**SUPPLEMENTARY INFORMATION:** On March 30, 1995, the Commission adopted a Report and Order in CC Docket No. 93-179 amending the Commission's LEC price cap rules. This order makes explicit the requirement that LECs must exclude the effects of sharing and low-end adjustments relating to the prior year before computing the earnings levels that determine required sharing or permitted low-end adjustments for the current year. The Commission found that this requirement, known as the "add-back adjustment" rule, is essential to ensure that the sharing and low-end adjustments of the LEC price cap plan achieve their intended purpose.
