**Kern River Gas Transmission Co.;  
Notice of Proposed Changes in FERC  
Gas Tariff**

April 21, 1995.

Take notice that on April 17, 1995, Kern River Gas Transmission Company (Kern River) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheets to become effective on June 1, 1995:

First Revised Sheet No. 104  
Second Revised Sheet No. 114  
First Revised Sheet No. 115

First Revised Sheet No. 121  
First Revised Sheet No. 122  
First Revised Sheet No. 415

Kern River states that the revised tariff sheets make certain minor changes to Kern River's capacity release program which will allow that program to operate more efficiently and increase its value and usefulness to shippers. Specifically, the revised tariff sheets will:

1. Shorten the minimum time periods for a release that involves a Prearranged Bidder, to permit such a release request to be initiated closer to the proposed commencement date of the release;

2. Define release proposals that may take advantage of shorter deadlines and processing periods as releases of "three months or less," rather than the current definition of "90 days or less," so that proposed releases that include months of 31 days can take advantage of the shorter deadlines and time periods;

3. Eliminate the requirement for the Releasing Shipper with a Prearranged Bidder to warrant that the Prearranged Bidder has entered into a Released Transportation Service Agreement with Kern river that incorporates all terms and conditions of the Release Request. Prearranged Bidders will still be required to prequalify with Kern River by entering into a Released Transportation Service Agreement after demonstrating sufficient creditworthiness.

Kern River states that the revised tariff sheets also update the telephone number of Kern River's Transportation Services Department.

Kern River states that copies of the filing were served upon Kern River Gas Transmission Company's jurisdictional customers all affected State Commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before April 28, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on with the Commission and are available

for public inspection in the Public Reference Room.
