

Tribal, regulatory, and industry interests and experience.

Purpose of the Meeting

This is the third meeting of the Committee. The Committee will receive presentations by representatives of relevant regulatory and oversight organizations and by DOE, industry and stakeholder organizations associated with the Hanford site. The Committee will also hold a public comment period to receive input from the public and tour appropriate facilities at Hanford.

Tentative Agenda

In addition to conducting deliberations related to its charge, the Advisory Committee will receive a presentation on the Nuclear Regulatory Commission's perspective on regulation of safety at DOE's nuclear facilities by the Chairman of the Nuclear Regulatory Commission. Other speakers will address the current processes for internal and external oversight of nuclear safety at DOE and the implementation and oversight of the regulatory framework at the Hanford site by DOE, the State, EPA, and others. The agenda will provide opportunities for public comment at 7:00 pm at the Red Lion Inn/Hanford House in the Columbia Meeting Room. A final agenda will be available at the meeting.

Public Participation

The meeting is open to the public. Members of the public are welcome to make oral statements during the public comment period. Those who wish to do so should contact Catherine Volk at the address or telephone number listed above. Individuals may also register on May 15, 1995 at the meeting site. Every effort will be made to hear all those wishing to speak. Written comments are welcomed, and should be mailed to Catherine Volk, 1726 M St. NW, Suite 401, Washington, DC 20036. The Committee Co-Chairs are empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business.

Transcripts and Minutes

A meeting transcript and minutes will be available for public review and copying four to six weeks after the meeting at the DOE Freedom of Information Public Reading Room, 1E-190, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585 between 9:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays. The transcript will also be made available at the Department's Field Office Reading Room locations.

Issued at Washington, DC, on April 24, 1995.

Rachel Murphy Samuel,

Acting Deputy Advisory Committee Management Officer.

Federal Energy Regulatory Commission

[Docket No. CP95-327-000]

Transwestern Pipeline Co.; Notice of Application

April 21, 1995.

Take notice that on April 17, 1995, Transwestern Pipeline Company (Transwestern), 1400 Smith Street, Houston, Texas 77002, filed in Docket No. CP95-327-000, an application pursuant to section 7(c) of the Natural Gas Act and § 157.7(a) of the Regulations (18 CFR 157.7(a)), for a certificate of public convenience and necessity authorizing Transwestern to construct approximately 3,200 feet of 30-inch pipeline under the Rio Grande River in Valencia County, New Mexico, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Transwestern explains that on August 20, 1994, an explosion ruptured one of its two 30-inch pipelines which cross the Rio Grande River on a steel structure pipeline bridge. Transwestern says it replaced that pipeline and repaired the structural damage to the bridge under section 2.55(b) of the Commission's Regulations. The second pipeline was not replaced at that time.

Transwestern proposes to replace the second 30-inch pipeline by constructing 3,200 feet of 30-inch pipeline under the Rio Grande River at a cost of \$1,675,000. Transwestern states that it will be reimbursed the cost by its insurance carrier. Transwestern asserts that with the addition of this second line it will be able to bring its pipeline capability up to its presently certificated capacity.

Transwestern requests certificate authorization by June 30, 1995, so that construction can take place between July 15 through September 30 and the facility can be put in service in 1995. Transwestern submits that this construction time period would have minimal effect on such things as the Silvery Minnow, because of the low water flow, and would avoid disturbing two whooping cranes who overwinter in the area.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 12, 1995, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate for the proposal is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Transwestern to appear or be represented at the hearing.

Linwood A. Watson, Jr.,
Acting Secretary.

**Kern River Gas Transmission Co.;
Notice of Proposed Changes in FERC
Gas Tariff**

April 21, 1995.

Take notice that on April 17, 1995, Kern River Gas Transmission Company (Kern River) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheets to become effective on June 1, 1995:

First Revised Sheet No. 104
Second Revised Sheet No. 114
First Revised Sheet No. 115

First Revised Sheet No. 121
First Revised Sheet No. 122
First Revised Sheet No. 415

Kern River states that the revised tariff sheets make certain minor changes to Kern River's capacity release program which will allow that program to operate more efficiently and increase its value and usefulness to shippers. Specifically, the revised tariff sheets will:

1. Shorten the minimum time periods for a release that involves a Prearranged Bidder, to permit such a release request to be initiated closer to the proposed commencement date of the release;

2. Define release proposals that may take advantage of shorter deadlines and processing periods as releases of "three months or less," rather than the current definition of "90 days or less," so that proposed releases that include months of 31 days can take advantage of the shorter deadlines and time periods;

3. Eliminate the requirement for the Releasing Shipper with a Prearranged Bidder to warrant that the Prearranged Bidder has entered into a Released Transportation Service Agreement with Kern River that incorporates all terms and conditions of the Release Request. Prearranged Bidders will still be required to prequalify with Kern River by entering into a Released Transportation Service Agreement after demonstrating sufficient creditworthiness.

Kern River states that the revised tariff sheets also update the telephone number of Kern River's Transportation Services Department.

Kern River states that copies of the filing were served upon Kern River Gas Transmission Company's jurisdictional customers all affected State Commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before April 28, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on with the Commission and are available

for public inspection in the Public Reference Room.

**ANR Pipeline Co.; Notice of Proposed
Changes in FERC Gas Tariff**

April 21, 1995.

Take notice that on April 17, 1995, ANR Pipeline Company (ANR) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following revised tariff sheets, proposed to be effective April 1, 1995:

Substitute Original Sheet No. 75C
Substitute Second Revised Sheet No. 155
Substitute Third Revised Sheet No. 161

ANR states that the above-referenced tariff sheets are being filed in compliance with the Commission's March 31, 1995, "Order Accepting Tariff Sheets Subject To Conditions And Establishing Technical Conference," to be effective April 1, 1995.

ANR states that all of its FERC Gas Tariff, Second Revised Volume No. 1 customers and interested State Commissions have been mailed a copy of this filing.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE, Washington, D.C. 20426 in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests should be filed on or before April 28, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this application are on file with the Commission and are available for public inspection.
