Impact Statement

These revised instructions are being published to alert the applicant of modifications to current filing procedures for the INS Form I-765. In the past, many aliens were required to be physically present in an INS office for production of the employment authorization document. At that time an immigration official would take the necessary photographs, obtain the applicant's signature, and physically look at other documents to ensure eligibility for employment authorization.

Under this new filing procedure 75% (percent) of applicants will now be able to mail in their applications, and photographs along with copies of relating documents in support of the request for employment authorization into an INS central location for processing.

This process should improve efficiency of the I-765 process, improve the delivery of services to the applicant (public), maximize resources, tighten inventory control, and ensure increased security and the integrity of EAD production.

We believe that these new guidelines provide clear directions to applicants concerning who can file, how to file, where to file and when to file their applications for employment authorization documents.
