

Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses. Since the Commission has made a final determination that the amendment involves no significant hazards consideration, if a hearing is requested, it will not stay the effectiveness of the amendment. Any hearing held would take place while the amendment is in effect.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, by the above date. Where petitions are filed

during the last 10 days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1-(800) 248-5100 (in Missouri 1-(800) 342-6700). The Western Union operator should be given Datagram Identification Number N1023 and the following message addressed to (*Project Director*): petitioner's name and telephone number, date petition was mailed, plant name, and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to the attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for a hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

### Regulatory Guide; Issuance, Availability

The Nuclear Regulatory Commission has issued a revision to a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods acceptable to the NRC staff for implementing specific parts of the Commission's regulations, techniques used by the staff in evaluating specific problems or postulated accidents, and data needed by the staff in its review of applications for permits and licenses.

Revision 3 of Regulatory Guide 1.118, "Periodic Testing of Electric Power and Protection Systems," describes a method acceptable to the NRC staff for complying with the Commission's regulations with respect to the periodic testing of the electric power and protection systems.

Comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time. Written comments may be submitted to the Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Regulatory guides are available for inspection at the Commission's Public Document Room, 2120 L Street, NW., Washington, DC. Copies of issued guides may be purchased from the Government Printing Office at the current GPO price. Information on current GPO prices may be obtained by contracting the Superintendent of Documents, U.S. Government Printing Office, Post Office Box 37082, Washington, DC 20013-7082, telephone (202) 512-2249. Issued guides may also be purchased from the National Technical Information Service on a standing order basis. Details on this service may be obtained by writing NTIS, 5285 Port Royal Road, Springfield, VA 22161.

[Docket Nos. 50-16 and 50-341]

**Detroit Edison Co.; Enrico Fermi  
 Nuclear Plant, Unit Nos. 1 and 2**

Notice is hereby given that the United States Nuclear Regulatory Commission (the Commission) is considering approval under 10 CFR 50.80 and 10 CFR 30.34 of the proposed corporate restructuring of Detroit Edison Company (DECo), the licensee for Fermi 1, and Fermi 2, and seven byproduct licenses. By letter dated March 27, 1995, DECo informed the Commission that a corporate restructuring of DECo has been proposed that will result in the creation of a holding company under the name DTE Holdings, Inc. ("Holding Company") of which DECo would become a wholly-owned subsidiary. DECo will remain holder of its licenses for Fermi 1, Fermi 2, and the seven byproduct licenses. Under the restructuring, the holders of DECo common stock will become the holders of common stock of the Holding Company on a share-by-share basis. After the restructuring, DECo will continue to be a public utility providing the same utility services as it did immediately prior to the reorganization. According to the proposed plan, there will be no significant change in ownership, management, or sources of funds for operation, maintenance, or decommissioning of the Fermi power station due to the corporate restructuring.

Pursuant to 10 CFR 50.80 and 10 CFR 30.34, the Commission may approve the transfer of control of a license after notice to interested persons. Such approval is contingent upon the Commission's determination that the holder of the license following the transfer is qualified to have control of the license and that the transfer of such control is otherwise consistent with applicable provisions of law, regulations, and orders of the Commission.

For further details with respect to this proposed action, see the licensee's letter dated March 27, 1995, with the following attachments: DECo's proposed notice; letter dated February 10, 1995, from Robert S. Waters, Counsel for the licensee, containing the February 10, 1995, DECo application before the Federal Energy Regulatory Commission;

and the March 9, 1995, Form S-4 registration statement for DTE Holding, Inc., filed before the Securities and Exchange Commission. These documents are available for public inspection at the Commission's Public Document Room, 2120 L Street, N.W., Washington, DC, and at the local public document room located at the Monroe County Library System, 3700 South Custer Road, Monroe, Michigan 48161.

Dated at Rockville, Maryland, this 17th day of April 1995.

**PACIFIC NORTHWEST ELECTRIC  
 POWER AND CONSERVATION  
 PLANNING COUNCIL**

**Columbia River Basin Fish and Wildlife  
 Program; Power Plan Amendments**

April 18, 1995.

**AGENCY:** Pacific Northwest Electric Power and Conservation Planning Council (Northwest Power Planning Council).

**ACTION:** Comments on proposed amendments to the Columbia River Basin Fish and Wildlife Program.

**SUMMARY:** Pursuant to the Pacific Northwest Electric Power Planning and Conservation Act (the Northwest Power Act, 16 U.S.C. 839, *et seq.*) the Pacific Northwest Electric Power and Conservation Planning Council (Council) invites comments on proposed amendments to the resident fish and wildlife measures in the Columbia River Basin Fish and Wildlife Program (program).

**BACKGROUND:** The proposed amendments are based on recommendations that were submitted to the Council by fish and wildlife agencies, Indian tribes and others earlier this year. Copies of the recommendations were distributed to interested parties earlier in this process, and are available on request (document 95-1). These recommendations provide the basis and purpose for the proposed amendments. The Council will hold public hearings on the proposed amendments in Idaho, Montana, Oregon and Washington, on a schedule to be announced. After June 15, the Council may initiate consultations with interested parties through July 7, 1995, to discuss issues raised in comments or in the Council's analysis. The Council expects to make final decisions on the proposed amendments, beginning on July 10. At the end of this process, the Council will make findings required by the Northwest Power Act regarding any recommendations the Council rejects. The Council wishes to emphasize that it may adopt or reject any of these recommendations after it has received public comment, and comment may be directed to any of them.
