Various Department of Water Resources (DWR) Delta Island sites have been identified through the Long Term Management Strategy (LTMS) as potential land sites for material to be used in levee maintenance. Sites with the most potential for use of dredged material in levee maintenance are Twitchell, Jersey, Sherman, Bradford, and Bethel Islands and Webb Tract.

Scoping

The focus of the DEIS will be on the construction and maintenance of the JFB channel and the associated disposal sites. Interested parties are requested to express their views concerning the proposed activity by June 16, 1995. A scoping meeting for the project will be held in the Bay Room at the George Gordon Center, 500 Court Street in Martinez, Contra Costa County, California on June 1, 1995, starting at 6 p.m.

Agencies and the public are encouraged to provide written comments in addition to, or in lieu of, oral comments at the scoping meeting. To be most helpful, the scoping comments should clearly describe specific environmental topics or issues which the commentator believes the document should address. Oral and written comments receive equal consideration. Written public comment concerning scoping of the DEIS will be accepted until June 16, 1995. Please address all correspondence to the District Engineer, USAED San Francisco, 211 Main Street, San Francisco, California 94105. For additional information, please contact the person indicated above.

Topics which have already been identified as needing consideration in the DEIS are salinity intrusion, wildlife conservation, endangered species, and sediment and water quality.

The DEIS will be used as the primary information document to secure concurrence in a Federal Coastal Zone Consistency Determination. In addition, the DEIS will be used by the local sponsor to meet its responsibilities under the California Environmental Quality Act, and may also be used by the San Francisco Regional Water Quality Control Board to meet its responsibilities under the Porter-Cologne Act. Other reviews in which the DEIS will be a source of information are the Fish and Wildlife Coordination Act, Endangered Species Act, Clean Water Act, and "trustee agency" reviews by the State of California. The DEIS will

be available for public review in Fall, 1995.
