adoption of successful approaches to increasing the availability of public and private funding for and access to the provision of assistive technology devices and assistive technology services by appropriate State agencies; (4) assist in planning, developing, implementing, and evaluating appropriate activities to further extend consumer-responsive comprehensive statewide programs of technology-related assistance; (5) promote effective approaches to the development of consumer-controlled systems that increase access to, funding for, and awareness of assistive technology devices and assistive technology services; (6) provide technical assistance and training to the entities carrying out activities funded pursuant to this title, to establish or participate in electronic communication activities with other States; and (7) provide any other appropriate information and technical assistance to assist the States in accomplishing the purposes of this Act.

Eligible Applicants: Public or private agencies and organizations including institutions of higher education with documented experience, expertise and capacity in assistive technology service delivery, interagency coordination, and systems change and advocacy activities are eligible to apply.

Deadline for Transmittal of Applications: June 23, 1995.

Applications Available: April 26, 1995.
